Calendar 2017/2018

FALL SEMESTER 2017

Classes begin / Wednesday 23 August
Registration ends / Wednesday 30 August, 11:59 p.m.
Deadline to pay fall charges / Thursday 31 August
Family Weekend / Friday 15 September–Sunday 17 September
Homecoming and related activities / Sunday 1 October–Saturday 7 October
Fall break / Thursday 12 October–Friday 13 October
Thanksgiving holidays / Saturday 18 November–Sunday 26 November
Classes end / Thursday 7 December
Reading days and examinations / Friday 8 December–Saturday 16 December
Fall semester ends / Saturday 16 December

SPRING SEMESTER 2018

Deadline to pay spring charges / Tuesday 2 January
Classes begin / Monday 8 January
Registration ends / Monday 15 January, 11:59 p.m.
Spring holidays / Saturday 3 March–Sunday 11 March
Classes end / Monday 23 April
Reading days and examinations / Tuesday 24 April–Thursday 3 May
Commencement / Friday 11 May

MAYMESTER 2018

Classes begin / Monday 7 May
Classes end; examinations / Friday 1 June

SUMMER SESSION 2018

Classes begin / Tuesday 5 June
Examinations for first-half courses / Friday 6 July
Second-half courses begin / Tuesday 10 July
Examinations for second-half and full-term summer courses / Friday 10 August

Vanderbilt University
2017/2018

Containing general information and courses of study for the 2017/2018 session corrected to 16 June 2017
Nashville
The university reserves the right, through its established procedures, to modify the requirements for admission and graduation and to change other rules, regulations, and provisions, including those stated in this catalog and other publications, and to refuse admission to any student, or to require the withdrawal of a student if it is determined to be in the interest of the student or the university. All students, full- or part-time, who are enrolled in Vanderbilt courses are subject to the same policies. Policies concerning noncurricular matters and concerning withdrawal for medical or emotional reasons can be found in the Student Handbook, which is on the Vanderbilt website at vanderbilt.edu/student_handbook.

NONDISCRIMINATION STATEMENT

In compliance with federal law, including the provisions of Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendment of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act (ADA) of 1990, the ADA Amendments Act of 2008, Executive Order 11246, the Vietnam Era Veterans Readjustment Assistance Act of 1974 as amended by the Jobs for Veterans Act, and the Uniformed Services Employment and Reemployment Rights Act, as amended, and the Genetic Information Nondiscrimination Act of 2008, Vanderbilt University does not discriminate against individuals on the basis of their race, sex, sexual orientation, gender identity, religion, color, national or ethnic origin, age, disability, military service, covered veterans status, or genetic information in its administration of educational policies, programs, or activities; admissions policies; scholarship and loan programs; athletic or other university-administered programs; or employment. In addition, the university does not discriminate against individuals on the basis of their gender expression consistent with the university’s nondiscrimination policy. Inquiries or complaints should be directed to Anita J. Jenious, J.D., Director and Title IX Coordinator; the Equal Opportunity, Affirmative Action, and Disability Services Department; Baker Building; PMB 401809, 2301 Vanderbilt Place; Nashville, TN 37240-1809. Telephone (615) 322-4705 (V/TDD); FAX (615) 343-4969.

The University

COMMODORE Cornelius Vanderbilt, who gave a million dollars to build and endow Vanderbilt University in 1873, expressed the wish that it "contribute . . . to strengthening the ties which should exist between all geographical sections of our common country."

A little more than a hundred years later, the Vanderbilt Board of Trust adopted the following mission statement: "We reaffirm our belief in the unique and special contributions that Vanderbilt can make toward meeting the nation’s requirements for scholarly teaching, training, investigation, and service, and we reaffirm our conviction that to fulfill its inherited responsibilities, Vanderbilt must relentlessly pursue a lasting future and seek highest quality in its educational undertakings."

Today as Vanderbilt pursues its mission, the university more than fulfills the Commodore’s hope. It is one of a few independent universities with both a quality undergraduate program and a full range of graduate and professional programs. It has a strong faculty of more than 3,800 full-time members and a diverse student body of more than 12,500. Students from many regions, backgrounds, and disciplines come together for multidisciplinary study and research.

The 330-acre campus is about one and one-half miles from the downtown business district of the city of Nashville, combining the advantages of an urban location with a peaceful, park-like setting of broad lawns, shady paths, and quiet plazas.

Off-campus facilities include Vanderbilt Dyer Observatory, situated on a 1,131-foot hill six miles south.

The schools of the university offer the following degrees:

- College of Arts and Science. Bachelor of Arts.
- Blair School of Music. Bachelor of Music.
- Divinity School. Master of Divinity, Master of Theological Studies.
- School of Engineering. Bachelor of Engineering, Bachelor of Science, Master of Engineering.
- Graduate School. Master of Arts, Master of Fine Arts, Master of Liberal Arts and Science, Master of Science, Doctor of Philosophy.
- School of Medicine. Master of Education of the Deaf, Master of Public Health, Master of Science in Clinical Investigation, Master of Laboratory Investigation, Master of Science in Medical Physics, Master of Science (Applied Clinical Informatics, Speech-Language Pathology), Doctor of Audiology, Doctor of Medical Physics, Doctor of Medicine.
- School of Nursing. Master of Science in Nursing, Doctor of Nursing Practice.
- Owen Graduate School of Management. Master of Accountancy, Master of Business Administration, Master of Management in Health Care, Master of Marketing, Master of Science in Finance.
- Peabody College. Bachelor of Science, Master of Education, Master of Public Policy, Doctor of Education.

No honorary degrees are conferred.

Mission, Goals, and Values

Vanderbilt University is a center for scholarly research, informed and creative teaching, and service to the community and society at large. Vanderbilt will uphold the highest standards and be a leader in the

- quest for new knowledge through scholarship,
- dissemination of knowledge through teaching and outreach,
- creative experimentation of ideas and concepts.

In pursuit of these goals, Vanderbilt values most highly

- intellectual freedom that supports open inquiry,
- equality, compassion, and excellence in all endeavors.

Accreditation

Vanderbilt University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, professional, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call (404) 679-4500, or visit sacscoc.org for questions about the accreditation of Vanderbilt University.

Please contact the commission only in relation to Vanderbilt’s noncompliance with accreditation requirements. Normal inquiries about admission requirements, educational programs, and financial aid should be directed to the university.

Equity, Diversity, and Inclusion

The Office for Equity, Diversity, and Inclusion is responsible for advocating for institutional change, working with university stakeholders to set goals and institutionalize accountability, and ensuring that equity, diversity, and inclusion efforts are coordinated throughout Vanderbilt University for students, faculty, and staff. The office provides unconscious bias education, diversity education, campus conversations, and centralized communication and promotion of diverse news and events. Its mission is to be intentional about and accountable for the advancement of equity, diversity, and inclusion in institutional programs for the entire Vanderbilt University community. Visit vanderbilt.edu/equity-diversity-inclusion for more information.

Jean and Alexander Heard Libraries

Vanderbilt’s Jean and Alexander Heard Libraries house nearly five million items and provide access to millions more resources through nine campus libraries: Central Library (A&S); Peabody Library; Eskind Biomedical Library; Walker Management Library; Wilson Music Library; Massey Law Library; Stevenson Science and Engineering Library; Divinity Library; and Special Collections Library. These libraries share an online portal that provides access to an integrated catalog of print and e-resources, as well as information about library services, workshops, programs, exhibitions, research guides, and librarian subject specialists.

Library staff teach students to be information literate and help them develop research skills in an increasingly complex information environment. Students can connect with a librarian in person or ask questions through the library website.
Library spaces across campus offer quiet individual study spaces, group study, and instructional rooms, as well as learning commons and cafes. Faculty- and student-curated exhibitions throughout the libraries offer intellectual and creative insights that encourage students to think critically and see their own work in new ways. Students, faculty, and staff come to the library to read in a cozy nook, meet friends for group study, grab a quick meal, or see an exhibition. Even if you are off campus, digital library resources are at your fingertips via your phone, laptop, or computer.

The oldest item in the library dates from ca. 2500 BCE, and new publications are being added every day. Among the collection strengths are: Latin American history, politics, and culture; the History of Medicine Collection; the W. T. Bandy Center for Baudelaire and Modern French Studies; the Southern Literature and Culture Collections; and the Vanderbilt Television News Archive, the world’s most extensive archive of television news covering 1968 to present. The libraries are also involved in digital scholarship, publishing and partnering with faculty on the Revised Common Lectionary, one of the first published web-based resources of scriptural readings for the liturgical year, Ecclesiastical and Secular Sources for Slave Societies, a digital preservation program for endangered documents related to slave societies, the Global Music Archive, a multimedia archive for traditional and popular song, music, and dance of Africa and the Americas, and Syriaca, a digital project for the study of Syriac literature, culture, and history.

Get to know your libraries and your librarians early in your career at Vanderbilt. The libraries have the information you need and can help you transform that information into knowledge, creativity, and success.

Information Technology

Vanderbilt University Information Technology (VUIT) offers voice, video, data, computing, and conferencing services to Vanderbilt students, faculty, and staff, and provides free antivirus downloads and malware prevention in the residence halls and many campus areas.

VUIT maintains and supports VUnet, the campuswide data network that provides access to the internet, and AccessVU, the authentication service that enables Vanderbilt users to securely identify themselves to many services on VUnet. Those services include YES, Your Enrollment Services; Brightspace; and VU Gmail, the university’s email system of choice for Vanderbilt undergraduates.

It is important to note that many wireless consumer electronic devices interfere with VUnet, and in worst-case circumstances, could even cause degradation to network service. These devices are prohibited and include, but are not limited to, routers, access points (APs), or AirPorts manufactured by companies such as Apple, Belkin, D-Link, and Linksys. Additionally, settings for smartphone hotspots and wireless connectivity for printers and other devices must be disabled to prevent interference with university wireless APs.

VUIT partners with Sprint, Verizon, and AT&T to offer discounts for cellular phone service. For discount information see it.vanderbilt.edu/cellphone.

Vanderbilt offers all students low-cost and free-of-charge software, including Microsoft Office and Microsoft Windows. See softwarestore.vanderbilt.edu for a complete product catalog and more information.

For campus residents, VUIT supports ResNet, which provides a direct connection to VUnet and the internet. Cable television ports are provided in each campus residence.

VUIT offers various conferencing and collaboration services for students. In addition to Gmail at Vanderbilt, undergraduates can enjoy Google drive and Google hangouts (among other Google services) at google.vanderbilt.edu. Audio and video conferencing are also available. See it.vanderbilt.edu/services/collaboration for more information.

The Tech Hub provides information to students, faculty, and staff about VUnet and VUnet services. Tech Hub locations, hours, contacts, and other information can be found at it.vanderbilt.edu/techhub.

For more information on IT services and computing at Vanderbilt, go to it.vanderbilt.edu.

Commencement

The university holds its annual Commencement ceremony following the spring semester. Degree candidates must have completed successfully all curriculum requirements and have passed all prescribed examinations by the published deadlines to be allowed to participate in the ceremony. A student completing degree requirements in the summer or fall semester will be invited to participate in Commencement the following May; however, the semester in which the degree was actually earned will be the one recorded on the diploma and the student’s permanent record. Financially clear students unable to participate in the graduation ceremony will receive their diplomas by mail. Please refer to the Commencement webpage at vanderbilt.edu/commencement for complete information on the May ceremony.

EMILIE M. TOWNES, Ph.D., Dean of the Divinity School
MARK WAIT, D.M.A., Dean of Blair School of Music
MARK T. WALLACE, Ph.D., Dean of the Graduate School
Special Programs for Undergraduates

Study Abroad

Vanderbilt offers study abroad opportunities for all undergraduate students from the College of Arts and Science, Blair School of Music, School of Engineering, and Peabody College. Programs are available for the semester, full academic year, summer, and Maymester. Students may study abroad any time after their freshman year at Vanderbilt. Through Vanderbilt study abroad programs with our own resident directors and through additional programs provided by agreements with other universities and providers, Vanderbilt students can take direct credit courses in Argentina, Australia, Austria, Brazil, Canada, Chile, China, Cuba, the Czech Republic, Denmark, the Dominican Republic, Egypt, France, Germany, Hungary, India, Ireland, Israel, Italy, Japan, Jordan, Kenya, Morocco, Nepal, the Netherlands, New Zealand, Russia, Samoa, Senegal, Serbia, Singapore, South Africa, Spain, Switzerland, Uganda, the United Kingdom, and Vietnam.

Study abroad programs are open to students in good academic, financial, and disciplinary standing, with an overall grade point average of 2.700 or better, or a grade point average at this level in each of the two most recent semesters. Many programs require a higher grade point average and, with the exception of Vanderbilt’s program in France, the student’s application must also be approved by the appropriate host university, institute, or consortium. Study abroad programs that are either managed or approved by Vanderbilt offer direct credit toward the Vanderbilt degree. With the exception of AXLE credit, hours earned through these programs and approved in advance by the appropriate department are treated as if earned on the Nashville campus and serve to satisfy the residence requirement (see the chapter on Academic Regulations).

Students studying on Vanderbilt programs or Vanderbilt-approved programs for the academic year or semester are eligible for federal and VU financial aid. This includes merit scholarships but excludes work-study. All participants in direct-credit programs are billed through Vanderbilt Student Accounts and must pay Vanderbilt tuition, an administrative fee, and a program fee, which includes housing and international health insurance.

It should be noted, however, that if a program has been approved for direct credit by Vanderbilt, it must be taken for direct credit by matriculated Vanderbilt students. In no case, after matriculating at Vanderbilt, may a student apply to participate in an approved direct-credit program for transfer credit through a different university, or through an external agency, and then seek to transfer that credit into Vanderbilt. Other study abroad programs may be approved for transfer credit by the dean of the student’s college/school. Information is available from the Global Education Office (GEO), Suite 103, Student Life Center, and at vanderbilt.edu/geo.

Vanderbilt Programs and Exchange Programs

The oldest Vanderbilt study abroad program is in Aix-en-Provence, France. Vanderbilt in France gives students the opportunity to develop or acquire French skills while also taking French- or English-language courses in a variety of subjects. Residence in France may be for the academic year, the fall or spring semester, or the summer.

The Consortium for Advanced Studies Abroad (CASA) is a partnership of leading universities including Vanderbilt. CASA focuses on offering high-quality study abroad opportunities in select locations around the world. Vanderbilt students can attend CASA programs in Havana, Cuba, and Seville, Spain.

A range of exchange programs offer students an opportunity to study at a partner university. The Institut d’Études Politiques in Paris is a world-renowned institution for study of the social sciences, where Vanderbilt students can learn alongside peers from France and all around the world. At the Politecnico di Torino in Italy, mechanical engineering students can take a variety of courses focused on interdisciplinary and technical excellence. Through the Killam Fellowships Program, administered by Fulbright Canada, students can spend either a semester or a full academic year as an exchange student at one of more than fifteen universities in Canada. At City University of Hong Kong and the Hong Kong University of Science and Technology, engineering students can take courses in engineering, science, and other disciplines in a fast-growing and international city. Budapest University of Technology and Economics offers courses in new interdisciplinary engineering fields. In the Netherlands, Utrecht University and its two honors colleges offer English-language course work in a variety of disciplines including history, economics, math, and the social sciences. Australia’s University of Melbourne offers a full selection of courses, including courses through the Victorian College of the Arts and Music. At the National University of Singapore, students may receive credit in a variety of engineering disciplines. For a complete list of exchange programs, visit vanderbilt.edu/geo.

In addition, programs are offered via direct enrollment at the University of the Balearic Islands in Palma de Mallorca, Spain; at American University in Cairo, Egypt; at Hebrew University in Jerusalem, Israel; in Metz, France, for engineering students in affiliation with the Georgia Institute of Technology (Georgia Tech); in Dresden, Germany, for engineering students in affiliation with Boston University; and in Rome, Italy, through the Intercollegiate Center for Classical Studies (ICCS). The ICCS is a consortium of thirty-seven universities and colleges and is open only to majors in the Program in Classical and Mediterranean Studies. Applications for all of the listed programs are processed through the Global Education Office (GEO). Visit vanderbilt.edu/geo.

Vanderbilt-Approved Programs

Through arrangements with the Council on International Educational Exchange (CIEE), CET Academic Programs (CET), Study Abroad in Scandinavia (DIS), Institute for the International Education of Students (IES), the Institute for International Training (SIT), Vanderbilt students may select from a wide range of study abroad opportunities.

The Council on International Educational Exchange (CIEE) offers programs with a focus on cultural immersion in Australia, Argentina, Brazil, Chile, China, the Dominican Republic, Japan, Russia, Senegal, South Africa, and Spain. CET sponsors Vanderbilt-approved programs in Beijing, Harbin, Kunming,
Vanderbilt Experiential Learning Programs

The Office of Active Citizenship and Service (OACS) offers a number of global and domestic experiential learning programs. These programs offer students opportunities to volunteer in Nashville, to develop leadership skills through organizational management, to improve foreign language proficiency, and to work with NGOs in the U.S. and abroad. For specific information about the different programs, contact OACS in 304 Sarratt Student Center/Rand Hall or visit vanderbilt.edu/oacs/programs.

Joint and Dual Programs

Vanderbilt undergraduates in Blair School of Music, School of Engineering, and Peabody College take their background liberal arts and science courses in the College of Arts and Science—and may take other elective courses in these areas as individual degree programs will allow. In like manner, students in the College of Arts and Science may take courses in the other schools for regular credit toward the liberal arts degree. Students may earn a second major or minor outside of their school, as well.

Several dual programs, combining undergraduate study with work toward a master’s degree, may make possible saving a year in the time required to complete both degrees. Details of the various dual programs will be found in the appropriate school sections of this catalog.

Preparation for Careers in the Health Professions

Study programs leading to careers in medicine, dentistry, veterinary science, pharmacy science, and many related areas are under the general supervision of Professor Michelle Grundy, director of the Health Professions Advisory Office.

Medicine

There is no formal premedical program of courses at Vanderbilt. Each student should plan a program to meet individual requirements. Premedical studies should include whatever courses may be necessary to meet medical school admission requirements and to satisfy the requirements of the student’s undergraduate degree program. Students interested in premedical studies should plan their undergraduate programs in consultation with Professor Grundy and their primary academic adviser. Details of the 2017 MCAT and additional useful information are at as.vanderbilt.edu/hpao.

Students are encouraged to consult the directory Medical School Admission Requirements: United States and Canada, published online by the Association of American Medical Colleges, as a guide to planning their undergraduate programs. A link to the guide can be found on the HPAO website. Additional information on preparation for medical study can be found in the College of Arts and Science section of this book.

See the Vanderbilt University School of Medicine Catalog for the official statement on minimum requirements for admission to Vanderbilt University School of Medicine.

Nursing

Students interested in nursing may earn both a baccalaureate degree in a non-nursing major and a master of science in nursing (M.S.N.) degree in five calendar years. Interested students apply for admission to either the College of Arts and Science or Peabody College and indicate on their applications that pre-nursing is their intended program of studies. In addition to their faculty advisers in the College of Arts and Science or Peabody, pre-nursing students will be assigned faculty advisers in the School of Nursing to assist them in planning their program of studies.

Pre-nursing students in the College of Arts and Science obtain both the baccalaureate degree and the M.S.N. degree by combining three and one-half years (a minimum of 105 earned hours) of study in the College of Arts and Science with six semesters of study in the School of Nursing. Students will receive the baccalaureate from the College of Arts and Science at the end of the eighth semester under the senior-in-absentia program, and the M.S.N. from the School of Nursing after completing a minimum of five additional consecutive semesters of study. This program of study requires that students complete the general curriculum requirements (including AXLE and major) for the baccalaureate degree and satisfy the prerequisite courses for admission to the School of Nursing. The first three semesters in nursing are accelerated generalist nursing courses and serve as a “bridge” into the Master of Science in Nursing program by preparing students for the NCLEX exam to become a Registered Nurse (R.N.). These courses also provide the foundation equivalent to the bachelor’s degree in nursing for course work in the selected nursing specialty. Upon completion of three semesters of pre-specialty courses, students enter a minimum of an additional three-semester sequence of courses in their declared specialty in order to earn the M.S.N. degree.

Students must apply to the School of Nursing and to the Administrative Committee of the College of Arts and Science for admission to the senior-in-absentia program by November 1 of their junior year. Students are subject to all School of Nursing admission requirements, and no student is assured of admission to the School of Nursing. Up to 16 hours of School of Nursing courses approved by the College of Arts and Science may be counted toward completion of the undergraduate degree. Upon acceptance to the School of Nursing, students will be assigned an adviser and should schedule an advising appointment.
Pre-nursing students at Peabody College may either (a) complete a major in child development and earn a B.S. through a senior-in-absentia program or (b) complete a major in human and organizational development and earn a B.S. through a senior-in-absentia program. Upon admission to the School of Nursing, the student is required to complete six semesters (two calendar years) of full-time study to earn the M.S.N. Additional information may be found in the Peabody College section of this catalog.

Admission to the Graduate Nursing Program. Prior to admission to the School of Nursing, applicants must have completed prerequisite courses, including the following:

A required introductory course in statistics that includes descriptive and inferential statistical techniques;
Mathematics 1010–1011, Mathematics 2820, or Peabody Psychology 2110 will fulfill this requirement.

Eleven hours of natural science courses. Courses in human anatomy and physiology (Nursing 3101 and 3102) and microbiology (Nursing 1500) are required.

Three hours of lifespan development are required. Human and Organizational Development 1250, Applied Human Development; or Peabody Psychology 1250, Developmental Psychology, will fulfill the lifespan development requirement.

Two hours of nutrition are required. Nursing 1601, Introduction to Nutritional Health, fulfills the requirement for nutrition.

Admission to the School of Nursing is competitive. Consult the School of Nursing catalog for specific requirements and admission procedures. Students are encouraged to write or call the School of Nursing’s Office of Admissions, 217 Godchaux Hall, Nashville, Tennessee 37240, (615) 322-3800, or see the website, nursing.vanderbilt.edu, for further explanation of pre-nursing and graduate nursing programs.

Preparation for Other Professional Careers

Architecture, Law, and Journalism
Undergraduate students expecting to pursue architecture, law, or journalism at the graduate level may earn any major at Vanderbilt, but should be aware of graduate field requirements. See the chapter on Special Programs in the College of Arts and Science section of this catalog.

Teacher Licensure Programs
Vanderbilt offers programs through Peabody College leading to licensure for teaching. Students seeking teacher licensure should refer to the Peabody College section of this catalog. Students seeking licensure in music should see the Blair School of Music section of this catalog.

Undergraduate students in the College of Arts and Science, Blair School of Music, the School of Engineering, or Peabody College who are seeking licensure in early childhood, elementary, or secondary education must complete a major outside of teacher education and a Peabody College education major. Licensure in special education fields does not require a second major.

Undergraduate Business Minor

Vanderbilt University offers a transinstitutional, interdisciplinary undergraduate minor in business that is jointly administered by the Blair School of Music, the College of Arts and Science, the Owen Graduate School of Management, Peabody College, and the School of Engineering. The undergraduate business minor requires 16.5 credit hours and is directed by Gary Kimball.

The undergraduate business minor (BUS) provides students with a rigorous exposure to the fundamental business disciplines of financial reporting, finance, organizational behavior, marketing, and operations. The undergraduate business minor also intentionally grounds the study of business within the liberal arts tradition, allowing students to understand the context within which business operates in society.

Students declaring the undergraduate business minor (BUS) may not also declare any of the minors in human and organizational development (HOD), engineering management (ENGM), or managerial studies minors in corporate strategy (MGCS) and financial economics (FNEC). Students electing the undergraduate business minor must follow academic regulations regarding minors in their home school, including but not limited to regulations regarding unique hours. Due to the offering of the undergraduate business minor, first-year students entering in the fall of 2016 or later may not declare the minors in managerial studies.

Four of the five mandatory courses in the undergraduate business minor require one of the following prerequisites, which may be completed in any order or simultaneously; Advanced Placement (AP) or International Baccalaureate (IB) credit may be used to satisfy the Microeconomics prerequisite.

1. Introductory Microeconomics: ECON 1020
2. Introductory Statistics: One of BME 3200, ECON 1500, ECON 1510, MATH 1011, MATH 2810, MATH 2820, MATH 2821, PSY 2100, PSY-PC 2110, or SOC 2100

The Undergraduate Business Minor

The undergraduate business minor (BUS) requires 16.5 credit hours of course work, distributed as follows:

1. 7.5 credit hours of required course work composed of 5 half-semester courses listed below. While not required, it is recommended that students complete the five required courses prior to fulfilling the elective requirement.

   BUS 2100 Essentials of Financial Reporting (1.5 hours)
   BUS 2300 Principles of Finance (1.5 hours)
   BUS 2400 Organizational Behavior (1.5 hours)
   BUS 2600 Principles of Marketing (1.5 hours)
   BUS 2700 Managing Operations (1.5 hours)

2. At least 6 credit hours of courses selected from one or more of the seven “BUS pathways” (entrepreneurship, ethics, finance and accounting, marketing and advertising, operations, organizational effectiveness, and strategy).

3. At least 3 credit hours of courses selected either from the “BUS pathways” or from the “business-in-society” electives. “Business-in-society” electives represent business-related disciplines in the liberal arts tradition, and are listed following the “BUS pathway” electives below.
### BUS Pathways

**Entrepreneurship**
- ENGM 3600 Technology-based Entrepreneurship
- MGRL 3200 Entrepreneurship: The Business Planning Process
- MGRL 3300 Entrepreneurial Challenge
- MGRL 3841 Directed Study: Entrepreneurial Studio
- SOC 3206 Creativity and Innovation in Society

**Ethics**
- HODC 3232 Ethics for Human Development Professionals
- PHIL 1100 Introduction to Business Ethics
- PHIL 3609 Ethics and Business

**Finance and Accounting**
- ECON 2300 Money and Banking
- ECON 3200 Public Finance
- ECON 3300 Financial Instruments and Markets
- ECON 3610 International Finance
- FNEC 1605 Advanced Financial Accounting
- FNEC 2600 Managerial Accounting
- FNEC 2705 Advanced Corporate Finance
- FNEC 3700 Investment Analysis
- FNEC 3705 Financial Management
- FNEC 3710 Corporate Valuation

**Marketing and Advertising**
- ENGM 3200 Technology Marketing
- MGRL 3200 Advanced Marketing
- MGRL 3209 Creative Advertising
- MGRL 3891 Selected Topics in Managerial Studies – Advertising Studio

**Operations**
- ENGM 3000 Enterprise Systems Design
- ENGM 3650 Operations and Supply Chain Management
- ENGM 3700 Project Management

**Organizational Effectiveness**
- CMST 2120 Organizational and Managerial Communication
- HODL 3240 Effectiveness in International For-Profit Organizations
- HODL 3244 Leadership Theory and Practice
- HODL 3224 Analyzing Organizational Effectiveness
- HODL 3234 Advanced Organizational Theory
- HODL 3244 Introduction to Human Resource Development
- HODL 3254 Human Resource Management
- HODL 3264 Evidence-based Practice in Organizations
- HODL 3274 Managing Organizational Change
- HODL 3314 Strategic Planning and Project Management
- PSY 3605 Industrial and Organizational Psychology
- SOC 3615 Human Behavior in Organizations

**Strategy**
- ECON 2160 Strategic Analysis
- ECON 3250 Industrial Organization
- ECON 4260 Game Theory with Economic Applications
- MGRL 3105 Negotiation
- MGRL 3110 Business Management
- MGRL 3255 Advanced Corporate Strategy

**Business-in-Society Electives**
- ANTH 3135 Development, Social Enterprise, Social Injustice
- ANTH 4153 Economic Anthropology
- CHIN 4401 Business Chinese I
- CHIN 4402 Business Chinese II
- ECON 2100 Labor Economics
- ECON 2150 U.S. Economic History
- ECON 2220 Latin American Development
- ECON 3100 Wages, Employment, and Labor Markets
- ECON 3160 Economic History of Europe
- FREN 3111 French for Business
- GER 2216 Business German
- HIST 1600 European Economic History, 1000-1700
- HIST 1640 History of American Capitalism
- HIST 1660 American Enterprise
- HIST 2138 Blood Diamonds, Blood Oil, Commodities, and Conflicts in Africa
- HIST 3190 Religion, Culture, and Commerce: the World Economy in Historical Perspective
- HIST 3200 Poverty, Economy, and Society in Sub-Saharan Africa
- HODL 3890 Special Topics: Introduction to Data Science
- MENT 1120 The Business of Music
- MENT 1130 Building Communities through Music and the Arts
- MENT 1135 Arts Administration: Best Practices and Careers in the Arts Organization
- MENT 1140 Creating Funding and Nonprofit Vehicles for 21st-Century Community Service
- PSY-PC 2120 Statistical Analysis
- PSY-PC 3735 Correlation and Regression
- PSY-PC 3749 Applied Nonparametric Statistics
- SOC 1020 Contemporary Social Issues: Corporations and Society
- SOC 3316 Business, Civil Society, and the Environment
- SOC 3318 Sociology of Green Jobs
- SPAN 3345 Spanish for Business and Economics

**Course Descriptions**

**BUS 2100. Essentials of Financial Reporting.** Emphasis on mandated corporate disclosure. Economic concepts that guide the development and use of accounting conventions as well as the institutional context that disciplines producers and users. Prerequisite: ECON 1020. [1.5]

**BUS 2300. Principles of Finance.** Emphasis on asset valuation. Stock and bond valuation, capital budgeting, cost of capital, market efficiency, and company valuation. Prerequisite: BUS 2100, BUS 2300, BUS 1500, BUS 1510, MATH 1011, MATH 2810, MATH 2820, MATH 2821, PSY 2100, PSY-PC 2110, or SOC 2100. [1.5]

**BUS 2400. Organizational Behavior.** Accomplishing goals by effectively working with, and through others. The units of analysis explored are individuals, teams, and organizations. [1.5]

**BUS 2600. Principles of Marketing.** Success in business is driven by providing goods and services that consumers need and want. This course covers how to achieve such success through analyses of companies, customers, and competitors, and making the right decisions regarding what products to offer, and how to price, promote, and distribute them. Course content spans a wide variety of settings including consumer goods, hi-tech, and service firms, and puts a particular emphasis on digital marketing opportunities and the evolving role of social media. Prerequisite: one of BUS 3200, BUS 1500, BUS 1510, MATH 1011, MATH 2810, MATH 2820, MATH 2821, PSY 2100, PSY-PC 2110, or SOC 2100. [1.5]

**BUS 2700. Managing Operations.** Provides an overview of operations in both service and manufacturing organizations. Process analysis, queueing, inventory management, quality management, lean operations, and optimization. Prerequisite: ECON 1020 and one of BUS 3200, BUS 1500, BUS 1510, MATH 1011, MATH 2810, MATH 2820, MATH 2821, PSY 2100, PSY-PC 2110, or SOC 2100. [1.5]

**University Courses**

By tackling pressing real-world problems and addressing big questions, University Courses educate the whole student and promote lifelong learning. The courses leverage the natural synergies across Vanderbilt’s ten schools and colleges, giving students the opportunity to reach beyond their area of study.
and interact with faculty at the intersection of disciplines. Each course promotes transinstitutional learning while providing opportunities to embrace diverse perspectives. For more information, visit vu.edu/university-courses.

**Officer Education Programs**

**Air Force Reserve Officer Training Corps (AFROTC)**

The Air Force Reserve Officer Training Corps (AFROTC) provides pre-commission training for college men and women who desire to serve as commissioned officers in the United States Air Force. When combined with the academic disciplines offered at the college level, the program provides the student a broad-based knowledge of management, leadership, and technical skills required for a commission and subsequent active-duty service in the Air Force.

Graduates are commissioned as Second Lieutenants and will enter active duty. The main objectives of producing officers through the AFROTC program are (1) to procure officers with a broad educational base, (2) to provide a basic military education for college students, (3) to teach fundamentals and techniques of leadership, management, and decision making, and (4) to develop, in conjunction with other academic disciplines, individual character and attributes required of a commissioned officer in the United States Air Force.

**AFROTC Program/Scholarships**

Enrolling in AFROTC. Please go to www.tnstate.edu/afrotc for application deadlines. Vanderbilt University students may participate in the Air Force ROTC program in cooperation with Tennessee State University. Call Detachment 790, (615) 963-5980, and ask for a Cross-Town Application. Mail this application and your official transcripts with your immunization records back to Detachment 790. The program provides training and education that will develop skills and attitudes vital to the professional Air Force officer.

Students who participate in the Air Force ROTC program must be enrolled at Vanderbilt University. The student is also jointly enrolled as a TSU student and participates in Aerospace Studies (Air Force ROTC) at TSU. For more information, contact the unit admissions officer at (615) 963-5931/5979 or check our website at www.tnstate.edu/afrotc.

Currently there is no charge for tuition to take Air Force ROTC. The grade and credit can transfer back for graduation as indicated below.

Curriculum. The General Military Course (GMC) is composed of the first four semesters of aerospace studies (AERO) and is for freshmen and sophomores. The Professional Officer Course (POC) constitutes the final four semesters of AFROTC study and enrolls juniors and seniors. The Leadership Lab is required.

General Benefits

All students enrolled in the AFROTC program are provided textbooks and uniforms at no expense. Professional Officer Course (POC) students (juniors and seniors) and all scholarship students receive a monthly subsistence allowance of up to $500 tax-free. Additionally, Vanderbilt University offers a generous stipend to all AFROTC cadets.

Sponsored Activities

Arnold Air Society is a national society of AFROTC cadets who excel in character and academics and exhibit interests in the study of aerospace technology. The group meets at TSU. Professional Development Training is provided during the summers to cadets interested in enhancing their knowledge of Air Force leadership and management opportunities, increasing their cultural awareness, and learning about specific career specialties.

AFROTC Flight Orientation Program is designed to allow all cadets, regardless of intended career field, the chance to fly as front seat or back seat passengers in Civil Air Patrol aircraft. Everyone can experience the joy of flight.

**Aerospace Studies Courses at TSU**

**FRESHMAN YEAR**

- Foundations of the United States Air Force (no credit at Vanderbilt)
- The Evolution of USAF Air and Space Power (transfers as GNEL 2000)

**SOPHOMORE YEAR**

- Air Force Leadership Studies (transfers as HOD 2051)

**JUNIOR YEAR**

- National Security Studies/Preparation for Active Duty (no credit at Vanderbilt)

**SENIOR YEAR**

- Aerospace Studies Courses at TSU
- The Army Reserve Officers’ Training Corps (ROTC)**

The Army Reserve Officers’ Training Corps (ROTC) is a sequential and progressive academic program that provides pre-commission training for college-educated men and women who desire to serve as commissioned officers in the active Army, Army Reserve, and Army National Guard. As the Army’s largest commissioning source, it fulfills a vital role in providing mature young men and women for leadership and management positions in an increasingly technological Army. Admission is open to both men and women who meet mental, moral, and physical qualifications.

Training goes beyond the typical college classroom and is designed to build individual confidence and self-discipline, instill values and ethics, and develop leadership skills. The course load consists of one course per semester. Each succeeding year will address course topics in greater depth as students receive feedback on their leadership style and assume positions of greater responsibility within the program. Graduates are commissioned as Second Lieutenants and will enter active duty with follow-on employment in the Army Reserves, National Guard, or active duty. Educational delays may be granted for graduates who desire to pursue advanced degrees prior to entry on active duty.

All university students in the Nashville area may participate in the Army ROTC program at Vanderbilt University. While Vanderbilt serves as the host university, students at partnership schools are not charged additional tuition to take military science courses. Grades are transferred back to each university and added to the students’ transcripts.

Scholarships. Students can earn merit scholarships in several ways. High school seniors and graduates compete for four-year scholarships that are determined by local competition among Vanderbilt applicants. Although determined locally, the application process is centrally managed. Scholarship students receive financial benefits that cover the cost of full tuition scholarships each year, an annual $1,200 book allowance, all uniforms, and a monthly tax-free stipend beginning at $300 for freshmen and increasing to $500 for
seniors. Vanderbilt University also provides Vanderbilt ROTC scholarship students an additional $6,000 tuition grant each year for room and board. Students who are not on scholarship receive the monthly stipend during their junior and senior years. All students enrolled in the Army ROTC program are provided textbooks and uniforms at no expense. Contracted non-scholarship students also receive the monthly stipend from $300 to $500 depending on the academic level. For more information, see the website at goarmy.com/rotc.html.

**Summer training.** Students have the opportunity to attend several training events over the summer.

**Advanced Camp** — This five-week leadership exercise at Fort Knox, Kentucky, is a commissioning requirement. This is normally done between the junior and senior years. Travel, room, and board are provided free, and cadets are paid approximately $700.

**Cultural Understanding and Language Program (CULP) Internships** — Students are encouraged to spend a semester, special or summer session in academic studies abroad if feasible. Special incentives are available to further attract qualified students to these valuable programs.

**Cadet Troop and Leadership Training Internships (CTLT)** — CTLT Internships are leadership development opportunities for students who are placed with military organizations throughout the world to gain perspective and understanding on the role of the military officer.

**Cadet Professional Field Training (CPFT)** — Airborne, Air Assault, Mountain Warfare, Robin Sage (U.S. Special Forces), Helicopter Flight Training, and Sapper.

Other training opportunities exist for qualified applicants who are interested.

**Commissioning and career opportunities.** A commission in the U.S. Army is a distinctive honor earned through hard work, demonstrated commitment, and a desire to serve the nation. Post-graduate military education, usually starting within six months of graduation and commissioning and continuing through the officer’s service career, begins with the basic officer leadership course followed by officer basic course that qualify new lieutenants in their specific branch of service. Education delays are available for critical specialties requiring postgraduate civilian education such as law and medical degrees.

**Course credit.** During the four-year program, Army ROTC students complete eight courses of military science plus associated labs. Academic credit varies by university.

**Vanderbilt University College Credit:** All AROTC courses count toward elective credit. See course descriptions below.

**Information.** Inquiries regarding enrollment in the Army ROTC program should be made to the Army ROTC Admissions Officer at (615) 322-8550 or (800) 288-7682 (1-800-VUROTC). Also see vanderbilt.edu/army.

**Military Science Department**

**COMMANDING OFFICER** Brian D. Gilbert

**MILITARY INSTRUCTORS** Brian D. Gilbert, Gabriel C. Cleveland, Matthew Mount, Christopher McGhee

**Military Science Courses**

During the four-year program, Army ROTC students complete eight courses of military science plus associated labs, and must complete an American Military History course and Advanced Camp.

**FIRST YEAR**

**MS-PC 1210. Leadership and Personal Development.** (Formerly MS 111). Leadership is one of the most compelling topics of our time, and might be one of the most important attributes for effectiveness in all levels of human endeavor. The success of one of the most admired and respected institutions in our country, the military, is founded upon the understanding and effective application of leadership, and the development of leaders. This course introduces students to the personal challenges and competencies that are critical to effective leadership. The focus is on developing basic knowledge and comprehension of leadership attributes and core leader competencies in a universal setting and exploring potential applications of these principles and practices at Vanderbilt, in the military and in the corporate world. [1]

**MS-PC 1210L. Leadership and Personal Development Lab.** (Formerly MS 111a). Leader development is a continuous process of training, assessment and feedback with the goal of instilling and enhancing desirable behavior in individuals and organizations. Within the military science curriculum, this process is called the Leadership Development Program (LDP), modeled after the principles spelled out in Field Manual 22-100, Army Leadership, and is standardized both on campus and in Advanced Camp environments. The flexible methodology of LDP accommodates personalized, individual development at all levels of proficiency throughout the officer educational experience, from program entry to commissioning. The LDP includes basic leadership training, periodic assessment and counseling at both team and individual levels by experienced observers. Trends and deficiencies are identified and addressed with retraining and reassessment in a continuous cycle. Effective leader development is progressive, building on lessons learned and maximizing individual potential. This course introduces students to the leadership development process by providing structured leadership opportunities in a variety of training settings. Student performance in leadership roles is assessed and notable strengths and weaknesses are identified. A plan for improvement is discussed in detail during one-on-one counseling sessions. [1]

**MS-PC 1230. Leadership and Personal Development II.** (Formerly MS 113). What motivates others to follow a person is intriguing, inspiring and alluring. Through routine observation, we learn from leaders regardless of the setting (military, business, education, etc.). Leadership and Personal Development II provides an overview of leadership fundamentals such as setting direction, problem solving, listening and providing feedback. You will explore dimensions of leadership, values, attributes, skills, and actions in a military context through practical, hands-on, and interactive exercises. [1]

**MS-PC 1230L. Leadership and Personal Development II Lab.** (Formerly MS 113a). Leader development is a continuous process of training, assessment and feedback with the goal of instilling and enhancing desirable behavior in individuals and organizations; this process is called the Leadership Development Program. Effective leader development is progressive, building on lessons learned and maximizing individual potential. This course introduces students to the leadership development process by providing structured leadership opportunities in a variety of training settings. A plan for improvement is discussed in detail during one-on-one counseling sessions. [1]

**SOPHOMORE YEAR**

One American Military History course, chosen from the following:

- **HIST 1730. The U.S. and the Cold War.**
- **HIST 1740. The U.S. and the Vietnam War.**
- **HIST 2720. World War II.**
- **MS-PC 1510. American Military History: Principles of War.** Offered on a pass/fail basis only. [3]
- **PSCI 3272W. The War in Iraq, 2003–2011.**
MS-PC 2150. Foundations of Leadership. MS-PC 2150 introduces the process of understanding and defining leaders in order to develop leadership skills appropriate for future commissioned Army officers. This class is broken down into five key skill development areas: 1) values and ethics, 2) personal development, 3) leadership, and 4) tactics and techniques. The class emphasizes individual leadership values and characteristics with a focus on Leadership Theory and Interpersonal Communications, Army Values, Troop Leading Procedures, Problem Solving, and Team Building in a military environment. [2]

MS-PC 2150L. Foundations of Leadership Lab. (Formerly MS-PC 150a). This lab builds upon the classroom topics in MS-PC 2150 and introduces the process of understanding and defining leaders in order to develop leadership skills appropriate for future commissioned Army officers. The lab is broken down into five key skill development areas: 1) leadership, 2) values and ethics, 3) personal development, 4) professional officership, and 5) various tactics, techniques, and procedures. The lab emphasizes individual leadership values and characteristics with a focus on leadership theory and interpersonal communications, Army values, troop leading procedures, problem solving, and team building in a military environment. [1]

MS-PC 2160. Foundations of Tactical Leadership. (Formerly MS 152). MS-PC 2160 builds upon MS-PC 2150. The class is broken down into five key skill development areas: 1) leadership, 2) values and ethics, 3) personal development, 4) professional officership, and 5) various tactics, techniques, and procedures. During this class we will focus on individual leadership development where the student begins to plan, organize, and lead small teams and groups in situational training exercises. Students begin to apply leadership skills at the smallest unit level. [2]

MS-PC 2160L. Foundations of Tactical Leadership Lab. (Formerly MS 152a). MS-PC 2160L builds upon MS-PC 2150 and MS-PC 2150L. The lab is broken down into five key skill development areas: 1) leadership, 2) values and ethics, 3) personal development, 4) professional officership, and 5) various tactics, techniques, and procedures. During the lab we will focus on individual leadership development where the student begins to plan, organize, and lead small teams and groups in situational training exercises. Students begin to apply leadership skills at the smallest unit level. [1]

MS-PC 3110. Leadership and Problem Solving. (Formerly MS 211). This course builds upon your skills developed in MS-PC 2160 and continues to develop leadership, officership skills, self-awareness, and critical thinking skills through challenging scenarios related to small-unit tactical operations. Cadets receive systematic and specific feedback on their leadership values, attributes, skills, and actions. Prerequisite: MS-PC 1210 (111), 1230 (113), 2150 (150), and 2160 (152). [3]

MS-PC 3120. Applied Team Leadership. (Formerly MS 212). Challenging scenarios related to small-unit tactical operations are used to develop self-awareness and critical thinking skills. Students receive systematic and specific feedback on their leadership values, attributes, skills, and actions. Prerequisite: MS-PC 3110. [3]

SUMMER BETWEEN JUNIOR AND SENIOR YEAR

Cadet Leader Course (1 Cr) — All students pursuing a commission as an Army Officer must complete Advanced Camp during the summer between their junior and senior year. Students may apply for 1 credit hour of academic credit with the designation of interdisciplinary internship (INDS 388i). This course may be taken once and repeated once for a maximum of 2 credits on a Pass/Fail basis only.

SENIOR YEAR

MS-PC 4150. Leadership and Ethics. (Formerly MS 251). Students develop proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing leadership-performance feedback to subordinates. Students are given situational opportunities to assess risk, make sound ethical decisions, and provide coaching and mentoring to fellow ROTC Cadets. Prerequisite: MS-PC 3120. [3]

MS-PC 4160. Leadership in a Complex World. (Formerly MS 252). This course explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment. It introduces the concept of culture, its components, how culture influences human behavior, the impact of culturally influenced behavior on military operations, and how to analyze and apply cultural considerations in the planning and execution of military operations. Prerequisite: MS-PC 4150. [3]

Naval Reserve Officer Training Corps (NROTC)

The Naval Reserve Officer Training Corps (NROTC) unit at Vanderbilt conducts the Naval Officer Education program.

Challenging academic courses and experience-building events prepare a select group of highly accomplished students for the opportunity to serve their country as a Navy or Marine Corps officer and receive an education. The primary focus of the NROTC program is to develop the most capable leaders possible by building upon the academic strength of Vanderbilt and providing essential military and leadership education.

Students participate in the NROTC unit in the scholarship program, the college program, or the naval science program. College Program students take the prescribed naval science course each semester, participate weekly in naval science lab, and engage in summer training programs after each academic year. The NROTC College Program is identical to the scholarship program except for tuition financial benefit and that students only participate in summer training upon completion of their junior academic year. Also, any Vanderbilt student may take any or all of the naval science courses without participating in naval science lab or summer training.

Scholarship students receive tuition, fees, uniforms, $375 per semester for textbooks, and a monthly stipend beginning at $250 for freshmen and increasing to $400 for seniors. Vanderbilt may provide scholarship students with up to a $6,000-per-year stipend toward room and board. College Program students are provided uniforms, textbooks for naval science courses, and a monthly stipend of $350 upon commencement of their junior year with approval by higher authority based on academic performance and military aptitude.

Scholarships. Students can earn scholarships in several ways. Four-year scholarships are determined by national competition among high school seniors and graduates. Based on the national ranking, students may be awarded a scholarship that covers full tuition. To be eligible, applicants must have less than 30 semester hours of college credit. College Program students can also be nominated for three- and two-year scholarships by the NROTC unit. These nominations are based on the students’ academic and military performance at the college level. Sophomores not enrolled in the College Program are eligible to apply for the two-year NROTC scholarship program. This is a national competition and application is made through the NROTC unit.

Service obligation. For most students at the beginning of their sophomore year, should they choose to continue with the NROTC program, Navy option scholarship students incur a minimum service obligation of five years active duty, and Marine option scholarship students incur a minimum service obligation of four years of active duty, to be served upon graduation or withdrawal from the program. College Program students incur a three-year active duty commitment upon graduation or withdrawal from the program. Additional requirements may be required for specific job assignments.

Summer training. Summer training for three to four weeks is conducted aboard naval vessels and naval shore stations after each of the first three academic years. Scholarship students are normally required to participate each year. All scholarship and
College Program midshipmen are required to participate in summer training prior to their final academic year.

Course credit. During the four-year program, NROTC Navy-option students are required to complete eight courses (24 hours) of naval science, and Marine-option students are required to complete six courses (18 hours) of naval science. Academic credit awarded varies by course and is outlined in the course descriptions below.

Required Courses for Navy/Marine Scholarship. The following courses are required for students on scholarship:

- Calculus (Navy option only) (6 credits minimum): Mathematics 1200–1201, or 1300–1301 completed by the end of the sophomore year.
- Physics (Navy option only) (6 credits): 1501–1502 or 1601–1602 completed by the end of the junior year.
- English (6 credits): Two semesters of any English course or courses containing a designated writing component.
- American History/National Security Policy (3 credits):
  - Contact the Naval ROTC unit for a listing of courses fulfilling this requirement.
- World Culture/Regional Studies (Navy option only) (3 credits): Contact the Naval ROTC unit for a listing of courses fulfilling this requirement.

Information. Inquiries regarding enrollment in the Naval ROTC program should be made to the Naval ROTC unit recruiting officer at (615) 322-2671 or (800) 288-01183, or by contacting a local Navy or Marine Corps recruiting station.

Admission to the program is open to both men and women. Physical qualification to Naval Service standards is required.

Naval Science

COMMANDING OFFICER Ted Heflin
EXECUTIVE OFFICER Samuel Brasfield
MARINE INSTRUCTOR David Wood
NAVAL INSTRUCTORS Tyler McClean, Jesse Ochoa, John Underhill

Naval Science Courses

For Navy-option NROTC students, the following naval science courses are required for commissioning: NS 1100, HIST 1690, NS 2410, ES 3231, ES 3230, ES 3233, and NS-PC 4242 and their appropriate labs. For Marine-option NROTC students, the following naval science courses are required for commissioning: NS 1100, HIST 1690, NS 2410, HIST 1692, HIST 1691, and NS-PC 4242 and their appropriate labs. For all courses listed below, the associated lab sections are intended for NROTC students only.

**FIRST YEAR**

- **NS 1100. Introduction to Naval Science.** No credit toward current degree. [3]
- **HIST 1690. Sea Power in History.** An introductory survey of the U.S. Navy’s role in foreign and defense policies from the American Revolution to the present. The course also examines the broad principles, concepts, and elements of sea power throughout history. Key points will include technological advances, inter-service relations, strategies, and governmental policies pertaining to sea power. This course is designed to meet the NROTC requirement. SPRING. [3] (US)

**SOPHOMORE YEAR**

- **NS-PC 2410. Organization and Management.** (Formerly NS 241). This course presents a comprehensive study of organizational behavior and management with special emphasis on situational leadership in the military and civilian sectors and the development of your skills in organizational thinking and problem solving. You will explore a variety of leadership and management topics, including the classical theories of management, motivation, and communication. FALL. [3]
- **ES 3231. Navigation.** (Formerly NS 231). Naval piloting procedures. Charts, visual and electronic aids, and theory and operation of magnetic and gyro compasses; inland and international rules of the nautical road. The celestial coordinate system, including spherical trigonometry and application for navigation at sea. Environmental influences on naval operations. SPRING. [3]

**JUNIOR YEAR**

- **ES 3230. Ships Engineering Systems.** (Formerly NS 230). Ship characteristics and types, including design and control, propulsion, hydrodynamic forces, stability, compartmentation, and electrical and auxiliary systems. Theory and design of steam, gas turbine, and nuclear propulsion. FALL. [3]
- **ES 3232. Ships Weapons Systems.** (Formerly NS 232). Theory and employment of weapons systems, including the processes of detection, evaluation, threat analysis, weapon selection, delivery, guidance, and explosives. Fire control systems and major weapons types, including capabilities and limitations. Physical aspects of radar and underwater sound. Command, control, communications, computers, cyber intelligence, surveillance, and reconnaissance. SPRING. [3]

**SENIOR YEAR**

- **ES 3233. Naval Operations.** (Formerly NS 233). A continued study of relative motion, formation tactics and ship employment. Introduction to Naval operations and operations analysis. Ship behavior and characteristics in maneuvering. Applied aspects of ship handling, afloat communications, naval command and control, naval warfare areas, and joint warfare are also included. FALL. [3]
- **NS-PC 4242. Leadership and Ethics.** (Formerly NS-PC 242). An exploration of major Western ethical philosophy in the development and application of leadership to enhance objective, sound and timely decision-making in the most challenging of environments. This course follows theoretical examination with case studies and practical application to emphasize the importance of ethical reasoning to leadership, and explores components of character and integrity in decision making. SPRING. [3]

The Marine option courses listed below are taught in the spring, rotating on a yearly basis. They are taken in the sophomore and junior year.

- **History 1692. Evolution of Warfare.** (Formerly NS 2311). Antiquity to the present. Evolution of strategic principles. Influence of technological, economic, moral, psychological, and political factors. Case studies from a soldier’s perspective. [3] (No AXLE credit)
- **History 1693. Fundamentals of Maneuver Warfare.** (Replaces HIST 1692 Amphibious Warfare). Broad aspects of warfare and their interactions with maneuver warfare doctrine. Specific focus on the United States Marine Corps as the premier maneuver warfare fighting institution. Historical influences on current tactical, operational, and strategic implications of maneuver warfare practices in current and future operations. Case studies. Enrollment preference to NROTC students. Repeat credit for students who have completed HIST 169D or HIST 1692. [3]
Interdisciplinary Centers, Institutes, and Research Groups

Vanderbilt actively promotes research and teaching that cross disciplines, departments, and institutional lines through a multitude of centers, institutes, and research groups. Below is a sampling of Vanderbilt’s interdisciplinary initiatives. For more information, see research.vanderbilt.edu/centers-institutes.

The Center for Integrative and Cognitive Neuroscience investigates the relationship between brain function, behavior, and cognition, and promotes the development of new technologies like advanced prosthetics and autonomous robots. cin.cnr.vanderbilt.edu

The Center for Latin American Studies works to advance knowledge about and understanding of the region’s history, culture, political economy, and social organization. vanderbilt.edu/clas

The Center for Medicine, Health, and Society studies the social and cultural dimensions of health and illness. Scholarship, teaching, and wide-ranging collaborative projects explore medicine and science in a wide array of cultural contexts, while at the same time fostering productive dialogue across disciplinary boundaries. vanderbilt.edu/mhs

The Max Kade Center for European and German Studies fosters an international perspective on issues relating to Europe and transatlantic relations and seeks to prepare students for international careers or advanced study. as.vanderbilt.edu/europeanstudies

The National Center on School Choice conducts scientific, comprehensive, and timely studies on school choice to inform policy and practice. vanderbilt.edu/schoolchoice

The Robert Penn Warren Center for the Humanities promotes interdisciplinary research and study in the humanities, social sciences, and natural sciences. Members of the Vanderbilt community representing a wide variety of specializations take part in the center’s programs, which are designed to intensify and increase interdisciplinary discussion of academic, social, and cultural issues. vanderbilt.edu/rpw_center

The Vanderbilt Brain Institute promotes and facilitates the discovery efforts of Vanderbilt neuroscientists, the training of undergraduate and graduate students, and the coordination of public outreach in brain sciences. Research endeavors in the VBI include more than three hundred scientists from fifty departments, centers, and institutes across the campus, spanning a spectrum of study from molecules to the mind. braininstitute.vanderbilt.edu

The Vanderbilt Initiative in Surgery and Engineering creates, develops, implements, and evaluates solutions to complex interventional problems. Physicians, engineers, and computer scientists work together to improve patient care with surgical innovation through engineering. Central to the mission of the institute is the translation of methods, techniques, and devices from the laboratory to the patient. vanderbilt.edu/vise

The Vanderbilt Institute for Energy and Environment elucidates the relationships among individual, institutional, and societal choices for energy production and use, and the impacts and benefits of these choices on the environment and health through links with climate, water quality, economics, social psychology, and natural resources. A crucial part of its mission is to train the next generation of leaders in the energy and environmental arena. vanderbilt.edu/vinee

The Vanderbilt Institute for Global Health is committed to advancing health and development in resource-limited regions with projects in Africa, Asia, Latin America, and the Caribbean. Vanderbilt faculty and staff provide leadership and expertise in establishing sustainable, scalable health development programs. globalhealth.vanderbilt.edu

The Vanderbilt Institute for Integrative Biosystems Research and Education fosters and enhances interdisciplinary research in the biophysical sciences and biengineering at Vanderbilt, integrated with a strong focus on undergraduate, graduate, and postdoctoral education. VIBRE’s mission is to invent the tools and develop the skills that are required to understand biological systems across spatiotemporal scales. vanderbilt.edu/vibre

The Vanderbilt Institute of Chemical Biology provides research and training in the application of chemical approaches to the solution of important biomedical problems, harnessing the power of chemistry to improve human health. vanderbilt.edu/vicb

The Vanderbilt Institute of Nanoscale Science and Engineering engages in theoretical and experimental research in science and engineering at the nanoscale (from one millionth to one billionth of a meter in size). VINSE supports an extensive infrastructure of materials fabrication and analytical facilities for research in nanoscale science and engineering. vanderbilt.edu/vinse

The Vanderbilt Kennedy Center for Research on Human Development facilitates discoveries and best practices that make positive differences in the lives of persons with disabilities and their families through research, training, services, and dissemination. Nationally, it is among fourteen Eunice Kennedy Shriver Intellectual and Developmental Disabilities Research Centers, sixty-seven national University Centers for Excellence in Developmental Disabilities, fifty-two Leadership Education in Neurodevelopmental Disabilities training programs, and includes the Treatment and Research Institute for Autism Spectrum Disorders. Research, practicum, and clinical experiences are available to trainees. vkc.mc.vanderbilt.edu

The Vanderbilt University Institute of Imaging Science aims to support and integrate advances in physics, engineering, chemistry, computing, and other basic sciences for the development and application of new and enhanced imaging techniques to address problems and stimulate new research directions in biology and medicine, in health and disease. vuis.vanderbilt.edu

The Wond’ry supports immersive experiences for students and interdisciplinary projects for faculty—from all schools and colleges—who are interested in innovation and entrepreneurship. In addition to connecting various resources across the university, the center serves as a common space for students to develop and test ideas alongside their peers with mentorship from faculty, alumni, corporate partners, the Nashville entrepreneurial community, and beyond. Programming, seminars, and workshops help students from all disciplines grow their ventures at any stage of development. vanderbilt.edu/thewondry
Life at Vanderbilt

The Ingram Commons and the First-Year Experience
All undergraduates spend their first year at Vanderbilt living on The Martha Rivers Ingram Commons. As part of Vanderbilt’s residential college system, The Ingram Commons brings together first-year students, residential faculty, and professional staff in the common pursuit of discovery, creative inquiry, and engaged citizenship. With a focus on bolstering intellect, building community, developing skills for personal well-being, pursuing self-discovery, and developing cultural awareness, all members of The Ingram Commons participate in a mutual exchange of ideas and experiences. The Ingram Commons achieves that goal during the year through its ten houses, the faculty heads of house appointed to mentor students in each of them, and a first-year experience of programs, academic seminars, dinners, discussions, cultural events, social activities, lectures, and guests.

The first-year experience begins with CommonVU, a required orientation week for all first-year students. It extends from Move-In Saturday through a first week of orientation and academic classes. During CommonVU, students begin to experience the new communities of their university—in their houses, across The Ingram Commons and the university campus, and in their classrooms. Activities with each other, peer mentors and other VU upperclass students, faculty heads of house, educational staff, academic advisers, and other Vanderbilt professors introduce life at Vanderbilt.

The first-year experience also includes Vanderbilt Visions, a required first-semester university core program of mentored discussion concerning the expectations, norms, and values required for a successful transition to undergraduate life. Faculty and student VUceptors partner to lead each Vanderbilt Visions small group, whose members come from all ten Ingram Commons houses and each of the four undergraduate schools and colleges. Groups meet weekly during the fall semester. All first-year students will receive assignments to a Vanderbilt Visions group on their class schedules. More information can be found at commons.vanderbilt.edu.

Transfer Student Transition Programs
Transfer Student Orientation is Vanderbilt’s mandatory orientation program for all transfer students. During this time, new transfer students will learn more about life at Vanderbilt through programs and activities with university staff members, faculty, and upperclass students known as Transfer Student Leaders. Transfer students will receive orientation information in the mail during the summer before arriving at Vanderbilt. Further details can be found at vanderbilt.edu/transfer.

The Vanderbilt Honor Code and the Honor System
Vanderbilt University takes pride in its honor code and its student-run honor system. The honor code is shared by all ten schools of the university:

Vanderbilt University students pursue all academic endeavors with integrity. They conduct themselves honorably, professionally, and respectfully in all realms of their studies in order to promote and secure an atmosphere of dignity and trust. The keystone of our honor system is self-regulation, which requires cooperation and support from each member of the University community.

The Honor System is a time-honored tradition that began with the first classes at Vanderbilt in 1875. Students established the system and continue to manage it today. It rests on the presumption that all work submitted as part of course requirements is produced by the student, without help from any other source unless acknowledgement is given in a manner prescribed by the instructor. Cheating, plagiarizing, or otherwise falsifying results of study are specifically prohibited. The system applies not only to examinations but also to written work and computer programs submitted to instructors. Detailed descriptions of Honor System violations and Undergraduate Honor Council procedures are published in the Student Handbook, available on the web at vanderbilt.edu/student_handbook.

Responsibility for the preservation of the system falls on the individual student who, by registration, acknowledges the authority of the Undergraduate Honor Council. Students are expected to demand of themselves and their fellow students complete respect for the Honor Code. Ignorance of the regulations is not a defense for abuse of regulations. All incoming students attend a mandatory signing ceremony and educational program on the Honor System at the beginning of the fall semester. Additional information about the Honor System is available on the web at studentorgs.vanderbilt.edu/HonorCouncil.

Student Accountability
All students who take courses, live in residence halls, or otherwise participate in the activities of the university are within the jurisdiction of the university’s student accountability system, whether or not they are registered primarily at Vanderbilt. Policies governing student conduct are published in the Student Handbook, on the web at vanderbilt.edu/studentaccountability, or by other reasonable means of notification. The Office of Student Accountability, Community Standards, and Academic Integrity has original jurisdiction over all matters of nonacademic misconduct involving students.

Official University Communications
Certain federal statutes require that information be delivered to each student. Vanderbilt delivers much of this information via email. Official electronic notifications, including those required by statutes, those required by university policy, and instructions from university officials, will be sent to students’ Vanderbilt email addresses: user.name@vanderbilt.edu. Students are required to be familiar with the contents of official university notifications, and to respond to instructions and other official correspondence requiring a response. Some messages will include links to the YES Communications Tool, which is a secure channel for official communication of a confidential nature. However, students should not wait to receive such a message, and should check YES frequently to remain current on official, confidential communications.

The university makes every effort to avoid inundating students with nonessential email (often called “spam”), and
Vanderbilt University requires all unmarried undergraduate students to live in university housing on campus for their entire undergraduate career. This commitment to residential education is clearly expressed in the university’s residential requirement: “All unmarried undergraduate students must live in residence halls on campus during the academic year, May session, and summer sessions. Authorization to live elsewhere is granted at the discretion of the director of housing assignments in special situations or when space is unavailable on campus” (Student Handbook).

Residential living at Vanderbilt began in the 1880s when six cottages were constructed in response to a demand for on-campus housing. In the fall of 2015, 6,077 students lived on campus, comprising about 93 percent of the undergraduate student body. Housing for graduate and professional students is not available on campus.

Undergraduate Housing
Several types of housing are offered to meet the needs of a diverse student body—suites, singles, doubles, apartments, and lodges.

Some housing is segregated by gender; most housing is coresidential. In the coresidential areas, men and women may be housed in different living spaces on the same floor.

Six officers from each fraternity and sorority may live in their fraternity or sorority houses. TeleVU, the residence hall cable system, and ResNet, the residential data network, are available in each accommodation on campus. Residents with personal computers can connect to ResNet for high-speed data services. All residence halls provide wireless access to ResNet.

First-Year Students
First-year students live on The Martha Rivers Ingram Commons. The Ingram Commons comprises ten residential houses, the home of the dean of The Ingram Commons, and The Commons Center. The ten houses are Crawford, East, Gillette, Hank Ingram, Memorial, Murray, North, Stambaugh, Sutherland, and West. Each house is led by a resident faculty head of house.

East, Gillette, Memorial, North, and West houses are historical buildings renovated for The Ingram Commons. Crawford, Hank Ingram, Murray, Stambaugh, and Sutherland were constructed between 2006 and 2008. All houses are air conditioned and fully sprinklered for fire safety. Access to all residence halls is controlled with a card access system. Students on The Ingram Commons live in traditional double or triple rooms. All student rooms have basic room furnishings that include loftable bed, chest, desk, chair, closet, and window blinds. Lounges, study rooms, seminar rooms, music practice rooms, and laundry facilities are located within The Ingram Commons.

Upperclass Students
Upperclass students live in nineteen residence halls in six residential areas on the central campus: Warren and Moore colleges, Alumni Lawn, Carmichael Towers East and West, Branscomb Quadrangle, and Highland Quadrangle. All residence halls are air conditioned and are fully equipped with sprinklers for fire safety. Access to all residence halls is controlled with a card access system.

Warren and Moore colleges are the first two residential colleges for upperclass students in Vanderbilt’s College Halls system. Together, the two colleges house 660 students comprising equal numbers of women and men. Two hundred and twenty spaces are designated for each class cohort—seniors, juniors, and sophomores. A faculty director lives in each college and each is assisted by two graduate fellows who live in residence. Each college offers a mix of living accommodations: suites for six, five, and four students; traditional double rooms; and traditional single rooms.

Alumni Lawn comprises McGill Hall, Cole and Tolman halls, and McTyeire International House. McGill Hall houses approximately one hundred students in primarily single rooms with community bath facilities on each floor. Housing slightly more than one hundred students each in single rooms, Cole and Tolman hall house female and male populations, respectively. McTyeire International House houses approximately one hundred students in single rooms with community bath facilities on each floor.

Upperclass students are also housed in the fourteen-story Carmichael Towers complex located on West End Avenue. Carmichael has two styles of living arrangements: (a) single and double rooms arranged in six-person suites with bath, kitchen, and common area and (b) single and double rooms arranged on halls, with community bath facilities on each floor. The Towers are complete with lounges, meeting rooms, laundry facilities, recreation areas, music practice rooms, a convenience store, and a Food Court.

Branscomb Quadrangle (Lupton, Scales, Stapleton, and Vaughn) offers two physical arrangements: (a) double rooms with a community bath on each floor and (b) suites of two double rooms connected by a half bath (with a community bath on each floor). The complex contains laundry facilities, lounges, study rooms, music practice rooms, and quick-service restaurant and convenience store.

At the south end of the campus is Highland Quadrangle comprising Chaffin Place, Lewis House, Morgan House, and Mayfield Place. Chaffin contains two-bedroom apartments that house four students. Students share efficiencies and one- and two-bedroom apartments in Morgan and Lewis houses. In Mayfield, units of ten single rooms cluster around a two-story living room area. A laundry facility and a convenience store are located in this residential area.

Living Learning Communities
McGill Hall is the home of the McGill Project, designed to stimulate and foster discussion and exploration of philosophical issues between students and faculty. Faculty members meet with residents in McGill for informal discussion (open to all students) and formal class work. Residents also plan and participate in social events hosted by the student-run McGill Council. A faculty-in-residence lives on the first floor.

The goals of the McTyeire International House language programs are to improve the fluency of McTyeire Hall residents in Chinese, French, German, Japanese, Russian, or Spanish languages, and to expand communication between international and American students by means of discussions, programs, and international coffees and festivals. An international interest hall is offered in English for students with interest in global citizenship. Space is available for ninety-six upperclass students in single rooms. Living in McTyeire
carries a commitment to take a predetermined number of weekly meals in the McTyeire dining room.

Mayfield Place is the site for the Mayfield Living Learning Lodge program. Lodges are set aside for groups of ten students who want to establish their own special-interest lodges. Such programs have included arts, community service, computers, environment/recycling, world religions, music, and wellness. Each lodge selects a faculty adviser who provides guidance throughout the year.

Residential Education Administration
The residential community at Vanderbilt is divided into seven geographic areas, each of which has a full-time professional living on campus. Upperclass and graduate or professional students serve as head residents and resident advisers in the residence halls. The dean of students, eight area coordinators, and six graduate area coordinators also live on campus. For more information, go to vanderbilt.edu/ResEd.

Residence halls for first-year students have RAs on each floor. Area coordinators and their student staff are responsible for maintaining an atmosphere conducive to the students’ general welfare and education.

Vanderbilt Student Government (VSG) plans programs and recreational and social activities, and advises the residential affairs administration on policy matters.

Room Assignment
First-Year Students. First-year students may apply for housing after payment of their matriculation fees. Students will be assigned to double or triple rooms. Roommate requests are considered. However, when the supply of double rooms is exhausted, roommate requests will not be honored for students assigned to triple rooms. Admission to the university does not guarantee assignment to a particular building, kind of room, or a particular roommate or hallmate.

Returning Upperclass Students. Returning unmarried upperclass students receive their housing assignments through a random selection process in the spring. Students who want to remain in the same rooms may reserve their rooms. Eligibility for participation is determined by the director of housing assignments with advice from VSG. A specific number of current residents of a suite, apartment, or lodge must return in order to reserve that living space.

Transfer and Former Students. Requests for room assignments by new transfer students and former students returning to campus are made through the Office of Housing and Residential Education, and are determined by the date of deposit. The university tries to accommodate as many transfer students as possible, but acceptance at Vanderbilt does not guarantee campus housing.

The Commodore Card
The Commodore Card is the Vanderbilt student ID card. It can be used to access debit spending accounts, VU meal plans, and campus buildings such as residence halls, libraries, academic buildings, and the Vanderbilt Recreation and Wellness Center.

ID cards are issued at the Commodore Card Office, 184 Sarratt Student Center, Monday through Friday from 8:30 a.m. to 4:00 p.m. For more information, go to vanderbilt.edu/cardservices.

Eating on Campus
Vanderbilt Campus Dining’s meal plan program, VU Meal Plans, gives students comprehensive dining options. Features include extended hours, multiple locations, variety, special events, Meal Money, Taste of Nashville (ToN) program, and Flex Meals.

Vanderbilt students living on campus are required to participate in VU Meal Plans. All first-year students are on the First-Year Meal Plan. Other students may purchase the 8, 14, or 19 Meal Plan.

There are a variety of options conveniently located across campus. The Ingram Commons dining hall, Rand Dining Center, Pub at Overcup Oak, Grins Vegetarian Café, Chef James Bistro, Last Drop Coffee Shop, the Kitchen at Kissam, Rocket Subs, Bamboo Bistro, Pi and Leaf, Engineering Café, and Blair Café all host the VU Meal Plans. Vanderbilt Campus Dining also operates six convenience stores including Kissam Market, Branscomb Market, and Common Grounds at The Commons Center, which are open 24 hours and accept VU Meal Plans.

For more information on VU Meal Plans, go to campusdining.vanderbilt.edu/vu-meal-plans. For more information on Vanderbilt Campus Dining, go to campusdining.vanderbilt.edu.

Barnes & Noble at Vanderbilt
Barnes & Noble at Vanderbilt, the campus bookstore located at 2525 West End Avenue, offers textbooks (new, used, digital, and rental), computers, supplies, Nook e-readers, dorm accessories, licensed Vanderbilt apparel, and best-selling books. Students can order online or in-store and receive course materials accurately, conveniently, and on time. The bookstore features extended hours of operation and hosts regular special events. Visitors to the bookstore café can enjoy Starbucks coffees, sandwiches, and desserts while studying. Free customer parking is available in the 2525 garage directly behind the bookstore. For more information, visit vubookstore.com, follow twitter.com/BN_Vanderbilt, find the bookstore on Facebook at facebook.com/VanderbiltBooks, or call (615) 343-2665.

Services to Students
Student Records (Family Educational Rights and Privacy Act)
Vanderbilt University is subject to the provisions of federal law known as the Family Educational Rights and Privacy Act (also referred to as FERPA). This act affords matriculated students certain rights with respect to their educational records. These rights include:

1. The right to inspect and review their education records within 45 days of the day the University receives a request for access. Students should submit to the University Registrar written requests that identify the record(s) they wish to inspect. The University Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the University Registrar does not maintain the records, the student will be directed to the University official to whom the request should be addressed.

2. The right to request the amendment of any part of their education records that a student believes is inaccurate or misleading. Students who wish to request an amendment to their educational record should write to the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student,
the student will be notified of the decision and advised of his or her right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records to third parties, except in situations that FERPA allows disclosure without the student’s consent. These exceptions include:

- Disclosure to school officials with legitimate educational interests. A “school official” is a person employed by the University in an administrative, supervisory, academic or research, or support-staff position (including University law enforcement personnel and health staff); contractors, consultants, and other outside service providers with whom the University has contracted; a member of the Board of Trust; or a student serving on an official University committee, such as the Honor Council, Student Conduct Council, or a grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

- Disclosure to parents if the student is a dependent for tax purposes.

- Disclosure to appropriate individuals (e.g., parents/guardians, spouses, housing staff, health care personnel, police, etc.) where disclosure is in connection with a health or safety emergency and knowledge of such information is necessary to protect the health or safety of the student or other individuals.

- Disclosure to a parent or legal guardian of a student, information regarding the student’s violation of any federal, state, or local law, or of any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance if the University has determined that the student has committed a disciplinary violation with respect to the use or possession and the student is under the age of 21 at the time of the disclosure to the parent/guardian.

FERPA provides the University the ability to designate certain student information as “directory information.” Directory information may be made available to any person without the student’s consent unless the student gives notice as provided for, below. Vanderbilt has designated the following as directory information: the student’s name, address, telephone number, email address, student ID photos, major field of study, school, classification, participation in officially recognized activities and sports, weights and heights of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous educational agency or institution attended by the student, and other information that would not generally be considered harmful or an invasion of privacy if disclosed. Any student who does not wish disclosure of directory information should notify the University Registrar in writing. No element of directory information as defined above is released for students who request nondisclosure except as required by statute.

The request for nondisclosure does not apply to class rosters in online class management applications, or to residential rosters—or rosters of groups a student may join voluntarily—in online, co-curricular engagement applications, or rosters of other information on the websites of student organizations that a student may join. Neither class rosters in online class management applications, nor residential rosters in online co-curricular engagement applications, are available to the public.

As of January 3, 2012, the U.S. Department of Education’s FERPA regulations expand the circumstances under which students’ education records and personally identifiable information (PII) contained in such records—including Social Security Numbers, grades, or other private information—may be accessed without consent. First, the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or state and local education authorities (“Federal and State Authorities”) may allow access to student records and PII without consent to any third party designated by a Federal or State Authority to evaluate a federal- or state-supported education program. The evaluation may relate to any program that is “principally engaged in the provision of education,” such as early childhood education and job training, as well as any program that is administered by an education agency or institution.

Second, Federal and State Authorities may allow access to education records and PII without consent, to researchers performing certain types of studies, in certain cases even when the University objects to or does not request such research. Federal and State Authorities must obtain certain use-restriction and data security promises from the third parties that they authorize to receive PII, but the Authorities need not maintain direct control over the third parties.

In addition, in connection with Statewide Longitudinal Data Systems, State Authorities may collect, compile, permanently retain, and share without student consent, PII from education records, and may track student participation in education and other programs by linking such PII to other personal information that they obtain from other Federal or State data sources, including workforce development, unemployment insurance, child welfare, juvenile justice, military service, and migrant student records systems.

If a student believes the University has failed to comply with FERPA, he or she may file a complaint using the Student Complaint and Grievance Procedures as outlined in the Student Handbook. If dissatisfied with the outcome of this procedure, students may file a written complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, DC 20202-5920.

Questions about the application of the provisions of the Family Educational Rights and Privacy Act should be directed to the University Registrar or to the Office of General Counsel.

Vanderbilt Directory

Individual listings in the online People Finder Directory consist of the student’s full name, Vanderbilt email address, and campus mailing address (if available). Students may elect to add additional contact information to their listings, including school, academic classification, local phone number, local address, permanent address, cellphone, pager, and fax numbers. Student listings in the People Finder Directory are available to the Vanderbilt community via logon ID and e-password. Students may choose to make their online People Finder listings available to the general public (i.e., viewable by anyone with access to the internet), or to block individual directory items. Students who have placed a directory hold with the University Registrar will not be listed in the online directory.

Directory information should be kept current. Students may report address changes, emergency contact information, and missing person contact information via the web by logging in to YES (Your Enrollment Services) https://yes.vanderbilt.edu and clicking on the Address Change link.

Counseling and Advisory Services

Advising is an important part of Vanderbilt’s central mission to help each student achieve individual goals. Many support services are provided, including pre-major and major academic advising and career and personal counseling. Residence hall staff are continuously on call.
Deans and professional staff in academic programs, in all areas of the Office of the Dean of Students, and in other areas of the university offer counseling and advising services to students:

Career Center
Center for Student Wellbeing
Equal Opportunity, Affirmative Action, and Disability Services
Faculty Advisers
Health Professions Advisers
International Student and Scholar Services
Margaret Cuninggim Women’s Center
Office of Housing and Residential Education
Office of LGBTQI Life
Office of Student Activities
Office of Student Leadership Development
Office of the University Chaplain and Religious Life
Pre-Business Advisers
Pre-Law Advisers
Psychological and Counseling Center
STEM Help Desks in The Ingram Commons
STEM Help Desks in Featheringill
Student Health Center
Teacher Education Adviser, Arts and Science
Teacher Licensure Office, Peabody College
Tutoring Services
Writing Studio

Career Center
The Career Center prepares students for life after Vanderbilt by helping them explore career options, develop professional capabilities, discover their identities, and build resilience to be competitive in a rapidly changing world.

Career coaches help students learn about and explore professional opportunities, including career coaching appointments, workshops, career panels, Industry Career Days, and field trips. Start mapping out your future by meeting with one of the professional career coaches either during walk-in hours or by scheduling an appointment.

Vanderbilt graduates go everywhere and your career is not necessarily tied to your major. For example, English majors may find themselves in the music industry, and engineering majors may find themselves on Wall Street. By working with a career coach students can explore their interests in various fields, learn how to tell the story of their education and experience, and apply to work in whatever field of employment interests them. For more information about the Career Center, visit vanderbilt.edu/career.

Services for Students with Disabilities
Vanderbilt is committed to the provisions of the Rehabilitation Act of 1973 and Americans with Disabilities Act as it strives to be an inclusive community for students with disabilities. Students seeking accommodations for any type of disability are encouraged to contact the Equal Opportunity, Affirmative Action, and Disability Services Department. Services include, but are not limited to, extended time for testing, assistance with locating sign language interpreters, audiobooks, physical adaptations, notetakers, reading services, and reasonable accommodations for housing and dining. Accommodations are tailored to meet the needs of each student with a documented disability. Specific concerns pertaining to services for people with disabilities or any disability issue should be directed to the Disability Program Director, Equal Opportunity, Affirmative Action, and Disability Services Department (EAD), PMB 401809, 2301 Vanderbilt Place, Nashville, Tennessee 37240-1809; phone (615) 322-4705 (V/TDD); fax (615) 343-0671; vanderbilt.edu/ead.

Nondiscrimination, Anti-Harassment, and Anti-Retaliation
The Equal Opportunity, Affirmative Action, and Disability Services Department investigates allegations of prohibited discrimination, harassment, and retaliation involving members of the Vanderbilt community. This includes allegations of sexual misconduct and other forms of power-based personal violence. Vanderbilt’s Title IX coordinator is Anita Jenious, EAD director.

If you believe that a member of the Vanderbilt community has engaged in prohibited discrimination, harassment, or retaliation, please contact the EAD. If the offense is criminal in nature, you may file a report with Vanderbilt University Police Department (VUPD).

The EAD also facilitates interim accommodations for students impacted by sexual misconduct and power-based personal violence. Some examples of interim accommodations include stay-away orders, adjusted course schedules, and housing changes.

Specific concerns pertaining to prohibited discrimination, harassment, or retaliation, including allegations of sexual misconduct and other forms of power-based personal violence, should be directed to the Equal Opportunity, Affirmative Action, and Disability Services Department (EAD), PMB 401809, 2301 Vanderbilt Place, Nashville, Tennessee 37240-1809; phone (615) 322-4705 (V/TDD); fax (615) 343-0671; vanderbilt.edu/ead.

Psychological and Counseling Center
As part of the Vanderbilt University Medical Center, the PCC supports the mental health needs of all students to help them reach their academic and personal goals. Highly skilled and multidisciplinary staff collaborates with students to provide evidence-based treatment plans tailored to each individual’s unique background and needs. The PCC also emphasizes prevention through collaboration with campus partners, providing outreach and consultation focused on the development of the skills and self-awareness needed to excel in a challenging educational environment.

The PCC’s psychologists, licensed counselors, and psychiatric medical providers are available to any Vanderbilt student and address a range of student needs including stress management, crisis intervention, substance abuse counseling, management of medications, individual counseling, group counseling, biofeedback, emergency assessments, and psychiatric assessment and treatment. The PCC provides a team approach to the care of students with eating disorders and students who have experienced trauma as well as students needing both counseling and medication management. There is an on-call provider after hours and on weekends for emergency calls.

The PCC provides screening and full assessment when indicated for ADHD and learning disorders.

The PCC has a team that specializes in treatment of substance misuse and collaborates with the Center for Student Wellbeing to incorporate prevention and treatment resources.

The PCC also houses a Mind Body Lab. This room is designed with the objective of enhancing mindfulness by providing tools to manage stress, increase personal resilience, and
promote compassion and academic success. Students may book a forty-five-minute session in the PCC Mind Body Lab by calling the PCC at (615) 322-2571 or by stopping by the front desk.

Students and their parents are encouraged to make contact with the PCC prior to the start of the school year if the student has a history of mental health care needs. This will help facilitate the transition of care and ensure that students and parents are fully aware of PCC resources. Contact the center at (615) 322-2571 for more information.

There is no charge for services with the exceptions of reduced fees for LD/ADHD screening and assessment and specific disability assessments when needed for academic or environmental accommodations. Over the course of a year, approximately 20 percent of the Vanderbilt student population will seek out the services of the PCC.

Throughout the year, the PCC team members also produce presentations, including educational programs, thematic presentations, and special events, focused on education of the Vanderbilt community about mental health issues and resources. The PCC is proud to provide a program focusing on suicide prevention and mental health awareness at Vanderbilt called MAPS: Mental Health Awareness and the Prevention of Suicide.

For more information, visit medschool.vanderbilt.edu/pcc.

Project Safe Center
The Project Safe Center partners with students, faculty, and staff to create a campus culture that rejects sexual violence and serves as a resource for all members of the Vanderbilt community. The Project Safe Center provides support to survivors of intimate partner violence and engages the campus community in prevention of sexual assault, dating violence and domestic violence, and stalking.

Green Dot, a bystander intervention program used by colleges and communities nationwide, an online education module addressing sexual violence, and a variety of programs and presentations on consent, healthy relationships, and violence prevention are available through the Project Safe Center. A 24-hour support hotline answered by Project Safe’s victim resource specialists is available at (615) 322-SAFE (7233).

The Project Safe Center located at 304 West Side Row is open Monday through Friday, 8:00 a.m. to 5:00 p.m. For more information, please call (615) 875-0660 or visit vanderbilt.edu/projectsafe.

Student Health Center
The Student Health Center provides primary care services for students and is staffed by physicians, nurse practitioners, nurses, and lab technicians. The Student Health Center provides services similar to those provided in a private physician’s office or HMO, including routine medical care, specialty care (e.g. nutrition and sports medicine), and some routine lab tests. Most of the services students receive at the Student Health Center are pre-paid, but those services that are not are the responsibility of students to coordinate with their health insurance.

When the university is in session, during fall and spring semesters, the Student Health Center is open Monday through Friday from 8:00 a.m. to 4:30 p.m., and Saturdays from 8:30 a.m. to noon. Students should call ahead to schedule an appointment at (615) 322-2427. Students with urgent problems will be seen on a same-day basis. They will be given an appointment that day, or “worked in” on a first-come, first-served basis, if no appointments are available.

Emergency consultations services (at (615) 322-2427) are available 24 hours a day, 7 days a week from on-call professionals. For more detailed information on the services available at the Student Health Center and information on other health-related topics, please visit the Student Health Center website at medschool.vanderbilt.edu/student-health.

Immunization Requirements
The State of Tennessee requires certain immunizations for all students on university campuses. As such, Vanderbilt University will block student registration for those who are not in compliance with the requirements.

The requirements include:
1. Meningococcal meningitis vaccine (one injection) within four years of enrollment for all incoming students living in on-campus housing.
2. Varicella vaccine (two injections) is required for all students who have not had documented chickenpox history. Positive titer results are also accepted.
3. Measles, mumps, and rubella (2 injections) for all incoming students. Positive titer results are also accepted.

The Student Health Center requires all incoming students to complete a Health Questionnaire that includes further information regarding the state-mandated vaccinations, as well as information on other strongly recommended vaccinations.

Information regarding this Health Questionnaire is communicated to students by email after admission to Vanderbilt University. This Health Questionnaire must be returned to the Student Health Center by May 15 with vaccination information.

Students should go to medschool.vanderbilt.edu/student-health/immunization-requirements in order to access more information regarding the immunization requirements. This site also contains links to the PDFs of the required forms and information on how to upload documentation via the secure student health portal.

Student Injury and Sickness Insurance Plan
All degree-seeking students, with the exception of Division of Unclassified Studies (DUS) students, who are registered for 4 or more credit hours, are required to have health insurance coverage. The university offers a sickness and injury insurance plan that is designed to provide hospital, surgical, and major medical benefits. A brochure explaining the benefits of insurance coverage is available to students online at gallagherstudent.com/vanderbilt or medschool.vanderbilt.edu/student-health/student-health-insurance.

The annual premium is in addition to tuition and is automatically billed to the student’s account. Coverage extends from August 12 until August 11 of the following year, whether a student remains in school or is away from the university.

A student who does not want to subscribe to the insurance plan offered through the university must complete an online waiver form indicating other insurance coverage at gallagherstudent.com/vanderbilt. This process must be completed by August 1 for students enrolling in the fall. Newly enrolled students for the spring term must complete the online waiver process by January 2. The online waiver process must be completed by August 1 every year in order to waive participation in and the premium for the Student Injury and Sickness Plan.
Family Coverage: Students who want to obtain coverage for their families (spouse, children) may do so at gallagherstudent.com/vanderbilt. Additional premiums are charged for family health insurance coverage and cannot be put on a student’s VU account.

International Student Coverage
International students and their dependents residing in the United States are required to purchase the university’s international student injury and sickness insurance. If you have other comparable insurance and do not wish to participate in the Student Injury and Sickness Insurance Plan offered through the university, you must complete an online waiver process (gallagherstudent.com/vanderbilt) indicating your other insurance information. This online waiver process must be completed no later than September 7 or you will remain enrolled in the plan offered by the university and will be responsible for paying the insurance premium. This insurance is required for part-time as well as full-time students.

Center for Student Wellbeing
The Center for Student Wellbeing seeks to create a campus culture that supports students in cultivating lifelong wellbeing practices. The center offers individual coaching appointments to help students develop and maintain skills that will contribute to personal and academic success, and provides workshops on a variety of topics, including resiliency, time management, alcohol and other drug education, and healthy living. Students may use the center’s meditation room for yoga, meditation, and mindfulness classes, or for self-guided practice. The center also works closely with many campus partners, including the Psychological and Counseling Center, the Student Health Center, and the Office of Housing and Residential Education, and the academic deans to provide resources and support for students who may be facing personal or academic challenges.

The Center for Student Wellbeing is centrally located on campus at 1211 Stevenson Center Lane, across from the Student Health Center, and is open Monday through Friday, 8:00 a.m. to 5:00 p.m. For more information, please call (615) 322-0480 or visit vanderbilt.edu/healthydores.

Vanderbilt Child and Family Center
The Vanderbilt Child and Family Center supports the health and productivity of the Vanderbilt community by providing resource and referral services and quality early childhood education and care to the children of faculty, staff, and students. The center’s website at vanderbilt.edu/child-family-center provides information concerning child care, elder care, summer camps, tutoring services, and school-age child care. Care.com and the Vanderbilt Sitter Service provide back-up care options for dependents of all ages and evening, night, and weekend care.

The Child Care Center serves children ages six weeks through five years. Applications for the waiting list may be downloaded from the website. The Family Center offers a monthly lunchtime series called “Boomers, Elders, and More” and a caregiver support group.

Bishop Joseph Johnson Black Cultural Center
As part of the Office of the Dean of Students, the Bishop Joseph Johnson Black Cultural Center provides educational and cultural programming designed to highlight the history and cultural experiences of African Americans. Initially referred to as “the Afro House,” in 1984, the center was named in honor of the first African American student admitted to Vanderbilt University in 1953, Bishop Joseph Johnson (B.D. ’54, Ph.D. ’58). The BCC activities focus on providing student support and development, campus enrichment, and community engagement.

Student Support and Development (Inclusion)
One of the major aims of the BCC is student support and development. To accomplish this objective, the BCC offers student-driven programming, mentoring initiatives, organizational meeting spaces, service opportunities, and leadership skills training. The BCC also serves as a haven for students, with opportunities for informal fellowship with other students of all levels and backgrounds as well as with faculty and staff.

Campus Enrichment (Diversity)
With campus programming focused on Africans and African Americans, the BCC enriches the overall campus environment by promoting intercultural competence. Specifically, the BCC works with numerous campus partners to sponsor lectures, musical performances, art exhibitions, films, and discussions on African and African American history and culture.

Community Engagement (Equity)
Additionally, the BCC engages in community outreach and service by working with various civic and cultural groups in the Nashville area. Through community programs and by supporting students as they tutor and mentor young people from underserved areas in the city, the BCC advocates for social justice and equity on campus and in the larger community.

The BCC is located in the center of campus directly behind Buttrick Hall and across from the main campus mailroom. For more information, please call (615) 322-2524 or visit vanderbilt.edu/bcc.

International Student and Scholar Services
International Student and Scholar Services (ISSS) fosters the education and development of nonimmigrant students and scholars to enable them to achieve their academic and professional goals and objectives. ISSS provides advice, counseling, and advocacy regarding immigration, cross-cultural, and personal matters. ISSS supports an environment conducive to international education and intercultural awareness via educational, social, and cross-cultural programs.

Immigration Support and Education
ISSS provides immigration advising and services, including the processing of immigration paperwork, to more than 1,952 international students and scholars. The office works with admission units, schools, and departments to generate documentation needed to bring nonimmigrant students and scholars to the U.S. Further, ISSS keeps abreast of the regulations pertaining to international students and scholars in accordance with the Departments of Homeland Security and State. ISSS advising staff are available to support students’ and scholars’ requests through email, phone calls, daily walk-in hours (1:30–3:30 p.m., Monday–Friday), and private appointments. ISSS puts a strong emphasis on providing employment workshops to inform international students about professional
development and employment options while enrolled and after graduation. The office conducts Curricular Practical Training (CPT) workshops every ten days, Optional Practical Training (OPT) workshops every ten days, and Academic Training (AT) workshops every month. ISSS also supports more than 300 alumni international students who have already graduated and are either on OPT or AT work permission.

**Sociocultural Adjustment Support**

ISSS provides a range of programs and activities throughout the year to address a variety of international student needs and interests. ISSS coordinates semiannual orientation programs for students and ongoing orientations for scholars, who arrive throughout the year. The main orientation for students takes place in the fall of each year and includes more than thirty educational and social programs for newly arriving international students and free airport pickup. Incoming international students are paired with current Vanderbilt students through iLEAD, a mentorship program and student organization. The main purpose of iLEAD is to create linkages between new students and the community and provide educational and social programs to ease transition and increase success at Vanderbilt.

To help promote connection between international students and the greater Nashville community, ISSS coordinates the First Friends program, which matches internationals with domestic students, staff, and community members for friendship and cross-cultural exchange. The monthly World on Wednesday presentations inform, broaden perspectives, and facilitate cross-cultural understanding through discussions led by students, faculty, and staff. International Education Week in the fall provides the campus with additional opportunities to learn about world cultures and to celebrate diversity.

**Margaret Cuninggim Women’s Center**

As part of the Office of the Dean of Students, the Margaret Cuninggim Women’s Center leads co-curricular campus initiatives related to women’s and gender issues. The center partners with many departments, programs, and individuals across campus to raise awareness about the ways in which gender shapes and is shaped by our lived experiences. Because its aim is to make the Vanderbilt community more inclusive and equitable, the center encourages all members of the Vanderbilt community to take part in its events and resources.

The Women’s Center celebrates women and their accomplishments and fosters empowerment for people of all identities. The center offers individual support and advocacy around a variety of issues, including gender stereotyping, gender equity, leadership, parenting, body image, disordered eating, pregnancy and reproduction, sexual health, and more. The Women’s Center is open Monday through Friday, 8:00 a.m. to 5:00 p.m. and is located at 316 West Side Row. For more information, please call (615) 322-4843 or visit vanderbilt.edu/womenscenter.

**Office of LGBTQI Life**

As a part of Vanderbilt’s Office of the Dean of Students, the Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex (LGBTQI) Life office is a welcoming space for individuals of all identities and a resource for information and support about gender and sexuality. LGBTQI Life serves the entire Vanderbilt community through education, research, programming, support, and social events. The office also serves as a comfortable study and socializing space, as well as a connection point to the greater Nashville LGBTQI community. In addition, LGBTQI Life conducts tailored trainings and consultations for the campus and community. The Office of LGBTQI Life is located in the K. C. Potter Center, Euclid House, 312 West Side Row. For more information, please visit vanderbilt.edu/lgbtqi.

**Schulman Center for Jewish Life**

The 10,000-square-foot Ben Schulman Center for Jewish Life is the home of Vanderbilt Hillel. The goal of the center is to provide a welcoming community for Jewish students at Vanderbilt and to further religious learning, cultural awareness, and social engagement. Vanderbilt Hillel is committed to enriching lives and enhancing Jewish identity. It provides a home away from home, where Jews of all denominations come together, united by a shared purpose. The Schulman Center is also home to Grin’s Café, Nashville’s only kosher and vegetarian restaurant. For further information about the Schulman Center, please call (615) 322-8376 or email hillel@vanderbilt.edu.

**Office of the University Chaplain and Religious Life**

The Office of the University Chaplain and Religious Life provides opportunities to explore and practice religion, faith, and spirituality and to more deeply understand one’s personal values and social responsibility via educational programming, encounters with various faith perspectives, and engagement with religious and spiritual communities. The office welcomes and serves all students, faculty, and staff and provides an intellectual home and ethical resource for anyone in the Vanderbilt community seeking to clarify, explore, and deepen understanding of their lives and/or faith.

Recognizing the importance of exploring one’s faith in community, the office facilitates opportunities for individuals of a shared faith to worship/practice their particular religious tradition. Whether guided by one of our affiliated chaplains or a student-run religious organization, these groups foster a sense of community and common values. For a complete listing of campus religious groups, resources, services, and programming opportunities, visit vanderbilt.edu/religiouslife.

**Parking and Vehicle Registration**

Parking space on campus is limited. Motor vehicles operated on campus at any time by students, faculty, or staff must be registered with Parking Services located at 28th Avenue South in the 2800 Building. A fee is charged. Parking regulations are published annually and are strictly enforced. More information is available at vanderbilt.edu/parking.

Freshmen may not purchase a parking permit or park on campus at any time. Bicycles must be registered with Vanderbilt University Public Safety.

**Vanderbilt University Police Department**

The Vanderbilt University Police Department, (615) 322-2745, is a professional law enforcement agency dedicated to the protection and security of Vanderbilt University and its diverse community (police.vanderbilt.edu).

The Vanderbilt University Police Department comes under the charge of the Office of the Vice Chancellor for Administration. As one of Tennessee’s larger law enforcement agencies, the Vanderbilt University Police Department provides comprehensive law enforcement and security services to all components of Vanderbilt University including the academic campus, Vanderbilt University Medical Center, Vanderbilt
Health at One Hundred Oaks, and a variety of university-owned facilities throughout the Davidson County area.

The Police Department includes a staff of more than one hundred people, organized into three divisions under the Office of the Associate Vice Chancellor and Chief of Police: Operations Division (Main Campus, Medical Center, and 100 Oaks Precincts), Administrative Division, and Auxiliary Services Division. All of Vanderbilt’s commissioned police officers have completed officer training at a state-certified police academy and are required to complete on-the-job training as well as attend annual in-service training. Vanderbilt police officers hold Special Police Commissions and have the same authority as that of a municipal law enforcement officer, while on property owned by Vanderbilt, on adjacent public streets and sidewalks, and in nearby neighborhoods. When a Vanderbilt student is involved in an off-campus offense, police officers may assist with the investigation in cooperation with local, state, or federal law enforcement. The department also employs non-academy-trained officers called community service officers (commonly referred to as CSOs) who lend assistance 24/7 to the Vanderbilt community through services that include providing walking escorts, providing jump starts, and unlocking cars. For non-emergency assistance from a community service officer, dial (615) 322-2745 (2-745 from an on-campus extension).

The Vanderbilt University Police Department provides several services and programs to members of the Vanderbilt community:

- **Vandy Vans**—The Vanderbilt University Police Department administers the Vandy Vans escort system at Vanderbilt University. The Vandy Vans escort system provides vehicular escorts to designated locations on campus. The service consists of vans that operate from 5:00 p.m. to 5:00 a.m. GPS technology allows students to track Vandy Vans on their route via computer or mobile phone, and to set up text message alerts to let them know when a van will be arriving at their stop.

  - Stop locations were chosen based on location, the accessibility of a secure waiting area, and student input. Signs, freestanding or located on existing structures, identify each stop. A walking escort can be requested to walk a student from his/her stop to the final destination. A van is also accessible to students with mobility impairments. For complete information about the Vandy Vans service, including routes, stops, and times, please visit vandyvans.com or call (615) 322-2554.

  - As a supplement to the Vandy Vans van service, walking escorts are available for students walking to and from any location on campus during nighttime hours. Walking escorts are provided by VUPD officers. The telephone number to call for a walking escort is (615) 421-8888, or 1-8888 from a campus phone, after which, a representative from VUPD will be dispatched to the caller’s location, or to a designated meeting point to accompany the caller to his or her destination.

- **Emergency Phones**—Emergency telephones (Blue Light Phones) are located throughout the university campus, Medical Center, and 100 Oaks.

  - Each phone has an emergency button that when pressed automatically dials the VUPD Communications Center. An open line on any emergency phone will activate a priority response from an officer. An officer will be sent to check on the user of the phone, even if nothing is communicated to the dispatcher. Cooperation is essential to help us maintain the integrity of the emergency phone system. These phones should be used only for actual or perceived emergency situations.

  - An emergency response can also be activated by dialing 911 from any campus phone. Cellphone users can dial (615) 421-1911 to summon an emergency response on campus. Cellphone users should dial 911 for off-campus emergencies. Callers should be prepared to state the location from which they are calling.

- **Security Notices**—In compliance with the U.S. Department of Higher Education and the Jeanne Clery Act, Security Notices are issued to provide timely warning information concerning a potentially dangerous situation on or near Vanderbilt University. This information is provided to empower our students and employees with the information necessary to make decisions or take appropriate actions concerning their own personal safety. Security Notices are distributed throughout Vanderbilt to make community members aware of significant crimes that occur at the university. They are distributed through Vanderbilt email lists and through the department’s webpage, police.vanderbilt.edu/crime-info/crime-alerts.

- **Educational and Assistance Programs**—The Crime Prevention Unit of Vanderbilt University Police Department offers programs addressing issues such as sexual assault, domestic violence, workplace violence, personal safety, RAD (Rape Aggression Defense) classes, and victim assistance. VUPD provides additional services including property registration (for bikes, laptops, etc.), lost and found, weapons safekeeping, and Submit a Crime Tip. For further information on available programs and services, call (615) 322-7846 or visit police.vanderbilt.edu.

  - Additional information on security measures and crime statistics for Vanderbilt is available from the Vanderbilt University Police Department, 2800 Vanderbilt Place, Nashville, Tennessee 37212. Information is also available at police.vanderbilt.edu.

- **Annual Security Report**—The Vanderbilt University Annual Security Report is published each year to provide you with information on security-related services offered by the university and campus crime statistics in compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act and the Tennessee College and University Security Information Act.

This booklet is prepared with information provided by the Nashville Metropolitan Police Department, the Department of Student Athletics, Office of the Dean of Students, the Office of Housing and Residential Education, and the Vanderbilt University Police Department. It summarizes university programs, policies, and procedures designed to enhance personal safety for everyone at Vanderbilt.

A copy of this report may be obtained by writing or calling the Vanderbilt University Police Department, 111 28th Avenue South, Nashville, Tennessee 37212 or by telephone at (615) 875-9157. A PDF copy of this report may also be obtained on the website at police.vanderbilt.edu/crimeinfo.

### Extracurricular Activities

#### Student Governance

Vanderbilt Student Government (VSG) works in partnership with faculty and administration to represent student interests, concerns, and aspirations. In addition, the organization sponsors and coordinates activities that promote student involvement and interaction with faculty. Student interests are addressed through the three branches of the organization: executive, legislative, and judicial. The executive branch includes the executive board, cabinet, programming team, as well as ad hoc and standing committees. The legislative branch is made up of elected student officials representing the four undergraduate schools and the residential areas. The judicial
Active Citizenship and Service

Active citizenship and service are vital components of the student experience at Vanderbilt. The Office of Active Citizenship and Service (OACS) aims to expose students to a wide variety of perspectives and experiences aimed at educating the whole person while cultivating lifelong learning. By creating applied community service programs that give students the opportunity to engage, to question, and to create change locally and globally, OACS helps students achieve personal growth through meaningful, collaborative action. OACS supports, encourages, and advises Vanderbilt students and nearly seventy student organizations to become involved in a wide array of active citizenship and service opportunities. These service opportunities explore topics such as health care, education, social enterprise, and community development.

OACS programming includes active community engagement in Nashville through a variety of service initiatives, including the 9/11 and Martin Luther King Jr. Weekends of Service. The office coordinates global service-learning programs around the world in Morocco, Ecuador, England, and South Africa, as well as assisting student organizations with a variety of service learning programs, both domestic and international.

OACS empowers students not only to build relationships with other students and partners in the greater Nashville community, but also challenges students to seek new information and to critically analyze the nuanced concepts of service and advocacy. The OACS motto, Explore. Act. Reflect., celebrates Vanderbilt’s mission of creative engagement, open inquiry, equity, and compassion.

Student Centers

A variety of facilities, programs, and activities are provided in five separate student center locations—Alumni Hall, The Commons Center, Kissam Center, Sarratt Student Center/Rand Hall, and the Student Life Center.

Sarratt Student Center/Rand Hall is the main student center hub, housing a 300-seat cinema, art gallery, art studios, multicultural space, rehearsal rooms, large lounge spaces, large and small meeting spaces, and a courtyard. The facility is also home to Vanderbilt Student Communications, radio station, TV station, Last Drop Coffee Shop, and the Pub at Overcup Oak restaurant. Rand Hall houses the Rand Dining Center, campus store, student-operated businesses, the Anchor (student organization space), a multipurpose venue, meeting and seminar rooms, plus large, open lounge space. Some of the offices located in Sarratt Student Center/Rand Hall include the Dean of Students, Greek Life, Leadership, and the Office of Active Citizenship and Service. Also included in this facility is a United States Postal Service office.

The Vanderbilt Student Life Center is the university’s community backbone. It is both the fulfillment of students’ vision to have a large social space on campus and a wonderful complement to Sarratt Student Center/Rand Hall. The Student Life Center has more than 18,000 square feet of event and meeting space, including the 9,000-square-foot Commodore Ballroom, which is one of the most popular spaces to have events on campus. The center is also home to the Career Center, Commerce and Special Events, International Student and Scholar Services, Global Education Office, and Global Support Services.

The Commons Center is the community crossroads of The Ingram Commons living and learning community. It has it all: the Dining Hall and great food; a living room with a concert-grade grand piano, and the occasional live musical performance; a small rec room with cardio equipment, free weights, and weight machines; meeting and study rooms; and academic support services like the Writing Studio, the Career Center, and the CASPAR premajor advising center. The third floor of The Commons Center is the home of the Department of Political Science.

Alumni Hall was the original student center on campus when the building opened in 1925. Re-opened in fall 2013 after a yearlong renovation that transformed every space in the facility, Alumni Hall has returned to its role as a student center after serving other purposes over the years. In the newly renovated Alumni Hall, students now have access to an exercise room as well as several new meeting and event spaces and the Bamboo Bistro. Two departments call Alumni Hall home, the Vanderbilt Institute for Digital Learning and, most recently, the Vanderbilt Graduate School.

Opened in fall 2014, Kissam Center is the fifth student center, and is part of the new Warren College and Moore College residential living-learning communities. A completely new facility, Kissam Center is home to more meeting and event spaces as well as the Kissam Market and Kissam Kitchen.

Vanderbilt Student Communications, Inc. (VSC)

VSC has jurisdiction over campus radio stations, Vanderbilt Television, and undergraduate publications that are supported by the student activities fee. VSC functions chiefly to hire student leaders, supervise and audit financial records, maintain professional standards, and develop communications opportunities for students.

Among the divisions of the corporation are The Vanderbilt Hustler, the campus newspaper; the Commodore yearbook; radio stations WRVU and VandyRadio; Vanderbilt Television; The Vanderbilt Review, an annual literary/arts publication; The Slant, a humor/satire publication; My Commons Life, a website for first-year students; My Vanderbilt Life, a website for all students; Vanderbilt Political Review; Vanderbilt Historical Review; and Global VU, an international issues journal.

Recreation and Sports

Physical education is not required for graduate and professional students, but almost two-thirds of Vanderbilt University students participate in club sports, intramurals, activity classes, or other programs offered at the Vanderbilt Recreation and Wellness Center (VRWC). The large variety of programs available for meeting students’ diverse interests include: thirty-two club sports teams; forty intramural sports (softball, flag football, basketball, table tennis, and soccer); an aquatics program offering swim lessons for all ages and abilities. Red Cross lifeguarding and CPR classes are also available. If being outside is more your style, you can choose from one of more than twenty adventure trips offered each semester or create your own adventure trip with tips and gear from the Outdoor Recreation staff. There are more than eighty group fitness classes a week and a variety of wellness offerings from “learn to box” to healthy eating through Vandy Cooks in the demonstration kitchen, Personalized Nutrition Coaching, and Nutrition Minute grab-and-go information on a variety of nutrition topics.

The VRWC is a 289,000-square-foot facility that houses a 25-yard, 15-lane swimming pool; four courts for basketball,
voys, and badminton; five racquetball and two squash courts; a four-lane bowling alley; five group fitness classrooms, more than 14,000 square feet of weight/fitness room space; rock-climbing wall; mat room; seven multipurpose rooms; locker rooms; and a 120-yard turf field surrounded by a 300-meter track in the indoor field house. VRWC’s exterior spaces include a sand volleyball court and more than seven acres of field space including three natural grass fields and one turf field. All students pay a mandatory recreation fee which supports the facilities, fields, and programs (see the chapter on Financial Information). Spouses must also pay a fee to use the facilities. For additional information, please visit vanderbilt.edu/recreationandwellnesscenter.

Varsity Athletics

Students interested in more highly competitive sports on the varsity level will find challenges in intercollegiate athletics sanctioned by the Southeastern Conference, the Big East Conference, Southland Conference, and the NCAA. Women’s teams compete in basketball, bowling, cross country, golf, lacrosse, soccer, swimming, tennis, and indoor and outdoor track and field. Men’s teams compete in baseball, basketball, cross country, football, golf, and tennis. Women’s lacrosse is in the Big East Conference. Women’s bowling is in the Southland Conference. All other sports are in the Southeastern Conference.

Cultural Activities on the Campus

Working through volunteer student committees that plan and execute the programs, the Office of the Dean of Students sponsors twelve to fifteen dance, music, and theater events each year, featuring renowned artists. Student committees select the artists and handle all arrangements for the performances.

Vanderbilt’s cultural organizations annually produce festivals that showcase traditional and modern dances, art, music, and poetry to increase awareness of the many cultures represented on campus. The events include Asian New Year Festival by the Asian American Student Association, Diwali by Masala-SACE, and Café Con Leche by the Vanderbilt Hispanic Student Association to name just a few.

The Office of Arts and Campus Events coordinates numerous campus galleries that regularly exhibit contemporary artwork. The Sarratt Gallery, the student-run exhibition space in the Sarratt Student Center, holds monthly art receptions and gallery talks by visiting artists. Works from the university collection as well as special curated exhibits are on display in the gallery at the Bishop Joseph Johnson Black Cultural Center and the Fine Arts Gallery in Cohen Memorial Hall.

Vanderbilt University Theatre annually presents four major productions and several one-act plays for which all students are invited to audition. Other campus groups and touring companies also give dramatic presentations during the year.

The Vanderbilt Dance Program, housed in the dance studios at Memorial Gym, offers noncredit classes at all levels in a wide variety of dance styles, including ballet, modern, jazz, ballroom, hip hop, and ethnic dance. Master classes are given on a regular basis. The Vanderbilt Dance Program is home to five student dance companies. Each year auditions are held for Vibe, the student hip hop group; Vida, the student Latin dance company; Momentum, the student-run dance group; and Vanderbilt Dance Theatre, a company of students and community members. In addition, dance and drama auditions are held for the student-run Rhythm & Roots Performance Company in the fall. This group explores the use of performance art as an expression of social complexities and as a catalyst for social change. The student dance companies schedule performances throughout the year, and the Vanderbilt Dance Program sponsors a concert at the end of spring semester.

The Sarratt Art Studios host noncredit art classes in pottery, photography, jewelry, drawing, painting, fiber arts, mosaics, and stained glass. Classes and weekend workshops are taught by Nashville professional artists. The studios are located on campus in the Sarratt Student Center.

The Vanderbilt performing arts community represents more than thirty student groups devoted to providing opportunities for performers to showcase their talents. Student organizations that schedule annual performances range from comedy groups such as Tongue N’ Cheek to the hip hop–based Spoken Word to the popular Juggling and Physical Arts Club to the musical theater of Vanderbilt Off-Broadway. Campus concerts are presented each year by the Concert Choir and Chamber Singers; Chamber Choir, Symphonic Choir, and Opera Theatre; Vanderbilt Orchestra and Chamber Orchestra; the Wind Ensemble and Jazz Band; and numerous student a cappella groups.

Outstanding scholars and speakers visit the university frequently, enriching the academic and cultural life of the campus in many ways. Various academic departments sponsor regular speaker programs, as do the student-initiated Impact Symposium, the Speakers Committee, and the Gertrude Vanderbilt and Harold S. Vanderbilt Visiting Writers program.

Inclusion Initiatives and Cultural Competence

The Office of Inclusion Initiatives and Cultural Competence (IICC) is dedicated to the mission of promoting an environment of cultural competency, inclusivity, and awareness on the Vanderbilt campus. This is accomplished through creating intentional programming initiatives and training for students, faculty, and staff that promote social justice, an ability to instigate and participate in constructive conversations surrounding difference, and holistic identity development. IICC provides structured support to our multicultural, international student scholars, as well as students with disabilities, and fosters intentional partnerships with relevant offices on campus. The efforts of IICC are helping to move Vanderbilt forward as an institution dedicated to all forms of racial, cultural, gender, religious, and sexual identity expression and equipping our students with the tools they need to effect change in an increasingly diverse world. For more information on the multicultural student organizations, programs, and trainings offered by IICC, visit vanderbilt.edu/iicc. IICC operates under the auspices of the Dean of Students and is located in 337 Sarratt Student Center.

Office of Student Leadership Development

The Office of Student Leadership Development is designed to serve as a conduit for leadership programming and a resource hub for students, faculty, and staff. The office believes in developing visionary, goal driven, and action oriented student leaders. Students who participate in leadership programs will be accountable to others, collaborative and team oriented, effective communicators, and service-oriented; practice moral decision making; and embrace diversity and inclusion.

The office sponsors signature leadership programs during the year, but also works closely with all areas within the Dean of Students office to ensure leadership programming occurs across all aspects of campus life. Programs emerging from this office will provide students with multiple points of entry and easy access to develop and enhance their leadership skills.
Admission

The admissions process for first-year applicants to Vanderbilt is holistic in nature and based on students’ academic records and personal accomplishments. All available information is considered, including secondary school academic record, evidence of academic maturity and independence, extracurricular activities, contributions to the school and community, and scores on standardized tests.

The admission process is designed to select a diverse student body with high standards of scholarship and personal character with serious educational aims. Policies that govern the selection process have been set by the dean of undergraduate admissions. Please refer to the nondiscrimination statement on the inside front cover.

Admission to the four undergraduate schools is managed by the Office of Undergraduate Admissions. Prospective students are encouraged to investigate the university by visiting the campus, exploring the Office of Undergraduate Admissions website, connecting via social media, and attending college fairs across the country and around the world. Admissions staff are available to answer questions, arrange campus tours, provide additional information about degree programs, and link visitors with appropriate campus offices and members of the university community.

Academic Preparation

A candidate for admission must present a transcript of work from an accredited secondary school and the recommendation of the guidance counselor or the head of school. The high school record must show at least fifteen academic units of college preparatory work (a unit is a year’s study in one subject), with grades indicating intellectual ability and promise. The pattern of courses should show purpose and continuity and furnish a background for the freshman curriculum offered at Vanderbilt.

Specific entrance requirements are as follows:

College of Arts and Science. At least 4 units of English, 2 units of algebra, 1 unit of plane geometry, 2 units of one foreign language, 2 units of science, and 2 units of social science are required. Additional units of mathematics, foreign language, science, and social science are strongly recommended.

Applicants of ability and achievement who do not entirely meet these requirements may request special consideration. Students without the requisite units in English or mathematics may be admitted on condition that they make up the missing work prior to their first registration in the College of Arts and Science. Students without the requisite two years in foreign language must enroll during their first semester in a foreign language course and must remain continuously enrolled until they successfully complete a full year of one foreign language. They must complete this requirement before the end of their fourth semester in the College of Arts and Science.

Blair School of Music. At least 4 units of English, 2 units of algebra, 1 unit of geometry, 1 unit of history, 2 units of a foreign language, and 1 unit of science are required. Students with fewer units may be offered admission but must complete the missing work at Vanderbilt.

Audition/Portfolio. Applicants to the Blair School of Music are required to audition on their primary instrument (or in voice). Auditions will be held at the school on December 2, 2017; January 26–27, 2018; February 16–17, 2018; and February 23–24, 2018. Students seeking admission to the composition degree program must interview and present a portfolio of original compositions. All students are required to submit prescreening materials by January 1 (or November 1 for Early Decision). See instructions for pre-screening on the Blair website. If applicants pass the prescreening portion of the application, they will receive a live audition or interview invitation; please see the Blair website for instructions.

School of Engineering. At least 4 units of English, 2 units of algebra, 1 unit of geometry, 1 unit of trigonometry, and 4 units of science, including physics, are required. Two units of foreign language and 1 unit of history are also desirable.

Peabody College. It is strongly recommended that applicants have at least 4 units of English, 2 units of algebra, 1 unit of geometry, 2 units of science, and 1 unit of history.

Application Procedure

1. Applicants may apply to Vanderbilt through the Coalition for Access, Affordability, and Success; the Common Application; QuestBridge; or the Universal College Application. Applications for admission are available online at coalitionforcollegeaccess.org, commonapp.org, questbridge.org, or universalcollegeapp.com. Regular Decision applicants must submit required parts of the application by January 1 for consideration for admission for the following fall semester. Applications for admission submitted after January 1 will be considered, provided space is available. Admission decisions will be available by April 1. Certain scholarships require additional application materials and may have earlier deadlines. Interested students should visit vanderbilt.edu/scholarships for more information.

2. Applicants must arrange for their high school to send an official transcript of their record to the Office of Undergraduate Admissions.

3. Applicants are responsible for having their official scores from the SAT and/or the ACT sent to Vanderbilt by the testing agency. Score reports appearing on official high school transcripts are acceptable for evaluation purposes, but official score reports are required.

4. The $50 application fee is nonrefundable. A nonrefundable matriculation deposit of $400 is required upon acceptance of the offer of admission. This deposit is credited to the student’s account, and the amount is deducted from the bill for the first semester. Students with financial hardship may request a waiver of these fees.

5. Blair School of Music applicants must also submit a Blair School DecisionDesk Application, which includes a required prescreening video, by the January 1 deadline. Selected applicants will be invited to audition in person. See the Blair website for information and instructions about the Blair admissions process.

Early Decision Plans

These plans are designed to give an early admission decision to well-qualified students whose first choice is Vanderbilt. In order to apply under the Early Decision plans, the student must complete the following steps:
1. Complete all parts of the application for admission and submit it with the appropriate Early Decision plan box checked and the $50 nonrefundable application fee or fee waiver for qualified students. November 1 is the deadline for Early Decision I, and January 1 is the deadline for Early Decision II.

2. Sign the Early Decision Agreement, stating that Vanderbilt is your first choice, affirming your intention to enroll at Vanderbilt if offered admission under the Early Decision plan, and agreeing to withdraw applications to other colleges if admitted. Your parent and guidance counselor must also sign this agreement.

3. Send an official high school transcript through the junior year to the Office of Undergraduate Admissions, along with a list of courses being taken and to be taken in the senior year.

4. Send Vanderbilt the official scores from the SAT and/or the ACT. Scores appearing on official high school transcripts are acceptable for evaluation purposes, but official score reports are required.

5. Blair School of Music applicants must also submit a Blair Application, which includes a required prescreening video, by November 1 for Early Decision I or by January 1 for Early Decision II. Selected applicants will be invited to audition or interview in person. See the Blair website for information and instructions about the Blair admissions process.

Applicants under the Early Decision plans may be admitted, denied admission, or deferred for later consideration in competition with all applicants at the regular decision process. Applicants who are deferred are encouraged to submit additional test scores, seventh semester grades, and any other information that may be helpful.

**Admission without Diploma**

Certain students who are recommended by their high school principals and are considered by the Office of Undergraduate Admissions to be ready for college work may be admitted following completion of their junior year in high school. This program of admission without high school diploma is intended to serve applicants of unusual promise who will benefit from beginning their college career a year early. Application should be made by January 1 of the junior year in high school. Additional examinations may be required. Other criteria will also be considered, such as maturity and motivation.

**A Note Regarding the Redesigned SAT**

SAT scores mentioned in this catalog refer to tests administered in March 2016 and beyond. For information on the redesigned SAT, please see admissions.vanderbilt.edu/quickguide/#testing/.

**Advanced Credit**

Honors courses and other accelerated study in high school are excellent preparation for Vanderbilt. The well-established advanced-placement policy endeavors to recognize exceptional high school preparation, to avoid requiring freshmen to take courses clearly mastered in high school, and to encourage students to begin their college learning experience at the level most appropriate to their preparation. Advanced placement may be granted on the basis of good performance on the College Board Advanced Placement Examinations, on International Baccalaureate tests, or, in some cases, on placement tests given by Vanderbilt. Credit may also be awarded for the British A-level examinations, the Advanced International Certificate of Education (AICE), the Cambridge Pre-U diploma, and similar tests, such as the French baccalauréat, the German abitur, or the Swiss maturité examinations. To qualify for credit for the AICE examinations or individual A-level examinations, students must have achieved an A*, A, or B thereon. More information on international exam credit is available at registrar.vanderbilt.edu/international-examinations.

**Advanced Placement Credit Policy**

Advanced Placement Examination grades accepted for advanced placement with credit by the various departments at Vanderbilt are listed below.

At the determination of individual departments, Advanced Placement Examination grades with a score of 4 or 5 may be accepted for credit. The amount of credit that may be awarded corresponds to the course work waived. Advanced Placement credit does not affect the Vanderbilt grade point average.

Students of the College of Arts and Science are limited to a total of 18 credit hours earned by any combination of advanced placement, international baccalaureate credit, advanced international credit, and credit by departmental examination, counting toward the minimum number of hours required toward the degree. No form of advanced placement credit can be used in fulfillment of the Achieving Excellence in Liberal Education (AXLE) requirements for students in the College of Arts and Science.

### International Baccalaureate Credit Policy
International Baccalaureate test scores accepted for advanced credit by the various departments at Vanderbilt are listed below. Students who have taken tests in other areas may submit their scores to the Office of Academic Services for evaluation by the appropriate departments. Credits are awarded for exams taken at the higher level only. The amount of credit that may be awarded is subject to the same limitations as credit for Advanced Placement.

Pre-College Summer School Program

Upon completion of the sophomore or junior year in high school, students may enroll, at the freshman level, for regular work in the Vanderbilt summer session.

The following conditions must be met: (a) students must be in the upper 25 percent of their high school class and be recommended by their principal or counselor; (b) courses taken in the Vanderbilt summer session must be chosen by the student in consultation with his or her high school counselor and the director of the Division of Unclassified Studies so as to supplement and not overlap the total high school program. A student may take two courses in any one summer, or three courses by special authorization of the director of the Division of Unclassified Studies.

Course work done at Vanderbilt by a pre-college student may count toward the high school diploma and as part of the entrance requirements for regular admission to Vanderbilt. All course work done at Vanderbilt by pre-college students will be credited toward the degree for those who may subsequently matriculate at Vanderbilt, unless the course work is required for high school graduation. Admission to the pre-college summer school program does not admit a student as a regular entering freshman, nor does it commit the university to a student’s admission.

Credit for Previous College Work

Entering first-year students who have taken college work during their junior or senior year in high school through dual enrollment or concurrent enrollment programs, or during summers prior to their offer of admission to Vanderbilt, must report such work to the Office of Undergraduate Admissions if they wish it to be reviewed for credit. At the student’s request, the dean of the appropriate undergraduate school will determine whether such work may be credited toward the Vanderbilt degree. Vanderbilt credit will not be awarded for college courses taken to meet the minimum entrance requirements of 15 high school units.

The question of credit at Vanderbilt must be settled in advance of the student’s final registration.

Credit will be awarded only if:
1. A course is regularly offered by an accredited two-year or four-year college or university;
2. The teacher was a regular faculty member of that college or university; and
3. A majority of the students in the course were candidates for a degree at that college or university.

The College of Arts and Science and Peabody College usually do not award credit for work at other colleges in the summer immediately preceding the student’s first semester at Vanderbilt. Summer work elsewhere will be accepted for credit only if an unusual educational opportunity can be demonstrated and if the courses sought are as rigorous as courses offered at Vanderbilt. Approval for work to be taken elsewhere must be obtained in advance from the appropriate dean.

College of Arts and Science. In no case may credits completed elsewhere after the student has been offered admission by the College of Arts and Science satisfy AXLE requirements.

International Students

Vanderbilt has a large international community representing more than 117 countries. The university welcomes the diversity international students bring to the campus and encourages academic and social interactions at all levels.

Admission. Students from other countries are required to complete all the admission requirements of the university.

Applicants whose first language or language of instruction is not English are required to submit the results of the Test of English as a Foreign Language (TOEFL), the International English Language Testing Service (IELTS), or the Pearson Test of English Academic (PTE Academic). This testing requirement may be waived if a student has scored above a 33 on the SAT Reading Test (administered March 2016 and later), or above a 26 on the ACT English section. Minimum recommended scores for Vanderbilt are 100 on the internet-based TOEFL, 230 on the computer-based TOEFL, 7.0 on the IELTS, and 70 on the PTE Academic.

English Language Instruction. Entering students may be required to take language support courses concurrently with their academic courses at the Vanderbilt English Language Center (ELC).

For information about the English Language Center’s programming, visit vanderbilt.edu/elt.

Financial Resources. To meet requirements for entry into the United States for study, applicants must demonstrate that they have sufficient financial resources to meet the expected costs of their educational program. Applicants must provide documentary evidence of their financial resources before visa documents can be issued.

United States laws and regulations restrict the opportunity for international students to be employed. Undergraduate international students are allowed to work on campus for nineteen hours per week while school is in session. Students may be allowed to work off campus only under special circumstances. Many spouses and dependents of international students are not allowed to be employed while in the United States.

Limited need-based financial aid is available to students who are neither citizens nor permanent residents of the United States. To apply for need-based financial aid, students are required to submit the College Scholarship Service (CSS) Financial Aid Profile. Admission for international students is "need-aware"; the larger the amount of financial aid needed, the greater the competition for admission.

Student Injury and Sickness Insurance. International students are automatically enrolled in the Vanderbilt University–approved International Student Injury and Sickness Insurance Plan. The student may waive this requirement if comparable coverage is provided by an alternate insurance plan and will be effective throughout the policy year. Information concerning the limits, exclusions, and benefits of this insurance coverage may be obtained from Student Health Services.

Information. Assistance in nonacademic matters before and during the international student’s stay at Vanderbilt is provided by Vanderbilt’s International Student and Scholar Services. For more information, visit vanderbilt.edu/isss.
Transfer Students

Admission of transfer students to Vanderbilt is competitive, with the primary criterion being academic merit. The priority deadline for transfer admission is March 15. It is our practice to offer transfer admission for the fall semester only.

To be considered for transfer admission to Vanderbilt, applicants must submit all required parts of either the Coalition Application Transfer Application, the Common Application Transfer Application, or the Universal College Application Transfer Application and satisfy the following conditions:

1. Provide official test results from either the SAT and/or the ACT;
2. Provide a Transfer College Report and be in good standing at the institution last attended;
3. Provide an official secondary school transcript;
4. Provide official transcripts from each college attended;
5. Submit two academic letters of recommendation;
6. Agree to attend a Vanderbilt undergraduate program for at least four semesters (at least 60 hours) of full-time work. Two of these semesters (at least 30 hours) must be within the senior year.

Work presented for transfer must be from an accredited college and is subject to evaluation in light of the degree requirements of this university.

Work transferred to Vanderbilt from another institution will not carry with it a grade point average. No course in which a grade below C- was received will be credited toward a degree offered by the university.

College of Arts and Science. Transfer students must complete at least 60 hours of work in the College of Arts and Science. Credit earned as a degree-seeking student at another university may be used to fulfill AXLE requirements.

Blair School of Music. In addition to an application for admission, transfer students applying to Blair must also submit a Blair School DecisionDesk Application, which includes a required prescreening video, by the March 15 deadline. Selected applicants will be invited to audition in person. See the Blair website for information and instructions about the Blair admissions process. Transfer students will be assigned a level of program study based on the entrance audition. Credit for music courses may be granted following an examination at Blair. Credit for non-music courses is subject to evaluation by the College of Arts and Science. Transfer students must complete at least 63 hours at Blair.

School of Engineering. Transfer students must complete at least 60 hours of work in the School of Engineering.

Peabody College. Transfer students must complete at least 60 hours of work at Peabody. Two of the four semesters in residence must be the last two semesters of the student’s degree program.

Prior Degrees

It is the policy of Vanderbilt University to verify prior educational credentials for all admitted students who intend to matriculate. All matriculated students must provide official copies of transcripts and any other required supporting documentation to Vanderbilt University as part of the prior degree verification process. The Office of the University Registrar will review transcripts and other supporting documentation for authenticity and to confirm degrees earned prior to matriculation at Vanderbilt. Offers of admission are contingent on a student’s providing the required documentation. Students who are not able to provide evidence of prior degrees will not be permitted to register for subsequent terms and may be subject to dismissal from the university.

Intra-University Transfer

Undergraduate students in the College of Arts and Science, Blair School of Music, School of Engineering, and Peabody College may request a transfer between the schools. Students are eligible for intra-university transfer after having been enrolled on a full-time basis at Vanderbilt for two semesters. Students who transferred to Vanderbilt from another institution are eligible for intra-university transfer after having completed at least one full semester at Vanderbilt and having achieved sophomore standing. To be eligible for transfer, students must meet the requirements of the school they wish to enter.

Applications are available on the University Registrar website, registrar.vanderbilt.edu/intra-university-transfers/, and should be submitted to the Office of the University Registrar by the required deadlines listed on this webpage.

Students seeking transfer between schools within the university must meet the following requirements: (a) a student who has been in residence for two regular semesters must have a minimum of 24 hours and a cumulative grade point average of 1.800; (b) a student who has been in residence for three regular semesters must have a minimum of 39 hours and a cumulative grade point average of 1.850; (c) a student who has been in residence for four regular semesters must have a minimum of 54 hours and a cumulative grade point average of 1.900; (d) a student who has been in residence for five regular semesters must have a minimum of 69 hours and a cumulative grade point average of 1.950.

Individual schools and/or majors may impose additional restrictions beyond the minimum requirements listed above. Students applying to the Blair School of Music must audition as part of the process. Transfer applicants to the School of Engineering should present at least two semesters of college calculus, one semester of calculus-based physics, and (for transfer to biomedical engineering or chemical engineering) two semesters of college chemistry. Advanced Placement or International Baccalaureate credit, if accepted by Vanderbilt, can be used to meet these requirements.

Division of Unclassified Studies

The Division of Unclassified Studies provides an opportunity to take undergraduate courses at Vanderbilt as follows: (a) adults not interested in working toward a degree, (b) visiting students working toward a degree at another institution (students in this category may not remain enrolled in the division for more than two regular semesters and one summer session), and (c) rising junior and senior students in high school who have received special permission to enroll in courses for college credit.

Such students register in the Division of Unclassified Studies. Records are kept of their work, and a transcript may be made available to them as it would be if they were regularly enrolled at Vanderbilt. Work taken in the division may be transferred to a degree-granting unit of the university provided it is work that will count as part of the program of that unit. Work so transferred may not amount to more than one-fourth of the requirements for the Vanderbilt degree. Requests for transfer to a Vanderbilt degree-granting school must be made to the Office
of Undergraduate Admissions. Division of Unclassified Studies students are not eligible for intra-university transfer.

Students who want to enroll in the Division of Unclassified Studies must apply and be admitted to the division at least two weeks before the first day of classes for the term they wish to attend. Requests for exceptions to the admission criteria must be addressed in writing to the vice provost for university enrollment affairs and dean of admissions and financial aid, whose decision is final.

All university regulations, including the Honor System, apply to students registered in the Division of Unclassified Studies. Degree candidates have priority in enrollment at Vanderbilt, and students registering in the Division of Unclassified Studies should be prepared for this contingency. DUS students must meet all course prerequisites. Permission of the Office of the Dean is required for enrollment in some courses. Tuition is charged at the standard rate.

Division of Unclassified Studies students are not charged student activity, recreation center, or health insurance fees, and do not have access to recreation or student health services. Those enrolled in the division as full-time students (particularly visiting students or others living in campus residence halls) may petition to be allowed to purchase these services.

Summer Session
The ten-week summer session begins in early June and ends early in August. In addition, some units of the university offer an accelerated four-week Maymester. Vanderbilt offers the summer program for regularly enrolled students at the university, for part-time students, and for students enrolled during the regular year in other colleges and universities (visiting students).

Summer courses are normally offered by the College of Arts and Science, Blair School of Music, the School of Engineering, the Graduate School, the School of Nursing, and Peabody College.

Some courses extend over the entire summer session and complete the work of a full semester. Others are offered in modular units of eight, six, five, or four weeks, for full semester credit. Still other summer courses complete a full semester’s work in the first five-week or second five-week half of summer session, with classes meeting twice as many hours per week. In full-year courses offered in summer, the work of the first semester is covered in the first half-session, the work of the second semester in the second half.

Classrooms, residence halls, libraries, and dining halls are air conditioned. The Vanderbilt Recreation and Wellness Center and other athletic facilities are open in the summer. Information about the summer session is available on request from the Division of Unclassified Studies or from each school’s Office of Academic Services. Students may also go to vanderbilt.edu/summersessions for additional information.

Maymester
In the interval of several weeks between final examinations in the spring semester and the beginning of summer session, Vanderbilt offers educational travel opportunities and a variety of "total immersion" courses that would be difficult to offer during a regular semester.

Students are permitted to take no more than one course during the Maymester. Housing and food services are available during the session. Visiting students are eligible for Maymester courses.

Information about May courses on campus or abroad can be found at vanderbilt.edu/summersessions.
Financial Information

Tuition for undergraduates for the 2017/2018 academic year is $46,500 ($23,250 a semester). An equipment fee of $800 is charged for students enrolled in the School of Engineering (in addition, freshmen entering the School of Engineering are required to own a laptop computer, with an estimated cost of $1,500). A full-time undergraduate student takes 12 to 18 hours. Students taking more than 18 hours per semester are charged $1,937.50 per hour for each extra hour. Students who, for approved reasons, enroll for fewer than 12 hours are charged $1,937.50 per hour, with a minimum tuition charge of $1,937.50 per semester. The $400 deposited with the Office of Undergraduate Admissions when the student is accepted is applied to the bill for the first semester.

Rates for tuition and fees are set annually by the Board of Trust and are subject to review and change without further notice.

Estimate of Expenses

Basic expenses (excluding travel and personal expenses) should be approximately $66,567 a year, itemized as follows:

- **Tuition (2017/2018)**: $46,500
- **Room and board (estimate)**: 15,584
- **Books and supplies (estimate)**: 1,370
- **Student activities and recreation fees (estimate)**: 1,164
- **Student health insurance**: 1,949

Other Academic Fees

- **Application fee**: $50
- **First-Year Experience fee (year)**: 765
- **Engineering equipment fee (year)**: 800
- **Late registration fee**: 30
- **Senior-in-absentia minimum semester tuition charge (hourly rate)**: 1,937.50
- **Special examination fee**: 5
- **Credit by departmental examination fee**: 50
- **Transcript fee (one time only)**: 100

Self-service registration concludes on the sixth day of the term.

Students who have not registered by the published dates may be subject to late registration fees. Registration dates are published in the Academic Calendars.

Payment of Tuition and Fees

Tuition, fees, and all other university charges incurred prior to or at registration are due and payment must be received by August 31 for the fall semester and January 2 for the spring semester. If courses are added AFTER the initial billing period, it is the student's responsibility to contact the Office of Student Accounts for due dates and amounts related to tuition in order to avoid any holds and/or late payment penalties. All other charges incurred after classes begin are due and payment must be received in full by the last business day of the month in which they are billed to the student. If payment is not made within that time, Commodore Cash and Meal Money may not be available and your classes may be canceled. Visit vanderbilt.edu/stuacccts for payment options.

Students/Guarantors will be responsible for payment of all costs, including reasonable attorney fees and collection agency fees, incurred by the university in collecting monies owed to the university. The university will assess a $25.00 fee for any check or e-payment returned by the bank and reserves the right to invoke the laws of the State of Tennessee governing bad check laws.

E-Billing and Access to a Student's Vanderbilt Account

Vanderbilt exclusively uses convenient and secure electronic billing (e-bills) for student account charges. Students may need to take action to enable parents, guardians, and other “invited payers” to receive e-bill notices and access to the e-bill website. Students may access their online invoices from their YES landing page at yes.vanderbilt.edu. Once they have signed in to YES, they may view invoices under the Billing Portal link.

Students are responsible for granting access to parents, guardians, or other payers who should receive email billing notifications. To do this, students log in to YES and click the “billing portal link.” On your CashNet Account page, click “Add New” in the “Other Payers” section. Enter the information that is requested, and click “OK.” (You must enter the “login name” that your authorized payer will use as a username—the logon and password will be sent to your authorized payer in an email.) Tutorials are located online at vanderbilt.edu/stuacccts/eBill.html.

Any month in which there is activity on the student’s account, an e-bill will be generated and an email notification sent to the student's Vanderbilt email address, as well as to the email addresses of others they have invited. The email notification will have the subject line “Your E-Bill Is Now Available for Viewing” and will contain a link to the secure e-bill website.

Payments may be made electronically, or for those wishing to mail a payment, a payment coupon can be printed. When an electronic payment is made, a confirmation email will be sent. It remains the responsibility of the student to ensure that bills are paid on or before the due date.

The Office of Student Accounts can be contacted at (615) 322-6693, toll-free at (800) 288-1144, or via email at student.accounts@vanderbilt.edu. For additional information, please visit the Student Accounts website at vanderbilt.edu/stuacccts.

Refunds of Tuition and Housing Charges

University policy for the refund of tuition and housing charges provides a percentage refund based on the time of withdrawal. Students who withdraw officially or are dismissed from the university for any reason may be entitled to a partial refund in accordance with the established schedule below. Students who register for more than 18 hours and later reduce their registration to 18 hours or fewer may be entitled to a partial refund of the extra tuition for hours over 18 in accordance with the same schedule. Fees are nonrefundable.

Tuition Refund Insurance is offered through the Office of Student Accounts. This elective plan provides coverage for tuition and housing in the event a student withdraws from school due to medical reasons. Go to collegerefund.com for more information or to apply online.

Spring Break March 3–11

No refund after March 23, 2018

Payment Options

**Direct Payment:** Tuition, fees, and all other charges are paid directly to the university. Payment for the fall semester is due by August 31. Payment for the spring semester is due by January 2. Students can pay online after viewing their e-bill at vanderbilt.edu/stuaccts. There is no further action required for this option.

**Interest-Free Monthly Payment Plan:** Students can spread payment over five monthly installments for each semester (fall and spring), interest free, by enrolling in the VANDYPay, currently administered by Higher One. The deadline to enroll in the VANDYPay is August 31 for the fall semester (payments begin May 15) and January 31 for the spring semester (payments begin October 15).

The current estimated charges for the 2017/2018 academic year are available at vanderbilt.edu/stuaccts to assist students in determining their annual expenses. For further information, please contact the Office of Student Accounts at (615) 322-6693 or (800) 288-1144.

Late Payment of Fees

All charges not paid by the specified due dates will be assessed a late payment fee of $1.50 on each $100 owed (minimum late fee of $5).

Financial Clearance

Transcripts (official or unofficial) will not be released until the account has been paid. Diplomas of graduating students will not be released until all indebtedness to the university is cleared.

Activities and Recreation Fees and Identification Card

All degree-seeking undergraduate students pay activities and recreation fees that entitle them to admission to certain athletic, social, and cultural events and to subscription to certain campus publications. Specific information on these fees is published annually in the Student Handbook. The undergraduate student’s identification card will admit students to university activities and the Vanderbilt Recreation and Wellness Center. It is also used as a library card and to stamp other documents. The card should be carried at all times and be returned to the university if the student withdraws for any reason.

The student activities fee and the student recreation fee will be waived automatically for the fall and spring semesters if the undergraduate student is a part-time student registered for four or fewer credit hours. Part-time undergraduate students wishing to use the Vanderbilt Recreation and Wellness Center will be required to pay the recreation center membership fee for access. For more information, please see vanderbilt.edu/recreationandwellnesscenter.

Transcripts

Official academic transcripts are supplied by the University Registrar on authorization from the student. Transcripts are not released for students with financial or other university holds.

Fraternity and Sorority Membership

There is a financial commitment associated with joining a fraternity or sorority. The costs go toward inter/national fees, chapter operating expenses, and social functions. Financial obligations differ for men and women and among individual chapters. New members can expect to pay higher dues their first semester. Dues for Interfraternity Council (IFC) men and Panhellenic women range from $750 to $1,500 per semester. Initiation fees for National Pan-Hellenic Council (NPHC) and Intercultural Greek Council (IGC) chapters range from $500 to $1,500 and continuing dues range from $100 to $500 each year. Additional costs throughout the semester may be for meal plans, conference attendance, philanthropic contributions, pictures, gifts, parties, T-shirts, etc. Chapter fees are paid directly to the fraternity or sorority. There are payment plans available to students, as well as scholarships within the individual chapters. Many chapters participate in the Facility Management Program, and members pay $322 each semester, charged to their student account, for the maintenance and upkeep of the chapter house. In addition, some fraternities pay an additional renewal fee which is deposited into their on-campus account to help pay down loans or create a savings account for future projects on the house.

Need-Based Financial Aid

Vanderbilt is committed to accessibility and affordability for all admitted and enrolled students. Grants, scholarships, and work opportunities are available to eligible students who apply for assistance and have demonstrated financial need. Beginning in the fall of 2009, financial aid packages offered to incoming and current undergraduate students no longer included need-based loans. While continuing to meet the full demonstrated need of all eligible students, this expanded aid initiative, Opportunity Vanderbilt, announced in October 2008 provides increased amounts of need-based grants and/or scholarships (gift assistance) to replace need-based loans that would have otherwise
been offered to meet a student’s demonstrated financial need. Demonstrated financial need is the difference between the cost of attending Vanderbilt and the amount that students and their families are expected to contribute toward that cost. The amount of aid to fully meet each student’s demonstrated financial need is determined annually on the basis of current financial information required/provided on relevant application forms.

**Application Procedure**

Prospective students need to complete a Free Application for Federal Student Aid (FAFSA) and a College Scholarship Service PROFILE. The FAFSA may be completed online at fasfa.ed.gov. Students may complete the CSS PROFILE online at collegeboard.org. The student must submit the FAFSA and PROFILE no later than February 1 of the senior year in high school. Further information regarding the application process is available from the Office of Student Financial Aid and Scholarships at vanderbilt.edu/financialaid.

Students must reapply for financial aid each year by submitting a CSS PROFILE and the FAFSA by April 15 of each year. Renewal applicants must be in good standing and making satisfactory academic progress in order to continue receiving federal and institutional student aid funds. Renewal of university need-based assistance requires a minimum cumulative GPA of 2.0 for the sophomore, junior, and senior years. The priority consideration date for filing renewal applications is April 15.

**Financial Aid for Early Decision Applicants**

Early Decision applicants seeking financial aid must complete the FAFSA and College Scholarship Service PROFILE to be considered for Vanderbilt need-based grant assistance. The FAFSA may be completed online at fasfa.ed.gov. Students may complete the CSS PROFILE online at collegeboard.org. Early Decision I applicants should complete the CSS PROFILE no later than November 7 of the senior year in high school. Early Decision II applicants should complete the CSS PROFILE process no later than January 2 of the senior year in high school. Students will receive an estimate of their eligibility for financial aid with their offer of admission.

**Federal Title IV Aid**

Financial aid is available from several Federal Title IV student financial aid programs. Any citizen or eligible non-citizen of the United States who is accepted for admission and who demonstrates financial need is eligible to participate. This aid may be renewed annually by students who continue to qualify on the basis of financial need, if they are in good academic standing and are making satisfactory academic progress in accordance with standards prescribed by the U.S. Department of Education. (See Satisfactory Academic Progress.)

The FAFSA establishes eligibility for participation in federal aid programs. The loan programs also require completion of loan applications and/or promissory notes. Applicants should contact their state agencies for information regarding state aid programs and application procedures.

Vanderbilt participates in the following federal student financial aid programs:

- Federal Pell Grant Program
- Federal Supplemental Educational Opportunity Grant Program (FSEOG)
- Federal Work-Study Program (FWSP)
- Federal Perkins Loan Program

Federal Direct Loan Program
Federal Direct Parent Loan for Undergraduate Students (PLUS)

In addition to the federal student financial aid programs, Vanderbilt administers a number of need-based institutional scholarship, grant, and loan programs, some of which are described briefly in the Scholarship section of this catalog. University general sources of need-based assistance and loan funds available to students in all schools are listed.

**Satisfactory Academic Progress Standards for Undergraduate Students**

Academic progress for students receiving Vanderbilt University (institutional) need-based and/or federal Title IV financial assistance will be reviewed at the end of each academic term. Students must be meeting progress standards as defined by the Office of Student Financial Aid and Scholarships. These standards may be stricter than those defined in the academic standards applied by each of the individual undergraduate schools.

Institutional need-based aid assistance, including Vanderbilt need-based grants and scholarships, and federal Title IV financial aid are awarded for the academic year as determined by eligibility criteria for each financial aid program. Renewal and continuation of awards will be contingent upon maintaining satisfactory academic progress (SAP). The undergraduate requirements below are separate from the Academic Eligibility Policy required of all undergraduate students. Students must obtain a minimum grade point average outlined below. We realistically anticipate that the level of academic performance for each student will be higher than the minimum required cumulative GPA for renewal of Vanderbilt and federal financial aid programs. Students must successfully complete at least 2/3 (67%) of all credit hours attempted (Completed Hours / Attempted Hours = Completion Rate). Students must also complete their degree requirements within 150% of the length of your academic program for Title IV eligibility. For example: Arts and Science degrees require 120 completed credit hours, meaning the maximum timeframe is 180 attempted credit hours.

All recipients who enroll full-time are expected to earn a minimum of 12 credits per semester.

**Note:** A reported grade of I or M are calculated as a zero grade point. The student is responsible for notifying the Office of Student Financial Aid if an earned grade is later received.
Financial Aid Warning
For students who are making satisfactory progress, the award commitment for the subsequent year will normally be made for the entire academic year. For students who fail to complete the required credit hours within the specified time frame and/or who fail to maintain the minimum GPA, the student will receive a warning and the financial aid commitment will be made for one subsequent semester only. Further review will be undertaken at the end of that semester. If the student fails to complete the required credit hours and/or fails to maintain the minimum GPA within the subsequent semester, institutional and/or federal financial aid will be suspended.

Appeal Procedures
Any student whose institutional and/or federal Title IV student aid is suspended due to unsatisfactory academic progress may submit an appeal for reinstatement of such assistance to the Office of Student Financial Aid and Scholarships. The appeal for reinstatement should include the following elements:

- An explanation of extenuating circumstances, such as injury, illness, death of a relative, or other special circumstances as to why you failed to meet satisfactory academic progress requirements.
- An explanation of what has changed that will now allow you to demonstrate satisfactory academic progress at the end of the next semester.
- Supporting documentation from medical doctors, advisers, psychologists, etc., to verify the information you are including in your personal statement. Failure to provide information may result in your appeal being denied.

The student will be notified of the appeal approval or denial and if eligibility for institutional and/or federal financial aid funds will be reinstated for one additional semester on a probationary basis.

Financial Aid Probation
At the end of a probationary semester, students must then meet Satisfactory Academic Progress for continued eligibility of financial assistance. If a student fails to meet Satisfactory Academic Progress all institutional and/or federal Title IV financial aid will be suspended. A student may make a subsequent appeal for continuation of such assistance to the Office of Student Financial Aid and Scholarships. A student’s submitted appeal after a Probation status will be reviewed by an Institutional Appeal Committee. If it is determined that the student’s failure to meet academic progress was the result of illness, death in the family, or other exceptional or mitigating circumstances, those factors will be considered in determining whether or not eligibility for federal and/or institutional student aid funds can be reinstated for one or more semester(s) while following a prescribed Academic Plan as defined by the Institutional Appeal Committee.

Academic Plan
Students must meet the standards set forth in an Academic Plan that has been established to ensure that satisfactory academic progress will be met by a specific point in time in order to continue receiving institutional and/or federal Title IV financial assistance. Students who fail to earn the minimum credit hours and GPA specified in their established Academic Plan will have all financial assistance suspended until the academic deficiency is corrected.

Reinstatement of Institutional and/or Federal Title IV Assistance
If students fail to progress as outlined above, they will not be eligible to receive further aid and will be notified that they may appeal for reinstatement of institutional and/or federal aid funds in any following/subsequent semester after the number of required credit hours to advance to the next higher level is achieved and/or their overall GPA has been raised to the minimum level. It will be the responsibility of the student to contact the Office of Student Financial Aid and Scholarships to request the reinstatement of his/her institutional and/or federal assistance.

Maximum Aid Eligibility
Vanderbilt University (institutional) need-based assistance: A maximum time frame of four years (eight semesters or its equivalent) of full-time enrollment is established for attainment of their baccalaureate degree when determining eligibility for the receipt of institutional financial aid. Terms enrolled and credits earned at prior colleges/universities and accepted toward the student’s undergraduate degree may be counted toward the maximum time frame for Vanderbilt financial assistance.

Federal Title IV assistance: A maximum time frame of 150% of the required credit hours to receive a degree or six years (twelve semesters or its equivalent) of full-time enrollment is established for attainment of the baccalaureate degree when determining eligibility for the receipt of funds through federal Title IV student financial aid programs.

Student Employment
A primary source of information for students interested in part-time on- or off-campus employment is through access to an online job bank, HireADore.com. Many university, medical center, and off-campus employers post their open positions on HireADore.com at appropriate times throughout the year. The Federal Work Study (FWS) Program is a Federal Title IV program and eligibility for it is determined upon completion of the Free Application for Federal Student Aid (FAFSA) and other required application materials. Vanderbilt has positions available, on a limited basis, for both FWS and non-FWS eligible students. All students hired into on-campus positions will need to complete the federally required I-9 work authorization paperwork/process. The student employment function is coordinated out of the Office of Student Financial Aid and Scholarships located on campus at 2309 West End Avenue. More information may be found at vanderbilt.edu/studentemployment or by calling (615) 343-4562.
University General Medals, Prizes, and Awards

Also see the Honors chapters in the College of Arts and Science, Blair School of Music, School of Engineering, and Peabody College sections of this catalog for listings of additional awards and prizes.

THE JESSICA ACETE AND ELIZABETH BEALE RIPPLE IN THE POND AWARD was established in 2001 by Mr. and Mrs. George G. Strong through the Strong Family Foundation to reward an undergraduate student in any area of the university for random acts of kindness. The award was created to express the extreme gratitude of Mr. and Mrs. Strong in recognition of the assistance and care that their daughter, Meredith, received from her friends and the Vanderbilt community as she was stricken with meningococcal meningitis. Physicians credit the quick action taken by Meredith’s classmates and Vanderbilt personnel with saving her life.

THE CHARLES FORREST ALEXANDER PRIZE IN JOURNALISM was endowed in 1982 by friends of Mr. Charles Forrest Alexander, B.A. 1950, who died in 1976. As a student, he was editor of the Commodore, V Book, and a staff member of the Hustler. The fund provides support for an annual prize to be awarded to a student who has achieved distinction in journalistic projects at Vanderbilt University.

THE GREG A. ANDREWS CIVIL ENGINEERING MEMORIAL AWARD was established in 1969 by James M. Andrews, Sr. to support a senior in civil engineering who, as judged by the faculty, has made the greatest progress in professional development and who plans to pursue graduate study in environmental and water resources engineering at the School of Engineering. Donor established the fund to honor the memory of his son, Greg, a junior at Vanderbilt who was fatally injured in an auto accident.

THE THOMAS G. ARNOLD FUND was established in 1988 by multiple donors to provide an award for the best research/design project completed by a senior student in the Biomedical Engineering Department at the School of Engineering.

THE DAN BARGE JR. AWARD IN CIVIL ENGINEERING was established in 2011 by multiple donors as an award to give to a junior civil engineering student who exhibits outstanding academic performance and dedication to professional or community service at the School of Engineering. This fund was established to honor the legacy of Daniel B. Barge Jr., B.E. 1943, who was named a Distinguished Alumnus by the School of Engineering. Donor established the fund in honor of his son, Greg, a junior at Vanderbilt who was badly injured in an auto accident.

THE THOMAS G. ARNOLD FUND was established in 1988 by multiple donors to provide an award for the best research/design project completed by a senior student in the Biomedical Engineering Department at the School of Engineering.

THE LARRY ROSS CATHEY AWARD was established in 1974 by Arnold M. Heiser to support an award that will recognize the most outstanding student majoring in astronomy in the Astronomy Department at the College of Arts and Science. This fund was established to honor the legacy of Daniel B. Barge Jr., B.E. 1943, who was named a Distinguished Alumnus by the School of Engineering. Donor established the fund to honor the memory of his son, Greg, a junior at Vanderbilt who was badly injured in an auto accident.

THE GLEN AND ELIZABETH BOGISH AWARD was established in 1989 by Burton J. Bogish, professor of biology, and Mr. and Mrs. James T. Norris, Jr., to provide an annual award to the student at Vanderbilt University who has demonstrated success in research and study and who has been selected by the faculty as the student who best exemplifies the spirit and tradition of volunteer service through music at the Blair School of Music.

THE PAUL CONKIN FUND was established in 1999 by an anonymous donor to establish a prize for the best undergraduate term paper written on American History in the History Department at the College of Arts and Science. Paul Conkin, Distinguished Professor of History Emeritus at Vanderbilt...
University, is the author of the history of Vanderbilt University, Gone with the Ivy, and the Peabody College History which was published in 2002.

THE COOLEY PRIZE was established in 1920 to provide recognition for students who excel in fine arts at the College of Arts and Science. The prize is named after Comrade Theodore Cooley, known as one of the most public-spirited citizens of Nashville. Cooley was a successful Nashville businessman and supporter of the Tennessee Centennial and International Exposition held in Nashville in 1897 at the current location of Centennial Park on West End Avenue.

THE WALTER CRILEY PRIZE PAPER AWARD was established in 1978 by Robert Derrick, B.E. 1954, and the Simons-Eastern Company to be given for the best paper on an advanced senior project in electrical engineering at the School of Engineering at Vanderbilt University. This award was created in honor of Walter Criley, professor emeritus of electrical engineering, who taught from 1947 until his retirement in 1965. Professor Criley helped organize both the student chapter and the Nashville section of the Institute of Electrical Engineers, and also served as southeastern regional vice-president of the National Institute of Electrical Engineers. He passed away in 1977.

THE DONALD DAVIE MEMORIAL POETRY PRIZE was established in 2005 by multiple donors to support an annual prize to be awarded each spring to the best poem submitted by a current graduate student in the Department of English at the College of Arts and Science.

THE EDWARD PRENTICE DAVIS MEMORIAL PRIZE was established in 1997 by classmates of Mr. Edward “Ward” Prentice Davis, B.A. 1987, to support the best poem submitted by a current graduate student in the Department of English at the College of Arts and Science.

THE EDWARD S. GARDNER MEMORIAL PRIZE FOR EXCELLENCE IN FRENCH was established in 1980 by Grace D. Gardner, B.A. 1932, to be used, at the discretion of the Department of French at the College of Arts and Science, in one of two ways: 1) to fund an annual award to a graduating senior excelling in French studies, or 2) to purchase books for the French collection in Jean and Alexander Heard Library. Donor made this gift in honor of her late husband, Edwin S. Gardner, B.A. 1927, who served as treasurer of Vanderbilt from 1953 to 1971.

THE GENERAL MOTORS POLITICAL SCIENCE FUND was established to support undergraduate prizes for political science students at the College of Arts and Science.

THE JOHN P. GREER AWARD was established in 1998 by Professor John and Mrs. Shirley Lachs to provide an annual award to a senior in philosophy or a graduate student from the Department of Philosophy who has been a member of the American Society of Civil Engineers. This fund was established in memory of Jean and Alexander Heard, Chancellor Alexander Heard served as Vanderbilt University.

THE LARRY C. HALL STUDENT TRAVEL FUND was established in 1995 by multiple donors to support a student traveling to the Pittcon Conference, a chemistry related conference, through the College of Arts and Science. The fund was established in honor of Dr. Larry Hall at the time of his retirement.

THE MARGARET STONEWALL WOOLDRIDGE HAMBLET FELLOWSHIP was established in 1985 by Clement H. Hamblet and Margaret Hamblet Sarner at the College of Arts and Sciences. The fellowship was established in memory of Margaret Hamblet’s love of art and travels to Europe to study art. Margaret Hamblet was a graduate of Peabody College in the Class of 1926. Clement and Margaret Hamblet met in Paris where Margaret was an art student. The fellowship is awarded to a deserving senior with outstanding merit in art and completion of three or more studio art courses and provides one year of travel and furtherance of creative endeavor following graduation from the College of Arts and Science. The second priority for the fund is to provide a continued small subsidy for a second graduating senior.

THE ANDREW SANG HAN MEMORIAL AWARD was established in 2017 to support an award for a woodwind or brass student at the Blair School of Music who demonstrates remarkable musicianship and leadership in all areas of ensemble playing.

THE JEAN AND ALEXANDER HEARD AWARD was established in 2013 by the children of Jean and Alexander Heard to provide need-based financial assistance to deserving undergraduate students who have been accepted to one of the summer music festivals through a summer study program at the Blair School of Music. This fund was established in memory of Jean and Alexander Heard. Chancellor Alexander Heard served as Vanderbilt University’s fifth Chancellor from 1963 to 1982 and oversaw many changes in the campus. Under his tenure, Peabody College, Blair School of Music, and Owen School of Management became part of the University.

THE JEAN KELLER HEARD PRIZE was established in 1985 by the Vanderbilt Woman’s Club to provide an award for excellence in music performance to a student seeking a Bachelor of Music degree at the Blair School of Music. The award was established in honor of Mrs. Jean Keller Heard, a charter member of the Vanderbilt University Women’s Club who passed away in 1985.
THE HISTORY DEPARTMENT FRESHMAN SEMINAR AWARD was established in 2001 by Professor Sam McSeverney to award an annual prize to the student who has completed the best freshman paper in a history freshman seminar at the College of Arts and Science. Upon Professor McSeverney's death, he wishes for the award to bear his name.

THE HENRIETTA HICKMAN MORGAN MEMORIAL PRIZE was established in 1986 to provide assistance to incoming graduate students in the area of environmental engineering in the School of Engineering.

THE JOHN T. AND LIZZE ALLEN MCGILL AWARD was established in 1961 by Mrs. Merrill Moore, Vanderbilt alumna and widow of the late Merrill McGill, M.D., 1928, to provide a cash award to a student graduating from Vanderbilt University and majoring in either biology, zoology, or a major in the School of Engineering.

THE MERRILL MOORE AWARD was established in 1961 by Mrs. Merrill Moore, the wife of Vanderbilt's former Chancellor Alexander Heard. Mrs. Heard passed away in 2011.

THE PRIZE in geological sciences at the College of Arts and Science. This fund was established in memory of the donor's wife, Mrs. John T. McGill to provide an award to one or more residents of McGill Hall who have the best developed qualities of leadership and scholarship. This fund was established in memory of Mrs. McGill's husband who passed away in 1946, and who spent his life in service to Vanderbilt as a student in the class of 1879, professor emeritus of chemistry, Dean of the School of Pharmacy, and historian of the university. Preference in awarding is for a freshman with financial need.

THE URBAN L. LEE PRIZE was established in 1991 to provide an annual prize for outstanding senior who contributes by example to the promotion of outdoor education, combining academic excellence and expertise in wilderness skills along with friendship and service to others in any area of Vanderbilt University. Professor and Mrs. Lichter established the award to honor the life of their son Joel Lichter, an avid outdoorsman who graduated from Vanderbilt University magna cum laude in 1981 with honors in chemical engineering. Joel Lichter died in a 1992 accident in Alaska while commercial fishing.

THE THOMAS W. MARTIN MEMORIAL AWARD was established in 1992 by multiple donors to support an award recognizing an outstanding undergraduate physical chemistry student at the College of Arts and Science. This fund was established in memory of Thomas W. Martin Jr., chair of the Department of Chemistry from 1967 to 1970.

THE V. W. KIRKPATRICK PRIZE was established in 1926 through a bequest from Walter Gil Kirkpatrick, B.E. 1887, B.S. and M.S. 1889, to provide support for an annual prize for the most deserving third-year student in the Department of Civil Engineering at the School of Engineering.

THE W. W. LACHS AWARD was established in 2008 by Brenda Higgins, Vanderbilt employee in Blair Development and Alumni Relations, to support a voice or orchestra student who participates in the opera presentation in the school year in which the award is given at the Blair School of Music.

THE NED PARKER NABERS AWARD was established in 1984 by multiple donors to provide an annual prize for the best essay or research paper by an undergraduate student in the fields of classical archaeology or ancient art or architecture. The fund was established in memory of Ned Parker Nabers who served on faculty from 1966 until his death in 1984.

THE DANA W. NANCE PRIZE was established in 1985 by Professor Francis C. Nance, B.A. 1953, and family to provide an annual award to a student at the College of Arts and Science. The award will recognize an outstanding student from the pre-medical curriculum who has demonstrated perseverance in overcoming academic, financial, or social obstacles to succeed, who is well-trained in the technical skills acquired through the
undergraduate pre-medical curriculum, and who possesses an abiding sense of ethical and moral concern for the patient. The fund was established to honor Dana W. Nance, B.A. 1925, M.D. 1929, who served for many years as the area chairman of the Vanderbilt Alumni Fund.

THE ELLIOTT AND AILSA NEWMAN CLARINET AWARD was established in 1999 through the bequest of Ailsa MacKay Newman along with additional memorial gifts to provide an award to a deserving clarinet student at the Blair School of Music. Preference when awarding is given to a clarinet major who shows strong musical promise. If a clarinet major is not available, the award should be given to a woodwind student. This fund is named for Mrs. Newman and her husband, who predeceased her.

THE L. HOWARD NICAR MEMORIAL FUND was established in 1997 by multiple donors to award a prize or scholarship to a collegiate student at the Blair School of Music. This fund was established in memory of L. Howard Nicar, former Assistant Dean of Admissions at the Blair School of Music.

THE DONALD E. PEARSON AWARD was established in 1980 by the Chemistry Department and endowed in 2008 by Dr. and Mrs. Frank Pinkerton to provide support for an annual award to an outstanding chemistry major who has done undergraduate research in chemistry. Professor Donald E. Pearson served as faculty in the Department of Chemistry at the College of Arts and Science until his retirement in 1986.

THE PHI BETA KAPPA CENTENNIAL AWARD was established in 1998 by the Phi Beta Kappa Council to provide support for an annual award at the College of Arts and Science. This fund, established in celebration of the Alpha of Tennessee chapter’s centennial in 2001, will be presented to a Vanderbilt senior who has been elected to Phi Beta Kappa in their junior year and who has demonstrated excellence in several different fields of academic endeavor, and has applied his or her intellectual talents in extracurricular activities within the university or community that exemplify a dedication to improve the human condition.

THE EMILY ANN BENNETT PLANT AWARD IN ANTHROPOLOGY was established in 1995 by Emily Ann Bennett Plant, B.A. 1994, to provide financial support based on merit and need to recognize excellence in the study of anthropology at the College of Arts and Science. The award may be applied to the cost of tuition and living expenses or to fund supplemental educational activities that will enrich the study of anthropology, such as summer research or participation in a field school.

THE ROBERT PETER PRATT MEMORIAL AWARD was established in 1991 by multiple donors to honor Robert Peter Pratt (1954–1991), former associate director of Undergraduate Admissions and longtime leader in promoting diversity within the student population. The award is presented annually to the Chancellor’s Scholar whose accomplishments best exemplify Peter Pratt’s commitment to diversity and unity, leadership and cooperation, warmth and openness, and unselfish service to others. The award recognizes a Chancellor’s Scholar of junior or senior standing whose campus leadership and service promote diversity and enhance understanding among the various groups that comprise the university community. Academic performance is also considered in selecting the award recipient.

THE DAVID RABIN PRIZE was established in 1985 by multiple donors to provide an annual prize to a student chosen on the basis of music ability and talent at the Blair School of Music. This prize was established in memory of Dr. David Rabin, former professor of medicine in obstetrics and gynecology at the School of Medicine. Dr. Rabin passed away in 1984.

THE JERRY REVES STUDENT ATHLETE GPA AWARD was established through funds from the terminated trust of Dr. Joseph Gerald Reves, Jr., B.A. 1965, to annually fund a plaque for the student-athlete with the highest GPA.

THE JIM ROBINS AWARD was established in 1969 by Michael G. Wagner, B.A. 1957, to honor the memory of James A. Robins, class of 1892, whose life and teaching exemplified selfless devotion to learning, to honor, to participate in sports and to service to youth and Vanderbilt. The prize is awarded to a member of the football team voted as the most outstanding representative of the group.

THE JOE L. ROBY NROTC ESPRIT DE CORPS AWARD was established in 2006 by Mr. Duff Anderson and Mr. W. Patrick McMullan III, B.A. 1974, to recognize and reward Vanderbilt NROTC Midshipmen who display outstanding enthusiasm and esprit de corps as members of the battalion through involvement in NROTC and university activities and provide inspiration to fellow midshipmen and students at Vanderbilt University. The award was created in honor of Joe L. Roby, B.A. 1961, Vanderbilt trustee emeritus, and a former Battalion Commanding Officer of the Vanderbilt NROTC. The award is presented to the officer of the year at commencement. The award honors his father, Judge Emory Marvin Underwood, A 1900, L. 1902, and a member of the Vanderbilt Board of Trust from 1922 until his death in 1960, who devoted his life to justice and to bringing out the best in people.

THE JIM ROBINS AWARD was established in 1969 by Michael G. Wagner, B.A. 1957, to honor the memory of James A. Robins, class of 1892, whose life and teaching exemplified selfless devotion to learning, to honor, to participate in sports and to service to youth and Vanderbilt. The prize is awarded to a member of the football team voted as the most outstanding representative of the group.
THE JACQUELINE AND MORRIS WACHS ESSAY PRIZE was established in 1999 by multiple donors to support a prize in the Department of French and Italian at the College of Arts and Science. This fund was established in memory of Jacqueline Wachs, former French professor from 1966 until her retirement in 1994, and Morris Wachs, emeritus professor of French at Vanderbilt. Mrs. Wachs died in 1999 and Mr. Wachs died in 2001.

THE WALTHER AWARD FOR VUCEPT EXCELLENCE (WAVE) was established in 2005 by Beverly R. Walther and Michael C. Walther II to reward the outstanding service of undergraduates participating in the VUcept program at Vanderbilt University.

THE THOMAS M. WESER AWARD was established in 1989 by multiple donors to provide support for an annual award honoring an international student who has demonstrated an exceptional commitment to intellectual life, cross-cultural appreciation, and personal integrity at Vanderbilt University. Weser Award recipients are typically active in student organizations and community service projects outside of the classroom and maintain a solid record of academic performance at the undergraduate or graduate level. This fund was established in memory of Thomas M. Weser, an exchange student from Germany who was killed while attending Vanderbilt University in 1988.

THE MARTIN WILLIAMS AWARD was established in 1992 by multiple donors to provide an award to a music major writing the most outstanding paper for a music theory or literature/history course at the Blair School of Music. This fund was established in memory of Martin Williams, Director of the Smithsonian Institution’s Jazz Program and Adjunct Professor of Jazz History at the Blair School of Music.

THE FRANK A. WOODS AWARD IN HISTORY was established in 2008 by Mr. James Lachs, B.S. 1993, to provide an award for a graduating senior majoring in history with the most distinguished academic record at the College of Arts and Science.

THE KATHERINE B. WOODWARD PRIZE IN SPANISH was established in 1943 by Katherine B. Woodward, B.A. 1919, to provide an award to the student with the highest average majoring in Spanish at the College of Arts and Science. Preference in awarding will be given to senior year students. Miss Woodward served as a teacher then head of the Spanish Department at the Woodrow Wilson High School in Portsmouth, Virginia, from 1919 until her retirement in 1956. She had a deep love for Vanderbilt and an intense interest in promoting the teaching of Spanish.
A Community for Liberal Learning

“The work of the College of Arts and Science is fundamental. It is the basis of all professional study. No professional school can be self-sufficient. The College in its undergraduate and graduate work must remain the heart of the whole situation, and send its quickening life blood into every fiber and tissue.”
—Chancellor James H. Kirkland
at the semicentennial celebration of the university
October 1925

CHANCELLOR Kirkland’s words were prophetic of our times as well as true of his own. Since its founding Vanderbilt has pursued its mission of excellence in the liberal arts with a commitment to liberal learning that is the special concern of the College of Arts and Science. Liberal learning endures because it brings men and women to subjects, concepts, and modes of thought that enable them to think critically about where humanity has been and where it ought to be going. The liberal arts spark curiosity and broaden vision, help to instill understanding of matters otherwise unknown, and encourage individuals to live their lives with a sense of purpose, context, and relatedness. A liberal education has perennial relevance and usefulness: it should prepare its recipients to think precisely, to reason clearly, and to judge wisely—all practical considerations in the pursuit of constructive and satisfying lives and in the practice of today’s professions and vocations.

Today the College of Arts and Science maintains its historic position as the heart of the university. Excellence in undergraduate and graduate education is its unwavering aim.

The College of Arts and Science provides intellectual stimulation, training, and incentive designed to foster the lifelong liberal learning of its graduates. It offers challenging, forward-looking programs of study in the humanities, natural sciences, and social sciences resourcefully taught by distinguished faculty recognized for excellence in research, scholarship, and creative expression. It promotes self-realization and expression in the context of social responsibility.

Faculty and Students
The College of Arts and Science derives its strength from the range of its academic offerings, from the quality of the faculty who teach, and from the quality of the students who come to learn. Traditionally fortunate in its ability to attract and retain a superior faculty, the College of Arts and Science has more than 500 full-time professors who supplement their achievements in the classroom with significant research, creativity, and writing. Many faculty members hold awards for distinguished scholarship and have been elected to high offices in their professional associations, including the Classical Association of the Middle West and South, the American Economics Association, the American Political Science Association, the American Philosophical Association, the American Physical Society, the American Historical Association, and the Biophysical Society.

The quality of the College’s faculty is matched by that of its diverse student body. Undergraduates come from the fifty states and fifteen to twenty foreign countries and are almost evenly divided between men and women.

Academic Support
The Writing Studio / Arts and Science Tutoring
The Writing Studio provides undergraduate students the opportunity to meet with trained writing consultants to discuss individual writing concerns, from invention to drafting to revision. The Writing Studio provides a space for students to discuss work-in-progress with expert writers, to create their own writing, and to utilize available resources for improving both writing and critical thinking skills.

The mission of the Vanderbilt Writing Studio is to enhance student writing and writing instruction, and to encourage regular conversation about the writing process. The Writing Studio’s extensive programming includes individual consultations, creative writing groups, workshops focused on specific issues in academic writing, open-mike readings, and student-run writers’ support groups.

The Writing Studio is located at 1801 Edgehill Avenue, Suite 112, and there is a satellite location in 217 Commons Center convenient to the first-year residence halls. The Writing Studio website can be accessed at vanderbilt.edu/writing.

One-on-one tutoring in many subjects is available through Tutoring Services, also located at 1801 Edgehill Avenue. Consultations in the Writing Studio and in Tutoring Services are free to all undergraduates.

Computers
The following locations are available for walk-in use of computers and software:

Center for Second Language Studies (Furman Hall 001) — 2 Macintosh and 2 Windows systems, iPads, and digital recorders for student use in the center
Stevenson computer lab and lounge (Stevenson Center 2200) — 30 Windows systems
Wilson computer lab (Wilson Hall 120) – 30 Windows systems

All of the college’s computer labs and classrooms offer a wide variety of “courseware” and commercial “productivity software,” including word processing packages. Color printing and scanners are available in most of the labs. In addition to accessing software on the local servers, students may also connect to both campus services and the internet, including VUGmail and e-resources in the libraries, as well as course materials in Brightspace. While use of the above facilities is free, printing is charged per page.

The computer classrooms in the Center for Second Language Studies and Wilson Hall are available for walk-in use during the late afternoon and evening hours. Stevenson Center lab and lounge are card-accessible weekdays until 1:00 a.m. All lab hours are posted by semester at as.vanderbilt.edu/vuit/computer_services/facilities/Labs.php. In addition to the college facilities, a few “kiosk” systems are available in the Sarratt Student Center. As a result, access to computers in the College of Arts and Science is extensive.

At last count, more than 98 percent of Vanderbilt students own a personal computer. Since all students also have a high-speed network connection, it is convenient for students to
have their own system (please consult the ResNet guidelines for supported systems). However, most students will find that the college computing facilities provide all of the computing resources that are needed for success at Vanderbilt.

The Advising System

Entering first-year students are assigned faculty advisers from CASPAR (College of Arts and Science Pre-major Academic Advising Resources Center). These first advisers, called "pre-major faculty advisers," counsel students during their first three and one-half semesters, or until the students choose majors, when they are assigned faculty advisers in their major department or program. Pre-major faculty advisers are especially trained to help students move efficiently through the requirements of AXLE (Achieving Excellence in Liberal Education) and chart a course of study.

During the last two years of study, when a student is acquiring depth of knowledge in a major field, studies are guided by a specialist in that field. Students are encouraged to see their faculty advisers at any time, since the advisers are available for guidance and counseling and are faculty members with whom advisees may be studying.

All students are required to see their faculty advisers prior to registration for each semester.

Advisers are generally happy to talk over any problems students may have, although their chief function is academic counseling. In addition, several members of the Office of the Associate Deans of the College, themselves teaching faculty members, have as their principal duty counseling students and referring them to sources of expertise on non-academic problems.

Public Lectures

THE BERRY LECTURES. Established in 1988 through the generosity of Kendall and Allen Berry, John and Shirley Lachs, Steve Turner, and Jim Burke. Three annual lectures—the Berry lecture, the Steve Turner lecture, and the Jim Burke lecture—are given by distinguished philosophers.

THE LOUIS JACOB BIRCHER LECTURE IN CHEMISTRY. Established in 1976 in recognition of Professor Birch’s forty-one years of service to Vanderbilt beginning in 1921. He served as the sole professor of physical chemistry until 1954, was chair of the Department of Chemistry from 1955 to 1961, and retired as professor emeritus in 1962. Family, colleagues, students, and friends of Professor Birch have provided generous support for the series. The lecture is presented by a leading physical chemist.

THE BYRN HISTORY LECTURE. Established in 1886 and endowed by the late J. W. Byrn of Dickson, Tennessee, a student and admirer of the thought of the British historian Arnold Toynbee. Annual lectures deal with his fields of interest: world history, philosophy of history, and historiography.

THE FREDERICK LEROY CONOVER MEMORIAL LECTURE. First given in 1977 in honor of Vanderbilt’s first analytical chemist, Professor Conover came to Vanderbilt in 1923 and remained for thirty-seven years. Lectures given by a distinguished analytical chemist are supported by family, colleagues, students, and friends of Professor Conover.

THE WALTER CLYDE CURRY SHAKESPEARE LECTURE. Inaugurated in 1982 and funded by one of his former students, this lectureship honors the late Walter Clyde Curry, distinguished medieval and Renaissance scholar, author of books on Chaucer, Shakespeare, and Milton, and for forty years beloved professor of English at Vanderbilt. Bringing to campus in alternate years eminent Shakespearean scholars and experienced Shakespearean performers, the lectureship gratefully recognizes Professor Curry’s devoted service and lasting contributions to the university.

THE WAITE PHILIP FISHEL LECTURE. Established in 1974 as a tribute to Professor Fishel, who was known as an outstanding, popular teacher and was renowned for his research in metallurgy. Through the generosity of family, colleagues, students, and friends, the lecture is presented by a leading inorganic chemist.

THE HARRY C. HOWARD JR. LECTURESHIP. Established in 1994 at the Robert Penn Warren Center for the Humanities in honor of Harry C. Howard Jr. (B.A. 1951). The lectureship was endowed by Mr. and Mrs. Thomas Nash Jr. and Mr. and Mrs. George Renfro, all of Asheville, North Carolina, in honor of their longtime friend and attorney. The lectureship allows the Warren Center to bring an outstanding scholar to Vanderbilt annually to deliver a lecture on a significant topic in the humanities.

THE ARTHUR WILLIAM INGERSOLL MEMORIAL LECTURE. Established in 1973 to honor Arthur Ingersoll, professor of organic chemistry at Vanderbilt until his death in 1969. Each year contributions for this lecture are received from family, colleagues, students, and friends. A leading organic chemist is invited to present the lecture.

THE CARL K. SEYFERT LECTURE IN ASTRONOMY. Established in 1983 as part of the astronomy program’s commemoration of the thirtieth anniversary of the Arthur J. Dyer Observatory. The lectureship recognizes the untiring efforts and contributions to astronomy made by Carl K. Seyfert, professor of astronomy and first director of the Dyer Observatory. A distinguished astronomer is invited to present this lecture every third year.

THE SHANKS LECTURES. Established in 1984 and named for E. Baylis Shanks and Olivia H. Shanks in honor of their accomplishments in the fields of mathematics and education and in recognition of their loyalty and service to Vanderbilt University, these lectures are presented on two successive days in the fall of each year. A special committee from the Department of Mathematics, influenced by the professional interests of Professor and Mrs. Shanks, chooses the lecturers from mathematicians of the highest reputation. The topics of the lectureship vary from year to year according to the area of specialization of the speaker chosen. The lectures have been endowed by members of the family of Olivia and Baylis Shanks.

THE FRANCIS G. SLACK LECTURES IN PHYSICS. Established in 1977 by the Department of Physics and Astronomy in honor of Francis G. Slack, former Landon C. Garland professor of physics and chair of the department, these lectures recognize his many contributions to physics. The series was first partially endowed by his colleagues and students and then with the generous help of Professor Slack. Each speaker gives one lecture of general interest to the university and one more specialized lecture for the department.

THE DAVID STEINE LECTURE. Established in 1978 as a memorial to David Steine, professor of business administration in the Department of Economics and Business Administration, by members of his family, friends, and associates. The lecture is devoted to an economic problem of interest to the general public.

THE GERTRUDE VANDERBILT AND HAROLD S. VANDERBILT VISITING WRITERS PROGRAM. Established in the Department of English in 1958 under the generous sponsorship of the late Mrs. Vanderbilt, this program has annually presented readings and public lectures by a poet, a novelist, and a critic—each of whom also visits classes and meets informally with members of the university and Nashville communities. Recent participants have included Dannie Abse, Madison Smartt Bell, Ellen Gilchrist, Alison Lurie, Czeslaw Milosz, Wyatt Prunty, Ann Thwaite, Anthony Thwaite, and Helen Vendler.
Degree Program in the College

The Bachelor of Arts
The bachelor of arts degree is granted upon successful completion of the following five requirements:

1. At least 120 semester hours of creditable college work,
2. A final grade point average of at least 2.000,
3. Completion of the AXLE requirements,
4. Completion of one of the options listed under Area of Concentration,
5. Completion of at least 102 credit hours of course work within the College of Arts and Science, or a minimum of 90 credit hours for those students with a second major outside the College of Arts and Science.

Limitation on Credit Hours outside the College
Candidates for the bachelor of arts degree must successfully complete a minimum of 102 credit hours within the College of Arts and Science. Students who are completing an approved second major from one of the other schools within Vanderbilt are required to complete 90 credit hours within the College of Arts and Science for the bachelor of arts degree.

AXLE: Achieving Excellence in Liberal Education
The Arts and Science core program of study—known as AXLE—is anchored in intensive practice in writing and a diverse thirteen-course component of classes that has been designed to allow maximum choice in course selection (based on student interests and achievement levels). At the same time, the distribution requirements of AXLE ensure that students will explore intellectually and academically the breadth of possibilities represented by the liberal arts.

What Is Liberal Education?
The study of the liberal arts—what is historically called a liberal education—is the oldest and most venerable form of higher education. It has proved itself perennially flexible and adaptive over the past centuries, and it remains the single best educational preparation for further, specialized study in the professions (medicine, law, education, business, et al.), as well as for doctoral work in the humanities and social sciences and advanced research in the sciences. The holistic focus of a liberal education encompasses all areas of human knowledge: the natural and social sciences, mathematics, foreign languages and cultures, the arts, and the humanities. The empirical disciplines guide us in our efforts to live most productively and efficiently. But the rest of the curriculum—the humanities and the arts—makes it possible to reflect upon the right use of the remarkable scientific knowledge we have acquired. In a liberal arts education, content is always considered in its larger context. Thus, the reflective and discursive aspects of study in the liberal arts call upon students to move beyond the mere acquisition of information to inquire into the deeper issues within their studies, and to connect their learning across disciplines and cultures as they live and work in the communal environment of Vanderbilt. The end product of a successful liberal arts education is a thoughtful citizen who is prepared to take up his or her rights and responsibilities in a democratic society, to analyze and critique received information, to articulate the issues at hand or the personal values at stake, and whose intellectual life is marked by ongoing internal dialogue about the quality and meaning of life for him or her, as well as for the community at large.

Fear No Learning!
The interdisciplinary inclination of many courses in the College of Arts and Science is an ideal training ground for learning new methodologies for problem solving in the complex, global world of the 21st century. Here, students may work with biologists and psychologists in the Neuroscience program; study with creative writers, sociologists, historians, or cinema and media arts scholars in the African American and Diaspora Studies program; or take a class, team taught, by professors from the School of Music and the Department of English in the College of Arts and Science. Over the course of a Vanderbilt education, students challenge themselves with the academic demands of the classes they select, and are challenged by new ideas and unfamiliar ways of looking at issues. Exploring beyond the boundaries of one’s intellectual comfort zone in order to admit new ideas is one of the most important aspects of higher education. The time and effort devoted to selecting thoughtfully the courses that will satisfy AXLE requirements prepare students for the more specialized study that they undertake in their major (or majors) beginning in the third year of study.

What Is AXLE?
AXLE is the acronym for Achieving Excellence in Liberal Education. It is the core curriculum that all students in the College of Arts and Science must fulfill. The AXLE curriculum is flexible and very user-friendly. It consists of two parts: the Writing Requirement and the Liberal Arts Requirement.

The Writing Requirement has four segments: completion of English 1100 or demonstration of basic skills in English Composition; completion of a First-Year Writing Seminar; completion of a 1000-level (introductory) writing course no later than the fourth semester in residence; and completion of a second 1000-level writing course OR a 2000, 3000, or 4000-level (discipline-specific, major-oriented) writing course OR a course in oral communication.

The Liberal Arts Requirement is composed of a total of thirteen courses taken at Vanderbilt, and distributed across six categories. The First-Year Writing Seminar and all writing courses, and approved Oral Communication courses are also counted in the thirteen-course Liberal Arts Requirement.
1. The Writing Requirement (three to four courses)
   a. English Composition ENGL 1100 (appropriate test score or one course)
   b. First-Year Writing Seminar (one course)
   c. 1000-level W Requirement (one course)
   d. One 1000-level W or 2000, 3000, or 4000-level W or approved Oral Communication course

2. The Liberal Arts Requirement (13 courses)
   a. HCA — Humanities and the Creative Arts (three courses)
   b. INT — International Cultures (three courses)
   c. US — History and Culture of the United States (one course)
   d. MNS — Mathematics and Natural Sciences (three courses)
   e. SBS — Social and Behavioral Sciences (two courses)
   f. P — Perspectives (one course)

All students must also complete requirements for at least one major (between 27 and 48 credit hours of course work) and earn a minimum number of 120 earned credit hours in order to graduate.

How to Get Started
The program of studies is divided approximately into thirds:
   1/3 — courses to meet the requirements of the Writing and Liberal Arts requirements;
   1/3 — courses required to complete the chosen major;
   1/3 — electives, which will complete the 120 credit hours required for graduation.

   These divisions are approximate and may differ for individual students.

   For a student’s first semester, most selections should be from the first group, courses that will fulfill the Writing and Liberal Arts requirements. Academic background, career goals, and general talents and interests will affect choice of courses.

   Upon graduation, students in the College of Arts and Science will receive a bachelor of arts degree upon completion of the other four requirements in addition to AXLE: fulfillment of requirements for one major, a 2.000 average in the major, 120 cumulative earned credit hours, and a 2.000 average overall.

Where to Get Information
In addition to this catalog’s sections on the rules, regulations, and policies of the College of Arts and Science as well as descriptions of the academic programs of all the undergraduate schools, students may refer to the booklet, On the Road with AXLE, a College of Arts and Science manual for entering students.

Where to Get Advice
Entering students are assigned pre-major faculty advisers from CASPAR (College of Arts and Science Pre-major Academic Advising Resources). Pre-major faculty advisers are carefully selected and receive intensive training on how to help students proceed effectively through the requirements of AXLE and chart a course of study. These advisers will counsel students through their first three and a half semesters or until they declare a major. At that time, students are assigned faculty advisers in their major departments. Students are encouraged to see their advisers at any time; they must, however, consult their pre-major faculty adviser three times during the first year: during summer before the fall semester, prior to the opening of enrollment windows for the spring semester, and prior to the opening of enrollment windows for the fall semester of their second year. Prior to their first semester, entering first-year students must consult in June with their pre-major faculty adviser who will assist with course selections for registration for the fall and begin to understand each student’s interests and goals. (This initial contact is typically via phone and/or email.)

Overview of AXLE
AXLE consists of two parts: the Writing Requirement (including a First-Year Writing Seminar) and the Liberal Arts Requirement.

The First-Year Writing Seminar
The First-Year Writing Seminar is an integral part of the first-year experience in the College of Arts and Science. Through these seminars, first-year students engage in independent learning and inquiry in an environment in which they can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. The small-group nature of these seminars allows for direct student-faculty interaction that stresses training in techniques of scholarly inquiry. The students’ written work and oral presentations are subject to thoughtful critical review by the faculty member, providing feedback that can be used to reconsider the manner in which they articulate their ideas and to refine their skills in these areas. Thus, first-year students learn not only about the subject matter of the seminar, but are also exposed to new methods of acquiring knowledge, different ways of expressing and sharing ideas, and unique opportunities to participate in critical inquiry.

All first-year students must enroll in a First-Year Writing Seminar. (First-Year Writing Seminars in the College of Arts and Science are numbered 1111.) This course may be taken during the fall or the spring semester. Students are permitted to enroll in only one First-Year Writing Seminar per semester. All First-Year Writing Seminars also count in their appropriate distribution areas within the Liberal Arts Requirement, but a second seminar will not count toward the writing requirement. Students who transfer into the College of Arts and Science (whether from another school at Vanderbilt or from another college or university) do not complete a First-Year Writing Seminar. Students beyond their second semester in residence may not register for First-Year Writing Seminars, nor may First-Year Writing Seminars be repeated after completion of the second semester in residence.

The Writing Requirement
Excellent communication skills, including the ability to articulate ideas and defend positions in writing, will be paramount for the 21st-century graduates of Vanderbilt University; therefore, all students in the College of Arts and Science must successfully complete the Writing Requirement.
a) All students must demonstrate competence in English composition. Appropriate skills in composition are essential to successful progress at the university. Competence is demonstrated by completion of ENGL 1100 or any of the following test-based or transfer-credit satisfiers:

i. SAT combined score of at least 660 on the Evidence-Based Reading and Writing section, with a minimum score of 27 on the Reading section and a minimum score of 28 on the Writing and Language section (effective March 2016)

ii. ACT score of at least 27 on the English portion combined with a minimum score of 19 on the Writing portion

iii. ACT score of at least 30 on the English portion

iv. AP: minimum score of 4 on either the English Language or English Literature exam

v. IB: minimum score of 6 on the Higher level English exam

vi. Transfer credit for ENGL 1100

vii. Transfer credit for ENGL 1210W, 1220W, 1230W, 1250W, 1260W, 1270W, or 1300W (if used to satisfy ENGL 1100, the same transfer credit may not also count as meeting 1000-level W requirement)

b) First-Year Writing Seminar (see above).

c) All students must successfully complete at least one Arts and Science 1000-level writing course (indicated by a “W”) at Vanderbilt University, regardless of AP or IB credits, SAT scores, or ACT scores earned prior to matriculation. These writing-intensive courses emphasize general writing skills within the context of discipline-specific subject matter. All students are encouraged to complete Part b of the Writing Requirement as soon as possible; **this requirement must be completed no later than the fourth semester** at Vanderbilt University. All Arts and Science 1000-level W courses also count in their appropriate distribution areas within the Liberal Arts Requirement. Students may **not** substitute a 2000 or higher-level writing course for the first 1000-level writing course requirement. Students may, however, complete a writing course at the 2000 or higher-level before completing a 1000-level writing course so long as they complete a 1000-level writing course by the end of their fourth semester at Vanderbilt.

d) All students must successfully complete either (1) a second Arts and Science 1000-level W course, or (2) an Arts and Science 2000, 3000, or 4000-level W course, or (3) an approved course in oral communication at Vanderbilt University, regardless of AP or IB credits, SAT scores, or ACT scores earned prior to matriculation. The 2000 and higher-level W courses foster advanced, discipline-specific writing skills. Departments or programs that offer these courses determine their specific writing content. In 2000 or higher-level W courses, continued attention to the process of writing is included in the classroom. Students receive regular feedback on their writing that will contribute toward enhancing writing skills appropriate to specific disciplines. The process of revising written work allows students to reflect on the writing process; writing tutorials may also be included. Oral communication courses focus on developing improved public speaking skills. These courses introduce students to the principles and practices of public discourse and reasoned argument. Attention to the process of effective oral communication is integral to these classes. Students receive regular speaking assignments throughout the semester and regular feedback on their speaking that will contribute toward enhancing effective speaking skills. **All students must complete Part d of the Writing Requirement before graduation.**

The Liberal Arts Requirement

The Liberal Arts Requirement consists of successful completion of thirteen courses from the College of Arts and Science. Most courses in the College of Arts and Science fulfill one of the Liberal Arts requirements. Courses must carry three or more credits to count toward the AXLE Liberal Arts Requirement. Although some courses may be appropriate to more than one requirement, each course will fulfill only one requirement. These thirteen courses must be distributed as outlined below. They must be taken from at least seven departments or subject areas.

a) Humanities and the Creative Arts — HCA (3 courses)

Courses in the humanities and the creative arts challenge students to examine their personal understanding of life and how their individual experiences overlap with those of the rest of humankind. These courses testify to the varying ways in which people think, feel forms, confront ambiguity, express spiritual and aesthetic yearnings, and grapple with moral and ethical problems. By analyzing and interpreting literary, philosophical, religious, or artistic works, students examine the foundations of human experience. By producing original artistic works in imaginative writing, studio art, theatre, film, music, and dance, students have the opportunity to connect the universal sources of human inspiration with their own creative processes.

b) International Cultures — INT (3 courses)

The study of international culture provides students with a basis for understanding the diversity of experiences and values in our contemporary, global society. Options in this category include not only international history and cultural studies courses, but also courses in literature, cinema and media arts, the social sciences, art, music, and languages. Students may satisfy this requirement by choosing courses that focus on the history and culture of a single society or time period in human history and/or that represent a broad spectrum of different human societies and time periods.

Language courses introduce students to the language of a different culture and provide insight into that culture in ways that are not possible to achieve through detached study. At intermediate and advanced levels, students are able to explore the culture in depth, using the language itself to read, discuss, and write about its various aspects. Even at the most basic level, exposure to the language of a different culture prepares students to think and act in terms of living in a global community.

Intermediate and advanced language courses prepare students for study abroad programs, which the College of Arts and Science strongly recommends. A maximum of one course in this requirement may be satisfied through study abroad in a Vanderbilt-sponsored program, or in a pre-approved program offered through another provider. A summer study abroad program must earn 6 or more credit hours to satisfy this requirement.

In addition to the Vanderbilt-sponsored programs in France and Germany, the Global Education Office maintains a list of pre-approved programs.

**Note:** All students who study abroad must register with International SOS (ISOS). Information is available on the GEO website: vanderbilt.edu/geo.

Additional course credit may be earned toward AXLE curriculum requirements by successfully completing study abroad courses through Vanderbilt in France or the Vanderbilt in
Berlin summer program that have A&S numbers and titles. No
other courses taken through either of these two programs or
through other study abroad programs, including courses offered
by Vanderbilt-approved programs and including courses that
are deemed to be direct equivalents to A&S courses, count
toward AXLE curriculum requirements.

All students must complete three courses in this category,
irrespective of previous language study or proficiency in a lan-
guage other than English. At least one of the three courses pre-
ented in fulfillment of this category must be a second-semester
(or higher) language acquisition class taught at Vanderbilt
University (or through the Duke-UVa-Vanderbilt Partnership
for Less Commonly Taught Languages), unless the student
successfully demonstrates proficiency in a language other than
English at or above the level achieved by second-semester
language acquisition classes taught at Vanderbilt University.

Students may demonstrate proficiency in a number of ways:
SAT Subject Test scores (French, 540; German, 470; Hebrew,
530; Italian, 540; Japanese with Listening, 440; Latin, 530; Spanish,
520); by appropriate score on proficiency tests (written and
oral) administered by the Tennessee Foreign Language Institute;
or with AP or IB credit in a foreign language. The first semester
of an introductory language acquisition class in any language
a student has studied for at least two years in high school, or in
which a student transfers credit from another institution, can-
not be used in partial fulfillment of this requirement. Intensive
elementary language courses that cover the content of two
semesters in one shall count as one course toward this category.

Students who, because of special ability and achievement,
are admitted to the College of Arts and Science without the
normally required two years of one foreign language in high
school must enroll in a foreign language course during their first
semester and must remain continuously enrolled until they suc-
cessfully complete a full year of one foreign language. They must
complete this requirement by the end of their fourth semester in
the College of Arts and Science.

c) History and Culture of the United States — US (1 course)
The study of the history and culture of the United States
provides students with a basis for understanding the American
experience and the shaping of American values and view-
points within the context of an increasingly global society.
Interpreting history and culture in the broadest sense, options
in this category include traditional history and cultural studies
courses, but also courses in literature, cinema and media arts,
the social sciences, art, and music, which illuminate historical
periods or cultural themes in United States history. Students
may satisfy this requirement by choosing a course that focuses
on the history and culture of a single social group or time
period in American history and/or that represents a broad
spectrum of different social groups and time periods.

d) Mathematics and Natural Sciences — MNS (3 courses,
one of which must be a laboratory science)
Courses in mathematics emphasize quantitative reasoning
and prepare students to describe, manipulate, and evaluate
complex or abstract ideas or arguments with precision. Skills
in mathematical and quantitative reasoning provide essen-
tial foundations for the study of natural and social sciences.
Students are generally introduced to mathematical reasoning
through the study of introductory courses in calculus or prob-
ability and statistics.

Courses in the natural sciences engage students in
hypothesis-driven quantitative reasoning that helps to explain
natural phenomena, the roles of testing and replication of
experimental results, and the processes through which sci-
entific hypotheses and theories are developed, modified, or aban-
donned in the face of more complete evidence, or integrated
into more general conceptual structures. Laboratory science
courses engage students in methods of experimental testing of
hypotheses and analysis of data that are the hallmarks of the
natural sciences. Natural science courses prepare students to
understand the complex interactions between science, technol-
yogy, and society; teach students to apply scientific principles to
everyday experience; and develop the capacity to distinguish
between science and what masquerades as science.

e) Social and Behavioral Sciences — SBS (2 courses)
Social scientists endeavor to study human behavior at
the levels of individuals, their interactions with others, their
societal structures, and their social institutions. The remark-
able scope represented by these disciplines extends from
studying the underpinnings of brain function to the dynamics
of human social groups to the structures of political and eco-
nomic institutions. The methods employed by social scientists
are correspondingly broad, involving approaches as varied
as mapping brain activity, discovering and charting ancient
cultures, identifying the societal forces that shape individual
and group behavior, and using mathematics to understand
economic phenomena. By studying how humans and societ-
ies function, students will learn about individual and societal
diversity, growth, and change.

f) Perspectives — P (1 course)
Courses in Perspectives give significant attention to indi-
vidual and cultural diversity, multicultural interactions, sexual
orientation, gender, racial, ethical, and religious issues within a
culture across time or between cultures, thereby extending the
principles and methods associated with the liberal arts to the
broader circumstances in which students live. These courses
emphasize the relationship of divergent ethics and moral values
to contemporary social issues and global conflicts.

The Major
All students must successfully complete a course of study
leading to one of the approved major programs in the College
of Arts and Science, or successfully complete an individually
designed interdisciplinary major designed in consultation
with College of Arts and Science faculty and approved by the
Committee on Individual Programs in the College of Arts and
Science.

AXLE Curriculum Course Distribution
The distribution of Arts and Science courses into AXLE
categories is available in YES. Using the advanced-class-search
dialog box, use the pull-down menu under Class Attributes to
select an AXLE category.

AXLE, the Major, and the Optional Minor
Courses used to satisfy requirements of AXLE may also be used
to satisfy requirements of the major or the optional minor.

Advanced Placement under AXLE
Other than the basic English composition requirement, no
AXLE requirement may be fulfilled with any form of advanced
placement credit (AP, IB, A-level, etc.).
Transfer Credit under AXLE
Generally, only courses taken in the College of Arts and Science may be used toward AXLE; however, any college course credit earned prior to graduation from high school, and transfer credit earned before admission to Vanderbilt, may be used toward fulfilling AXLE requirements.

Vanderbilt Study Abroad Programs and AXLE
Additional course credit may be earned toward AXLE curriculum requirements by successfully completing study abroad courses through Vanderbilt in France or the Vanderbilt in Berlin summer program that have A&S numbers and titles. No other courses taken through either of these two programs or through other study abroad programs, including courses offered by other Vanderbilt-approved programs and including courses that are deemed to be direct equivalents to A&S courses, count toward AXLE curriculum requirements.

For more information on study abroad, see the chapter on Special Programs for Undergraduates in the front section of this catalog.

Area of Concentration
During the junior and senior years, much of the student’s work is concentrated in one large unit of intellectually related courses. The program of concentration may be arranged through a single major, an interdisciplinary major, or a double major. Each of the three options is described below. A triple major may be declared with the approval of the Administrative Committee.

Major Field
Under this plan, the student majors in one of the recognized fields. There shall not be fewer than 27 credit hours in the major field, but a given department may require up to 48 credit hours. Students may take more than the required number of credit hours in any major; any given department, however, may limit the total permissible credit hours in a discipline.

For graduation, a student must have achieved a grade point average of at least 2.000 in all classes taken in the major. This set of courses includes all courses a student takes in the department or program of the major and all courses a student takes outside the department or program that may count toward the major. All courses that are listed as fulfilling credit hours required for the major, as listed in the Undergraduate Catalog, are included in calculating the grade point average in the major.

Within the framework of these general requirements, each department has its own policies governing major work, which are published elsewhere in this catalog or otherwise available to students.

Academic programs of the College of Arts and Science are varied and broad in scope, with departmental majors offered in the following fields:

- Anthropology
- Art
- Biological Sciences
- Chemistry
- Communication Studies
- Earth and Environmental Sciences
- Ecology, Evolution, and Organismal Biology
- Economics
- English
- Environmental Sociology
- French
- German Studies
- History
- History of Art
- Mathematics
- Molecular and Cellular Biology
- Philosophy
- Physics
- Political Science
- Psychology
- Religious Studies
- Russian
- Sociology
- Spanish
- Spanish and Portuguese
- Theatre

Students may also major in defined interdisciplinary programs (listed below). There shall not be fewer than 27 credit hours in the major field, but a given program may require up to 48 credit hours. The student must achieve at least a 2.000 grade point average in all work taken in the major.

- African American and Diaspora Studies
- American Studies
- Asian Studies
- Biochemistry and Chemical Biology
- Cinema and Media Arts
- Classical and Mediterranean Studies
- Communication of Science and Technology
- Economics and History
- European Studies
- French and European Studies
- German and European Studies
- Italian and European Studies
- Jewish Studies
- Latin American Studies
- Latino and Latina Studies
- Law, History, and Society
- Medicine, Health, and Society
- Neuroscience
- Public Policy Studies
- Spanish and European Studies
- Spanish, Portuguese, and European Studies
- Women’s and Gender Studies

Students may combine an interdisciplinary major with a major in one of the recognized fields listed at the beginning of this chapter.
Declaration of the Area of Concentration

Students may formally declare a major at any time during the third semester of residence and must do so no later than the Friday before Spring Break of the fourth semester. The student selects a department or interdisciplinary program and applies to that department or program for assignment to an adviser. Students who wish to develop an individually designed interdisciplinary program apply to the associate dean who chairs the Committee on Individual Programs.

Each fall a program is arranged that provides for consultation of sophomores with department chairs, for the purpose of helping students select a major. Sophomore students who have not declared a major should participate in this program if they intend to attain junior standing before the next spring.

The selection of a major is of considerable importance, and the entire program of concentration for the junior and senior years should be planned with the major adviser before the beginning of the junior year. Students officially declare their majors by registering with the chosen department(s) or interdisciplinary program(s), and with the Office of Academic Services in Arts and Science. When the student’s major has been registered, access to the student’s academic record is transferred from the pre-major adviser to the new major adviser.

Students may not add a major(s) past the fifth class day of the first semester of the senior year.

Individually Designed Interdisciplinary Majors

This plan permits students to contract for an individually designed program of concentration consisting of at least 48 credit hours of approved work. The program is constructed around a coherent academic purpose and may draw together the academic resources of a number of departments and schools. The program’s purpose may include topical, period, or area studies, and must be consistent with the philosophy underlying a liberal arts education (see “What is Liberal Education?” on page 48 of this catalog). The program should not be designed with a focus on pre-professional training (e.g., pre-business, pre-law, or pre-medicine). The student may be required to achieve a standard of proficiency in appropriately related areas such as foreign languages or mathematics in addition to the 48 credit hours constituting the program of concentration.

Each student must identify a major adviser who will offer advice and guidance. The major adviser must be a professor or full-time senior lecturer in the College of Arts and Science.

The student’s plan for an individually designed interdisciplinary major is a statement of required courses. Furthermore, because of the nature of interdisciplinary majors, all courses that have previously been included in the student’s plan are considered to be part of the major discipline. The student must achieve at least a 2.000 grade point average in all courses that are (or have been) part of the plan.

Upon approval of the Committee on Individual Programs and the student’s adviser, (a) as many as 6 credit hours may be counted as part of both the interdisciplinary major and the second major, or (b) normally, no more than three introductory-level courses will be counted toward the interdisciplinary major.

Double and Triple Majors

This program permits a student to concentrate in two or three fields, which may or may not be intellectually related. With approval of the departments concerned, the student completes all of the requirements stipulated for the majors. Triple majors require approval of the Administrative Committee.

Each A&S non-interdisciplinary major must include at least 24 credit hours that are being counted solely toward the major. This rule also applies to students who combine (in a double or triple major) a non-interdisciplinary major with an interdisciplinary major.

Approved Second Majors Outside the College

All undergraduate courses, majors, and minors offered by Blair School of Music, School of Engineering, and Peabody College are approved for students in the College of Arts and Science. See the appropriate sections of the Undergraduate Catalog under each school for details. Arts and Science students with a second major from another Vanderbilt undergraduate school must earn a minimum of 90 credit hours in Arts and Science. Consultation with the student’s Arts and Science major adviser is especially important.
Additional Programs

For information on the College Scholars program and departmental honors, please see the chapter titled Honors.

The Optional Minor

A minor is a program within a recognized area of knowledge offering students more than a casual introduction to the area but less than a major in it. Although the completion of a minor is not a degree requirement, students may elect to complete the courses specified for one or more minors. A student who completes all designated courses in a minor with a grade point average of at least 2.00 will have the minor entered on the transcript at the time of graduation.

Minors may be combined with any departmental major or interdisciplinary major, but minors may not be earned in the department or program of the major. Each minor must, however, include at least 15 credit hours that are being counted solely toward the minor. Courses may not be taken on a P/F basis if they are offered in the department of the minor or if they are being counted toward an interdisciplinary minor (see Academic Regulations).

Minors consist of a minimum of five courses of 3 or more credit hours each. Many minors require a greater number of credit hours and specific courses. When a minor is offered in a discipline that offers a major, only those courses that count toward the major may be counted toward the minor.

Students should refer to the appropriate sections of this catalog for specific requirements. Minors available at present are listed below.

Students should declare their intention to pursue specific minors by completing forms available in the Office of the Associate Deans as well as the various departmental and program offices. Departments and programs assign advisers to students who declare minors in their respective areas. Students have the responsibility to know and satisfy all requirements for minors that they intend to complete.

Students may not add or change a minor after the final day of classes in the second semester of their senior year.

Optional minors are offered in the following fields and interdisciplinary programs:

*Administered by the School of Engineering in collaboration with the College of Arts and Science

^Administered by the four undergraduate schools and the Owen Graduate School of Management

Approved Minors Outside the College

Arts and Science students are permitted to pursue a second major and/or a minor that has been approved by the faculties of the other Vanderbilt undergraduate schools: the Blair School of Music, the School of Engineering, and Peabody College of Education and Human Development. See the appropriate sections of the Undergraduate Catalog under each school for details. Minors may not be earned in the department or program of the major.

Undergraduate Research

All students have ample opportunity to participate in faculty research projects or to pursue research projects independently, both on campus and at remote sites. Such research has led to the publication of coauthored or student-authored papers and other presentations to the scholarly community. Summer and academic year research by undergraduates in all fields may be subsidized by the university or the College of Arts and Science.

Study Abroad Programs

Vanderbilt offers study programs for all undergraduate students from Arts and Science, Blair School of Music, School of Engineering, and Peabody College to provide undergraduates immediate contact with cultures different from their own and to aid in the mastery of foreign languages. Students interested in applying for study abroad should consult their advisers to determine whether all degree requirements can be completed on schedule.

Brochures on all approved programs are available in the Global Education Office in Room 115, Student Life Center. GEO also maintains a website, vanderbilt.edu/geo. The study abroad programs are described in more detail in the chapter on Special Programs for Undergraduates in the front section of this catalog.

When choosing programs in a city for study abroad, College of Arts and Science students may only apply to the Vanderbilt-approved overseas program(s) in that city.
There are four cities/programs for which this rule does NOT apply because of the specificity of the course of study on the Vanderbilt programs: Institut d’Études Politiques in Paris, France (designed for social science majors with a high degree of French proficiency); St. Charles University in Prague, Czech Republic (designed for Jewish studies majors); Classical Studies in Rome, Italy (open ONLY to classical studies majors); and Vienna, Austria (open ONLY to Blair students). That is, Arts and Science students who wish to study in Paris, Prague, Rome, or Vienna may choose to study in a program that is not Vanderbilt-approved.

Additional Options

Students interested in receiving transfer credit for Vanderbilt-approved study abroad programs through other universities should apply to the Committee on Individual Programs. They must meet the same academic standards required for participation in Vanderbilt’s study abroad programs. Information is available from the Office of the Associate Deans (350 Buttrick Hall).

It should be noted, however, that if a program has been approved for direct credit by Vanderbilt, it must be taken as the approved direct-credit program by matriculated Vanderbilt students. In no case, after matriculating at Vanderbilt, may a student apply to participate in an approved direct-credit program for transfer credit through a different university, or through an external agency, and then seek to transfer that credit into Vanderbilt.

Pre-Professional Studies

Medicine

Students interested in the study of medicine should plan their undergraduate programs in consultation with Professor Michelle Grundy, health professions adviser. There is no formal premedical program of courses in the College of Arts and Science or elsewhere at Vanderbilt. Each student should plan a program to meet individual needs. The program should include whatever courses may be necessary to meet medical school admission requirements, all courses required for the major, all AXLE requirements, and elective options. Students may choose majors from any of the four undergraduate colleges, and may elect to pursue a double major or an interdisciplinary program of concentration.

A student who plans to apply for admission to the Vanderbilt University School of Medicine, as well as other medical schools, may choose either of the following options:

1. A student may qualify for admission with a B.A. degree, whether completed in three years or in four. Minimum requirements for admission generally would be met by completing at least two semesters of English, four semesters of chemistry including organic, two semesters of biology, two semesters of physics, and at least one semester of calculus/math. Since prerequisites may vary across dental schools, students are urged to consult the ADEA Official Guide to Dental Schools published by the American Association of Dental Schools.

2. A student may qualify as a three-year student in the senior-in-absentia program (see Senior-in-Absentia in this catalog).

Dentistry

Students interested in predental studies should plan their undergraduate program in consultation with Professor Michelle Grundy, health professions adviser. There is no formal premedical program of courses at Vanderbilt. Predental studies should include courses necessary to meet dental school admission requirements, all courses required for the major, all AXLE requirements, and elective options. Students may choose majors from any of the four undergraduate colleges. They may also elect a double major or an interdisciplinary program of concentration. A student may apply to dental school under the senior-in-absentia program (see Senior-in-Absentia in this catalog) or apply for admission after three years of college work without a degree.

Any student contemplating application to dental school should take at least two semesters of English, four semesters of chemistry including organic, two semesters of biology, two semesters of physics, and at least one semester of calculus/math. Since prerequisites may vary across dental schools, students are urged to consult the ADEA Official Guide to Dental Schools published by the American Association of Dental Schools.

Nursing

Students interested in developing a program that could lead to a master of science in nursing are advised to contact the Office of Admissions in the School of Nursing. For further information on pre-nursing studies, see the chapter on Special Programs for Undergraduates near the front of this catalog.

Architecture

Undergraduate students in the College of Arts and Science expecting to pursue architecture at the graduate level should complete at least one year of analytic geometry and calculus and one year of physics. Students may select any major but would want to include courses that emphasize a broad sense of art and architectural history, including courses in studio art. Before applying to specific schools of architecture, they would develop a portfolio of creative work. Further information is available from the pre-architecture advisers: Professor Vesna Pavlović, Department of Art, and Professor Kevin Murphy, Department of the History of Art.

Engineering

Undergraduate students in the College of Arts and Science expecting to pursue engineering at the graduate level should normally major in a natural science or mathematics and, at a minimum, should complete two years of calculus or its equivalent, one year each of chemistry and physics, and at least an additional year of a natural science or mathematics. A minimum of one year of computer science is highly desirable. Students should seek specific information concerning admission.
from the engineering school of their choice as early as possible, preferably by the end of the sophomore year, to assure optimum preparation for entry into that school. Standards for admission vary, but usually a 3.00 average or better is required.

**Law**

There is no formal program of prelaw studies at Vanderbilt. Most law schools have no specific requirements for a prelaw curriculum but place great emphasis on the development of the student's ability to read and comprehend accurately, thoroughly, and rapidly; to speak and write clearly and correctly; to think precisely; and to analyze complex situations and weigh and appraise their several elements. The development of analytical skills and of mature study habits is vital. A broad cultural background is important—since law touches life at every point, every subject in the college curriculum may bear on the lawyer's work. Students interested in the study of law should plan their undergraduate programs in consultation with Professor Carrie Russell, prelaw adviser, in the Department of Political Science.

**Management**

*Dual Five-Year Baccalaureate–M.B.A Program.* By combining one and one-half years of study in the Vanderbilt Owen Graduate School of Management with three and one-half years in Vanderbilt's College of Arts and Science, students may obtain both the baccalaureate degree and the M.B.A. degree in five years—the baccalaureate from the College of Arts and Science at the end of the fourth year under the senior-in-absentia program, and the M.B.A. from the Owen School after the fifth.

Students may major in any subject in the College of Arts and Science.

Students must apply to the Owen School for admission to the five-year program during their junior year and to the Administrative Committee of the College of Arts and Science for acceptance into the senior-in-absentia program. Students are subject to normal Owen School admission requirements, and no student is assured of admission to the Owen School. Students who are accepted will be registered in the Owen School for three semesters (a minimum of 48 credit hours). Up to 16 credit hours of Owen School courses approved by the College of Arts and Science may be counted toward completion of the undergraduate degree. Upon acceptance to the Owen School, students should contact the Office of Student Services for an advising appointment. The Owen School registrar will review undergraduate courses and arrange for transfer of those credit hours toward the student's M.B.A. degree.

**Financial Aid.** The scholarship or other financial aid commitment of the College of Arts and Science will not be continued automatically beyond the seventh semester for students enrolled in the dual program. Eighth semester scholarships or other financial aid are the responsibility of the Owen School. The Owen School will advise students of the level of financial support, if any, prior to their enrollment in the dual program, to be provided during the eighth and subsequent semesters. This ensures that an eighth semester scholarship from the College of Arts and Science is protected for the student until a final decision is made to enroll in the Owen School.

**Planning for the Program.** Students interested in this program should consult William Damon or Malcolm Getz in the Department of Economics, or the Owen Admissions Office, for advice on planning undergraduate studies to meet the program's requirements.

**Teacher Education**

Details will be found in Licensure for Teaching in the Peabody College section of this catalog.

**Internships**

Students may earn academic credit for the work of internships in the College of Arts and Science on a Pass/Fail basis through interdisciplinary or departmental internships. Credit hours earned will not count toward major or minor requirements or toward AXLE, but will count as part of the total credit hours required for graduation. Students obtain their own placement and faculty adviser who works with them to develop a list of readings or research agenda for the internship, which must be approved by the director of internships in the College of Arts and Science (Associate Dean Yollette Jones). The necessary forms for earning academic credit for an internship may be obtained from the A&S Associate Deans' Office in 350 Buttrick Hall, although students register for internships through the Office of Academic Services of their respective school. The deadline for submitting registration forms to Dean Jones’s office for internship courses taken during summer term and fall semester is May 1. Students expecting to intern during the spring semester should submit registration forms by January 1.

**Finding an Internship**

Students searching for an internship opportunity locally or elsewhere should contact the Career Center.

**Interdisciplinary Internships**

INDS 3880 (fall, spring), 3884 (summer). 1 credit hour (repeatable)

Any student who is at least a sophomore and in good academic standing may earn one credit hour per semester or summer for an internship under this designation. This course may be repeated twice for a maximum of 3 credit hours exclusively on a Pass/Fail basis.

**Departmental Internships**

**Maximum of 15 credit hours (may be taken only once)**

Under this option students from any discipline may earn academic credit for internships in the departments listed below if they meet the minimum GPA requirements and have 6 credit hours of prior work in the department in which they wish to intern. Students are responsible for securing a faculty adviser for the internship and developing an academic plan of work for the internship opportunity, both of which must be approved by the director of undergraduate studies in the department in which the internship is housed. (In some instances, the DUS will serve as the faculty adviser for all internships taken in that discipline.) All internships under this designation are taken concurrently with a research and/or readings course. The latter is taken on a graded basis and may count toward requirements for a major or minor. Students should consult the director of undergraduate studies in the department of interest to obtain additional information about internships in that discipline. The following departments offer up to 15 credit hours of academic credit per semester.
or summer for the following courses (internship courses are offered during FALL, SPRING, and SUMMER sessions):

**AADS 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [3-6].

**AMER 3880–3881.** 3880: Internship Training [1–6], 3881: Internship Readings and Research [3-6].

**ANTH 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [1–6].

**CMA 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [1–6].

**FREN 3880–3881.** 3880: Internship Training in France [1], 3881: Internship Readings and Research in France [3].

**HART 3880, 3883.** 3880: Internship Training [1–9], 3883: Internship Research [1–3].

**HIST 3880, 3882–3883.** 3880: Internship Training [3–9], 3882: Internship Readings [3], 3883: Internship Research [3].

**JS 3880, 3883.** 3880: Internship Training [1–3], 3883: Internship Research [3].

**LAS 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [3–6].

**MHS 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [1–6].

**PSCI 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [3–6].

**RUSS 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [3–6].

**SOC 3880–3881.** 3880: Internship Training [1–9], 3881: Internship Readings and Research [3–6].

**SPAN 3880–3881.** 3880: Internship Training in Spain [1], 3881: Internship Readings and Research in Spain [3].

**WGS 3880, 3882–3883.** 3880: Internship Training [1–9], 3882: Internship Readings [1–3], 3883: Internship Research [1–3].

More complete information regarding departmental internship courses may be found in the course descriptions in this catalog. (Courses which have been approved recently by the faculty may not appear in the most recent edition of the catalog.)

**Cost of an Internship**

Internships taken during the fall or spring semester will fall under the normal tuition charge unless the student falls below 12 or exceeds 18 credit hours during the semester. In both instances, the hourly tuition charge will apply with permission for an underload overload from the appropriate academic dean. Students will be charged for internships taken during summer on the basis of the hourly tuition rate for summer school unless approved in advance to receive the internship subsidy (see the Career Center website).

**Combined B.A./M.A. (4+1) Program**

The College of Arts and Science offers students in many departments and programs the opportunity to earn both the bachelor’s degree and the master’s degree in a shorter period of time and at less cost than is normally the case. Exceptional students in the College of Arts and Science can obtain both degrees in an expedited period, typically within but not less than five years.

The usual period of study for both the bachelor’s and the master’s degree is six years. Through the 4+1 option, the student and her or his adviser plan a five-year program of study. It is important to note that there is no provision for obtaining both degrees in a period shorter than five years. The program is intended for selected students for whom the master’s degree is sufficient preparation for their career goals, is desirable as a goal in itself, or is viewed as additional preparation before pursuing a doctorate or a professional degree.

The areas of study available for the Combined B.A./M.A. (4+1) option within Arts and Science are determined by individual departments and programs, who also determine the policies and guidelines to be followed. Students will be admitted to the Combined B.A./M.A. program only by the invitation and the approval of the department or program.

**Programs of Study**

The 4+1 option is currently available in the following departments and programs: English; French; German; history; history of art; Latin American studies; mathematics; medicine, health, and society; philosophy; political science; and psychology. Students are welcome to discuss the Combined B.A./M.A. (4+1) option with any of these departments and programs.

**Admissions Overview**

The Combined B.A./M.A. program allows Vanderbilt University students to study for both degrees typically, but not necessarily, in the same department. Undergraduates with strong academic records may apply for admission to the program after the first semester of their junior year. Qualifying students are normally accepted into the program in the second semester of the junior year.

To apply for admission, students will first consult with the Arts & Science Associate Deans’ Office (350 Buttrick Hall), and then submit to the prospective graduate department or program a “Petition to Apply to the Combined B.A./M.A. (4+1) Degree Program” (available at as.vanderbilt.edu/academics/specialdegree/4plus1.php), a statement of purpose, a formal application to the Graduate School, a preliminary program proposal, two letters of recommendation from Vanderbilt faculty, and a current transcript. Application forms are available for download or can be completed online at vanderbilt.edu/gradschool. GRE scores or other admissions requirements may be specified by the prospective department. Admission to the 4+1 option is highly selective. An accomplished academic record, a demonstrated commitment to pursue graduate study, and a strong endorsement from Vanderbilt faculty are key elements to the successful applicant. Students will be provisionally accepted as graduate students, pending completion of all undergraduate requirements. Graduate student status will apply in the fifth year.

**Advising**

Prospective students should discuss with one of their advisers general information on the program and how this program is appropriate to their long-term goals. All students are encouraged to discuss their plans and goals with their undergraduate pre-major and major adviser. Especially in those cases where the intended graduate program differs from the undergraduate major, the student is further encouraged to seek advice from the advisers in the graduate program, too.
Curriculum

Students in a 4+1 program must satisfy all requirements for both degrees. Advanced Placement (AP) credits will often be used toward satisfying general curriculum requirements, for a maximum of 18 credit hours. The principal distinction between this program and the standard graduate program is two-fold: (1) students are allowed to take master’s courses while completing the bachelor’s degree, and (2) students are thereby enabled to complete both degrees within five years.

In order to complete the program in five years, students will be expected to complete most, if not all, of the requirements for their undergraduate degree by the end of the first semester of the senior year. Until all baccalaureate requirements are fulfilled, the student will follow College of Arts and Science undergraduate policies and procedures. It is also suggested that students begin taking graduate courses toward the master’s degree in the second semester of the senior year. Most graduate programs participating in this option have a non-thesis plan of study requiring 30 graduate credit hours in addition to the requirements for the undergraduate degree. An average load per semester as a graduate student is 9–12 credit hours.

Scholarships and Financial Aid

Students who are receiving scholarships or other forms of financial aid as a Vanderbilt undergraduate are advised that such aid applies in most cases only toward the completion of the bachelor’s degree or the first four years of their studies (which may include their taking some graduate courses during their senior year). Students wishing to pursue the 4+1 option should seek support for their fifth year of study through student loans and other financial aid.

For additional information, contact A&S Deans' Office, 350 Buttrick Hall, or consult the website https://as.vanderbilt.edu/academics/specialdegree/4plus1.php.
Honors

Founder’s Medal
The Founder’s Medal, signifying first honors, was endowed by Commodore Cornelius Vanderbilt as one of his gifts to the university. The recipient is named by the Dean after consideration of faculty recommendations and overall academic achievements, as well as grade point averages of the year’s highest ranking summa cum laude graduates.

Latin Honors Designation
Honors noted on diplomas and published in the Commencement program are earned as follows:

Summa Cum Laude. Students whose grade point average equals or exceeds that of the top 5 percent of the previous year’s Vanderbilt graduating seniors.

Magna Cum Laude. Students whose grade point average equals or exceeds that of the next 8 percent of the previous year’s Vanderbilt graduating seniors.

Cum Laude. Students whose grade point average equals or exceeds that of the next 12 percent of the previous year’s Vanderbilt graduating seniors.

Graduates who complete the requirements of the College Scholars program are awarded “Honors in the College of Arts and Science,” and this designation appears on their diplomas. Candidates successfully completing departmental honors programs are awarded honors or highest honors in their major field, and this designation appears on their diploma.

College Scholars Program
Entering first-year students with outstanding academic records and students who achieve academic distinction during their first semester at Vanderbilt are invited to participate in the College Scholars program. These students have the exclusive opportunity to pursue advanced scholarly work in honors seminars and enriched courses or independent-studies projects. They may earn the designation “Honors in the College of Arts and Science” on their diplomas.

To earn the designation, College Scholars must accumulate fifteen “honors points” by achieving the grade B or better in approved courses and projects. A maximum of thirteen of these honors points may be earned in honors seminars. Honors seminars in the humanities, natural sciences, and the social sciences serve toward satisfaction of AXLE requirements in these areas. For a complete description of how honors points may be earned and a listing of honors seminars offered, see the entry on Honors in alphabetical order under Courses of Study.

College Scholars are not required—although many will choose—to earn honors in the College of Arts and Science; all, however, may enroll in as many honors seminars as they want. To remain in good standing in the program, students must maintain a minimum grade point average of 3.000. Further information on the College Scholars program and honors in the College of Arts and Science may be obtained from Associate Dean Dan Morgan.

Departmental Honors
To encourage individual development and independent study in a special field of interest, many departments and interdisciplinary programs of the College of Arts and Science offer honors programs for selected, superior candidates. Students normally begin departmental honors work in the junior year, but exceptions may be made in the case of outstanding seniors. To qualify for consideration, students must have (a) attained a minimum grade point average of 3.500 in all work previously taken for credit and in the major, and (b) exhibited to the department(s) and/or interdisciplinary program(s) other evidence of the student’s capacity for independent study. Some departments and interdisciplinary programs require higher grade point averages in all work previously taken for credit and/or in the major. Formal admission is by the director of honors study in the Office of the Associate Deans after election by the department(s) and/or interdisciplinary program(s) concerned.

Requirements vary somewhat from department to department (see descriptions in the appropriate department sections of this catalog). Candidates are required to demonstrate some degree of originality and maturity in the methods of independent investigation, analysis, and criticism, and skill in the written presentation of independent work. This standard usually requires a senior thesis but may be satisfied, in departments that have gained approval of this procedure, by a series of briefer critical papers.

Departmental honors work culminates in an examination given in the second semester of the senior year. The examination shall be both oral and written except in departments where honors students must take all courses required of standard majors in addition to those required of honors students. These departments have the option of making the examination either oral or both oral and written. The examination shall be conducted by a committee with a majority of examiners who have not participated in the candidate’s honors work. Where feasible, examiners from other institutions may be included. The examination shall cover the thesis and specific fields of the independent work and may, at the discretion of the department, include all of the major work. Successful candidates are awarded honors or highest honors in their field, and this designation appears on their diploma.

Dean’s List
The Dean’s List recognizes outstanding academic performance in a semester. Students are named to the Dean’s List when they earn a grade point average of at least 3.500 while carrying 12 or more graded credit hours, with no temporary or missing grades in any course (credit or non-credit), and no grade of F. A student must be in a degree-granting school.

Phi Beta Kappa
The Alpha Chapter of Phi Beta Kappa in the state of Tennessee honors scholarly attainments in the liberal arts and sciences and annually elects seniors and juniors to membership during the spring semester.

Seniors who have completed at least 60 credit hours in the College of Arts and Science and earned a cumulative grade point average of 3.65 or higher are eligible for consideration,
as are juniors who have completed at least 70 credit hours at Vanderbilt with a cumulative grade point average of at least 3.90. Juniors must have completed most AXLE requirements by the end of their junior year. For calculating credit hours and judging residence requirements, the chapter treats foreign study programs in the same manner as does the College of Arts and Science.

Attainment of the minimum required grade point average does not guarantee election. Membership in Phi Beta Kappa is based on a demonstration of scholarly achievements, broad cultural interests, and high moral character. The scholarly work must emphasize liberal rather than applied or professional studies. As a guideline, for seniors at least 90 credit hours must qualify as liberal. Grades earned in applied (vocational) or professional course work are not counted in computing the grade point average. The breadth of a candidate’s program, as shown by the number and variety of courses taken outside the major, is also considered.

Phi Beta Kappa has long emphasized the importance of mathematics and foreign language in a liberal education. In keeping with this tradition, the chapter considers only those students who have demonstrated proficiency in these areas beyond the AXLE graduation requirements. Proficiency in reading, writing, and speaking a foreign language is typically demonstrated by passing a course in a language at a level at least one semester beyond the AXLE requirements. Courses must be taken on a graded rather than a P/F basis. The foreign language requirement may be satisfied with College Board SAT Subject, Advanced Placement, International Baccalaureate, or Tennessee Foreign Language Institute test scores.

Mathematics proficiency may be demonstrated by completing two semesters of calculus or one semester of calculus and one semester of statistics. Courses must be taken on a graded rather than a P/F basis. The mathematics requirement may be satisfied with Advanced Placement, International Baccalaureate, or A-Level exam credit, but not College Board SAT Subject test scores.

In no event may the total number of persons elected from any senior class exceed 10 percent of the class, and from any junior class exceed six persons. Eligible juniors who are not elected are reconsidered for membership in their senior year.

Refer to the chapter website my.vanderbilt.edu/phibetakappa for additional information and detailed eligibility criteria.

Honor Societies for First-Year Students

First-year students who earn a grade point average of 3.500 or better for their first semester are eligible for membership in the Vanderbilt chapters of Phi Eta Sigma and Alpha Lambda Delta.

Other Awards and Prizes

MORRIS H. BERNSTEIN JR. PRIZE IN LATIN DECLAMATION. Established in 1983 by William H. Bernstein (B.A. 1983) in memory of his father (B.A. 1943, M.D. 1946). Awarded after a competition, open to any undergraduate who has studied two semesters of Latin, in which participants deliver from memory Latin passages selected to reflect classical ideals.

FOUNDER’S MEDAL FOR ORATORY. Awarded to the senior who has demonstrated the highest standard in public speaking.

FRENCH GOVERNMENT PRIZES. Awarded for excellence in French studies.

EDWIN S. GARDNER MEMORIAL PRIZE FOR EXCELLENCE IN FRENCH. Awarded to a graduating senior who majored in French.

ALEXANDER HEARD AWARD. Presented annually to the outstanding senior political science major.

RICHARD J. LARSEN AWARD FOR ACHIEVEMENT IN UNDERGRADUATE MATHEMATICS. Established in 2005 to honor the commitment to undergraduate education of Richard J. Larsen, member of the faculty from 1970 to 2005. Presented each spring to the senior math major judged by the faculty to have excelled in all aspects of undergraduate mathematics.

AVERY LEISERSON AWARD. Presented for the best research paper or essay written by an undergraduate in a political science course.

MERRILL MOORE AWARD. Endowed in 1961 by Mrs. Merrill Moore, Squantum, Massachusetts, in memory of her husband. Presented to a graduating senior or a student entering the junior or senior class, selected by the Department of English on the basis of “literary promise and the psychological or practical usefulness of the award” to the student.

DANA W. NANCE PRIZE FOR EXCELLENCE IN A PREMEDICAL CURRICULUM. Endowed in 1985 by the family and friends of Dana W. Nance (B.A. 1925, M.D. 1929). Awarded annually to a student who has demonstrated the perseverance to succeed in a premedical curriculum and who embodies the attributes of a caring physician.

JUM C. NUNNALLY AWARD. Established in 1987 in memory of this professor of psychology from 1960 to 1982. Presented to a graduating senior in the honors program of the Department of Psychology for the best research project.

DONALD E. PEARSON AWARD. Awarded annually to a graduating senior in chemistry adjudged the most distinguished in undergraduate research in chemistry.

PHI BETA KAPPA FRESHMAN SEMINAR AWARD. Awarded annually to students who have done outstanding creative work in freshman seminars.

AWARD FOR OUTSTANDING RESEARCH IN MOLECULAR BIOLOGY. Presented to a senior in molecular biology for outstanding research performed as part of the major program in molecular biology.

OUTSTANDING SENIOR IN CHEMISTRY AWARD. Awarded annually to that graduating senior in chemistry who, in the opinion of the faculty of the Department of Chemistry, shows most promise of an outstanding career.

HENRY LEE SWINT PRIZE. Awarded since 1978 for the best essay in history.

D. STANLEY AND ANN T. TARBELL PRIZE IN ORGANIC CHEMISTRY. Awarded annually to a graduating senior who has excelled in organic chemistry by earning the highest grades in courses or performing outstanding research in organic chemistry.

UNDERWOOD MEMORIAL AWARD. Endowed in 1961 by the late Newton Underwood in memory of his father, Judge Emory Marvin Underwood, long-time member of the Board of Trust. The cash award is given to the most deserving and most promising graduating senior or graduate student in physics.

SUSAN FORD WILTSHEIRE PRIZE. Cosponsored by the Women’s and Gender Studies program and the Women’s Faculty Organization, this award is given annually for the best undergraduate essay that deals with gender issues.

KATHARINE B. WOODWARD PRIZE. Awarded since 1943 and endowed in 1962 by Miss Katharine B. Woodward, Class of 1919, for excellence in Spanish studies.

MARGARET STONEWALL WOOLDRIDGE HAMBLET AWARD. Endowed in 1983 by Clement H. Hamblet in memory of his late wife, who began her art studies at Peabody College. The award is given to a graduating student of outstanding merit in studio art to enable the pursuit of his or her creative development through one year of extensive travel and further studies in studio art.
Academic Regulations

Honor System

All academic work at Vanderbilt is done under the Honor System. (See the chapter on Life at Vanderbilt.)

Class Attendance

Students are expected to attend all scheduled meetings of classes in which they are enrolled; they have an obligation to contribute to the academic performance of all students by full participation in the work of each class. At the beginning of the semester, instructors explain the policy regarding absences in each of their classes, and thereafter they report to the Office of the Associate Deans of the College of Arts and Science the name of any student whose achievement in a course is being adversely affected by excessive absences. In such cases an associate dean, in consultation with the instructor, takes appropriate action, which may include dropping the student from the class; students dropped after the deadline for withdrawal (see Period for Withdrawal) receive the grade F. Class attendance may be specified as a factor in determining the final grade in a course, and it cannot fail to influence the grade even when it is not considered explicitly.

The last day before and the first day after official holidays are considered to be the same as any other day on which classes are scheduled. Assignments are made for classes scheduled on these days, and tests may be given in them. Students should take this fact into account in making travel plans.

The faculty of the College of Arts and Science recognizes that occasions arise during the academic year that merit the excused absence of a student from a scheduled class or laboratory during which an examination, quiz, or other graded exercise is given. Examples include participation in sponsored university activities (e.g., debate team, varsity sports), observance of officially designated religious holidays, serious personal problems (e.g., serious illness, death of a member of the student’s family), and matters relating to the student’s academic training (e.g., graduate or professional school interviews). While determination of the merit of a case is left primarily to the discretion of the individual instructor, conflicts arising from personal travel plans or social obligations do not qualify as excused absences. Except in unusual circumstances, the Office of the Associate Deans does not grant excused absences for students. For more information please visit https://as.vanderbilt.edu/academics/policies/absences.php.

The primary determination of whether a student’s absence from class occurs for a reason that warrants rescheduling a graded exercise for that student is left to the judgment of the individual instructor. A standard of reasonableness should apply in making such judgments.

Except in cases of true emergency, student petitions for making up missed graded exercises must be made prior to the missed class, preferably at the beginning of the semester or at the earliest time thereafter when the need to be absent is known to the student. Faculty members retain discretion in the form and timing of makeup exercises or in devising other strategies for accommodating students.

The faculty of the College of Arts and Science authorizes the Office of the Dean to resolve through arbitration any cases that cannot be directly resolved between students and their instructors.

Classroom Recording Policy

The use of technologies for audio and video recording of lectures and other classroom activities is allowed only with the express permission of the instructor. In cases where recordings are allowed, such content is restricted to personal use only unless permission is expressly granted in writing by the instructor and by other classroom participants, including other students. Personal use is defined as use by an individual student for the purpose of studying or completing course assignments. When students have permission for personal use of recordings, they must still obtain written permission from the instructor to share recordings with others.

For students registered with EAD and who have been approved for audio and/or video recording of lectures and other classroom activities as a reasonable accommodation, applicable federal law requires instructors to permit those recordings. Such recordings are also limited to personal use, except with permission of the instructor and other students in the class.

Course Registrations

Normal Course Load

Each semester, regular tuition is charged on the basis of a normal course load of 12 to 18 semester hours. No more than 18 or fewer than 12 credit hours may be taken in any one semester without authorization of the Administrative Committee or an associate dean in 350 Buttrick Hall. (There is an extra charge for more than 18 credit hours at the current hourly rate.) First-year students may not take more than 18 credit hours in a semester.

Students permitted to take fewer than 12 credit hours are placed on probation, unless their light load is necessary because of outside employment or illness. During the summer session, there is no minimum course load. Summer loads exceeding 14 credit hours must be authorized by an associate dean in 350 Buttrick Hall.

Credit hours are semester hours; e.g., a three-hour course carries credit of 3 semester hours. One semester credit hour represents at least three hours of academic work per week, on average, for one semester. Academic work includes, but is not necessarily limited to, lectures, laboratory work, homework, research, class readings, independent study, internships, practica, studio work, recitals, practicing, rehearsing, and recitations. Some Vanderbilt courses may have requirements that exceed this definition.

A student must be enrolled in a minimum of 12 credit hours to be classified as a full-time student.

Auditing

Regularly enrolled Arts and Science students who want to audit courses in any of the undergraduate schools of the university must obtain the written consent of the instructor to attend the class but do not register for the course for credit. Forms are available from the Office of Academic Services in
Taking Courses for No-Credit
Students may want to take elsewhere in the university courses that are not creditable toward the bachelor’s degree. They may do so on a no-credit basis, attending classes, doing all the work of the course, and receiving a grade that is recorded on the transcript with a notation that it does not count toward the degree.

No-credit courses count in computation of the student’s academic load and in computation of tuition, but not in computation of the grade point average. They also do not count toward the attainment of class standing.

Taking Courses for P/F Credit
Students may elect to take a limited number of courses on a Pass/Fail (P/F) basis. To enroll for a course on a Pass/Fail basis, students must have completed at least two semesters at Vanderbilt, must have achieved at least sophomore standing, and must not be on academic probation.

No more than 18 credit hours graded P may be counted toward the degree, and no more than one course per term may be taken P/F.

The P/F option does not apply to courses in the following categories:

1. Courses counted toward AXLE requirements;
2. Courses in the major field(s), other courses that may be counted toward the major(s), or courses required for the major(s);
3. For students with a defined interdisciplinary major, courses that are required for the major or that are eligible to count toward the major;
4. For students with an individually designed interdisciplinary major, courses listed in the student’s plan of study;
5. For students planning an optional minor, courses in the minor field or those eligible to count toward an interdisciplinary minor;
6. Courses that have been specifically excluded from the P/F option;
7. Courses taken previously.
8. Minimum 12 graded credit hours required.
9. A graduating senior who has permission to take fewer than 12 credit hours on a graded basis may take one course on a P/F basis in addition to the courses required for graduation. If the student does not graduate at the end of that semester, the P grade is automatically converted to the grade actually earned.

Students may register for grading on a Pass/Fail basis until the close of the Change Period at the end of the second week of classes. Students may change from Pass/Fail to graded status until the deadline date for withdrawing from a course that is published in the Academic Calendar.

Those electing the Pass/Fail option must meet all course requirements (e.g. reports, papers, examinations, attendance, etc.) and are graded in the normal way. Instructors are not informed of the names of students enrolled on a Pass/Fail basis. At the end of the semester, a regular grade is submitted for the student enrolled under the P/F option. Any grade of D– or above is converted in the Student Records System to a P, while an F will be recorded if a student enrolled under this option fails the course. The P grade is not counted in the grade point average nor used in the determination of honors. The grade of F earned under the Pass/Fail option is included in the calculation of the grade point average.

The grade for a class will be converted from P to the recorded letter grade if a student later declares a major or minor toward which that class counts. The recorded letter grade will be included in both the overall and the major or minor grade point average.

Undergraduate Enrollment in Graduate Courses
In the 4-digit course numbering system initiated in Fall 2015, some courses may enroll undergraduate and graduate students simultaneously. Typically, there is a 3000- or 4000-level course for undergraduates and a matching 5000-level course for graduate students. Undergraduate students may enroll in the 3000- or 4000-level course of these pairs without special approval.

A qualified Vanderbilt University senior undergraduate may enroll in courses approved for graduate credit (those numbered 5000 and higher) and receive credit that, upon the student’s admission to the Vanderbilt Graduate School, may be applicable toward a graduate degree. Vanderbilt cannot guarantee that another graduate school will grant credit for such courses. The principles governing this option are as follows:

1. Work taken under this option is limited to those courses approved for graduate credit (those numbered 5000 and higher) and listed as such in the Graduate School catalog, excluding thesis and dissertation research courses and similar individual research and readings courses. Courses approved for professional credit (i.e., many courses in the Divinity School, Law School, School of Medicine, School of Nursing, and Owen Graduate School of Management) may not be taken as part of this option.
2. The student must, at the time of registration, have a 3.00 average in all prior work to be counted toward the bachelor’s degree, or a 3.00 average in all prior work to be counted toward the undergraduate major, or a 3.00 average in the preceding two semesters.
3. The total course load, including both graduate and undergraduate courses, must not exceed 15 credit hours in any semester.
4. No undergraduate student may enroll in more than one graduate course in any semester.
5. A registration form for undergraduate Arts and Science students wishing to exercise this option is available in the College of Arts and Science Associate Deans’ Office. The interested student must use this form to obtain the written approval of the following:
   a) the academic adviser,
   b) the instructor of the course,
   c) and the director of graduate studies of the department or program.

Reserving Credit for Graduate School
1. Arts and Science students who are interested in reserving the credit earned in a graduate course (those numbered 5000 and higher) should consult with the Graduate School
Repeated Courses

Most courses offered in the College of Arts and Science may be repeated. If a course was failed the last time it was taken, credit is awarded when the course is repeated with a passing grade. If a course was previously passed, no new credit is earned. If a course previously passed is repeated and failed, credit originally earned for it is lost. In any case all grades earned are shown on the transcript. Under conditions explained below, the most recent grade in a course replaces the previous grade in determining credit, in computing the grade point average, and in verifying the completion of degree requirements and progress toward the degree.

The policy of grade replacement applies when all of the conditions below are met.

1. A previously passed course is repeated within one year or (for courses not offered within a year) the first time it is offered. Passed courses may be repeated only once. Failed courses may be repeated at any time and any number of times, with the exception of First-Year Writing Seminars (see #2 below).

2. Exactly the same course (same department and course number) is completed. For First-Year Writing Seminars, it must be the same department and section number, but FYWS cannot be repeated after completion of the second semester in residence. In addition, a very small number of differently numbered courses as approved by the faculty may be substituted under this policy. These are designated in the departmental course listings.

3. The course is repeated on a regularly graded basis. This limitation applies even if the course was originally taken on a P/F basis.

4. The course is not one in independent study or directed study.

5. A non-W course is taken as repeat credit for a Writing version of the same course that was previously passed. The student loses credit for the writing requirement.

6. A W course is taken as repeat credit for a non-Writing version of the same course that was previously passed. The student earns credit for the writing requirement.

7. Certain courses (e.g., ensemble, performance instruction, and independent study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credit hours allowable per semester will be included in the course description.

In most instances, enrollment in a course similar to one already completed but with a different course number will result in the award of no credit for the second course and will have no effect on the grade point average.

Courses taken in the College of Arts and Science may not be repeated elsewhere for grade replacement; nor may courses taken elsewhere be repeated in the College of Arts and Science for grade replacement.

Students are cautioned that while repeating for grade replacement a course previously passed may improve their cumulative grade point average, it may also lead to a problem in meeting minimum credit hours requirements for class standing because no new credit is earned.

The Registration Process

A period is designated in each semester during which continuing students, after consultation with their advisers, register for work to be taken during the next term. The student’s adviser must release the advising hold in YES before the student can register.

Students are asked to plan their immediate and long-range educational programs with their faculty advisers before registering and to consult their advisers when they make changes in their registration.

Students not meeting specified tuition payment deadlines are not permitted to register. See the chapter on Financial Information for details.
Before registering, students should check their own records carefully with respect to the following items:

1. AXLE requirements;
2. Major requirements;
3. Requirements of any optional minor(s) sought;
4. Course prerequisites.

Period for Withdrawal or Change from P/F Status

After the Change Period, and extending to the end of the eighth week of classes, a student may withdraw from a course with approval from the student’s adviser. Under certain conditions, withdrawal may also require approval from an associate dean in 350 Buttrick Hall. During the same period students may change their status from P/F to regularly graded—but not vice versa—in a course.

These changes must be made with a Change of Course form, which is available online and which the student must submit to the Office of Academic Services in Arts and Science. After the end of the eighth week, withdrawal is possible only in the most extraordinary circumstances, such as illness or unusual personal or family problems, and in all cases must be approved by the Administrative Committee. After the end of the eighth week, change from P/F to regularly graded status is not permitted.

Students who withdraw from a course after the change period receive the grade W (withdrawal). This grade is not used in the computation of the grade point average or class rank. A student who defaults in a course without dropping or withdrawing from it receives the grade F.

Minimum Graded Credit Hours

A course may not be dropped without authorization of the Administrative Committee or an associate dean if the student is left with a course load of fewer than 12 credit hours on a regularly graded basis.

Mid-Semester Progress Reports

At the end of the seventh week of each semester, instructors assess the progress of all students in their classes and report those whose work at that point is deficient or whose work is being harmed by excessive absences. Grades to be reported are C−, D+, D, D−, F, and I (for incomplete, meaning that some work due by that point has not been submitted). Instructors may combine with one of these grades or assign separately a notation of excessive absences from a class. Reports of these deficiencies are posted to students’ Access to Academic Information online summary. Grades given at mid-semesters do not become part of the permanent record but are intended to warn students about performance judged unsatisfactory.

Examinations

Each department establishes procedures for evaluating student performance, and normally the method of evaluation is the responsibility of the course instructor. At the beginning of the semester instructors should clearly state the evaluation procedures, including types of examinations, to be used in their courses. Students should have adequate opportunity during the semester to demonstrate their knowledge of the subject matter and should be given an indication of their progress in the course prior to the deadline for dropping courses. Instructors are cautioned against placing excessive weight on the final examination when determining a student’s grade in a course.

Dead Week

No examinations of any type—including quizzes, hour examinations, and portions of final examinations—are allowed during the last week of classes; papers and in-class presentations are permitted during dead week. The Administrative Committee may grant special permission to the instructor in charge of a course to give laboratory examinations during the last regular laboratory period of the last week of classes. The last week of classes is defined as the last seven calendar days preceding the end of classes. If, for example, classes end on Tuesday, then the “dead week” begins the preceding Wednesday and lasts through Tuesday. Students should notify the Office of the Associate Deans of any violation.

Final Examinations

The primary and alternate final examination schedules issued each semester allow two hours for a final examination in each course. Each in-class final examination must be given at the time indicated on the primary schedule. The alternate schedule is used only if the instructor decides to give an in-class examination at two times. The final examination period lasts for about a week and a half.

Alternatives to the standard in-class final examination are permitted at the instructor’s discretion. Some examples are take-home examinations, oral examinations, and term papers; there need not be a final examination if adequate evaluation procedures have been used during the term. A take-home or oral examination should make approximately the same demand on a student’s time as an in-class examination and should be conducted during the final examination period. A take-home examination must be distributed at the last regular class meeting and must be completed by either the primary or the alternate examination date, whichever is later.

All examinations are conducted under the Honor System. The instructor’s record of grades given during a course and any final examination papers not returned to students must be kept on file by the instructor for the first month of the semester following the conclusion of the course. For spring semester and summer session courses, this rule means the first month of the fall semester.

Monitoring these regulations is the responsibility of the departments, under the supervision of the Office of the Associate Deans. Variations from the regulations—such as changing the time of an in-class final examination for an entire class—are allowed only on approval of the Administrative Committee.

Comprehensive Examination

Any department or interdisciplinary program may require a comprehensive examination of its major students as a condition of graduation.

Senior Re-examination

A candidate for graduation who fails not more than one course in the final semester may be allowed one re-examination, provided the course failed prevents the student’s graduation, and provided the student could pass the course by passing a re-examination. Certain courses may be excluded from re-examination. The re-examination must be requested through the Office of the Associate Deans, and if approved, it is given immediately after the close of the last semester of the student’s senior year. A student who passes the re-examination will
receive a D– in the course. The terms and administration of senior re-examination are the responsibility of the school that offers the course.

**Credit by Examination**

In certain circumstances, students may be awarded course credit by departmental examination. (This procedure is distinct from the award of credit through the College Board Advanced Placement Tests taken prior to the student's first enrollment.)

Students who wish to earn credit by departmental examination should consult the Office of Academic Services in Arts and Science concerning procedures. To be eligible, students must be carrying a minimum of 12 credit hours and be in good standing.

Students must obtain the approval of the chair of the department that is to give the examination and the instructor designated by the chair. Students may earn up to 18 hours of credit by any combination of credit through advanced placement examinations and credit by departmental examination. Students may earn up to 8 hours of credit by examination in any one department. Students may attempt to obtain credit by examination no more than twice in one semester, no more than once in one course in one semester, and no more than twice in one course. Students may not repeat a course for grade replacement under the credit by examination procedures. Credits earned by credit by examination may not be counted toward AXLE.

Credit hours and grade are awarded on the basis of the grade earned on the examination, subject to the policy of the department awarding credit. Students have the option of refusing to accept the credit hours and grade after learning the results of the examination.

Students enrolled for at least 12 credit hours are not charged extra tuition for hours earned through credit by examination, so long as the amount of credit falls within the allowable limits of an 18-hour tuition load, including no-credit courses and courses dropped after the Change Period. Students in this category must pay a $50 fee for the cost of constructing, administering, and grading the examination. Since this cost has already been incurred, students who refuse the credit hours and grade are charged the $50 fee nevertheless.

Full-time students with a tuition load exceeding 18 credit hours and students taking fewer than 12 credit hours pay tuition at the regular rate with no additional fee.

Under certain circumstances the following grades may be awarded:

- W: withdrawal
- P: (see P/F Course Provision)
- M: absent from final examination
- I: incomplete in some requirement other than final examination
- MI: absent from final examination and incomplete work
- IP: first semester grade for two-semester Honors sequence

Plus and minus modifiers may be associated with letter grades A through D as shown in the table below. Grade point averages are calculated using indicated grade point values.

### Grade Point Average

A student's grade point average is obtained by dividing the quality points earned by the credit hours for which the student has registered, excluding courses taken for no credit, those from which the student has officially withdrawn (see Withdrawal Period under Registration above), and those completed with the grade P.

In no case is the grade point average affected by transfer credit. No course at another institution in which a grade below C− was received, or which was taken on a Pass/Fail basis, is credited toward the degrees awarded by the College of Arts and Science.

### Temporary Grades

Temporary grades are placeholders that are assigned under defined circumstances with a specified deadline by which they will be replaced with a permanent grade. Temporary grades are not calculated in the GPA, but a student who receives a temporary grade is ineligible for the Dean’s List. Students cannot graduate with any temporary grades.

#### M: Missing a Final Examination

The grade M is given to a student who misses a final examination and is not known to have defaulted in the course, unless the student could not have passed the course even with the final examination, in which case the grade F is given. The course grade of a student known to have defaulted on a final examination is computed on the basis of a score of zero for the final examination. It is the responsibility of the student who misses a final examination to present an excuse to the associate dean immediately. If the excuse is considered adequate, the grade M is authorized.

A student who secures authorization for an absence at the proper time is obliged to take a makeup examination during the first full week after the Change Period of the next semester, provided the student is in residence. It is the student’s responsibility to contact the Office of the Associate Deans (350 Buttrick Hall) before the second day of classes to schedule the makeup. If the student is not in residence, the grade M must be removed by a makeup examination given within a maximum period of one year from the date of the missed examination and during one of the regular makeup examination periods. If the student
fails to take the makeup examination within the prescribed time, the $M$ grade will be replaced by a default grade submitted by the instructor when the $M$ is assigned.

$I$: Incomplete

The grade of $I$ is given only under extenuating circumstances and only when a significant body of satisfactory work has been completed in a course. The $I$ is not intended as a replacement for a failing grade, nor should it be assigned if a student simply misses the final examination. The grade of $M$ is used for the latter purpose. The grade for a student who misses a final examination and whose work is also incomplete in other respects is reported as $MI$. The request for an $I$ is generally initiated by the student but must be approved and assigned by the instructor. When assigning an Incomplete, the instructor specifies (a) a deadline by which the $I$ must be resolved and replaced by a permanent grade and (b) a default course grade that counts the missing work as zero. The deadline may be no later than the end of the next regular semester. The Incomplete can be extended beyond the next semester only if an associate dean determines that an extension is warranted. If the required work is submitted by the deadline for removing the Incomplete, the $I$ will be replaced by the grade earned. If the work is not completed by the deadline, the default grade will become the permanent grade for the course.

$MI$: Missing a Final Examination and Other Work

The grade for a student who misses a final examination and whose work is also incomplete in other respects is reported as $MI$. This grade may not be turned in without prior authorization by an associate dean. It is the student’s responsibility to contact the Office of the Associate Deans (350 Buttrick Hall) to request permission to take a makeup examination and to arrange for the submission of the missing work.

Makeup Examinations

For students who receive the authorized grade $M$, the Office of the Associate Deans may arrange makeup examinations during the next semester, although it is preferable for the professor to administer the make-up examination. The makeup examination period is the first full week after the Change Period of each semester. The Administrative Committee may on occasion authorize a makeup examination at some time other than the makeup period for a particular student.

$F$: Failure

The grade $F$ indicates failure. All $F$s are counted in the computation of grade point averages, except when a course is repeated and is subsequently passed. In this case the latest grade is used for computation of the grade point average (but the grade originally earned is not removed from the transcript). A course in which the grade $F$ is received must be repeated as a regular course if credit is to be given. It may not be repeated as a course in independent or directed study, under the procedures for credit by examination, or on a P/F basis.

Change of Grade

A grade reported and recorded in the Office of the University Registrar may be changed only upon written request of the instructor with the approval of the Administrative Committee. The committee will approve such a change only on certification that the original report was in error.

Transfer Credit

It is the student’s responsibility to provide all of the information needed by the College of Arts and Science to assess the program for which transfer of credit is requested. Work presented for transfer must be from an accredited college and is subject to evaluation in light of the degree requirements of the College of Arts and Science. Students seeking transfer credit for work at nonaccredited institutions will be considered individually. Correspondence courses will not be considered for transfer credit.

Work transferred to Vanderbilt from another institution will not carry with it a grade point average. No course in which a grade below $C-$ was received, or which was taken on a Pass/Fail basis, will be credited toward a degree offered by the College of Arts and Science. The question of credit in the College of Arts and Science for previous work done at another institution must be settled in advance of the student’s first registration. Credit for previous work will not be added to the student’s record after matriculation. Credit will not be awarded for internships.

Transfer students must spend at least four full semesters, including the last two semesters, enrolled in the College of Arts and Science. They must earn at least 60 credit hours and complete at least one writing course in fulfillment of the writing requirement while so enrolled.

Residence Requirement

A minimum of four normal semesters (at least 60 credit hours), including the last two semesters (at least 30 credit hours), must be spent in residence in the College of Arts and Science unless an exception is made by the Administrative Committee. Students transferring from other schools of the university must spend the last year (at least 30 credit hours) in residence in the College of Arts and Science.

Summer Work at Another Institution

Students enrolled in the College of Arts and Science may receive transfer credit for a maximum of two courses taken during summers at another four-year, fully accredited institution. To qualify for such credit, the student must be in good standing and must obtain authorization from an associate dean and the appropriate department in advance of taking the course. Such courses cannot fulfill AXLE requirements, count as part of the last 30 credit hours in residence, duplicate a course taken previously, or be taken on a Pass/Fail or similar basis. Credit will not be awarded for internships.

Semester Work at Another Institution

Students who wish to receive transfer credit for a semester of work at another institution must receive approval in advance from the Committee on Individual Programs. To qualify for such credit, the student must be in good standing and must present to the committee a plan that makes clear the educational rationale for such work, the ways in which it supplements the Vanderbilt curriculum, and the equivalence of standards to those at Vanderbilt. Approval of the overall plan by this committee must be followed by approval of specific courses by the student’s adviser, the appropriate department in the College of Arts and Science, and the Office of Academic Services in Arts and Science. Such courses cannot fulfill AXLE requirements,
count as part of the last 30 credit hours in residence, duplicate a course taken previously, or be taken on a Pass/Fail or similar basis. Credit will not be awarded for internships.

Senior-in-Absentia

A student who wishes to earn a baccalaureate degree in the College of Arts and Science in absentia must have (a) completed the AXLE requirements and all major requirements; (b) earned at least 105 credit hours and a grade point average of 2.000 with at least 60 credit hours earned in a minimum of four semesters of residence in the College of Arts and Science; (c) been accepted at a professional or graduate school where, during the first year, the remaining credit hours needed for graduation can be earned; and (d) obtained the approval of the major department and an associate dean of the College of Arts and Science. Students who have completed fewer than 105 credit hours may petition the Administrative Committee for special consideration.

The limitation on credit hours outside the College of Arts and Science applies to all bachelor of arts candidates. Students in the senior-in-absentia program pay a minimum semester tuition charge to the College of Arts and Science (see Financial Information).

Student Leave of Absence

A student desiring a leave of absence should obtain application forms and instructions from the Office of the Associate Deans of the College of Arts and Science. All students are eligible, provided they have not been dropped by the university and are not dropped at the end of the semester during which application is made. But students may take a leave no more than twice during their career in the College of Arts and Science.

Leaves are granted for one semester or for a year. Applications should be completed before the end of the fall semester for a leave of absence during the spring semester, and before August 15 for a leave of absence during the fall semester (or for the academic year). If the leave is approved, the student must keep the Office of the University Registrar informed of any change of address while on leave.

A student who takes a medical leave after mid-semester is expected to be on leave for the following regular semester as well. A student who plans to return from medical leave must submit appropriate documentation to the Office of the Associate Deans and the Center for Student Wellbeing at least forty-five days before the first day of class.

A student who seeks to transfer to Vanderbilt credit earned elsewhere while on leave of absence must obtain permission in advance from the Committee on Individual Programs. Applications for leaves of this type must be filed with the committee at least one month before the close of the preceding semester.

Registration information is emailed to students on leave of absence. A student failing to register at the conclusion of the stated leave will be withdrawn from the university and must apply for readmission.

Withdrawal from the University

Students proposing to withdraw from the university during a regular term must report to the Office of the Associate Deans of the College of Arts and Science to initiate proper clearance procedures. If withdrawal from the university is officially authorized, the student will receive withdrawal grades on the same basis as a student withdrawing from a particular course or courses. (See the section on Period for Withdrawal under Registration above.)

Change of Address

Students are responsible for keeping the university informed of their correct mailing addresses, both school and home. They should notify the university, through the Office of the University Registrar, online or in writing, of any address changes as soon as possible. They are provided an opportunity to review address information at registration. The university will consider notices and other information delivered if mailed to the address on file in the Office of the University Registrar.

Academic Discipline

The College of Arts and Science requires each student to maintain an academic record that will permit graduation according to a specified schedule. Students are considered to fall short of the expected rate of progress when

1. They pass fewer than 12 credit hours in a semester or have a semester grade point average lower than 1.500; or
2. In a summer they take 12 or more credit hours but pass fewer than 12 credit hours or earn a grade point average lower than 1.500; or
3. They fail to achieve sophomore, junior, or senior standing within the time allowed; or
4. They accumulate more than two probationary leaves of absence; or
5. As first-semester freshmen they pass fewer than two courses or earn a semester grade point average lower than 1.000, in which case they may be required to take a probationary leave of absence; or
6. As first-semester freshmen they earn fewer than 9 credit hours or a semester grade point average lower than 1.500, in which case they may be offered a choice (see Semester Requirements below).

Any student who falls somewhat short of the prescribed levels of academic achievement is normally placed on probation. Any student who fails by a wide margin to reach these levels or who has been placed on probation more than once is reviewed by the Administrative Committee, and may be dropped from the university without having previously been placed on academic probation. The committee considers each case within the framework of the guidelines outlined below and may take any of several actions, among which are the following:

1. The student may be placed on probation;
2. The student may be advised to take a leave of absence or to withdraw from the university;
3. The student may be required to take a leave of absence;
4. The student may be dropped from the university.

Semester Requirements

Full-time students are expected to earn each semester at least 12 credit hours and a minimum grade point average of 1.500. Students who fall short of these levels are normally placed on probation. Students are removed from probation after earning at least 12 credit hours and a semester grade point average of 1.500 or better, assuming they have fulfilled the requirements for class standing stated below.

1. The student may be placed on probation;
2. The student may be advised to take a leave of absence or to withdraw from the university;
3. The student may be required to take a leave of absence;
4. The student may be dropped from the university.
First-year students who pass fewer than two regular courses in their first regular semester or who earn a semester grade point average lower than 1.000 have so seriously compromised their academic standing that they may be required to take a probationary leave of absence until the beginning of the following fall semester.

First-year students who earn fewer than 9 credit hours or a grade point average lower than 1.500 in the fall may, at the discretion of the Administrative Committee, choose a probationary leave for the spring and return the next fall with two semesters in which to qualify for sophomore standing.

A student on probationary leave may not earn credit at another institution for transfer to Vanderbilt. In appropriate cases, the Administrative Committee may prescribe conditions that must be satisfied before the student returns from a probationary leave. Students who do not choose to return at the end of a probationary leave but want to return later are required to apply for readmission.

After their first year, full-time students may not be placed on probation more than twice (continuance on probation for a second semester counts as another probation). If a student’s performance is deficient a third time, the student is dropped from the university.

Students who have been authorized to carry fewer than 12 credit hours because of illness or outside employment may be placed on academic probation if their work is deemed unsatisfactory by the Administrative Committee; they are removed from probation when the committee deems their work satisfactory. If they are not removed from probation after a reasonable period of time, such students are dropped.

The internal record of a student dropped from the university under these regulations shows the notation “Dropped for scholastic deficiency.”

Class Standing
The Administrative Committee determines how many semesters will be allowed for each part-time student to attain sophomore, junior, or senior standing.

The internal record of a student dropped from the university under these regulations shows the notation “Failed to qualify for class standing.”

Sophomore Standing
A student qualifies for sophomore standing upon completion of 24 credit hours of work with a grade point average of at least 1.800, completion of two regular semesters (fall or spring), and completion of the first-year writing requirement: successful completion of English 1100 if required and successful completion of a First-Year Writing Seminar (numbered 1111 in various disciplines). First-year students who fail to qualify for sophomore standing in two semesters are placed on probation and must have the permission of the Administrative Committee to register for a third semester. The third semester must be the summer semester at Vanderbilt. Normally, students who do not qualify for sophomore standing during this third semester are dropped from the university.

Junior Standing
A student qualifies for junior standing upon completion of 54 credit hours of work with a grade point average of 1.900, completion of four regular semesters (fall or spring), and completion of a 1000-level writing course. Sophomores who fail to qualify for junior standing within two semesters after qualifying for sophomore standing are placed on probation and must have the permission of the Administrative Committee to register for another semester. This additional semester must be the summer semester at Vanderbilt. Normally, students who do not qualify for junior standing in this additional semester are dropped from the university.

Senior Standing
A student qualifies for senior standing upon completion of 84 credit hours of work with a grade point average of 2.000 and completion of six regular semesters (fall or spring). Juniors who fail to qualify for senior standing within two semesters after qualifying for junior standing are placed on probation and must have the permission of the Administrative Committee to register for another semester. This additional semester must be the summer semester at Vanderbilt. Normally, students who do not qualify for senior standing in this additional semester are dropped from the university.

Seniors who fail to maintain a minimum grade point average of 2.000 are placed on probation and must have the permission of the Administrative Committee to register for another semester.

Petitions and Appeals
The Administrative Committee of the College of Arts and Science entertains petitions from currently enrolled students for exceptions to academic regulations. Any student subject to action by the Administrative Committee may appeal that action to the committee in writing. Further appeals from decisions of the committee follow standard university policies as described in the Student Handbook.

Returning to the College
Students on leave of absence return to the university at the end of the leave. If they do not return at that time and want to return later, they must apply to the Office of the University Registrar for readmission. Students who are advised to withdraw from the university determine whether or not to return in consultation with the Office of the Associate Deans. Students who have been dropped may apply to the Office of the University Registrar for readmission; in most cases readmission is not granted unless there has been an intervening period of at least a year. The Office of the University Registrar forwards all documents to the Administrative Committee, which considers each case on an individual basis. Readmission is competitive, and there is no assurance that it will be granted. Students readmitted after having been advised to withdraw or after having been dropped are automatically on final probation. If they fail to regain good standing and to maintain it until graduation, they are dropped again with little prospect for readmission. Application deadlines for readmission are as follows: July 15 for the fall semester, November 15 for the spring semester, and April 1 for the summer session.
College of Arts and Science / African American and Diaspora Studies

African American and Diaspora Studies

DIRECTOR David Ikard
DIRECTOR OF UNDERGRADUATE STUDIES Claudine Taaffe
DIRECTOR OF GRADUATE STUDIES Gilman W. Whiting
PROFESSORS Victor Anderson, Houston Baker, Tracy D. Sharpley-Whiting
ASSOCIATE PROFESSORS Scot Brown, Tiffany R. Patterson, Gilman W. Whiting
MELLON ASSISTANT PROFESSOR Alicia Monroe
SENIOR LECTURER Claudine Taaffe
WRITER IN RESIDENCE Alice Randall

THE concentration in African American and Diaspora Studies requires 36 credit hours of course work. Approved courses taken at Fisk University may be counted as electives in the program. The course of study in the African American and Diaspora Studies program is divided into three areas: Area of Study I, Gender and Sexuality; Area of Study II, Literature, Theory, and Visual Culture; and Area of Study III, Social Sciences. Courses that satisfy each area are listed under "Areas of Study and Electives" below.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in African American and Diaspora Studies

Requirements for the major include at least 36 hours of credit as follows:

1. 3 credit hours from 1010, Introduction to African American and Diaspora Studies.
2. 6 credit hours from Area of Study I, Gender and Sexuality.
3. 6 credit hours from Area of Study II, Literature, Theory, and Visual Culture.
4. 6 credit hours from Area of Study III, Social Sciences.
5. 9 credit hours of electives chosen from Areas of Study I, II, and III, not used to satisfy requirements 2 through 4 above.
6. 3 credit hours from 4270, Research Methods. Majors are advised to take this course in the second semester of their junior year.
7. 3 credit hours in either 4978 (fall) or 4979 (spring), Senior Thesis in African American and Diaspora Studies.

At least 6 credit hours of the concentration must focus on the Americas (outside of the United States) and/or Africa. No more than 9 credit hours of course work may be taken at the 1000 level (excluding 1010).

Honors Program

The only route to honors in the major is writing a 3 credit hour Senior Honors Thesis in AADS 4998 (fall) or 4999 (spring) and passing an oral examination. Admission to the Honors Program requires a student have a grade point average of at least 3.5 in all AADS courses and a cumulative GPA of 3.3. A committee of three faculty members (two of whom must be involved in undergraduate teaching in the African American and Diaspora Studies program) will evaluate the thesis. Students pursuing the Senior Honors Thesis may apply to the program for nominal funding to assist with research projects. The chair of the student's thesis committee and two readers must attend the oral examination. The oral defense will typically take place in the second semester of the student's senior year.

Minor in African American and Diaspora Studies

Requirements for completion of the minor include at least 21 credit hours as follows:

1. 3 credit hours in 1010, Introduction to African American and Diaspora Studies.
2. 3 credit hours from Area of Study I, Gender and Sexuality.
3. 3 credit hours from Area of Study II, Literature, Theory, and Visual Culture.
4. 3 credit hours from Area of Study III, Social Sciences.
5. 9 credit hours of electives chosen from Areas of Study I, II, and III, not used to satisfy requirements 2 through 4 above.

At least 6 credit hours of the minor must focus on the Americas (outside of the United States) and/or Africa, and no more than 6 credit hours of the minor can be taken at the 1000 level (excluding 1010). Minors are encouraged, though not required, to take 4270 Research Methods in the first semester of their junior year.

Areas of Study

Courses with an asterisk in the lists below fulfill the Africa and Americas outside of the United States portion of the major and minor. Approved courses offered at Fisk may count toward elective requirements.

Area of Study I, Gender and Sexuality

Area of Study II, Literature, Theory, and Visual Culture

Area of Study III, Social Sciences

Other Electives

Any course from the above three areas may serve as an elective if it is not already being used to satisfy an Area requirement. Please consult the director of undergraduate studies for periodic updates about electives including courses that can be taken at Fisk as electives for AADS.

African American and Diaspora Studies: 1111* First Year Writing Seminar.

Anthropology: 2105* Race in the Americas*; 2106* Culture and Power in Latin America.

English: 3654*/3654W African American Literature; 3658* Latino-American Literature; 3674* Caribbean Literature; 3742* Feminist Theory.

History: 1270* Sub-Saharan Africa 1400–1800; 1280* Africa since 1800; 1410* U.S. 1877–1945: Reconstruction through World War II; 1440* African American History since 1877; 2450* Reform, Crisis, and Independence in Latin America, 1700–1820; 2490* Brazilian Civilization; 2570* Caribbean History 1492–1983; 2620* The Old South; 2630* The New South; 2690* The Civil Rights Movement; 3040* Health and African American Experience; 3200* Poverty, Economy, Society in Sub-Saharan Africa.

History of Art: 4960* Advanced Seminar in History of Art.

Religious Studies: 1100* Introduction to African American Religious Traditions; 3119* Martin Luther King, Jr., and the Social Roles of Religion.

Sociology: 3207* Popular Culture Dynamics; 3304* Race, Gender, and Health; 3702* Racial and Ethnic Minorities in the United States; 3711* Women, Gender, and Globalization; 3722* Gender in Society; 3723* Gender, Sexuality, and the Body.

Spanish: 3835* Latino Immigration Experience*; 4750* Afro-Hispanic Literature*.

Women’s and Gender Studies: 1150*/1150W* Sex and Gender in Everyday Life; 2240* Introduction to Women’s Health; 3250*/3250W Contemporary Women’s Movements.

Course descriptions begin on page 141.

American Studies

DIRECTOR Sarah Igo (History)
ASSISTANT DIRECTOR Gabriel Torres-Colón

PROFESSORS Richard Blackett (History), C. Andrés Christie-Mizell (Sociology), Dan Cornfield (Sociology), Colin Dayan (English), Marshall C. Earlen (History), Ted Fischer (Anthropology), Vivien Fryd (History of Art), Larry Isaac (Sociology), Dana Nelson (English), Cecelia Tichi (English)

ASSOCIATE PROFESSORS Vanessa Beasley (Communication Studies), Jim Fraser (Human and Organizational Development), Teresa A. Goddu (English), Sarah Igo (History), Leah Lowe (Theatre), Ifeoma Kiddoe Nwankwo (English), Richard Pitt (Sociology), Paul Stob (Communication Studies)

ASSISTANT PROFESSOR Almi Hamraie (Medicine, Health, and Society)

SENIOR LECTURERS Susan Kevra (French), Gabriel Torres-Colón

LECTURER Tatiana McInnis

Affiliated Faculty

PROFESSORS Kate A. Daniels (English), Joni Horsch (Law), Jonathan Metzl (Medicine, Health, and Society), Kelly Oliver (Philosophy), Lucius Outlaw, Jr. (Philosophy), Laurel C. Schneider (Religious Studies), Dan Sharfstein (Law), Hortense Spillers (English), Emilie Townes (Divinity), Dan Usner (History), David Williams II (Law)

ASSOCIATE PROFESSORS Derek Griffith (Medicine, Health, and Society), Claire Sisco King (Communication Studies), Richard Lloyd (Sociology), Jim Lovensheimer (Musicology), Paul Miller (French and Italian), Ann Neely (Teaching and Learning)

ASSISTANT PROFESSORS Ashley Carise (Human and Organizational Development), Ken MacLeish (Medicine, Health, and Society, Anthropology), Sara Safransky (Human and Organizational Development)

SENIOR LECTURER Chalene Helmuth (Latin American Studies)

OTHER AFFILIATED FACULTY Joe Bandy (Assistant Director of the Center for Teaching)

THE Program in American Studies is an interdisciplinary program allowing study of the diversity of American culture from a variety of intellectual perspectives. Through course offerings, colloquia, and research opportunities, students and faculty examine the formation of social, legal, cultural, and economic identities within the borders of the United States as well as in dialogue with the broader geographic and geopolitical parameters of the Americas, including Canada, Mexico, the Caribbean, and Central and South America. Matters of class, race, region, gender, ethnicity, sexuality, religion, migration, environment, technology, politics, and the arts are central to the curriculum. The program allows study at the local, subnational, national, and international levels, from in-depth investigation of Nashville communities to research on transnational nongovernmental organizations. The American Studies program encourages and provides opportunities for on- and off-campus research, internships, study abroad, and individualized and group projects under the guidance of participating faculty in the humanities, arts, and social sciences.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in American Studies

The interdisciplinary major in American studies consists of 36 credit hours of course work, distributed as follows:

1. Core Requirements 6 credit hours
2. International Requirement 3 credit hours
3. Distribution Requirements 18 credit hours
4. Electives 9 credit hours

Note: No course may be counted twice in calculating the 36 credit hours. No more than 6 credit hours at the 1000 level can count toward the interdisciplinary major. Students seeking a second major may count a maximum of 6 credit hours of course work toward meeting requirements in both majors.

1. Core Requirements (6 credit hours)

Core Courses:
AMER 4000, The American Studies Workshop (3 credit hours)
AMER 4960, Senior Project (3 credit hours)

2. International Requirement (3 credit hours)

One of the following:

a) A semester abroad in a Vanderbilt-approved study abroad program and an additional 3-credit-hour elective
b) AMER 3200, Global Perspectives on the U.S. (3 credit hours)
c) One of the following:

ANTHROPOLOGY: 3161, Colonial Encounters in the Americas.
ASIAN STUDIES: 2560, Current Japan-U.S. Relations.
ECONOMICS: 4520W, Seminar on Globalization.
ENGLISH: 3674, Caribbean Literature; 3898, 3898W, Special Topics in English and American Literature.
HISTORY: 1370, Colonial Latin America; 1380, Independence in Latin America; 2450, Reform, Crisis, and Independence in Latin America, 1700–1820; 2470, Revolutionary Mexico; 2480, Central America; 2510, Reform and Revolution in Latin America; 2535, Latin America and the United States; 2570, Caribbean History, 1492–1983; 2700, The U.S. and the World; 2710, The U.S. as a World Power; 3890, Selected Topics in History.
INTERDISCIPLINARY STUDIES: 3831, Global Citizenship and Service; 3832, Global Community Service; 3833, Seminar in Global Citizenship and Service.
JEWISH STUDIES: 2450, The Jewish Diaspora.
LATIN AMERICAN STUDIES: 2101, Introduction to Latin America; 2301, Music of Protest and Social Change in Latin America; 3891, Special Topics in Latin American Studies.
RELIGIOUS STUDIES: 4551, Islamic Mysticism.
SOCIOLoGY: 3231, Contemporary Latin America; 3232, Contemporary Mexican Society.
SPANISH: 3370, Spanish American Civilization; 3375, Film and Culture in Latin America; 4740, Spanish-American Literature of the Boom Era; 4741, Spanish-American Literature of the Post-Boom Era.

3. Distribution Requirements (18 credit hours)

6 credit hours from at least two different departments or programs in each of the following three areas:

b) Social Sciences: Anthropology, Economics, History, Political Science, Sociology.
c) Interdisciplinary Programs: African American and Diaspora Studies; American Studies; Cinema and Media Arts; Earth and Environmental Sciences; Jewish Studies; Latin American Studies; Medicine, Health, and Society; Women’s and Gender Studies.

Note: See below for a list of approved courses in each of these areas.

4. Electives (9 credit hours)

Three courses taken from the approved list of courses. Students should choose these courses in consultation with their adviser to form a study of concentration.

Minor in American Studies

The interdisciplinary minor in American studies consists of 18 credit hours of course work, distributed as follows:

1. Core Requirements 3 credit hours
2. International Requirement 3 credit hours
3. Distribution Requirements 9 credit hours
4. Electives 3 credit hours

Note: No course may be counted twice in calculating 18 credit hours. No more than 6 credit hours at the 1000 level can count toward the interdisciplinary minor. Students seeking a minor may count a maximum of 3 credit hours of course work toward meeting requirements in both their major and minor.

1. Core Requirements 3 credit hours

Core Course: AMER 4000, The American Studies Workshop

2. International Requirement 3 credit hours

One of the following:

a) A semester abroad in a Vanderbilt-approved study abroad program and an additional 3-credit-hour elective
b) AMER 3200, Global Perspectives on the U.S. (3 credit hours)
c) One of the following:

ANTHROPOLOGY: 3161, Colonial Encounters in the Americas.
ASIAN STUDIES: 2560, Current Japan-U.S. Relations.
ECONOMICS: 4520W, Seminar on Globalization.
ENGLISH: 3674, Caribbean Literature; 3898, 3898W, Special Topics in English and American Literature.
HISTORY: 1370, Colonial Latin America; 1380, Independence in Latin America; 2450, Reform, Crisis, and Independence in Latin America, 1700–1820; 2470, Revolutionary Mexico; 2480, Central America; 2510, Reform and Revolution in Latin America; 2535, Latin America and the United States; 2570, Caribbean History, 1492–1983; 2700, The U.S. and the World; 2710, The U.S. as a World Power; 3890, Selected Topics in History.
INTERDISCIPLINARY STUDIES: 3831, Global Citizenship and Service; 3832, Global Community Service; 3833, Seminar in Global Citizenship and Service.
JEWISH STUDIES: 2450, The Jewish Diaspora.
LATIN AMERICAN STUDIES: 2101, Introduction to Latin America; 2301, Music of Protest and Social Change in Latin America; 3891, Special Topics in Latin American Studies.
RELIGIOUS STUDIES: 4551, Islamic Mysticism.
SOCIOLoGY: 3231, Contemporary Latin America; 3232, Contemporary Mexican Society.
SPANISH: 3370, Spanish American Civilization; 3375, Film and Culture in Latin America; 4740, Spanish-American Literature of the Boom Era; 4741, Spanish-American Literature of the Post-Boom Era.

3. Distribution Requirements 9 credit hours

3 credit hours in each of the following three areas:

b) Social Sciences: Anthropology, Economics, History, Political Science, Sociology.
c) Interdisciplinary Programs: African American and Diaspora Studies; American Studies; Cinema and Media Arts; Earth and Environmental Sciences; Jewish Studies; Latin American Studies; Medicine, Health, and Society; Women’s and Gender Studies.

Note: See below for a list of approved courses in each of these areas.

4. Electives 3 credit hours

One to two courses taken from the approved list of courses. Students should choose this course in consultation with their adviser to form a study of concentration.
Honors Program

The Honors Program in American Studies offers superior students a more intensive concentration within their major field. The program requires:

1. Completion of the requirements of the major.
2. A 3.3 cumulative grade point average.
3. A 3.5 cumulative grade point average in American studies.
4. 6 credit hours in the fall and spring semesters of the senior year in AMER 4998/4999 devoted to a major research project leading to an honors thesis. 4999 counts as the Senior Project (4960), and 4998 counts as elective credit for the requirements of the major.
5. An Honors thesis to be completed by the spring of the senior year.
6. Successful completion of an oral examination focusing on the topic of the thesis.

Exceptional achievement on the thesis will earn highest honors. Applications are accepted in March of the junior year. Additional information is available from the director of the American Studies program.

General Advice for Majors and Minors

We encourage students to enter the major through a number of avenues: a first-year seminar, our introductory course to the major, AMER 1002/1002W, or an introductory course in a particular discipline or program. While we do not require a set path into the major, up to 6 credit hours of introductory courses can count toward the major.

Once having declared a major or minor, students should work closely with their adviser to develop a coherent plan of study. We encourage students to concentrate on a theme or topic of special interest, either by choosing courses with a topical coherence each semester or by choosing a single topic to focus their major around. We also highly encourage our majors to seek opportunities for study abroad or internship possibilities. Students should plan on taking the American Studies Workshop during their junior year and our capstone course, the Senior Project, during their senior year. Distributional requirements and electives should be decided in conjunction with the student’s adviser.

We also encourage our students to participate in American Studies programming that occurs outside the classroom, such as visiting speakers and our Road Trip Series.

Please consult the American Studies program website for detailed descriptions of courses. For all 111, special topic, and independent study courses, the course must be on an American topic, as approved by the director of the American Studies program. Note: 111 in all departments receives credit when an American topic is offered.

Approved List of Courses

AREA A: HUMANITIES

ART: 1099, Maymester Contemporary Art Blitz (when U.S. city/ART).

CLASSICAL STUDIES: 3000, Classical Tradition in America.

ENGLISH: 2316, 2316W, Representative American Writers; 2320, Southern Literature; 3624W, Literature of the American Civil War; 3710–3711, Literature and Intellectual History (when an American topic is offered); 3644–3645, Twentieth-Century American Novel; 3640, Modern British and American Poetry; Yeats to Auden; 3646, Poetry since World War II; 3622, Nineteenth-Century American Women Writers; 3654, 3654W, African American Literature; 3642, Film and Modernism; 3620, Nineteenth-Century American Literature; 3692, Desire in America: Literature, Cinema, and History; 3694, America on Film: Art and Ideology; 3695, America on Film: Performance and Culture; 3899, Special Topics in Film; 3674, Caribbean Literature; 3890, 3890W, Movements in Literature (when an American topic is offered); 3922, 3922W, Problems in Literature (when an American topic is offered); 3924, 3924W, Major Figures in Literature; 3658, Latino-American Literature; 3662, 3662W, Asian American Literature; 3650, 3650W, Ethnic American Literature; 3746, Workshop in English and History; 3844, Jewish American Literature; 3680–3681, Twentieth-Century Drama; 3896, Special Topics in Investigative Writing in America; 3898, 3898W, Special Topics in English and American Literature (when an American topic is offered).

HISTORY OF ART: 2720, Modern Architecture; 3735, History of Photography; 2660, American Art to 1865; 2765, Early American Modernism, 1865–1945; 2785, Art since 1945; 4960, Advanced Seminar (when an American topic is offered).

MUSIC LITERATURE AND HISTORY: 1610, Musical Theatre in America: A Cultural History; 2600, American Music; 1620, Survey of Jazz; 1600, American Popular Music; 1630, The Blues; 1640, Country Music; 1650, History of Rock Music; 2150, Music, Identity, and Diversity; 2610, Music of the South; 2320, Exploring the Film Soundtrack.

OTHER MUSIC COURSES: 1300, Music and the Fall of Segregation.

PHILOSOPHY: 2110, Contemporary Philosophy; 3008, American Philosophy; 2104, Nineteenth-Century Philosophy; 3803, Philosophy of Education; 3623, Modern Philosophies of Law.

RELIGIOUS STUDIES: 1100, Introduction to African American Religious Traditions; 1190W, Introduction to Southern Religion and Culture; 3304W, Evangelical Protestantism and the Culture Wars; 3119, Martin Luther King, Jr., and the Social Roles of Religion; 3142, Slave Thought and Culture in the American South.

SPANISH AND PORTUGUESE: 3375, Film and Culture in Latin America; 3835, Latino Immigration Experience; 4750, Afro-Hispanic Literature.

THEATRE: 1811, Marshals, Mobsters, Monsters, Magnums, and Musicals: American Movie Genres; 2204, Histories of Theatre and Drama III: The U.S. and the World; 2710, The U.S. and the World; 2721, Globalizing
Anthropology

ASSISTANT PROFESSOR OF THE PRACTICE Sophie Bjork-James
RESEARCH ASSISTANT PROFESSOR Anna Guengerich
SENIOR LECTURERS Mareika Sattler, Jeffrey Shenton, Anna Catesby Yant

ANTHROPOLOGY is the study of human diversity in all times and places. It brings together perspectives from the sciences and humanities, and from non-Western as well as Western societies, to illuminate different aspects of the human past, the human body, and contemporary social life. Global perspectives, fieldwork and experiential learning, and concerns with ethics, justice, and social well-being are hallmarks of anthropology. Vanderbilt's program has a strong research focus on Latin America and historically marginalized groups, especially indigenous people and descendants of the African diaspora.

Students majoring in anthropology take courses in several subfields, each of which looks at humanity from a different perspective. Cultural anthropology examines the relationships, beliefs, values, and political-economic practices that shape individual behavior, community life, and power in society. Archaeology studies past cultures through their material remains. Linguistics explores relations between language and culture. Biological anthropology examines topics such as human evolution, genetics, and human biology. Courses cluster around themes of cross-cultural health, biology, food, and medical systems; inequality, power, and social-political relations; material culture, human-environment relations, and spatial analysis; religion and politics; and worldviews, language, and cognition. Unless indicated otherwise in the course description, anthropology courses have no prerequisites and are open to all majors and non-majors.

Knowledge of the diversity of human histories and lifeways is vital to imagining alternative paths to a better society. Anthropology develops this knowledge through experiential learning that challenges students to go beyond the familiar, to see, understand, and create in new ways. This preparation is useful in all professional careers that involve understanding human behavior, working with people from different backgrounds, analyzing complex information, and thinking holistically.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Anthropology

The major in anthropology requires completion of at least 30 credit hours of course work, as follows:

Course descriptions begin on page 143.
1. At least three 1000-level surveys (chosen from Anthropology 1101, 1201, 1301, 1601) covering the four subfields of anthropology: cultural anthropology, biological anthropology, archaeology, and linguistic anthropology.

2. A minimum of three credit hours from each of the groups below:
   - **Group I—Comparative Anthropology and Anthropological Theory:** 2105, 2220, 2220W, 2370, 3121, 3122, 3132, 3133, 3140, 3141, 3142, 3143, 3145, 3150, 3150W, 3160, 3262, 3900, 3901, 4152, 4153, 4154, 4155
   - **Group II—Archaeology and Biological Anthropology:** 2211, 2230, 2231, 2342, 3130, 3161, 3162, 3200, 3201, 3202, 3240, 3242, 3243, 3243W, 3250, 3260, 3261, 3343, 3344, 3371, 3372, 3620, 3620W, 3866, 4345, 4373
   - **Group III—Ethnography, Ethnohistory, and Linguistics:** 2106, 2107, 2108, 2109, 2223, 2227, 2250, 2601, 2602, 2603, 2614, 3120, 3130, 3134, 3144, 3161, 3241, 3614, 3622

3. A seminar on anthropological theory (3900 or 3901). The seminar may not also be used to count toward Group I credit above.

4. At least 18 credit hours must be at the 2000 level or higher.

5. The remainder of the credit hours must be chosen from ANTH courses not already used to satisfy the requirements listed above.

6. With the approval of the student’s major adviser, a maximum of 3 credit hours for a course taken in another department or program may be counted toward the major requirement. A variety of courses are possible, including but not limited to those listed below. In each case, the course must be relevant to the student’s program and the student must receive the approval of the director of undergraduate studies.
   - African American and Diaspora Studies 2178, 3178; Biological Sciences 2205; History 1270, 2490; History of Art 2210; Latin American Studies 2301, 2601; Mathematics 1010, 1011; Medicine, Health, and Society 1930, 2130, 2240, 2250, 2420, 2430, 3010, 3020, 3110, 3140, 3150, 3210, 3212, 3220, 3250; Music Literature 1100, 1105, 2110; Religious Studies 4554; Sociology 3001, 3221, 3232, 3311, 3313, 3314; Spanish 3360.

**Honors Program**

The Honors Program in Anthropology is designed to afford superior students the opportunity to pursue more intensive work within the major field. Students who want to do honors work in anthropology should contact the director of the Honors Program in the fall of their junior year. The completion of the Honors Program requires: a) 4–5 credit hours in Anthropology 4998 (Honors Research), evaluated by honors thesis adviser, b) 4–5 credit hours in Anthropology 4999 (Honors Thesis), evaluated by honors thesis adviser, c) submission of a written thesis, evaluated by the student's honors committee, d) an oral presentation of the thesis (15–20 minutes), evaluated by the student's honors committee, e) an oral examination of the thesis, administered by the student's honors committee. The Honors Research- and Honors Thesis-hours are expected to be in excess of the 30 credit hours required for the anthropology major.

**Minor in Anthropology**

The minor in anthropology requires 18 credit hours of course work that includes any two of the introductory courses: ANTH 1101, 1301, 1201, 1601; one course listed in Group I in the major; and three additional courses from any combination of the courses listed in Group I, II, and III in the major.

Course descriptions begin on page 143.

**Arabic**

SENIOR LECTURERS M. Issam Eid, Bushra Hamad

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

Course descriptions begin on page 147.

**Art**

CHAIR Mark Hosford

DIRECTOR OF UNDERGRADUATE STUDIES Vesna Pavlovic

PROFESSORS EMERITI Michael Aurbach, Marilyn L. Murphy

PROFESSORS Maria Magdalena Campos-Pons, Mel Ziegler

ASSOCIATE PROFESSORS Mark Hosford, Vesna Pavlovic

ASSISTANT PROFESSOR Jonathan Rattner

ASSOCIATE PROFESSOR OF THE PRACTICE Jana Harper

PRINCIPAL SENIOR LECTURER Susan DeMay

SENIOR LECTURER Farrar Hood Cusumoto

LECTURERS Alex Blau, Patrick DeGuira, John Warren

Affiliated Faculty

PROFESSOR David Wood (Philosophy)

COURSES in art are offered in a variety of media, which provide wide-ranging methods and perspectives. Our courses emphasize creative and critical approaches to learning.

Many students will use the program in art as a foundation for careers in which creativity and the visual are especially valued, as the basis for advanced training in professional schools (such as art, architecture, museum studies), and for employment in galleries, museums, commercial art, or design-related fields. An important goal of the department is to help students become readers of the rich visual environment in our culture throughout their lives, as well as to encourage creative approaches to learning in all disciplines.

The Department of Art offers several opportunities for extracurricular activities in the arts. Recently a student-run art gallery opened. BLUEprint is an organization for students...
interested in entering the field of architecture. Our Space 204 arts laboratory has exhibitions and workshops all year long. Studio VU lecture series brings some of the most important artists working today to campus for lectures and one-on-one studio visits with students.

There are several campus organizations in the arts. The Sarratt Visual Arts Committee allows students to have a hand in curating and hanging exhibitions, as well as hosting art openings at the Sarratt Gallery. Visions sponsors lectures and discussions about the history of art as well as a roundtable of alumni majors, who discuss their current careers and how they arrived at them.

Since 1984 the department has supervised the awarding of the Margaret Stonewall Wooldridge Hamblet Award to an eligible senior student. The Hamblet Award provides the means for travel and independent art activity for one year, culminating in a one-person exhibition at Vanderbilt. Students wanting to participate in the spring competition must be graduating seniors who are studio art majors.

The Allan P. Deloach Memorial Prize in Photography was established in 2000 in memory of Allan Deloach (B.A. 1963) by two of his colleagues at IBM. This cash award is open to any student who has taken a studio class in any discipline at Vanderbilt. Midsouth Ceramics awards are given to the top three ceramic projects in the annual open house, and the recently established Plaza Artists Materials award is given to four students each year. All competitions are judged by outside professional artists.

**NOTE:** New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

### Program of Concentration in Art

The art major requires 36 credit hours and presents our students the opportunity to explore their ideas conceptually, as well as to learn the technical skills involved in the creation of art. The program offers a wide range of classes and media. Our students are offered a strong grounding in traditional processes such as drawing, painting, ceramics, and sculpture, as well as the opportunity to explore contemporary processes involving video, performance, digital photographic media, installation, and social interactive art practice. Our diverse faculty of artist/educators represents a wide range of teaching styles and aesthetic philosophies. We consider how ideas have been developed through the centuries as well as how specific techniques have been used to enrich the expression of the idea. In addition to modern art history offerings, art majors are encouraged to take courses in pre-Renaissance, non-Western art history, philosophy of aesthetics, and film. The Contemporary Art Maymester offers an opportunity to study contemporary art in a concentrated manner.

### Requirements for the Program of Concentration in Art

**Foundation Requirement (6 credit hours)**
- 1101 and 1102

**Studio Requirements (15 credit hours), which must include at least:**
- One 2-D course (ARTS 1600, 1601, 1503, 1200, 1201, 1202, 1300, 2100, 2101, 2102, 2600, 3600, 2200, 3200, 2202, 2300, 3101, 3102, 3300)
- One 3-D course (ARTS 1400, 1401, 1500, 1501, 1502, 2400, 2401, 2500)
- One time-based course (ARTS 1700, 1701, 1702, 2700, 2701, 2702)

Within the 15 credit hours, students must take at least one 2000-level or higher ARTS course.

**Related Requirement (9 credit hours), which must include one course (3 credit hours) of each of the following:**
- Either HART 1100 or 1105 (suggested for entry into 2000-level HART courses)
- ARTS 1800
- 2000-level HART course or one course from the following: ARTS 1099, 3891, CMA 1600, 2300, PHIL 3014

Department highly recommends taking ARTS 1800 Sources of Contemporary Art course prior to senior year.

**Directed Study (6 credit hours)**
- 3970, Directed Study: Senior Show and Contemporary Practices
- 3971, Independent Research: Senior Show

Majors are required to complete the Independent Research course, ARTS 3971, their senior year. This course is designed specifically to help prepare majors for their Senior Show, and is typically taken in the second semester of the senior year. No other independent research/study course may be counted toward the major.

### Honors Program in Art

The Honors Program in the Department of Art offers excelling art majors the opportunity to pursue their interest at a higher level. To be admitted to the Honors Program in Art, students must have:
- At least a 3.30 cumulative GPA.
- At least a 3.5 GPA in courses that count toward the major in art.
- Completed the sophomore year.

Students interested in pursuing the honors program should contact the director of undergraduate studies. Application materials must be submitted to the director of undergraduate studies in the applicant’s junior year; applications may be submitted electronically. Applications must include ten digital images of recent work with written explanations of each image. Applicants will be notified in writing of the department’s decision.

Each honors student shall have a committee consisting of one faculty member appointed by the department chair, the student’s selected honors adviser, and the director of undergraduate studies.

**Requirements for graduation with honors in art:**
1. Successful completion of the requirements for the major in art.
2. During the senior year the student is required to register for ARTS 4998 (3 credit hours) in the first semester and 4999 (3 credit hours) in the second semester in order to complete a written thesis, expanding concepts explored in the senior exhibition.

3. Successful oral defense of the thesis and senior exhibition during the final semester of undergraduate study.

4. At least a final 3.30 cumulative GPA.

5. At least a final 3.5 GPA in courses that count toward the major in art.

**Minor in Art**

The minor in art requires 18 credit hours of course work, including the following:

- HART 1105 or ARTS 1800;
- ARTS 1102 (Drawing and Composition I); and four other ARTS courses, with at least one at the 2000- or higher level.

Course descriptions begin on page 149.

---

**Asian Studies**

ACTING DIRECTOR: Ruth Rogaski

PROFESSORS: Robert Campary, Gerald Figal (Joint with History)

ASSISTANT PROFESSORS: Ben Tran, Guojun Wang

SENIOR LECTURERS: Xamin Liu, Michiru Lowe, Elliott McCarter, Keiko Nakajima

LECTURERS: Yinghui Guo, Jing Liu, Asami Nakano, Qing Wei

Affiliated Faculty

PROFESSORS: Yoshikuni Igarashi (History), Tony K. Stewart (Religious Studies)

ASSOCIATE PROFESSORS: Brett Benson (Political Science), Tracy Miller (History of Art), Ruth Rogaski (History), Samira Sheikh (History), Lijun Song (Sociology and Medicine, Health, and Society), Tariq Thachil (Political Science)

ASSISTANT PROFESSORS: Se Young Kim (Cinema and Media Arts), Peter Lorge (History), Bryan Lowe (Religious Studies), Akshya Saxena (English), Haerin Shin (English), Heeryoon Shin (History of Art), Anand V. Taneja (Religious Studies)

SENIOR LECTURER EMERITUS: James Auer (Center for U.S.–Japan Studies)

LECTURER: Piyali Bhattacharya (English)

The Asian Studies program provides students with a foundation in the languages and cultures of Asia necessary to pursue a career within the rapidly developing marketplace that is Asia or to go on to graduate study in an Asia-related subject. With the intensive study of modern Asian languages at its core, the program embraces a wide variety of courses in the art, culture, economics, history, film and media, politics, religion, and sociology of East Asia, South Asia, and Southeast Asia. Through their teaching and research, the affiliated faculty members promote a better understanding of multiple facets of life in Asia and the region’s relationship with the rest of the world, past and present.

Majors and minors are strongly encouraged to complete a study abroad program in Asia. Up to 6 credit hours of Asia-related courses from Vanderbilt-approved study abroad programs may be applied toward the major or minor upon approval of the director of the Asian Studies program or director of undergraduate studies. Students should consult with the director or DUS before applying to a study abroad program.

**Program of Concentration in Asian Studies**

The major in Asian studies requires a minimum of 36 credit hours of course work and is designed to ensure that graduates have both depth and breadth in their understanding of Asia.

For the major in Asian studies, students must formally declare an area of concentration at the time the major is declared (China, Japan, or South Asia) and complete at least 36 credit hours from the Asian Studies Course List (see below), according to these rules:

1. At least 5 credit hours in an Asian language taught in the Asian Studies program at the 3301 (Advanced I) level or above. Asian languages not offered by the Asian Studies program require the approval of the Asian Studies program director or the director of undergraduate studies.

2. At least 9 non-language credit hours of courses in area of concentration.

3. At least 6 non-language credit hours of courses eligible for Asian Perspectives.

4. Up to 18 credit hours of courses in any Asian language offered by the Asian Studies program may be applied to the total 36 credit hours.

Advanced Placement credits in language do not count toward credit hours required for the major or minors, but can figure into the assessment of initial placement within a language track.

**Honors Program in Asian Studies**

In addition to following the requirements set by the College of Arts and Science, the following must be satisfied:

1. All of the requirements for the major in Asian studies.

2. 3 credit hours of ASIA 3980 Juniors Honors Readings. If ASIA 3980 is not offered, this requirement may be substituted by an alternative course, with approval by the Asian Studies program director or the director of undergraduate studies.

3. ASIA 4998 (3 credit hours) and 4999 (3 credit hours). Honors Research must be taken while in residence at Vanderbilt. The candidate will write an honors thesis while completing the two-semester Honors Research sequence. The honors thesis is a research paper on a topic defined by the student in consultation with the faculty adviser and approved in advance by the Honors Committee (see below for definition of Honors Committee).

   Note: 3980, 4998, and 4999 may count toward the 36 credit hours required for the major.

4. A minimum 3.30 cumulative grade point average with a minimum 3.50 grade point average in courses that count toward the major in Asian studies upon completion of the Honors requirements.

5. An oral examination on the thesis typically scheduled within the two months prior to graduation.

Study abroad in a country relevant to the Honors Research project is strongly recommended.

A three-member Honors Committee of Asian Studies faculty administers the Honors Program. The committee will set
guidelines for the thesis topic proposal, publish deadlines each year, and administer the oral examination. Students submit the name of the faculty adviser and the proposed thesis topic to this committee for approval early in the second semester of the junior year. If the student is studying abroad that semester, the proposed thesis topic should be submitted in the first semester of the junior year or arrangements should be made to submit the thesis topic from abroad during the second semester of the junior year.

**Minor in Asian Studies**

The minor in the Asian Studies program provides a broad knowledge of the languages, literatures, politics, histories, film and media, arts, and religions of China and Japan. Students cannot combine the Asian studies minor with other minors within the Program in Asian Studies.

For the minor in Asian studies, students must complete at least 17 credit hours from the Asian Studies Course List (see below), according to these rules:

1. At least 5 credit hours in any Asian languages taught in the Asian Studies program at the 2201 (Intermediate I) level or above
2. At least 6 credit hours of History Survey Courses
3. At least 3 credit hours of Humanities Courses
4. At least 3 credit hours of Social Sciences Courses
5. Up to 5 credit hours of any Asian language courses taught in the Asian Studies program may be applied to the total 17 credit hours

**Minor in Chinese Language and Culture**

The minor in Chinese language and culture is anchored by a firm foundation in language study that is complemented by electives in art, history, literature, film and media, politics, and religion. Students cannot combine the Chinese language and culture minor with other minors within the Asian Studies program.

For the minor in Chinese language and culture, students must complete at least 18 total credit hours from the Chinese Language Courses (see below), according to these rules:

1. At least 3 credit hours in Chinese language at the 3301 (Advanced I) level or above
2. At least 15 credit hours of courses from China Concentration
3. Up to 13 credit hours of Chinese language courses may be applied to the total 18 credit hours

**Minor in Japanese Language and Culture**

The minor in Japanese language and culture is anchored by a firm foundation in language study that is complemented by electives in art, history, literature, film and media, politics, and religion. Students cannot combine the Japanese language and culture minor with other minors within the Asian Studies program.

For the minor in Japanese language and culture, students must complete at least 18 total credit hours from the Japanese Language Courses (see below), according to these rules:

1. At least 3 credit hours in Japanese language at the 3301 (Advanced I) level or above
2. At least 15 credit hours of courses from Japan Concentration
3. Up to 13 credit hours of Japanese language courses may be applied to the total 18 credit hours

**Minor in South Asian Language and Culture**

The minor in South Asian language and culture is anchored by a firm foundation in language study that is complemented by electives in art, history, literature, film and media, politics, and religion. Students cannot combine the South Asian language and culture minor with other minors within the Asian Studies program.

For the minor in South Asian language and culture, students must complete at least 18 total credit hours from the South Asian Courses (see below), according to these rules:

1. At least 3 credit hours in Hindi-Urdu language at the 3301 (Advanced I) level or above
2. At least 15 credit hours of courses from South Asia Concentration
3. Up to 13 credit hours of Hindi-Urdu language courses may be applied to the total 18 credit hours

**Asian Studies Course List**

All courses on this list count toward the credit-hour requirements for the major and the minors within the Asian Studies program. Their eligibility for specific requirements within the major and minors is indicated by the following codes:

- China Concentration = CC
- Japan Concentration = JC
- South Asia Concentration = SA
- Asian Perspectives = AP
- History Survey Course = HS
- Humanities Course = HU
- Social Science Course = SS

Any given course may be applied to only one category of requirement even if it may be eligible for more than one. Courses marked with an * require approval from the Asian Studies program director or director of undergraduate studies.

**NOTE:** New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

**Chinese Language Courses**

- CHIN 1011. Basic Chinese (CC)
- CHIN 1012. Basic Chinese (CC)
- CHIN 1101. Elementary Chinese I (CC)
- CHIN 1102. Elementary Chinese II (CC)
- CHIN 1231. Calligraphy (CC, HU)
- CHIN 2201. Intermediate Chinese I (CC)
- CHIN 2202. Intermediate Chinese II (CC)
- CHIN 2211. Chinese for Heritage Learners I (CC)
- CHIN 2212. Chinese for Heritage Learners II (CC)
- CHIN 3301. Advanced Chinese I (CC)
- CHIN 3302. Advanced Chinese II (CC)
- CHIN 3302W. Advanced Chinese II (CC)
- CHIN 3851. Independent Study (CC)*
- CHIN 3852. Independent Study (CC)*
- CHIN 4401. Business Chinese I (CC)
- CHIN 4402. Business Chinese II (CC)
- CHIN 4403. Readings in Modern Chinese Media (CC)
- CHIN 4404. Readings in Modern Chinese Media (CC)
- CHIN 4405. Classical Chinese Literature and Philosophy. (CC, HU)
- CHIN 4406. Readings in Modern Literary Chinese (CC, HU)
Hindi-Urdu Language Courses
HNUR 1101. Elementary Hindi-Urdu I (SA)
HNUR 1102. Elementary Hindi-Urdu II (SA)
HNUR 2201. Intermediate Hindi-Urdu I (SA)
HNUR 2202. Intermediate Hindi-Urdu II (SA)
HNUR 3301. Advanced Hindi-Urdu I (SA)
HNUR 3302. Advanced Hindi-Urdu II (SA)
HNUR 3851. Independent Study (SA)*
HNUR 3852. Independent Study (SA)*

Japanese Language Courses
JAPN 1011. Basic Japanese I (JC)
JAPN 1012. Basic Japanese II (JC)
JAPN 1101. Elementary Japanese I (JC)
JAPN 1102. Elementary Japanese II (JC)
JAPN 2201. Intermediate Japanese I (JC)
JAPN 2202. Intermediate Japanese II (JC)
JAPN 2232. Japanese through Manga (JC)
JAPN 3301. Advanced Japanese I (JC)
JAPN 3302. Advanced Japanese II (JC)
JAPN 3851. Independent Study (JC)*
JAPN 3852. Independent Study (JC)*
JAPN 3891. Special Topics in Advanced Japanese (JC)

Asian Studies
ASIA 1111. First-Year Writing Seminar*
ASIA 1201. Writing Southeast Asia (AP, HU)
ASIA 1680. Inside China (CC, SS)
ASIA 2100W. Hollywood Hanoi (HU)
ASIA 2119. China in the World (JC, HU)
ASIA 2120. Crisis Simulation in East Asia (AP, SS)
ASIA 2121. Crisis Simulation in East Asia (AP, SS)
ASIA 2130. Crisis Simulation in East Asia (AP, SS)
ASIA 2140. The Mughal World (SA, SS)
ASIA 2145. Religion and Politics in South Asia (SA, AP, SS)
ASIA 2150. India and the Indian Ocean (SA, AP, SS)
ASIA 3090 Tokyo: History and Image (JC, SS)
ASIA 3110. Christianity in China (CC, SS)
ASIA 3112. China and the World (CC, SS)
ASIA 3220W. Images of India (SA, HU)

History of Art
HART 1200. Arts of East Asia (AP, HU)
HART 1205. Arts of South and Southeast Asia (SA, AP, HU)
HART 1220. History of Asian Architecture (AP, HU)
HART 2110. Arts of China (CC, HU)
HART 2130. Arts of Japan (JC, HU)
HART 2150. East Asian Architecture and Gardens (AP, HU)
HART 2170. Religion and Politics in South and Southeast Asian Art (SA, AP, HU)
HART 2175. Modern and Contemporary Indian Architecture (AP, HU)
HART 3112. The Arts of China during the Liao-Song Period (CC, HU)
HART 3140. Healing and Art in East Asia (AP, HU)
HART 3164W. Art of Buddhist Relic and Reliquary (AP, HU)
HART 3172. Himalayan Art: Art of the Divine Abode (AP, HU)
HART 3174. The South Asian Temple (SA, AP, HU)

Human and Organizational Development – International Leadership and Policy
HODI 3260. Education in the Asia-Pacific Region: Development, Reform, and Innovation (AP, SS)

Medicine, Health, and Society
MHS 2310. Chinese Society and Medicine (CC, SS)

Political Science
PSCI 2216. The Chinese Political System (CC, SS)
PSCI 3894. Selected Topics in Comparative Politics (SA, SS)*

Religious Studies
RLST 1500. Introduction to Islam (AP, HU)
RLST 1637. Religions of Tibet and the Himalaya (AP, HU)
RLST 1700. Religions in China (CC, HU)
RLST 1710. Religions of Japan (JC, HU)
RLST 2644. Buddhist Traditions (AP, HU)
RLST 2664. Foundations of Hindu Traditions (AP, HU)
RLST 3561. Islam in South Asia (SA, HU)
RLST 3650. Classical Philosophies of India (SA, HU)
RLST 3669. Sacred Space in the Tibetan World (AP, HU)
RLST 3670W. Buddhism and the State (AP, HU)
RLST 3747. Daoist Tradition (AP, HU)
RLST 3749. Zen Buddhism (AP, HU)
RLST 3753. East Asian Buddhism (AP, HU)
RLST 3775. Chinese Religions through Stories (CC, HU)
RLST 4665. Mythologies and Epics of South Asia (SA, HU)
RLST 4666. Devotional Traditions of South Asia: Hindu, Muslim, Sikh (SA, AP, HU)
RLST 4774. Japanese Mythology (JC, HU)

Asian Studies
Course descriptions begin on page 149.

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they
previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

Biochemistry and Chemical Biology

DIRECTORS Brian O. Bachmann, Brandt F. Eichman
DIRECTOR OF UNDERGRADUATE STUDIES Michelle Sulikowski

Advisory Committee
PROFESSORS Lawrence J. Marnett (Chemistry), Douglas G. McMahon (Biological Sciences), David Cliffel (Chemistry), David W. Wright (Chemistry), John York (Biochemistry)
ASSOCIATE PROFESSOR Bruce M. Damon (Radiology and Radiological Sciences)
ASSISTANT PROFESSOR Lauren Parker Jackson (Biological Sciences)
SENIOR LECTURER Cynthia T. Brame (Biological Sciences)

THE study of chemical processes within living systems is an interdisciplinary enterprise that spans the fields of chemistry, molecular and cellular biology, biophysics, and engineering. Chemical biology and biochemistry use chemical insight, techniques, and tools to study or manipulate biological systems. They are the cornerstones of medical technology and therapeutics. To provide students with training in modern principles at a chemistry-biology interface, Vanderbilt’s interdisciplinary major in biochemistry and chemical biology incorporates expertise from multiple departments in the university. Students receive a broad background in the natural sciences (chemistry, biology, physics) and mathematics, followed by fundamental core training in principles of biochemistry and chemical biology that involves both theoretical and laboratory course work. Students then pursue an area of emphasis in either biochemistry or chemical biology through upper-level elective courses. Students participate in independent research in laboratories of biochemistry and chemical biology faculty. Additional research experience is available in the Honors Program.

Program of Concentration

The biochemistry and chemical biology major tracks share fundamental core elements but have a distinct set of foundational courses, track-specific electives, and laboratory requirements. All students are required to complete a set of basic science and mathematics courses. The major consists of 32 credit hours beyond these basic science and mathematics courses. All students complete 12 credit hours of core courses, 14 credit hours of either biochemistry or chemical biology track, and 6 credit hours of general electives. For suggested paths of completion, see the Biochemistry and Chemical Biology program website.

Required Math and Science Courses for Both Tracks

(38 credit hours)

**Biological Sciences** — BSCI 1510, 1511, 1510L, and either 1511L or 1512L
Chemistry — CHEM 2221 or 2211, CHEM 2222 or 2212, CHEM 2221L and CHEM 2222L

Mathematics — MATH 1200 or 1300 and MATH 1201 or 1301
Physics — PHYS 1501 or 1601, PHYS 1502 or 1602, PHYS 1501L or 1601L, and PHYS 1502L or 1602L

Note: These credit hours do not count toward the major. AP credit may satisfy some of these requirements.

Fundamental Core Courses for all Tracks (12 credit hours)

BSCI 2520, CHEM 3710, CHEM 3310, CHEM 4965

Tracks (14 credit hours)

**Biochemistry Track**

Biochemistry Foundations (3 credit hours) — BSCI 4265
Biochemistry Electives (9 credit hours) — BCB 2101, BCB 4320, BSCI 2201, BSCI 2210, CHEM 2100, CHEM 4720
Laboratory (2 credit hours) — BCB 3201

**Chemical Biology Track**

Chemical Biology Foundations (5 credit hours) — CHEM 2100 and 2100L, BCB 2101
Chemical Biology Electives (6 credit hours) — BCB 4320, BSCI 4265, CHEM 4720
Chemical Biology Laboratory (3 credit hours) — BCB 3201, CHEM 4966

**General Electives** (6 credit hours)

Electives may be chosen from any of the following:

BCB 2101, BCB 3101, 3201, 4320; BME 2200, 3000, 4400, 4410, 4500; BSCI 2201, 2210, 3230, 3234, 3243, 3245, 3247, 3252, 3256, 3270, 4265, 4266, 4274; CHEM 2100, 3020, 3220, 3300, 3310, 4230, 4720, 4966; CS 1101, 1103, 2204; NSC 2201, 3260, 3269, 3274, 3891, 4961

Courses taken to fulfill Track requirements are not eligible for elective credit.

**Honors Program**

Students in either Biochemistry or Chemical Biology track may apply to the Honors Program if they hold a minimum cumulative GPA of 3.3 and a GPA of at least 3.4 in courses that count toward the major at the start of their junior year. The purpose of the Honors Program is to provide students with an intensive independent research experience in a host laboratory. In addition to meeting the requirements of the BCB major, Honors candidates must complete two semesters (3 credit hours each semester) of Honors Research (BCB 4999). Upon entering the program at the start of the junior year, candidates assemble a committee of the major research adviser and two additional faculty members appropriate to the area of research. As part of the research course work, the candidate will write an honors thesis. At the end of the graduating semester, Honors candidates must submit a written thesis and give an oral defense of their research.

Course descriptions begin on page 151 for Biological Sciences, page 153 for Chemical Biology, and page 153 for Chemistry.
Biological Sciences

CHAIR Douglas G. McMahon
DIRECTOR OF UNDERGRADUATE STUDIES TBD
DIRECTOR OF GRADUATE STUDIES Katherine L. Friedman
ASSOCIATE PROFESSORS D. Kilpatrick Abbot, Seth R. Bordenstein, Katherine L. Friedman, Daniel J. Funk, Julian F. Hillyer
ASSISTANT PROFESSORS John Anthony Capra, Nicole Creanza, Lauren Parker Jackson, Jared T. Nordman, Maulik R. Patel, Lars Plate, Ann Tate
SENIOR LECTURERS Steve J. Baskauf, Amanda R. Benson, Cynthia T. Brame, A. Denise Due-Goodwin, Mark A. Woelfle

THE biological sciences encompass the study of living organisms and life processes at all levels: ecosystems, populations, individual organisms, tissues, cells, subcellular structures, and molecules. The Department of Biological Sciences offers courses that address all of these levels and programs of study for undergraduates and for graduate students seeking the Ph.D.

For undergraduates, the department offers three majors and a minor. All three majors have honors tracks. The Biological Sciences (BioSci) major is designed for the student seeking a broad base in the biological sciences, though it is a highly flexible program that allows a certain amount of specialization in upper-level courses. The Molecular and Cellular Biology (MCB) major is designed for students with an interest in developing an in-depth understanding of how living systems function at the molecular and cellular levels, with upper-level course options ranging in content from biophysics and biochemistry to developmental biology, and to molecular aspects of evolution and of toxicology. The Ecology, Evolution, and Organismal Biology (EEOB) major is designed for students with an interest in the areas of biology that span genomics, ecology, evolutionary biology, comparative genomics, organismal biology, and conservation biology. The department also offers a minor in biological sciences for students majoring in other disciplines. Interested students should consult the appropriate director of undergraduate studies.

The department offers undergraduates opportunities for engaging in faculty-led research projects for course credit. Students may receive an introduction to the workings of a scientific laboratory through an internship, or a more intensive, hands-on experience in directed or independent laboratory research. Students on the honors track of any of the three majors carry out a major honors research project and write an honors thesis. More information about the majors and minor offered by the department, the honors track of each major, and research opportunities open to undergraduates is available at our website: as.vanderbilt.edu/biosci.

General Requirements
All students in programs of concentration offered by the Department of Biological Sciences must take two semesters of general chemistry and lab (Chemistry 1601–1602 and 1601L–1602L) and two semesters of organic chemistry and lab (Chemistry 2221–2222 and 2221L–2222L). It is strongly recommended that students in all three majors take one year of calculus or calculus/statistics and one year of physics. A total of 30 hours of Biological Sciences courses, including the 8 hours of 1510–1511 and 1511L and either 1511L or 1512L, are required in all majors. All Biological Sciences courses count toward the major except 1100, 1105, and 1111. Below is a listing of the required courses for the Biological Sciences (BioSci) major, for the Molecular and Cellular Biology (MCB) major, and for the Ecology, Evolution, and Organismal Biology (EEOB) major. Students with specialized interests within either of the specialized majors may substitute one of the intermediate courses with an upper-level course with the permission of the director of undergraduate studies and the Biological Sciences Curriculum Committee. (Intermediate Biological Sciences courses: 2201, 2201L, 2205, 2210, 2210L, 2218, 2219, 2238, 2238L, 2520).

Students may declare only one of the majors offered by the Department of Biological Sciences; double or triple majors within the department are not permitted.

For honors in all three majors, additional requirements must be met: (a) normally a minimum GPA of 3.30 in courses that count toward the major; (b) at least 10 of the 30 hours of Biological Sciences course work must be directed/independent research with a minimum of 8 hours being honors research (BSCI 4999); (c) an honors thesis and oral defense. For students in the MCB major, 4265 or 4266 must be taken for 3 credit hours; an alternate advanced course may be substituted with the permission of the director of undergraduate studies. For students in the EEOB major, one of the following courses must be taken for 3 credit hours: 2238, 3353, 3354, 3417, 3420, 3425. For the BioSci major, at least two lecture courses must be from the following for 3 credit hours: 3353, 3354, 3356, 3417, 3424, 3425, 3427, 3428, 3429, 3452, 3454, 3456, 3470, 4265, 4266.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Biological Sciences (BioSci)
At least 30 credit hours satisfying the general requirements above, and including the following:

1. Introductory Courses: 1510/1511L and 1511/1511L or 1512L
2. Intermediate Courses:
   a. 2205, 2210
   b. one additional intermediate course: 2201, 2218, 2219, 2238, or 2520
3. Laboratory: Two laboratory courses (2201L, 2210L, 2218, 2219, or 2238L, or one lab course and two semesters of directed and/or independent research (BSCI 3861, 3961, 4999).
4. Seminar/Independent Studies: A minimum of 2 credit hours of 3850, 3861, 3961, 3965a–3965b, or 4999 is required. Only one seminar course (3965) may count toward the major. A total of no more than 6 credit hours of 3850, 3861, and 3961 may be counted toward the major.

For students intending to perform honors research, at least two lecture courses must be from the following: 3320, 3323, 3324, 3326, 3343, 3345, 3347, 3352, 3354, 3356, 3370, 3372, 4265, 4266.
Program of Concentration in Molecular and Cellular Biology (MCB)

At least 30 credit hours satisfying the general requirements above, and including the following:

1. Introductory Courses: 1510/1510L, 1511/1511L or 1512L

2. Intermediate Courses: 2201, 2210, 2520 and either 2201L or 2210L

3. Laboratory: One additional laboratory course (2201L, 2210L, 2218, 2219, or 2238L), or two semesters of directed and/or independent research (BSCI 3861, 3961, 4999).

4. Seminar/Independent Studies: A minimum of 2 credit hours of 3850, 3861, 3961, 3965, or 4999 is required. Only one seminar course (3965a–3965b) may count toward the major. A total of no more than 6 credit hours of 3850, 3861, and 3961 may be counted toward the major.

Of the remaining courses, at least two must be from the following: 2205, 2243, 3230, 3234, 3236, 3245, 3247, 3252, 3256, 3270, 3272, 4265, 4299.

For students intending to perform honors research in the MCB major, 4265 or 4266 must be taken; an alternate advanced lecture course may be substituted with the permission of the director of undergraduate studies.

Program of Concentration in Ecology, Evolution, and Organismal Biology (EEOB)

At least 30 credit hours satisfying the general requirements above, and including the following:

1. Introductory Courses: 1510/1510L and 1511/1511L or 1512L

2. Intermediate Courses: 2205 and 2210; and either 2218 or 2219 or 2238. If a student takes 2238 and neither 2218 nor 2219, then either 2210L or 2238L will be required as well.

3. Laboratory: One additional laboratory course (2201L, 2210L, 2218, 2219, or 2238L), or two semesters of directed and/or independent research (BSCI 3861, 3961, 4999).

4. Seminar/Independent Studies: A minimum of 2 credit hours of 3850, 3861, 3961, 3965a–3965b, or 4999 is required. Only one seminar course (3965) may count toward the major. A total of no more than 6 credit hours of 3850, 3861, and 3961 may be counted toward the major.

Of the remaining courses, at least two must be from the following: 3230, 3233, 3234, 3236, 3239, 3247, 3270, 3272, 4266; or 2218, 2219, or 2238 if not used for the intermediate course requirement.

For students intending to perform honors research in the EEOB major, one of the following courses must be taken: 3230, 3234, 3236, 3247, 3270, 3272.

Minor in Biological Sciences

A minor in biological sciences requires a minimum of 18 hours that include BSCI 1510–1511b; 1510L and either 1511L or 1512L; 2210; and one other intermediate course. No more than two credit hours of 3860, 3861, 3850, and 3961 may be counted toward the minor.

Course descriptions begin on page 151.

Chemistry

CHAIR David E. Cliffel
DIRECTOR OF UNDERGRADUATE STUDIES Adam K. List
DIRECTOR OF GRADUATE STUDIES Carmelo J. Rizzo

PROFESSORS EMERITI Robert V. Ditts, Larry C. Hall, Thomas M. Harris, David M. Hercules, Melvin D. Josteen, Joel Tellinghuisen, David L. Tukey

ADJUNCT PROFESSORS Natalie Arnett, Glenroy Dean Martin
ADJUNCT PROFESSORS Norma Dunlap, Amy-Joan Ham, Rongson Pongtane, Lida Smiertek

ASSOCIATE PROFESSORS Andrew Link, Renã Robinson
ASSISTANT PROFESSORS Lauren E. Buchanan, Janet E. Macdonald, Lars Platz, Nathan D. Schley, Steven D. Townsand
PRINCIPAL SENIOR LECTURERS Adam K. List, Michelle M. Sulikowski
SENIOR LECTURERS Alissa Hare, Shawn T. Phillips, Craig G. Tainter, Tara D. Todd, Susan Verberne-Sutton

LECTURER Borislav Ivanov

THE Department of Chemistry seeks to provide a sound education in the fundamentals of modern chemistry as well as exposure to cutting-edge research and contemporary instrumentation in the field. This is accomplished by providing students with a solid background in the disciplines of organic, analytical, inorganic, biological, and physical chemistry. The core courses in these areas, which are supported by a variety of practical experimental experiences in the laboratory, provide students with the skills needed to think critically about chemistry. After these core courses, students delve deeper into an area of their choice. Recognizing the importance of research, which integrates and makes sense of our collective body of knowledge, we encourage students to participate in undergraduate research. The chemistry major at Vanderbilt University meets the guidelines for the American Chemical Society approved program of study in chemistry.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Chemistry

The chemistry program is organized into four parts. The first part is a general chemistry course sequence (CHEM 1601–1602 and 1601L–1602L or AP credit) to serve as an entry point into the major. The second part consists of foundation courses in the five major disciplines of chemistry: analytical (2100), biochemistry (BSCI 2520), inorganic (3010), organic (2221–2222 or 2211–2212), and physical (3300 or 3310). The third part of the chemistry major consists of completing 8 credit hours of laboratory past 1601L–1602L. Four credit hours are from laboratory courses (2221L–2222L, 2100L, and 3315) associated with foundation courses. There are also 6 credit hours of a capstone laboratory (4965–4966) designed to provide advanced laboratory experience. The fourth part of the major consists of completing a minimum of 6 credit hours of in-depth chemistry courses. These in-depth courses build upon the content of foundational courses or integrate concepts from these foundational disciplines.
**Concentration in Chemistry**

*Required Non-chemistry Courses*

- One year of calculus (MATH 1300-1301 is preferred)
- PHYS: Both 1501–1502 and 1501L–1502L, or both 1601–1602 and 1601L–1602L, or 1901–1902

*Required Chemistry Courses*

- Chem 1601–1602 & 1601L–1602L or AP credit
- Chem 2221–2222 (or 2211–2212) & 2221L–2222L
- Chem 2100 & 2100L
- Chem 3300 or 3310
- Chem 3315
- BSCI 2520
- Chem 3010
- "Two in-depth chemistry courses" 6
- Chem 4965–4966 6

*Minimum Credit Hours for Chemistry Major* 34

*In-depth chemistry courses include all 2000-level chemistry and higher courses not explicitly required, except for CHEM 3600 and 3980–4980–4999. Other in-depth chemistry courses are Chemical and Biomolecular Engineering 3200 and 3250, and Earth and Environmental Sciences 4600, and any 5000-level chemistry lecture courses. (Qualified seniors interested in graduate-level courses must obtain approval from the course instructor, their adviser, and the director of graduate studies in chemistry. Further details are found in the Academic Policies for the College of Arts and Science.) A maximum of 3 credit hours of chemistry research (3860) may be counted as in-depth chemistry course hours.

*Additional math courses, such as Math 2300 and Math 2820, are highly recommended for the chemistry major.*

**Options for Concentration in Chemistry**

In-depth chemistry courses can be chosen so as to define a focus area within chemistry. Students should consult with their major adviser about focus area options, or to formulate an individualized focus area option. Further descriptions of these options and other recommended courses can be found in the chemistry major handbook on the chemistry department homepage.

*Chemical Biology Focus.* The role of chemical processes in biological systems is fundamental to chemical biology. The journal *Nature Chemical Biology* defines chemical biology as "the use of chemistry to advance a molecular understanding of biology and the harnessing of biology to advance chemistry." Chemical biology builds upon the disciplines of medicinal chemistry, biochemistry, pharmacology, genetics, bioorganic and organic chemistry. Suggested in-depth chemistry electives: 3020, 3710, 3860, 4210, 4720.

*Chemical Sciences Focus.* This option provides a broad foundation of chemistry, permitting flexibility in future career pathways and providing an excellent preparation for positions in chemical industry and for graduate programs in chemistry. Suggested in-depth chemistry electives: 3120, 3300, 3310, 3860.

*Environmental Chemistry Focus.* Environmental chemistry concerns the chemical phenomena that occur in nature. Environmental chemistry spans atmospheric, aquatic, and soil chemistry with a reliance on analytical chemistry for methods of analysis. Environmental chemistry can be applied to the understanding of issues such as ground water pollution, wastewater treatment, ozone depletion, and greenhouse gas emissions. Suggested in-depth chemistry electives: 3120, 3300, 3310, 3860, EES 4600.

*Materials Chemistry Focus.* Materials chemistry is concerned with designing and synthesizing new materials with specific useful properties and determining the relationships between physical properties and the composition and structure of these new materials. Materials chemistry encompasses all size regimes from bulk to nanoscale. Synthetic chemistry (inorganic and organic), physical chemistry, and analytical chemistry are all important components of this field. Suggested in-depth chemistry electives: 3120, 3630, 2610, 3310, 3610, 3860, 5320, 5610, 5620.

*Minor in Chemistry*

The minor in chemistry requires 18 credit hours of course work, including 4 credit hours from 1602 and 1602L or AP credit, and 14 credit hours selected from any of the courses acceptable for the major in chemistry.

*Honors in Chemistry*

Students with an overall GPA of at least 3.3 and a GPA of at least 3.4 in chemistry courses at the start of their junior year wishing to do honors will register for the honors research courses (CHEM 3980, 4980, 4999—each is 2 credit hours) beginning spring semester junior year. The CHEM 4965 and 4966 requirements are waived in lieu of the CHEM 3980, 4980, and 4999 registrations. Honors candidates must present a thesis on the research done under CHEM 3980, 4980, and 4999 and pass an oral examination. Additional information may be found in the chapter on Special Programs in the College.

*Licensure for Teaching*

Candidates for teacher licensure in chemistry at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody student teaching requirements. One semester of the CHEM 4965–4966 sequence will be considered fulfilled by completing the Peabody student teaching requirements.

**Introductory Courses**

Introductory chemistry is offered in two different sequences, each with its own laboratory. Only one set of these courses may be taken for credit.

1. Chemistry 1010, 1010L. Intended for liberal arts students who are not planning to take any additional chemistry courses. It treats chemistry in a nonmathematical fashion, with some historical and philosophical features. Not for science and engineering students.

2. Chemistry 1601–1602. Designed for engineering, science, and premedical students. This course, which must be taken simultaneously with 1601L–1602L, serves as preparation for students intending to major in chemistry, biology, physics, or earth and environmental sciences. It is a more rigorous, mathematical approach to chemistry and a prerequisite for organic and other chemistry courses. It is not intended for liberal arts students taking a science course only to fulfill AXLE requirements.

*Course descriptions begin on page 153.*
Cinema and Media Arts

DIRECTOR Jennifer Fay
ASSISTANT DIRECTOR Jonathan Waters
PROFESSORS Jay Clayton, Lutz Koepnick
ASSOCIATE PROFESSORS Jennifer Fay, Claire Sisco King, James McFarland, Andrea Mirabile
ASSISTANT PROFESSORS Se Young Kim, Jonathan Rattner, Haerin Shin
SENIOR LECTURERS Madeleine Casad, Jonathan Waters
WRITERS IN RESIDENCE Diana Grisanti, Stephen Moulds

Affiliated Faculty

PROFESSORS Joy Calico (Music), Colin Dayan (English), Gerald Figal (History), Sam B. Giris (English), Yoshikuni Igarashi (History), Daniel Levin (Psychology, Peabody), Kelly Oliver (Philosophy), Lynn T. Ramey (French), T. Sharpley-Whiting (African American and Diaspora Studies and French), Benigno Trigo (Spanish), Mark A. Wollaeger (English)

ASSOCIATE PROFESSORS Vanessa Beasley (Communication Studies), Phillip Franck (Theatre), Jay Geller (Divinity School), Jon Hallquist (Theatre), Terry Hallquist (Theatre), Stanley Link (Music), Letizia Modena (French and Italian), Emanuelle Oliveira (Portuguese), Vesna Pavlovic (Art)

ASSISTANT PROFESSORS Peter Lorge (History), Anand Taneja (Religious Studies)

SENIOR LECTURER Scott Juengel (English)

CINEMA and Media Arts offers an interdisciplinary major and minor that combine the practice of filmmaking with the study of film and media theory and history. Emphasizing cinema as both a modern aesthetic form and a hands-on cultural practice, the program trains students for careers in film and media production, communications, academic media studies, and community and social relations. While the program encourages new ways of thinking, looking, and making, it also develops the traditional learning skills of a liberal education. A core curriculum is comprised of film and media theory, history, and filmmaking. The major concludes with a senior seminar.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Cinema and Media Arts

The CMA major consists of 30 credit hours. The requirements are as follows:

CORE REQUIREMENTS
1. 1500 (Fundamentals of Film and Video Production).
2. 1600 (Introduction to Film and Media Studies).
3. 2250 (16mm Filmmaking).
4. 2260 (Digital Production Workshop).
5. 2300 (Film and Media Theory).
6. 2400 (History of World Cinema).
7. 3891 (Special Topics in Film and Video Production).
8. 3892 (Special Topics in the Study of Film).
9. Senior Seminar—4961 or 4962.
10. One elective: 2600W (Advanced Screenwriting); 3891 (Special Topics in Film and Video Production); 3892 (Special Topics in the Study of Film); 3893 (Special Topics in National Cinemas and Movements). 3891 and 3892 may be repeated for elective credit provided there is no duplication in topic.

Honors Program

The Honors Program in Cinema and Media Arts offers excelling students the opportunity to undertake a high-level independent research and/or creative project during their senior year. Projects must be rigorous and demonstrate a student’s ability to sustain an argument, an aesthetic principle, or a narrative arc in a substantial form. For admission to the Honors Program, students must have and maintain until graduation a cumulative grade point average of 3.3 and a grade point average of 3.5 in courses counting toward the major. The student must submit an application to the program director outlining the thesis topic. In addition to completing the major requirements listed above, during the senior year the student is required to register for Cinema and Media Arts 4998 (3 credit hours) and 4999 (3 credit hours) in order to complete the thesis. An oral examination on the thesis and its area is to be completed during the final semester of undergraduate study.

Minor in Cinema and Media Arts

The minor consists of 15 credit hours. The requirements are as follows:

1. 1500 (Fundamentals of Film and Video Production).
2. 1600 (Introduction to Film and Media Studies).
3. One course in intermediate filmmaking: 2250 (16mm Filmmaking); 2260 (Digital Production Workshop).
4. One course in intermediate cinema studies: 2300 (Film and Media Theory); 2400 (History of World Cinema).
5. One elective: 2600W (Advanced Screenwriting); 3891 (Special Topics in Film and Video Production); 3892 (Special Topics in the Study of Film); 3893 (Special Topics in National Cinemas and Movements).

Course descriptions begin on page 156.

Classical and Mediterranean Studies

DIRECTOR Joseph L. Rife
DIRECTOR OF UNDERGRADUATE STUDIES Daniel P. Solomon
PROFESSORS EMERITI Robert Drews, F. Carter Philips, Jack. M. Sasson, Barbara Tsakirgis, Susan Ford Wiltshire
PROFESSORS EMERITI Robert Drews, F. Carter Philips, Jack. M. Sasson, Barbara Tsakirgis, Susan Ford Wiltshire

PROFESSORS Thomas A. McGinn (History), David Wasserstein (History and Jewish Studies)
ASSOCIATE PROFESSOR Betsey Robinson (History of Art)
ASSISTANT PROFESSORS Mireille L. Lee (History of Art), David Michelson (Divinity School)
The Program in Classical and Mediterranean Studies offers students an interdisciplinary perspective on the culture and history of a region at the crossroads of human civilization since antiquity. The study of the Mediterranean world examines the influential achievements and legacy of the Greeks and Romans alongside the emergence and spread of Judaism, Christianity, and Islam to the East. It also explores the pre-modern to modern development of southern Europe, North Africa, and western Asia, which have variously responded to the ancient and medieval past. The program offers courses in the history, religion, philosophy, art, literature, society, and culture of the Mediterranean world. In teaching and research, the faculty promote the integrated study of past and present through both written and material sources—textual, artifactual, visual, spatial—and they embrace analytical techniques in the digital humanities. Students thus have the opportunity to learn several ancient and medieval languages of Europe and the Middle East and to pursue experiential learning overseas, from intensive modern language study to archaeological fieldwork to the investigation of evolving cultural and natural landscapes.

Majors in classical and Mediterranean studies are introduced to the distinctive geography and history of the region but choose their courses in one of three tracks. These tracks have shared content but offer different viewpoints and training. Majors who expect to apply for graduate school should work closely with an adviser to devise an appropriate curriculum.

Students who pursue Classical and Near Eastern Languages and Cultures investigate one or more ancient to medieval cultural tradition(s) in the Greco-Roman and Near Eastern spheres through the study of original texts and their historical setting, such as Greek tragedy, Latin oratory, Hebrew scripture, the Qur'an, or early French romance.

Students who pursue Mediterranean Archaeology explore human diversity and experience from Classical Antiquity to the Middle Ages through the study of material and visual culture. They too learn to read textual sources while acquiring the skills of archaeological and art-historical research.

Students who pursue Mediterranean Studies, the most flexible track for a broad range of interests, can choose to engage with a variety of ancient, medieval, or modern topics through focused or comparative study.

The Program in Classical and Mediterranean Studies also offers a minor in Mediterranean archaeology and a minor in Mediterranean studies. A student cannot earn more than one minor in the program.

The Honors Program requires mastery of a language and the production of a thesis representing advanced, original, and substantial research.

Students are strongly recommended to pursue study abroad in the Mediterranean or an adjacent region. The program has long supported the Intercollegiate Center for Classical Studies, the American Academy in Rome, and the American School of Classical Studies in Athens. Many different international experiences are possible through Vanderbilt-approved semester programs, Maymesters, research projects, and summer study, for example, in France, Italy, Greece, and Israel. The program encourages students to participate in local and regional conferences, where they can share the results of collaborative or independent work. Students concentrating on Greece and Rome who qualify academically are invited to join Eta Sigma Phi, the national classics honor society.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Classical and Mediterranean Studies

Students majoring in classical and Mediterranean studies must take ten courses, including one foundation course (CLAS 1010). The major is arranged into four tracks. Students must formally declare track 1–3 at the time the major is declared (track 1 is advised for students who wish to pursue the Honors track). If a student is interested in pursuing honors, they may declare track 4 once admitted to the Honors Program. A score of 4 or 5 on the AP Latin exam earns 3 hours of credit for Latin 2202, which may be applied toward any of the major tracks. Any course for which a student has earned credit will count for one and only one of the requirements or subrequirements for any of the major tracks or minors.

Track 1: Classical and Near Eastern Languages and Cultures

30–34 total credit hours including:

1. One foundation course: CLAS 1010 (3 credit hours);
2. Language/Literature: Five courses from Course List A (15 credit hours, or 19 credit hours if including ARA 1101–1102);
3. Culture: Four courses from Course Lists B–D numbered 2060 or above (12 credit hours).

Latin courses at the 1000 level do not count toward this major track. Students who fulfill their language/literature requirement (#2 above) by completing courses in one language must, in consultation with the director of undergraduate studies, earn credit for at least one course in a different cultural tradition (e.g., Greek, Roman, Jewish, Christian, Islamic) or period (e.g., ancient, medieval).

Track 2: Mediterranean Archaeology

30–34 total credit hours including:

1. Two foundation courses: CLAS 1010 and 1020 (6 credit hours);
2. Language/Literature: Two courses from Course List A (6 credit hours, or 10 if including ARA 1101–1102);
3. Method and Theory: One course from Course List E (3 credit hours);
4. Three courses in the history and in the art, architecture, and archaeology of the ancient to medieval Mediterranean world, including one from Course List B, one from Course List C, and one from Course List B or C (9 credit hours);
5. Electives: Two courses from Course Lists A–E or from the following (6 credit hours):

ANTHROPOLOGY: 1101, Introduction to Anthropology; 1201, Introduction to Archaeology; 1301, Introduction to Biological Anthropology; 1601, Introduction to Language and Culture; 2211, Archaeology; 2220, Human Landscapes; 2227, Food in the Ancient World; 2370, Death and the Body; 3160, Anthropologies and Archaeologies of Community; 3161, Colonial Encounter in the Americas; 3200, Ancient Cities; 3202, The Collapse of Civilizations.

With the permission of the director of undergraduate studies, students may fulfill the method and theory requirement (#3 above) by completing a program of practical archaeology

Students in this track may participate in the long-supported Vanderbilt program of practical archaeology in Athens. Many students choose to participate in local research projects and volunteer for the work of the American School of Classical Studies in Athens.
Minor in Mediterranean Archaeology

Students are required to complete CLAS 1010, 1020, and 12 additional credit hours in courses that count toward Track 2 of the concentration, of which at least 9 credit hours must be from courses numbered 2060 or above.

**Track 3: Mediterranean Studies**

30 total credit hours including:

1. One foundation course: CLAS 1010 (3 credit hours)
2. Historical basis: Four courses from Course Lists A–D (12 credit hours)
3. Comparative perspectives: Five courses from Course Lists A–F (15 credit hours).

Students may apply up to three semesters of one Mediterranean language toward the historical basis requirement of this major track, including either an ancient to medieval language in Course List A or Catalan, French, Italian, Portuguese, or Spanish. French, Italian, Latin, and Spanish courses at the 1000 level do not count toward the major. No more than 12 credit hours of courses numbered below 2050 may count toward this major track.

**Track 4: Honors Program**

The Honors Program in Classical and Mediterranean Studies offers students a more intensive concentration in their main field, based on their mastery of languages required for primary research.

Admission requirements are:

1. Completion of junior year
2. Completion of at least 6 credit hours of work in advanced language courses (numbered GRK 3010, LAT 3010, CHEB 2300 and above) or 3 credit hours of ARA 3301;
3. A cumulative GPA of 3.3, and a GPA of 3.5 in courses that count toward the major.

Candidates should signal their interest to the director of undergraduate studies by the beginning of the second semester of the junior year. Candidates must submit a thesis proposal for approval by the faculty before they may be admitted to the Honors Program. In addition to maintaining the stated GPA throughout the senior year, Honors students must satisfy the following requirements in order to graduate with honors:

1. Complete an additional 6 credit hours in advanced Greek or Latin (numbered GRK 3100, LAT 3100, or higher) or an additional 6 credit hours in one or more advanced Semitic languages (CHEB 2300, or higher, ARA 3301; CLAS 3300 and 3301 may count toward this requirement).
2. Complete CLAS 4998 and 4999 for 6 credit hours in addition to the 30–34 credit hours required by the major, culminating in a written thesis that is defended orally. A committee of three faculty members (two of whom must hold sole or joint appointments in the Program in Classical and Mediterranean Studies) will evaluate the thesis.

**Minor in Mediterranean Archaeology**

Students are required to complete CLAS 1010 and 15 additional credit hours in courses that count toward Track 3 of the concentration, of which at least 9 credit hours must be from courses numbered 2060 or above.

**Approved List of Courses**

**A. Ancient to Medieval Mediterranean Languages and Literatures**

**GREEK:** 1101, Beginning Greek I; 1102, Beginning Greek II; 2201, Intermediate Greek I: Classical and Koiné Greek; 2202, Intermediate Greek II: Homer's Iliad; 3010, The Greek Orators (3 credit hours); 3020, The Greek Historians; 3040, Readings in Plato and Aristotle; 3100, The Greek Tragedians; 3110, Greek Lyric Poetry; 3200, Early Christian Writers; 3850, Independent Study; 3890, Special Topics in Greek Literature.

**LATIN:** 1101, Beginning Latin I; 1102, Beginning Latin II; 1113, Intensive Elementary Latin; 2201, Intermediate Latin I; 2202, Intermediate Latin II; 3010, The Writings of Caesar; 3020, Cicero and the Humanistic Tradition; 3030, Latin Letters; 3040, The Roman Historians; 3050, Suetonius; 3060, Tacitus; 3100, Roman Comedy; 3110, Catullus; 3120, Lucretius: De Rerum Natura; 3130, Vergil: The Aeneid; 3140, The Lyric Poetry of Horace; 3150, Latin Elegy; 3160, Ovid; 3170, Roman Satire; 3180, Neronian Writers; 3200, Early Christian Writers; 3850, Independent Study; 3890, Special Topics in Latin Literature.

**ARABIC:** ARA 1101, Elementary Arabic I; 1102, Elementary Arabic II; 2201, Intermediate Arabic I; 3301, Arabic of the Qur'an and Other Classical Texts; RLST 4593, Advanced Readings in Islamic Tradition.

**HEBREW:** 1101, Beginning Classical Hebrew I; 1102, Beginning Classical Hebrew II; 2200, Intermediate Classical Hebrew; 3010, Historical Hebrew Grammar; 3020, Classical Hebrew Poetry; 3030, West Semitic Inscriptions.

**UGARITIC:** CHEB 2300, Ugaritic.

**ARAMAIC AND CLASSICAL SYRIAC:** ARAM 2400, Introduction to Classical Syriac; 2500, Egyptian Aramaic; CHEB 3030, West Semitic Inscriptions.

**AKKADIAN:** CLAS 3300, Elementary Akkadian I; 3301, Elementary Akkadian II.

**OLD FRENCH:** FREN 3224, Medieval French Literature.

**B. Ancient to Medieval Mediterranean History**

**CLASSICAL AND MEDITERRANEAN STUDIES:** 2100, History of the Ancient Near East: 2110, History of Greece to Alexander the Great; 2120, Greece and the Near East from Alexander to Constantine; 2150, History of the Roman Republic; 2160, History of the Roman Empire; 2180, The Mediterranean World from Late Antiquity to the Middle Ages.

**HISTORY:** 1190, A History of Islam; 1350, Western Civilization to 1700; 1600, European Economic History 1000–1700; 2220, Medieval and Renaissance Italy, 1000–1700; 2230, Medieval Europe, 1000–1350.

**C. Ancient to Medieval Mediterranean Art, Architecture, and Archaeology**

**CLASSICAL AND MEDITERRANEAN STUDIES:** 2200, Archaic and Classical Greek Art and Architecture, 1000 to 400 B.C.E.; 2210, Late Classical Greek and Hellenistic Art and Architecture; 2250, Roman Art and Architecture; 3200, The Greek City; 3210, The Archaeology of Greek Sanctuaries; 3230, Alexander the Great.

**HISTORY OF ART:** 2180, Islamic Art and Architecture; 2210, Art and Architecture of Ancient Egypt; 2220, Greek Art and Architecture; 2260, The Art of Pagans, Christians, and Jews; 2270, Early Christian and Byzantine Art; 2275, The Cross and the Crescent: Byzantine-Islamic Confluences in Art; 3224, Greek Sculpture; 3226, Greek Vases and Society; 3228, Gender and Sexuality in Greek Art; 3240, Ancient Landscapes.
D. Ancient to Medieval Mediterranean Studies
CLASSICAL AND MEDITERRANEAN STUDIES: 1120, Greek Civilization; 1130, The Greek Myths; 1150, Roman Civilization; 3000, Classical Traditions in America; 3030, Death, Disease, and Health in the Ancient World; 3100, Women, Sexuality, and Family in Ancient Greece and Rome; 3110, Warfare in the Ancient Mediterranean; 3120, Humor, Ancient to Modern; 3150, Roman Law; 3160, Roman Law and Society; 3190, Augustan Rome; 3510, Culture of the Ancient Near East; 3515, Literature of the Ancient Near East; 3350, History of Ancient and Medieval Christianity; 3360, Early Christian Poetry; 3370, History of Syria: Christianity; 3380, Desert Spirituality in Early Christianity; 3600, Seminar in Digital Humanities; 3710, Maymester in Greece; 3720, Maymester in Rome.

ENGLISH: 2318, World Literature, Classical.

HISTORY: 2150, Muhammad and Early Islam; 2160, Medicine in Islam; 2170, Islam and the Crusades; 2180, Islamic Narratives, Narratives of Islam; 2190, The Late Empire of Islam; 3210, Muslims, Christians, and Jews in Medieval Spain.

HISTORY OF ART: 1100, History of Western Art I; 1101, History of Western Architecture I; 2285, Medieval Art; 2290, Gothic Paris; 2310, Italian Art to 1500; 2325, Great Masters of the Italian Renaissance; 3250, Cities of the Roman East; 3320, Early Renaissance Florence; 3322, Raphael and the Renaissance; 3334, Michelangelo’s Life and Works; 3790, Maymester in Provence.

JEWISH STUDIES: 1200, Classical Judaism: Jews in Antiquity; 1220, Jews in the Medieval World; 2150, Issues in Rabbinic Literature; 3982, Topics in Ancient and Medieval Jewish History.

PHILOSOPHY: 2100, Ancient Philosophy; 2101, Hellenistic and Late Ancient Philosophy; 2102, Medieval Philosophy; 3005, Jewish Philosophy; 3006, Islamic Philosophy.

RELIGIOUS STUDIES: 1500, Introduction to Islam; 4551, Mysticism in Islam.

E. Archaeological and Art-Historical Method and Theory
ANTHROPOLOGY: 2603, Comparative Writing Systems; 3261, Geographic Information Systems and Remote Sensing; 3262, Ceramic Analysis in Archaeology; 3262, Ethics in Anthropology, Archaeology, and Development; 3344, Genetic Anthropology Lab Techniques; 3372, Human Osteology; 3866, Archaeological Excavation; 3901, Problems in Anthropological Theory; 4344, Human Evolutionary Genetics.

Communication of Science and Technology

DIRECTOR David A. Weintraub

Affiliated Faculty

PROFESSORS Michael Bess (History), Jay Clayton (English), David J. Ernst (Physics and Astronomy), Richard F. Haglund Jr. (Physics and Astronomy), Lutz Koepnick (German Studies and Cinema and Media Arts), Jonathan M. Metzl (Medicine, Health, and Society), Jeffrey D. Schall (Psychology), Robert J. Scherrer (Physics and Astronomy), Arleen Tuchman (History), David A. Weintraub (Physics and Astronomy)

ASSOCIATE PROFESSORS Jennifer M. Fay (Cinema and Media Arts and English), Jonathan M. Gilligan (Earth and Environmental Sciences), Suzana Herculano-Houzel (Psychology), Sarah Igo (History), Ruth Rogaski (History and Asian Studies)

ASSISTANT PROFESSORS Ole Molvig (History), Laura Stark (Medicine, Health, and Society)

ASSOCIATE PROFESSOR OF THE PRACTICE OF ENGINEERING Christopher Rowe (General Engineering)

SENIOR LECTURERS Daniel Morgan (Earth and Environmental Sciences), Stephen Ornes (Communication of Science and Technology)

THE study of the communication of science and technology is an interdisciplinary enterprise that draws upon the scientific, engineering, and communication, both oral and written, resources of Vanderbilt University. The program is designed for students who have an interest in science and technology and also are interested in how science and technology are communicated to the larger world outside science, engineering, and medicine.

Interested students should contact the director of the program, David A. Weintraub, Department of Physics and Astronomy.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Communication of Science and Technology

Students majoring in the communication of science and technology will be expected to complete a core of courses that are essential to understanding communication, as well as a coherent program of courses that provide scientific and engineering background. The major consists of either 38 or 39 credit hours.

Students are strongly encouraged to develop expertise in a single scientific discipline, either through their course work within the major or in combination with a minor or second major in a scientific discipline. Note that a student may count as many as 6 credit hours as part of both this interdisciplinary major and a second major. Note also that a minor must count at least 15 credit hours that are not also included in the major. A student may only include a maximum of 15 credit hours of 1000-level course work.

1) Written and Oral Communications courses (9 credit hours from 3 courses)

Three courses, with a minimum 3 credit hours per course, as follows:
a. CSET 2100 (Science Communication Tools and Techniques) or CSET 3890 (Special Topics). If neither course is offered for two consecutive years, majors may, with approval of the program director, substitute a course from category 1c.

b. One advanced public-speaking course: CMST 2100 (Argumentation and Debate), CMST 2110 (Persuasion), or CMST 2120 (Organizational and Managerial Communication)

c. One advanced (2000-level or higher) “W” course from any of the following:
   i. any 2000-level or higher “W” course from any Natural Science program (as used here, “Natural Science” includes all courses identified as “MNS courses in AXLE except MATH and PHIL courses)
   ii. any 2000-level or higher “W” course from any Engineering program
   iii. any 2000-level or higher “W” course from MHS
   iv. ENGL 3210 (Intermediate Nonfiction Writing), 3220 (Advanced Nonfiction Writing), ENGL 3728/3728W (Science Fiction), or ENGL 3720/3720W (Literature, Science, and Technology)

2) Natural Science and Engineering courses (15 credit hours from five courses)

Five courses (minimum 3 credit hours per course), at least three of which must be 2000-level or higher Natural Science courses. (As used here, “Natural Science” includes all courses identified as MNS courses in AXLE except MATH and PHIL courses.) The other two courses may be 2000-level or higher Natural Science courses or courses taken at any level from the School of Engineering. Students will count 15 credit hours of Natural Science and/or Engineering courses toward this part of 38- or 39-credit-hour requirement, even if they choose to take five 4-credit-hour courses. Engineering “research,” “project,” “design,” “seminar,” “independent study,” and introductory programming courses (e.g., BME 3860, 3861, 4950, 4951, 4959; ChBE 4950W, 4951W, 3860, 3861, 4959; CE 3841, 3842, 3843, 4950, 4951, 4900; CS 1101, 1103, 3860, 3861, EECE 3850, 3851, 4950, 4951, 4959; ENGM 3850, 3851, 4951, 4959; ChBE 4950W, 4951W, 3860, 3861, 4959; CE 3841, 3842, 3843, 4950, 4951, 4900; CS 1101, 1103, 3860, 3861, EECE 3850, 3851, 4950, 4951, 4959; ChBE 4950W, 4951W, 3860, 3861, 4959; CS 1115, 3840, 4950, 4951, 4959; MSE 3850, 3851, ME 3841, 3842, 3860, 4951, 4959; SC 3841, 3842, 3843, 3851, 3852, 3853) do not count toward this requirement. Students may count the three 1-credit-hour courses ES 1401, 1402, and 1403 as equivalent to a single 3-credit-hour course if they earn credit for all three courses. The course UNIV 3279 (Virtual Reality) counts as an Engineering course for purposes of the CSET major.

3) Statistics (3 credit hours) selected from:

   BSCI 3270 (Statistical Methods in Biology)
   ECON 1500 (Economic Statistics), 1510 (Intensive Economic Statistics)
   MATH 1011 (Probability and Statistical Inference), 2810 (Probability and Statistics for Engineering), 2820 (Introduction to Probability and Mathematical Statistics)
   PSY 2100 (Quantitative Methods)
   PSY-PC 2110 (Introduction to Statistical Analysis)
   PSY-PC 2120 (Statistical Analysis)
   BME 3200 (Analysis of Biomedical Data)
   SOC 2100 (Statistics for Social Scientists)

4) One course bridging science, engineering, or medicine and health with non-science content and issues, including public policy courses and environmental courses (3 credit hours):

   ANTH 2109 (Food Politics in America), 3143 (Medical Anthropology), 3343 (Biology and Culture of Race), 3141 (Anthropology of Healing), 3142 (Medicine, Culture, and the Body), 3372 (Human Osteology), 4373 (Health and Disease in Ancient Populations)
   ASIA 2650 (Chinese Medicine)
   ASTR 2130 (Theories of the Universe)
   ECON 2350 (Health Care Policy)
   EES 2150 (Science, Risk, and Policy)
   ENGL 3730 (Literature and the Environment)
   HIST 1480 (The Darwinian Revolution), 1500 (History of Modern Sciences and Society), 1510 (The Scientific Revolution), 2780 (Superhuman Civilization), 2800 (Modern Medicine), 2810 (Women, Health, and Sexuality), 3040 (Health and the African American Experience), 3045W (US Eugenics 1865-present), 3050 (Innovation), 3070W (Science, Technology, and Modernity)
   MHS — any course except 1111, with the exception of special topics internship, research, seminar, independent study and honors classes
   PHIL 3616 (Philosophy and the Natural Sciences)
   PSCI 3253 (Ethics and Public Policy), 2255 (Public Policy Problems), 2256 (Politics of Public Policy)
   PSY 3705 (Human Sexuality)
   RLST 3921 (Ethics and Ecology), 3941 (Religion, Science, and Evolution)
   SOC 3311 (Climate Change and Society), 3312 (Environment and Development), 3314 (Environmental Inequality and Justice), 3301 (Society and Medicine), 3315 (Human Ecology and Society)
   UNIV 3278 (Tackling Big Questions with Mobile Cloud Computing)
   WGS 2240 (Introduction to Women’s Health), 2268 (Gender, Race, Justice, and the Environment), 2270 (Ecofeminism: Theory, Politics, and Action)

5) Electives (8 or 9 credit hours) chosen from:

   a. CMA 1500 (Fundamentals of Film and Video Production), 1600 (Introduction to Film and Media Studies), 2100 (Intermediate Filmmaking: Alternate Forms), 2200 (Intermediate Filmmaking: The Fiction Film), 2500W (Screenwriting), 2600W (Advanced Screenwriting), (no more than 2 courses)
   b. category 1 (no more than 2 courses)
   c. category 2 (no more than 2 courses)
   d. category 3 (no more than 2 courses)
   e. A combination of at least one hour of CSET 3840 (Directed Study) and at least one hour of CSET 3841 (Project in Science Writing and Communicating) may be counted together as a single elective course. No more than 3 credit hours of CSET 3840 and 3841 may count toward the major.

Internships

Students are encouraged to pursue off-campus summer internships in such places as national parks, NASA, the National Institutes of Health, or public television stations. If an internship requires course credit, credit can be earned through Interdisciplinary Studies (INDS) 3881 and 3884 (1 credit hour each); they must be taken as P/F hours, and do not count toward the major.

Honors Program

CSET Honors is a selective program of individual undergraduate work, supervised by faculty advisers. Honors candidates
propose, research, and write a thesis that demonstrates the ability to communicate science, in depth, to a non-scientific audience.

Requirements for Admission
To be admitted to the Honors Program in CSET, a student must
1) be a CSET major;
2) have completed at least 30 of the required hours for the CSET major;
3) have completed one semester of CSET 3840 (1–3 credit hours) and one semester of CSET 3841 (1–3 credit hours). With permission of the program director, students may substitute research experience taken for credit within a scientific or engineering program for CSET 3840;
4) have a GPA of at least 3.30 in all work previously taken for credit;
5) have a GPA of at least 3.40 in all courses taken that count toward completion of the CSET major.

Requirements for Completion (minimum 39 credit hours)
To earn Honors or Highest Honors in CSET, a student must
1) complete the CSET major (minimum 38 credit hours);
2) complete at least one semester of CSET 4998 (1–3 credit hours);
3) present an oral defense of the written CSET 4998 thesis before a faculty examination committee;
4) have a GPA of at least 3.30 in all work taken for credit and 3.40 in all courses that count toward the CSET major.

Course of Study
Interested students may apply in the spring of their junior year or the fall of the senior year. Applicants must have completed CSET 3840 (or the equivalent) and must have completed or be enrolled in CSET 3841. The application includes a one- to two-page proposal of the planned thesis and the signature of the faculty member who will be the thesis adviser.

Students in the Honors Program sign up for CSET 4998 (Honors Thesis). Students may enroll in CSET 4998 for one or two semesters, for up to 3 credit hours per semester.

The final thesis must be submitted no later than two weeks before the end of classes in the semester of graduation.

The oral defense of the thesis will take place one to two weeks after the final thesis is submitted. The examination committee is composed of the thesis supervisor and two additional faculty members, at least one of whom must be a faculty member affiliated with the CSET program. The oral defense is public and should take approximately one hour, including time for questions from members of the committee. The faculty examination committee will determine by majority vote whether the student has earned Honors and whether said student should receive Honors or Highest Honors. Highest Honors is reserved for students with GPAs in the CSET major and overall above 3.50, whose theses are of near-publication quality, and whose oral defenses are at the highest level.

Minor in Communication of Science and Technology
The minor in the Communication of Science and Technology consists of seven courses, totaling a minimum of 21 credit hours, distributed as follows:

1) Written and Oral Communications courses (3 courses):
   a. CSET 2100 or CSET 3890. If neither course is offered for two consecutive years, minors may, with approval of the program director, substitute a course from category “1c.”
   b. One advanced public-speaking course: CMST 2110 or 2120
   c. One advanced (2000-level or higher) “W” course as defined in the rules for the CSET major

2) Natural Science and Engineering courses (4 courses):
   a. One course bridging science, engineering, or medicine and health with non-science content and issues, including public policy courses and environmental courses (selected from list of courses for majors)
   b. Three courses (minimum 3 credit hours per course) from engineering and/or the natural sciences, at least two of which must be 2000-level or higher Natural Science course or a course taken at any level from the School of Engineering. Students may count 9 credit hours of Natural Science and/or Engineering courses toward this part of 21-credit-hour requirement, even if they choose to take three 4-credit-hour courses. Students may count the 1-credit-hour courses ES 1401, 1402, and 1403 as equivalent to a single 3-credit-hour course if they earn credit for all three courses.

Course descriptions begin on page 159.

Communication Studies
CHAIR Claire Sisco King
DIRECTOR OF UNDERGRADUATE STUDIES Paul H. Stob
PROFESSOR EMERITUS Kassian A. Kovalcheck
PROFESSORS Bonnie J. Dow, John M. Sloop
ASSOCIATE PROFESSORS Vanessa B. Beasley, Jeffrey A. Bennett, Claire Sisco King, Paul H. Stob, Isaac West
SENIOR LECTURERS Neil Butt (Director of Debate), John P. Koch (Associate Director of Debate), M. L. Sandoz (Director of Forensics), Courtney C. Travers, Dustin A. Wood
LECTURER John P. Koch (Assistant Director of Debate)

THE Department of Communication Studies offers a major and a minor that include courses in the following areas: historical and theoretical foundations of communication study, argumentation and oral advocacy, the historical and critical study of public discourse and deliberation, and the analysis of mass media and culture.

The Vanderbilt University Varsity Debate Team competes at national and regional levels. A full program of intercollegiate debate is available for students who choose to participate in forensics.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in Communication Studies
Communication studies explores purposive human communication. The Department of Communication Studies is particularly devoted to an understanding of public discourse in the broadest sense, with an emphasis on the role of persuasion in civil society. To that end the subjects of study range from political discourse to commercial advertisement, from the history of rhetoric to the impact of mass media, from criticism of American public oratory to issues of freedom of speech. The department offers courses involving practice, criticism, and theoretical analysis. Education in these areas has traditionally produced citizen advocates who enter public life in business, law, journalism, and communication.

A major in communication studies requires 30 credit hours of course work. The requirements and options for the major are as follows:

1. Two courses (6 credit hours) in Foundations: 1002 and 1500.
2. One course (3 credit hours) in Argumentation and Advocacy: 2100, 2110, 2120.
3. Three courses (9 credit hours) in Public Discourse and Deliberation: 3000, 3001, 3002, 3110, 3120, 3140, 3600, 3700; one of which must be 3000, 3001, or 3002.
4. Three courses (9 credit hours) in Culture, Theory, and Critique: 2800, 2950, 3100, 3620, 3620W, 3710, 3720, 3740.
5. One elective course (3 credit hours), selected from the courses listed in requirements 2 through 4, which has not been counted toward those requirements.

1111, 3840, 3850, 3890, 4960, and 4961 may be counted toward the major in the category corresponding to the topic of the course, with the permission of the director of undergraduate studies.

Minor in Communication Studies
A minor in communication studies requires completion of 18 credit hours from the following requirements and options:

1. Two courses (6 credit hours) in Foundations: 1002 and 1500.
2. One course (3 credit hours) in Argumentation and Advocacy: 2100, 2110, 2120.
3. Three courses (9 credit hours) from requirements 3 and 4 in the major; one of which must be 3000, 3001, or 3002.

1111, 3840, 3850, 3890, 4960, and 4961 may not be counted toward the minor.

Course descriptions begin on page 159.

Earth and Environmental Sciences

CHAIR Steven L. Goodbred
DIRECTOR OF UNDERGRADUATE STUDIES Lily L. Claiborne
DIRECTOR OF GRADUATE STUDIES Guilherme Gualda
PROFESSORS EMERITI: Leonard P. Alberstadt, Molly Fritz Miller,
Arthur L. Reesman, William G. Siesser, Richard G. Stearns
PROFESSORS: John C. Ayers, Ralf Bennartz, James H. Clarke, David J.
Furbish, Steven L. Goodbred, George M. Hornberger, Calvin F. Miller
ASSOCIATE PROFESSORS: Jonathan M. Gilligan, Guilherme Gualda
ASSISTANT PROFESSORS: Simon A. F. Darroch, Larisa R. G. DeSantis,
Maria Luisa Jorge, Neil P. Kelley, Jessica L. Oster
RESEARCH ASSISTANT PROFESSORS: Neil P. Kelley, Garrett W. Tate,
Christopher P. Vanags
SENIOR LECTURERS: Lily L. Claiborne, Daniel J. Morgan

THE Earth and environmental sciences are aimed at understanding Earth’s governing processes—how they operate and interact—as well as interpreting Earth’s dynamic history—its age and origin as recorded in rocks and the landscape—and finally, at understanding how geological processes affect modern environmental and ecological systems, including humans. Among the natural sciences, ours is the quintessential interdisciplinary science, providing vital perspective on how Earth’s physical and geochemical template simultaneously sustains and threatens life, and influences human interactions with Earth.

The Department of Earth and Environmental Sciences (EES) offers an undergraduate major leading to the B.A. degree. Students majoring in EES take a core set of lab science courses with field components, then propose a course plan that creates an area of concentration in solid Earth, Earth surface, or environmental science while maintaining breadth across the discipline. The comparatively small size of the faculty and student body allows many opportunities for faculty-student interaction. Students use the major as preparation for graduate study, for careers in environmental science, geology, and natural resource and energy exploration, and for related fields such as land use planning, teaching, conservation, business, law, or engineering.

Research programs in the department, which in many cases involve students, employ field, analytical, and experimental methods. A wide variety of Earth processes are investigated, ranging from the migration of fluids and generation of magmas in the Earth’s crust, to the movement of mass and energy across land, ocean, and atmosphere, to the evolution of life and ecosystems, to the impacts of humans on the environment. Study areas, in addition to Tennessee, include the southwestern United States, the Pacific northwest, the southern Appalachians, Florida, Antarctica, South Asia, Brazil, Peru, Namibia, the Bahamas, Australia, and New Zealand.

For students with primary interests in environmental issues, there are three options. A student may major in EES with an environmental focus or may construct an individualized interdisciplinary major outside of the department. Alternatively, a student may major in another conventional discipline and augment that with an Earth and environmental sciences minor.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in Earth and Environmental Sciences

The EES major is designed to provide a solid grounding in the Earth and environmental sciences while allowing flexibility in the particular focus. The major is organized into five parts, beginning with one of two introductory courses that serve as entry points. The second part involves three core courses with labs that provide all majors with a common background. At least one core course must be completed before students may enroll in the more advanced focus courses of part three. Also, prior to taking any focus courses, students must submit a one-page course plan for parts three and four that explains their choice of advanced courses based on expressed goals and interests. The course plan should be designed in consultation with a faculty adviser and must be approved by the director of undergraduate studies. In most cases, students will also declare the major at this time. The third part of the major defines a focus in the general areas of solid Earth, Earth surface, or environmental science. A brief description of each focus and a list of most relevant courses are given below. The fourth part follows the focus and allows three qualified electives to pursue depth in the focus or broaden to include another area of concentration. The fifth component of the major is a 1 credit hour seminar that serves as a capstone for senior students. In addition to the major, qualified students may elect to participate in the Honors Program designed for highly motivated students who want to pursue research as undergraduates. Opportunities for research may be available to other students outside of the Honors Program.

At least 37 credit hours toward the major are required as follows:

1. Introductory Course (3±1 credit hours each): 1510/1510L or 1030/1030L

2. Core Courses with Lab (3 or 4 credit hours each): 2510, 2550, and 2580 (2550 was formerly 3250)
   Note: Math 1100, 1201, or 1301 are prerequisite or corequisite for 2550 and 2580. Math 1100 provides the basic calculus skills required for the EES major but does not qualify students for any more advanced math courses at Vanderbilt. Math 1301 is recommended for students interested in taking additional math courses or calculus-based physics that may be suggested by some graduate programs.

3. Focus Courses with Lab (4 credit hours each):
   Three of the following per the approved course plan: 3220, 3260, 3280, 3310, 3330, or 3340

4. Three electives, at least two at 4000 level (3 or 4 credit hours each):
   An additional 3000-level course, or 4420, 4550, 4600, 4650, 4680, 4750, 4760, 4820, 4830, or 4891
   Note: Does not include Directed and Independent Studies: 3841, 3842, 3851, or 3852

5. Senior Seminar: 4961

   Total hours: 37–38

Additional supporting science and math courses are highly recommended for the major. Courses in chemistry, physics, math and possibly biological sciences are recommended and may be required for admittance into graduate school or for employment. Recommended selections include:

Chemistry (1601/1601L and 1602/1602L)
Physics (1601/1601L and 1602/1602L)
Calculus (Math 1200/1201, 1300/1301, or higher)
Biological Sciences (1100/1100L, 1103, 1510/1510L, 1511/1511L, 2218, 2219, or 2238/2238L)

Options for Area of Focus

In-depth Earth and Environmental Sciences courses can be chosen to define a focus area within EES. Students should consult with their major adviser about choosing a focus area and associated course options. Students may also formulate an individualized focus area that may incorporate components of several areas to maintain breadth. All parts of the Earth are interconnected, and students are encouraged to maintain some breadth in their plan to create a comprehensive understanding of the cycling of energy and materials through Earth’s spheres. Further descriptions of these focus options and recommended courses can be found in the EES major handbook on the EES department homepage.

Solid Earth Focus

This focus area most closely reflects a traditional geology degree, focusing on the processes and history of the Earth as recorded in its rocks, how those rocks are formed and how they change with changing conditions. Focus and elective courses appropriate for Solid Earth include: 3260, 3340, 3330, 3220, 4420, 4550, 4600, 4830.

Earth Surface Focus

This focus area considers interactions between Earth’s land surface, oceans, and atmosphere, for example governing how rivers, mountains, coasts, or the climate operate and evolve with time. Earth surface systems also define the planet’s critical zone that supports life and its ecosystems. Focus and elective courses appropriate for Earth Surface include: 3330, 3220, 3280, 4420, 4600, 4550, 4650, 4680.

Environmental Focus

This focus considers aspects of the hydrosphere, biosphere, atmosphere, and coupled human-environment systems, both present and past. Life on Earth impacts and is impacted by Earth’s environments and is therefore central to this focus. Focus and elective courses most appropriate for Environmental include: 3220, 3280, 3310, 4650, 4680, 4820, 489, 4750, 4760.

Honors in Earth and Environmental Sciences

The EES Honors Program provides research experience and mentoring in preparation for a career or graduate studies in Earth and environmental sciences. Interested students should apply to the undergraduate adviser for entry into the Honors Program fall semester, junior year. A grade point average of 3.3 or higher both cumulatively and in courses that count toward the EES major is required for admission to the Honors Program.

Working closely with a faculty adviser, students in the Honors Program complete a research project of interest to both the student and faculty member during the senior year. In order to graduate with honors in EES, a student must: (1) maintain a 3.3 grade point average both in the EES major and
cumulatively; (2) complete the required courses for the EES major; (3) complete Senior Honors Seminar (4996, 4997) and Senior Honors Research (4998, 4999); (4) satisfactorily present the results of his/her research in written form as a senior thesis to two members of the faculty and orally to students and faculty of the department.

Minor in Earth and Environmental Sciences

The minor in EES provides students with a broad background in Earth processes, systems, and history, and an introduction to environmental issues. This background is highly relevant to many different fields of endeavor. The minor does not, however, fully prepare students for graduate studies or employment as Earth scientists. Students should consult with the director of undergraduate studies about how the minor in EES fits with their career or graduate school interests.

The minor consists of at least five courses (at least 17 credit hours; EES 1510/1510L and 1030/1030L each count as one course). Although EES 1510 (with 1510L) and 1030 (with 1030L) are highly recommended, students are encouraged to choose courses based on their interests and career plans and to discuss course selection with the director of undergraduate studies. No more than two 1000-level courses count toward the minor. Two courses with labs are required; one must be numbered above 2000. No credit toward the minor is given for EES 3841–3842 or 3851–3852.

Licensure for Teaching

EES majors may choose a second major in science education which includes teaching licensure, a prudent choice if interested in teaching. Peabody offers a fifth-year master's program for science majors interested in teaching. Upon graduating with a B.A. in EES, EES majors in the fifth-year program would spend the next summer and academic year earning their M.Ed. and teaching licensure.

Students seeking teacher certification in science disciplines at the secondary level should refer to the chapter on Certification for Teaching in the Peabody College section of the Undergraduate Catalog. Please contact Professor Heather Johnson, coordinator of science secondary education, at heather.j.johnson@vanderbilt.edu for more information.

Course descriptions begin on page 160.

Economics

CHAIR Peter L. Rousseau
VICE CHAIR Joel Rodrigue
DIRECTOR OF UNDERGRADUATE STUDIES Rupinder Saggi
DIRECTOR OF GRADUATE STUDIES Mattias Polborn
ASSOCIATE PROFESSORS Andrew Dustan, Andrew Goodman-Bacon, Federico H. Gutierrez, Eun Jeong Heo, Gregory Leo, Michelle Marcus, Alejandro Molnar, Hyunsung Oh, Joel Rodrigue, Pedro Sant’Anna, Diana N. Weymark, Matthew Zaragoza-Watkins, Ariel Zimran
PRINCIPAL SENIOR LECTURERS Stephen G. Buckles, Rupinder Saggi, John Vrooman
SENIOR LECTURERS Ana Regina Andrade, Kent, Dolezal, Hojattallah Ghandi, Heather Luea, Christina H. Rennhoff, Zaruhi Sahakyan, Stephanie So

THE Department of Economics offers an undergraduate major and minor in economics. Qualified economics majors may also elect to take graduate courses or participate in honors work. The department participates with the Department of History in a concentration in economics and history. Other economics-related minors are discussed under Managerial Studies. Economics 1010 and 1020 are prerequisites to all courses numbered above 2000, except Economics 2220 which only requires Economics 1010.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Economics

The requirements for the major include completion of at least 33 credit hours in economics courses, including 1010, 1020, 1500 or 1510 (or Math 2820L with Math 2810 or Math 2820), 3010, 3020. Students who complete Economics 3050 with Math 2820L and Math 2810 or Math 2820 as a prerequisite need not take Economics 1500 or 1510. At least 9 credit hours must be in courses numbered 3050 or above. Financial Economics (FNEC) courses do not count toward the economics major. Economics 1111 may be counted as an elective. No more than 3 credit hours of independent study may be included in the minimum 33 credit hours required for the major.

Mathematics Prerequisite

Two semesters of calculus are strongly recommended for majors and minors in the department. Calculus is a prerequisite for Economics 1500, 1510, 3010, and 3020, courses that are required in the economics major and minor. At least one semester of calculus is required for all our programs.

Minor in Economics

The minor in economics requires 21 credit hours, including 1010, 1020, 1500 or 1510 (or Math 2820L with Math 2810 or Math 2820), 3010, and 9 credit hours of electives. Students who complete Economics 3050 with Math 2820L and Math 2810 or Math 2820 as a prerequisite need not take Economics 1500 or 1510. At least one elective must be numbered 3050 or above. One semester of calculus is prerequisite to 1500, 1510, and 3010. Financial Economics (FNEC) courses do not count toward the economics major.

Honors Program

An honors program is available in economics. This program is designed for highly motivated students interested in doing independent research. Students who meet the College of Arts and Science’s requirements for honors candidacy as set forth elsewhere in this catalog should consult the director of undergraduate studies now rather than the fall term of their junior year.
Honors candidates must take two semesters of calculus and 36 credit hours of work in economics, including all 15 credit hours of courses required for the Economics major. The following are prerequisites: (1) Economics 3050, Introduction to Econometrics (3 credit hours); (2) Economics 3698, Junior Honors Research (1 credit hour); (3) Economics 3851–3852, Senior Thesis (6 credit hours), culminating in a written thesis; (4) Economics 4981–4982, Honors Seminar (2 credit hours); (5) 9 credit hours of electives including 3 credit hours in an Economics course above 3050. Honors candidates are required to write a senior thesis and to defend it in an oral examination. On satisfactory completion of this program, a student will graduate with honors or with highest honors in economics.

Program of Concentration in Economics and History
This is an interdisciplinary program split between Economics and History that provides a more focused program of study while requiring fewer credit hours than a double major in the two fields. The program consists of 45 credit hours of course work of which 9 credit hours are from a common economic history core and the remaining 36 credit hours are evenly divided between Economics and History. Students are expected to observe course-specific requirements in each department. The details are spelled out below under Economics and History.

Licensure for Teaching
Candidates for teacher licensure in economics at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

The description of the Concentration in Economics below will apply to students who matriculate at Vanderbilt in August 2018 and thereafter.

Program of Concentration in Economics
The requirements for the major include completion of at least 33 credit hours in economics courses, including 1010, 1020, 1500 or 1510 (or Math 2820L with Math 2810 or Math 2820), 3012, 3022, and 3032 or 3035. Students who complete Economics 3032 or 3035 and Math 2820L with Math 2810 or Math 2820 as a prerequisite need not take Economics 1500 or 1510. At least 9 credit hours must be in courses numbered above 3035. At least 15 credit hours that count toward the economics major must be taken at Vanderbilt. Financial Economics (FNEC) courses do not count toward the economics major. Economics 1111 may be counted as an elective. No more than 3 credit hours of independent study may be included in the minimum 33 credit hours required for the major.

Mathematics Prerequisite
Students who matriculate at Vanderbilt in the fall 2018 and thereafter are required to complete two semesters of calculus before enrolling in Economics courses numbered above 3000.

Minor in Economics
The minor in economics requires 21 credit hours, including 1010, 1020, 1500 or 1510 (or Math 2820L with Math 2810 or Math 2820), 3012, and 9 credit hours of electives. At least one elective must be numbered above 3015. Students who complete Economics 3050 with Math 2820L and Math 2810 or Math 2820 as a prerequisite need not take Economics 1500 or 1510. Financial Economics (FNEC) courses do not count toward the economics major.

Honors Program
An honors program is available in economics. This program is designed for highly motivated students interested in doing independent research. Students who meet the College of Arts and Science's requirements for honors candidacy as set forth elsewhere in this catalog should consult the director of undergraduate studies no later than the fall term of their junior year. Honors candidates who matriculate in fall 2018 and thereafter must complete 36 credit hours in economics, including the 18 credit hours of courses required of all economics majors. Honors candidates should complete 3012 or 3035 before senior year. In addition, the Honors Program requires completion of (1) Economics 3698 Junior Honors Research (1 credit hour), (2) Economics 3851–3852 Senior Thesis (6 credit hours), culminating in a written thesis, (3) Economics 4981–4982 Honors Seminar (2 credit hours), (4) 9 credit hours of electives including at least 6 credit hours in Economics courses above 3035. Honors candidates are required to write a senior thesis and to defend it in an oral examination. On satisfactory completion of this program, a student will graduate with honors or with highest honors in economics.

Program of Concentration in Economics and History
This is an interdisciplinary program split between Economics and History that provides a more focused program of study while requiring fewer credit hours than a double major in the two fields. The program consists of 45 credit hours of course work of which 9 credit hours are from a common economic history core and the remaining 36 credit hours are evenly divided between Economics and History. Students are expected to observe course-specific requirements in each department. The details are spelled out below under Economics and History.

Licensure for Teaching

Economics and History

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The joint major in economics and history makes an important contribution to liberal education at Vanderbilt by helping students understand the origins and organization of modern society. It also provides a unique preparation for careers in business, the professions, and other fields by combining all the analytical tools of the regular economics major with history's emphasis on clear and effective writing and on developing
skills in gathering, assessing, and synthesizing information. The program consists of 45 credit hours of course work: 9 credit hours in an economic history core, and an additional 18 credit hours in economics and 18 in history. Students declare their major through the Department of History office.

Note: All students must have at least one semester of calculus; two are strongly recommended for the economics component. Calculus is a prerequisite for ECON 1500, 1510, 3010, and 3020, which are required for the major. It is also a prerequisite for all economics courses numbered above 3000.

Course work for the major is distributed as follows:

**Economic History Core (9 credit hours)**

Three of the following courses, one of which must be an economics course above 3000:

HIST 1600, 1640, 1660, 1665, 2138, 2660, 3190, 3200, ECON 2150, 3150, 3160. Note: ECON 3010 is a prerequisite for ECON 3150, and 3160.

**Economics (18 credit hours)**

ECON 1010, 1020, 1500 or 1510, 3010, 3020; one ECON course above 3000 not included in the economic history core.

Note: The following course sequences may be substituted for ECON 1500 or 1510:

1. MATH 2820, 2820L, and 2821 or
2. MATH 2820, 2820L, and ECON 3050. ECON 3050 will also count as an elective.

**History (18 credit hours)**

No more than 3 credit hours of AP or IB credit in history courses may count toward this total.

1. History 3000W or 3980; must be taken by the end of the junior year. 3980 is limited to second-semester juniors who have been admitted to the Honors Program. Students entering the Honors Program who have already earned credit for 3000W will receive elective credit for that course.

2. History 4960 (prerequisite: History 3000W), or History 4980–4981 (available only to students in the honors program). Note: At the discretion of the director of honors and the director of undergraduate studies in history, a student who has earned credit for 4960 but does not take 4981 may be considered to have fulfilled the capstone requirement for the major.

3. Four other history courses not included in the economic history core. These electives may also include any of the following: AADS 2106, 2214, 2654, 4256; ASIA 2511, 2630; CLAS 2100, 2110, 2120, 2150, 2160, 2180, 3010; EUS 2201, 2208, 2220; DIV 6730, 6740; GER 2442; HOD 1115; JS 1111.09, 1200, 1220, 1240, 2450, 2540, 2660, 2600, 2620, 3000, 3100, 3210, 392; MHS 2110; PHIL 2100; RILST 3306, 3316.

**Honors Program (9 more credit hours)**

Students apply to the Honors Program in History in the first semester of the junior year.

54 credit hours: students will take the four-course honors sequence, HIST 3980, 4980–4981, 4999. Because HIST 4980–4981 satisfies the capstone requirement, honors students will not be required to take HIST 4960, though they may enroll for 4960 as an elective. Students will write an interdisciplinary thesis under the direction of an adviser from each department.

---

**English**

Chair Dana D. Nelson
Director of Undergraduate Studies Julia Fesmire
Director of Graduate Studies Vera Kutinski
Director of Creative Writing Program Kate Daniels

Associate Professors Jennifer Fay, Teresa A. Goddu, Rick Hilles, Ifeoma Nwankwo, Bridget Orr, Nancy Reisman, Allison Schachter, Rachel Teukolsky

Assistant Professors Candice Amich, Christin Essin, Jessie Hock, Marzia Milazzo, Akshya Saxena, Haein Shin, Ben Tran

Principal Senior Lecturers Julia Fesmire, Roger Moore
Senior Lecturers John Bradley, Gabriel Briggs, Elizabeth Covington, Rory Dicker, Alex Dubilet, Andrea Hearne, Scott Juengel, Elizabeth Meadows, Justin Quarry

Writers in Residence Beth Bachmann, Piyali Battacharya, Amanda Little, Sandy Solomon

The Department of English offers three distinct programs that allow students to individualize their studies while acquiring the breadth of knowledge and skills of the traditional English major. The curriculum provides courses in the history of British and American literature, in Anglophone literatures of other countries, in literary theory, and in expository as well as creative writing. These diverse courses reflect the interests of students and faculty and the expanding area of English literary study. Students use the concentration in English as a foundation for a variety of careers where the analytic, reading, and writing skills gained are especially valued, and as preparation for postgraduate work in literature. The department also regards its goals as helping students become readers of literature and culture throughout their lives.

Programs in England, Scotland, Australia, and around the world offer opportunities for study and travel that enrich a student’s education. The Gertrude Vanderbilt and Harold S. Vanderbilt Visiting Writers series annually sponsors public lectures, readings, and other occasions where English majors hear and meet celebrated poets, novelists, and critics. Many majors write for and serve on the editorial boards of various campus publications including the Hustler paper and the Vanderbilt Review, a distinguished collection of creative writing. An English majors listserv alerts students to employment opportunities, internships, and study abroad programs in addition to those offered through Vanderbilt University.

Note: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in English and American Literature

Program I: Literary Studies (30 credit hours)

Students pursue a broad range of interests through a flexible approach to the study of literature. 30 total credit hours including:
1. English 2200, Foundations of Literary Studies (3 credit hours)
2. 6 credit hours in History (literature before 1800)
3. 6 credit hours of Diverse Perspectives (ethnic American or Anglophone literature)
4. 3 credit hours in Approach
5. 9 additional credit hours of electives in English, chosen from the courses that count toward the major
6. English 4960, Senior Capstone Seminar (3 credit hours)

A course cannot be used to satisfy more than one requirement in the major.
Courses that fulfill the requirement in numbers 2, 3, 4, and 5 above are described below under General Requirements and Advice for Majors and Minor in All Programs.

Program II: Creative Writing (30 credit hours)

Students develop their creative writing while acquiring an overview of English literature. 30 total credit hours including:
1. English 2200, Foundations of Literary Studies (3 credit hours)
2. 12 credit hours of 3000-level creative writing workshops in at least two different genres (from among: Nonfiction 3210, 3220; Fiction 3230, 3240; Poetry 3250, 3260). Admission to these courses is by consent of instructor.
3. 3 credit hours in History (literature before 1800)
4. 3 credit hours in Diverse Perspectives (ethnic American or Anglophone literature)
5. 9 credit hours from courses above 2000-level (except 2200) courses that count toward the English major, which may include one additional creative writing workshop (beyond the four required in number 2, above) or one course in another discipline (with approval of the director of undergraduate studies)

A course cannot be used to satisfy more than one requirement in the major.
Courses that fulfill the requirement in numbers 2, 3, 4, and 5 above are described below under General Requirements and Advice for Majors and Minor in All Programs.

Program III: Specialized Critical Studies (36 credit hours)

Students design their own specialized course of study with a descriptive name and develop a contract of courses for it. 36 total credit hours including:
1. English 2200, Foundations of Literary Studies (3 credit hours)
2. 12 credit hours of course work concentrated in a particular period (e.g., nineteenth-century American), genre, or movement (e.g., the novel), an aspect of intellectual history (e.g., law and literature, literary theory), or other area of special interest. Up to 9 credit hours may be taken in courses from other departments relevant to the concentration. In consultation with a major adviser, each student selects specific courses, which are listed in a contract that is filed after the student has formally declared the major.
3. 6 credit hours in History (literature before 1800)
4. 6 credit hours in Diverse Perspectives (ethnic American or Anglophone literature)
5. 3 credit hours in Approach
6. English 4960, Senior Capstone Seminar, or 4998, Honors Colloquium (3 credit hours)
7. 3 credit hours of any English course above 2000, except 2200

A course cannot be used to satisfy more than one requirement in the major.
Courses that fulfill the requirement in numbers 3, 4, and 5 above are described below under General Requirements and Advice for Majors and Minor in All Programs.

Minor in English

At least 18 credit hours of course work in English are required. These courses must include English 2200, 3 credit hours from History (literature before 1800), and 3 credit hours of Diverse Perspectives (ethnic American or Anglophone literature).

A course cannot be used to satisfy more than one requirement in the minor.

General Requirements and Advice for Majors and Minor in All Programs

Students must take English 2200 for the major, ideally during the freshman or sophomore year, or as soon as possible after declaring the major. All courses numbered 2050 and above (except 4999) count toward the major. English 3890, 3890W, 3892, 3892W, 3894, 3894W, and 3898 may be repeated for credit when the topics are different. The survey courses, 2310, 2311, 2316, 2318, 2318W, 2319, and 2319W are recommended for sophomores to provide a background for advanced courses. Students considering Program II (Creative Writing) may wish to take 1280 or 1290 as preparation during their freshman or sophomore year, although those courses will not count toward the major.

Note: A course cannot be used to satisfy more than one requirement in the major.
Courses that fulfill the History requirement (literature before 1800) include 2310, 2318, 2318W, 3310, 3314, 3316, 3318, 3330, 3332, 3335, 3335W, 3336, 3337, 3340, 3340W, 3346, 3348, 3360, 3361, 3364, 3370.

Courses that fulfill the Diverse Perspectives requirement (ethnic American or Anglophone literature) include 3650, 3650W, 3654, 3654W, 3658, 3662, 3662W, 3664, 3670, 3670W, 3674, 3676, and appropriate courses from other departments as approved by the director of undergraduate studies.

Courses that fulfill the Approach requirement include 3710, 3711, 3720, 3720W, 3726, 3728, 3730, 3734, 3734W, 3740, 3742, 3744, 3746, 3748.

Courses that fulfill the Program II creative writing workshop requirement include 3210, 3220, 3320, 3340, 3350, 3360.

In addition, suitable sections of 3890, 3890W, 3892, 3892W, 3894, 3894W, 3896, 3898, 3898W, 3998, 4999, (as appropriate)
Honors Program

To graduate with honors in English, students must (a) complete all the requirements of the English major, with at least 6 credit hours in honors sections (an appropriate graduate seminar or seminar in a study abroad program may be substituted for one honors seminar); (b) 3 credit hours of 4998; (c) maintain at least a 3.4 grade point average overall and 3.6 in the major; (d) be admitted to the Honors Program in the spring of the junior year; (e) write a thesis (4999) and pass an oral examination about its subject in the spring of the senior year. For secondary education double-majors, EDUC 9700 can be substituted for 4999 with the consent of the director of undergraduate studies.

To comply with all requirements, every honors student will complete 33 credit hours. Exceptional achievement on the thesis will earn highest honors. Majors who wish to apply to the Honors Program must have made reasonable progress toward the requirements of undergraduate studies; for Program III, this course may be in addition to the 9 credit hours already allowed from other departments.

Licensure for Teaching

Candidates for teacher licensure in English at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Course descriptions begin on page 164.

Environmental and Sustainability Studies

DIRECTOR David Hess

HUMAN beings and their societies necessarily interact with and alter the Earth’s natural environment. The environmental and sustainability studies minor allows the student to examine human interaction with the environment from the perspectives of the humanities and social sciences with some exposure to the environmental sciences and/or environmental engineering.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Minor in Environmental and Sustainability Studies

Students who want to minor in environmental and sustainability studies must take a minimum of six courses (18 credit hours total) chosen from the courses listed below; additional relevant courses may be counted with approval of the director of the program. Courses must be distributed as follows: (A) one Natural Science- and Technology-Intensive course; (B) one Humanities course; (C) one Social-Behavioral Sciences and Policy-Intensive course; (D) two additional courses from B and/or C; and (E) a capstone course. No more than two courses may be at the 1000 level. In addition, no more than 3 credit hours may be counted simultaneously toward both the environmental and sustainability studies minor and any other major or minor. Topics courses may count toward the minor with approval of the director.

A) Natural Science- and Technology-Intensive Courses: BSCI 1103, BSCI 2238, BSCI 2238L, BSCI 3233, EES 1030, EES 1070, EES 1080, EES 1111*, EES 1510, EES 1510L, EES 2110, EES 2150, EES 3220, EES 3220W, EES 4650, EES 4680, EES 4750, EES 4760, EES 4820, ENVE 3610, ENVE 3611, ENVE 3612, ENVE 4615, ENVE 4700, EES 1115*

B) Humanities Courses: AMER 1111*, AMER 4000*, AMER 4100*, ENGL 2316/2316W*, ENGL 3720/3720W*, ENGL 3730, ENGL 3898/3898W*, HART 2150, HART 3240W, HART 2782, HART 3790, HIST 1470, HIST 1480, HIST 1520, PHIL 1111*, PHIL 3611, PHIL 3612, RLST 2472, RLST 3921, WGS 2268, WGS 2270

C) Social-Behavioral Sciences and Policy Intensive Courses: ANTH 1111*, ANTH 2109, ANTH 2113W, ANTH 2220, ANTH 2220W, ANTH 2227, ANTH 3138, ANTH 3261, ANTH 3629, ANTH 4154, ECON 2170, HOD 3212, HOD 3890*, PSCI 3253*, PSY 111*, SOC 1020/1020W*, SOC 1111*, SOC 3311, SOC 3312, SOC 3313, SOC 3314, SOC 3315, SOC 3316, SOC 3317, SOC 3318, SOC 3321, WGS 1111*

D) Two additional courses from lists B and/or C above.

E) Capstone: ENVS 4101 for minors only

*Special topic and First-Year Writing Seminar sections require the approval of the director of the environmental and sustainability studies minor to count in the minor.

Course descriptions begin on page 168.
European Studies

DIRECTOR Ari Joskowicz
PROFESSORS Michael Bess, Joy H. Calico
ASSOCIATE PROFESSORS Emily Greble, Alexander Joskowicz, Meike Werner, Christoph Zeller
ASSISTANT PROFESSOR Nina Warnke

Affiliated Faculty
PROFESSORS EMERITI M. Donald Hancock (Political Science), John A. McCarthy (German)
PROFESSORS Cella Applegate (History), David Blackbourn (History), W. James Booth (Political Science), William Caferro (History), Katherine B. Crawford (History), Cynthia Cyrus (Musicology), Robert Driskell (Economics), Lynn E. Enterman (English), James A. Epstein (History), Edward F. Fischer (Anthropology), Leonard Folgarait (History of Art), William P. Franke (Comparative Literature and Italian), Edward H. Friedman (Spanish), Lenn E. Goodman (Philosophy), Roy K. Gottfried (English), Barbara Hahn (German), Joel F. Harrington (History), Mark Jamieson (English), Christopher M. S. Johns (History of Art), Lutz Koepnick (German), John Lachs (Philosophy), Leah S. Marcus (English), Thomas A. J. McGinn (History), Kelly Olver (Philosophy), Lynn Ramsey (French), Philip D. Rasico (Spanish), Mark Schoenfield (English), Thomas A. Schwartz (History), Kathryn Schwarz (English), Virginia M. Scott (French), Holly A. Tucker (French), Mark A. Wollaeger (English), David C. Wood (Philosophy), Andrés Zamora (Spanish)

Moody (History of Art), Anthère Nzabatsinda (French), Michael A. Rose (Composition), Allison Schachter (Jewish Studies), Jeffrey S. Thurnak (Philosophy), Francis W. Wcislo (History), Julian Wuerth (Philosophy)
ASSISTANT PROFESSORS Jason Studler (Russian), William F. Robinson (History)
SENIOR LECTURERS Elena Olazagasti-Segovia (Spanish), Sheri F. Shaneyfelt (History of Art)
LECTURER David Johnson (Russian)

NOTE: New course numbers took effect in Fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in European Studies

Designed for students who seek to broaden their awareness of the European experience and to prepare for international careers or advanced study, the Program in European Studies (EUS) offers disciplinary breadth as well as expertise in a specialty of students’ choosing. Most EUS majors also participate in one of the Vanderbilt study abroad programs in Europe and/or reside in the International House on campus.

The interdisciplinary major consists of 42 credit hours of course work, to be distributed among various disciplines as indicated below. Emphasis is on political, cultural, economic, and related trends or events especially since the early modern period.

Advising is crucial to the successful completion of the major in EUS. In consultation with an adviser in European Studies, students choose a thematic focus and specific courses that will fulfill the requirements for the major. This focus can consist of a thematic or comparative topic (such as culture and society during a particular epoch), a regional or sub-regional topic (such as European integration, the Iberian Peninsula, the Baltic region), or the culture and society of a particular nation (such as France, Germany, Italy, Poland, Spain). In addition to the core requirements, majors take relevant courses in history, social sciences, and the humanities, as well as a foreign language of the student’s choice.

The Program in European Studies sponsors special activities including a visiting lecture series, international symposia, and informal faculty-student luncheon seminars. Both academic scholars and public figures are invited to campus to address European and transatlantic affairs.

Required Core Courses (21 credit hours)
- EUS 2201, European Society and Culture (3 credit hours).
- EUS 2203, The Idea of Europe (3 credit hours).
- EUS 4960, Senior Tutorial (3 credit hours).
- 6 credit hours in Political Science, PSCI 2210, West European Politics, and PSCI 3211, The European Union, or appropriate substitute(s) with the approval of the EUS adviser.
- 6 credit hours in European history in the student’s special interest area, to be selected from the list below and in consultation with the major adviser. Foreign Language Requirement (6 credit hours)
The foreign language requirement is to be satisfied in one of the following ways:
- 6 credit hours of course work beyond the intermediate level in one European language;
- course work through the intermediate level in two European languages;
- demonstration of proficiency equivalent to either of the preceding options; or
- participation in one of the Vanderbilt study programs in Europe (students participating in the Vanderbilt in England program must complete course work through the intermediate level in one European language, or demonstrate equivalent proficiency).

Electives (15 credit hours)
The remainder of the 42 credit hours required for the major may be selected from the list of courses below or from among approved courses taken abroad. Students majoring in EUS are advised to select courses from the social sciences and humanities that complement their areas of special interest and their thematic focus. They should be distributed as follows:
- 3 additional credit hours in history
- 3 additional credit hours from other social science fields
- 9 credit hours from the humanities

Other Issues Relating to the Major
Normally, no more than 6 credit hours of work in 1000-level courses may be counted toward the major; however, students with two languages through the intermediate level may also count toward the major the intermediate-level courses in one of those languages.

Independent study and research courses and selected topics courses should have topics appropriate to the student’s course of study.

Students seeking a second major may count a maximum of 6 credit hours of course work to meet requirements in both majors.

Joint Major Option
The Program in European Studies collaborates with several departments to create joint majors in French and European
the Departments of French and Italian, Germanic and Slavic Languages, and Spanish and Portuguese. Please see the detailed information on the joint major options under the departmental headings in this catalog. Students selecting one of these options will be advised by their major adviser in the language department as well as their adviser in the Program in European Studies.

Honors Program

The Program in European Studies offers qualified majors the option of completing a portion of their major requirements in an Honors Program. Students engage in interdisciplinary reading, consultations with faculty, and research on the overarching theme of their program of concentration. To be admitted to the program, students must have attained a minimum cumulative grade point average of 3.300 and a minimum grade point average of 3.300 in all courses that count toward the EUS major; identify an adviser for the thesis; submit a detailed description of their proposed program of study for approval of the director of EUS; complete 3 credit hours of independent research (normally EUS 4998); complete 3 credit hours of credit in EUS 4960, Senior Tutorial, that involves researching and writing a senior honors thesis of approximately fifty pages and that reveals an interdisciplinary perspective; successfully defend the honors thesis before a committee normally consisting of the adviser, the director of EUS, and another EUS faculty member.

Information concerning the Honors Program is available from the director of EUS. College regulations governing honors programs may be found in this catalog under Honors Programs, Special Programs for Arts and Science.

The Minor in European Studies

The EUS minor is a logical complement to a major in anthropology, history, economics, literary studies, philosophy, and political science. It involves 18 credit hours of course work with concentration and distribution requirements similar to those for the major, but on a reduced scale. A background in a modern foreign language is highly recommended. Students choose a thematic focus and take approved European content courses distributed as follows:

- EUS 2201, European Society and Culture
- EUS 2203, The Idea of Europe
- 3 additional credit hours selected from EUS-labeled courses (or approved substitute)
- a minimum of 3 credit hours of modern European history
- a minimum of 3 credit hours of relevant work in social science
- a minimum of 3 credit hours of relevant work in humanities

The minimum number of credit hours required for the minor is 18.

List of Approved Courses with European Content

Because the curricular offerings are constantly changing, prospective majors and minors should consult with the director about appropriate substitutes for courses listed below.
The department has chapters of national honor societies for Program of Concentration in French and Italian

ASSISTANT PROFESSORS Elsa Filosa, Raisa Rexer

College of Arts and Science / French and Italian Studies, and other Francophone communities. Most language, French as well as two interdisciplinary programs: a concentration in Italian and European studies. Qualified French majors may elect this interdisciplinary major, which requires a minimum of 42 credit hours of course work. A semester of study at Vanderbilt in France or at an approved substitute program in a French-speaking country.

To spend a semester or a year studying at Vanderbilt in France. Majors should consult their advisers about their choice of major courses each semester.

Course work for the major is distributed as follows:

Required courses (9 credit hours): 2501W, 3101, 3102

Two courses from Communications (6 credit hours): 2550W, 2611, 2614, 2891, 3111, 3112, 3113

Five courses from Literatures and Cultures (15 credit hours):

French and Italian studies offers a wide range of courses in the language, culture, and literatures of Italy, French, and other Francophone communities. Most language, literature, and culture courses are taught in French or Italian. Students may use courses in both French and Italian to satisfy some requirements of AXLE.

The Department offers a program of concentration in French as well as two interdisciplinary programs: a concentration in French and European studies and a concentration in Italian and European studies. Qualified French majors may also participate in the Honors Program in French. Minors in French and Italian are offered. On the graduate level, the department offers a doctoral program in French.

Many students participate in the Vanderbilt in France program in Aix-en-Provence or the Italian study abroad program in Sienna, Italy. The department offers Maymester programs in France, Italy, and Switzerland. On-campus activities include films, symposia, concerts, and lectures by visiting professors. The department has chapters of national honor societies for both French and Italian students. Students may also apply to live on the French Hall in McTyeire International House.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/

Program of Concentration in French

Students who choose to major in French are expected to achieve advanced proficiency in oral and written French and to demonstrate a general understanding of the history of French and Francophone literatures and cultures. No more than 6 credit hours of AP or IB credit may count toward the 30 credit hours required for the major (3 credit hours for 2501W and 3 credit hours of "no equivalent" credit). All majors are strongly urged

Honors Program in French

In addition to requirements set by the College of Arts and Sciences, the following requirements must be met:

1. All the requirements for the 30-credit-hour major in French.
2. One graduate-level French course during the senior year for at least 4 credit hours; this course may substitute for one 3000- or 4000-level course required for the major.
3. A minimum of one semester of study (or the summer session) at Vanderbilt in France or at an approved substitute program in a French-speaking country.
4. Earn a 3.5 grade point average in courses that count toward the French major.
5. Six credit hours of thesis credit under French 4998 and 4999 (Senior Honors Thesis), culminating in a written thesis.
6. An oral examination on the thesis and its area in the last semester of the senior year.

A three-member Honors Committee will administer the program. Students must submit the name of the faculty adviser and the proposed thesis topic to this committee for approval during the second semester of the junior year. The committee will set guidelines for the thesis topic proposal, publish deadlines each year, and administer the oral examination.

Program of Concentration in French and European Studies

Students may elect this interdisciplinary major, which requires a minimum of 42 credit hours of course work. A semester of study at Vanderbilt in France or at an affiliated program in Paris is required. Course work for the joint major is distributed as follows (all courses for the French side must be in French):
be in French), PSCI 2210, PSCI 3211, or appropriate substitute from any other social studies discipline with approval of the director of European Studies.

**European History (3 credit hours):** HIST 2230, 2250, 2260, 2270, 2280, 2290, 2310, 2340, or approved course in consultation with the director of European Studies.

**Minor in French**

The minor in French requires 18 credit hours of 2000- or higher-level course work, including 2501W, 3101, and 3102. All minors are expected to consult their advisers about their choice of courses. No course taught in English may count toward the minor. Students are encouraged to participate in the Vanderbilt in France program.

**Minor in Italian Studies**

Students who minor in Italian studies are expected to achieve intermediate proficiency in oral and written Italian, to demonstrate a general understanding of the history of Italian literatures and cultures, and to develop an awareness of the ways Italian studies intersects with other disciplines. The minor in Italian studies requires 15 credit hours of course work, including:

**Required courses (6 credit hours):**

ITALIAN: 2203, Italian Journeys (prerequisite ITA 1102; ITA 1103, or equivalent); either 2501W, Grammar and Composition (prerequisite ITA 2203 or equivalent), or 2614, Conversation (prerequisite ITA 2203 or equivalent); ITA 1101, 1102, 1103 do not count toward the minor.

**Elective courses (9 credit hours):** Only 3 of these elective credit hours may be selected from courses in subject areas other than Italian, such as Classical Studies, History, History of Art, Music Literature, and History:

ITALIAN: 2501W, Grammar and Composition (if not used as a required course); 2614, Conversation (if not used as a required course); 3000, Introduction to Italian Literature; 3041, Italian Civilization; 3100, Literature from the Middle Ages to the Renaissance; 3240, Dante’s Divine Comedy; 3340, Famous Women by Boccaccio; 3500, Baroque, Illuminism, and Romanticism in Italy; 3600, Twentieth-Century Literature: Beauty and Chaos; 3640, Classic Italian Cinema; 3641, Contemporary Italian Cinema; 3701, City Fiction; 3702, Topics in Contemporary Italian Civilization; 3740, Gangsters, Lovers, Madonnas, and Mistresses; 3802, Contemporary Italian Society and Culture; 3830, Special Topics in Italian Literature.

CLASSICAL STUDIES: LAT 3100, Roman Comedy; LAT 3110, Catullus; LAT 3120, Lucretius: De Rerum Natura; LAT 3130, Vergil: The Aeneid; LAT 3160, Ovid.

HISTORY: 2220, Medieval and Renaissance Italy, 1000–1700.

HISTORY OF ART: 2310, Italian Art to 1500; 2330, Italian Renaissance Art after 1500; 3320, Early Renaissance Florence; 3332, Raphael and the Renaissance; 3334, Michelangelo’s Life and Works.

MUSIC LITERATURE: 3220, Opera in the 17th and 18th Centuries; 3221, Opera in the 19th Century.

Other Italy-related courses not listed here—such as those in study abroad programs—may be approved towards the minor upon approval by the director of undergraduate studies in Italian. Students are encouraged to attend Vanderbilt in Italy.

**Program of Concentration in Italian and European Studies**

The joint major in Italian and European Studies acknowledges the cultural, political, and strategic importance of Italy within the community of European nations. It requires 42 credit hours of course work; a semester of study in Italy is recommended. Prospective majors should consult with the director of undergraduate studies in Italian and with the director of the European Studies program. Course work for the joint major is distributed as follows:

**Italian (24 credit hours)**

Italian language and literature — 12 credit hours from the following courses: ITA 2203 (requires ITA 1102 or 1103), 2501W, 3000, 3100, 3240, 3340, or 3500. 2501W is prerequisite for 3000, 3100, and 3500. (Note: 1000-level Italian language courses do not count toward the major.)

Modern cultural intersections — 12 credit hours from the following courses, of which at least 6 credit hours must be taken in Italian: ITA 2614, 3041, 3600, 3640, 3641, 3701, 3702, 3740, or 3802.

**European Studies (18 credit hours)**

European Studies core courses — 9 credit hours: EUS 2201, 2203, and 4960 (requires thesis).

Social Science — 3 credit hours from the following courses: PSCI 2210, 3211, or appropriate substitute with the approval of the director of the European Studies program.

History — 3 credit hours from the following courses: HIST 2260, 2270, 2280, or 2290.

Humanities — 3 credit hours from the following courses: EUS 2240, 2260; HART 2310 or 2330.

**Licensure for Teaching**

Candidates for teacher licensure in French at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

**French**

Students who have not studied French in high school should begin their studies at Vanderbilt in French 1101. Students with high school French on their records must present a College Board achievement test score in French to be placed correctly. Students should consult their advisers or the Department of French and Italian for advice on placement.

**Note:** Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

**Course descriptions begin on page 169.**

**Italian**

Students who have not studied Italian in high school should begin their studies at Vanderbilt in Italian 1101.

**Note:** Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may...
not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

Course descriptions begin on page 185.

German, Russian and East European Studies

CHAIR Lutz Koepnick
DIRECTOR OF UNDERGRADUATE STUDIES IN GERMAN
James McFarland
DIRECTOR OF UNDERGRADUATE STUDIES IN RUSSIAN
Jason Strudler
DIRECTOR OF GRADUATE STUDIES Meike Werner
PROFESSORS EMERITI Konstantin V. Kustanovich, John A. McCarthy, Richard Porter
PROFESSORS Barbara Hahn, Lutz Koepnick
ASSOCIATE PROFESSORS Emily Greble, James McFarland, Meike G. Werner, Christoph Zeller
ASSISTANT PROFESSOR Lydia Tang
MELLON ASSISTANT PROFESSOR Jason Strudler
RESEARCH ASSISTANT PROFESSOR Wout Cornelissen
LECTURERS David Matthew Johnson, Silke Schade

THE Department of German, Russian and East European Studies offers a broad array of courses taught in German, Russian, or English on a wide variety of topics related to these languages, cultures, histories, and societies. For students who want to engage with German, Russian, or East European culture in a more substantive way, the department offers programs of concentration in German and in Russian.

The department sponsors lectures on topics related to German, Russian and East European society and culture, films, symposia, and other German- and Russian-themed activities. Students are encouraged to apply for living space in McTyeire International House in the German and Russian sections, and German majors with sufficient academic qualifications are invited to join Delta Phi Alpha, the national German honor society.

Many students majoring in German enroll in study abroad programs in Germany or Austria, and/or the Vanderbilt in Berlin Program in conjunction with the Free University in Berlin. Less formal activities, such as a weekly Kaffeestunde or the Stammtisch at a local pizza parlor, are also open to undergraduates. For further information, please see as.vanderbilt.edu/german.

The Russian program has a special commitment to undergraduate training in all aspects of Russian culture and language. Thus, students are able to pursue their particular interests within the Russian program while simultaneously being held to a measurable standard. For further information, please see as.vanderbilt.edu/russian.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in German Studies

Students majoring in German demonstrate advanced proficiency in oral and written German, as well as detailed understanding of significant aspects of German-speaking cultures, histories, and societies. Students are required to complete a total of 30 credit hours of course work beyond GER 1102, including the following:

- Core course: 2441
- German language in context: 12 credit hours of 2201, 2202, 3201, 3202W
- Electives in German culture and history taught in German: at least 9 credit hours of any course in German between 4551–4558
- Electives in German culture and history taught in English: at least 6 credit hours of courses taught in English above 2441

Total credit hours: 30

Students are permitted to count a maximum of 6 credit hours of instruction in courses outside the GER subject area toward the major, with the approval of the director of undergraduate studies in German; such course work will count toward the 6 credit hour total for elective courses in German culture and history taught in English. Up to 6 credit hours earned through AP exams or transferred from other institutions may count toward the major.

German Language Proficiency

In addition, students majoring in German will be tested for language proficiency during their junior year and will be required to submit a paper written for one of their courses due the semester prior to graduation. The director of undergraduate studies in German should be consulted for details on these special learning outcome assessments.

Honors Program in German Studies

Candidates for honors in German who meet College of Arts and Science and departmental requirements must complete all requirements for the concentration in German. In addition, students

- must study a minimum of one semester at a German-speaking university (or gain the equivalent experience);
- complete 6 credit hours of beyond the basic course requirements; 3 of these credit hours are required to be taken in the form of a graduate course above GER 7000, 3 of these credit hours are required to be taken in the form of a course taught in German above GER 4550;
- maintain at least a 3.30 cumulative GPA in courses that count toward the German major and a 3.30 cumulative GPA;
- write an honors thesis and pass an oral examination during their final semester.

Minor in German Studies

A minor in German documents a student’s basic competence in the German language as well as familiarity with German-speaking culture. Students can fulfill the requirements of a
minor concentration in German by taking GER 2441, and 15 credit hours in the GER subject area, of which 6 credit hours must be earned in courses taught in the German language, for a total of 18 credit hours.

**Vanderbilt in Berlin**

The seven-week, 7 credit hour Vanderbilt in Berlin summer program offers students an opportunity to study German, improve German-language skills, and take courses in English and German. This program is also open to students with no prior knowledge of German. Students participate in a week-long orientation course on the history and culture of Berlin (1 credit hour), then take two six-week courses (6 credit hours) or one intensive language course (6 credit hours). All courses include regular excursions to course-related locations. A limited number of scholarships are available.

**Goethe-Institut Certificate in Business German**

Students completing GER 4558: Business German may take an examination at a Goethe-Institut to obtain the Bulats Deutsch-Test für den Beruf, a certificate in business German recognized by businesses worldwide. Further information is available on the Goethe-Institut website: goethe.de/en/spr/kup/prf/prf/bul.html.

**Program of Concentration in German and European Studies**

Students pursuing the interdisciplinary major in German and European studies combine their focus on German language and literature with a study of modern Europe in its political, economic, and cultural diversity. The German and European studies joint major consists of a minimum of 42 credit hours of course work. A semester of study abroad in the Vanderbilt in Germany program is recommended. Course work for the major is distributed as follows:

**German (24 credit hours)**
- Introduction to Contemporary Germany and Methods of Cultural Analysis (6 credit hours): GER 3201 and 3202W
- Great German Works (3 credit hours): GER 2441
- German civilization (9 credit hours): any course between GER 2551–2557, or appropriate substitute approved by the director of undergraduate studies in German
- German literature and culture (6 credit hours): any course between GER 4551–4558

**European Studies (18 credit hours)**
- European Studies core courses (9 credit hours): EUS 2201, 2203, and 4960 (requires thesis)
- Social Science (3 credit hours): PSCI 2210, 3211 or appropriate substitute with the approval of the EUS adviser
- History (3 credit hours): HIST 2720, 2260, 2270, 2280, 2290, 2300, or other appropriate course selected in consultation with the EUS adviser
- Humanities (3 credit hours): EUS 3890, 2260 (Berlin or Vienna) or other appropriate course selected in consultation with the EUS adviser

**Program of Concentration in Russian**

Requirements for a concentration in Russian include a minimum of 30 credit hours of course work. Required courses are RUSS 1101–1102, RUSS 2201–2202 (18 credit hours), and one English-language course with the RUSS subject code (3 credit hours; see the list of qualifying courses below). The remaining 9 credit hours may be earned either from Russian- and English-language courses with the RUSS subject code (see the list of qualifying courses below) or from other relevant courses that will be approved by the director of undergraduate studies on a case-by-case basis. A maximum of 6 credit hours toward the concentration in Russian may be earned from courses taken from other U.S. institutions or through study abroad programs. AP and IB exam credit will not count toward credit hours required for the concentration, but placement exams will be offered for RUSS 1101 and/or 1102. Students concentrating in Russian will be expected to take an “assessment exam” via colloquium prior to graduation.

**Minor in Russian**

Requirements for a minor in Russian include a minimum of 19 credit hours of course work. Required courses are RUSS 1101–1102 and one English-language course with the RUSS subject code (3 credit hours; see the list of qualifying courses below). The remaining 6 credit hours may be earned either from Russian- and English-language courses with the RUSS subject code (see the list of qualifying courses below) or from other relevant courses that will be approved by the director of undergraduate studies on a case-by-case basis. A maximum of 6 credit hours toward the Russian minor may be earned from courses taken from other U.S. institutions or through study abroad programs. AP and IB exam credit will not count toward credit hours required for the minor, but placement exams will be offered for RUSS 1101 and/or 1102.

**English-language courses with the RUSS subject code that qualify for the 3 credit hour requirement of the concentration and minor in Russian:** RUSS 1111, 1874, 1910W, 1911W, 2230, 2273, 2434, 2435, 2438, 2485, 2537, 2639 and 2745.

**Russian- and English-language courses with the RUSS subject code that qualify for the remaining credit hours required for the concentration and minor in Russian:** RUSS 1001, 1111, 1874, 1910W, 1911W, 2201–2202 [only in the case of the minor], 2210, 2230, 2273, 2434, 2435, 2438, 2485, 2537, 2639, 2745, 3303, 3305, 3850–3851, 3880–3881, and 3890–3891

**Licensure for Teaching**

Candidates for teacher licensure in German at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

**German**

Students with some experience in German should consult the department for placement.

*Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced
Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

Course descriptions begin on page 171.

**Russian**

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

Course descriptions begin on page 211.

SENIOR LECTURER Yollette T. Jones

LECTURERS Miriam M. Erickson, Alex Jacobs, Kara Schultz

MORE than one hundred courses in the Department of History are available to Vanderbilt undergraduates. Some focus on a particular historical period, others on a particular region of the world, and still others on topics that may cross traditional chronological and geographical boundaries. The department is committed to the principle that in a changing world, the way we learn about the past must also change. It will continue to develop new courses for the twenty-first century, with an emphasis on those that recognize the interconnections among the various civilizations and regions of the globe.

Unless indicated otherwise in the course description, history courses have no prerequisite. Except for History 3980, 4960, 4980–4981, and 4999, courses numbered below 5000 are open to all majors and nonmajors. History 4960 is limited to seniors and juniors who have previously taken History 3000W. History 3980, 4980–4981, and 4999 are limited to students who have been admitted to the History Honors Program.

Students will find that the study of history offers not only a strong foundation for a liberal education but also a means of understanding the contemporary world. The skills developed in gathering, assessing, and synthesizing information have wide application in many careers, including business and the professions.

The Department of History offers a major and minor in history; a major in law, history, and society; and, in cooperation with the Department of Economics, a joint major in economics and history, which is described in this catalog under Economics and History.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

**Program of Concentration in History**

The major program requires a minimum of 30 credit hours in history; no more than 3 credit hours of AP or IB credit may count toward this total. Note: AP and IB credit will not count toward the 15 credit hours for the concentration.

Course work is distributed as follows:

1. 3000W or 3980 (3 credit hours)
   
   Note: 3000W should be taken as soon as possible and must be taken no later than the second semester of the junior year. 3000W is a prerequisite for the 4960 capstone course. 3980 is limited to second-semester juniors who have been admitted to the Honors Program. Students entering the Honors Program who have already taken 3000W will receive elective credit for that course.

2. Five courses in one of the following concentrations (15 credit hours):
   - A. Asia
   - B. Latin America
   - C. Europe
   - D. Early America and the United States
   - E. Middle East and Africa
   - F. Global and Transnational
G. Science, Medicine, and Technology
H. Comparative History/Special Topics

See below for a list of courses that count for Concentrations A, B, C, D, E, F, and G. Students choosing concentration H must have the approval of their adviser and the director of undergraduate studies for a specific program of study. First-Year Writing Seminars (1111) in history may be used to satisfy the relevant program concentration with approval of the director of undergraduate studies.

Program A. Asia
1050, 1060, 1070, 1080, 1085W, 1090, 1160, 1161, 1200, 1881, 1882W, 2100, 2105, 2110, 2115, 2120, 2140, 2145, 2150, 2160, 2180, 3090, 3110, 3119, 3120, 3210, and, as appropriate, 3745, 3850, 3882, 3883, 3890, 3980, 4960, 4980–4981, 4999; ASIA 2511, 2630; MHS 2310.

Program B. Latin America
1368, 1370, 1378, 1380, 1383, 1385W, 1469, 1650, 2450, 2457, 2470, 2470, 2480, 2490, 2510, 2530, 2540, 2570, 2845, 3100, 3120, 3280, and, as appropriate, 3746, 3850, 3882, 3883, 3890, 3980, 4960, 4980–4981, and 4999; AADS 4256.

Program C. Europe
1200, 1345, 1350, 1355W, 1360, 1470, 1480, 1500, 1510, 1510L, 1520, 1580, 1582W, 1584W, 1600, 1695W, 1700, 1725W, 1760, 2130, 2135, 2140, 2160, 2170, 2190, 2200, 2230, 2238, 2240, 2250, 2260, 2270, 2280, 2290, 2293, 2300, 2310, 2340, 2380, 2382, 2383, 2385, 2410, 2450, 2595W, 2660, 2720, 2760, 2800, 2835, 2840, 3010, 3050, 3070W, 3100, 3110, 3120, 3150, 3180, 3190, 3210, 3230, 3240, 3260, 3270, 3275, and, as appropriate, 3745, 3850, 3882, 3883, 3980, 4960, 4980–4981, and 4999; Classics 2120, 2180, 3010; Jewish Studies 1200, 1220, 1240, 2450, 2457, 2480, 2490, 2510, 2530, 2540, 2570, 2535W, 2660, 2700, 2710, 2721, 2722, 2725, 2730, 2740, 2760, 2840, 3010, 3100, 3112, 3190, 3220, 3230, 3240, and, as appropriate, 3746, 3850, 3882, 3883, 3890, 3980, 4960, 4980–4981, and 4999; Classics 2120, 2180, 3010; Jewish Studies 1200, 1220, 1240, 2450, 2540, 2845, 3000, 3100; EUS 2220; Medicine, Health, and Society 2110; Religious Studies 3306.

Program G. Science, Medicine, and Technology

Students may meet the requirement by taking five courses from the SMT list, among which not more than two may be courses outside the Department of History.
1385W, 1470, 1480, 1500, 1510, 1510L, 1520, 1780W, 2131, 2160, 2780, 2820, 2810, 3040, 3045W, 3050, 3070W, 3110, 3230, and, as appropriate, 3746, 3850, 3882, 3883, 3890, 3980, 4960, 4980–4981, and 4999; Anthropology 4373; Asian Studies 2630; Astronomy 2130; English 3720 or 3720W; Mathematics 3000; Medicine, Health, and Society 2110, 2310, 2320, 2430; and other courses, as appropriate, with approval of the director of undergraduate studies.

3. Capstone course (3–6 credit hours)
One of the following, to be taken in the junior or senior year; all of the options will require the student to write a major paper. Any capstone course within the student’s area of concentration will count toward the five-course requirement for that concentration.

Option 1: 3883, Internship Research (3 credit hours). Must be taken in conjunction with 3880 (internship training). Prerequisite: 3000W. Note: A student may take 3883 as an elective before completing 3000W but in this case 3883 will not count as a capstone course.

Option 2: 4960, Majors Seminar (3 credit hours). Prerequisite: 3000W.

Option 3: 4980–4981, Senior Honors Seminar (6 credit hours). Limited to seniors in the History Honors Program. Note: At the discretion of the director of honors and the director of undergraduate studies, a student who has taken 4980 but does not take 4981 may be considered to have fulfilled the capstone requirement for the major.

4. Electives (6–12 credit hours, depending on the nature of the capstone course)

Program of Concentration in Law, History, and Society

As a human institution self-consciously aware of its past, “The Law” raises a complex set of issues that can be addressed historically. Legislation and jurisprudence, for example, allow historians a privileged perspective into how societies sought to define themselves, their values, and their membership. Constitutions provide maps of political power, and serve as sites of struggle over goods both real and symbolic. Records of legal practice are often well preserved, allowing access to the voices and actions of people who are usually left out of systems of political organization.

This major approaches law from both a historical and an interdisciplinary perspective. Emphasis will be placed on close reading of legal documents, research in legal archives, and analytical writing. Students will be encouraged to develop reading programs and research topics that stretch across national and chronological boundaries, and to think comparatively. Students may not major both in history and in law, history, and society. Students majoring in law, history, and society may apply to receive honors through the History Honors Program.

The major program requires a minimum of 30 credit hours in history; no more than 3 credit hours of AP or IB credit may count toward this total. Note: AP and IB credit will not count
toward the 15 credit hours for the concentration. No more than 6 credit hours may be from courses outside the Department of History.

Course work is distributed as follows:

1. History Workshop, 3000W or 3980 (3 credit hours)
   
   Note: 3000W should be taken as soon as possible and must be taken no later than the second semester of the junior year. 3000W is a prerequisite for the 4960 capstone course. 3980 is limited to second-semester juniors who have been admitted to the Honors Program. Students entering the Honors Program who have already taken 3000W will receive elective credit for that course.

2. Law, History, and Society: Five courses from the following: 1345, 1383, 1385W, 1430W, 1580, 1584W, 1667, 2130, 2155, 2190, 2238, 2290, 2293, 2450, 2590, 2610, 2662, 2690, 2760, 2855, 2860, 3170, and, as appropriate, 3890, 3980, 4960, 4980–4981, and 4999; Classics 3150, 3160; Economics 4210; English 3734; French 4223; Jewish Studies 2150; Medicine, Health, and Society 2320; Philosophy 1100, 3160, 3610W, 3623; Political Science 1103, 2208, 2226, 2262, 2265, 2266, 3260; RUSS 2485; Sociology 3605, 3611, 3613, 3621, 3634; WGS 3271, 3281; and other courses, as appropriate, with approval of the director of undergraduate studies of Law, History, and Society.

   Note: First-Year Writing Seminars (1111) in history may be used to satisfy the relevant program concentration with approval of the director of undergraduate studies of Law, History, and Society.

3. Capstone course (3–6 credit hours)
   
   One of the following, to be taken in the junior or senior year; all of the options will require the student to write a major paper, the topic of which must be approved by the director of undergraduate studies of law, history, and society. Any capstone course on a topic concerning law, history, and society will count toward the five-course requirement for the program concentration.

   Option 1: 3883, Internship Research (3 credit hours).
   Must be taken in conjunction with 3880 (internship training). Prerequisite: 3000W. Note: a student may take 3883 as an elective before completing 3000W but in this case 3883 will not count as a capstone course.

   Option 2: 4960, Majors Seminar (3 credit hours).
   Prerequisite: 3000W.

   Option 3: 4980–4981, Senior Honors Seminar (6 credit hours). Limited to seniors enrolled in the History Honors Program.

   Note: At the discretion of the director of honors and the director of undergraduate studies in law, history, and society, a student who has taken 4980 but does not take 4981 may be considered to have fulfilled the capstone requirement for the major.

4. Electives (6–12 credit hours in history, depending on the nature of the capstone course)
   
   Electives may include any courses, not used to satisfy any of the above requirements, offered by the Department of History or listed above in major requirement #2.

Honors Program

The Honors Program in History is a three-semester program of study. It offers superior undergraduate history majors a program of advanced reading, research, and writing. The Honors Program combines seminar work and independent study under the supervision of a thesis adviser. This structure provides participants an introduction to historical research and writing, as well as the opportunity to study defined areas of history and significant historical problems that accord with their own interests. The final objectives of the Honors Program are successful authorship of the honors thesis and graduation with honors or highest honors in the major.

Students apply to the Honors Program in the first semester of the junior year. Students meeting college and departmental requirements will enroll for a total of 12 credit hours: History 3980, Junior Honors Seminar in History (3 credit hours); History 4980–4981 Senior Honors Research Seminar (6 credit hours); and 4999, Senior Honors Thesis (3 credit hours). In addition, the Honors Program requires an oral defense of the honors thesis before a faculty committee at the end of the third semester.

Program of Concentration in Economics and History

This is an interdisciplinary program split between economics and history that provides a more focused program of study while requiring fewer credit hours than a double major in the two fields. See the Economics and History section of this catalog for details.

Licensure for Teaching

Candidates for teacher licensure in history at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Minor in History

The minor in history requires a minimum of 18 credit hours in courses that are offered by the Department of History or that are listed above in programs A–G of the history major, among which no more than two courses may be outside the Department of History. At least 9 credit hours must be taken at the 2000 level or higher. Students must complete 3000W. No more than 3 credit hours of AP or IB credit may count toward this total.

Course descriptions begin on page 174.

History of Art

CHAIR Kevin D. Murphy
DIRECTOR OF UNDERGRADUATE STUDIES Sheri Shaneyfelt
DIRECTOR OF GRADUATE STUDIES Betsey A. Robinson
PROFESSORS EMERITI Robert A. Baldwin, F. Hamilton Hazlehurst, Milan Mihal, Robert L. Mode, Ljubica D. Popovich, Barbara Tsakirgis
PROFESSORS Leonard Folgarait, Vivien Green Fryd, Christopher M. S. Johns, Kevin D. Murphy
ASSOCIATE PROFESSORS Tracy Miller, Elizabeth J. Moody, Betsey A. Robinson
ASSISTANT PROFESSORS Mireille M. Lee, Rebecca K. VanDiver
MELLON ASSISTANT PROFESSOR Heeryoon Shin
PRINCIPAL SENIOR LECTURER Sheri Shaneyfelt

THE Department of History of Art treats critically the major fields in world art, from ancient to contemporary, and serves to connect the arts to the other humanities. Many students will use the program in history of art as a foundation for careers in which analytical reading and writing skills gained in the major
are especially valued: as the basis for advanced training in professional schools (such as architecture, law, medicine, journalism, and business), for postgraduate work in history of art, and for employment in galleries, museums, or design-related fields. A major goal of the department is to help students become readers of visual images and material culture throughout their lives, as well as to encourage visual approaches to learning.

Majors in history of art participate in the activities of the Vanderbilt History of Art Society and work closely with departmental advisers. The society sponsors events such as panels, lectures, debates, and other programs where majors meet and engage in discussions with historians of art and museum curators.

The department curriculum complements those of related departments and programs, including African American and Diaspora Studies, American Studies, Asian Studies, Cinema and Media Arts, Classical and Mediterranean Studies, European Studies, Latin American Studies, Religious Studies, and Women’s and Gender Studies.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration

The history of art major requires 30 credit hours and gives students the opportunity to study art and visual culture across a wide range of historical periods, from ancient to contemporary. The program is designed to allow for concentration in particular periods and areas of interest. By requiring courses in both the lecture and seminar format, the program aims to provide a basis of comprehensive knowledge and challenging opportunities for more specialized instruction.

Students should consider related offerings in cognate disciplines in the humanities and social sciences. Those planning graduate work in history of art should pursue advanced studies—which may include honors—and take advanced courses in other departments offering complementary course work. Advanced language studies are strongly recommended, as graduate programs expect reading facility in one language for the M.A. and two for the Ph.D., with French and German the most commonly required. Non-European languages should be considered for those primarily interested in non-Western traditions.

Requirements for the Program of Concentration

A 1000-level course (3 credit hours): Students must complete one 1000-level survey course in history of art or architecture selected from HART 1100, 1105, 1120 or 1121, 1200, 1205, 1220, 1300, or 1400. This course is not a prerequisite for further history of art course work but must be taken at Vanderbilt; AP and transfer credit will not be accepted.

Area requirements (15 credit hours)—five history of art courses at the 2000 level or above, one each from the following areas:

- **Ancient:** HART 2210, 2220, 2260, 3224, 3226, 3228W, 3240W, 3252, 3272; CLAS 2200, 2210, 2250, 3200, 3210
- **Medieval:** HART 2270, 2275, 2285, 2288, 2290, 3274
- **Renaissance/Baroque:** HART 2310, 2320W, 2325, 2330, 2362, 2390, 3320, 3320W, 3332, 3334, 3334W, 3364W
- **Modern:** HART 2600, 2620, 2622, 2625, 2650, 2660, 2665, 2710, 2720, 2722, 2750, 2755, 2760, 2765, 3605W, 3718W, 3725W, 3740, 3767W
- **Non-Western:** HART 2110, 2130, 2150, 2170, 2175, 2180, 2192, 3112, 3140, 3164W

Electives (6 credit hours)—two upper-level courses in history of art (HART 2110 to 3850 and 3890) in addition to the area requirements.

Advanced Seminars (6 credit hours)—HART 4960

Honors Program

The Honors Program in History of Art allows exceptional undergraduate students to undertake independent research on a topic in art history in consultation with faculty members. The program is open to all history of art majors with junior standing who meet a 3.30 grade point average in all university courses and a 3.30 grade point average in history of art courses. They must also be approved for acceptance into the honors program by the department faculty. Completion of the program requires 9 credit hours of study: HART 3850, Independent Research (the second semester of the junior year, unless studying abroad, in which case one is expected to enroll in this class the first semester of the junior year); HART 4998, Honors Research (first semester of the senior year); and HART 4999, Honors Thesis (second semester of the senior year); submission of an honors thesis; and successful completion of an oral honors examination. These independent research-credit hours are expected to be in addition to the 30 credit hours required for the major in history of art. Students meeting these requirements receive honors or highest honors in history of art, depending on the quality of the thesis, grades in history of art courses, and examination results. Successful departmental honors students will receive a Vanderbilt diploma that records honors or highest honors in history of art.

Minor in History of Art

The minor in history of art requires 18 credit hours of course work, including the following:

- Two 1000-level courses from 1100, 1105, 1120 or 1121, 1200, 1205, 1220, 1300, or 1400, plus any four upper-level history of art courses (HART 2110 to 3850 and 3890, 4960), and classes designated CLAS 2200, 2210, 2250, 3200, 3210, 3720.

Minor in History of Architecture

The minor in history of architecture requires 18 credit hours of course work, including the following:

- Two 1000-level courses from 1100, 1105, 1120 or 1121, 1200, 1205, 1220, 1300, or 1400, plus any four upper-level history of art courses selected from HART 2110 to 2130, 2135, 2150, 2170, 2175, 2180, 2210, 2220, 2225, 2270, 2275, 2285, 2290, 2650, 2665, 2720, 2722, 2780, 2782, 3112, 3140, 3240W, 3252, 3725W, 3790, and CLAS 2200, 2210, 2250, 3200, 3210, 3720.

Course descriptions begin on page 181.
Honors

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/. COURSES designated "Honors" are parts of a special honors program in liberal education. They may be taken only by students who have been appointed College Scholars by the dean of the College of Arts and Science. Some College Scholars are appointed before they arrive for their first semester in residence; others may be appointed on the basis of their records in that first semester. All first-year students in the College of Arts and Science may apply to the associate dean for honors programs for admission to the College Scholars program; only first-year students are considered for admission.

Honors seminars offered in the College Scholars program provide an especially interesting and challenging way for College Scholars to complete certain parts of the program for Achieving Excellence in Liberal Education (AXLE). They are designed to cover topics through the intensive analysis afforded by the seminar setting and format. An honors seminar will satisfy the requirement for a first-year writing seminar. Honors 1810W, 1820W, 1830W, 1840W, 1850W, and 1860W count toward the AXLE requirements identified by the seminars' titles. Honors 1810W challenges students to examine their personal understanding of life and how their individual experiences overlap with those of the rest of human kind. Honors 1820W gives significant attention to individual and cultural diversity, multicultural interactions, sexual orientation, gender, racial, ethical, religious, and "Science and Society" issues. Honors 1830W studies human behavior at the levels of individuals, their interactions with others, their societal structures, and their social institutions. Honors 1840W provides students with a basis for understanding the American experience and the shaping of American values and viewpoints within the context of an increasingly global society. Honors 1850W emphasizes quantitative reasoning and prepares students to describe, manipulate, and evaluate complex or abstract ideas or arguments with precision. Honors 1860W provides a basis for understanding the diversity of experiences and values in our contemporary, global society.

In addition to regular credit hours and grade points, honors seminars carry honors points toward graduation with the designation "Honors in the College of Arts and Science." College Scholars must earn fifteen honors points to receive that designation (they are not required to earn this designation but may take as many honors seminars as they wish). They may earn up to thirteen of the required fifteen points in honors seminars: three points each for the first time they take Honors 1810W, 1820W, 1830W, 1840W, 1850W, or 1860W; one point if they take a second seminar in the same area. Single honors points may be earned (a) in departmental honors sections of regular courses, (b) in independent study approved by the associate dean for honors programs, and (c) in a regular course in which an enriched curriculum approved by the Committee on the Honors Program is pursued. Honors points are only earned for courses in which the student earns the grade B or better.

Course descriptions begin on page 185.

Interdisciplinary Studies

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/. Any student who is at least a sophomore and in good academic standing may earn one credit hour per semester or summer for an internship completed under the designation INDS 3880/3884 (summer) exclusively on a Pass/Fail basis. This course may be repeated twice for a maximum of three credit hours. Students are responsible for obtaining their own internship and faculty adviser. The student and faculty adviser work together to plan the academic project associated with the internship. Their agreement must be approved by Associate Dean Yollette Jones.

Jewish Studies

DIRECTOR Allison Schachter
ASSOCIATE DIRECTOR Adam Meyer
PROFESSORS Robert F. Barsky, Lenn Goodman, Amy-Jill Levine, David J. Wasserstein
ASSISTANT PROFESSOR Nina Warnke
SENIOR LECTURER Judith Klass
LECTURER Yifat Crouvi

JEWISH Studies at Vanderbilt offers an interdisciplinary academic program that facilitates the critical study of Jewish history, religion, language, philosophy, politics, culture, society, music, art, and literature across continents and over three millennia. Integral to understanding crucial moments in the formation of Christianity and Islam as well as distinct episodes in the cultures of the modern Middle East, Europe, and America, the program accesses the resources of the entire university to explore Judaism, its evolution and expression from biblical times to the present. This interdisciplinary program reflects Vanderbilt's commitment to advancing the understanding of diverse cultures and traditions. Students of all backgrounds will find in Jewish Studies at Vanderbilt a wide array of material and methodologies, presented by scholars from history, anthropology, sociology, religious studies, philosophy, literature, and history of art. Students may focus on several areas of concentration and tailor the major to their academic and career interests. They also have access to courses offered by the schools of divinity, education, and music; they have access to the Zimmerman Judaica collection as well as the opportunity to study abroad, pursue internships locally or nationally, and do research in archives overseas. The interdisciplinary nature of Jewish Studies offers excellent preparation for graduate studies and provides an outstanding academic foundation for a variety of rewarding career paths. Visit as.vanderbilt.edu/jewishstudies for more details.
Program of Concentration in Jewish Studies

The major in Jewish studies requires a minimum of 30 credit hours.

1. **Foundational course, 3 credit hours.** JS 1002 or 1002W, Introduction to Jewish Studies.

2. **Language, 6 credit hours.** A year of modern Hebrew (Hebrew 2201–2202, Intermediate Hebrew) or biblical Hebrew (REL 5120, Intermediate Hebrew).* Proficiency at the level of intermediate Hebrew can be demonstrated through testing. If this option is exercised, students will take an additional 6 credit hours of electives toward the major.

   *In place of biblical or modern Hebrew, interested students may substitute one of the following languages of the Jewish people: Rabbinic Hebrew, Aramaic, Yiddish, Ladino, or Judaeo-Arabic. For languages not presently taught at Vanderbilt, proficiency at the intermediate level may be demonstrated through an exam administered by a designated member of the Jewish Studies faculty. If this option is exercised, students will take an additional 6 credit hours of electives toward the major.

3. **Focus courses, 12 credit hours** selected from three of four subfields of study:
   - **Area 1: Biblical Studies**
   - **Area 2: Antiquity and the Medieval World**
   - **Area 3: Modern and Contemporary Experience**
   - **Area 4: Culture, Philosophy, and Literature**

4. **Senior capstone course, 3 credit hours.** JS 4970, Senior Project in Jewish Studies. Senior Project proposal must be approved by the director of undergraduate studies.

5. **Electives (minimum of 6 credit hours)—**Any of the courses listed below that are not used to fulfill a requirement towards the major may be counted as an elective with the exception of JS 3880, which cannot count toward the major because it must be taken Pass/Fail. In addition to courses drawn from Arts and Science departments and the professional schools, nontraditional course work may also be selected, including archaeology at Tel Megiddo (Israel), service learning, and internships. Study abroad is encouraged and can be fulfilled with CET Jewish Studies in Prague and at the Hebrew University of Jerusalem.

Honors Program

The Honors Program in Jewish Studies offers superior students a more intensive concentration within their major field. Admission to the program requires:

1. A 3.3 cumulative grade point average.
2. A 3.3 cumulative grade point average in Jewish Studies.
3. Completion of the junior year.

Requirements for graduation with honors in Jewish Studies are:

1. 6 credit hours in Honors sections (JS 4980–4981), including completion of thesis—these credit hours may count as elective credit toward the major. Honors thesis is to be completed by mid-spring of the senior year.
2. Successful completion of an honors oral examination on the topic of the thesis.

Minor in Jewish Studies

The minor in Jewish studies provides a basic understanding of Jewish history and culture across continents and the past three millennia. The minor requires a minimum of 18 credit hours.

1. **Foundational course, 3 credit hours.** JS 1002 or 1002W, Introduction to Jewish Studies.
2. **Focus courses, 6 credit hours.** (See major for categories.)
3. **Electives (minimum of 9 credit hours)**

   Any of the courses listed below that are not used to fulfill a requirement toward the minor may be counted as an elective. Special Topics courses or First-Year Writing Seminar courses dealing with topics related to Jewish studies may be counted with the approval of the program director.

Pérez (Political Science), Norbert O. Ross (Anthropology), Mariano Sana (Sociology), Mavis Schorn (Nursing), Jose Sibaja (Music), Jada Benn Torres (Anthropology), Tiffany A. Tung (Anthropology), Steven A. Warneke (Anthropology), Gilman Whiting (African American and Diaspora Studies)

ASSISTANT PROFESSORS Candice Amich (English), Adriana Bialostozky (Medicine), Carwil Bjork-James (Anthropology), Corey Brady (Education), José Cárdenas Bunsen (Spanish), Kathryn Carlson (Medicine), Ashley Carse (Education), Celso Castilho (History), Ana Christina da Silva Iddings (Education), Neerav Desai (Medicine), Andrew Dustan (Economics), Federico Gutierrez (Economics), Brian Heuser (Education), Maria Luisa Jorge (Earth and Environmental Sciences), Marzia Milazzo (English), Cecilia Hyunjung Mo (Political Science), Alicia Monroe (African American and Diaspora Studies), Alistair Newburn (Law), Yolanda Pedero (Law), W. Frank Robinson (History), Susan G. Stewart (Astronomy), Sarah Vanhooser Suiter (Education), Thomas Verrier (Music), Zina Yzyquierdo (Education), Carol Ziegler (Nursing)

SENIOR LECTURERS Frances Alpren (Spanish), Ana Regina Andrade (Economics), Jose Aznar (Spanish), Joe Bandy (Sociology), Lorraine Catanarzo (Spanish), Rachel Chigurui (Spanish), Paula Covington (Latin American Studies), Sarah Delassus (Spanish), Avery Dickins de Girón (Latin American Studies), Heraldo Falconi (Spanish), Victoria Gardner (Spanish), Chalene Helmuth (Spanish), Clint Hendrix (Spanish), Nicolette Kostiw (Latin American Studies), Benjamin Legg (Portuguese), Alicia Lorenzo (Spanish), Natasha McClure (Nursing), Ryan Middagh (Music), Spring Miller (Law), Patrick Murphy (Spanish), Michael Newton (Law), Elena Olayagasti-Segovia (Spanish), Amariolis Ortiz (Spanish), David Owens (Management), Carolina Palacios (Spanish), Gina M. Perez (Medicine), Maria Paz Pintane (Spanish), Mareke Sattler (Anthropology), James Schorr (Management), Waldir Sepúlveda (Spanish), Jeff Shenton (Anthropology), Cynthia Wasick (Spanish), Catesby Yant (Anthropology)

DESIGNATED by the U.S. Department of Education as a National Resource Center for Latin America, Vanderbilt’s Center for Latin American Studies draws on departmental strengths and faculty expertise from across campus. Integrating teaching, research, and service, the center maintains substantive collaborations with all of Vanderbilt’s colleges and schools. The center has special strengths in Maya studies, Brazilian studies, Andean studies, and the Black Atlantic, as well as unique library collections of Colombiana. Programs of instruction provided by the center promote greater understanding of the region’s history, culture, political economy, and social organization and cultivate the ability to think strategically about global issues.

Faculty and courses come from the Departments of Anthropology, Economics, History, History of Art, Political Science, Sociology, and Spanish and Portuguese as well as from Vanderbilt’s education, engineering, law, management, medical, music, and nursing schools. The center fosters a lively research community on campus by sponsoring colloquia, conferences, films, and a speaker series that brings distinguished scholars, government and business leaders, and social activists to campus.

For undergraduates, the Program in Latin American Studies offers an interdisciplinary undergraduate major and a minor in Latin American Studies, as well as a minor in Brazilian studies. The program also offers summer opportunities in Brazil and Guatemala, and facilitates study abroad and service learning opportunities in Latin American countries. An honors program is available.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in Latin American Studies

The major in Latin American studies consists of 36 credit hours plus a language requirement.

I. Language Requirement
   demonstrated proficiency

II. Core Courses
   6 credit hours

III. Distribution Requirements
   12 credit hours

IV. Area of Concentration
   12 credit hours

V. Electives
   6 credit hours

Note: No course may be counted twice in calculating the 36 credit hours. Upon approval of the Committee on Individual Programs and the student's adviser, (a) as many as 6 credit hours may be counted as part of both the interdisciplinary major and a second major, or (b) normally, no more than three introductory-level courses will be counted toward the interdisciplinary major.

I. Language Requirement. A student must acquire advanced knowledge of one Latin American language (Spanish, Portuguese, or an indigenous language) and an intermediate knowledge in another Latin American language. The requirement to acquire advanced knowledge of a Latin American language may be satisfied by completing Spanish 3303, or any course with a higher number taught in Spanish, or any course with a higher number taught in Portuguese. The requirement to acquire intermediate knowledge of another Latin American language may be satisfied by successfully completing Spanish 2203, Portuguese 2203, or K'iche' 1101 (formerly Anthropology 2612 indigenous language) Intro to a Maya Language. Individual standardized testing may also be used to demonstrate knowledge.

II. Core Courses (6 credit hours)
   LAS 2101, Introduction to Latin America
   LAS 4901, Research Seminar

III. Distribution Requirements (12 credit hours). Two relevant classes in two of the following three areas not chosen as the major area of concentration.

A) History

B) Language, Literature, and Art History (Departments of Spanish & Portuguese and History of Art)

C) Social Sciences (Departments of Anthropology, Economics, Political Science, Sociology).

IV. Area of Concentration (12 credit hours from one of the following areas; special topics and independent study courses must be approved for sufficient LAS content by major adviser):

A. History.

HISTORY: 1370, Colonial Latin America; 1378, Social Movements in Latin America, 1780–1912; 1380, Modern Latin America; 2450, Reform, Crisis, and Independence in Latin America, 1700–1820; 2470, Modern Mexico; 2490, Central America; 2490, Brazilian Civilization; 2510, Reform and Revolution in Latin America; 2530, African Religions in the Americas; 2535, Latin America and the United States; 2540, Race and Nation in Latin America; 2570, Caribbean History, 1492–1983; 3280, Popular Cultures in Modern Latin America; 3850, Independent Study; 3890, Selected Topics in History.

LATIN AMERICAN STUDIES: 2102, Introduction to Brazil.

B. Language, Literature, History of Art.

AFRICAN AMERICAN AND DIASPORA STUDIES: 1706, Capoeira: Afro-Brazilian Race, Culture, and Expression; 2148, Blacks in Latin America and the Caribbean; 2356, African Spirits in Exile: Diaspora Religions in the Americas; 3248, Atlantic African Slave Trade.

CREOLE: 1101, Elementary Creole I; 1102, Elementary Creole II; 2201, Intermediate Creole I; 2202, Intermediate Creole II.

K’ICHE’: 1101, Elementary K’ICHE’ I; 1102, Elementary K’ICHE’ II; 2201, Intermediate K’ICHE’ I; 2202, Intermediate K’ICHE’ II.

LATIN AMERICAN STUDIES: 2102, Introduction to Brazil; 2301, Music of Protest and Social Change in Latin America; 4550, Gender, Sexuality, and Family in Latin America.

PORTUGUESE: 1103, Intensive Elementary Portuguese; 2203, Intermediate Portuguese; 3301, Portuguese Composition and Conversation; 3302, Brazilian Pop Culture; 3303, Introduction to Luso-Brazilian Literature; 3850, Independent Study; 3892, Special Topics in Portuguese Language, Literature, or Civilization; 4350, Brazilian Culture through Native Material; 4420, Brazilian Literature through the Nineteenth Century; 4425, Modern Brazilian Literature.

SPANISH: 2203, Intermediate Spanish; 2995, Contemporary Latin American Prose Fiction in English Translation; 3303, Introduction to Spanish and Spanish American Literature; 3320, Introduction to Hispanic Cultural Studies; 3330, Cultural Studies in the Andes; 3340, Advanced Conversation; 3345, Spanish for Business and Economics; 3350, Spanish for the Legal Profession; 3355, Advanced Conversation through Cultural Issues in Film; 3360, Spanish Civilization; 3375, Film and Culture in Latin America; 3830, Spanish for the Medical Profession; 3835, Latino Immigration Experience; 3850, Independent Study; 3891, Special Topics in Hispanic Culture; 3892, Special Topics in Spanish Language and Linguistics; 3893, Special Topics in Hispanic Literature; 4310, Translation and Interpretation; 4325, Dialectology; 4340, History of the Spanish Language; 4400, The Origins of Spanish Literature; 4405, Literature of the Spanish Golden Age; 4415, Spanish Literature from 1900 to the Present; 4420, Spanish American Literature from the Conquest to 1900; 4425, Spanish American Literature from 1900 to the Present; 4440, Development of the Short Story; 4445, Development of the Novel; 4450, The Contemporary Novel; 4455, Development of Drama; 4465, The Theory and Practice of Drama; 4470, Development of Lyric Poetry; 4620, Love and Honor in Medieval and Golden Age Literature; 4640, Don Quixote; 4720, Literary Genres and National Identities in Latin America; 4725, Jungle Narratives in Latin America; 4730, Modern Latin American Poetry; 4750, Afro-Hispanic Literature; 4755, Latina and Latin American Women Writers; 4760, Literature and Medicine; 4810, Images of the City.

C. Social and Natural Sciences.

Note: Students who successfully complete an Economics course on this list numbered 4520W or higher may also receive Area of Concentration credit for successfully completing either Economics 3010 or 3020.

MEDICINE, HEALTH, AND SOCIETY: 3210, Health, Development, and Culture in Guatemala; 3212, Health, Development, and Culture in Guatemala.
An honors program is available, acceptance into which must be approved by the director of undergraduate studies. Students must have a minimum 3.3 cumulative GPA and a 3.3 GPA in courses that count toward the Latin American studies major to be accepted into the program. The Honors Program requires: completion of 6 credit hours in LAS 3851 and 3852; the writing of an honors thesis; and passing an oral honors examination. Interested students should consult their academic adviser during their junior year.

HONORS: 1860W, Honors Seminar: International Honors Program

Minor in Latin American Studies

Students must complete 15 credit hours of approved courses with Latin American content including Latin American Studies 2101. In addition, students must demonstrate intermediate knowledge of one Latin American language by successfully completing Spanish 2203, Portuguese 2203, or K’iche’ 1101 (indigenous language). Courses taken to satisfy the language requirement may not be counted toward the 15 credit hours of core courses. Individual standardized testing may also be used to demonstrate knowledge.

Course selection must be approved by the undergraduate adviser of the Program in Latin American Studies.

Minor in Brazilian Studies

The Program in Latin American Studies also offers a minor in Brazilian studies. Students must complete 15 credit hours of approved courses with Brazilian content including LAS 2102 and Portuguese 2203. In addition, students must complete three additional courses from the Areas of Study listed below: one course in Area I, one course in Area II, and one course in Area III. Proficiency at the level of intermediate Portuguese can be demonstrated through testing. If this option is exercised, students must take 3 credit hours of course work approved by the director of undergraduate studies in lieu of the 3 credit hours of PORT 2203.

Course selection must be approved by the director of undergraduate studies for Latin American Studies. Other elective courses, including special topics courses, may be counted toward the minor with the approval of the director of undergraduate studies.

Requirements for completion of the minor include at least 15 credit hours as follows:

1. 3 credit hours of LAS 2102: Introduction to Brazil
2. 3 credit hours of PORT 2203: Intermediate Portuguese (PORT 1103 is a prerequisite)
3. 3 credit hours from Area I: Portuguese Language and Literature
4. 3 credit hours from Area II: Brazilian Society, History, and Cultures
5. 3 credit hours from Area III: Brazil in Regional and Global Context

Areas of Study

Area of Study I: Portuguese Language and Literature

PORTUGUESE: 3301, Portuguese Composition and Conversation; 3303, Introduction to Luso-Brazilian Literature; 4420, Brazilian Literature through the Nineteenth Century; 4425, Modern Brazilian Literature.

Area of Study II: Brazilian Society, History, and Cultures

ANTHROPOLOGY: 2108, Indigenous Peoples of Lowland South America. HISTORY: 2490, Brazilian Civilization.

PORTUGUESE: 3302, Brazilian Pop Culture; 4350, Brazilian Culture through Native Material; 3891, Special Topics in Portuguese and Brazilian Literature or Civilization in English Translation.

Area of Study III: Brazil in Regional and Global Context

AFRICAN AMERICAN AND DIASPORA STUDIES: 2148, Blacks in Latin America and the Caribbean; 3248, Atlantic African Slave Trade; 1706, Capoeira: Afro-Brazilian Race, Culture, and Expression.

ANTHROPOLOGY: 2106, Culture and Power in Latin America.

ECONOMICS: 2220, Latin American Development.

HISTORY: 1370, Colonial Latin America; 1380, Modern Latin America; 2450, Reform, Crisis, and Independence in Latin America, 1700–1820; 2510, Reform and Revolution in Latin America; 2540, Race and Nation in Latin America.

POLITICAL SCIENCE: 3217, Latin American Politics; 3228, International Politics of Latin America.

SOCIOLOGY: 3231, Contemporary Latin America.

Course descriptions begin on page 190.

Latino and Latina Studies

DIRECTOR William Luis
ASSOCIATE DIRECTOR Lorraine López
ASSISTANT DIRECTOR Gretchen Selcke
ASSISTANT PROFESSORS Candice Amich (English), Marzia Milazzo (English)

LATINO and Latina Studies focuses on cultural production and political and socioeconomic experiences of people inculcated with the U.S. experience, self-identifying as Latinos and Latinas and communicating primarily in English and sometimes in Spanish. The LATS major and minor will examine this enduring and dynamic population that crosses and re-crosses borders constructed by geography, linguistics, class, race, and gender.

This program of study is designed to accommodate a range of voices and multiple manifestations of Latino and Latina identity and cultural expression in historical and contemporary contexts to fill in this vital but often overlooked component of our national identity and discourse.

Students pursuing a LATS major or minor are expected to obtain language competence in Spanish before completing the program, though they do not need to meet this requirement when declaring the major or minor. Students may satisfy this
Program of Concentration in Latino and Latina Studies

The interdisciplinary major in Latino and Latina studies consists of thirty-six (36) credit hours. The specific requirements are as follows:

1. LATS 2201, Introduction to Latino and Latina Studies (3 credit hours)
2. SPAN 3303, Introduction to Spanish and Spanish American Literature (3 credit hours)
   SPAN 3303 requires up to 19 prerequisite credit hours of Spanish language instruction through SPAN 3302, depending on departmental placement.
3. ENGL 3658, Latino-American Literature (3 credit hours)
4. LATS 4961, Latino and Latina Studies Seminar, which is usually taken in the senior year (3 credit hours)
5. Eight elective courses (24 credit hours) with at least two courses from Group A (Latino and Latina Culture) and two courses from Group B (Historical Context), that have not already been applied to satisfy above requirements.

Minor in Latino and Latina Studies

Students pursuing the interdisciplinary minor must complete eighteen (18) credit hours. The specific requirements are as follows:

1. LATS 2201, Introduction to Latino and Latina Studies (3 credit hours)
2. SPAN 3303 or ENGL 3658 (3 credit hours)
   If both courses are taken, only one may be applied as elective credit.
3. LATS 4961, Latino and Latina Studies Seminar (3 credit hours)
4. Three other courses (9 credit hours), with at least one course from Group A (Latino and Latina Culture) and one course from Group B (Historical Context), that have not already been applied to satisfy above requirements.

Approved List of Courses

Category A: Latino and Latina Culture

HISTORY: 2725, Race, Power, and Modernity.
HUMAN AND ORGANIZATIONAL DEVELOPMENT: 2510, Health Service Delivery to Diverse Populations.
SPANISH: 3302, Spanish for Oral Communication Through Cultural Topics; 3303, Introduction to Spanish and Spanish American Literature; 3345, Spanish for Business and Economics; 3830, Spanish for the Medical Profession; 4310, The Contemporary Novel; 3835, Latino Immigration Experience; 4750, Afro-Hispanic Literature; 4755, Latina and Latin American Women Writers.

Category B: Historical Context

AFRICAN AMERICAN AND DIASPORA STUDIES: 3178, Colonialism and After.
ENGLISH: 3674, Caribbean Literature.
HISTORY: 1380, Modern Latin America; 1383, Slave Resistance in the Americas; 1385W, Disease and Disorder in the Atlantic World; 2450, Reform, Crisis, and Independence in Latin America, 1700–1820; 2457, Drug Trafficking and Society in Latin America; 2480, Central America; 2510, Reform and Revolution in Latin America; 2570, Caribbean History, 1492–1983; 2580, American Indian History before 1850; 2590, American Indian History since 1850.
LATIN AMERICAN STUDIES: 2101, Introduction to Latin America; 4550, Gender, Sexuality, and Family in Latin America.
MUSIC LITERATURE: 2110, Music in Latin America and the Caribbean.
SOCIOLOGY: 3231, Contemporary Latin America; 3602, Change and Social Movements in the Sixties.
SPANISH: 3365, Film and Recent Cultural Trends in Spain; 3892, Special Topics in Spanish Language and Linguistics; 4450, The Contemporary Novel; 4465, The Theory and Practice of Drama; 4740, Spanish-American Literature of the Boom Era; 4760, Literature and Medicine.

Category C: Critical Perspectives

AFRICAN AMERICAN AND DIASPORA STUDIES: 1010, Introduction to African American and Diaspora Studies.
PHILOSOPHY: 3617, Philosophy of Language.
POLITICAL SCIENCE: 2208, Law, Politics, and Justice; 2219, Politics of Mexico; 3217, Latin American Politics; 3228, International Politics of Latin America; 3264W, Global Feminisms.
SOCIOLOGY: 3312, Environment and Development; 3232, Contemporary Mexican Society; 3314, Environmental Inequality and Justice; 3612, Class, Status, and Power; 3701, Racial Domination, Racial Progress; 3704, Race, Gender, and Sport.
WOMEN’S AND GENDER STUDIES: 1150/1150W, Sex and Gender in Everyday Life; 3201, Women and Gender in Transnational Context.

Course descriptions begin on page 190.
Managerial Studies

DIRECTOR Gary R. Kimball
ASSOCIATE DIRECTOR Joseph J. Rando
ADJUNCT PROFESSORS Corey M. Cleek, David H. Furse, Stuart A. Garber, David H. Stacey
ASSOCIATE PROFESSORS OF THE PRACTICE Gary R. Kimball,
    Michael K. Lawson, Patrick R. Leddin, Joseph J. Rando, Garnett H. Slatton, Brent E. Trentham
ADJUNCT ASSOCIATE PROFESSOR Janet M. McDonald
LECTURERS Douglas D. Edwards, Joseph H. Estes, Willis J. Hulings,
    Gary C. McClure, Kerry Oliver, Suzanne M. Reed, Kevon Saber

THE College of Arts and Science offers two minors in the liberal arts tradition to help students understand management functions, corporate strategy, and financial economics. These two minors are administered by the Managerial Studies program. Each of the minors has a distinct focus with basis in economics and accounting. Due to an institutional review of the university's undergraduate course offerings in business, first-year students entering in the fall of 2016 or later may not declare the minors in Managerial Studies.

The program is directed by Professor Gary R. Kimball, 215 Calhoun Hall, (615) 322-4021.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Minor in Managerial Studies: Corporate Strategy

The minor in corporate strategy requires 18 credit hours.

The following courses are required:
FNEC 1600 Financial Accounting
MGRL 1100 Fundamentals of Management
MGRL 3250 Corporate Strategy

Three elective courses to be chosen from:
MGRL 1200 Principles of Marketing
MGRL 2300 Entrepreneurship: The Business Planning Process
MGRL 3105 Negotiation
MGRL 3110 Business Management
MGRL 3200 Advanced Marketing
MGRL 3209 Creative Advertising
MGRL 3300 Entrepreneurial Challenge
FNEC 2600 Managerial Accounting
FNEC 2700 Corporate Finance
FNEC 3705 Financial Management

Minor in Managerial Studies: Financial Economics

The minor in financial economics requires 18 credit hours.

The following courses are required:
ECON 1500 Economic Statistics
or 1510 Intensive Economic Statistics
FNEC 1600 Financial Accounting
FNEC 2700 Corporate Finance

Three elective courses to be chosen from:
FNEC 2600 Managerial Accounting
FNEC 3700 Investment Analysis
FNEC 3705 Financial Management

Mathematics

CHAIR Mike Neamtu
VICE CHAIR John Ratcliffe
DIRECTOR OF UNDERGRADUATE STUDIES John Rafter
DIRECTOR OF GRADUATE STUDIES Denis Osin
PROFESSORS EMERITI Philip S. Crooke, Richard R. Goldberg, Matthew Gould, Robert L. Hemminger, Ettore F. Infante, Richard J. Larsen, Michael D. Plummer, Eric Schechter, Horace E. Williams, Daoxing Xia
ASSOCIATE PROFESSORS Jesse Peterson, Alexander Powell, Ioana Suvaina, Steven T. Tschantz
ASSISTANT PROFESSORS Valeriano Aiello, Scott Atkinson, Anna Marie Bohmann, Jonathan Campbell, Cheng Chu, Marcelo Disconzi, Spencer Dowdall, Gili Golan, Keaton Hamm, Matthew Haulmark, Woden Kusner, Gengyu Luo, Giuseppina Mazzone, Robert McRae, Andrew Moorhead, Rares Rasdeaconu, Rudy Rodsphon, Songling Shan, Caglar Uyanik, Grace Work, Xiangxi Wu
SENIOR LECTURER EMERITA Jo Ann W. Staples
SENIOR LECTURERS Derek Bruff, Linda Hutchisson, Pamela Pigg, John Rafter, Lori Rafter, Jakayla Robbins

THE Department of Mathematics offers an undergraduate major with a high degree of flexibility. A solid background in mathematics provides an excellent foundation for any quantitative discipline as well as many professions—many students go on to professional studies in law, medicine, or business.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in Mathematics

Three tracks are available.

Program I (Standard Track) is intended for most mathematics majors in the College of Arts and Science, Blair School of Music, and Peabody College. Program II (Applied Track) is intended for students in the School of Engineering who elect a second major in mathematics, but is also available for other students.

Program III (Honors Track) is intended for highly qualified students who either are preparing for graduate studies in mathematics or plan to graduate with departmental honors. Students who complete this program and, in addition, complete a senior thesis will graduate with departmental honors.

Requirements for the three tracks are summarized below:

Program I (Standard Track).
At least 32 credit hours in mathematics including at least 15 credit hours taken at Vanderbilt, as follows.
2. Linear algebra and differential equations: 2600 or 2500–2501, and 2610.
3. At least 15 additional credit hours from 2800 or above.
4. The remainder of the credit hours must be chosen from 2800 or above.

Program II (Applied Track).
At least 29 credit hours in mathematics including at least 15 credit hours taken at Vanderbilt and 6 credit hours outside the department, as follows.
1. A calculus sequence as in Program I.
2. Linear algebra and differential equations—one of the following:
   (a) one of 2410, 2600, or 2500–2501, and one of 2420 or 2610; or
   (b) 2400 and either 2600 or 2500–2501.
3. At least 12 additional credit hours from 2800 or above, excluding 3000.
4. The remainder of the credit hours in mathematics must be chosen from 2800 or above.
5. At least 6 credit hours of advanced, mathematically based science or engineering courses approved by the director of undergraduate studies. This requirement is automatically fulfilled by students who complete a physics major or a major in the School of Engineering.

Program III (Honors Track).
At least 38 credit hours in mathematics including at least 15 credit hours taken at Vanderbilt, as follows.
1. A calculus sequence as in Program I.
2. Linear algebra and differential equations as in Program I.
3. At least 21 additional credit hours of advanced course work, (a) including four courses taken from the following three categories, at least one from each category:
   1) Algebra: 3300, 4300, 4301.
   2) Analysis: 3100, 3110, 6100, 6101.
   3) Topology and Geometry: 3200, 3230, 4200, 4201, 4220, 6210.
   (b) The remainder of the 21 credit hours must be chosen from 2800 or above, excluding 4999.
4. The remainder of the credit hours must be chosen from 2800 or above.

Students who complete Program III and, in addition, fulfill the Honors requirements listed below, will graduate with departmental honors.

Students planning to teach in secondary school should contact the director of secondary education programs in the Department of Teaching and Learning at Peabody College for course recommendations.

Honors Program

The Honors Program in Mathematics is designed to afford superior students the opportunity to pursue more intensive work within their major field. The program requires:
1. Completion of all the requirements of Program III (Honors Track).
2. Graduate with a minimum grade point average of 3.6 in courses that count toward the mathematics major.
3. Completion of a senior thesis in Math 4999 (3 credit hours) in the second semester of the senior year. With approval of the director of undergraduate studies, the thesis may be based on research initiated or completed at another academic institution, such as during an NSF-sponsored REU program.
4. Oral examination on the senior thesis. A committee of at least three faculty members—at least two from the Department of Mathematics, one being the thesis adviser—shall evaluate the thesis and the oral examination. Exceptional achievement on the thesis will earn highest honors.

Interested students may apply to the director of undergraduate studies for admission to the Honors Program in their junior year or the first semester of their senior year. Applicants must meet college requirements for entry to the Honors Program, and must maintain a minimum grade point average of 3.6 in courses that count toward the mathematics major.

The application includes a one- to two-page proposal of the planned thesis and the signature of the faculty member who will be the thesis adviser.

The thesis must be submitted no later than two weeks before the end of classes in the semester of graduation. The oral examination will take place by the last day of classes in the semester of graduation. Highest honors will be awarded for a thesis that contains original high-quality research results in combination with an oral defense at the highest quality level.

Students may sign up for Math 4999 during one semester of their senior year. Math 4999 will not count toward the 21 credit hours requirement in Program III.

Please consult the director of undergraduate studies for details.

Minor in Mathematics

The minor in mathematics requires at least 15 credit hours in mathematics, including:
1. Completion of a calculus sequence: 2300 or 2500–2501.
2. Linear algebra and differential equations: as in the Program II major.
3. At least 6 credit hours not used to satisfy item 2 from 2800 or above.

Completion of a single-variable calculus sequence (1200–1201–2200 or 1300–1301) is a prerequisite for the minor, but does not count toward the credit hours of the minor.
Candidates for teacher licensure at the secondary level in mathematics should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Several calculus sequences are available:

1100; 1200–1201; 1300–1301–2300.

The courses in these sequences cover similar material, but at different rates, and therefore overlap in content and credit. Students should not switch from one to another without approval of the department. Such switching may result in loss of credit.

The combination of 2500–2501 is a blend of multivariable calculus and linear algebra, with an emphasis on rigorous proofs.

Duplicate Credit Policies

Deduction of credit caused by duplication proceeds as follows. Students who earned math credit at Vanderbilt from another sequence that duplicates this credit will lose credit from the Vanderbilt course.

1. through Advanced Placement/International Baccalaureate in one sequence and complete a course at Vanderbilt from another sequence that duplicates this credit will lose credit from the Advanced Placement/International Baccalaureate earnings.

2. by transfer in one sequence and complete a course at Vanderbilt from another sequence that duplicates this credit will lose credit from the Vanderbilt course.

3. at Vanderbilt in one sequence and complete a course at Vanderbilt from another sequence that duplicates this credit will lose credit from the second Vanderbilt course.

THE Program in Medicine, Health, and Society offers an interdisciplinary major (36 credit hours) and minor (18 credit hours) for students interested in studying health-related beliefs and practices in their social and cultural contexts. As part of the requirements of the major, students must declare and complete 12 credit hours in one of the six concentrations in Medicine, Health, and Society: global health; health behaviors and health sciences; health economics and policy; inequality, intersectionality, and health justice; medicine, humanities, and arts; or critical health studies. An honors program is available. MHS draws on a variety of fields in the social sciences and humanities—anthropology, economics, history, literature, philosophy/ethics, psychology, sociology, and religious studies. The major will be of particular interest to students preparing for careers in health-related professions as well as to students interested in examining an important part of human experience from multiple perspectives and developing a critical understanding of contemporary society. Students are encouraged to take advantage of the opportunities offered by the Center for Medicine, Health, and Society. Visit vanderbilt.edu/mhs for more details.

The program is directed by Jonathan M. Metzl, Frederick B. Rentschler II Professor of Sociology and Medicine, Health, and Society.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Medicine, Health, and Society

The major requires a minimum of 36 credit hours of course work, distributed as follows:

Note: No more than 21 credit hours may be in courses designated MHS. Other than MHS, no more than 12 credit hours...
may be in the same subject area; A&S Psychology and Peabody Psychology are considered the same subject area for purposes of the major/minor.

1. Core Courses — Students must complete one of the following (3 credit hours):
   - ANTH 2342, Biology of Inequality
   - MHS 1920, Politics of Health
   - MHS 1930, Social Dimensions of Health and Illness
   - MHS 1940, Racial and Ethnic Health Disparities
   - MHS 1950, Theories of the Body
   - MHS 2110, American Medicine in the World
   - MHS 2230, Masculinity and Men’s Health

2. Concentration — Students must complete four courses not used to satisfy the core course requirement or the elective requirements in one of the following six concentrations (12 credit hours). Students must declare one of the following concentrations when they declare the major.
   - Note: Courses must be from at least two subject areas.
     A. Global health
     B. Health policies and economies
     C. Health behaviors and health sciences
     D. Inequality, intersectionality, and health justice
     E. Medicine, humanities, and arts
     F. Critical health studies

See below for a list of courses that count for Concentrations A, B, C, D, and E. Students choosing concentration F must propose a set of four courses (12 credit hours) that form a coherent program of study related to critical health studies and receive approval from the director of undergraduate studies.

3. Electives — Seven courses not used to satisfy the core course or concentration requirements chosen from the list of approved courses (21 credit hours).

4. Disciplinary Requirement — At least 3 credit hours from the following courses must be used to satisfy the concentration requirement or electives requirement.
   - ANTH 3143, Medical Anthropology
   - ANTH 3141, Anthropology of Healing
   - ECON 2350, Health Care Policy
   - ECON 3350, Economics of Health
   - HIST 2800, Modern Medicine
   - MHS 3050W, Medicine and Literature
   - PHIL 1008, Introduction to Medical Ethics
   - PHIL 3608, Ethics and Medicine
   - PSCI 3268, American Health Policy
   - PSY 3635, Health Psychology
   - SOC 3301, Society and Medicine
   - SOC 3304, Race, Gender, and Health
   - WGS 2240, Introduction to Women’s Health

In order to graduate with a major in MHS, students must take a written exam in the second semester of their senior year. (Students who are away during the second semester of their senior year because they are studying abroad or graduating early should schedule the exam during the first semester.) The exam is not graded and no grade will appear on the student's transcript. The purpose of the exam is to ascertain the extent to which MHS majors demonstrate knowledge of the MHS curriculum.

Honors Program

The Honors Program in Medicine, Health, and Society offers superior students a more intensive concentration within their major field. Admission to the program requires:

1. A 3.3 cumulative grade point average.
2. A 3.3 cumulative grade point average in courses that count toward the Medicine, Health, and Society major.
3. An application that (a) describes the proposed topic; (b) identifies the faculty member who will serve as the thesis adviser; and (c) includes a letter of recommendation from the proposed thesis adviser.

Completion of the program requires:

- Two semesters, 3 credit hours each semester of the senior year in MHS 4998/4999.
- An honors thesis of approximately fifty pages that reveals an interdisciplinary perspective, submitted no later than two weeks before the end of classes in the second semester of the senior year, and approved by a committee of at least two faculty members (one of whom must be affiliated with Medicine, Health, and Society).

- Successful completion of an oral examination focusing on the topic of the thesis.

Minor in Medicine, Health, and Society

The minor consists of a minimum of 18 credit hours of course work, distributed as follows:

- Note: No more than 9 credit hours may be in the same subject area; A&S Psychology and Peabody Psychology are considered the same subject area for purposes of the major/minor.

1. Core Courses — Students must complete one of the core courses of the major (3 credit hours).

2. Concentration — Students must complete three courses in one of the following five concentrations (9 credit hours). Students must declare one of the following concentrations when they declare the minor.
   - A. Global health
   - B. Health policies and economies
   - C. Health behaviors and health sciences
   - D. Inequality, intersectionality, and health justice
   - E. Medicine, humanities, and arts

3. Electives — Two additional courses, excluding those with an asterisk, chosen from the list of approved courses. (6 credit hours)

4. Disciplinary Requirement — At least 3 credit hours from the following courses must be used to satisfy the concentration requirement or electives requirement.
   - ANTH 3143, Medical Anthropology
   - ANTH 3141, Anthropology of Healing
   - ECON 2350, Health Care Policy
   - ECON 3350, Economics of Health
   - HIST 2800, Modern Medicine
   - MHS 3050W, Medicine and Literature
   - PHIL 1008, Introduction to Medical Ethics
   - PHIL 3608, Ethics and Medicine
   - PSCI 3268, American Health Policy
   - PSY 3635, Health Psychology
   - SOC 3301, Society and Medicine
SOC 3304, Race, Gender, and Health
WGS 2240, Introduction to Women’s Health

Approved Courses
(please consult the director of undergraduate studies for approval of “as appropriate” courses in concentration areas.)

CONCENTRATION A: Global Health

AMERICAN STUDIES: 3200, Global Perspectives on the U.S.
ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 3143, Medical Anthropology.
ASIAN STUDIES: 2630, Chinese Medicine.
BIOLOGICAL SCIENCES: 1111, First-Year Writing Seminar (as appropriate); 3965, Undergraduate Seminar (as appropriate).
FRENCH: 3112, Medical French in Intercultural Contexts.
HISTORY: 1111, First-Year Writing Seminar (as appropriate); 2160, Medicine in Islam.
HUMAN AND ORGANIZATIONAL DEVELOPMENT (PEABODY): 3200, Global Dimensions of Community Development; 3231, Introduction to Health Services.
INTERDISCIPLINARY STUDIES: 3831, Global Citizenship and Service; 3832, Global Community Service; 3833, Seminar in Global Citizenship and Service (as appropriate).
MEDICINE, HEALTH, AND SOCIETY: 2110, American Medicine and the World; 2310, Chinese Society and Medicine; 2410, HIV/AIDS in the Global Community; 2420, Economic Demography and Global Health; 2610, Global Health Crises; 2940, Race, Citizenship, and Health; 3000, Undergraduate Seminar (as appropriate); 3010, Perspectives on Global Public Health; 3110, Global Health and Social Justice; 3310, Healthcare in France and the U.S.; 3890, Special Topics (as appropriate); 4010, Psychiatry, Culture, and Globalization.
POLITICAL SCIENCE: 1111, First-Year Writing Seminar (as appropriate); 2215, Change in Developing Countries; 2236, The Politics of Global Inequality; 3893, Selected Topics in American Government (as appropriate); 3894, Selected Topics in Comparative Politics (as appropriate).
SOCIOLOGY: 1111, First-Year Writing Seminar (as appropriate); 3314, Environmental Inequality and Justice; 3321, Population and Society.
SPANISH: 3830, Spanish for the Medical Profession; 4760, Literature and Medicine.
WOMEN’S AND GENDER STUDIES: 1111, First-Year Writing Seminar (as appropriate); 2267, Seminar on Gender and Violence; 3201, Women and Gender in Transnational Context.

CONCENTRATION B: Health Policies and Economies

ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 2109, Food Politics in America; 3144, Politics of Reproductive Health; 3890, Special Topics (as appropriate).
ECONOMICS: 1010, Principles of Macroeconomics; 1020, Principles of Microeconomics; 1111, First-Year Writing Seminar (as appropriate); 1500, Economic Statistics; 1510, Intensive Economic Statistics; 2350, Health Care Policy; 3050, Introduction to Econometrics; 3350, Economics of Health.
HISTORY: 1111, First-Year Writing Seminar (as appropriate); 2800, Modern Medicine.
HUMAN AND ORGANIZATIONAL DEVELOPMENT (PEABODY): 3231, Introduction to Health Services; 3241, Introduction to Health Policy; 3331, Managing Health Care Organizations; 3205, Policy Analysis Methods.

MEDICINE, HEALTH, AND SOCIETY: 1920, Politics of Health; 2120, Health Social Movements; 2250, Autism in Context; 2320, Medicine, Law, and Society; 2420, Economic Demography and Global Health; 2920, Medicine on Trial; 3000, Undergraduate Seminar (as appropriate); 3320, Introduction to U.S. Health Care Policy; 3690, Special Topics (as appropriate).
PHILOSOPHY: 1008, 1008W, Introduction to Medical Ethics; 1111, First-Year Writing Seminar (as appropriate); 3608, Ethics and Medicine.
POLITICAL SCIENCE: 1111, First-Year Writing Seminar (as appropriate); 2236, The Politics of Global Inequality; 2270, Conducting Political Research; 3268, American Health Policy; 3893, Selected Topics in American Government (as appropriate); 3894, Selected Topics in Comparative Politics (as appropriate).
SOCIOLOGY: 1111, First-Year Writing Seminar (as appropriate); 3302, Poverty, Health, and Politics; 3314, Environmental Inequality and Justice; 4961, Seminars in Selected Topics (as appropriate).
WOMEN’S AND GENDER STUDIES: 1111, First-Year Writing Seminar (as appropriate).

CONCENTRATION C: Health Behavior and Health Sciences

ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 2227, Food in the Ancient World; 3344, Genetic Anthropology Lab Techniques; 3890, Special Topics (as appropriate); 4345, Human Evolutionary Genetics.
BIOLOGICAL SCIENCES: 1105, Human Biology; 1111, First-Year Writing Seminar (as appropriate); 3243 Genetics of Disease; 3245, Biology of Cancer; 3254, Neurobiology of Behavior; 3270, Statistical Methods in Biology; 3965, Undergraduate Seminar (as appropriate).
BIOMEDICAL ENGINEERING: 3200, Analysis of Biomedical Data.
HUMAN AND ORGANIZATIONAL DEVELOPMENT (PEABODY): 3221, Health Service Delivery to Diverse Populations; 3311, Introduction to Health Promotion.
MEDICINE, HEALTH, AND SOCIETY: 1930, Social Dimensions of Health and Illness; 1940, Racial and Ethnic Health Disparities; 2120, Health Social Movements; 2330, Men’s Health Research and Policy; 2430, Social Capital and Health; 2950, Healing Animals; 3000, Undergraduate Seminar (as appropriate); 3030, Community Health Research; 3450, Mental Illness Narratives; 3890, Special Topics (as appropriate).
NEUROSCIENCE: 2201, Neuroscience; 3235, Biological Basis of Mental Disorders.
SOCIOLOGY: 1010, 1010W, Introduction to Sociology; 1020, 1020W, Contemporary Social Issues; 1111, First-Year Writing Seminar (as appropriate); 2100, Statistics for Social Scientists; 3002, Introduction to Social Research; 3003, Research Practicum; 3301, Sociology and Medicine; 3303, Social Dynamics of Mental Health; 4961, Seminars in Selected Topics (as appropriate). *Only one of SOC 1010 or 1020 may be counted towards the major or minor.
WOMEN’S AND GENDER STUDIES: 1111, First-Year Writing Seminar (as appropriate); 2240, Introduction to Women’s Health.
CONCENTRATION D: Inequality, Intersectionality, and Health Justice

AFRICAN AMERICAN AND DIASPORA STUDIES: 1016, Race Matters; 1111, First-Year Writing Seminar (as appropriate); 3214, Black Masculinity: Social Imagery and Public Policy.

ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 2342, Biology of Inequality; 3120, Sociocultural Field Methods (as appropriate); 3144, Politics of Reproductive Health; 3343, Biology and Culture of Race; 3890, Special Topics (as appropriate); 4345, Human Evolutionary Genetics.

HISTORY: 1111, First-Year Writing Seminar (as appropriate); 3040, Health and the African American Experience.

HUMAN AND ORGANIZATIONAL DEVELOPMENT (PEABODY): 3221, Health Service Delivery to Diverse Populations.

MEDICINE, HEALTH, AND SOCIETY: 1940, Racial and Ethnic Health Disparities; 2230, Masculinity and Men’s Health; 2240, Bionic Bodies, Disability Cultures; 2330, Men’s Health Research and Policy; 2940, Race, Citizenship, and Health; 3000, Undergraduate Seminar (as appropriate); 3030, Community Health Research; 3040, Designing Healthy Publics; 3140, Afrofuturism and Cultural Criticisms of Medicine; 3990, Special Topics (as appropriate).

SOCIOLOGY: 1111, First-Year Writing Seminar (as appropriate); 3301, Society and Medicine; 3304, Race, Gender, and Health; 3321, Population and Society; 3723, Gender, Sexuality, and the Body; 4961, Seminars in Selected Topics (as appropriate).

WOMEN’S AND GENDER STUDIES: 1111, First-Year Writing Seminar (as appropriate); 2268, Gender, Race, Justice, and the Environment.

CONCENTRATION E: Medicine, Humanities, and Arts

ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 2370, Death and the Body; 3141, Anthropology of Healing; 3142, Medicine, Culture, and the Body; 3143, Medical Anthropology.

ASIAN STUDIES: 2630, Chinese Medicine.

ENGLISH: 1111, First-Year Writing Seminar (as appropriate); 3720, 3720W, Literature, Science, and Technology (as appropriate); 3891, Special Topics in Creative Writing (as appropriate).

HISTORY: 1111, First-Year Writing Seminar (as appropriate); 2160, Medicine in Islam; 2800, Modern Medicine; 2810, Women, Health, and Sexuality; 2835, Sexuality and Gender in the Western Tradition to 1700; 2840, Sexuality and Gender in the Western Tradition since 1700; 3040, Health and the African American Experience.

HISTORY OF ART: 3140, Healing and Art in East Asia.

MEDICINE, HEALTH, AND SOCIETY: 1111, First-Year Writing Seminar; Medicine, Health, and the Body; 2230, Masculinity and Men’s Health; 2250, War and the Body; 2350, Italian Representations of Wellness and Illness; 2950, Healing Animals; 3000, Undergraduate Seminar (as appropriate); 3050W, Medicine and Literature; 3150, Death and Dying in America; 3250, Perspectives on Trauma; 3890, Special Topics (as appropriate); 4010, Psychiatry, Culture, and Globalization; 4050, Narrative and Medicine: Stories of Illness and the Doctor-Patient Relationship.

PHILOSOPHY: 1008, 1008W, Introduction to Medical Ethics; 1111, First-Year Writing Seminar (as appropriate); 3606, 3606W, Moral Problems; 3608, Ethics and Medicine; 3630, Philosophy of Mind.

SOCIOLOGY: 1111, First-Year Writing Seminar (as appropriate).

SPANISH: 4760, Literature and Medicine.

WOMEN’S AND GENDER STUDIES: 1111, First-Year Writing Seminar (as appropriate); 2267, Seminar on Gender and Violence; 2612, Lesbian, Gay, Bisexual, and Transgender Studies.

OTHER ELECTIVES

In addition to the electives listed below, any course from the above concentration areas may serve as an elective if it is not already being used to satisfy a concentration requirement. No more than 12 hours of courses with an asterisk in the list below may be used to satisfy the major. Courses with an asterisk may not be used to satisfy the minor. (Please consult the director of undergraduate studies for approval of "as appropriate" courses for electives.)

ANTHROPOLOGY: 1111, First-Year Writing Seminar (as appropriate); 1301, Introduction to Biological Anthropology; 3372, Human Osteology; 4373, Health and Disease in Ancient Populations.

BIOLOGICAL SCIENCES: *1510–1511, Introduction to Biological Sciences; *2520, Biochemistry.

HUMAN AND ORGANIZATIONAL DEVELOPMENT (PEABODY): 3342, Introduction to Community Psychology (same as PSY-PC); 3890, Health Promotion Delivery.

MEDICINE, HEALTH, AND SOCIETY: 1001, Commons Seminar; 3831, Service Learning Research and Readings (Note: 3831, Service Learning Research and Readings, must be taken concurrently with 3830); 3850, Independent Study; 3881, Internship Readings and Research (Note: 3881, Internship Readings and Research, must be taken concurrently with 3880).

NURSING: *1500, Introduction to Microbiology; *1601, Introduction to Nutrition; *1602, Nutrition and Health; *3101–3102, Anatomy and Physiology.

PHILOSOPHY: 1111, First-Year Writing Seminar (as appropriate); 3606, 3606W, Moral Problems; 3630, Philosophy of Mind.

PSYCHOLOGY: 1111, First-Year Writing Seminar (as appropriate); 3600, Personality; 3610, Introduction to Clinical Psychology OR PSY-PC-3200, Introduction to Clinical Psychology; 3615, Emotion; PSY-PC-1205, PSY-PC-1207, Minds, Brains, Cultures, and Contexts; PSY-PC-2400, Social and Personality Development; PSY-PC-2500, Infancy; PSY-PC-2550, Advanced Topical Seminar (as appropriate).

SOCIOLOGY: 4961, Seminars in Selected Topics (as appropriate).

Course descriptions begin on page 194.

Nanoscience and Nanotechnology

DIRECTORS Paul E. Laibinis, Sandra J. Rosenthal

FACULTY in the School of Engineering and the College of Arts and Science offer an interdisciplinary minor in nanoscience and nanotechnology. The minor is administered by the School of Engineering in collaboration with the College of Arts and Science.

Nanoscience and nanotechnology are based on the ability to synthesize, organize, characterize, and manipulate matter systematically at dimensions of ~1 to 100 nm, creating uniquely functional materials that differ in properties from those prepared by traditional approaches. At these length scales,
materials can take on new properties that can be exploited in a wide range of applications such as for solar energy conversion, ultra-sensitive sensing, and new types of vaccines. These activities require the integration of expertise from various areas of science and engineering, often relying on methods of synthesis, fabrication, and characterization that are beyond those encountered in an individual course of study.

Students who minor in nanoscience and nanotechnology learn the principles and methods used in this rapidly growing field. Its core originates in the physical sciences by providing key approaches for describing the behavior of matter on the nanoscale. Synthetistc approaches are used to manipulate matter systematically, for creating uniquely functional nanomaterials that can be inorganic, organic, biological, or a hybrid of these. With a third component of characterization, a process for designing systems to have particular properties as a result of their composition and nanoscale arrangement emerges. Students are introduced to these areas through foundational and elective courses for the minor that are specified below, the latter of which can be selected to fulfill the degree requirements for their major.

The minor in nanoscience and nanotechnology is supported by the Vanderbilt Institute of Nanoscale Science and Engineering (VINSE) that brings together faculty from the College of Arts and Science, the School of Engineering, and the Medical Center. A specialized laboratory facility maintained by VINSE provides students in the minor with capstone experiences that allow them to prepare and characterize a variety of nanostructured systems using in-house state-of-the-art instrumentation. This hands-on laboratory component enhances the attractiveness of students to both employers and graduate schools.

Details of the minor requirements are provided in the School of Engineering section of the catalog.

**Neuroscience**

**DIRECTOR** David H. Zald  
**DIRECTOR OF UNDERGRADUATE STUDIES** Elizabeth Catania

Steering Committee

PROFESSORS Douglas G. McMahon (Biological Sciences), René Marois (Psychology)  
ASSOCIATE PROFESSOR Suzanna Herculano-Houzel (Psychology and Biological Sciences)  
ASSISTANT PROFESSORS Elizabeth Catania (Neuroscience), Alexander Maier (Psychology)  
SENIOR LECTURER Leslie M. Smith (Psychology)

THE study of the nervous system is an interdisciplinary enterprise that draws upon a variety of scientific disciplines ranging from molecular biology and biophysics to computational science and engineering to the study of behavior and cognition. To meet the challenge of providing training for entry into this exciting and growing field, Vanderbilt offers an interdisciplinary program of concentration in neuroscience that utilizes expertise from several departments within the university. The program consists of three components. The first provides for a broad foundation in the basic sciences and mathematics. Second, the program provides for exposure to each of the general areas of neuroscience including courses in cellular/molecular, systems, and integrative/cognitive neuroscience. This course work is supplemented with exposure to the laboratory techniques utilized in neuroscience research. Finally, the program allows students to pursue more work in the specific sub-disciplines of neuroscience and in areas of inquiry related to neuroscience through elective courses. Students are especially encouraged to participate in research in the laboratories of neuroscience faculty under the auspices of the undergraduate research courses. More extensive research experience is available through the Honors Program in Neuroscience. For additional information, see as.vanderbilt.edu/neuroscience.

**NOTE:** New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

**Program of Concentration**

The neuroscience major consists of 39 credit hours of course work that includes 8 credit hours of organic chemistry and 31 credit hours of neuroscience and related courses distributed among specific disciplines associated with the study of neuroscience. Students majoring in neuroscience are additionally required to complete a core of introductory courses in mathematics, statistics or computer science, biology and physics that provide the broad scientific background necessary to the study of neuroscience. The areas and associated course options are listed below. Excluding research credit (3861, 3862, 3863, 3864, and 4999), the neuroscience and related courses must be drawn from at least two departments or programs. Students seeking a second major within the College of Arts and Science may count a maximum of 6 credit hours of 2000-or-higher level course work to meet the requirements of both majors.

**Required Math and Science Courses**

**Biological Sciences** (8 credit hours)  
BSCI 1510, 1511, 1510L, and either 1511L or 1512L.

**Chemistry** (8 credit hours)  
CHEM 2211 or 2221; CHEM 2212 or 2222; and CHEM 2221L and 2222L.

**Mathematics, Statistics, Computer Science** (6–8 credit hours)  
MATH 1100, 1200, or 1300; and one of MATH 1201, 1301, BSCI 3270, PSY 2100, PSY-PC 2110, CS 1101, 1103.

**Physics** (8 credit hours)  
PHYS 1501, 1601 or 2051; PHYS 1502, 1602 or 2052; PHYS 1501L, 1601L or 2052; and PHYS 1502L, 1602L or 2054.

**Neuroscience Courses**

**Introduction to Neuroscience** (3 credit hours)  
NSC 2201.

**Cellular and Molecular Neuroscience** (6 credit hours)  
BSCI 3252, 3256; NSC 3235, 3240, 3245, 3260, 3269, 3891.

**Systems, Integrative, and Cognitive Neuroscience** (6 credit hours)  
BSCI 3230, 3254; NSC 3270, 3274, 3891, 4961, 4969; PSY 3120, 3620, 3630, 3700, 3750, 3760, 3765, 3775, 3780, 3785.

**Neuroscience Laboratory** (4 credit hours)  
NSC 3861, 3862.

**Neuroscience Electives** (6 credit hours)  
Two additional courses from the Cellular and Molecular Neuroscience and/or Systems, Integrative, and Cognitive Neuroscience courses listed above. NSC 3863 or NSC 4999 may be used to count for one elective course.
Related Course Electives
(6 credit hours; two courses not used to satisfy the Required Math and Science course requirement above.)

BSCI 2201, 2201L, 2210, 2210L, 2520, 3270, 4265; BME 3100, 3101; CHEM 2100, 3310, 3710, 4720; CS 1101 or 1103; MATH 2300, 2400 or 2420; PHIL 3616, 3630; PSY 2100, 3100, 3600, 3625, 3705, 3715.

Honors Program
Superior students with a strong interest in research are encouraged to consider the Honors Program in Neuroscience. Normally a student will apply to enter the Honors Program in the second semester of the junior year and assemble an Honors Committee that will consist of the research mentor and at least two other appropriate members of the faculty. Entrance into and satisfactory completion of the Honors Program requires that students maintain a cumulative grade point average of 3.3 and a grade point average of 3.3 in courses counting toward the neuroscience major. Honors candidates must meet all the normal requirements for the neuroscience major, but are expected to complete at least 6 hours of advanced research course work (from NSC 3863, 3864 and 4999). Three of these research-credit hours may count toward neuroscience elective course work. As part of this research course work, the candidate will be expected to write an honors thesis, present the thesis during the final semester in residence, and satisfactorily pass an oral examination by the student's Honors Committee. Students interested in becoming honors candidates should consult with the director of honors. For more information on the Honors Program, please see [Vanderbilt University website].

Minor in Neuroscience
This program provides a foundation of knowledge in neuroscience that is appropriate for students majoring in a related discipline or who have a general interest in the nervous system. As prerequisites, students are required to complete CHEM 1601 and 1610L, BSCI 1510 –1511, 1510L, and either 1511L or 1512L. The minor program consists of 18 credit hours of course work distributed as follows:

- NSC 2201
- 3 credit hours in Statistics/Computer Science: BSCI 3270, PSY 2100, PSY-PC 2110, CS 1101 or 1103.
- 6 credit hours chosen from the courses listed as “Cellular and Molecular Neuroscience.”
- 6 credit hours chosen from the courses listed as “Systems, Integrative and Cognitive Neuroscience.”
- The chosen courses counting towards the 18 credit hours must come from at least 3 different departments or programs (e.g. NSC, PSY and BSCI).
- Research courses (NSC 3860, 3861, 3862, 3863, 3864, and 4999) do not count towards the minor.

Course descriptions begin on page 197.

Philosophy
CHAIR Robert Talisse
DIRECTOR OF UNDERGRADUATE STUDIES Scott Aikin
DIRECTOR OF GRADUATE STUDIES Julian Wuerth
PROFESSORS EMERITI Clement Dore, Robert E. Ehman, Marilyn Friedman, Larry May, John F. Post, Charles E. Scott, Donald W. Sherburne, Henry A. Teloh
PROFESSORS Lenn E. Goodman, Michael P. Hodges, John Lachs, Kelly Oliver, Lucas T. Outlaw Jr., Robert Talisse, David Wood
ASSOCIATE PROFESSORS Idit Dobbs-Weinstein, Jeffrey Tlumak, Julian Wuerth
ASSISTANT PROFESSORS Scott Aikin, Karen Ng
SENIOR LECTURERS Jonathan Bremer, Gary Jaeger

THE Department of Philosophy at Vanderbilt offers a wide range of courses relating philosophy to various dimensions of human concern. The department also emphasizes those philosophers and movements that have had significant, forming effect in Western culture.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Philosophy
The program of concentration should be tailored to the needs and interests of the student. The following distribution of courses is required as part of the major: Logic: 1003 or 3003 (at least 3 credit hours); Ethics: 1005, 3605, 3606, or 3606W (at least 3 credit hours); History of Philosophy: 2100, 2102, 2103, or 2104 (at least 6 credit hours). Any alterations must be approved by the director of undergraduate studies. We encourage all majors to work closely with their advisers to select courses that form a coherent whole. The student must take at least 30 credit hours in the major field of which at least 21 credit hours must be in courses beyond the 1000 level.

Honors Program
The Honors Program offers opportunities for advanced study in philosophy, including independent research projects and/or enrollment in certain graduate seminars (with permission of the instructor). To be admitted to the program, the student must: (a) be a major in philosophy; (b) have a grade point average of 3.3 in all courses; (c) have a 3.5 grade point average in philosophy courses; and (d) develop a written proposal for advanced study in consultation with a philosophy faculty sponsor. Students who satisfy these requirements should meet with the director of undergraduate studies to review their programs, whereupon the director may nominate the students for honors work. Honors work typically begins in the junior year or in the first semester of the senior year; students in the program must complete at least 3 credit hours of Philosophy 3999. Students who successfully complete the program while maintaining the grade point averages of 3.3 generally, and 3.5 in the major, will receive honors in philosophy; students who do especially distinguished work will receive highest honors.

Minor in Philosophy
The minor in philosophy consists of 18 credit hours, including at least 12 credit hours in courses beyond the 1000 level. The minor program will be constructed so as to provide a broad
grounding in philosophy and to complement the student's other studies. Each program must be approved by the director of undergraduate studies.

Note: 1002 or 1002W or 1005 or 1111 are ordinarily taken prior to all other philosophy courses, except 1003 and 3003 (logic courses), 3616 (philosophy of science), and 3013 (aesthetics).

Course descriptions begin on page 198.

Physics and Astronomy

CHAIR M. Shane Hutson
DIRECTOR OF UNDERGRADUATE STUDIES David A. Weintraub
DIRECTOR OF GRADUATE STUDIES Julia Velkovska

DISTINGUISHED RESEARCH PROFESSOR C. Robert O'Dell

ASSOCIATE PROFESSORS Andreas Berlind, Steven E. Csorna, Kelly Holley-Bockelmann, Hassane Mchaourab, Yanqiong Xu

ASSISTANT PROFESSORS Daniel F. Gochberg, Alfredo Gurrola, William R. Holmes, Erin Raeicha, Marta Verweij

SENIOR LECTURERS Forrest Charnock, Sourish Dutta, Erika Grundstrom, Momchil Velkovsky

AS fundamental sciences, physics and astronomy continue to be driving intellectual forces in expanding our understanding of the universe, in discovering the scientific basis for new technologies, and in applying these technologies to research. In keeping with this crucial role, the Department of Physics and Astronomy offers courses dealing with both the cultural and intellectual aspects of the disciplines, a broadly based major program flexible enough to serve as preparation for graduate study in physics, applied physics, medical physics, astronomy or astrophysics, professional study in another area, or technical employment, and minor programs for students desiring to combine physics or astronomy with other majors. An honors program is available for qualified departmental majors.

A distinguishing feature of the Vanderbilt undergraduate curriculum is the close coupling between teaching and research. At Vanderbilt, active research groups are studying the physics of elementary particles; nuclear structure and heavyion reactions; nonlinear interactions of lasers with materials at ultrafast time scales; the behavior of electrons, atoms, molecules, and photons near surfaces; the electric and magnetic properties of living systems; the structure and dynamics of biopolymers; young stars; and cosmology. All professors are engaged in research, and undergraduate students can participate in this research informally or through independent study or summer work.

The Society of Physics Students arranges informal discussions.

Program of Concentration in Physics

The departmental major provides a thorough grounding in the core areas of physics. It is suitable either as preparation for careers in science and engineering or as a springboard for applying technical knowledge in such fields as business, medicine, law, public policy, and education. The major in the Department of Physics and Astronomy consists of 31–32 credit hours of course work, distributed as below. Students considering majoring in physics are strongly encouraged to consult with the director of undergraduate studies before registering for classes.

1. Core courses covering the major subdisciplines of physics — Students must complete four of the following (12 credit hours): Modern Physics and the Quantum World (2255); Classical Mechanics (2275); Electricity, Magnetism, and Electrodynamics I (2290); Statistical Physics (3200); Quantum Mechanics I (3611).

2. Laboratory work — Students may not use AP credit to satisfy any portion of the laboratory sequence requirement (3–4 credit hours):
   a) Laboratory Principles I (1912L), Laboratory Principles II (2255L), and Introduction to Experimental Research (2953L); or
   b) 1501L or 1601L, 1502L or 1602L, 2255L, and 2953L if the student has entered the major by taking the introductory physics course sequence 1501 or 1601, 1501L or 1601L, 1502 or 1602, and 1502L or 1602L. Students considering majoring in physics who begin in 1501 or 1601 and 1501L or 1601L in the fall semester are encouraged to take the combination 1502 + 1912L or 1602 + 1912L in the spring semester.

3. Electives (9 credit hours) — Pedagogical course work in physics and/or astronomy; research hours (3850, 3851, 4998) do not count toward this requirement. The course electives may be taken from any 2000-level or higher PHYS or ASTR courses not used to satisfy any other requirement of the major. Other courses may count as electives, such as courses offered by the engineering school (or other departments and schools) that are particularly relevant, such as a course in environmental studies, health physics, optics, or materials science. Such exceptions must be approved by the director of undergraduate studies.

4. Capstone (7 credit hours) — Computational Physics (3790), 3 credit hours of research (3850, 3851, or 4998) taken across one or more semesters, and the Seminar in Presenting Physics Research (3600). Physics-related research done in other departments and programs, supervised by Vanderbilt faculty and pre-approved by the director of undergraduate studies, is also permitted in satisfaction of the research requirement.

Immersion Experience: An enhanced version of the Capstone Program, in which a student earns credit for 3851, 3852, or 4998 (but not 3850), and then completes an additional semester of 3600, will enable a student majoring in physics to complete their Immersion Experience within the disciplines of either physics or astronomy.
Computer Science course work: All 2000-level and higher PHYS courses assume students have working skills in programming. These skills may be learned outside of a regular course, but should be equivalent to that taught in CS 1101 Programming and Problem Solving. Students who do not already have these skills are strongly advised to take this class in the first semester, prior to beginning the three-semester laboratory sequence in the second semester. In addition, the following Computer Science and/or Scientific Computing courses are strongly recommended for all physics majors: Program Design and Data Structures (CS 2201) or Program Design and Data Structures for Scientific Computing (CS 2204); Algorithms (CS 3350) or Scientific Computing Toolbox (SC 3250); and High Performance Computing (SC 3260). Physics majors pursuing a second major or minor in computer science should take CS 2201; physics majors pursuing a minor in scientific computing should take CS 2204.

Mathematics course work: All physics majors are expected to have high-level skills in mathematics in order to be successful in PHYS classes and to prepare for graduate work. MATH courses are not formally required for the major in physics; however, most physics courses identify MATH prerequisite or corequisite courses in order to indicate the mathematical skill-level assumed for that class. Multivariable calculus is a corequisite for PHYS 2255 and a prerequisite for all other 2000-level or higher PHYS courses. Physics majors are expected to develop a working knowledge of single-variable calculus, multivariable calculus, and ordinary differential equations. The following courses are those strongly recommended for physics majors:
1. Accelerated Calculus I (1300) and Accelerated Calculus II (1301);
2. Multivariable Calculus (2300) or Multivariable Calculus and Linear Algebra (2500 and 2501); and
3. Methods of Ordinary Differential Equations (2420) or Ordinary Differential Equations (2610).

In addition, for physics majors considering post-graduate work in physics or in a related field, the following PHYS and MATH courses are strongly recommended as electives:
1. Electricity, Magnetism, and Electrodynamics II (PHYS 2291), Quantum Mechanics II (PHYS 3652), Mathematical Methods of Physics (PHYS 4005); and
2. Methods of Linear Algebra (MATH 2410) or Linear Algebra (MATH 2600); Introduction to Probability and Mathematical Statistics (MATH 2820); Statistics Laboratory (MATH 2820L); Complex Variables (MATH 3110); Introduction to Partial Differential Equations (MATH 3120); Fourier Analysis (MATH 3130); and Advanced Engineering Mathematics (MATH 3600).

Licensure for Teaching
Candidates for teacher licensure in physics at the secondary level may qualify by taking the basic physics major together with the requisite education courses described in the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Honors Program
The Honors Program in the Department of Physics and Astronomy is designed to allow a student to engage in advanced research under the guidance of a faculty member, usually in an area related to an ongoing research program in the department. A student majoring in physics interested in Honors (Honors in Physics or Honors in Astronomy) will work with a faculty mentor to develop an appropriate research project that will be conducted under the guidance of that faculty member. The Honors project must have a substantial grounding in physics or astronomy, but may be conducted under the direct supervision of any faculty member in any department at Vanderbilt. To be admitted to the Honors Program, a student must submit a two-page research proposal describing the plans for their Honors project, which must be approved by the director of the departmental Honors Program. In addition, a student must have completed 2953L, either 2255 or 3651, and meet the minimum GPA requirements for honors programs of the College of Arts and Science.

To graduate with honors, a student must
• Have at least a 3.300 cumulative GPA and a 3.300 GPA in courses that count toward the major.
• Earn a minimum of 6 credit hours in research classes (3850, 3851, 4998), leading to an honors thesis, with at least 2 of these credit hours earned in 4998. A student who earns credit for 3852 may satisfy this portion of the requirement with 3 credit hours of research earned at Vanderbilt, including at least 2 of these credit hours in 4998.
• Write a senior thesis of high merit, as evaluated by the student’s Honors Examination Committee; the thesis may be submitted either in the fall or spring semester of the senior year.
• Demonstrate high attainment on an oral honors examination in which they present and defend their work to the student’s Honors Examination Committee; the oral examination may take place either in the fall or spring semester of the senior year.

Departmental Minors
The physics and astronomy minors are suitable for students who wish to supplement a related discipline or simply have a general interest in the field. Research is not a requirement for either minor.

Minor in Physics
The minor requires a minimum of 19 credit hours of course work, distributed as follows:

<table>
<thead>
<tr>
<th>Course Class</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Any first-semester physics class</td>
<td>3–4</td>
</tr>
<tr>
<td>Any first-semester physics laboratory</td>
<td>1</td>
</tr>
<tr>
<td>Any second-semester physics class</td>
<td>3–4</td>
</tr>
<tr>
<td>Any second-semester physics laboratory</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 2255 or 3651</td>
<td>3</td>
</tr>
<tr>
<td>6 credit hours of electives</td>
<td>6</td>
</tr>
</tbody>
</table>

These may be selected from any 2000-level or higher-level PHYS courses not used to satisfy the above requirements or from 3 credit hour non-PHYS courses, the latter if approved by the director of undergraduate studies, and may include up to 3 credit hours of research (3850, 3851, 4998).

Total credit hours: 17–19
Minor in Astronomy

The minor requires a minimum of 16 credit hours of course work, distributed as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASTR 1010 and either 1010L or 1020L; or 1210</td>
<td>4</td>
</tr>
<tr>
<td>ASTR 2110</td>
<td>3</td>
</tr>
<tr>
<td>ASTR 3000</td>
<td>3</td>
</tr>
</tbody>
</table>

Two other astronomy courses, one of which may be a 3 credit hour one-semester research project (3850, 3851, 4998). Note that only physics majors pursuing honors in astronomy are eligible to enroll in 4998.

Total credit hours: 16

Physics

Course descriptions begin on page 200.

Introductory Courses

1001, 1110, 1110L, 1111, 1501, 1501L, 1502, 1502L, 1601, 1601L, 1602, 1602L, 1901, 1902

Introductory, calculus-based physics is offered at several different levels, each with the appropriate laboratory. Only one of 1501/1601/1901 and one of 1502/1602/1902 may be taken for credit. Physics 1501–1502/1501L–1502L is intended for students in the health sciences. Physics 1601–1602/1601L–1602L is intended for students in engineering. Physics 1901–1902 is intended for students planning to major in physics or pursue research-oriented careers in science, engineering, or mathematics; however, students may major in physics after starting in any of these three introductory physics sequences. Prospective majors are strongly advised to begin their study of physics in the fall semester of their freshman year whenever possible, although with careful planning it is possible to complete the physics major with a later start. Physics 1110 is intended for students without strong backgrounds in mathematics or science who have a general interest in the subject. 1110 is not recommended as preparation for further study in a natural science, is not appropriate for engineering, premedical, or pre-dental students, and does not count toward the physics major or minor.

Intermediate Courses

2210, 2250, 2250W, 2260, 2260W, 2270, 2290, 2237, 2660, 3200, 3207, 3600

The intermediate-level courses cover the major subdisciplines of classical and modern physics.

Advanced Courses

2271, 2291, 3640, 3651, 3652, 3660, 3840, 3860, 3890, 4998

These courses are intended for physics majors in their junior and senior year and provide material supporting independent study or honors projects in physics.

Medical and Health Physics Courses

2805, 3125, 3645

Physics Education Courses

3820

Astronomy

Course descriptions begin on page 150.

Introductory Courses

1001, 1110, 1110L, 1120L, 1111, 1220

Intermediate Courses

2110, 2130, 2220, 2600, 3000

Advanced Courses

3600, 3700, 3800, 3900, 3840, 3860, 4998

Political Science

CHAIR David E. Lewis
ASSOCIATE CHAIR Jonathan T. Hiskey
DIRECTOR OF UNDERGRADUATE STUDIES Carrie A. Russell
DIRECTOR OF GRADUATE STUDIES Jonathan T. Hiskey

THE Department of Political Science is oriented toward both teaching and research and has multiple missions. First, it offers a balanced curriculum for undergraduates and graduate students to study the art and science of politics. Second, it offers training for students preparing to become professionals in political science and other fields. Third, it exists as a research faculty seeking new knowledge about government and politics.

Many members of the faculty have national and international reputations in their fields of scholarship. These research and teaching interests vary widely, from political leadership to the comparison of new and old democratic governments, issues of political economy, and ethical questions about politics.

Political science majors may participate in independent study, directed study, selected topics seminars, first-year seminars, the Honors Program, and internships. Average class size is close to thirty—small classes make personal contact with the faculty relatively easy. Students participate in the governance of the department through the Undergraduate Political Science Association, and may qualify for membership in Pi Sigma Alpha, the national political science honorary society.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.
Program of Concentration in Political Science

Students majoring in political science are required to complete a minimum of 30 credit hours of work, distributed as follows:

<table>
<thead>
<tr>
<th>Major Concentration</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Political Science Core 1100, 1101, 1102, 1103 or 1150</td>
<td>6</td>
</tr>
<tr>
<td>American Government and Politics</td>
<td></td>
</tr>
<tr>
<td>2240, 2245, 2247, 2251, 2255, 2256, 2259, 2262, 2265, 2266, 2267</td>
<td></td>
</tr>
<tr>
<td>2270, 2324, 2347, 2349, 2350, 2352, 2353, 2354, 2360, 2361</td>
<td></td>
</tr>
<tr>
<td>2391, 2393</td>
<td>3</td>
</tr>
<tr>
<td>Comparative Politics</td>
<td></td>
</tr>
<tr>
<td>2210, 2211, 2212, 2213, 2214, 2215, 2223, 2226, 2227</td>
<td></td>
</tr>
<tr>
<td>2310, 2326, 2327, 2370, 2311, 2317, 2328, 2335, 2372W,</td>
<td></td>
</tr>
<tr>
<td>2390, 2393</td>
<td>3</td>
</tr>
<tr>
<td>International Relations</td>
<td></td>
</tr>
<tr>
<td>2221, 2222, 2223, 2224, 2225, 2226, 2236, 2237, 2270,</td>

<td></td>
</tr>
</tbody>
</table>

In order to graduate with a political science major, students must take a brief exam within the major concentration in which they are most interested during their senior year. Students are to take this exam in the fall of their senior year (students who are on leave or are studying abroad during the fall semester of their senior year should schedule the exam upon their return to campus). The exam is not graded, and no grade will appear on the student's transcript. The purpose of the exam is to ascertain the extent to which political science majors are retaining core aspects of the political science curriculum.

In meeting the above requirements, students must develop a specialty within one of the four concentrations of American Government, Comparative Politics, International Relations, or Political Theory by taking the introductory, 1000-level course in that concentration, and at least three 2000-level courses in that concentration. It is recommended that one of those 2000-level courses in the student's selected concentration be a seminar.

Students desiring an emphasis on African American politics within their program of concentration should consider courses in the following group: 2240, 2245, 2255, 2265, 2266. They may also choose to elect the following courses at Fisk University: Political Science 245 (Afro-American Political Thought), 254 (Politics in the Black Community), and 406 (African Political Systems).

Graduate Courses. Qualified undergraduates may enroll in graduate courses with the consent of their adviser, the course instructor, and the Graduate School. To enroll in graduate courses, undergraduate applicants need to comply with rules provided under the heading Undergraduate Enrollment in Graduate Courses in this catalog on p. 64.

Honors Program

To enter the Honors Program, students should have completed all but 6 credit hours of the AXLE requirements, and have a minimum overall GPA of 3.6. They should also have a minimum GPA of 3.6 in all the political science courses they have taken up to the point at which they enter the Honors Program. They must have exhibited to the department additional evidence of an ability to do independent work. Finally, they must be nominated by the director of the undergraduate studies program.

In addition to requirements set by the College of Arts and Science, the following requirements must be met in order for honors in political science to be awarded:

1. 30 credit hours in political science, as well as all of the requirements for political science majors.
2. 3.6 grade point average in all political science courses, and a 3.6 average in courses that count toward honors in political science.
3. Completion of an honors thesis under the direction of a faculty adviser. Students will enroll in Senior Honors Research (4998 and 4999) during the semesters when they work on the honors thesis (at least 3 credit hours each).
4. An oral exam on the honors thesis in the last semester of the senior year.

Students in the Honors Program are encouraged to take PSCI 2270 before they enter or during their first semester in the Honors Program. A three-member Honors Committee will be appointed to administer each student's program. Students should submit the names of a faculty adviser and the other two members of the committee to the director of the Honors Program as soon as possible after they are accepted into the Honors Program. The committee will administer the oral examination, after which it will also decide whether the student will receive honors or highest honors. Successful candidates are awarded honors or highest honors in their field and this designation appears in the Commencement program and on their diplomas.

Minors in Political Science

The Department of Political Science offers three minors, which are detailed below. Each consists of 18 credit hours (one introductory-level course and five upper-level courses). One of these options may be chosen:

<table>
<thead>
<tr>
<th>Minor Concentration</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>American Politics</td>
<td></td>
</tr>
<tr>
<td>1100 or 1150</td>
<td>3</td>
</tr>
<tr>
<td>Any five of the following:</td>
<td></td>
</tr>
<tr>
<td>2222, 2240, 2251, 2243, 2245, 2255, 2256, 2259,</td>
<td></td>
</tr>
<tr>
<td>2262, 2265, 2266, 2267, 2270, 2341, 2344, 2347,</td>
<td></td>
</tr>
<tr>
<td>2349, 2350, 2352, 2353, 2354, 2360, 2368, 3893, 3897</td>
<td>15</td>
</tr>
<tr>
<td>Political Theory</td>
<td></td>
</tr>
<tr>
<td>1103</td>
<td>3</td>
</tr>
<tr>
<td>Any five of the following:</td>
<td></td>
</tr>
<tr>

<td></td>
</tr>
<tr>
<td>2213, 2214, 2215, 2215W, 3271, 3896, 4257</td>
<td>15</td>
</tr>
<tr>
<td>World Politics</td>
<td></td>
</tr>
<tr>
<td>A student may stress comparative politics or international relations or may mix the two in this minor.</td>
<td>3</td>
</tr>
<tr>
<td>1101 or 1102</td>
<td></td>
</tr>
</tbody>
</table>
Licensure for Teaching

Candidates for teacher licensure in political science at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Course descriptions begin on page 202.

Psychology

CHAIR René Marois
DIRECTOR OF UNDERGRADUATE STUDIES Jo-Anne Bachorowski
DIRECTOR OF GRADUATE STUDIES Geoffrey Woodman
DIRECTOR OF CLINICAL TRAINING Bunni O. Olatunji
PROFESSORS Randolph Blake, Isabel Gauthier, Steven D. Holton, Jon H. Kaas, Gordon D. Logan, Timothy P. McNamara, René Marois, Richard C. McCarty, Hector Myers, Bunni O. Olatunji, Thomas J. Palmeri, Sohee Park, Jeffrey D. Schall, Frank Tong, David Zald
ASSOCIATE PROFESSORS Jo-Anne Bachorowski, Denise Davis, Suzana Herculano-Houzel, Kari Hoffman, Sean Polyn, David G. Schlundt, Andrew J. Tomarken, Thilo Womelsdorf, Geoffrey Woodman
ASSISTANT PROFESSORS Elisanta Disney, Alexander Maier, Jennifer S. Trueblood
SENIOR LECTURERS Elisabeth H. Sandberg, Adriane E. Seiffert, Leslie M. Smith

PSYCHOLOGY is the scientific study of brain, behavior, and cognitive processes. At Vanderbilt, the undergraduate program introduces students to the major areas of contemporary psychology: clinical science, human cognition and cognitive neuroscience, developmental psychology, neuroscience, and social psychology. Clinical science studies human personality, emotion, abnormal behavior, and therapeutic treatments. Human cognition and cognitive neuroscience include the study of processes such as learning, remembering, perceiving environmental objects and events, and neural mechanisms underlying these processes. Developmental psychology examines human development from conception through adulthood, including cognitive, emotional, physical, and social aspects. Neuroscience studies the structure and function of the brain and how nerve cells process sensory information about the environment, mediate decisions, and control motor actions. Social psychology examines interpersonal and intergroup relations and the influence of social conditions on cognitive, emotional, and behavioral processes.

The Department of Psychology offers a general program of study for students who desire a broad background in contemporary psychology, as well as an honors program. The department offers a wide variety of opportunities for undergraduates to gain research experience through active participation in faculty research projects. Such research experience is considered a fundamental aspect of education in experimental psychology.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Programs of Concentration in Psychology

General Program

PSY 1200
PSY 2100 or PSY-PC 2110 (Peabody)
PSY 2150
4 Distribution Courses*
5 Psychology Electives**

Total credit hours: 36

Honors Program

PSY 1200
PSY 2100 or PSY-PC 2110 (Peabody)
PSY 2150
4 Distribution Courses*
PSY 3980 and/or 3981 and both PSY 4998 and 4999
3 Psychology Electives

Students who only take one semester of PSY 3980 or 3981 will need to take an additional elective course to fulfill their 42 credit hours.

Total credit hours: 42

Honors Program

The Honors Program is a two-year program that offers qualified majors the opportunity to conduct research projects in collaboration with faculty members. This research culminates in the writing and public presentation of a senior thesis.

The Honors Program offers unusual opportunities for interested and qualified students, including special seminars and individual research projects. The program should substantially aid those intending to do graduate work.

The program requires two years of honors research, and participation in the Honors Seminars, PSY 3980 and/or 3981 and both PSY 4998 and 4999 (at least 9 credit hours total). Under special circumstances (e.g., a semester abroad or student teaching), students may enroll in only three semesters of the Honors Seminars—provided they can complete the research project by extra work during three regular semesters and/or a summer, and provided this arrangement is acceptable to the faculty mentor and to the director of the Honors Program. Students who only take one semester of PSY 3980 or 3981 will need to take an additional elective course to fulfill their 42 credit hours.

Students who are majoring in psychology may apply to the Honors Program at the end of their sophomore year if they have a cumulative grade point average of at least 3.3, both overall and in all courses that count toward the psychology major. Students must also find a faculty mentor who is willing to sponsor them in the program. Students who complete the program successfully and have a final cumulative and major grade point average of 3.3 or higher will receive honors or highest honors in psychology.

* Distribution Courses
(at least 4 of the following 6 courses are required)
The following courses provide grounding in core content areas of experimental psychology.

PSY 3100, 3110, 3120, 3750; NSC 2201; PSY-PC 1250 (Peabody)

** Electives
Any course in the Department of Psychology (A&S) or the Department of Psychology and Human Development (Peabody)
that is not being used to meet another psychology requirement can be used as an elective.

Comprehensive Exam
In order to graduate with a psychology major, students must take a comprehensive exam during their senior year. Students are expected to take the comprehensive exam in the fall of their senior year (students who are on leave or are studying abroad during the fall semester of their senior year should schedule to take the exam upon their return to campus). The exam is not graded, and no grade will appear on the student's transcript. The purpose of the exam is to test the extent to which psychology majors are retaining core aspects of the psychology curriculum.

Minor in Psychology
The minor in psychology is intended for those students who want to gain an overview of the science of psychology and its methodological foundations, and to sample more advanced work in the areas of specialization within psychology at Vanderbilt.

Students are required to complete 18 credit hours of course work inside the department, distributed as follows:

<table>
<thead>
<tr>
<th>Course Description</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Psychology 1200</td>
<td>3</td>
</tr>
<tr>
<td>Psychology 2150 and either 2100 or PSY-PC 2110 (Peabody)</td>
<td>6</td>
</tr>
<tr>
<td>Two courses from the list of Distribution Courses</td>
<td>6</td>
</tr>
<tr>
<td>specified for the major</td>
<td></td>
</tr>
<tr>
<td>One psychology elective as defined in the psychology</td>
<td>3</td>
</tr>
<tr>
<td>major</td>
<td></td>
</tr>
</tbody>
</table>

Total credit hours: 18

Independent/Directed Study courses (3850/3850 and 3840/3860) may not be counted as the elective course for minors.

1200 (or 1111, sections 1, 2, and 3) is prerequisite for all other psychology courses except 1111. PSY 1111 – 01, 02, 03 – General Psychology, First-Year Writing Seminar – covers the same material as PSY 1200 and also serves as the introductory prerequisite for all 2000-level courses in psychology. Credit cannot be earned for both PSY 1200 and PSY 1111 – 01, 02, 03. PSY 1111 – sections 4 and higher – are First-Year Writing Seminars on special topics in psychology. PSY1111 – sections 4 and higher – do not replace PSY 1200 as a prerequisite for all 2000-level courses in psychology and may be taken in conjunction with PSY 1200.

Note: NSC courses 2101 (Neuroscience), 3235 (Biological Basis of Mental Disorders), 3269 (Developmental Neuroscience), 3270 (Computational Neuroscience), 3272 (Structure and Function of the Cerebral Cortex), and 3274 (Neuroanatomy) count as courses in the Department of Psychology (A&S). See the Neuroscience course listings for descriptions of these classes.

Course descriptions begin on page 206.

Public Policy Studies

DIRECTOR Katherine Carroll (Political Science)
ADVISORY BOARD Kathryn Anderson (Economics), Jay Clayton (English),
David Lewis (Political Science)
VISITING PROFESSOR David Manning
ADJUNCT PROFESSOR Bill Purcell
ASSOCIATE PROFESSOR Zdravka Tzankova
SENIOR LECTURER Carrie A. Russell

STUDENTS may choose an interdisciplinary program of concentration in public policy studies. The major requires students to take courses in government, ethics, and social science. In addition, students develop analytical skills through coursework in research methodology, statistics, and economics. Each student also chooses a policy track, an area of public policy they want to explore in depth.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Public Policy Studies

The interdisciplinary major requires 39 credit hours of course work divided into two parts: 24 credit hours of required core courses and 12 credit hours of elective courses focusing on one substantive policy area. A student contemplating a major in public policy studies must either have AP credit in or take the following prerequisites: PSCI 1100, 1101, 1102, or 1150; ECON 1010 and 1020. Individual courses included in the program may specify additional prerequisites. If one of the required courses is not offered, students may substitute with the permission of their major adviser.

I. Core Courses (24 credit hours)

1. General (3 credit hours): HOD 2700, Public Policy; PSCI 2256, Politics of Public Policy; or PSCI 2255, Introduction to Public Policy.
2. Research Methods (3 credit hours): HOD 2500, Systematic Inquiry; PSCI 2270, Conducting Political Research; or SOC 3002, Introduction to Social Research.
4. Ethics (3 credit hours): PSCI 3253, Ethics and Public Policy; or PSCI 2208, Law, Politics and Justice.
5. Public Finance (3 credit hours): HOD 3225, Introduction to the Public Finance of Education; or ECON 3200, Public Finance (prerequisite ECON 3010).
6. Government (3 credit hours): any upper-level Political Science course.
7. Economics (3 credit hours): any upper-level Economics (ECON) course except 3200.
8. Society and Culture (3 credit hours): any upper-level Sociology (SOC) course, excluding 3002 and 3003; or any Anthropology (ANTH) course above 2602, excluding language classes. Certain humanities courses may also be counted with the permission of the major adviser.
II. Policy Track (12 credit hours)
The track is intended to allow students to go more deeply into one area of public policy (for example: health policy, STEM policy, education policy, criminal justice policy). Each student is free to choose and design his or her own track with the advice and approval of the program director. Classes should generally be upper-level and should represent at least two disciplines.

III. Capstone Seminar (3 credit hours)
PPS 4960, Senior Seminar on Research in Public Policy, is required of all Public Policy majors and is taken during their last year.

Total: 39 credit hours

Course descriptions begin on page 207.

Religious Studies

CHAIR Tony K. Stewart
DIRECTOR OF UNDERGRADUATE STUDIES IN RELIGIOUS STUDIES
Volney P. Gay
DIRECTOR OF UNDERGRADUATE STUDIES IN ISLAMIC STUDIES
Richard McGregor
DIRECTOR OF UNDERGRADUATE STUDIES IN ARABIC
Richard McGregor
DIRECTOR OF GRADUATE STUDIES James Byrd (Divinity)
CHAIR, GRADUATE DEPARTMENT OF RELIGION James Byrd (Divinity)
PROFESSORS EMERITI Lewis V. Baldwin, Charles H. Hambrick, Daniel M. Patte
PROFESSORS Robert Campany, Volney P. Gay, David Price, Laurel Schneider, Tony K. Stewart
ASSOCIATE PROFESSOR Richard McGregor
ASSISTANT PROFESSORS Bryan Lowe, Anand Taneja, Alexis Wells-Oghoghomneh
SENIOR LECTURERS Issam Eido, Bushra Hamad

THE Department of Religious Studies approaches religion as a fundamentally human experience. The academic study of religion begins descriptively by exploring religious commitments, identities, practices, worldviews, and institutions. Our courses investigate religious traditions through varied theoretical and methodological approaches that generate a complex understanding of religious perspectives from an array of disciplines such as anthropology, sociology, history, theology, literature, and art.

Students majoring in religious studies gain a deep knowledge of a single tradition, region, or theme and a broad understanding of religions around the world. Successful students develop a highly portable analytical skill set that equips them to pursue graduate degrees in religion or cognate disciplines, as well as professional degrees and careers in fields such as law, diplomacy, medicine, and business. It also provides an excellent second major for a variety of disciplines that address the human condition including neuroscience; sociology; history; medicine, health, and society; and others. Majors will gain the ability to reason intelligently about one of the most difficult and sensitive topics in any society. By virtue of the variety of religious cultures studied, the training will deepen students’ mutual understanding and sensitivity to prepare them to become truly responsible global citizens.

The department offers a major (31 credit hours), an Honors Program, a minor (18 credit hours) in religious studies, a minor (20 credit hours) in Islamic studies, and a minor in Arabic language (18 credit hours). A student may pursue both the minor in Islamic studies and the minor in Arabic language. In such a case, ARA 1102 may be the only Arabic course that counts toward the minor in Islamic studies.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Religious Studies

31 credit hours. The program of concentration in religious studies seeks to introduce students to the rich diversity of religious traditions in the world (breadth component) and to build depth of study in areas of specific interest to the student (depth component). In addition, the curriculum includes instruction in the range of theories and methods used to approach religious traditions academically (tools of the discipline component). The student will then be able to pursue individual interests (electives).

A maximum of two courses (6 credit hours) outside of the department may count toward the major. Of these, one course (3 credit hours) outside of the department may count toward the Depth Component. A foreign language course approved as an elective is not subject to the two-course (6 credit hours) limit. No course may be used to satisfy more than one of the four components of the major.

1. Breadth Component (9 credit hours)

Ensures a familiarity with the rich diversity of religious traditions in the world.

a. Encountering religious diversity. 3 credit hours. RLST 1010. An introduction to the field of religious studies and select traditions.

b. Introductory course in African or Western traditions. 3 credit hours. Introductory course in a religious tradition originating in the Mediterranean, Middle East, Africa, or the Americas (including but not limited to Judaism, Christianity, Islam, Egyptian religions, traditions of Sub-Saharan Africa, Native American traditions). RLST 1100, 1200, 1208, 1309, 1500. An appropriate First-Year Writing Seminar RLST 1111 may count with the approval of the director of undergraduate studies in Religious Studies.

c. Introductory course in Asian or non-Western traditions. 3 credit hours. Introductory course in a religious tradition originating in Asia or the Pacific (including but not limited to Hindu and Buddhist traditions and those religious traditions originating in East and South Asia). RLST 1537, 1700, 1710, 2644, 2664. An appropriate First-Year Writing Seminar RLST 1111 may count with the approval of the director of undergraduate studies in Religious Studies.

2. Depth Component (9 credit hours)
The Depth Component is organized according to three tracks: traditions, geographies, and theories and themes. The introductory course taken to satisfy the breadth requirement cannot be double-counted in this category. The student must choose 9 credit hours from one of the following tracks. An appropriate
First-Year Writing Seminar RLST 1111 may count toward any track with the approval of the director of undergraduate studies in Religious Studies.

a. **Traditions.** Allows students to focus on a particular religious tradition or related cluster of traditions that may transcend geographic limitations.

**Buddhist Traditions:** RLST 1700, 1710, 1637, 2644, 3669, 3670W, 3749, 3753, 375; ASIA 3633

**Christian Traditions:** RLST 1309, 1330W, 1820, 2250W, 2310, 3119, 3304W, 3306, 3312, 3313, 3316, 3350; HIST 1760, 2250

**Hindu Traditions:** RLST 2664, 4665, 4666

**Indigenous Traditions:** RLST 1637, 3178, 3890, 4774

**Islamic Traditions:** RLST 1500, 2461, 3561, 4551, 4552, 4554, 4562; ARA 3301; HIST 1190, 2140, 2190

**Jewish Traditions:** RLST 1200, 1208, 2210, 2210W, 3270, 3350; JS 1002, 1002W, 1200, 2300, 2330, 2472; PHIL 2102

b. **Geographies.** Gives students the option of focusing on regional cultures, histories, and religions, as well as relationships between religious traditions within a specific region.

**Africa, West Asia, and the Mediterranean:** RLST 1208, 1330W, 1500, 2461, 2471, 2472, 3312, 3890, 4562; ARA 3301; HIST 1190, 2190

**The Americas:** RLST 1100, 1190W, 3119, 3142, 3178, 3304; HIST 2530

**East Asia:** RLST 1700, 1710, 3747, 3749, 3753, 3670W, 3775, 4774; ASIA 3633

**South/Southeast Asia:** RLST 1500, 1637, 2644, 2664, 3561, 3669, 3670W, 4665, 4666

c. **Theories and Themes.** Enables students to focus on theoretical, scientific, or thematic questions that may cross both traditional and geographic lines.

**Religion in the literary and visual arts:** RLST 2881, 2940, 3669, 3775, 4665, 4774, 4939

**Theories of religion, science, and/or psychology:** RLST 1820, 2472, 3079, 3940, 3941, 4834, 4835, 4836, 4837; JS 2330; ANTH 3141

3. **Tools of the Discipline Component (4–6 credit hours)**

Key issues in the study of religion and a formal introduction to the theories and methods in the academic study of religion.

a. **Theory and Method.** 3 credit hours. RLST 4960W “Approaches to the Academic Study of Religion.” Recommended for juniors, but may be taken earlier with permission of director of undergraduate studies in Religious Studies.

b. **Majors Colloquium.** 1 credit hour (may be taken a total of three times). RLST 4970 “Majors Colloquium.” Initiation into the range of professional activities in the study of religion from the craft of research to the production of papers, articles, and theses, coupled with targeted theoretical concerns relevant to the research of the students enrolled in that particular class.

4. **Electives (9 credit hours)**

a. Electives may be drawn from any of the courses listed under the three components of the major (Breadth, Depth, and Tools of the Discipline). Students may elect to deepen an area of study or they may build additional breadth in other traditions, regions, or themes.

b. One relevant language course (at least 3 credit hours) may count, with the approval of the director of undergraduate studies in Religious Studies. This course is not subject to the two-course (6 credit hours) limit on courses taken outside the department.

**Honors in Religious Studies**

The honors thesis provides an opportunity for highly motivated and exceptionally capable students to engage in independent work on a topic in religious studies. Honors theses require original research with primary sources and extensive use of relevant secondary scholarship, both with regard to the narrowly defined topic of the thesis and on the larger theoretical and methodological issues in the academic study of religion. 3.3 GPA in courses toward the major and cumulative 3.3 GPA are required for entry and must be maintained for completion of honors. Students work closely with faculty members in designing, researching, and writing a thesis beginning in the second semester of their junior year in order to present the thesis at the end of the second semester of their senior year, culminating in a final oral examination on the thesis.

a. **Research and Writing.** 6 credit hours. RLST 4998–RLST 4999 “Seniors Honors Thesis.” RLST 4998 and RLST 4999 count as 6 of the 9 credit hours of the elective component of the major.

b. **Majors Colloquium – Co-requisite with RLST 4999.** RLST 4970 “Majors Colloquium” in the second semester of senior year, in which candidate must present results of research. Honor program candidates shall take 4970 co-requisite with 4999. Initiation into the range of professional activities in the study of religion from the craft of research to the production of papers, articles, and theses, coupled with targeted theoretical concerns relevant to the research of the students enrolled in that particular class.

**Minor in Religious Studies**

18 credit hours. The minor will introduce the rich diversity of religious traditions (Breadth component), initiate depth in at least one tradition (Depth component), and encourage further exploration of different perspectives or traditions through electives. A maximum of one course (3 credit hours) from outside the department may count if it is included in any of the three components of the major (Breadth, Depth, and Tools of the Discipline). No course may be used to satisfy more than one of the three components of the minor.

1. **Breadth Component (9 credit hours)**

Ensures a familiarity with the rich diversity of religious traditions in the world.

a. **Encountering religious diversity.** 3 credit hours. RLST 1010 Encountering Religious Diversity. An introduction to the field of religious studies and select traditions.
Minor in Islamic Studies

2. Depth Component (3 credit hours)

- Deepening the study of one tradition. 3 credit hours.
  The student must choose one of the two religious traditions used to meet the introductory course Breadth Component to delve further into that religion.

3. Electives (6 credit hours)

a. Electives may be drawn from any of the courses listed under the three components of the major (Breadth, Depth, and Tools of the Discipline). Students may elect to deepen an area of study or they may build additional breadth in other traditions, regions, or themes.

b. With the permission of the director of undergraduate studies in Religious Studies and a minimum 3.3 GPA in the minor, the student may take the Majors Colloquium RLST 4970.

Minor in Arabic Language

20 credit hours. Students complete a required minimum of 20 credit hours from the list below, which must include Arabic 1102, Elementary Arabic; Religious Studies 1500, Introduction to Islam; and Religious Studies 4554, The Qur'an and Its Interpreters. The maximum number of credit hours to be counted toward the minor from Arabic language courses is 8. No credit hours will be counted for Arabic 1101 or Arabic 1102.

ARABIC: 1102, Elementary Arabic; 2201–2202, Intermediate Arabic; 3101–3102, Advanced Arabic; 3201, Media Arabic; 3301, Arabic of the Qur'an and Other Classical Texts.

CINEMA AND MEDIA ARTS: 3892, Cinema and Islam.

CLASSICAL AND MEDITERRANEAN STUDIES: 2180, Mediterranean World from Late Antiquity to the Middle Ages; 3010, The Ancient Origins of Religious Conflict in the Middle East.

HISTORY: 1111, First-Year Writing Seminar (when related to Islamic history or culture as determined by the director of undergraduate studies); 1160, Modern South Asia; 1190, A History of Islam; 1200, The Arab Spring; 1270, Sub-Saharan Africa: 1400–1800; 1280, Africa since 1800: The Revolution of the Western World; 2140, The Mughal World; 2150, India and the Indian Ocean; 2155, Muhammad and Early Islam; 2160 Medicine in Islam; 2170, Islam and the Crusades; 2180, Islamic Narratives: Narratives of Islam; 2190, Last Empire of Islam; 2530, African Religions in the Americas; 3150, Cities of Europe and the Middle East; 3210, Muslims, Christians, and Jews in Medieval Spain; 3220W Images of India.

JEWISH STUDIES: 2540, Power and Diplomacy in Modern Middle East; 2600, Islam and the Jews.

PHILOSOPHY: 2102, Medieval Philosophy; 3006, Islamic Philosophy.

POLITICAL SCIENCE: 1111, First-Year Writing Seminar (when related to Islamic history or culture as determined by the director of undergraduate studies); 2203, Middle East Politics; 3235, Political Islam; 3272W, The War in Iraq 2002–2011; 3986, Selected Topics (when related to Islamic politics or culture as determined by the director of undergraduate studies).

RELIGIOUS STUDIES: 1500, Introduction to Islam; 1111, First-Year Writing Seminar (when related to Islamic religion or culture as determined by the director of undergraduate studies); 1500, Introduction to Islam; 2461, Islam in Africa; 3271, Religion in Africa; 4551, Islamic Mysticism; 4552, Islam in the Modern World: Reformers of the Islamic Tradition; 4554, The Qur'an and Its Interpreters; 4562, Culture, Religion, and Politics of the Arab World; 4666, Devotional Traditions of South Asia: Hindu, Muslim, Sikh; 4592, Advanced Seminar in Arabic; 4593, Advanced Seminar in Islamic Traditions.

Minor in Islamic Studies

18 credit hours. Students complete a required minimum of 18 credit hours from the list below, following one of two tracks. Track A "Foundations and Literature": 9 credit hours from category I, Grammar and Constructions and 9 credit hours from category II, Literature and Culture. Track B "Full Proficiency": 12 credit hours from category I, Grammar and Constructions, and 6 credit hours from category II, Literature and Culture. No credit hours will be counted for Arabic 1101 or Arabic 1102.

CATEGORY I, Grammar and Constructions: ARA 2201, Intermediate Arabic I; 2202, Intermediate Arabic II; ARA 3101, Advanced Arabic I; 3102, Advanced Arabic II.

CATEGORY II, Literature and Culture: ARA 3201, Media Arabic; ARA 3301, Arabic of the Qur'an and Other Classical Texts; RLST 4592, Reading Seminar in Arabic Literature; RLST 4593, Reading Seminar in Islamic Tradition.

Course descriptions begin on page 207.
ASSOCIATE PROFESSORS Andreas A. Berlind (Astronomy), Robert E. Bodenheimer (Computer Science), Guillerme Gualda (Earth and Environmental Sciences), Kelly Holley-Bockelmann (Astronomy), Haoxiang Luo (Mechanical Engineering), Sean Polyn (Psychology and Neuroscience), Greg Walker (Mechanical Engineering), Steve Wernke (Anthropology)
ASSOCIATE PROFESSOR OF THE PRACTICE Gerald H. Roth (Computer Science)
ASSISTANT PROFESSORS Tony Capra ( Biological Sciences), Bennett Landman (Electrical Engineering), Carlos Lopez ( Cancer Biology), Jennifer Trueblood (Psychology), William Holmes (Physics and Astronomy)
ADJUNCT ASSISTANT PROFESSOR William R. French (Chemical and Biomolecular Engineering)

The College of Arts and Science and the School of Engineering offer an interdisciplinary minor in scientific computing to help students in the physical, biological, and social sciences as well as engineering acquire the ever-increasing computational skills that such careers demand. Students who complete this minor will have a toolkit that includes programming skills useful for simulating physical, biological, and social dynamics as well as an understanding of how to take advantage of modern software tools to extract meaningful information from small and large data sets.

Computation is now an integral part of modern science. Computer simulation allows the study of natural phenomena impossible or intractable through experimental means. Astronomers studying the formation of massive black holes, neuroscientists studying the brain networks for human memory, economists studying effects of regulation on market dynamics, and biochemists studying the three-dimensional structure of proteins are united in many of the computational challenges they face and the tools and techniques they use to solve these challenges.

Students pursuing the scientific computing minor are taught techniques for understanding such complex physical, biological, and social systems. Students are introduced to computational methods for simulating and analyzing models of complex systems, to scientific visualization and data mining techniques needed to detect structure in massively large multidimensional data sets, to high-performance computing techniques for simulating models on computing clusters with hundreds or thousands of parallel, independent processors and for analyzing terabytes or more of data that may be distributed across a massive cloud or grid storage environment.

The scientific computing minor at Vanderbilt is supported by faculty and includes students from a wide range of scientific and engineering disciplines. While the content domain varies, these disciplines often require similar computational approaches, high-performance computing resources, and skills to simulate interactions, model real-life systems, and test competing hypotheses. Scientific computing embodies the computational tools and techniques for simulating physical, biological, and social dynamics as well as an understanding of how to take advantage of modern software tools to extract meaningful information from small and large data sets.

Students majoring in sociology are required to complete 33 credit hours of work in sociology (36 credit hours for students in the Honors Research Track). The major consists of five types of courses as listed below: introduction, theory, research skills, core areas, and electives.

Program of Concentration in Sociology

Students majoring in sociology are required to complete 33 credit hours of work in sociology (36 credit hours for students in the Honors Research Track). The major consists of five types of courses as listed below: introduction, theory, research skills, core areas, and electives.

Course work for the major is distributed as follows:

Program I (Standard Track)

A total of 33 credit hours as follows:

1) Introduction: Sociology 1010, 1010W, 1020, or 1020W
2) Theory: Sociology 3001
3) Research Skills: Sociology 3002 (or HOD 2500 for students who double major in sociology and HOD)
4) Core Areas

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Sociology
Students must take at least one course in three of the four core areas listed below. A course cannot be used to satisfy more than one requirement in the major.

**Culture, Institutions, and Socialization**
Sociology 3201, 3202, 3203, 3204, 3205, 3206, 3213, 3221, 3222, 3223, 3224, 3231, 3232, 3233

**Health, Environment, Population, and Migration**
Sociology 3301, 3302, 3303, 3304, 3311, 3312, 3313, 3314, 3315, 3316, 3317, 3318, 3321, 3322; Environmental and Sustainability Studies 4101; Medicine, Health, and Society 2310, 2430

**Politics, Law, and Conflict**
Sociology 3233, 3601, 3602, 3603, 3604, 3605, 3611, 3612, 3613, 3614, 3615, 3616, 3621, 3622, 3623, 3624; Jewish Studies 2560

**Race, Ethnicity, and Gender**
Sociology 3601, 3615, 3616, 3701, 3702, 3703, 3704, 3711, 3722, 3723, 3724; Jewish Studies 2400, 2450

5) **Electives**
Any 5 sociology courses not used to satisfy the above requirements. SOC 2100 or its equivalent may be counted toward the electives. (Equivalent courses are ECON 1500 or 1510 or MATH 1011 or 2820. Students who double major in sociology and psychology or in sociology and the Peabody majors of human and organizational development, child development, cognitive studies, or child studies may also choose from PSY 2100 or PSY-PC 2110.) Electives may also include only one of the following 1000-level sociology courses: Sociology 1041, 1041W, or 1111. No other 1000-level sociology course may be counted toward the electives requirement of the major except by permission of the director of undergraduate studies. The Department of Sociology advises students to group their elective sociology courses in a cluster of advanced concentration electives to be selected with the student's adviser. See the director of undergraduate studies or the departmental website for suggested clusters: as.vanderbilt.edu/sociology/undergraduate-major.

**Program II (Honors Research Track)**
A total of 36 credit hours as follows:

- The Honors Research Track offers superior majors in sociology the opportunity to pursue intensive work through an independent research project. Students interested in pursuing the Honors Research Track in Sociology should contact the director of undergraduate studies for more information. To be considered for the Honors Research Track in Sociology, a student must have a minimum cumulative GPA of 3.3 and a minimum GPA of 3.3 for courses that count toward the sociology major. Students who are recommended for the program by the director of undergraduate studies will typically begin the program in the first semester of their junior or senior year. The Honors Research Track in Sociology requires:

  1. **Successful completion of requirements 1–4 in Program I**, for a total of 18 credit hours.
  2. **Successful completion of the statistics requirement: SOC 2100 or its equivalent** (defined in requirement 5 of Program I).
  3. **Completion of 12 credit hours of elective courses. The statistics requirement is counted toward the electives. Electives may include only one of the following 1000-level sociology courses: Sociology 1041, 1041W, or 1111. No other 1000-level sociology course may be counted toward the electives requirement of the major except by permission of the director of undergraduate studies. If students take more than 6 credit hours of SOC 4981, the additional credit hours (7–12) are counted toward the elective courses.
  4. **Successful completion of at least two semesters of SOC 4981 (Honors Research).** The first semester of 4981 (Honors Research) is a 3 credit hour seminar in which students develop the literature review and research plan for the honors thesis. In the second semester of 4981 (Honors Research), also for 3 credit hours, students must complete the research and data collection, data analysis, and initial write-up of results of the thesis. Students may elect to take a third or fourth semester of 4981 during their senior year, when they may, for example, work on revisions of the project and/or on publication. Students who begin the Honors Track in their senior year may also take more than 6 credit hours of 4981, up to a maximum of 12 credit hours.
  5. **Successful defense of the completed thesis through an oral defense attended by the chair and reader of the thesis; this oral defense typically takes place during the second semester of the student's senior year. In order to earn honors in sociology, students must successfully complete and defend an honors thesis before graduation.

**Comprehensive Exam**
In order to graduate with a sociology major, students must take a comprehensive exam during their senior year. The exam is not graded, and no grade will appear on the student's transcript. The purpose of the exam is to test the extent to which sociology majors are retaining core aspects of the sociology curriculum.

**Program of Concentration in Environmental Sociology**
Environmental sociology is the study of the relationship between modern societies and the environment at a variety of scales, from households to global relations. It includes issues such as public understanding of environmental issues, the environment and inequality, environmental social movements and social change, and analysis of environmental reform and adaptation. Environmental sociology is different from environmental science, which is based in the natural sciences, and environmental studies, which includes courses from a wide range of disciplines, including engineering and the humanities. The department's program in environmental sociology includes a solid introduction to sociology and sociological methods as well as foundation requirements in environmental science. The program prepares students for careers in government, the law, management, research and teaching, and the nonprofit sector.

Students majoring in environmental sociology are required to complete 33 credit hours of course work. The major consists of four types of courses: foundation social science courses, foundation environmental science courses, research skills, and environmental sociology courses.

**Program I (Standard Track)**
A total of at least 33 credit hours as follows:

1. **Foundation Courses in Sociology**
   SOC 1020 or 1020W, SOC 3001

2. **Foundation Courses in Environmental Sciences**
   Two courses from EES 1510, 1030, 1070, 1080, 1140, 1111, 2150, 2510,* 3220,* 3310,* 4680,* 4750,* 4820,* at least one of which must address climate-related issues (EES 1080, 1140, 2110,* 2150, 2510,* 4680,* 4820,* or another

* Required course for the major.
Program II (Honors Research Track in Environmental Sociology)

A total of at least 36 credit hours as follows:

The Honors Research Track offers superior majors in environmental sociology the opportunity to pursue intensive work through an independent research project. Students interested in pursuing the Honors Research Track in Environmental Sociology should contact the director of undergraduate studies of Sociology for more information. To be considered for the Honors Research Track in Environmental Sociology, a student must have a minimum cumulative GPA of 3.3 and a minimum GPA of 3.3 for courses that count toward the environmental sociology major. Students who are recommended for the program by the director of undergraduate studies of Sociology will typically begin the program in the first semester of their junior or senior year.

The Honors Research Track in Environmental Sociology requires:

1) Successful completion of requirements 1 through 3 in the Standard Track.
2) At least 12 credit hours from requirement 4 in the Standard Track.
3) Successful completion of at least two semesters of SOC 4981 (Honors Research). The first semester of 4981 (Honors Research) is a 3 credit hour seminar in which students develop the literature review and research plan for the honors thesis. In the second semester of 4981 (Honors Research), also for 3 credit hours, students must complete the research and data collection, data analysis, and initial write-up of results of the thesis. Students may elect to take a third or fourth semester of 4981 during their senior year, when they may, for example, work on revisions of the project and/or on publication. Students who begin the Honors Program in their senior year may also take more than 6 credit hours of 4981, up to a maximum of 12 credit hours.
4) Successful defense of the completed thesis through an oral defense attended by the chair and reader of the thesis; this oral defense typically takes place during the second semester of the student's senior year. To earn honors in environmental sociology, students must successfully complete and defend an honors thesis before graduation.

Comprehensive Exam

In order to graduate with an environmental sociology major, students must take a comprehensive exam during their senior year. The exam is not graded, and no grade will appear on the student's transcript. The purpose of the exam is to test the extent to which majors are retaining core aspects of the environmental sociology curriculum.

Minor in Sociology

The minor in sociology is intended for those students who want to gain an overview of the discipline and to sample some of the special lines of study in it.

Students are required to complete 18 credit hours of course work inside the department, distributed as follows:

1. Sociology 1010, 1010W, or 1020, 1020W 3
2. Sociology 3001 3
3. Four courses, including at least one from three of the four core areas listed in above major 12

Total credit hours: 18

Licensure for Teaching

Candidates for teacher licensure in sociology at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

Course descriptions begin on page 212.

PROFESSORS Earl E. Fitz, Edward H. Friedman, Ruth Hill, William Luis, Philip D. Rasico, Benigno Trigo, Andrés Zamora
ASSOCIATE PROFESSORS Victoria A. Burreus, Christina Karageorgiou-Bastea, Emanuelle Oliveira-Monte
ASSISTANT PROFESSORS José Cárdenas Bunsen, N. Michelle Murray
MELLON ASSISTANT PROFESSOR Anna Castillo
SENIOR LECTURERS Frances Alpren, José Luis Aznar, Lorraine Catanzaro, Rachael R. Chiguluri, Sarah Delassus, Heraldo Falconi, Victoria Gardner, Chalene Helnhuth, Clint Hendrix, Stacey Johnson, Benjamin Legg, Alicia Lorenzo-García, Patrick Murphy, Elena Olazagasti-Segovia, Amariel Ortiz, Carolina Palacios, María Paz Pintané, Cynthia M. Wasick
LECTURER Katherine Wesolek

THE Department of Spanish and Portuguese offers a wide range of courses in the language, culture, and literature of Spain and Spanish America and is well known for its program in Portuguese and Brazilian studies. Intensive Elementary Catalan is also offered.

The department offers programs of concentration in both Spanish and Spanish and Portuguese. Majors take courses in language, literature, linguistics, and culture. Interdisciplinary majors are available in Spanish and European Studies or in Spanish, Portuguese, and European Studies. Qualified Spanish majors may elect to take graduate courses in their senior year or participate in honors work. Minors in Spanish and in Portuguese are also offered.
The department serves majors from the Center for Latin American Studies and the Max Kade Center for European and German Studies. On the graduate level, the department offers a doctoral program in Spanish and a combination doctoral degree in Spanish and Portuguese.

Many students participate in Vanderbilt programs in Sevilla, Barcelona, Palma de Mallorca, Argentina, Chile, Cuba, the Dominican Republic, and Brazil. Maymesters in Spain and Peru are also offered. Activities organized by the department include lectures, films, symposia, and Brazil Week. The department has a chapter of the national honor society Sigma Delta Pi for students of Spanish. Students are encouraged to apply for living space in the Spanish Hall of McTyeire International House.

**NOTE:** New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

### Program of Concentration in Spanish

The major consists of 30 credit hours in Spanish courses numbered 3301W and above. The distribution requirements are as follows:

1. **Core requirements:** 3301W, 3302, and 3303.
2. **Literature:** Nine credit hours from courses numbered 4400–4980 or 3895 or 3893.
3. **Linguistics:** Three credit hours from courses numbered 4300–4360 or 3892.
4. **Electives:** Nine credit hours from courses numbered 3320–3835 or 3891–4980. Students may substitute 3 credit hours of an advanced language course in either Portuguese (1103 or higher) or Catalan (1103 or higher).

A more advanced composition course may be substituted for 3301W. A more advanced conversation course may be substituted for 3302. Spanish 3303 is the prerequisite for all literature courses offered by the department. Students must take Spanish 3301W, 3302, and 3303 in order to participate in most study abroad programs. Seniors are eligible to take one or two graduate-level courses (7000 and above) with the approval of the instructor and the chair of the department.

### Honors Program in Spanish

Candidates for honors in Spanish who meet college and departmental requirements must complete 36 credit hours in Spanish courses numbered 3301W and above. Students satisfy the requirements of the 30-credit-hour major in Spanish, in which one of the required literature courses is either the undergraduate seminar, Spanish 4980 (3 credit hours), which may be taken during either the junior or senior year, or a graduate seminar (course numbered 7000–9520) approved by the adviser to the Honors Program, which may only be taken during the senior year. (If Spanish 4980 has not been available, it may, with permission of the adviser to the Honors Program, be substituted by an "enriched" undergraduate literature course in which the instructor assigns outside research and a second or longer term paper to an honors candidate.)

The remaining 6 credit hours of the honors major consist of a senior honors thesis, which is completed during the senior year as independent study (Spanish 4998–4999) under the direction of a faculty adviser. Candidates must submit a proposal for the thesis to their prospective faculty adviser no later than the second semester of their junior year. The completed thesis must be submitted within the second semester of the senior year (deadlines are available from the department). An oral examination on the thesis and the general area of research, administered by a committee of the department, will follow.

### Minor in Spanish

The minor in Spanish consists of a minimum of 18 credit hours. The specific requirements are as follows:

- Spanish 3301W (A more advanced composition course may be substituted) 3
- Spanish 3302 (A more advanced conversation course may be substituted) 3
- Spanish 3303 3
- Three credit hours of advanced Spanish literature chosen from courses numbered from 4400–4980 or 3895 or 3893 3
- Six credit hours of electives chosen from Spanish courses numbered 3320–3835, 3891–4980 6

**Total credit hours: 18**

### Minor in Portuguese

The minor in Portuguese consists of a minimum of 15 credit hours. The specific requirements are as follows:

- Portuguese 2203 (Intermediate Portuguese; a more advanced language course may, subject to approval by the department, be substituted) 3
- One of the following two courses: Portuguese 3301 (Portuguese Composition and Conversation) or Portuguese 3302 (Brazilian Pop Culture) 3
- Portuguese 3303 (Introduction to Luso-Brazilian Literature) 3
- At least one of the following two courses: Portuguese 4420 (Brazilian Literature through the Nineteenth Century) or Portuguese 4425 (Modern Brazilian Literature) 3
- At least 3 additional credit hours selected from among the courses listed below (or a graduate course numbered 7000–9520 for qualified seniors; procedures may be found in the Academic Regulations section of the Undergraduate Catalog). Portuguese 4350 (Brazilian Culture through Native Material), 4420 (Brazilian Literature through the Nineteenth Century), 4425 (Modern Brazilian Literature), 3892 (Special Topics in Portuguese Language, Literature, and Civilization) 3

**Total credit hours: 15**

### Program of Concentration in Spanish and Portuguese

This major focuses on the two dominant languages (Spanish and Portuguese) of the Iberian Peninsula and Latin America and their literatures and cultures. The basic requirement for this major is a minimum of 33 credit hours in Spanish and Portuguese. The distribution is as follows:

1. **Core requirements of Spanish:** 3301W, 3302, and 3303; Portuguese 2203, 3301 (or 3302), and 3303.
2. At least two Spanish courses numbered between 3320–3330, 3355–3385, 4400–4980 or 3835, 3891 or 3893.
3. At least two of the following Portuguese courses: 3892, 4350, 4420, 4425, 7070, 7071, and 9520.
4. One additional elective to be chosen from the courses listed under area 2 and 3 above.

A student who studies abroad may be able to substitute similar culture or literature courses with the permission of the director of undergraduate studies.

Program of Concentration in Spanish and European Studies

Students pursuing the interdisciplinary major in Spanish and European studies combine their focus on Spanish language and literature with a study of modern Europe in its political, economic, and cultural diversity. Students may elect this interdisciplinary major, which requires a minimum of 42 credit hours of course work. A semester of study abroad in Spain is recommended. Course work for the major is distributed as follows:

**Spanish (27 credit hours)**

- Spanish language and literature core courses (9 credit hours):
  - Spanish 3301W, 3302, and 3303 (a more advanced composition course may be substituted for 3301W; a more advanced conversation course may be substituted for 3302)
  - Spanish culture and civilization (6 credit hours): Two of the following: Spanish 3320, 3325, 3360, 3365, 3891
  - Spanish literature (6 credit hours): Two Spanish courses numbered from 4400–4980 or 3835 or 3893

**Elective (6 credit hours):** Two additional Spanish courses that count toward the Spanish major. Students may substitute 3 credit hours of a language course in either Portuguese (1103 or higher) or Catalan (1103 or higher).

**European Studies (15 credit hours)**

- European Studies core courses (9 credit hours): EUS 2201, 2203, and 4960 (requires thesis)
- Social Science (3 credit hours): PSCI 2210, 3211 or appropriate substitute with the approval of the EUS adviser
- History (3 credit hours): One course in European history selected from: History 2250, 2260, 2270, 2280, 2290, 2450 or another course in European history in consultation with the EUS adviser

**Program of Concentration in Spanish, Portuguese, and European Studies**

Students pursuing the interdisciplinary major in Spanish, Portuguese, and European studies combine their focus on Spanish and Portuguese language and literature with a study of modern Europe in its political, economic, and cultural diversity. Students may elect this interdisciplinary major, which requires a minimum of 42 credit hours of course work. A semester of study abroad in Spain is recommended. Course work for the major is distributed as follows:

**Spanish (18 credit hours)**

- Spanish language and literature core courses (9 credit hours):
  - Spanish 3301W, 3302, and 3303 (a more advanced composition course may be substituted for 3301W; a more advanced conversation course may be substituted for 3302)
  - Spanish culture and civilization (3 credit hours): One of the following: Spanish 3320, 3325, 3360, 3365, 3891
  - Spanish literature (3 credit hours): Any Spanish course numbered from 4400–4980 or 3835 or 3893

**Elective (3 credit hours):** Any additional Spanish course that counts toward the Spanish major

**Portuguese (9 credit hours)**

- Portuguese language and literature courses (6 credit hours):
  - Portuguese 2203 and 3303
- Brazilian culture and civilization (3 credit hours):
  - Portuguese 4350

**European Studies (15 credit hours)**

- European Studies core courses (9 credit hours): EUS 2201, 2203, and 4960 (requires thesis)
- Social Science (3 credit hours): PSCI 2210, 3211 or appropriate substitute from any other social studies discipline with approval of the EUS adviser
- History (3 credit hours): One course in European history selected from: History 2250, 2260, 2270, 2280, 2290, 2450 or another course in European history in consultation with the EUS adviser

**Teacher Licensure**

Candidates for teacher licensure in Spanish at the secondary level should refer to the chapter on Licensure for Teaching in the Peabody College section of this catalog.

**Catalan**

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

**Course descriptions begin on page 153.**

**Portuguese**

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language.

**Course descriptions begin on page 205.**

**Spanish**

Entering students should consult their advisers or the director of undergraduate studies at the Department of Spanish and Portuguese for advice on placement. Students who have not studied Spanish in high school should begin their studies at Vanderbilt in Spanish 1100. Students with high school Spanish on their records must present a department placement test score in Spanish to be placed correctly. (See department website for more details.)
Students with a score of 4 or 5 on the AP Spanish Language or Literature examination should register for Spanish 3301W (Intermediate Spanish Writing).

Note: Students may not earn credit for an introductory language course if they previously have earned credit for a higher-level course taught in that same language. In addition, students may not earn credit for an intermediate-level language course if they previously have earned credit for a higher-level course taught in that same language. Students who have earned Advanced Placement or International Baccalaureate credit in a foreign language will forfeit the test credit if they complete a lower-level course taught in that same language. Exception: Students who take Spanish 3301W do not forfeit credit for Spanish 3302.

Course descriptions begin on page 215.

Teacher Education

STUDENTS interested in preparing for licensure as early childhood, elementary, special education, or secondary school teachers should meet with Associate Dean Roger Moore, College of Arts and Science, as soon as possible to initiate discussion with appropriate personnel in teacher education. Specific information on program requirements will be found under Licensure for Teaching in the Peabody College section of this catalog.

Early Childhood and Elementary Education

Students interested in preparing to teach early childhood or elementary school pupils major in a single discipline or an interdisciplinary program in the College of Arts and Science as well as in education at Peabody College.

Secondary Education

The College of Arts and Science and Peabody College offer teacher education programs leading to secondary school teacher licensure in the following fields:

- English
- Mathematics
- Science (Biological Sciences, Chemistry, Earth and Environmental Sciences, Physics)
- Social Studies (History and Political Science). Economics, Psychology, and Sociology may become additional endorsement areas for students who also have selected history or political science as an endorsement area.

Students major in an academic discipline in the College of Arts and Science and complete a second major in education at Peabody College.

Special Education

Students interested in preparing to teach children with special needs major in special education at Peabody College. Areas of teacher licensure available are mild and moderate disabilities, multiple and severe disabilities, visual impairment, hearing impairment, and early childhood special education.

Theatre

CHAIR M. Leah Lowe
DIRECTOR OF UNDERGRADUATE STUDIES Jon W. Hallquist
PROFESSORS EMERITI Robert A. Baldwin, Cecil D. Jones Jr.
ASSOCIATE PROFESSORS E. Christin Essin, Phillip N. Franck, Jon W. Hallquist, Terry W. Hallquist, M. Leah Lowe
SENIOR LECTURERS Alexandra A. Sargent, Matthew D. Stratton
WRITERS IN RESIDENCE Diana Grisanti, Stephen Moulds

VANDERBILT’S Department of Theatre offers a vital center of innovative scholarship, teaching, creative expression, and exploration. The study of theatre introduces students to a major form of literature and performing arts, thereby developing a familiarity with one of the greatest cultural heritage and an understanding of human behavior and civilization as it is reflected through the ages. Theatre uniquely shapes perceptions about life into an active experience. Because this process encourages critical thought and discussion, the department provides a singular and important aspect of a liberal arts education through its production season and course work. Viewed as a practical extension of the department’s curriculum, plays are produced in Neely Auditorium, a laboratory where students learn to form creative expressions as well as to evaluate and to critique them.

On one level, the Department of Theatre helps the general liberal arts student develop reasoned standards of criticism and an understanding of the intimate correlation between the theatre and the society which it reflects, preparing Vanderbilt graduates for successful careers in theatre as well as other fields of interest. For its majors and minors, the department provides a more detailed and specialized study of the major components of theatrical endeavor, allowing opportunities for the practical application of course work in the productions staged at the theatre. In many cases, the department helps to prepare students with professional aspirations as either artists or teachers in their specialized area of interest.

Work in the productions at Vanderbilt reflects the instruction that occurs in the classroom at Neely Auditorium. Because the academic endeavors require hands-on, project-oriented teaching, students can expect small- to medium-class enrollments and numerous opportunities for exposure to faculty instruction outside of the classroom. The department’s curriculum includes courses in acting, directing, design, technology, dramatic literature, theatre history and criticism, and playwriting. Students can either major or minor in theatre at Vanderbilt. The major consists of a minimum of 35 credit hours that include courses in acting, directing, dramatic literature, theatre history/criticism, design, technology, and stagecraft. For the minor, students select one of three more narrowly focused tracks (dramatic literature/theatre history, acting/directing, or design/technology) and complete a minimum of 18 credit hours of course work.

Students may also learn about theatre by studying with Coe Artists, distinguished guest-artist professionals brought to campus each year to benefit majors, minors, and those with a serious interest in theatre. Weeklong master classes are taught by playwrights, actors, designers, and directors from the professional world of theatre, television, and film. Previous Coe Artists have included such celebrated artists as Karl Malden, Olympia Dukakis, Fiona Shaw, Eva Marie Saint, the Living Theatre, and Actors from the London Stage. The Department of Theatre also offers a month-long program of study of theatre in London during the May session. Students have the
opportunity to witness a variety of theatrical experiences, as well as hear professional artists speak as guest lecturers.

Theatre majors and minors from Vanderbilt have entered a wide variety of professions and post-graduate opportunities after they graduate. Those seeking employment in the fields of theatre, film, radio, or television have secured positions at appropriate graduate schools or internships with professional companies immediately following their study at Vanderbilt. Many distinguished professional theatre companies across the nation, television networks in New York, and the film industry in Los Angeles include Vanderbilt University Theatre alumni as writers, actors, designers, technicians, dramaturgs, and stage managers. In addition, many Vanderbilt theatre students have secured teaching assignments at either the college/university level (once they have completed appropriate post-graduate education) or the elementary/secondary education level.

The practice of theatre requires individuals to participate through a variety of means: to collaborate with all other members of a production team; to express elements of abstract thought in both oral and written form; and to develop the critical ability to assess and analyze aesthetic choices. As a result of these experiences, recent graduates have also pursued careers in such widely diverse fields as law, medicine, psychology, and business.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Theatre

Students majoring in theatre are required to complete a minimum of 35 credit hours in courses concerned exclusively with theatre and dramatic literature. Required courses are 1010/1010W or 1111, 1711, 1611, 2651, and 4961; two courses chosen with theatre and dramatic literature. Required courses are also as hear professional artists speak as guest lecturers.

Many distinguished professional theatre companies across the nation, television networks in New York, and the film industry in Los Angeles include Vanderbilt University Theatre alumni as writers, actors, designers, technicians, dramaturgs, and stage managers. In addition, many Vanderbilt theatre students have secured teaching assignments at either the college/university level (once they have completed appropriate post-graduate education) or the elementary/secondary education level.

Program of Concentration in Theatre

Students majoring in theatre are required to complete a minimum of 35 credit hours in courses concerned exclusively with theatre and dramatic literature. Required courses are 1010/1010W or 1111, 1711, 1611, 2651, and 4961; two courses chosen from 2201, 2202W, 2204, and 4201; one course chosen from 3721, 3761, and 3741; additional 9 credit hours chosen from other theatre courses above the 2000 level.

Honors Program

The Honors Program in Theatre is designed to afford superior students the opportunity to pursue more intensive work within their major field. Admission requirements are: (1) completion of junior year; (2) completion of at least 21 credit hours of the theatre major; (3) 3.3 minimum cumulative GPA and a 3.5 minimum GPA in courses counting toward the major. Candidates who successfully complete the following requirements may graduate with honors or highest honors: (1) maintain the aforementioned GPA throughout the senior year; (2) complete all requirements of the theatre major; (3) complete 6 credit hours of independent research 4998–4999 (Honors Research and Thesis) normally taken during the senior year; (4) write an honors thesis to be completed by the second semester of the senior year; (5) successfully complete an honors oral examination on the topic of the thesis.

Minor in Theatre

A minor in theatre requires a minimum of 18 credit hours of courses in the department. All students minoring in theatre must complete 1010/1010W or 1111 and 4201. In addition, each student must complete one of the following three clusters: Dramatic Literature/Theatre History: 2201, 2202W, 2204, and 3201W; Acting/Directing: 1611, 3611, 4611, and 2651; Design/Technology: 1711 is required; choose three from 3721, 3761, 3741, or 3781.

Course descriptions begin on page 218.

WRITER IN RESIDENCE Alice Randall (African American and Diaspora Studies)

WOMEN’S and Gender Studies is an interdisciplinary program that examines gender as a social construct and as a historically variable component of culture that orders human behavior, perceptions, and values. The program teaches its students to reexamine traditional beliefs, to engage in new kinds of research, and to bring a critical perspective to the everyday practices that shape women’s and men’s lives in the United States and globally. Our courses and instructors pay particular attention to the consequences for women, men, and children of living in a world characterized by profound inequalities. The program also recognizes that race, class, ethnicity, age, sexuality, ability, and nationality are crucial aspects of identity and experience; these are understood to be intersecting and contested features of social life and are examined as such.

Because these aforementioned features of human experience cut across many disciplines, students in the Program in Women’s and Gender Studies achieve a deeper understanding of the complexity and wholeness of human life. In the classroom, as in faculty and student research, our goal is to transform traditional ways of knowing by reaching across epistemological and methodological divisions to foster comprehensive, interdisciplinary perspectives on gender, sexuality, identity, and power in social life. Women’s and gender studies not only compels us to recognize the problems and possibilities of the changing times in which we live, but also empowers us to effect change.

The Women's and Gender Studies program offers a major and a minor which provide an excellent foundation for students who plan to enter professional schools in law, medicine, and business; for those who pursue advanced degrees in women’s and gender studies, the humanities, and social sciences; as well as for those who move into careers in business, government, research, teaching, health and social administration, counseling, journalism, advocacy, and the media.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Program of Concentration in Women’s and Gender Studies

The interdisciplinary major in women’s and gender studies consists of 36 credit hours of course work, distributed as follows:

1. Core courses. Either 1150 (or 1150W) or 1160, 3201, and either 3246W or 3250 (or 3250W). (9 credit hours)
2. Senior Seminar. 4960. Generally taken in the second semester of the student’s final year. (3 credit hours)
3. 24 credit hours of electives. Any courses in the Women’s and Gender Studies program; any courses dual-listed in Women’s and Gender Studies; any course that meets the approval of the director of the program, and is not used to satisfy the above requirements. These elective courses may include up to 6 credit hours of internship and/or independent research (3882, 3883).

Honors Program

The Honors Program in Women’s and Gender Studies requires 36 credit hours of course work and is designed to afford exceptional students the opportunity to undertake independent research on a topic in feminist and/or gender scholarship in consultation with faculty members. The program is open to all women’s and gender studies majors with junior standing who have completed at least 24 credit hours of the major and who have earned a 3.3 cumulative grade point average and a 3.3 grade point average in courses counting toward the women’s and gender studies major. Students must be approved for acceptance into the Honors Program by the program director. To graduate with honors in women’s and gender studies, students must:

(a) Complete 36 credit hours of course work;
(b) Complete the required courses for the major (described above);
(c) Submit for approval a short description of the Honors project/thesis to the director of the Women’s and Gender Studies program, no later than second semester of the junior year;
(d) Complete 6 credit hours of independent research, 4998 and 4999 (Honors Research and Project), typically during the senior year under supervision of the project adviser. These 6 credit hours count as electives in the 36 credit hours of course work for Honors majors.
(e) Complete an honors project by the second semester of the senior year; and
(f) Pass an oral examination on the topic of the Honors project/thesis.

Candidates for honors in women’s and gender studies may, with the written permission of the director of the program, substitute one 3000-level course in gender and/or feminist studies for one 2000-level course required for the major.

Information concerning the Honors Program is available from the director of the Women’s and Gender Studies program. College regulations governing honors may be found in this catalog under Honors Programs.

Minor in Women’s and Gender Studies

The minor in women’s and gender studies consists of 18 credit hours of course work, distributed as follows:

1. Core courses. Either 1150 (or 1150W) or 1160, 3201, and either 3246W or 3250 (or 3250W). (9 credit hours)
2. Senior Seminar. 4960. Generally taken in the second semester of the student’s final year. (3 credit hours)
3. At least 6 credit hours of electives. Any courses in the Women’s and Gender Studies program; any courses dual-listed in Women’s and Gender Studies; any course that meets the approval of the director of the program, and is not used to satisfy the above requirements.

Recommended courses organized by subject area are as follows.

*Note: 111 First-Year Writing Seminars and Special Topics courses vary each semester. For full descriptions of current seminar offerings and information on whether a particular First-Year Writing Seminar can be used to fulfill requirements for the women's and gender studies major or minor, consult the program director.
AFRICAN AMERICAN AND DIASPORA STUDIES: 1111, First-Year Writing Seminar*; 1204, Diaspora Feminisms; 2204, Politics of Beauty and Blacks; 3214, Black Masculinity: Social Imagery and Public Policy; 4264, Black Diaspora Women Writers.

ANTHROPOLOGY: 2105, Race in the Americas; 3121, Global Wealth and Poverty; 2342, Biology of Inequality; 2110, Gender and Cultural Politics.

COMMUNICATION STUDIES: 1111, First-Year Writing Seminar*; 2950, Rhetoric of Mass Media; 3100, Rhetoric of Social Movements; 3110, Women, Rhetoric, and Social Change; 3720, Communicating Gender; 3890, Selected Topics in Communication Studies*.

GERMAN: 2444, German Fairy Tales: From Brothers Grimm to Walt Disney; 3344, Women at the Margins; German-Jewish Writers; 4535, German Romanticism; 4537, Women and Modernity.

HISTORY: 1111, First-Year Writing Seminar*; 2810, Women, Health, and Sexuality; 3344, Sexuality and Gender in the Western Tradition to 1700; 2840, Sexuality and Gender in the Western Tradition since 1700; 2765, Art since 1945; 3228W, Gender and Sexuality in Greek Art; 3890, Directed Study*; 4960, Advanced Seminar*.

ITALIAN: 3340, Famous Women by Boccaccio.

JEWISH STUDIES: 1111, First-Year Writing Seminar*.

MEDICINE, HEALTH, AND SOCIETY: 1111, First-Year Writing Seminar*; 1930, Health Social Movements; 1940, Racial and Ethnic Health Disparities; 2230, Masculinity and Men's Health; 2240, Bionic Bodies, Disability Cultures; 2250, War and the Body; 3890, Special Topics*.

PHILOSOPHY: 3604, Gender and Sexuality; 3007, French Feminism.

PSYCHOLOGY: 3705, Human Sexuality.

RUSSIAN: 1874, Russian Fairy Tales.

SOCIOLOGY: 3221, The Family; 3304, Race, Gender, and Health; 3603, Women and Social Activism; 3604, American Social Movements; 3611, Women and the Law; 3616, Women and Public Policy in America; 3702, Racial and Ethnic Minorities in the United States; 3704, Race, Gender, and Sport; 3711, Women, Gender, and Globalization; 3722, Gender in Society; 3723, Gender, Sexuality, and the Body; 3724, Gender Identities, Interactions, and Relationships.

SPANISH: 3893, Special Topics in Hispanic Literature*; 4755, Latin American Women Writers.

Course descriptions begin on page 219.
African American and Diaspora Studies

AADS 1001. Commons Seminar. [Formerly AADS 99] Topics vary. Open only to first-year students. General Elective credit only. [1] (No AXLE Credit)

AADS 1010. Introduction to African American and Diaspora Studies. [Formerly AADS 101] Foundations of African American culture from ancient African history and through contemporary issues in the African American experience and the larger diaspora. The characteristics, developments, and dynamics of diaspora culture in the Americas, with a particular focus on the United States. [3] (P)

AADS 1111. First-Year Writing Seminar. [Formerly AADS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

AADS 2148. Blacks in Latin America and the Caribbean. [Formerly AADS 140] Distinctive cultural forms and patterns in the Caribbean basin and Latin America from the sixteenth century to the present. Diverse origins of culture. Slave society's impact on cultural production. [3] (INT)

AADS 2178. Global Africa. [Formerly AADS 165] The globalization of Africa within the context of Arab and European expansion. Historical flashpoints and contemporary events. The invention of Africa in literary and political discourses. The geopolitics of aid and development. Africa's relationship with the African diaspora, including modern migrations and debates on the racial and geographic divide between Arab regions north and south of the Sahara. [3] (INT)

AADS 2294. Black Paris – Paris Noir: The African Diaspora and the City of Light. [Formerly AADS 208] The lived experiences, tensions, belonging, and representations of people of African descent who self-identify and are identified as Black or Noir in Paris, France, from the interwar years to the present. Diversity, intergroup relations, and race beyond the United States. No credit for students who have earned credit for 1111 section 5. [3] (INT)

AADS 2356. African Spirits in Exile: Diaspora Religions in the Americas. Use of anthropology, folklore, history, and literature to examine the
history of Haitian Vodun, Cuban Santeria, Brazilian Candomblé, New Orleans Voodoo, and Trinidadian Orisha worship. Comparisons with Black Christian traditions and supernatural beliefs beyond organized religion. [3] (P)

AADS 2654. Memoirs and Biographies. [Formerly AADS 265] Biographies and autobiographies as lenses for the study of historical trends and events; development of gender, sexual, and racial identities in subjects. [3] (US)

AADS 3104W. Soul Food as Text in Text: An Examination of African American Foodways. [Formerly AADS 204W] Distinctions between Southern food and soul food. Soul food as performance and projection of gender and racial identity. Cookbooks as literary artifacts. Soul food in American popular culture, and in African American, Southern, and women’s writing. Soul food and community formation. Serves as repeat credit for students who have completed 265W and for students who completed ENGL 288W in fall 2010. [3] (HCA)

AADS 3204W. African American Children's Literature. [Formerly AADS 204W] From the seventeenth century to the present. Oral and written; fiction and non-fiction. Major works, writers, and genres. No credit for students who earned credit for 294a section 1 in spring 2011. [3] (HCA)

AADS 3258. Black Issues in Education. [Formerly AADS 215] Race, ethnicity, gender, class and their relationships to both the broader roles of schooling and education in American society. Historical foundation of education for African Americans, educational and socioeconomic inequality, family structures, and social policy initiatives. [3] (SBS)

AADS 3850. Independent Study. [Formerly AADS 289] May be repeated for a total of 6 credits, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of AADS 3850] (No AXLE credit)

AADS 3880. Internship Training. [Formerly AADS 280b] Graded on a Pass/Fail basis only and must be taken concurrently with 3881. These hours may not be included in the minimum number of hours required for the African American and Diaspora studies major. Under faculty supervision, students from any discipline can gain experience in a broad range of public and private institutions on issues relative to the black experience. A minimum of 3 hours of background reading and research will be completed in AADS 3881 concurrently with and regardless of the numbers of hours taken in internship training in 3880. Normally a 2.90 grade point average, 6 hours of prior work in AADS, and prior approval by the director of Undergraduate Studies in African American and Diaspora Studies of the student’s plan are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Corequisite: 3881. [Variable credit: 1-9] (No AXLE credit)

AADS 3881. Internship Readings and Research. [Formerly AADS 280a] Readings conducted under the supervision of a member of the African American and Diaspora Studies program and a substantial research paper are required. Under faculty supervision, students from any discipline can gain experience in a broad range of public and private institutions on issues relative to the black experience. A minimum of 3 hours of background reading and research will be completed in AADS 3881 concurrently with and regardless of the numbers of hours taken in internship training in 3880. Normally a 2.90 grade point average, 6 hours of prior work in AADS, and prior approval by the director of Undergraduate Studies in African American and Diaspora Studies of the student’s plan are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Corequisite: 3880. [Variable credit: 3-6] (No AXLE credit)

AADS 3890. Special Topics. [Formerly AADS 294A] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

AADS 4228W. Black Girlhood: History, Performance and Counter-Narratives. Historical and current social, political, and cultural constructions of black girlhood in the United States. Performances in which black girls engage to deconstruct and interrupt these constructions via scholarly works, poetry, film, photography, and novels. [3] (SBS)

AADS 4979. Senior Thesis in African American and Diaspora Studies. [Formerly AADS 299] Senior Thesis in African American and Diaspora Studies. Supervised readings and independent research to produce an interdisciplinary research paper; topic to be selected in conjunction with a faculty member of African American and Diaspora Studies. Open only to seniors. [3] (No AXLE credit)

AADS 4999. Senior Honors Thesis. [Formerly AADS 298] Supervised readings and independent research for honors thesis under supervision of the adviser and another faculty member. Open only to seniors in the Honors Program. [3] (No AXLE credit)

American Studies

AMER 1001. Commons Seminar. [Formerly AMER 99] Topics vary. General Elective credit only. [1] (No AXLE Credit)

AMER 1002. Introduction to American Studies. [Formerly AMER 100] An interdisciplinary approach to American culture, character, and life. Repeat credit for students who have completed 1002W. [3] (US)

AMER 1002W. Introduction to American Studies. [Formerly AMER 100W] An interdisciplinary approach to American culture, character, and life. Repeat credit for students who have completed 1002. [3] (US)

AMER 1111. First-Year Writing Seminar. [Formerly AMER 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

AMER 3200. Global Perspectives on the U.S. [Formerly AMER 202] Contemporary and historical views of the U.S. political and cultural presence in the world; comparative nationalisms; emphasis on points of view outside the U.S. [3] (US)

AMER 3851. Independent Readings and Research. [Formerly AMER 299A] Independent readings and/or research on approved topics relating to American society and culture. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of AMER 3851 and 3852] (No AXLE credit)

AMER 3852. Independent Readings and Research. [Formerly AMER 299B] Independent readings and/or research on approved topics relating to American society and culture. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of AMER 3851 and 3852] (No AXLE credit)

AMER 3880. Internship Training. [Formerly AMER 280B] Offered on a pass/fail basis only and must be taken concurrently with 3881. Under faculty supervision, students intern in public or private organizations, conduct background research and reading, and submit a research paper at the end of the semester during which the internship training is complete. Background reading and research will be completed in 3881 concurrently with the completion of internship training, 3880; a minimum of 3 hours of 3881 must be completed, independent of hours taken in 3880. Corequisite: 3881. [Variable credit: 1-6] (No AXLE credit)

AMER 3881. Internship Readings and Research. [Formerly AMER 280A] Under faculty supervision, students intern in public or private organizations, conduct background research and reading, and submit a research paper at the end of the semester during which the internship training is completed. Background reading and research will be completed in 3881 concurrently with the completion of internship training, 3880; a minimum of 3 hours of 3881 must be completed, independent of hours taken in 3880. Corequisite: 3880. [3-6; (No AXLE credit)

AMER 3890. Topics in American Studies. [Formerly AMER 240] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (SBS)

AMER 4000. The American Studies Workshop. [Formerly AMER 294] Issues, methodologies, traditions, approaches, and problems in the discipline. Limited to juniors and seniors with preference given to majors and minors. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3; maximum of 6 credits total for all semesters of AMER 4100] (SBS)

AMER 4100. Undergraduate Seminar in American Studies. [Formerly AMER 295] Advanced reading, research, and writing in a particular area of American Studies. Limited to juniors and seniors with preference given to American Studies majors. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3; maximum of 6 credits total for all semesters of AMER 4100] (SBS)

AMER 4960. Senior Project. [Formerly AMER 297] A project conceived, developed, and completed under supervision of the American Studies faculty. Normally open only to senior American Studies majors. [3] (SBS)

AMER 4998. Senior Honors Research. [Formerly AMER 298] Acquisition, reading, and analysis of primary source research material. Open only to senior honors students. [3] (No AXLE credit)

Anthropology

ANTH 1001. Commons Seminar. [Formerly ANTH 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ANTH 1101. Introduction to Anthropology. [Formerly ANTH 101] The study of diverse cultures in the contemporary world. The ways in which cultures have developed and changed. Intended for students with a general interest in the field of anthropology. [3] (SBS)

ANTH 1111. First-Year Writing Seminar. [Formerly ANTH 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

ANTH 1130W. America through the Lens of Disney. Concepts of gender, family, race, and class through a combination of texts and animated films produced by the Walt Disney Company. Impact on contemporary American cultural values. No credit for students who have earned credit for 1111 section 07. [3] (P)

ANTH 1201. Introduction to Archaeology. [Formerly ANTH 104] Archaeological interpretation of global human history from early settled villages through the rise of the first civilizations. Archaeological methods and analysis, interpretive controversies, and cultural heritage. Environment, technology, religion, and human diversity in past cultural transformations.

ANTH 1601. Introduction to Language and Culture. [Formerly ANTH 105] The interrelationship between language and culture. Language and thought, language ideologies, discourse, and linguistic and social identities. Culture and language change. [3] (SBS)

ANTH 2106. Culture and Power in Latin America. [Formerly ANTH 210] Survey of native cultures and Spanish and Portuguese heritage. Fundamental traditions, including marriage and the family, the relationship between men and women, racial and ethnic identity, social class, and religion. Peasant communities and contemporary urban life. [3] (INT)

ANTH 2108. Indigenous Peoples of Lowland South America. [Formerly ANTH 249] Native societies of Amazonia, the Orinoco basin, and other forest, savanna, and coastal regions of South America. Ecology, cosmology, social organization, and political relations in historical and contemporary populations. Government policies, human rights, environmentalism, sustainable development, and indigenous activism and advocacy. [3] (SBS)

ANTH 2110. Gender and Cultural Politics. [Formerly ANTH 266] Cross-cultural comparison of women's roles and status in western and non-Western societies. Role of myths, symbols, and rituals in the formation of gender identities and the politics of sexual cooperation, conflict, and inequality. Case studies from Africa, the Middle East, Europe, North and South America, Asia, and Melanesia. [3] (P)

ANTH 2211. Archaeology. [Formerly ANTH 211] An introduction to the methods used by archaeologists to study the nature and development of prehistoric societies. Approaches to survey, excavation, analysis, and interpretation are explored through lectures, case studies, and problem assignments. [3] (SBS)

ANTH 2220. Human Landscapes. [Formerly ANTH 282] Human-environment interactions in the formation of landscapes and settlement systems. Uses of archaeology, cultural anthropology, and cross-cultural comparison to understand social space, sacred landscapes, urban plans, and historical ecology. Methods of interpretation through quantitative, social, and symbolic analysis. Repeat credit for students who earned credit for 2220W. [3] (SBS)

ANTH 2220W. Human Landscapes. Human-environment interactions in the formation of landscapes and settlement systems. Uses of archaeology, cultural anthropology, and cross-cultural comparison to understand social space, sacred landscapes, urban plans, and historical ecology. Methods of interpretation through quantitative, social, and symbolic analysis. Repeat credit for students who earned credit for 2220W. [3] (SBS)

ANTH 2223. Native North Americans. [Formerly ANTH 214] Indian societies of North America; their archaeological origins, development, and changing adaptation to white society. [3] (US)

ANTH 2227. Food in the Ancient World. Development of agriculture from around 8,000 BCE to the contact between Old and New Worlds in 1492. Role of foodways in human societies and impact on historical and environmental change. Integration of foodways with social and cultural systems such as gender, identity, ideology, and trade. Elements of historical cuisines, including cooking techniques, meat, and alcohol. Excursions to local sites of agricultural, archaeological, and food-related relevance. [3] (SBS)

ANTH 2230. South American Archaeology. [Formerly ANTH 252] From 12,000 years ago to the present. Archaeology, ethnohistory, and ethnography. [3] (SBS)

ANTH 2231. Ancient Andean Civilizations. [Formerly ANTH 248] Introduction to the archaeology and peoples of ancient South America. Early hunters and gatherers, origins of agriculture and urbanism, and the rise and fall of the Huari and Inca empires. [3] (INT)

ANTH 2242. The Archaeology of Ancient Maya Civilization. [Formerly ANTH 213] Case study in cultural evolution. Archaeological evidence and social theory on the enigmatic origins, complex nature, and sudden collapse of the ancient Maya civilization. Repeat credit for students who have earned credit for 2242W. [3] (INT)

ANTH 2242W. The Archaeology of Ancient Maya Civilization. Case study in cultural evolution. Archaeological evidence and social theory on the enigmatic origins, complex nature, and sudden collapse of the ancient Maya civilization. Repeat credit for students who have earned credit for 2242W. [3] (INT)

ANTH 2342. Biology of Inequality. [Formerly ANTH 242] Biological and health consequences of racial and social inequalities. Psychosocial stress...
and measurement of its health impact. Effects on disease and precursors
to disease. Measures of molecular biology, such as epigenetics and gene
expression. Biomarkers of inflammation, cardiometabolic health, and im-
mune function. [3] (SBS)

ANTH 2370. Death and the Body. [Formerly ANTH 267] Cross-cultural
study of death rituals. Mortuary archaeology and anthropology of death
and the body. Biological and social perspectives on the corpse and living
body, and their treatment in ritual and everyday life. The body as bio-
clival specimen and social artifact. Nature of beauty, body modification, and
adorment. [3] (SBS)

ANTH 2375. Making Racism Visible: Media and Civil Rights from
MLK to Black Lives Matter. African American, American Indian, and
intersectional racial justice movements from 1950 to present. Role of mass
media, documentary film, and social media in political struggles for racial
justice in the United States. [3] (P)

ANTH 2601. Introduction to Linguistics. [Formerly ANTH 201] System-
atic study and analysis of human language. Formation of language sounds,
sound systems, the structure of words, the structure of sentences, mean-
ing, language change. Data from diverse languages of the world. [3] (SBS)

ANTH 2602. Anthropological Linguistics. [Formerly ANTH 203] An
introduction to the study of language in its anthropological context. Lan-
guage and culture, the structure of symbolic systems, vocabulary as a
guide to the ways societies classify their universe. Linguistic analysis as a
tool for ethnographic investigation. [3] (SBS)

ANTH 2603. Comparative Writing Systems. [Formerly ANTH 219] The
origins, development, and social uses of writing in the ancient Middle East,
Mediterranean, and Mesoamerica. Decipherments of hieroglyphic sys-
tems. Literacy, historiography, and cross-cultural translation. [3] (HCA)

ANTH 3120. Sociocultural Field Methods. [Formerly ANTH 275] Re-
search design and proposal writing, access to data, ethical issues, sam-
pling techniques, interviewing questionnaire design and question writing,
data analysis. [3] (SBS)

ANTH 3121. Global Wealth and Poverty. [Formerly ANTH 209] The pro-
duction of inequality. How wealth is accumulated, lost, exchanged, and
displayed; how poverty is created, endured, and overcome. Explanations
in terms of luck, hard work, immorality, occult forces, and public policies.
Case studies. [2] (P)

ANTH 3122. The Anthropology of Globalization. [Formerly ANTH 232] Per-
spectives on globalization based on ethnographic case studies. The
impact of new technologies on native cultures; different cultural meanings
of global commodities; creation of new diaspora cultures; effects of neolib-
eral reforms on local economies; ethnic movements and terror networks.
[3] (INT)

ANTH 3130. Andean Culture and Society. [Formerly ANTH 246] History-
cal and archaeological background, languages, economy, environment,
and cultural adaptation of Andean peoples. Spanish and native American
heritage. Religion, family structure, political organization, contemporary
social issues, and economic background. Urban and rural traditions, so-
cial movements, and change. [3] (SBS)

ANTH 3132. Social Movements. [Formerly ANTH 225] Collective action,
past and present. Class- and identity-based movements, transnational
activism, and networks. The early U.S. labor movement; 1960s gay, wom-

ANTH 3133. Political Anthropology. [Formerly ANTH 224] Compara-
tive and ethnographic analysis of political and legal systems. Formal and
informal means of control in egalitarian and hierarchical societies. Anthro-
pological theories of power, authority, influence, and leadership. Social
and cultural dimensions of conflict, consensus, competition, and dispute
resolution. [3] (SBS)

ANTH 3134. Human Rights of Indigenous Peoples. [Formerly ANTH
227] Major concepts and legal frameworks for indigenous self-govern-
ance, cultural rights, and environmental stewardship. Local and transna-
tional indigenous rights movements. [3] (P)

ANTH 3135. Development, Social Enterprise, Social Justice. Theo-
ries of economic and human development. Multidimensional approaches
to poverty and well-being. Roles of inequality, discrimination, and social
justice. Practical focus on social entrepreneurship in international context.
[3] (P)

ANTH 3138. Global Food Politics. Ecological, political, economic, and
 cultural dynamics in the world food system. Historical and contemporary
agricultural methods. Energy, land use, and climate change. Public health
and nutrition. Hunger, food scarcity, and biotechnologies. Commodity
chains and labor conditions. Movements for food security, food sovereign-
ty, fair trade, and consumer information. [3] (INT)

ANTH 3140. Myth, Ritual, Belief: The Anthropology of Religion. [For-
merly ANTH 226] Cross-cultural survey of religious and ritual beliefs in light
of theories of religion. Topics include sacrifice, myth, witchcraft, divination,
religious change, and millenarian movements. [3] (HCA)

ANTH 3141. Anthropology of Healing. [Formerly ANTH 250] Ritual,
symbols, belief, and emotion in health, illness, and therapeutic processes.
Practices and politics of healing in western and non-western societies,
including shamanism, faith healing, ecstatic religious experience, alterna-
tive medicine, and biomedicine. Mind-body interactions, medical plural-
ism, relations between patients and healers, and implications for improving
medical care. [3] (P)

ANTH 3143. Medical Anthropology. [Formerly ANTH 240] Biocultural
aspects of human adaptations to health, disease, and nutrition. Non-
Western medical and psychiatric systems. Effects of cultures on the in-
terpretation, diagnosis, and treatment of illness. Case studies from Africa,
Oceania, Latin America, and the contemporary United States. [3] (SBS)

ANTH 3144. Politics of Reproductive Health. Reproductive health poli-
tics, with focus on the United States. Role of broader social, economic,
and cultural concerns in diverse positions and public debates. How sexu-
ality, race, class, gender, and disability shape experiences of conception,
pregnancy, childbirth, kinship, and new medical technologies. [3] (P)

ANTH 3145. Sexuality, Gender, and Culture. Theories and case studies
of sexuality and gender in Western and non-Western societies. Cross-
cultural perspectives on how class, race, ethnicity, culture, and power
influence sexual norms and gender roles. Performativity; masculinity and
 femininity; kinship; religion and sexuality. No credit for students who have
earned credit for 2110. [3] (P)

ANTH 3150. Cognitive Anthropology. [Formerly ANTH 262] Methods
and approaches in linguistics and cognitive sciences. Exploration of cul-
ture and thought, and how culture affects our ways of reasoning, thinking,
and behavior. Repeat credit for students who completed 3150W. [3] (SBS)

ANTH 3150W. Cognitive Anthropology. Methods and approaches in
linguistics and cognitive sciences. Exploration of culture and thought, and
how culture affects our ways of reasoning, thinking, and behavior. Repeat
credit for students who completed 3150. [3] (SBS)

ANTH 3160. Anthropologies and Archaeologies of Community. [For-
merly ANTH 222] Creation, maintenance, and transformation of com-
 munities through time. Community as a village or settlement, and as an
“imagined” or virtual aspect of social identity. Behaviorist, interactionist,
discursive, and identity-oriented anthropological approaches to commu-
nity. Community organization and the built environment. Ancient and mod-
eran case studies. [3] (SBS)

ANTH 3161. Colonial Encounters in the Americas. [Formerly ANTH
231] Theoretical discussion of colonialism as a sociocultural process.
Comparative colonialism in pre- and post-Hispanic contexts. Method-
ological consideration of archaeological and archival analyses and their
complementary epistemological statuses. Pan-American case studies. [3]
(SBS)

ANTH 3162. Material Culture of New World Slavery. Enslaved Afri-
cans’ lives in the New World from an archaeological perspective. Housing,
artifacts, health, religion, and resistance in North America, South America,
and the Caribbean. Repeat credit for students who earned credit for 294
section 1 in fall 2014. [3] (SBS)

ANTH 3240. Ancient Mesoamerican Civilizations. [Formerly ANTH 212] Development of pre-Hispanic civilization in Mesoamerica from the beginnings of village life to the rise of the great states and empires: Olmec, Maya, Toltec, and Aztec civilizations. [3] (INT)

ANTH 3241. The Aztecs. [Formerly ANTH 247] Origins of the Aztec peoples of central Mexico and their culture; history and structure of the Aztec empire; pre-Columbian social, political, and economic organization; warfare and religion; the Spanish conquest; colonial society in central Mexico; ethno-graphic study of modern descendants of the Aztecs. [3] (INT)

ANTH 3243. Ancient Maya Gods and Rulers. [Formerly ANTH 281] Politics and religion in Classic Maya culture, 100-1000 C.E. Sources and symbols of power, ritual life, and metaphysical underpinnings of hierarchy and cosmology. Relationships among ideology, religion, and politics. Repeat credit for students who have earned credit for 3243W. [3] (SBS)

ANTH 3243W. Ancient Maya Gods and Rulers. Politics and religion in Classic Maya culture, 100-1000 C.E. Sources and symbols of power, ritual life, and metaphysical underpinnings of hierarchy and cosmology. Relationships among ideology, religion, and politics. Repeat credit for students who have earned credit for 3243. [3] (SBS)

ANTH 3250. The Inca Empire. [Formerly ANTH 254] The rise and fall of the Inca state in the Southern American Andes. Inca society, agriculture, economy, warfare, ancestor worship, monarchical institutions, and royal wealth. Imperial expansion, the role of the feasting in Inca politics, and place of ecology in Inca religion. Destruction of the empire during the Spanish conquest; persistence of pre-Columbian culture among Inca descendants in Peru and Bolivia. [3] (INT)

ANTH 3260. Ceramic Analysis in Archaeology. [Formerly ANTH 279] Ceramic sherds and vessels from ancient societies. Documentation of form, fabric, and decoration through illustrations, slide presentation, and hands-on experience. Assesses basic knowledge of computer software. [3] (MNS)

ANTH 3262. Ethics in Anthropology. Archaeology, and Development. [Formerly ANTH 283] Ethical perspectives on contemporary problems of archaeological and anthropological research, interaction, and interpretation of past and present non-Western societies. [3] (P)

ANTH 3346. Human Adaptation and Disease. Evolutionary perspectives on biological and cultural adaptations to physical and pathogen environments. Human variation, human evolutionary ecology, epidemiology, and evolution of disease. Specific focus on epidemiological transitions. Offered on a graded basis only. No credit for students who have earned credit for 3890-02 offered fall 2016. [3] (MNS)

ANTH 3620. Maya Language and Literature. [Formerly ANTH 221] Introduction to a contemporary Maya language, Linguistic analysis and cultural concepts. By permission of instructor. May be repeated for the study of different Maya languages for a total of 6 credits. Repeat credit for students who completed 3620W. [1-6; maximum of 6 credits total for all semesters of ANTH 221] (No AXLE credit)

ANTH 3622. Classic Maya Language and Hieroglyphs. [Formerly ANTH 261] Linguistic analysis of Classic Maya hieroglyphs, 100-1000 C.E. Methods of decipherment reading and interpreting an ancient script. Role of socioeconomic status in literacy. Repeat credit for students who completed 3622W. [3] (SBS)

ANTH 3622W. Classic Maya Language and Hieroglyphs. Linguistic analysis of Classic Maya hieroglyphs, 100-1000 C.E. Methods of decipherment reading and interpreting an ancient script. Role of socioeconomic status in literacy. Repeat credit for students who completed 3622. [3] (SBS)

ANTH 3850. Independent Research. [Formerly ANTH 288A] Readings on selected topics (of the student’s choice) and the preparation of reports. [1-3] (No AXLE credit)

ANTH 3851. Independent Research. [Formerly ANTH 288B] Readings on selected topics (of the student’s choice) and the preparation of reports. [1-3] (No AXLE credit)

ANTH 3865. Field Research. [Formerly ANTH 289] Directed field research on topics of the student’s choice. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [1-6] (No AXLE credit)

ANTH 3880. Internship Training. [Formerly ANTH 287B] Offered on a Pass/Fail basis only and must be taken concurrently with 3881. Hours of 3880 will not count toward the Anthropology major or minor. Students from any discipline can gain experience working with a local, national, or international organization in developing a project to broaden their understanding of anthropological issues. Hours for background readings and research will be completed in ANTH 3881 concurrently with and regardless of the numbers of hours taken in internship training in 3880. Normally a 2.50 grade point average, 6 hours of prior work in ANTH, and prior approval of the student’s plan by the director of undergraduate studies in Anthropology are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Corequisite: 3881. [Variable credit: 1-9] (No AXLE credit)

ANTH 3881. Internship Readings and Research. [Formerly ANTH 287A] Readings and research conducted under the supervision of a member of the Anthropology department and a substantial research paper are required. Students from any discipline can gain experience working with a local, national, or international organization in developing a project to broaden their understanding of anthropological issues. Hours for background
readings and research will be completed in ANTH 3881 concurrently and regardless of the numbers of hours taken in internship training in 3880. Normally a 2.90 grade point average, 6 hours of prior work in ANTH, and prior approval of the student’s plan by the director of undergraduate studies in Anthropology are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Corequisite: 3880. [Variable credit: 1-6] (No AXLE credit)

**ANTH 3890. Special Topics.** [Formerly ANTH 294] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

**ANTH 3900. Theories of Culture and Human Nature.** [Formerly ANTH 206] Survey of the views of anthropological thinkers, from the late nineteenth century to the present, about the basic attributes of humankind and human culture. Comparison of different ideas of how people create culture and in turn are molded by culture. [3] (SBS)

**ANTH 3901. Problems in Anthropological Theory.** [Formerly ANTH 284] An advanced seminar in anthropological theory: cultural evolution, cultural history, ethnic relations, cultural ecology, archaeological method and theory, social structure, political organizations, religious institutions. [3] (SBS)

**ANTH 4153. Economic Anthropology.** [Formerly ANTH 234] Modern and postmodern cultural organization of Western and non-Western economies. Cross-cultural comparison of concepts of self-interest and rationality. Relation of the growth of post-industrial (service and information) economies to economic strategies of ethnic groups. Survey of indigenous alternatives to development. Theoretical issues grounded in case studies from our own and other cultures. [3] (SBS)

**ANTH 4155. Realities and Worldviews: Why Culture Matters.** [Formerly ANTH 255] Worldviews and constructed realities that influence human behavior. Stereotyping and conflict as triggered by ontological misunderstandings. Western ontology, science, and understanding the Other. Interaction of worldviews and human behavior such as in resource management and public health. Offered on a graded basis only. [3] (SBS)

**ANTH 4345. Human Evolutionary Genetics.** [Formerly ANTH 273] Core issues in human evolution and population genetics. Molecular evidence for the origin of modern humans, reconstruction of human migrations, race, and detection of admixture between populations. Implications for human disease. Offered on a graded basis only. No credit for students who earned credit for 294 section 1 in fall 2012. Prerequisite or corequisite: BSCI 1100, BSCI 1105, or BSCI 1510. [3] (MNS)

**ANTH 4998. Honors Research.** [Formerly ANTH 298] Research to be done in consultation with a member of the faculty in anthropology. Open only to those beginning honors work in anthropology. May be repeated for a total of 6 credits. [1-6; maximum of 6 credits total for all semesters of 4998] (No AXLE credit)

**ANTH 4999. Honors Thesis.** [Formerly ANTH 299] Open only to seniors in the departmental honors program. Students completing this course with distinction, including a thesis and final examination, will earn honors in anthropology. Prerequisite: 4998. May be repeated for a total of 6 credits if there is no duplication in topic. [1-6; maximum of 6 credits total for all semesters of 4999] (No AXLE credit)

**Arabic**

**ARA 1101. Elementary Arabic.** [Formerly ARA 210A] Development of reading, listening, speaking, and writing skills. No credit for students who have earned credit for a more advanced Arabic language course. [5] (No AXLE credit)

**ARA 1102. Elementary Arabic.** [Formerly ARA 210B] Continuation of 1101. Development of reading, listening, speaking, and writing skills. No credit for students who have earned credit for a more advanced Arabic language course. Prerequisite: 1101. [5] (INT)

**ARA 2201. Intermediate Arabic.** [Formerly ARA 220A] Practice and development of language skills at the intermediate-advanced level. Intensive work in spoken Arabic with emphasis on vocabulary acquisition, reading comprehension, and writing skills. Advanced grammar, modern Arabic word formation, verb aspect usage, and structure of complex sentences. No credit for students who have earned credit for a more advanced Arabic language course. Prerequisite: 2201. [3] (INT)

**ARA 2202. Intermediate Arabic.** [Formerly ARA 220B] Continuation of 2201. Practice and development of language skills at the intermediate-advanced level. Intensive work in spoken Arabic with emphasis on vocabulary acquisition, reading comprehension, and writing skills. Advanced grammar, modern Arabic word formation, verb aspect usage, and structure of complex sentences. No credit for students who have earned credit for a more advanced Arabic language course. Prerequisite: 2201. [3] (INT)

**ARA 3101. Advanced Arabic.** [Formerly ARA 230A] Further development of listening, reading, speaking, and writing skills in the Arabic language. Emphasis on grammar and literary techniques. Offered on a graded basis only. No credit for students who have earned credit for a more advanced Arabic language course. Prerequisite: 2202. [3] (INT)

**ARA 3102. Advanced Arabic.** [Formerly ARA 230B] Continuation of 3101. Further development of listening, reading, speaking, and writing skills in the Arabic language. Emphasis on grammar and literary techniques. Offered on a graded basis only. No credit for students who have earned credit for a more advanced Arabic language course. Prerequisite: 3101. [3] (INT)

**ARA 3201. Media Arabic.** [Formerly ARA 240] Listening to, discussing, simulating, and analyzing Arabic media materials. Coverage of current and historical events, such as TV broadcasts, headline news, documentaries, and public discussions on political, religious, and cultural issues. Offered on a graded basis only. Prerequisite: 3102. [3] (INT)

**Aramaic**

**ARAM 2500. Egyptian Aramaic.** Reading 5th century BCE texts from the Jewish community at Elephantine. Papyri and ostraca. Historical, linguistic, and cultural context. Relationship to Biblical tradition. [3] (INT)
Art Studio

ARTS 1001. Commons Seminar. [Formerly ARTS 99] Topics vary. General Elective credit only. [1] (No AXLE Credit)

ARTS 1099. Maymester Contemporary Art Blitz. [Formerly ARTS 285] Intensive review of contemporary art through excursions to museums, galleries, and artists’ studios. Insights from curators, dealers, and films. Cities vary each year. May be repeated for credit more than once if there is no duplication in topic. [3] (HCA)

ARTS 1102. Drawing and Composition I. [Formerly ARTS 102] Introduction to drawing: visual problems related to observation, idea formation, composition, media, and various forms of expression. Figure and landscape may be included. [3] (HCA)

ARTS 1111. First-Year Writing Seminar. [Formerly ARTS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

ARTS 1502. Installation Art. [Formerly ARTS 152] Historical survey from 1900 to present; studio practice; formal and conceptual issues. [3] (HCA)

ARTS 1600. Printmaking I: Relief and Intaglio. [Formerly ARTS 110] Introduction to printmaking media, including relief and etchings. Traditional and experimental approaches. Prerequisite: 1102. [3] (HCA)

ARTS 1601. Printmaking I: Screen Printing and Lithography. [Formerly ARTS 111] Introduction to printmaking media, including screen printing and lithography. Traditional and experimental approaches. Prerequisite: 1102. [3] (HCA)

ARTS 1900. Social Collective Art Practice. [Formerly ARTS 190] History and practice of making art within the social collective experience. Small group projects based on everyday living in The Commons. No credit for students who have taken 1111 section 1. [3] (HCA)

ARTS 2100. Drawing and Composition II. [Formerly ARTS 202] Prerequisite: 1102. [3] (HCA)

ARTS 2200. Photography II. [Formerly ARTS 220] Concepts and techniques of contemporary photographic practice; experimental projects and workshops using analog and digital media. Issues in contemporary art. Prerequisite: 1200, 121, or 1202. [3] (HCA)

ARTS 2300. Painting II. [Formerly ARTS 230] Prerequisite: 1300. [3] (HCA)

ARTS 2400. Ceramics II. [Formerly ARTS 240] Development of ceramic design, both traditional and contemporary, functional and sculptural. Projects develop technical and aesthetic goals. Instruction includes demonstrations, slide presentations, field trips, guest artists, reports. Demonstrations include advanced throwing, complex constructions, glaze development with applications, and kiln-firing. Prerequisite: 1400. [3] (HCA)

ARTS 2401. Concept and Clay: Composite Forms. [Formerly ARTS 241] Technical ability in handling clay and conceptual and interpretive elements in functional and/or sculptural forms. Individual solutions in form and surface. Prerequisite: 1400 or 1401. [3] (HCA)

ARTS 2500. Sculpture II. [Formerly ARTS 250] Prerequisite: 1500, 1501, or 1502. [3] (HCA)

ARTS 2600. Printmaking II. [Formerly ARTS 210] Advanced study in traditional and experimental printmaking processes. Prerequisite: 1600 or 1601. [3] (HCA)

with new technologies. Collaborative and individual performance projects. Prerequisite: 1701. [3] (HCA)

ARTS 3100. Drawing and Composition III. [Formerly ARTS 203] Prerequisite: 1102 and 2100. [3] (HCA)

ARTS 3101. Life Drawing II. [Formerly ARTS 206] Prerequisite: 2101. [3] (HCA)

ARTS 3102. Drawing: Color Media II. [Formerly ARTS 208] Prerequisite: 2102. [3] (HCA)

ARTS 3200. Photography III. [Formerly ARTS 221] Personal projects and critiques. Interdisciplinary possibilities. Issues in contemporary art. Prerequisite: 2200 or 2202. [3] (HCA)

ARTS 3300. Painting III. [Formerly ARTS 231] Prerequisite: 2300. [3] (HCA)

ARTS 3851. Independent Research. [Formerly ARTS 289] Supervised work beyond regular offerings in the curriculum. Students may only register with consent of instructor involved and with written approval of the director of undergraduate studies. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of ARTS 3851] (No AXLE credit)

ARTS 3891. Selected Topics. [Formerly ARTS 288] May be repeated for a total of 9 credits if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 9 credits total for all semesters of ARTS 3891] (HCA)

ARTS 3970. Directed Study: Senior Show and Contemporary Practices. [Formerly ARTS 290] Theoretical and practical concerns including professional practices for artists. Students visit exhibitions and discuss contemporary art with directed readings and lectures, participate in critiques, and exhibit their work. Seniors with a concentration in art only. [3] (HCA)

ARTS 3971. Independent Research: Senior Show. [Formerly ARTS 291] Research conducted under faculty supervision specifically in preparation for the Senior Show. Open only to senior majors in their final term. [3] (No AXLE credit)

ARTS 4998. Senior Honors Research. [Formerly ARTS 299A] Research conducted in consultation with a faculty member in Art. Offered on a graded basis only. Open only to honors majors. [3] (No AXLE credit)

ARTS 4999. Senior Honors Thesis. [Formerly ARTS 299B] Research conducted in consultation with a faculty member in Art. Offered on a graded basis only. Open only to senior honors majors. [3] (No AXLE credit)

Asian Studies

ASIA 1001. Commons Seminar. [Formerly ASIA 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ASIA 1111. First-Year Writing Seminar. [Formerly ASIA 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

ASIA 1201. Writing Southeast Asia. [Formerly ASIA 150] Literary representations, including novels and personal memoirs, of the history of Southeast Asia. Colonial and postcolonial periods. Representations of pluralistic cultures, diverse languages, religions, and indigenous and national identities. Indonesia, Myanmar, Philippines, Thailand, and Vietnam. All texts in English translation. [3] (HCA)

ASIA 1680. Inside China. [Formerly ASIA 236] First-hand experience of China’s dynamic society and expanding economy. Guided exploration of famous historical sites and contemporary institutions such as hospitals, businesses, factories, and art galleries in Beijing and Shanghai. Interviews with individuals from many different walks of life, including physicians, entrepreneurs, migrant workers, and college students. No knowledge of Chinese is required. Offered on a graded basis only. [3] (INT)

ASIA 2100W. Fashioning the Self: Coming of Age and Asian Modernities. [Formerly ASIA 200W] The coming-of-age novel (Bildungsroman) as a literary form in twentieth-century Asia. Travails of modernity and colonialism; the effects of crossing national, racial, and cultural boundaries; the experiences of traveling to urban centers, foreign countries, and ancestral lands. Texts from China, Indonesia, Japan, Philippines, and Vietnam. Taught in English. [3] (INT)

ASIA 2511. Popular Culture in Modern Japan. [Formerly ASIA 211] Popular culture in Japan from 1900 to the present. The rise of mass culture and media, song, sports, food, fashion, and popular film genres. [3] (INT)

ASIA 2512. Explorations of Japanese Animation. [Formerly ASIA 212] Introduction to the form and content of Japanese animation as globalized popular entertainment and as a speculative artistic medium that explores history and memory, nature and technology, human identity, carnivalesque comedy, and gender relations. [3] (INT)

ASIA 2560. Current Japan-U.S. Relations. [Formerly ASIA 240] Similarities and differences in theory and practice in the United States and Japan on public policy issues such as trade, defense, environment, education, medical care, and racial prejudice. [3] (INT)

ASIA 2605. Romancing the Nation in Modern Chinese Literature. From the fourteenth century to the present. Fiction, drama, and poetry. Family relations and nation-state in romantic writings. Knowledge of Chinese is not required. [3] (HCA)

ASIA 2607. Self and Society in Pre-modern Chinese Literature. From the seventeenth-century BCE to the seventeenth-century CE. Poetry, prose, fiction, and drama. Self, society, religion, gender, and print culture. Offered on a graded basis only. No credit for students who have earned credit for 3891 section 01 offered fall 2015. Knowledge of Chinese is not required. [3] (HCA)

ASIA 2609W. Writing and Gender in Traditional China. Pre-modern China: 1st century CE to 20th century CE. Women writers, women in family and society, gender relations, cross-dressing and foot-binding. Poetry, prose, drama, fiction, and visual materials. Offered on a graded basis only. [3] (HCA)

ASIA 3633. Self-Cultivation in Ancient China. [Formerly ASIA 233] 300 BCE to 500 CE. Methods, goals, and contexts of self-cultivation in antiquity. Breathing exercises, meditation, visualization, sexual arts, sacrifice, alchemy, and other practices in their religious, cultural, and social contexts. [3] (INT)

ASIA 3851. Independent Study. [Formerly ASIA 293A] Designed primarily for majors who want to study Asian topics not regularly offered in the curriculum. Must have consent of instructor. May be repeated for credit more than once, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

ASIA 3852. Independent Study. [Formerly ASIA 298B] Designed primarily for majors who want to study Asian topics not regularly offered in the curriculum. Must have consent of instructor. May be repeated for credit more than once, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

ASIA 3891. Special Topics. [Formerly ASIA 294A] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [1-3] (No AXLE credit)

ASIA 3892. Special Topics. [Formerly ASIA 294B] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [1-3] (No AXLE credit)

ASIA 3980. Junior Honors Readings. [Formerly ASIA 297] May be repeated for credit more than once. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

ASIA 4998. Honors Research. [Formerly ASIA 299A] Research conducted in consultation with a member of the faculty or affiliated faculty of the program. Open only to senior honors majors. [1-3] (No AXLE credit)

ASIA 4999. Honors Research. [Formerly ASIA 299B] Research conducted in consultation with a member of the faculty or affiliated faculty of the program. Open only to senior honors majors. Prerequisite: 4998. [1-3] (No AXLE credit)

Astronomy

ASTR 1001. Commons Seminar. [Formerly ASTR 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ASTR 1010L. Introductory Nighttime Astronomy Laboratory. [Formerly ASTR 103] Motion of the celestial sphere and apparent and real motions of celestial bodies as viewed from inside the Milky Way. Observations of meteor showers, comets, and artificial satellites. Telescopic observations of astronomical objects. Stellar spectra. Laboratory ordinarily accompanied by 1010 or 3000. Satisfies the AXLE lab course requirement when completed with 1010 or 3000. No credit for students who have earned credit for 1020L or 1210. [1] (No AXLE credit)

ASTR 1020L. Introductory Daytime Astronomy Laboratory. [Formerly ASTR 104] Phases of the Moon, colors of stars, shapes and motions of galaxies, properties of exoplanets, and ages of star clusters. Telescopic observations of the Sun. Laboratory ordinarily accompanied by 1010 or 3000. No credit for students who have earned credit for 1010L or 1210. [1] (No AXLE credit)

ASTR 1111. First-Year Writing Seminar. [Formerly ASTR 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

ASTR 1210. Introduction to Observational Astronomy. [Formerly ASTR 122] Telescopic and naked eye observations. Light, optics, telescopes, and CCD cameras. Motions of the sky. Kepler’s laws. Phases and topography of the Moon. Distances, temperatures, and brightnesses of stars. Star clusters. Dark matter. Taught entirely at Dyer Observatory using 24-inch telescope. Satisfies the AXLE lab course requirement. Students who have earned credit for 1010L or 3000 will earn one credit hour for this course. Students who have earned credit for 1010L or 1020L will earn three credit hours for this course. Students who have earned credit for 1010L or 1020L and either 1010L or 3000 will earn no credit hours for this course. [4] (MNS)

ASTR 2130. The Trial of Galileo and its Background. [Formerly ASTR 203] The interdependence of cosmological theories and religious teachings from the eighth century BCE to the end of the seventeenth century. Examines scientific works and religious texts, including those of Aristotle, Thomas Aquinas, Copernicus, Luther, Galileo, and Newton. [3] (P)

ASTR 3000. Principles of Astrophysics. [Formerly ASTR 205] Tools and methods of astrophysics, including light and telescopes. Cosmology, the Big Bang, and the origin and evolution of matter. Galaxies, stars, and the physics of stars, including nucleosynthesis and stellar death. Techniques for discovering and measuring properties of exoplanets. Prerequisite: either PHYS 1501, 1601, or 1901; and either MATH 1200 or 1300. [3] (MNS)

ASTR 3600. Stellar Astrophysics. [Formerly ASTR 252] Physics of stellar structure and evolution, including nuclear energy generation, equations of state, and heat transfer by radiation and convection. Numerical stellar models. Observational aspects of stellar astrophysics. Prerequisite: either MATH 2400, 2420, or 2610; either PHYS 2255 or 3651; 3200; and either CS 1101 or 1103. [3] (MNS)

ASTR 3700. Galactic Astrophysics. [Formerly ASTR 253] Interstellar matter and gaseous nebulae, the structure and evolution of normal galaxies, active galactic nuclei and quasars, and observational cosmology. No credit for students who have earned credit for 8040. Prerequisite: MATH 2400, 2420, or 2610; and either PHYS 2255 or 3651. Corequisite: CS 1101 or 1103. [3] (MNS)

ASTR 3800. Structure Formation in the Universe. [Formerly ASTR 254] Observational and theoretical aspects of extragalactic astronomy. Measurements of galaxies and of the large-scale structure of the universe from galaxy surveys. Expansion history of universe; roles of dark matter and energy. Growth of density fluctuations in universe due to gravity. Cosmological N-body simulations and formation of dark matter halos. Physics of galaxy formation. Experimental probes of dark matter and energy. Prerequisite: One of PHYS 1501, 1601, or 1901; and one of PHYS 1502, 1602, or 1902; and one of MATH 2400, 2420, or 2610; and one of CS 1101 or 1103. [3] (MNS)
Astronomy Courses

ASTR 3850. Undergraduate Research. Research and scholarly investigation or directed readings in astronomy under close supervision of sponsoring faculty member. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for credit, for a total of no more than 10 total credit hours and for no more than 5 credit hours per semester. [1-5] (No AXLE credit)

ASTR 3851. Undergraduate Immersion Research. Research and scholarly investigation or directed readings in astronomy under close supervision of sponsoring faculty member, including end-of-semester oral presentation or written report. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for credit, for a total of no more than 10 total credit hours and for no more than 5 credit hours per semester. [1-5] (No AXLE credit)

ASTR 3852. Undergraduate Summer or Off-Campus Immersion Research. Research and scholarly investigation in astronomy conducted in the summer at either Vanderbilt or in an approved off-campus program, including an end-of-semester oral presentation or written report. Must be full-time effort for a minimum of six weeks. Enrollment by approval of director of undergraduate studies. Offered on a pass/fail basis only. Not for credit. [0] (No AXLE credit)

ASTR 3890. Selected Topics. [1-3] (No AXLE Credit)

ASTR 3900. General Relativity and Cosmology. [Formerly ASTR 260] Introduction to Einstein’s theory describing gravity as a curvature of spacetime. Tensor analysis, special relativity, differential geometry, spacetime curve, the Einstein field equations, the Schwarzschild metric for stars and black holes, and the Friedmann-Robertson-Walker metric for cosmology. Prerequisite: PHYS 2270 and 2290. [3] (MNS)

ASTR 4998. Honors Research and Senior Thesis. [Formerly ASTR 296] Independent experimental or theoretical investigations of basic problems in astronomy and astrophysics under faculty supervision, culminating in a written thesis submitted to and an oral defense presented to a departmental faculty examination committee. Required for departmental honors in Astronomy. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for a total of 10 credits, but students may earn only up to 6 credits per semester of enrollment. Prerequisite: major in Physics, junior or senior standing. [1-6] (No AXLE credit)

Biological Sciences Courses

BSCI 1001. Commons Seminar. [Formerly BSCI 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

BSCI 1100. Biology Today. [Formerly BSCI 100] Broad coverage of the biological sciences presenting evolution as the unifying concept. Particular emphasis on basic biological processes in cells and the relationships/interactions between organisms and their environment. Topics include cell structure and function, genetics and inheritance, evolution and diversity, populations, communities and ecosystems, and topics related to biology and society. Students who take 1510-1511 shall not receive credit for 1100. Corequisite: 1100L. [3] (MNS)

BSCI 1100L. Biology Today Laboratory. [Formerly BSCI 101A] Laboratory investigations of the genetics, physiology, and ecology of plants and animals. One three-hour laboratory per week to accompany 1100. Students who take 1510L, 1511L or 1512L shall not receive credit for 1100L. Corequisite: 1100. Satisfies the AXLE lab course requirement when completed with 1100. [1] (No AXLE credit)

BSCI 1103. Green Earth: The Biodiversity and Evolution of Plants. [Formerly BSCI 118] Biodiversity of plants, their adaptations to the environment, and their evolutionary and ecological relationships. Basic biology of plant form and function and the importance of plants for life on Earth. Not intended for students planning to major in biological sciences. Three hours of lecture and one laboratory period per week. [4] (MNS)

BSCI 1105. Human Biology. [Formerly BSCI 105] Recent advances in genetics, reproduction, and biotechnology. Social, legal, and ethical implications. Three lectures and one laboratory period per week. Not intended for students majoring in Biological Sciences. Students who take 1510-1511 may not receive credit for 1105. [4] (MNS)

BSCI 1111. First-Year Writing Seminar. [Formerly BSCI 111F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

BSCI 1510. Introduction to Biological Sciences. [Formerly BSCI 110A] An integrative approach to the science of life for science and engineering students. Macromolecular structure and function. Cell structure, reproduction, metabolism, and energy production. Genomes, replication, gene structure, RNA, and protein synthesis. Students who have completed 1100 or 1105 will forfeit full credit for 1100 or three hours of credit for 1105 upon completion of this course. Prerequisite or corequisite: 1510. [1] (No AXLE credit)

BSCI 1511. Introduction to Biological Sciences. [Formerly BSCI 110B] Continuation of 1510. Cell communication. Physiology, organ function and development. Mendelian and population genetics. Evolution, ecology, and speciation. Populations, ecosystems, and conservation biology. Students who have completed 1100 or 1105 will forfeit full credit for 1100 or three hours of credit for 1105 upon completion of this course. Prerequisite: 1510. [3] (MNS)

BSCI 1511L. Biological Sciences Laboratory. [Formerly BSCI 111B] Laboratory to accompany 1511. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1510. Students who have completed 1100L or 1105 will forfeit full credit for 1100L or one hour of credit for 1105 upon completion of this course. Prerequisite or corequisite: 1510L. [1] (No AXLE credit)

BSCI 1512L. Biological Sciences Laboratory. [Formerly BSCI 111C] Alternative to 1511L. Directed research projects with emphasis on experimental design and analysis. Satisfies the AXLE lab course requirement when completed with 1511. Offered on a graded basis only. No credit for students who have earned credit for 1512L. Students who have earned credit for 1100L or 1105 will forfeit full credit for 1100L or one hour of credit for 1105 upon completion of this course. Prerequisite or corequisite: 1511L. Prerequisite: 1510L. [2] (No AXLE credit)

BSCI 2056. Non-Equivalent Credit (BSCI Introductory Lab). [Formerly 71CT] This course has no Vanderbilt equivalent. Credit is eligible to count toward the Introductory Lab requirement of the BSCI major or minor.

BSCI 2201. Introduction to Cell Biology. [Formerly BSCI 201] Structure and function of cells, subcellular organelles, and macromolecules. Fundamentals of organelle function, membrane transport, energy production and utilization, cell motility, cell division, intracellular transport and mechanisms of signal transduction. Prerequisite: 1510. [3] (MNS)

BSCI 2201L. Cell Biology Laboratory. [Formerly BSCI 202] One three-hour laboratory and discussion period per week. Satisfies the AXLE lab course requirement when completed with 2201. Prerequisite or corequisite: 2201. [1] (No AXLE credit)

BSCI 2205. Evolution. [Formerly BSCI 205] Evolutionary theory, with emphasis on evolutionary mechanisms. Microevolutionary processes of adaptation and speciation and macro-evolutionary patterns. Evidence from genetics, ecology, molecular biology, and paleontology in the historical context of the neo-Darwinian synthesis. Three lectures per week. No credit for graduate students in Biological Sciences. Prerequisite: 1511. [3] (MNS)

BSCI 2210L. Genetics Laboratory. *Formerly BSCI 211* One three-hour laboratory and discussion period per week. Satisfies the AXLE lab course requirement when completed with 2210. Prerequisite or corequisite: 2210. [1] (No AXLE credit)

BSCI 2218. Introduction to Plant Biology. *Formerly BSCI 218* Diversity of plants within the framework of their evolution and environmental adaptations. Biomes from the tropical rain forest to the Vanderbilt arboretum. Three lectures and one laboratory per week. Prerequisite: 1511. [4] (MNS)

BSCI 2219. Introduction to Zoology. *Formerly BSCI 219* A structural and functional study of the major animal groups. The problems presented to animals by their environments, and the anatomical and physiological mechanisms by which they adapt. Three lectures and one laboratory period per week. Prerequisite: 1511. [4] (MNS)

BSCI 2238. Ecology. *Formerly BSCI 238* Population biology, evolutionary ecology, community structure, with emphasis on species interactions, including competition, predation, and symbiosis. Prerequisite: 1511. [3] (MNS)

BSCI 2238L. Ecology Lab. *Formerly BSCI 237* One three-hour laboratory and discussion period or field trip per week. Satisfies the AXLE lab course requirement when completed with 2238. Prerequisite or corequisite: 2238. [1] (No AXLE credit)

BSCI 3226. Immunology. *Formerly BSCI 226* The molecular and cellular basis of immunity. Emphasis on molecular structure, the genetic origin of diversity in B-cell and T-cell receptors, antigen presentation, and the cellular interactions leading to the immune response. Tolerance, tumor and transplantation immunity, autoimmune and immunodeficiency diseases, and allergy. Prerequisite: 2201 or 2210. [3] (MNS)

BSCI 3228. Biodiversity: Great Barrier Reef and Rainforests of Australia. May session; two weeks on campus followed by two weeks in Australia. Origins. Threats to, and conservation of, populations and species. No credit for students who have earned credit for 290-01 offered summer 2015 or 3890-01 offered summer 2016. [3] (MNS)

BSCI 3234. Microbiology. *Formerly BSCI 234* Microorganisms, including bacteria, viruses, and mobile genetic elements. The origins and universality of microbial life, modes of genome evolution, symbioses between microbes and animals, biotechnology, and human microbiome. Prerequisite: 1511. [3] (MNS)

BSCI 3247. Molecular Evolution. *Formerly BSCI 247* The theory of evolution at the molecular level. The evolution of DNA and RNA sequences, proteins, and genome structures will be studied using models from population genetics and comparative approaches. Molecular clocks, the evolution of gene regulation and globin genes, molecular phylogeny, and human evolution. Prerequisite: 2210 and 2205. [3] (MNS)

BSCI 3254. Neurobiology of Behavior. *Formerly BSCI 254* Nerve cell interactions in neuronal networks of the central nervous system of animals and their impact for regulating behavior. Sensory-motor integration, central processing of information, neuronal-hormonal interactions; and brain anatomy and organization in invertebrates and vertebrates. Prerequisite: BSCI 1511 or NSC 2201. [3] (MNS)

BSCI 3258. Vertebrate Physiology. *Formerly BSCI 258* Fundamental mechanisms of the major vertebrate physiological systems with emphasis on humans. Special physiological adaptations of vertebrates to their environment (respiration of aquatic animals, birds, and deep diving mammals; salt balance in fresh and saltwater environments; altitude adaptation). Prerequisite: 2201 or 2520. [3] (MNS)

BSCI 3270. Statistical Methods in Biology. *Formerly BSCI 270* An introduction to statistical methods used in the analysis of biological experiments, including the application of computer software packages. Emphasis on testing of hypotheses and experimental design. Topics include descriptive statistics, analysis of variance, regression, correlation, contingency analysis, and the testing of methods for sampling natural populations. Prerequisite: 1511. [3] (MNS)

BSCI 3272. Genome Science. *Formerly BSCI 272* Aims and importance of the science. Retrieval of genome data from public databases; experimental and computational methods used in analysis of genome data and their annotation. Functional aspects of genomics, transcriptomics, and proteomics; use of phylogenetics and population genomics to infer evolutionary relationships and mechanisms of genome evolution. Prerequisites: 1511. [3] (MNS)

BSCI 3850. Independent Reading. *Formerly BSCI 282* Reading and discussion of research papers with a member of the faculty. Prerequisite: consent of Biological Sciences 3850 coordinator before the end of the previous semester. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [1; maximum of 2 credits total for all semesters of BSCI 3850] (No AXLE credit)

BSCI 3860. Introduction to Research. *Formerly BSCI 280* Work in the laboratory of a member of the Biological Sciences faculty. Term paper required. Consent of course coordinator and enrollment by arrangement.
before the end of the previous semester is required. Prerequisite: 1510. Prerequisite or corequisite: 1511. [1] (No AXLE credit)

**BSCI 3861. Directed Laboratory Research.** [Formerly BSCI 283] Directed student research on a project conceived by a member of the Biological Sciences faculty. Enrollment by arrangement before the end of the previous semester. May be taken only once, and participants ordinarily expected to have overall grade point average of B or better. Offered on a graded basis only. Prerequisite: 1511, one intermediate BSCI course appropriate to the major or 3860, and consent of Biological Sciences 3861 coordinator. [2-4] (No AXLE credit)

**BSCI 3890. Special Topics in Biological Sciences.** [Formerly BSCI 290] Topics vary. May be repeated for credit more than once by permission of the director of undergraduate studies. Students may enroll in more than one section of this course each semester. Prerequisite: 1511. [3] (MNS)

**BSCI 3961. Independent Laboratory Research.** [Formerly BSCI 286] Original student research on a defined problem in Biological Sciences and under the supervision of Biological Sciences faculty. Some independence in the design and execution of the problem. Enrollment by arrangement before the end of the previous semester. Prerequisite: 3861, consent of Biological Sciences 3861 coordinator, cumulative grade point average of B. May be repeated for credit more than once, but students may earn only up to 6 credits per semester of enrollment. [2-6] (No AXLE credit)

**BSCI 3965. Undergraduate Seminar.** [Formerly BSCI 275] Discussions and papers based on readings in research journals. Topics vary. Prerequisite: fulfillment of the intermediate course requirements for the major. May be repeated for credit more than once if there is no duplication in topic, but only two hours may count toward the major. Students may enroll in more than one section of this course each semester. [2] (No AXLE credit)

**BSCI 4265. Nucleic Acid Transactions.** [Formerly BSCI 265] Biochemistry of the expression, transmission, and maintenance of genetic information. DNA transcription, replication, recombination, and repair. Structural mechanisms and biological functions of DNA processing proteins. Offered on a graded basis only. Prerequisite: 2520. [3] (MNS)

**BSCI 4999. Honors Research.** [Formerly BSCI 296] Open only to majors in the Honors Program. May be repeated for credit more than once, but students may earn only up to 6 credits per semester of enrollment. [4-6] (No AXLE credit)

**Catalan**

**CBTN 1103. Intensive Elementary Catalan.** [Formerly CTLN 102] Romance tongue of northeastern Spain, Andorra, and southwestern France. Emphasis on oral communication, grammar, reading, and culture. Prior study of another Romance language through the intermediate level is expected. No credit for students who have earned credit for a higher level Catalan language course. [3] (INT)

**Chemical Biology**

**BCB 2101. Chemical Biology Focus.** Roles of proteins, lipids, nucleic acids, and carbohydrates in human disease. Experimental techniques. Prerequisite: CHEM 2221 and BSCI 1510. [1] (No AXLE credit)

**BCB 3101. Special Topics in Chemical Biology.** May be repeated for credit more than once if there is no duplication in topic. Prerequisite: CHEM 3710. [3] (MNS)

**BCB 3201. Independent Laboratory Research.** Original student research under the supervision of faculty associated with the Biochemistry and Chemical Biology major. Design and execution of a scientific problem. Enrollment by arrangement before the end of the previous semester. Prerequisite: BSCI 1510 and CHEM 1020 or 1602, consent of Biochemistry and Chemical Biology Director of Undergraduate Studies; 3.0 cumulative grade point average. May be repeated for credit more than once, but students may earn only up to 6 credits per semester of enrollment. [2-6] (No AXLE credit)

**BCB 4320. Advanced Chemical Biology.** (Also listed as CPBP 8320 Foundations in Chemical Biology) Overviews and in-depth case studies on the breadth of chemical biology. Importance of chemical biology in advancing biological sciences. Offered on a graded basis only. Prerequisite: CHEM 3710 [3] (MNS)

**Chemistry**

**CHEM 1001. Commons Seminar.** [Formerly CHEM 99] Topics vary. General Elective credit only. [1] (No AXLE Credit)

**CHEM 1010. Introductory Chemistry.** [Formerly CHEM 101A] General principles for non-science majors or those not planning on taking additional chemistry courses. The periodic table, chemical reactions, properties of solutions, and atmospheric chemistry with connections to global environmental issues. No prior chemistry experience required. Not a prerequisite for advanced courses in chemistry. No credit for students who have earned credit for 1601, 2211, or 2221. [3] (MNS)

**CHEM 1010L. Introductory Chemistry Laboratory.** [Formerly CHEM 100A] Laboratory to accompany 1010. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1010. No credit for students who have earned credit for 1601L or 2221L. Corequisite: 1010. [1] (No AXLE credit)

**CHEM 1020. Introductory Chemistry.** [Formerly CHEM 101B] General principles for non-science majors or those not planning on taking additional chemistry courses. Chemistry of water, basic nuclear chemistry, organic and biochemical, with discussion of the chemistry of common medicines and nutritional chemistry. No prior chemistry experience required. Not a prerequisite for advanced courses in chemistry. No credit for students who have earned credit for 1602, 2212, or 2222. [3] (MNS)

**CHEM 1020L. Introductory Chemistry Laboratory.** [Formerly CHEM 100B] Laboratory to accompany 1020. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1020. No credit for students who have earned credit for 1602L or 2222L. Corequisite: 1020. [1] (No AXLE credit)

**CHEM 1111. First-Year Writing Seminar.** [Formerly CHEM 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

**CHEM 1601. General Chemistry.** [Formerly CHEM 102A] General principles of chemistry for science and engineering students. Composition and structure of matter, chemical reactions, bonding, solution chemistry, and kinetics. Thermodynamics, equilibrium, acids and bases, electrochemistry, and coordination compounds. Three lectures per week and a recitation period. Students who have earned credit for 1010 will forfeit credit for 1010 upon completion of this course. Corequisite: 1601L. [3] (MNS)
CHEM 1601L. General Chemistry Laboratory. [Formerly CHEM 104A] Laboratory to accompany 1601. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1601. Students who have earned credit for 1010L will forfeit credit for 1010L upon completion of this course. Prerequisite or corequisite: 1601. [1] (No AXLE credit)

CHEM 1602L. General Chemistry Laboratory. [Formerly CHEM 104B] Laboratory to accompany 1602. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1602. Students who have earned credit for 1020L will forfeit credit for 1020L upon completion of this course. Prerequisite: 1601. Corequisite: 1602LL. [3] (MNS)

CHEM 2100. Introduction to Analytical Chemistry. [Formerly CHEM 210] Fundamental quantitative analytical chemistry with emphasis on principles of analysis, separations, equilibria, stoichiometry and spectrophotometry. No credit for graduate students in chemistry. Corequisite: 2100L. [3] (MNS)

CHEM 2100L. Analytical Chemistry Laboratory. [Formerly CHEM 212A] Laboratory to accompany Chemistry 2100. No credit for graduate students in chemistry. One four-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 2100. Prerequisite or corequisite: 2100. [1] (No AXLE credit)

CHEM 2211. Organic Chemistry for Advanced Placement Students. [Formerly CHEM 218A] Fundamental types of organic compounds; their nomenclature, classification, preparations, reactions, and general application. Three hours of lecture and one hour of recitation each week. Equivalent to 2221. No credit for students who have earned credit for 2221 or 2222. Prerequisite: enrollment limited to first-year students with advanced placement chemistry scores of 5, or the approval of the director of undergraduate studies. Corequisite: 2221L. [3] (MNS)

CHEM 2212. Organic Chemistry for Advanced Placement Students. [Formerly CHEM 218B] Continuation of 2211. Fundamental types of organic compounds; their nomenclature, classification, preparations, reactions, and general application. Three hours of lecture and one hour of recitation each week. Equivalent to 2222. No credit for students who have earned credit for 2221 or 2222. Prerequisite: enrollment limited to first-year students with advanced placement chemistry scores of 5, or the approval of the director of undergraduate studies. Corequisite: 2222L. [3] (MNS)

CHEM 2221L. Organic Chemistry Laboratory. [Formerly CHEM 219A] Laboratory to accompany 2211 or 2221. One four-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 2211 or 2221. Prerequisite or corequisite: 2211 or 2221. [1] (No AXLE credit)

CHEM 2222L. Organic Chemistry Laboratory. [Formerly CHEM 219B] Laboratory to accompany 2212 or 2222. One four-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 2212 or 2222. Prerequisite or corequisite: 2212 or 2222. [1] (No AXLE credit)

CHEM 3010. Inorganic Chemistry. [Formerly CHEM 203] A survey of modern inorganic chemistry including coordination compounds and the compounds of the main-group elements. Representative reactions and current theories are treated. Prerequisite or corequisite: 3300 or 3310. [3] (MNS)

CHEM 3020. Introduction to Bioinorganic Chemistry. [Formerly CHEM 202] Functions of inorganic elements in living cells. The manner in which coordination can modify the properties of metallic ions in living systems. Prerequisite: 2212 or 2222. [3] (MNS)

CHEM 3120. Instrumental Analytical Chemistry. [Formerly CHEM 211] Chemical and physical principles of modern analytical instrumentation. Prerequisite: 2100 and either 2212 or 2222. [3] (MNS)

CHEM 3135W. Forensic Analytical Chemistry. [Formerly CHEM 227W] Techniques, methodologies, data collection, and interpretation. Laboratory experience with drug analysis, toxicology, trace, and arson analysis. Two hours of lecture and one four-hour laboratory per week. Prerequisite: 2100 and 2100L. [3] (MNS)

CHEM 3220. Spectroscopic Identification of Organic Compounds. [Formerly CHEM 225] Theoretical and practical aspects of spectroscopic methods, with an emphasis on NMR spectroscopy, for structural characterization of organic compounds. Prerequisite: 2212 or 2222. [3] (MNS)

CHEM 3300. Physical Chemistry: Quantum Mechanics, Spectroscopy, and Kinetics. [Formerly CHEM 230] Chemical kinetics and principles of quantum chemistry applied to molecular structure, bonding, and spectroscopy. Prior study of multivariable calculus is expected. No credit for graduate students in chemistry. Prerequisite or corequisite: PHYS 1501, 1601, or 1901. Prerequisite: MATH 1201 or 1301. [3] (MNS)

CHEM 3310. Biophysical Chemistry: Thermodynamics in Chemical and Biological Systems. [Formerly CHEM 231] Chemical thermodynamics and equilibrium, their statistical foundation, and applications to chemical and biological phenomena in biomedical research. Prerequisite or corequisite: PHYS 1501, 1601, or 1901. Prerequisite: MATH 1201 or 1301. [3] (MNS)

CHEM 3315. Physical Chemistry Laboratory. [Formerly CHEM 236] Experiments in chemical thermodynamics and kinetics. Data analysis and presentation. No credit for graduate students in chemistry. One three-hour laboratory or one lecture per week. Calculus through Math 2300 recommended. Prerequisite: 2222L and either MATH 1201 or 1301. [1] (No AXLE credit)

CHEM 3600. Chemical Literature. [Formerly CHEM 250] Assigned readings and problems in the nature and use of the chemical literature. Prerequisite: 2212 or 2222. [1] (No AXLE credit)

CHEM 3710. Bioorganic Chemistry. [Formerly CHEM 224] Essential metabolites including vitamins, steroids, peptides, and nucleotides. Consideration of phosphate esters and the synthesis of oligodeoxynucleotides. Three lectures per week. Prerequisite: 2212 or 2222. [3] (MNS)

CHEM 3715. Chemistry of the Coral Reef. Application of quantitative analytical chemistry techniques and spectroscopic methods to characterize molecules with potential materials chemistry or medicinal chemistry applications. In-depth chemistry research experience; mandatory participation in all scheduled field research and laboratory sessions. Prerequisite: 2100, 2100L, 2222, 2222L. [3] (MNS)
CHEM 3841. Readings for Honors. [Formerly CHEM 291A] Open only to students in the departmental honors program. General reading supervised by research adviser. [2] (No AXLE credit)

CHEM 3842. Readings for Honors. [Formerly CHEM 291B] Open only to students in the departmental honors program. Continuation of 3841, with emphasis on research planned. [2] (No AXLE credit)

CHEM 3880. Undergraduate Research. [Formerly CHEM 282] Open to students who have earned at least 8 hours of credit and a minimum GPA of 2.7 in chemistry, with consent of the director of undergraduate studies and the sponsoring faculty member. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

CHEM 3980. Honors Research. [Formerly CHEM 292A] Open only to students in the departmental honors program. Original research supervised by research adviser, to be reported in thesis form with oral examination thereon. [2] (No AXLE credit)

CHEM 4050. Introduction to Organometallic Chemistry. [Formerly CHEM 207] A general description of the preparation, reaction chemistry, molecular structure, bonding, and spectroscopic identification of organometallic compounds of the transition metals. Prerequisite: 3010. [3] (MNS)

CHEM 4210. Organic Chemistry Structure and Mechanism. [Formerly CHEM 220C] Stereochemistry and conformational analysis; mechanisms of organic reactions; linear free-energy relationships; reactive intermediates. Three lectures and one recitation hour per week. No credit for students who have earned credit for 5210. Students who have earned credit for 5209 will earn only two credits for this course. Prerequisite: either 2212 or 2222 and either 3300 or 3311. [4] (MNS)

CHEM 4720. Drug Design and Development. [Formerly CHEM 226] Concepts of drug design; physical chemistry of drug interactions with receptors, enzymes, and DNA; drug absorption and distribution. Organic chemistry of drug metabolism; mechanism of action for selected therapeutic classes. Prerequisite: 3710 or BSCI 2520. [3] (MNS)

CHEM 4965. Advanced Integrated Laboratory. [Formerly CHEM 295A] Multidisciplinary laboratory projects. Experimental design, synthetic techniques, chemical analysis, spectroscopy, and computational methods. Offered on a graded basis only. Limited to senior majors. Prerequisite: 2100, 2100L. [3] (No AXLE credit)

CHEM 4966. Advanced Integrated Laboratory. [Formerly CHEM 295B] Continuation of 4965. Offered on a graded basis only. Limited to senior majors. Prerequisite: 4965. [3] (No AXLE credit)

CHEM 4980. Honors Research. [Formerly CHEM 292B] Open only to students in the departmental honors program. Original research supervised by research adviser, to be reported in thesis form with oral examination thereon. [2] (No AXLE credit)

CHEM 4999. Honors Research. [Formerly CHEM 292C] Open only to students in the departmental honors program. Original research supervised by research adviser, to be reported in thesis form with oral examination thereon. [2] (No AXLE credit)

Chinese

CHIN 1011. Basic Chinese. [Formerly CHIN 200A] Designed exclusively for students with no previous exposure to the language. The basic pronunciation, grammar, and writing system of Mandarin Chinese. Simple conversation, the pinyin Romanization system, basic Chinese characters, and cultural elements embedded in the language. No credit for students who have earned credit for 1101 or a more advanced Chinese language course. [3] (No AXLE credit)

CHIN 1012. Basic Chinese. [Formerly CHIN 200B] Continuation of 1101. No credit for students who have earned credit for 1101 or a more advanced Chinese language course. Prerequisite: 1101. [3] (No AXLE credit)

CHIN 1101. Elementary Chinese I. [Formerly CHIN 201] Introduction to Modern Chinese pronunciation, grammar, conversation, reading, and writing. Two hours of lecture and three hours of drill per week. No credit for students who have earned credit for 1012 or a more advanced Chinese language course. [3] (No AXLE credit)

CHIN 1102. Elementary Chinese II. [Formerly CHIN 202] Continuation of 1101. Introduction to Modern Chinese pronunciation, grammar, conversation, reading, and writing. Two hours of lecture and three hours of drill per week. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 1012 or 1101. [5] (INT)

CHIN 2201. Intermediate Chinese I. [Formerly CHIN 211] Oral and written language training. Two hours of lecture and three hours of drill per week. Repeat credit for students who completed 214. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 1102. [5] (INT)

CHIN 2202. Intermediate Chinese II. [Formerly CHIN 212] Continuation of 2201. Language training in oral and written Chinese. Two hours of lecture and three hours of drill per week. Serves as repeat credit for 216. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 2201. [5] (INT)

CHIN 2211. Chinese for Heritage Learners I. [Formerly CHIN 225] Intended for students who have some informal training in listening and speaking Mandarin Chinese. Basic literacy and other aspects of language proficiency. Offered on a graded basis only. No credit for students who have earned credit for a more advanced Chinese language course. [3] (INT)

CHIN 2212. Chinese for Heritage Learners II. [Formerly CHIN 226] Continuation of 2211. Intended for students who have some informal training in listening and speaking Mandarin Chinese. Basic literacy and other aspects of language proficiency. Offered on a graded basis only. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 2211. [3] (INT)

CHIN 3301. Advanced Chinese I. [Formerly CHIN 241] Readings in Chinese culture to enhance proficiency in oral and written Chinese. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 2202. [3] (INT)

CHIN 3302. Advanced Chinese II. [Formerly CHIN 242] Continuation of 3301. Readings in Chinese culture to enhance proficiency in oral and written Chinese. No credit for students who have earned credit for a more advanced Chinese language course. Prerequisite: 3301. [3] (INT)

CHIN 3302W. Advanced Chinese II. [Formerly CHIN 242W] Reading and writing essays about modern Chinese culture and society. Repeat credit for 3302. No credit for students who have earned credit for a more advanced Chinese language course. Graded basis only. Prerequisite: 3301. [3] (INT)

CHIN 3851. Independent Study. [Formerly CHIN 289A] Designed primarily for majors who want to study Chinese not regularly offered in the curriculum. Must have consent of instructor. May be repeated for a total of 12 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment.
Cinema and Media Arts

CMA 1001. Commons Seminar. [Formerly CMA 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

CMA 1002W. Moving Images and Analytical Thinking. Moving images and new media from various genres, periods, and national contexts. May be repeated for credit once if there is no duplication in topic. Offered on a graded basis only. [3] (HCA)

CMA 1111. First-Year Writing Seminar. [Formerly CMA 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

CMA 1500. Fundamentals of Film and Video Production. [Formerly CMA 105] Technologies and techniques of filmmaking, digital video cameras, staging and lighting, sound recording, post-production sound, and image editing. Offered on a graded basis only. [3] (HCA)

CMA 1600. Introduction to Film and Media Studies. [Formerly CMA 125] Stylistic tendencies and narrative strategies, genres, and theoretical approaches. Live-action cinema, animation, experimental cinema, television, and computer-generated moving images. [3] (HCA)

CMA 2250. 16mm Filmmaking. Camera operation, lighting, non-sync sound design, and film pre-production for 16 mm and celluloid film. Offered on a graded basis only. Prerequisite 1500. [3] (No AXLE credit)

CMA 2260. Digital Production Workshop. Digital cinematography, sound design, and editing. Individual and group projects. Offered on a graded basis only. Prerequisite 1500. [3] (No AXLE credit)

CMA 2300. Film and Media Theory. [Formerly CMA 201] Historical overview of the major analytical and critical approaches to the study of film as an aesthetic and cultural form. Contemporary perspectives on cinema, video, and new media. Prerequisite: 1600. [3] (P)

CMA 2400. History of World Cinema. [Formerly CMA 211] Survey of world film history from 1895 to the present. Key films and filmmakers. Historical, aesthetic, national, and political contexts of films and film movements. No credit for students who have earned credit for HART 272a or 272b. Prerequisite: 1600. [3] (HCA)

CMA 2500W. Screenwriting. [Formerly CMA 227W] Techniques of screenwriting. Serves as repeat credit for students who have completed THTR 227, 227W. [3] (HCA)

CMA 2600W. Advanced Screenwriting. [Formerly FILM 275W] Story structure, character development, and dialogue. Serves as repeat credit for THTR 275 and 275W. Prerequisite: 2500W or THTR 227W. [3] (HCA)

CMA 3850. Independent Study. [Formerly CMA 289A] Projects are arranged with individual professors and must be confirmed by the director of Cinema and Media Arts within two weeks of the beginning of classes; otherwise the student will be dropped from the rolls. [Variable credit: 1-3 each semester. Limit of 6 hours for 3850 and 3851 combined for majors.] (No AXLE credit)

CMA 3851. Independent Study. [Formerly FILM 289B] Projects are arranged with individual professors and must be confirmed by the director of Cinema and Media Arts within two weeks of the beginning of classes; otherwise the student will be dropped from the rolls. [Variable credit: 1-3 each semester. Limit of 6 hours for 3850 and 3851 combined for majors.] (No AXLE credit)

CMA 3880. Internship Training. [Formerly CMA 280B] Under faculty supervision, students from any discipline can gain experience working on projects related to film and media in public or private organizations. Responsibilities include conducting background research and developing skills in film and media study and production. Hours for background readings and research will be completed in CMA 3881 concurrently with 3880. Normally a 2.90 grade point average, 6 hours of prior work in Cinema and Media Arts, and approval of the student’s plan by the director of undergraduate studies are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Offered on a Pass/Fail basis only and must be taken concurrently with 3881. Hours of 3880 will not count toward the Film Studies Major or minor. Corequisite: 3881. [Variable credit: 1-9] (No AXLE credit)

CMA 3881. Internship Readings and Research. [Formerly CMA 280A] Under faculty supervision, students from any discipline can gain experience working on projects related to film and media in public or private organizations. Responsibilities include conducting background research and developing skills in film and media study and production. Hours for background readings and research will be completed in CMA 3881 concurrently with 3880. Normally a 2.90 grade point average, 6 hours of prior work in Cinema and Media Arts, and approval of the student’s plan by the director of undergraduate studies are required. A research paper and report must be submitted at the end of the semester during which the internship training is completed. Readings and research conducted under the supervision of a member of the Cinema and Media Arts program and a substantial research paper or written project (such as a screenplay, treatment, or production plan related to the Training component) is required. Corequisite: 3880. [Variable credit: 1-6] (No AXLE credit)

CMA 3891. Special Topics in Film and Video Production. [Formerly CMA 288A] Topics vary. May be repeated more than once if there is no duplication of topic. Prerequisite: 1500. [3] (No AXLE credit)

CMA 3892. Special Topics in the Study of Film. [Formerly CMA 288B] Topics vary. May be repeated more than once if there is no duplication of topic. [3] (HCA)
Classical Hebrew

CHEB 1101. Beginning Classical Hebrew I. Alphabet, basic grammar, and vocabulary. Short readings from the Bible. No credit for students who have earned credit for a more advanced Classical Hebrew language course. Offered on a graded basis only. [3] (INT)

CHEB 1102. Beginning Classical Hebrew II. Transition to extensive reading of the Bible. No credit for students who have earned credit for a more advanced Classical Hebrew language course. Offered on a graded basis only. [3] (INT)

CHEB 2200. Intermediate Classical Hebrew. Review of grammar and expanding vocabulary. Selected readings in prose and poetry from the Bible. No credit for students who have earned credit for a more advanced Classical Hebrew language course. Prerequisite: 1102. [3] (INT)

CHEB 3020. Classical Hebrew Poetry. History and genres of ancient verse. Selected readings from the Bible, including Job and Psalms. Prerequisite: 2200. [3] (HCA)

Clasics

CLAS 1001. Commons Seminar. [Formerly CLAS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

CLAS 1111. First-Year Writing Seminar. [Formerly CLAS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

CLAS 1120. Greek Civilization. [Formerly CLAS 130] A survey of the history and achievements of Greece from its Mycenaean origins to the Roman domination. Topics include literature, art, athletics, Periclean Athens, the conquest of Alexander, and the Hellenistic age. [3] (INT)

CLAS 1130. The Greek Myths. [Formerly CLAS 150] A study of the nature of the Greek myths, with consideration of the related Near Eastern myths and the early history of myths in Greece. Both the divine and the heroic myths, with some attention to the development of these myths in Italy and to their influence upon art and literature. [3] (HCA)

CLAS 1150. Roman Civilization. [Formerly CLAS 146] Ancient Roman civilization from mythological foundations to the fall of the empire. A historical survey of topics including art and architecture, city life, agriculture, religion, law, slavery, public entertainment, and literature. [3] (INT)

CLAS 2100. History of the Ancient Near East. [Formerly CLAS 207] From the neolithic period to the conquests of Alexander the Great, in the geographical area from Persia to Troy and Egypt. Special attention to the history of Israel. [3] (INT)

CLAS 2110. History of Greece to Alexander the Great. [Formerly CLAS 208] The Greek world from the beginning of the Mycenaean Age (1650 B.C.) to the end of the Classical period. Special attention to the relationship between political history and the development of Hellenism. [3] (INT)

CLAS 2120. Greece and the Near East from Alexander to Constantine. [Formerly CLAS 209] From Alexander’s conquest of the Persian Empire to the ascendancy of Christianity in the fourth century. Social, cultural, and religious transformations within the framework of political history. [3] (INT)

CLAS 2160. History of the Roman Empire. [Formerly CLAS 213] The Roman world from Augustus to the collapse of the western empire in the fifth century. Political, military, social, and religious history. Special attention given to problems arising from use of the primary sources as well as to controversies in modern scholarship. [3] (INT)

CLAS 2180. The Mediterranean World from Late Antiquity to the Middle Ages. [Formerly CLAS 223] Eastern Roman Empire from Constantine to Arab conquests. Political, social, cultural, and religious history, including monasticism, barbarian invasions, changing roles of Emperor and Church, and birth of Islam. Developments in urban life and landscape. [3] (INT)

CLAS 2200. Archaic and Classical Greek Art and Architecture, 1000 to 400 B.C.E.. [Formerly CLAS 204] Sculpture, vase painting, architecture, and the minor arts. Formal and stylistic developments in relation to changing cultural background. No credit for students who have earned credit for HART 2220. Repeat credit for students who have completed HART 257. [3] (HCA)
CLAS 2210. Late Classical Greek and Hellenistic Art and Architecture. [Formerly CLAS 205] Sculpture, vase painting, architecture, and the minor arts from after the Parthenon to the Roman Empire. Media that developed significantly in this period, such as wall painting and mosaic. No credit for students who have earned credit for HART 2220. Repeat credit for students who have completed HART 258. [3] (HCA)

CLAS 2250. Roman Art and Architecture. [Formerly CLAS 206] Sculpture, architecture, and painting from the tenth century B.C.E. to the early fourth century C.E. Daily life of the Romans as seen in excavations of the towns of Pompeii and Herculaneum. [3] (HCA)

CLAS 3000. Classical Tradition in America. [Formerly CLAS 222] Influences of classical Greece and Rome on the literature, politics, architecture, and values of the United States from the colonial period to the present. [3] (US)

CLAS 3010. The Ancient Origins of Religious Conflict in the Middle East. [Formerly CLAS 224] Religious oppositions in the eastern Mediterranean world from the Maccabean revolt to the Muslim conquests of the seventh century; beginnings of religious militancy; challenges of monotheism to Greco-Roman civilization; conversion, persecution, and concepts of heresy and holy war in Christianity, Judaism, and Islam. [3] (P)

CLAS 3030. Death, Disease, and Health in the Ancient World. From the Bronze Age to early Christianity and Late Antiquity. Biological history of the Greeks, Romans, and other Mediterranean peoples. Changing concepts of death and afterlife; interpretations of disease; medical thought and practice. Healing, epidemics, natural catastrophe, and dietary variation. Evidence from classical literature, archaeology, bones and teeth. [3] (SBS)

CLAS 3110. Warfare in the Ancient Mediterranean. [Formerly CLAS 226] Continuity and change in ancient Greek and Roman warfare 800 B.C. to A.D. 120. Social, political, and religious aspects of war. Effects of war, imperialism, and militarism on internal and external populations. [3] (INT)

CLAS 3150. Roman Law. [Formerly CLAS 260] The relationship between law and society as illustrated by cases drawn from Roman legal and literary sources. The development of legal reasoning and the rise of an autonomous legal profession at Rome. [3] (SBS)

CLAS 3160. Roman Law and Social History. Relationship of law and society as illustrated by legal, literary, epigraphic, and papyrological evidence. Views and methodologies of leading modern scholars. Focus on methodology. Marriage, family, personal status, the economy, and judicial system. Basic familiarity with Roman history or law is expected. [3] (SBS)

CLAS 3190W. Augustan Rome. [Formerly CLAS 296W] Social, administrative, religious, and military reforms. Common themes in art, architecture, and literature; changes in national identity in the transition from Republic to Empire. Prerequisite: 1150, 2150, or 2160. [3] (HCA)

CLAS 3200. The Greek City. [Formerly CLAS 211] The example of ancient Athens. The stoa, the theatre, the house, and fortifications. Institutions such as the courts, the public assembly, and the family. Literary, historical, archaeological, and philosophical sources. Serves as repeat credit for students who have completed HART 263. [3] (SBS)

CLAS 3210. The Archaeology of Greek Sanctuaries. [Formerly CLAS 245] Study of ancient Greek religious worship through an examination of temples, altars, cult images, votives, priests, and processions. Panhellenic sanctuaries and oracular and mystery cults. No credit for students who have earned credit for 3700. [3] (INT)

CLAS 3220. The Trojan War in History, Art, and Literature. [Formerly CLAS 240] Representations in Classical Greek art, literature, and archaeo-logical evidence. The composition of the Homeric epics; the meaning of the Trojan War to later audiences. [3] (HCA)

CLAS 3230. Alexander the Great. [Formerly CLAS 243] Alexander’s rise to power and conquests in Europe, Asia, and Africa; the legacy of his introduction of Greek culture to the East; his significance to later audiences. Offered on a graded basis only. [3] (HCA)

CLAS 3300. Akkadian. [Formerly CLAS 231] Introduction to the cuneiform script and to the grammar of Akkadian, the language of ancient Mesopotamia. Selected readings in Old Babylonian (CODEX Hammurabi, Mari letters) and Neo-Assyrian texts (Creation Poem, Gilgamesh Epic). [3] (INT)

CLAS 3301. Akkadian. [Formerly CLAS 232] Continuation of 3300. Introduction to the cuneiform script and to the grammar of Akkadian, the language of ancient Mesopotamia. Selected readings in Old Babylonian (CODEX Hammurabi, Mari letters) and Neo-Assyrian texts (Creation Poem, Gilgamesh Epic). [3] (INT)

CLAS 3310. Culture of the Ancient Near East. [Formerly CLAS 236] A survey of highly sophisticated Near East cultures of the last three millennia before the common era (B.C.). Discussion of political histories, and the social, religious, and intellectual heritage of Mesopotamia, Egypt, and Anatolia through excavated artifacts and written documents. [3] (INT)

CLAS 3320. The Amarna Age. [Formerly CLAS 238] The Amarna period from the sixteenth through the twelfth centuries B.C.E., as illuminated by excavations of palaces and temples in Egypt, Anatolia, Canaan, and Mesopotamia as well as the vast historical, legal, and literary documents of the Amarna period. Focus on the internationalism and theological speculation of the period as seen through the powerful personalities and accomplishments of leaders such as Thutmose III, Suppiluliumas, Ramses II, and the spiritually influential Akhenaten. [3] (INT)

CLAS 3370. History of Syriac Christianity. Christians who spoke the Aramaic dialect during Late Antiquity to modern times from the Near East to the Persian Gulf, India, and China. Culture and literature under the Byzantine Empire and the Islamic States in the Middle East. History and theology of religious communities. Historiographical debates about Syriac origins and development. [3] (INT)

CLAS 3710. Archaeology, History, and Culture in Greece: Kenchreai Field School. [Formerly CLAS 242] Archaeological field school at the site
of Kenchreai with seminars and excursions in southern Greece. Basic techniques in excavation, survey, and the analysis of architecture, artifacts, and bones. Explorations of churches, temples, houses, and tombs. Focus on Greece during the Roman Empire and late antiquity. Landscape settlement, cult practice, cultural and social diversity, and funerary ritual. Offered on a graded basis only. [3] (INT)

**CLAS 3720. History and Art of Ancient Rome.** [Formerly CLAS 244] The mid-second century BCE to the mid-second century CE. Investigating significant sites, monuments, and museum collections in Rome and locations throughout southern Italy. Monumental and domestic architecture, wall paintings, sculpture, coins, and ancient sources. [3] (INT)

**CLAS 3850. Independent Study.** [Formerly CLAS 289] Completion of a substantial research paper in either classics or the classical tradition under the direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits for all semesters of CLAS 3850] (No AXLE credit)

**CLAS 4998. Senior Honors Thesis.** [Formerly CLAS 299A] Open only to seniors in the departmental honors program. [3] (No AXLE credit)

**CLAS 4999. Senior Honors Thesis.** [Formerly CLAS 299B] Open only to seniors in the departmental honors program. [3] (No AXLE credit)

### Communication of Science and Technology

**CSET 2100. Science Communication Tools and Techniques.** [Formerly CSET 201] Translating technical research for a general readership. Benefits and limitations of different formats, texts, and media for telling stories about science. Repeat credit for students who completed 150 in fall 2011 or fall 2012. No credit for students who earned credit for CMST 237 before fall 2013. [3] (HCA)

**CSET 3840. Directed Study.** [Formerly CSET 289] Individual research and scholarly investigation in science, engineering, or medicine. Usually conducted in a laboratory setting. May be repeated for credit more than once, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 3 credits per semester of enrollment] (No AXLE credit)

**CSET 3841. Project in Science Writing and Communicating.** [Formerly CSET 289] Presentation of scientific, engineering, or medical research. May be repeated for credit more than once, but students may earn only up to 3 credits per semester of enrollment. Prerequisite: 3840 and approval of the program director. [1-3; maximum of 3 credits per semester of enrollment] (No AXLE credit)

**CSET 3890. Special Topics.** [Formerly CSET 150] Topics as announced. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [3] (No AXLE credit)

**CSET 4998. Honors Thesis.** [Formerly CSET 296] Limited to students admitted to the Communication of Science and Technology Honors program. May be repeated for credit once, but students may earn only up to 3 credits per semester of enrollment. Prerequisite: 3840 and 3841. [1-3; maximum of 3 credits per semester of enrollment] (No AXLE credit)

### Communication Studies

**CMST 1001. Commons Seminar.** [Formerly CMST 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

**CMST 1002. Introduction to Communication Studies.** Theoretical foundations and practice of human communication. Argument and advocacy; public address; and critical analysis of media and culture. [3] (HCA)

**CMST 1111. First-Year Writing Seminar.** [Formerly CMST 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

**CMST 1850. Interpersonal Communication.** [Formerly CMST 101] A study of both the theory and application of verbal and nonverbal communication as they occur in relatively unstructured person-to-person and small group settings. [3] (HCA)

**CMST 2110. Persuasion.** [Formerly CMST 201] The theory and practice of persuasion with particular emphasis on speech composition, the use of language and its relationship to oral style, structure, and the relationship of structure to the process of speech preparation. Prerequisite: 1500. [3] (HCA)

**CMST 2120. Organizational and Managerial Communication.** [Formerly CMST 204] Theory and practice of communication in relation to organizations and management with application to leadership, values and ethics, organizational communication theory, and organizational conflict. Prerequisite: 1500. [3] (HCA)

**CMST 2800. Rhetoric and Civic Life.** [Formerly CMST 210] Public discourse and the duties and prerogatives of citizenship. Theory, models, and criticism of rhetoric and oratory in their deliberative, forensic, and epideictic settings. [3] (HCA)

**CMST 2900. Values in Modern Communication.** [Formerly CMST 223] An examination of values, explicit and implicit, in communication situations in modern American society. The course begins with the discovery and analysis of values and applies this process to technological innovation and rhetorical choice, interpersonal communication, advertising and consumerism, and mass-media persuasion. [3] (HCA)

**CMST 2950. Rhetoric of Mass Media.** [Formerly CMST 241] A study of the nature, effects, reasons for the effects, ethics, regulation, and criticism of contemporary mass media communication. Political causes, news reporting, commercial advertising, and similar sources of rhetoric are included. [3] (HCA)

**CMST 3000. Rhetoric of the American Experience, 1640-1865.** [Formerly CMST 220] A critical and historical examination of the methods and effects of public debate and other attempts to influence the attitudes, affective response, and behavior of the American people. Attention to the rhetorical features of selected issues and speakers from colonial times through the Civil War. [3] (US)

**CMST 3001. Rhetoric of the American Experience, 1865 to 1945.** [Formerly CMST 221] Critical and historical examination of the methods and effects of public debate and other attempts to influence the attitudes, affective response, and behavior of the American people. Attention to the rhetorical features of selected issues and speakers from 1865 to 1945. [3] (US)

**CMST 3002. Rhetoric of the American Experience, 1945-Present.** [Formerly CMST 225] Critical and historical examination of the methods and effects of public debate and other attempts to influence the attitudes, affective response, and behavior of the American people. Attention to the rhetorical features of selected issues and speakers from 1945 to the present. [3] (US)

**CMST 3100. Rhetoric of Social Movements.** [Formerly CMST 224] The role of communication in the creation, development, and function of social movements. The analysis of specific rhetorical acts. The study of the arguments, patterns of persuasion, and communication strategies of selected social movements. [3] (US)

CMST 3620. Rhetoric, Culture, and Critique. [Formerly CMST 254] Rhetorical criticism of cultural texts and artifacts, including oratory, mass media, and other forms of public discourse. Fundamentals of effective rhetorical analysis and writing. Repeat credit for students who have completed 3620W. [3] (HCA)

CMST 3620W. Rhetoric, Culture, and Critique. [Formerly CMST 254W] Rhetorical criticism of cultural texts and artifacts, including oratory and mass media. Fundamentals of rhetorical analysis and writing. Repeat credit for students who have completed 3620. [3] (HCA)

CMST 3700. Politics and Mass Media. [Formerly CMST 244] Impact of mass-mediated communication on United States’ electoral politics. Pragmatic and ethical influences on the dissemination of information to voters during campaigns. [3] (HCA)

CMST 3710. Cultural Rhetorics of Film. [Formerly CMST 243] Film as rhetorical response to historical and cultural change. Filmic treatment of historical trauma; related genres, such as horror and melodrama. [3] (HCA)

CMST 3740. Rhetoric of Medicine and Health. Cultural construction of medicine and health through narratives, metaphors, and bodily practices. Case studies in art, ethics, activism, and public controversy. No credit for students who have earned credit for 3890 section 1 offered spring 2016. [3] (P)

CMST 3840. Directed Readings. [Formerly CMST 290] Supervised reading and writing in a selected field of the discipline under the guidance of a faculty supervisor. Consent of both the faculty supervisor and the director of undergraduate studies required. Normally open only to majors in communication studies. May be repeated for a total of 6 credits in 3850 and 3840 combined, but students may earn only up to 3 credits per semester of enrollment. [3; maximum of 6 credits total for all semesters of CMST 3850 and 3840] (No AXLE credit)

CMST 3850. Independent Study. [Formerly CMST 289] A research project in rhetorical criticism to be arranged with the individual instructor. Designed for students who have taken either 3000 or 3001. May be repeated for a total of 6 credits in 3850 and 3840 combined, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of CMST 3850 and 3840] (No AXLE credit)

CMST 3890. Selected Topics in Communication Studies. [Formerly CMST 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

CMST 4940. Seminars in Selected Topics. [Formerly CMST 295] Topics of special interest. May be repeated for a total of 6 credits in 4940 and 4941 combined if there is no duplication in topic. Students may enroll in more than one section of this course per semester of enrollment. Prerequisite: 15 hours of Communication Studies. [3; maximum of 6 credits total for all semesters of CMST 4940 and 4941] (No AXLE credit)

CMST 4941. Seminars in Selected Topics. [Formerly CMST 296] Topics of special interest. May be repeated for a total of 6 credits in 4940 and 4941 combined if there is no duplication in topic. Students may enroll in more than one section of this course per semester of enrollment. Prerequisite: 15 hours of Communication Studies. [3; maximum of 6 credits total for all semesters of CMST 4940 and 4941] (No AXLE credit)

Creole

CREO 1102. Elementary Creole II (Duke). Essential elements of Creole language and aspects of Haitian culture. Speaking, listening, reading, and writing. Exposure to Haitian culture through films, storytelling, games, music, and proverbs. Prerequisite: 1101 or a comparable level of previous Creole language experience, such as familial background in Creole. Offered on a graded basis only. [3] (INT)

CREO 2202. Intermediate Creole II (Duke). Second semester of Intermediate Creole. Offered on a graded basis only. Prerequisite: 2201 or equivalent. [3] (INT)

Earth and Environmental Sciences

EES 1001. Commons Seminar. [Formerly EES 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

EES 1030L. Oceanography Laboratory. [Formerly EES 113] Laboratory to accompany 1030. Corequisite: 1030. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1030. [1] (No AXLE credit)

EES 1070. Volcanoes: Impacts on Earth and Society. [Formerly EES 107] How magmas form and volcanoes erupt; eruption processes and their hazards to society. Volcanic influence on human history and the evolution of the Earth. No credit for students who have earned credit for 1111 section 3. [3] (MNS)

EES 1080. Earth and Atmosphere. [Formerly EES 108] The science of the atmosphere: principles of weather and climate; the atmosphere as part of the Earth system; weather forecasting; hurricanes, tornadoes, and severe storms; human impacts, such as air pollution and climate change. [3] (P)

EES 1111. First-Year Writing Seminar. [Formerly EES 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

EES 1140. Ecology, Evolution, and Climates through Time. [Formerly EES 114] Biological responses to global climate and environmental change through geologic time. Causes of climate change and its impact
on biodiversity, including extinction implications. Interactions between climate, environments, and the evolution of organisms, emphasizing vertebrates during the past 65 million years. [3] (MNS)

EES 1400. Iceland's Geology. [Formerly EES 140] Processes that shape Icelandic landscapes. Volcanoes, glaciers, rivers, ocean, climate. History of interaction between the environment and Icelanders. Introduction at Vanderbilt, two weeks Icelandic field experience; laboratory includes both classroom and field work. Prerequisite: 1510, 1070, or 1111. [4] (MNS)

EES 1510. The Dynamic Earth: Introduction to Geological Sciences. [Formerly EES 101] Processes that have changed the earth. Relation between these processes and their products (e.g., earthquakes, minerals and rocks, mountains, oceanic features); interactions between processes affecting the solid, liquid, and gaseous components of earth; impact on humans. [3] (MNS)

EES 1510L. Dynamic Earth Laboratory. [Formerly EES 111] Laboratory to accompany 1510. Corequisite: 1510. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1510. [1] (No AXLE credit)

EES 2110. Global Climate Change. [Formerly EES 201] Science and policy of global climate change: history and causes of climate change in Earth’s past, with emphasis on the last 2 million years; evidence of human impacts on climate since 1850; future climate change and its economic, social, and ecological consequences; economic, technological, and public policy responses. Prerequisite: 1510 or 1080. [3] (MNS)

EES 2150. Science, Risk, and Policy. [Formerly EES 205] Assessment and management of deadly risks: comparison of markets, regulatory agencies, and courts for managing risks; cultural and scientific construction of risk; psychology of risk perception; case studies such as Hurricane Katrina, mad cow disease, and air pollution. [3] (P)

EES 2510. Earth Systems through Time. [Formerly EES 202] Effects of feedbacks between the geologic cycles on the lithosphere, hydrosphere, biosphere, and atmosphere at diverse intervals in the Earth’s history. Present and future implications. Interpretations of evidence recorded in Earth materials. Three hours of lecture and one laboratory per week. Repeat credit for students who have completed 1020. Prerequisite: 1510 and 1510L. [4] (MNS)

EES 2550. Earth Materials. [Formerly EES 225, EES 3250] Solid materials that make up the earth: rock, soil, and sediment, with emphasis on the minerals that are their major constituents. Hand specimen, optical, and X-ray methods of description and identification. Physical and chemical processes that form and modify earth materials and the use of these materials in interpreting earth processes of the past and present. Field trips. Three lectures and one laboratory per week. Prerequisite: 1030, 1080, or 1510. [4] (MNS)

EES 3220. Life Through Time. [Formerly EES 220] Ecology, classification, and evolution of important groups of fossils, emphasizing invertebrates. Change in marine ecosystems through geologic time. Causes and effects of rapid evolution events and mass extinctions. Three hours of lecture and one laboratory period per week. Prerequisite: 1510, BSCI 1100, or BSCI 1511. [4] (MNS)

EES 3310. Global Climate Change. Scientific principles and policy applications. Earth’s past; evidence of human impact; future climate change; and economic, social, and ecological consequences. Economic, technological, and public policy responses. Repeat credit for 2110. Students who have earned credit for 2110 will earn only one credit hour for this course. Prerequisite: one of 1030, 1080, 1510, BSCI 1510, CHEM 1601, ECON 1010, ES 1401 or PHYS 1501, 1601, 1901. [4] (MNS)

EES 3330. Sedimentology. [Formerly EES 230] The origin and composition of sedimentary particles, their transportation to the site of deposition, actual deposition, and the processes involved in lithifying sediments into solid rock. Emphasis on interpretation of ancient source areas and depositional environments. Terrigenous, carbonate, and other rock types will be studied. Field trips. Three lectures and one laboratory period. No credit for graduate students in EES. Prerequisite or corequisite: 2510, [4] (MNS)

EES 3340. Structural Geology and Rock Mechanics. [Formerly EES 240] Principles of rock deformation; mechanics, fractures, folds, foliation, primary structures, applications of principles. Interactions and feedbacks between tectonics, climate, and erosion. Field trips. Two lectures and one laboratory period per week. Prerequisite: 2510. [4] (MNS)

EES 3841. Directed Study. [Formerly EES 289A] Readings in related fields and/or laboratory research in pursuit of a scholarly project conceived and executed under the supervision of a faculty member. Open to senior majors and graduate students or by consent of the department chair. Does not count toward minimum requirements for the major. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 2 credits per semester of enrollment. [1-2] (No AXLE credit)

EES 3842. Directed Study. [Formerly EES 289B] Readings in related fields and/or laboratory research in pursuit of a scholarly project conceived and executed under the supervision of a faculty member. Open to senior majors and graduate students or by consent of the department chair. Does not count toward minimum requirements for the major. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 2 credits per semester of enrollment. [1-2] (No AXLE credit)

EES 3851. Independent Study. [Formerly EES 291A] Readings with related field and/or laboratory research in pursuit of a scholarly project conceived and executed under the supervision of a faculty member. Open to senior majors and graduate students. Other students must have consent of department chair. Does not count toward minimum requirements for the major. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

EES 3852. Independent Study. [Formerly EES 291B] Readings with related field and/or laboratory research in pursuit of a scholarly project conceived and executed under the supervision of a faculty member. Open to senior majors and graduate students. Other students must have consent of department chair. Does not count toward minimum requirements for the major. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

EES 3865. Field Investigations. [Formerly EES 210] Content varies according to location and disciplinary focus. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (MNS)

EES 3891. Special Topics. [Formerly EES 290] Topics vary. May be repeated for credit more than once by permission of the director of undergraduate studies. Students may enroll in more than one section of this course each semester. Prerequisite: 1510. [3] (No AXLE credit)

EES 4420. Geomorphology. [Formerly EES 261] Analysis of the Earth’s landforms, their morphology, history, and the processes that form them. The building of relief and its subsequent transformation by geologic processes on hillslopes, rivers, coasts, wetlands, and glaciers. The natural history and human impacts on land forms. Field trips. Familiarity with basic physics (mechanics) is expected. Prerequisite: 1510. [3] (MNS)

EES 4550. Transport Processes in Earth and Environmental Systems. [Formerly EES 255] Principles of conservation and constitutive transport laws; classic and emerging styles of modeling natural systems. Prior study of basic calculus (functions, derivatives, integrals) and physics (mechanics) is expected. Prerequisite: senior or graduate standing with a
major in Earth and Environmental Sciences, Biological Sciences, Chemistry, Mathematics, Physics, or the School of Engineering. [3] (MNS)

EES 4600. Geochemistry. [Formerly EES 260] Application of chemistry to study the distribution and cycling of elements in the crust of the earth. Includes chemical bonding and crystallization, phase rules and phase diagrams, chemical equilibria, theories on the origin of elements, earth, ocean, atmosphere, and crust. Prerequisite: 3250 and CHEM 1602. [3] (MNS)

EES 4680. Paleoclimates. [Formerly EES 268] Fluctuations in Earth’s climate with an emphasis on the past 700 million years. Forcings and feedback that influence climate and drive change. Techniques used to reconstruct past climate change using marine and terrestrial geologic deposits and geochronologic methods. Prerequisite: 1510 and 2510. [3] (MNS)

EES 4750. Sustainability: An Environmental Science Perspective. [ Formerly EES 275] Principles, problems, and solutions of environmental sustainability, with a focus on the links among the environment, society, and economy. Prerequisite: junior standing. [3] (MNS)

EES 4760. Agent- and Individual-Based Computational Modeling. Applications in natural, social, and behavioral sciences and engineering. Designing, programming, and documenting models. Using models for experiments. Examples from environmental science, ecology, economics, urban planning, and medicine. Familiarity with basic statistics and proficiency in algebra are expected. [3] (MNS)

EES 4820. Paleoeological Methods. [Formerly EES 282] Tools used to interpret past environments and climates, including plant microfossils, pollen and phytoliths, vertebrate morphology, and dental microwear and mesowear. Geochemical tools such as stable isotopes and rare earth elements. Integrating methods for paleontological and anthropological studies, including the use of databases and meta-analyses. Readings from primary sources. Serves as repeat credit for students who completed 390 section 4 in spring 2010. Prerequisite: 1510. [3] (MNS)

EES 4961. Senior Seminar. [Formerly EES 299] Integrating concepts and information from diverse fields. Offered on a graded basis only. Limited to seniors in the final semester of the major. [1] (No AXLE credit)

EES 4996. Senior Honors Seminar I. Research methods and scientific writing and communication, including work towards senior honors project, thesis, and oral presentation. Open only to senior departmental honors candidates. Does not count toward minimum requirements for major. Corequisite: 4998 [1] (No AXLE Credit)

EES 4998. Senior Honors Research. [Formerly EES 292A] Independent research under faculty supervision that culminates in an oral presentation and written thesis submitted to the faculty. Open only to departmental honors candidates. Does not count toward minimum requirements for the major. [2] (No AXLE credit)

EES 4999. Senior Honors Research. [Formerly EES 292B] Independent research under faculty supervision that culminates in an oral presentation and written thesis submitted to the faculty. Open only to departmental honors candidates. Does not count toward minimum requirements for the major. [2] (No AXLE credit)
ECON 2260. International Economics. Causes, consequences, and conduct of economic interactions among sovereign nations. Trade in goods and services; international monetary and financial interactions; winners and losers; exchange rates and the balance of payments; economic organizations. Offered on a graded basis only. Prerequisite: 1010 and 1020. [3] (SBS)

ECON 2300. Money and Banking. [Formerly ECON 209] A study of commercial banks and other intermediaries between savers and investors in the United States, including the government's role as money creator, lender, and regulator of private credit, and the effects of financial institutions on aggregate economic activity. Prerequisite: 1010 and 1020. [3] (SBS)

ECON 2890. Special Topics. [Formerly ECON 249] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 1010 and 1020. [3] (No AXLE credit)

ECON 3012. Microeconomics. Consumer choice and firm behavior from the fundamentals of preference and production theory. Calculus-based optimization. Price-determination, analysis of market equilibrium, perfect competition and the effect of market power in monopolies and oligopolies. Efficiency, welfare, and market failures. No credit for students who have completed 3010. Prerequisite: 1010, 1020, and either MATH 1201 or 1301. [3] (SBS)

ECON 3020. Intermediate Macroeconomic Theory. [Formerly ECON 232] National income accounting and analysis. Classical, Keynesian, and contemporary models determining national income, employment, liquidity, price level, and economic growth. No credit for graduate students in economics. Prerequisite: 1010, 1020, and either MATH 1100, 1200, or 1300. [3] (SBS)

ECON 3022. Macroeconomics. Contemporary models of national income, employment, interest rates, price level, and economic growth. Decisions underlying consumption and investment behavior, as well as the effect of government policies. No credit for students who have completed 3020. Prerequisite: 1010, 1020, and either MATH 1201 or 1301. [3] (SBS)

ECON 3032. Applied Econometrics. Quantitative economic analysis with emphasis on multivariate regression. Measurement, specification, estimation, inference, prediction, and interpretation of econometric models. Experience with data and computer applications. No credit for students who have completed 3035 or 3050. Prerequisite: 1020; either 1500, 1510, or both MATH 2820L and either MATH 2810 or 2820; and either Math 1201 or 1301. [3] (SBS)

ECON 3035. Econometric Methods. Properties and problems in estimating economic relationships with multiple regression. Statistical and econometric theory to address empirical questions. Hands-on experience with economic data analysis with programming in statistical software. No credit for students who have completed 3032 or 3050. Prerequisite: 1020, either 1500, 1510, or both MATH 2820L and either MATH 2810 or 2820; and either Math 1201 or 1301. [3] (SBS)

ECON 3050. Introduction to Econometrics. [Formerly ECON 253] Quantitative methods of economic analysis. Measurement, specification, estimation, and interpretation of economic models. Econometric computation using microcomputers. No credit for students who have earned credit for 3032 or 3035. Not offered after 2019-20. Prerequisite: 3010 or 3012 and either 1500 or 1510; or MATH 2820L with either MATH 2810 or MATH 2820. [3] (SBS)

ECON 3100. Wages, Employment, and Labor Markets. [Formerly ECON 251] Theories of wages and employment, dual labor markets, internal labor markets, and labor's share of national income. Empirical studies of labor mobility, the effects of unions on relative wages and resource allocation, occupational and industrial wage differentials, and selected labor markets. Prerequisite: 3010. [3] (SBS)

ECON 3160. Economic History of Europe. [Formerly ECON 271] Sources of Western European economic progress. Organization of overseas merchant empires, origins of the Industrial Revolution, the role of property rights, demographic patterns, and changing living standards. Prerequisite: 3010. [3] (SBS)

ECON 3230. Urban Economics. [Formerly ECON 279] Urban growth, development of suburbs, location of firms, housing markets, transportation, property taxes, and local government services. Offered on a graded basis only. Prerequisite: 3010. [3] (SBS)

ECON 3250. Industrial Organization. [Formerly ECON 274] Models of market structure and behavior from monopoly and oligopoly to perfect competition. Strategic interaction between a firm and its customers and between a firm and its competitors. Firm practices and government policies that promote or hinder the efficient operation of markets. Offered on a graded basis only. Prerequisite: 3010. [3] (SBS)

ECON 3270. Economics of Information and Communications Technology. The Internet, cloud computing, social networks, e-commerce, and Internet telephony as influencers of commerce and consumer welfare. Streaming content, big data, informatics, and open source software in economic perspective. Property rights, competition, and regulation in cyberspace. No credit for students who have earned credit for 3893-01 offered spring 2016 or 293-01 offered spring 2015. Prerequisite: 3010. [3] (SBS)

ECON 3330. Economics of Risk. Decision making under risk and uncertainty. Expected utility, risk aversion, and the value of information. Investments, insurance, and lotteries. Moral hazard and adverse selection. Prospect theory. No credit for students who have earned credit for 2893-01 offered fall 2016. Prerequisite: 3010 or either 1500 or 1510; or MATH 2820L with either MATH 2810 or Math 2820. [3] (SBS)

ECON 3600. International Trade. [Formerly ECON 263] International trade in goods and services. Patterns of trade; gains and losses from trade, tariffs, and other commercial policies; economic integration; and
international factor movements. Offered on a graded basis only. No credit for students who have earned credit for 7600. Prerequisite: 3010. [3] (SBS)

ECON 3610. International Finance. [Formerly ECON 264] Economics of international monetary, financial, and macroeconomic relationships. Effects of monetary and fiscal policies in open economies, balance of payments, exchange rate determination, and international monetary institutions. Prerequisite: 3020. [3] (SBS)

ECON 3650. Development Economics. [Formerly ECON 288] Determinants of national economic growth for pre-industrial and newly industrial countries. Inequality and poverty. Imperfect credit markets and microfinance. Political constraints and corruption. Policy issues relevant to developing economics. Prerequisite: 3010 and either 1500, 1510, 3050, or MATH 2821. [3] (INT)

ECON 3698. Junior Honors Research. Honors thesis proposal under the supervision of a thesis adviser and the Director of Honors. Open only to junior majors with the approval of the Director of Honors. Prerequisite: 3010. [1] (No AXLE credit)

ECON 3851. Independent Study in Economics. [Formerly ECON 291A] A program of independent reading in economics, arranged in consultation with an adviser. Limited to students having written permission from an instructor and the director of undergraduate studies. Prerequisite: 3010. [Variable credit: 1-3 each semester, or 1-6 for departmental honors candidates; maximum of 12 hours in 3851 and 3852 combined for departmental honors students; maximum of 6 hours in 3851 and 3852 combined for other students] (No AXLE credit)

ECON 3852. Independent Study in Economics. [Formerly ECON 291B] A program of independent reading in economics, arranged in consultation with an adviser. Limited to students having written permission from an instructor and the director of undergraduate studies. Prerequisite: 3010. [Variable credit: 1-3 each semester, or 1-6 for departmental honors candidates; maximum of 12 hours in 3851 and 3852 combined for departmental honors students; maximum of 6 hours in 3851 and 3852 combined for other students] (No AXLE credit)

ECON 3893. Selected Microeconomic Topics. [Formerly ECON 293] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3010. [3] (No AXLE credit)

ECON 3894. Selected Macroeconomic Topics. [Formerly ECON 294] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3020. [3] (No AXLE credit)

ECON 4050. Topics in Econometrics. [Formerly ECON 284] Emphasis on applications. May include generalized method of moments, empirical likelihood, resampling methods, and nonparametric techniques. Prerequisite: 3050. [3] (SBS)

ECON 4210. Law and Economics. [Formerly ECON 285] The influence of legal rules and institutions on the behavior of individuals and on economic efficiency and equity. Applications from civil procedure as well as property, contract, tort, and criminal law. Offered on a graded basis only. Prerequisite: 3010 and either 1500, 1510, 3050, or MATH 2821. [3] (SBS)

ECON 4220. Social Choice Theory. [Formerly ECON 255] Strategic and non-strategic social choice theory. Preference aggregation, formal models of voting, and matching. Prerequisite: 3010 or PHIL 3003 or any Mathematics course numbered 2500 or above. [3] (SBS)

ECON 4260. Game Theory with Economic Applications. [Formerly ECON 273] Rational decision-making in non-cooperative, multi-person games. Single play and repeated games with complete and incomplete information. Economic applications of games, such as auctions, labor-management bargaining, pricing and output decisions in oligopoly, and common property resources. Prerequisite: 3010. [3] (SBS)

ECON 4510. Seminar in Macroeconomic Policy. [Formerly ECON 256] Intensive study of three or four current problems in economic policy. Studies in topics such as macroeconomic policy for the year ahead, financial market issues, international economic policy issues. Repeat credit for students who have completed 4510W. Limited to majors in economics and public policy. Prerequisite: 3010 and 3020. [3] (SBS)

ECON 4510W. Seminar in Macroeconomic Policy. [Formerly ECON 256W] Intensive study of three or four current problems in economic policy. Studies in topics such as macroeconomic policy for the year ahead, financial market issues, international economic policy issues. Repeat credit for students who have completed 4510. Limited to majors in economics and public policy. Prerequisite: 3010 and 3020. [3] (SBS)

ECON 4530. Seminar in Microeconomic Policy. [Formerly ECON 257] Intensive study of three or four current problems in microeconomic policy. Repeat credit for students who have completed 4530W. Limited to majors in economics and public policy. Prerequisite: 3010. [3] (SBS)

ECON 4530W. Seminar in Microeconomic Policy. [Formerly ECON 257W] Intensive study of three or four current problems in microeconomic policy. Repeat credit for students who have completed 4530. Limited to majors in economics and public policy. Prerequisite: 3010. [3] (SBS)

ECON 4540W. Economics of Conflict. [Formerly ECON 277W] Economic relationships that appropriate value from other parties. War, crime, litigation, family quarrels, and rent-seeking. The visible hand, principal-agent problems, and negative sum games. Serves as repeat credit for students who completed 257W section 3 in spring 2010 and section 1 in fall 2010. Prerequisite: 3010. [3] (SBS)

ECON 4550. Seminar in Sports Economics. [Formerly ECON 280] Issues and debates. Offered on a graded basis only. Prerequisite: 2180, 3010. [3] (SBS)

ECON 4981. Honors Seminar. [Formerly ECON 295A] Discussion of selected topics and senior thesis research. Open only to seniors in the departmental honors program. Prerequisite: 3010. [1] (No AXLE credit)

ECON 4982. Honors Seminar. [Formerly ECON 295B] Discussion of selected topics and senior thesis research. Open only to seniors in the departmental honors program. Prerequisite: 3010. [1] (No AXLE credit)

ECON 4998. Senior Thesis. [Formerly ECON 292A] Limited to and required of all candidates for departmental honors. Prerequisite: 3010. [1-3] (No AXLE credit)

ECON 4999. Senior Thesis. [Formerly ECON 292B] Limited to and required of all candidates for departmental honors. Prerequisite: 3010. [1-3] (No AXLE credit)

English

ENGL 1001. Commons Seminar. [Formerly ENGL 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ENGL 1100. Composition. [Formerly ENGL 100] For students who need to improve their writing. Emphasis on writing skills, with some analysis of modern nonfiction writing. [3] (No AXLE credit)

ENGL 1111. First-Year Writing Seminar. [Formerly ENGL 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion,
oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

**ENGL 1210W. Prose Fiction: Forms and Techniques.** [Formerly ENGL 104W] Close study of short stories and novels and written explication of these forms. [3] (HCA)

**ENGL 1220W. Drama: Forms and Techniques.** [Formerly ENGL 105W] Close study of representative plays of the major periods and of the main formal categories (tragedy, comedy) and written explication of these forms. [3] (HCA)

**ENGL 1230W. Literature and Analytical Thinking.** [Formerly ENGL 102W] Close reading and writing in a variety of genres drawn from several periods. Productive dialogue, persuasive argument, and effective prose style. Offered on a graded basis only. [3] (HCA)

**ENGL 1240. Beginning Nonfiction Workshop.** Writing various forms of prose nonfiction. [3] (HCA)

**ENGL 1250W. Introduction to Poetry.** [Formerly ENGL 116W] Close study and criticism of poems. The nature of poetry, and the process of literary explication. [3] (HCA)

**ENGL 1260W. Introduction to Literary and Cultural Analysis.** [Formerly ENGL 118W] Analysis of a range of texts in social, political, and aesthetic contexts. Interdisciplinary study of cultural forms as diverse as poetry, advertisement, and film. [3] (HCA)

**ENGL 1270W. Introduction to Literary Criticism.** [Formerly ENGL 117W] Selected critical approaches to literature. [3] (HCA)

**ENGL 1280. Beginning Fiction Workshop.** [Formerly ENGL 122] Introduction to the art of writing prose fiction. [3] (HCA)

**ENGL 1290. Beginning Poetry Workshop.** [Formerly ENGL 123] Introduction to the art of writing poetry. [3] (HCA)

**ENGL 1300W. Intermediate Composition.** [Formerly ENGL 120W] A writing course including the analysis of essays from a variety of disciplines. [3] (HCA)

**ENGL 2200. Foundations of Literary Study.** [Formerly ENGL 199] Fundamentals of literary study: close reading; analytic writing; historical context; abstract reasoning in theory; creative expression. [3] (HCA)

**ENGL 2310. Representative British Writers.** [Formerly ENGL 208A] Selections from British literature with attention to contexts and literary periods. From the beginnings to 1660. Provides a broad background for more specialized courses and is especially useful for students considering advanced studies in literature. [3] (HCA)

**ENGL 2311. Representative British Writers.** [Formerly ENGL 208B] Selections from British literature with attention to contexts and literary periods. From 1660 to the present. Provides a broad background for more specialized courses and is especially useful for students considering advanced studies in literature. [3] (HCA)

**ENGL 2316. Representative American Writers.** [Formerly ENGL 211] Selections from the entire body of American literature with attention to contexts and literary periods. Provides a broad background for more specialized courses and is especially useful for students considering advanced studies in literature. Repeat credit for students who have completed 2316W. [3] (US)

**ENGL 2316W. Representative American Writers.** [Formerly ENGL 211W] Selections from the entire body of American literature with attention to contexts and literary periods. Provides a broad background for more specialized courses and is especially useful for students considering advanced studies in literature. Repeat credit for students who have completed 2316. [3] (US)

**ENGL 2318. World Literature, Classical.** [Formerly ENGL 236] Great Books from the points of view of literary expression and changing ideologies: Classical Greece through the Renaissance. Repeat credit for students who have completed 2318W. [3] (HCA)

**ENGL 2318W. World Literature, Classical.** [Formerly ENGL 236W] Great Books from the points of view of literary expression and changing ideologies: Classical Greece through the Renaissance. Repeat credit for students who have completed 2318. [3] (HCA)

**ENGL 2319. World Literature, Modern.** [Formerly ENGL 237] Great Books from the points of view of literary expression and changing ideologies: The 17th century to the contemporary period. Repeat credit for students who have completed 2319W. [3] (HCA)

**ENGL 2319W. World Literature, Modern.** [Formerly ENGL 237W] Great Books from the points of view of literary expression and changing ideologies: The 17th century to the contemporary period. Repeat credit for students who have completed 2319. [3] (HCA)

**ENGL 2320. Southern Literature.** [Formerly ENGL 212] The works of Southern writers from Captain Smith to the present. Topics such as the Plantation Myth, slavery and civil war, Agrarianism, and "post-southernism." Authors may include Poe, Twain, Cable, Faulkner, Welty, Percy, Wright. [3] (HCA)

**ENGL 3210. Intermediate Nonfiction Writing.** [Formerly ENGL 200] Instruction in the forms and techniques of nonfiction writing. Admission by consent of instructor. May be repeated once for credit. [3] (HCA)

**ENGL 3215. The Art of Blogging.** Conventions of the rapidly evolving literary form of blogging. Creation and maintenance of a personal blog. Critique of online journalism across many genres, including activism, politics, science, and arts and culture. Interaction with professional bloggers. No credit for students who have earned credit for 200-03 offered fall 2014 or for 200-02 offered fall 2013. [3] (HCA)

**ENGL 3220. Advanced Nonfiction Writing.** [Formerly ENGL 201] Further instruction in the form and techniques of nonfiction writing. Admission by consent of instructor. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3220] (HCA)

**ENGL 3230. Intermediate Fiction Workshop.** [Formerly ENGL 204] Instruction in fiction writing. Supplementary readings that illustrate traditional aspects of prose fiction. Admission by consent of instructor. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3230] (HCA)

**ENGL 3240. Advanced Fiction Workshop.** [Formerly ENGL 205] Continuing instruction in fiction writing. Admission by consent of instructor. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3240] (HCA)

**ENGL 3250. Intermediate Poetry Workshop.** [Formerly ENGL 206] Instruction in poetry writing. Supplementary readings illustrating traditional aspects of poetry. Admission by consent of instructor. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3250] (HCA)

**ENGL 3260. Advanced Poetry Workshop.** [Formerly ENGL 207] Continuing instruction in poetry writing. Admission by consent of instructor. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3260] (HCA)

**ENGL 3280. Literature and the Craft of Writing.** [Formerly ENGL 202] The forms and techniques of creative writing. Contemporary practices in fiction and poetry in historical context. [3] (HCA)

**ENGL 3310. Anglo-Saxon Language and Literature.** [Formerly ENGL 219] The study of the Old English language. Selected historical and literary prose. Short heroic poems. Serves as repeat credit for students who completed 296a before fall 2012. [3] (HCA)

ENGL 3316. Medieval Literature. [Formerly ENGL 221] The drama, lyric, romance, allegory, and satire of the fourteenth and fifteenth centuries, studied in the context of the period's intellectual climate and social change. [3] (HCA)

ENGL 3335. English Renaissance Poetry. Development of the English poetic tradition from 1500-1700. Repeat credit for students who have earned credit for 3335W. [3] (HCA)

ENGL 3336. Shakespeare. [Formerly ENGL 209A] About twenty of the major plays considered in chronological order over two terms, with emphasis on Shakespeare's development as a dramatic artist. Primarily comedies and histories. [3] (HCA)

ENGL 3337. Shakespeare. [Formerly ENGL 209B] About twenty of the major plays considered in chronological order over two terms, with emphasis on Shakespeare's development as a dramatic artist. Primarily tragedies and romances. [3] (HCA)

ENGL 3340. Shakespeare: Representative Selections. [Formerly ENGL 210] A representative selection of plays, including histories, tragedies, comedies, and romances, designed to give the student a sense of the full range of Shakespeare's work in one semester. Repeat credit for students who have completed 3340W. [3] (HCA)

ENGL 3340W. Shakespeare: Representative Selections. [Formerly ENGL 210W] A representative selection of plays, including histories, tragedies, comedies, and romances, designed to give the student a sense of the full range of Shakespeare's work in one semester. Repeat credit for students who have completed 3340. [3] (HCA)

ENGL 3346. Seventeenth-Century Literature. [Formerly ENGL 249] Poetry and prose from 1600 to the English Civil War, such as Metaphysical and Cavalier poetry, essays, romances, and satires. Authors may include Bacon, Cavendish, Donne, Herbert, Jonson, Lanier, Marvell, and Wroth. [3] (HCA)

ENGL 3348. Milton. [Formerly ENGL 251] The early English poems; Paradise Lost, Paradise Regained, and Samson Agonistes; the major prose. [3] (HCA)

ENGL 3360. Restoration and the Eighteenth Century. [Formerly ENGL 252A] Explorations of the aesthetic and social world of letters from the English Civil War to the French Revolution. Drama, poetry, and prose, including Restoration plays, political poetry, satire, travel narratives, and tales. Authors may include Behn, Dryden, Congreve, Addison, Swift, Finch, Pope, Fielding, Burney, Johnson, and Inchbald. Earlier writers. [3] (HCA)

ENGL 3361. Restoration and the Eighteenth Century. [Formerly ENGL 252B] Explorations of the aesthetic and social world of letters from the English Civil War to the French Revolution. Drama, poetry, and prose, including Restoration plays, political poetry, satire, travel narratives, and tales. Authors may include Behn, Dryden, Congreve, Addison, Swift, Finch, Pope, Fielding, Burney, Johnson, and Inchbald. Later writers. [3] (HCA)

ENGL 3370. The Bible in Literature. [Formerly ENGL 282] An examination of ways in which the Bible and biblical imagery have functioned in literature and fine arts, in both "high culture" and popular culture, from Old English poems to modern poetry, drama, fiction, cartoons, and political rhetoric. Readings include influential biblical texts and a broad selection of literary texts drawn from all genres and periods of English literature. [3] (HCA)

ENGL 3610. The Romantic Period. [Formerly ENGL 254A] Prose and poetry of the Wordsworths, the Shelleys, Byron, Keats, and others. [3] (HCA)

ENGL 3611. The Romantic Period. [Formerly ENGL 254B] Continuation of 3610. Prose and poetry of the Wordsworths, the Shelleys, Byron, Keats, and others. [3] (HCA)

ENGL 3614. The Victorian Period. [Formerly ENGL 255] Works of Tennyson, Browning, Arnold, Hardy, and others. [3] (HCA)

ENGL 3618. The Nineteenth-Century English Novel. [Formerly ENGL 251] The study of selected novels of Dickens, Thackeray, Emily Brontë, George Eliot, George Meredith, Thomas Hardy, and other major novelists of the period. [3] (HCA)

Emphasis on literary and musical analysis and interpretation. No musical background assumed. Repeat credit for students who have completed MUSL 2330. [3] (HCA)

ENGL 3740. Critical Theory. [Formerly ENGL 244] Major theoretical approaches that have shaped critical discourse, the practices of reading, and the relation of literature and culture. [3] (HCA)

ENGL 3742. Feminist Theory. [Formerly ENGL 246] An introduction to feminist theory. Topics include cross-cultural gender identities; the development of “masculinity” and “femininity”; racial, ethnic, class, and national differences; sexual orientations; the function of ideology; strategies of resistance; visual and textual representations; the nature of power. [3] (P)

ENGL 3746. Workshop in English and History. [Formerly ENGL 280] (Also listed as History 3746) Team-taught by a historian and an interdisciplinary scholar. Explores intersection of disciplines through close examination of texts in historical context. Preference to students majoring in the English major. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

ENGL 3851. Independent Study. [Formerly ENGL 289A] Designed primarily for majors. Projects are arranged with individual professors and must be confirmed with the director of undergraduate studies within two weeks of the beginning of classes; otherwise the student will be dropped from the 3851 rolls. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of ENGL 3851 and 3852] (No AXLE credit)

ENGL 3852. Independent Study. [Formerly ENGL 289B] Designed primarily for majors. Projects are arranged with individual professors and must be confirmed with the director of undergraduate studies within two weeks of the beginning of classes; otherwise the student will be dropped from the 3852 rolls. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of ENGL 3851 and 3852] (No AXLE credit)

ENGL 3890. Movements in Literature. [Formerly ENGL 272] Studies in intellectual currents that create a group or school of writers within a historical period. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3890W. Movements in Literature. [Formerly ENGL 272W] Studies in intellectual currents that create a group or school of writers within a historical period. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3891. Special Topics in Creative Writing. [Formerly ENGL 291] Advanced instruction in creative writing in emerging modes and hybrid genres. [3] (HCA)

ENGL 3892. Problems in Literature. [Formerly ENGL 272] Studies in common themes, issues, or motifs across several historical periods. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3899W. Special Topics in English and American Literature. [Formerly ENGL 288W] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3904. Major Figures in Literature. [Formerly ENGL 274] Studies in the works of one or two writers with attention to the development of a writer’s individual canon, the biographical dimension of this work, and critical responses to it. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3904W. Major Figures in Literature. [Formerly ENGL 274W] Studies in the works of one or two writers with attention to the development of a writer’s individual canon, the biographical dimension of this work, and critical responses to it. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3908. Special Topics in Investigative Writing in America. [Formerly ENGL 288] Course will be taught by a distinguished visiting journalist from a major U.S. newspaper or magazine. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [1-3; maximum of 6 credits total for all semesters of ENGL 288] (No AXLE credit)

ENGL 3908W. Special Topics in Investigative Writing in America. [Formerly ENGL 288W] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3908W. Special Topics in English and American Literature. [Formerly ENGL 288W] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

ENGL 3909. Special Topics in Film. [Formerly ENGL 269] Theory and practice of cinema as an aesthetic and cultural form. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course per semester. [3; maximum of 6 credits total for all semesters of ENGL 3909] (HCA)

ENGL 4690. Senior Year Capstone. [Formerly ENGL 299] Topic chosen by the instructor. Prerequisite: 2200. [3] (No AXLE credit)

ENGL 4798. Honors Thesis. [Formerly ENGL 289E] Prerequisite: 4998. [3] (No AXLE credit)

Environmental and Sustainability Studies

ENVS 1001. Commons Seminar. [Formerly ENVS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ENVS 4961. Special Topics. Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

European Studies

EUS 1001. Commons Seminar. [Formerly EUS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

EUS 2203. The Idea of Europe. [Formerly EUS 203] European identity from ancient ideals to its reality as the European Union. Emphasis on Europe as cultural construct and definable space. Historical, political, religious, philosophical, and cultural movements for Europe’s claim to legitimacy. [3] (INT)

EUS 2240. Topics in European Studies. [Formerly EUS 240] Topics of special interest on modern European culture or society. May be repeated for credit when topics vary. [3] (No AXLE credit)

EUS 2260. European Cities. [Formerly EUS 260] The history, politics, society, or culture of important European cities. Content varies according to location and disciplinary focus. The course is taught during the May Session in Europe with the cities themselves complementing daily lectures and site visits. Course requirements include preliminary work on campus, a research paper, and one or more examinations. May be repeated for credit in different cities. [3] (INT)

EUS 3850. Independent Readings and/or Research. [Formerly EUS 289A] Independent readings and/or research on approved topics relating to modern European society and culture. [Variable credit: 1-3 each semester, maximum of 6 hours in 3850 and 3851 combined] (No AXLE credit)

EUS 3851. Independent Readings and/or Research. [Formerly EUS 289B] Independent readings and/or research on approved topics relating to modern European society and culture. [Variable credit: 1-3 each semester, maximum of 6 hours in 3850 and 3851 combined] (No AXLE credit)

EUS 4960. Senior Tutorial. [Formerly EUS 250] Supervised readings, joint discussions, and independent research on a modern European topic to be selected in consultation with the director of European Studies. Open only to juniors and seniors. [3] (No AXLE credit)

EUS 4998. Senior Honors Research. [Formerly EUS 299A] Open only to seniors who have been admitted to the European Studies departmental honors program. [3] (No AXLE credit)

Financial Economics

FNEC 2600. Managerial Accounting. [Formerly FNEC 220] Selected topics in managerial accounting. Prerequisite: 1600 or 1605. [3] (SBS)

FNEC 2700. Corporate Finance. [Formerly FNEC 240] Investment and financial decisions faced by firms. Theoretical basis of corporate decision-making. Various accounting documents and the alternative objectives of firms, their management, and their owners. Attributes of firms that affect market value. How investment decisions and methods used by firms to finance these investments affect firm value. Prerequisite: 1600 and either ECON 1500, 1510, MATH 2820, PSY 2100, or PSY-PC 2101. [3] (SBS)

FNEC 3710. Corporate Valuation. Intrinsic, relative, and contingent valuation methodologies. Theoretical and market basis for investment. Valuation project. Prerequisite: 2700 or 2705. [3] (SBS)

FNEC 3851. Independent Study in Financial Economics. [Formerly FNEC 291A] A program of independent readings in financial economics arranged in consultation with an advisor. Prerequisite: written permission of an instructor and the program director. No credit for graduate students. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of FNEC 291A and 291B] (No AXLE credit)

FNEC 3852. Independent Study in Financial Economics. [Formerly FNEC 291B] A program of independent readings in financial economics arranged in consultation with an advisor. Prerequisite: written permission of an instructor and the program director. No credit for graduate students. May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of FNEC 3851 and 3852] (No AXLE credit)

French

FREN 1001. Commons Seminar. [Formerly FREN 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

FREN 1101. Introduction to French in the World. [Formerly FREN 101A] Reading, writing, speaking, and listening through an exploration of the French-speaking world. For students who have studied little or no French. No credit for students who have earned credit for a more advanced French language course. [3] (No AXLE credit)

FREN 1102. Introduction to French in the World. [Formerly FREN 101B] Continuation of 1101. Study of the language through an exploration of the French-speaking world. No credit for students who have earned credit for a more advanced French language course. [3] (INT)

FREN 1103. Accelerated Introduction to French in the World. [Formerly FREN 102] Intensive course for students who have studied one to three years of French. No credit for students who have earned credit for 1101, 1102, or a more advanced French language course. [3] (INT)

FREN 1111. First-Year Writing Seminar. [Formerly FREN 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

FREN 2203. Intermediate French Language and Cultures. French and Francophone cultures through readings, film, and discussion. Designed for students who have completed elementary-level French. No credit for students who have earned credit for a more advanced French language course. Prerequisite: 1102 or 1103. [3] (INT)

FREN 2501W. French Composition and Grammar. [Formerly FREN 201W] Prerequisite: 2203 or the equivalent. No graduate credit. No credit
Francophonie. Readings will be chosen from fictional and nonfictional works from Africa, Canada, the Caribbean, countries bordering the Indian Ocean, and Vietnam. Prerequisite: 2501W. [3] (P)

FREN 3286. Cultural Study Tour. [Formerly FREN 216] Preparation for excursions: discussions, readings, and presentations. Offered each summer in the Vanderbilt in France program. [1] (No AXLE credit)

FREN 3620. Age of Louis XIV. [Formerly FREN 261] Literature and society in the reign of Louis XIV. Authors include Mme de Lafayette, La Fontaine, Molière, Pascal, Racine, and Mme de Sévigné. Prerequisite: 2501W. [3] (HCA)

GRK 3110. Greek Lyric Poetry. [Formerly GRK 218] The Greek melic, elegiac, and iambic traditions, with an introduction to the Greek dialects and special emphasis on Archilochus, Tyrtaeus, Alcaeus, and Sappho. Prerequisite: 2202. [3] (HCA)

GRK 3850. Independent Study. [Formerly GRK 289] Designed for majors wanting to familiarize themselves with works and authors not covered in the regular curriculum. Prerequisite: 6 hours above 2202. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of GRK 3850] (No AXLE credit)

GRK 3890. Special Topics in Greek Literature. [Formerly GRK 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)

Hebrew

HEBR 1101. Elementary Hebrew. [Formerly HEBR 111A] Introduction to alphabet, the basics of grammar, and elementary conversation. Classes meet three times per week with an additional two hours a week required in the language laboratory. No credit for students who have earned credit for a more advanced Hebrew language course. Prerequisite: 1101. [4] (INT)

HEBR 1102. Elementary Hebrew. [Formerly HEBR 111B] Continuation of 1101. Greater stress upon conversation and grammar. Classes meet three times a week with an additional two hours a week required in the language laboratory. No credit for students who have earned credit for a more advanced Hebrew language course. Prerequisite: 1101. [4] (INT)

HEBR 2201. Intermediate Hebrew. [Formerly HEBR 113A] Introduction to modern Hebrew reading, conversation, advanced grammar, and conversation. Classes meet three times a week with an additional three hours a week spent in independent work in the language laboratory. No credit for students who have earned credit for a more advanced Hebrew language course. Prerequisite: 1102. [3] (INT)

HEBR 2202. Intermediate Hebrew. [Formerly HEBR 113B] Continuation of 2201. Greater emphasis on reading and writing. Classes meet three times a week with an additional three hours a week spent in independent work in the language laboratory. No credit for students who have earned credit for a more advanced Hebrew language course. Prerequisite: 2201. [3] (INT)

HEBR 2301. Advanced Hebrew Grammar. [Formerly HEBR 201] Emphasis on syntax and grammar supplemented by listening, speaking, and reading. No credit for students who have earned credit for a more advanced Hebrew language course. Prerequisite: 2202. [3] (INT)

HEBR 3851. Independent Study in Modern Hebrew. [Formerly HEBR 289A] May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total in HEBR 3851 and 3852] (No AXLE credit)

HEBR 3852. Independent Study in Modern Hebrew. [Formerly HEBR 289B] May be repeated for a total of 6 credits in 3851 and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total in HEBR 3851 and 3852] (No AXLE credit)

Hindi-Urdu

HNUR 1101. Elementary Hindi-Urdu I. Speaking-listening skills and basic grammar. Introduction to reading and writing in Devanagari (Hindi) and Nastaliq (Urdu) scripts and to South Asian cultural materials. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. [5] (No AXLE credit)

HNUR 1102. Elementary Hindi-Urdu II. Reading, writing, speaking, and listening. Cultural contexts of speaking Hindi-Urdu. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. Prerequisite: 1101. [5] (INT)

HNUR 2201. Intermediate Hindi-Urdu I. Conversational skills, writing, vocabulary, and grammar. Reading texts in Devanagari (Hindi) and Nastaliq (Urdu) scripts. Discussion of cultural materials in Hindi-Urdu. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. Prerequisite: 1102. [5] (INT)

HNUR 2202. Intermediate Hindi-Urdu II. Reading, writing, speaking, and listening with authentic materials. Common and specialized vocabulary. Cultural contexts of spoken Hindi-Urdu. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. Prerequisite: 2201. [5] (INT)

HNUR 3301. Advanced Hindi-Urdu I. Reading, writing, speaking, and listening with authentic materials. Advanced vocabulary, literary, and cultural studies. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. Prerequisite: 2202. [3] (INT)

HNUR 3302. Advanced Hindi-Urdu II. Reading, writing, speaking, and listening with authentic materials. Advanced vocabulary, literary, and cultural studies. No credit for students who have earned credit for a more advanced Hindi-Urdu language course. Prerequisite: 3301. [3] (INT)

History

HIST 1001. Commons Seminar. [Formerly HIST 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

HIST 1060. Premodern China. [Formerly HIST 106] The development of Chinese civilization from ancient times to the seventeenth century. The birth and development of the Chinese identity; Confucianism, Taoism and Buddhism; the moral, military, and bureaucratic foundations of the imperial institution; the Silk Road; eunuchs and concubines; the commercial revolution. [3] (INT)

HIST 1280. Africa since 1800: The Revolutionary Years. [Formerly HIST 128] Political, economic, and social patterns in Sub-Saharan Africa from 1800 to the present. The transition from traditional states and societies, through the colonial interlude and the quest for independence to the modern national setting with its problems of development. Emphasis on the peoples of Nigeria and South Africa. [3] (INT)

HIST 1360. Western Civilization since 1700. [Formerly HIST 136] European history from the age of the Enlightenment to the present day. [3] (INT)

HIST 1365W. How to Start Your Own Country: Sovereignty and State-Formation in Modern History. Seventeenth century to present. Sovereignty, statehood, and state-formation. Case studies of the Spanish Empire, British East India Company, Hong Kong, Guantanamo Bay Naval Station, and Disney World. Offered on a graded basis only. [3] (INT)

HIST 1370. Colonial Latin America. [Formerly HIST 137] Survey of Latin American history from pre-Columbian times to the early nineteenth century. Iberian, Amerindian and African background; the conquest; construction of colonial society and institutions; wars for independence. [3] (INT)

HIST 1383. Slave Resistance in the Americas. Resistance across North and South America. Slave flight, marronage, and full-blown rebellion. Free black towns in Florida, Mexico, Panama, and Colombia created by former slaves. Problems of evidence and voice through primary sources of free and enslaved Africans and their descendants. Sources by historians and archaeologists. Art and material culture of rebels. Offered on a graded basis only. [3] (INT)

HIST 1385W. Disease and Disorder in the Atlantic World. Spanish Atlantic from Columbus through the Haitian Revolution. Smallpox, slavery, and rebellion. [3] (INT)

HIST 1395. The Underground Railroad. Runaway slaves and their assistance from free blacks, whites, and other slaves. Impact on the course of slavery. Mechanisms of slave holders to capture and return the enslaved. Offered on a graded basis only. [3] (US)

HIST 1410. U.S. 1877-1945: Reconstruction through World War II. [Formerly HIST 141] Economic, political, and social history during the era of industrialization, mass immigration, the rise of mass culture, the Great Depression, and the two world wars. [3] (US)

HIST 1420. U.S. Post-1945: Cold War to the Present. [Formerly HIST 142] Political, international, social, and cultural currents that have shaped contemporary America. [3] (US)

HIST 1425W. Body, Mind, and Soul: Elvis, Dylan, Springsteen and Postwar America. Rock and roll’s transformation of American culture. Focus on three pivotal artists and their role in the history of each of their breakthrough decades: the 1950s, 1960s, and 1970s. Readings and listenings on the African American roots of rock, the gendered dimensions of the genre, the role of dissent and accommodation in popular music. Issues of youth, alienation, religion, and individuality. [3] (US)

HIST 1440. African American History since 1877. [Formerly HIST 144] The political, socioeconomic, and intellectual history of African American people from the end of Reconstruction to the present. Special emphasis on African American cultural and institutional history and the twentieth-century protest movements. [3] (US)

HIST 1500. History of Modern Sciences and Society. [Formerly HIST 150] The end of the Scientific Revolution to the present. Sciences arising from the fields of Natural Philosophy (physics, astronomy, mathematics, and chemistry) and Natural History (geology and the life sciences). The clockwork universe, atomism and the Chemical Revolution; evolutionary theory (physical, geological, and biological); thermodynamics; and quantum theory. Colonial empires, industry, professional specialization, cultural modernism, and nuclear fear. [3] (P)

HIST 1510. The Scientific Revolution. [Formerly HIST 151] The production and dissemination of knowledge of the natural world during the period of the Scientific Revolution, covering roughly from 1450 to 1700. Cosmology and astrology, navigation, alchemy, religion and philosophy, and medicine. [3] (P)

HIST 1510L. Scientific Revolution Digital History Lab. Optional lab accompanying HIST 1510. Digital history tools and building digital projects. Prerequisite or corequisite: 1510. [1] (No AXLE credit)

HIST 1515. Virtual Reality and the Humanities. Workshop in humanistic dimensions of interactive immersive environments including video games and simulations. History and theory of the medium as well as tools and practices in their creation. [3] (HCA)

HIST 1580. Crime and Punishment in Early Modern Europe 1400-1800 CE. [Formerly HIST 158] Changing definitions of crime, the classification of criminals, and the nature of punishment. “Real” crimes such as vagrancy, theft, and murder; imaginary crimes such as Jewish ritual murder and witchcraft. Connections with long-term social, legal, and cultural transformations. [3] (HCA)

HIST 1640. History of American Capitalism. [Formerly HIST 164] The development of American capitalism from the colonial period to the twenty-first century. The reasons for and effects of capitalist growth; the ways in which a large, capitalist society emerged as an industrial and commercial leader and shaped the ways Americans produced and lived. The political, social, and cultural dimensions of economic change. The global context of American development. Serves as repeat credit for students who completed 294 section 3 in spring 2011. [3] (US)

HIST 1667. Famous American Trials. Salem witchcraft trials, Aaron Burr’s treason trial, Emmett Till murder trial, and O.J. Simpson’s murder trial as lenses to examine central themes in American culture, history, and memory. [3] (US)

HIST 1690. Sea Power in History. [Formerly HIST 169] U.S. Navy’s role in foreign and defense policies from the American Revolution to the present. Broad principles, concepts, and elements of sea power throughout history. Technological advances, interservice relations, strategies, and governmental policies pertaining to sea power. Designed to meet the NROTC requirement. Offered on a graded basis only. No credit for students who have earned credit for NS 2311. [3] (No AXLE credit)

HIST 1691. Evolution of Warfare. [Formerly HIST 169C] Antiquity to the present. Evolution of strategic principles. Influence of technological, economic, social, psychological, and political factors. Case studies from a soldier’s perspective. Repeat credit for students who have completed NS 2311. [3] (No AXLE credit)

HIST 1693. Fundamentals of Maneuver Warfare. [Replaces HIST 1692 Amphibious Warfare] Broad aspects of warfare and their interactions with maneuver warfare doctrine. Focus on the United States Marine Corps as the premier maneuver warfare force. Emphasis on current tactical, operational, and strategic implications of maneuver warfare practices. Case studies. Enrollment preference to NROTC students. Repeat credit for students who have completed HIST 169D or HIST 1692. [3] (No AXLE credit)

HIST 1700. Western Military History to 1815. [Formerly HIST 170] War in culture, politics, and society; technology, the Military Revolution and state-formation. [3] (INT)

HIST 1725W. United States and the Middle East. U.S. involvement in the Middle East with emphasis on the period after 1945. Special attention on the Israeli-Palestinian conflict. Offered on a graded basis only. [3] (US)

HIST 1740. The U.S. and the Vietnam War. [Formerly HIST 174] Origins of American involvement, the reasons for escalation, and the Vietnamese response to intervention. The impact on America’s domestic politics, the growth of the anti-war movement, and the economic, social, and cultural effects of the conflict. [3] (US)

HIST 1780W. Self and Society in the United States. Selfhood and identity development from the early Republic to the present. The role of race, class, and gender but also religion, politics, work, technology, and media in shaping selves in the United States. Readings include autobiographies, fiction, etiquette manuals, advertisements, and scientific tracts. Offered on a graded basis only. [3] (HCA)

HIST 2110. Crisis Simulation in East Asia. [Formerly HIST 204] Strategic motivations and behaviors of international actors. Simulations of the decision-making process during critical historical moments in the East Asian context through role-playing and video games. Offered on a graded basis only. [3] (INT)

HIST 2115. Play and Pleasure in Early Modern Japan. [Formerly HIST 205] Cultural history of Tokugawa Japan (1603-1868), with emphasis on daily life and popular entertainment in the capital of the warrior government, Edo (present-day Tokyo). Woodblock prints, pleasure quarters, kabuki theatre, commoner carnivals, and popular literature. [3] (INT)

HIST 2135. Russia: The U.S.S.R. and Afterward. [Formerly HIST 210] Russian history since the 1917 Revolution. Overview of the old regime; revolution and civil war; the Soviet “Roaring ‘20s”; Stalinism and the totalitarianized society; World War II. Postwar Soviet society and culture; de-Stalinization and the sixties generation; Gorbatchev, perestroika, and disintegration; contemporary history. [3] (INT)

HIST 2138. Blood Diamonds, Blood Oil, Commodities, and Conflicts in Africa. 1870s to the present. Role of diamonds, gold, rubber, and oil in the resulting conflicts in modern Africa. Multinational, mineral extraction, and politics. Poverty, war, child labor, and corruption. Local and international mining and mineral syndicates. Implications for Africans and their livelihoods. [3] (INT)

HIST 2150. India and the Indian Ocean. [Formerly HIST 212A] Cultures along the Indian Ocean coastline from Roman times to 1800, especially South Asia. Coastal societies and politics, Islam, pilgrimage and trade, economic zones, and cultural ties. Pirates, seafarers and merchants; diasporas and genealogies. The entry of European trading companies and debates on trade and empire. [3] (INT)

HIST 2155. Muhammad and Early Islam. [Formerly HIST 213] Early Arabian society, Judaism and Christianity in Arabia; Muhammad and the birth of Islam, the conquests, Islamization, Arabization; Jewish influences in early Islam, the medieval Islamic world. [3] (INT)

HIST 2160. Medicine in Islam. [Formerly HIST 216] Emergence of medicine in the Islamic world. Links with other traditions. Doctors and society; conventional medical practice in hospitals; prophetic medicine; Jewish and Christian doctors in Islam; pharmacology; developments in the nineteenth-century. No credit for students who have earned credit for 1111 section 21. [3] (INT)

HIST 2170. Islam and the Crusades. [Formerly HIST 217] Ideology, successes and failures; history and character of Crusader enterprises in the Holy Land and elsewhere. Muslim religious, political, ideological, and social reactions. Islamic culture and the West; relations among Crusaders, Muslims, and Jews. [3] (F)

HIST 2180. Islamic Narratives: Narratives of Islam. History and historiography in Arab Islam. Aims and uses of historical writing in the religious context. Comparison with other pre-modern cultures. Islamic and non-Islamic sources for Islamic history. Examples from the ancient world, early Islam, Middle Ages, and the political entity known as the Islamic State. [3] (HCA)

HIST 2190. Last Empire of Islam. [Formerly HIST 219] The Ottoman "long nineteenth century," 1789 to 1923. The Reforms (Tanzimat), state patriotism, intercommunal relations, national "awakenings," and the emergence of a public sphere. Historiographical issues, such as perceptions of the empire as the "Sick Man of Europe" and debates over its decline. [3] (INT)

HIST 2230. Medieval Europe, 1000-1350. [Formerly HIST 223] Economic expansion and the formation of national states; the medieval Church and the revival of learning in the twelfth and thirteenth centuries. [3] (INT)

HIST 2238. Crime and Criminal Law in Western Antiquity. Ancient Athens and Rome. Social values and the quest for justice through the legal system. Definition of offenses, procedures, and penalties. Impact of social, economic, and legal status as well as gender. No credit for students who have earned credit for CLAS 3160. [3] (SBS)

HIST 2240. Sex Law. Law concerning marriage, adultery, and homosexuality. Roman, Canon, and Civil Law from Antiquity to the present. [3] (INT)

HIST 2250. Reformation Europe. [Formerly HIST 225] The political, intellectual, and social conditions underlying the Protestant revolt. The Reformation of Luther, Calvin, Zwingli, Loyola, and other religious reformers considered within the context of the general developments of sixteenth-century history. [3] (INT)

HIST 2260. Revolutionary Europe, 1789-1815. [Formerly HIST 226] Political, cultural, and economic upheavals in the late eighteenth and early nineteenth centuries; the French Revolution and Napoleon, romanticism, and early industrialization. Emphasis on Britain, France, and Germany. [3] (INT)

HIST 2280. Europe, 1900-1945. [Formerly HIST 228] Political, socioeconomic, cultural, and colonial history of Europe from 1914 to the fall of Hitler. [3] (INT)

HIST 2290. Europe since 1945. [Formerly HIST 229] Origins of the Cold War; political and social transformations, East and West; the breakup of colonial empires; ideological and military tensions; intellectual and cultural trends. [3] (INT)

HIST 2293. Muslims in Modern Europe. Eighteenth century to the present. Eastern and Western Europe. Legal, political, and cultural integration and discrimination; questions of secularism and religious freedom; and gender, family law, and democracy. Muslim responses to modernity and formation of global Islamic movements. [3] (HCA)

HIST 2295. The Migrant Crisis in the Netherlands. From the eighteenth century to the present. Political, economic, social, cultural, and religious history of interactions between Dutch people and migrants in the
Netherlands. Migration and identity. Special attention to developments concerning Muslims in a changing Europe. Offered on a graded basis only. [3] (INT)

HIST 2300. Twentieth-Century Germany. [Formerly HIST 230] The turbulent history of Germany, as it went from authoritarian state to volatile democracy, to National Socialist dictatorship, to divided country, and to reunification. Special emphasis placed on the Nazi dictatorship, its origins and legacy. [3] (INT)

HIST 2340. Modern France. [Formerly HIST 234] The fall of Napoleon in 1815 to the present. Emphasis on politics. Major economic, social, cultural, and intellectual developments. [3] (INT)

HIST 2380. Shakespeare's Histories and History. [Formerly HIST 238] Readings from a variety of plays by Shakespeare and his contemporaries. Significant political and cultural issues from the 1590s in early English history. No credit for students who earned credit for 294 section 2 in fall 2008. [3] (HCA)

HIST 2382. The Rise of the Tudors. [Formerly HIST 239B] Causes and course of the political crisis in the fifteenth century and the rise of the Tudor monarchy. Political and religious forces that drove the English Reformation and its immediate consequences. No credit for students who have completed 2385. [3] (HCA)

HIST 2385. The Real Tudors. [Formerly HIST 239A] Marital, dynastic history of the Tudors in relation to religious and political change through and after the English Reformation. Court politics, ideological conflict, and the rise of an increasingly confessionized international politics. Offered on a graded basis only. [3] (HCA)

HIST 2450. Reform, Crisis, and Independence in Latin America, 1700-1820. [Formerly HIST 245] Reorganization of the Spanish and Portuguese empires; maturation of transatlantic societies; and revolutions for independence. [3] (INT)

HIST 2470. Revolutionary Mexico. [Formerly HIST 247] Revolutionary politics and radical expression in 20th century Mexico. Causes of popular unrest: violent political change; post-conflict state-building; government attempts to alter popular culture; radical muralism and graphic art; revolutionary expression and gender; literature and disenchantment. [3] (INT)

HIST 2480. Central America. [Formerly HIST 248] Iberian and American background, colonial society; independence; growth of the plantation economy; the U.S. presence; political and social revolutions in the twentieth century. [3] (INT)

HIST 2490. Brazilian Civilization. [Formerly HIST 249] From pre-Columbian times to the present. Clash and fusion of Portuguese, Amerindian, and African cultures; sugar and slavery; coffee and industrialization; race relations; dictatorship and democracy in the twentieth century. [3] (INT)

HIST 2510. Reform and Revolution in Latin America. [Formerly HIST 251] Comparative analysis of revolutions and reform movements in twentieth-century Latin America focusing on land tenure, social classes, political culture, economic structures, and foreign influences. [3] (INT)

HIST 2540. Race and Nation in Latin America. [Formerly HIST 254A] Late nineteenth century to the present. Social, political, and cultural constructions of belonging. Citizenship and state building. Immigration, education, urbanization, civil and international wars, and gender and sexuality. Case studies draw from the Andes, Spanish Caribbean, Southern cone, and Brazil. Serves as repeat credit for students who completed 294 section 2 in fall 2010 or section 1 in fall 2009. [3] (INT)

HIST 2580. American Indian History before 1850. [Formerly HIST 258] Indian nations’ interaction with each other and with European colonies. Resistance and adaptation to colonialism. Early development of United States Indian policy. [3] (US)

HIST 2620. The Old South. [Formerly HIST 262] The South’s origins in European expansion; the rise of the plantation economy and society, and its identification with slavery; the differing experiences of whites and blacks, planters and nonplanters; the relationship of the region to the larger United States; the Confederate attempt at independence and the collapse of the slave regime. [3] (US)

HIST 2630. The New South. [Formerly HIST 263] The aftermath of war and emancipation and the era of Reconstruction; social change and dislocation in the late nineteenth century; the Populist Revolt; the origins of segregation and one-party politics. Twentieth-century efforts to modernize the region; the economic, political, and Civil Rights revolutions of the mid-twentieth century; the South in modern American society and politics. [3] (US)

HIST 2640. Appalachia. [Formerly HIST 264] The region from first European intrusions to the present. Frontier-era white-indigenous contact, antebellum society and economy, relations with the slave South, the Civil War and postwar politics, increasing social strainings, industrialization and labor conflict, poverty and outmigration. Examination of mountain culture, tourism, and the construction of the “hillbilly” image. [3] (US)

HIST 2655. Historic Black Nashville. From settlement through the Civil War. Secondary literature and archival research to identify significant black history sites in Nashville. No credit for students who have earned credit for UNV 2655. Offered on a graded basis only. [3] (US)

HIST 2660. The Birth of Modern Capitalism and Human Trafficking. [Formerly HIST 266] Closure of the Atlantic slave trade in eighteenth and nineteenth-century Britain and the United States. State formation, the birth of modern human rights discourse, and ideas about compassionate capitalism. [3] (INT)

HIST 2662. Slavery in the United States. History of American slavery, from the formation of a slave power in the seventeenth century to the defeat of the slaveholders’ republic in the wake of the Civil War. [3] (US)

HIST 2685. Race and U.S. Visual Culture. From the 1700s to the present. Iconic texts, major themes, and transformative figures in the representational history of African Americans. Art and photography as strategies for racial uplift. Intra-racial satire. Black entertainment culture and societal imagery. Issues of gender, class, and sexuality. No credit for students who have earned credit for 294-01 offered spring 2014 or 294-01 offered spring 2012. [3] (P)

HIST 2710. The U.S. as a World Power. [Formerly HIST 271] From the origins of World War II, through the Cold War, to the present day. Relationships among foreign policy ideology, domestic politics, and social and economic change. [3] (US)

HIST 2720. World War II. [Formerly HIST 172] Origins and causes of the global conflict; the six years of military campaigns; politics and diplomacy of war-making; race as a factor shaping the war in Europe and Asia. Impact of technological innovations; social and economic aspects of the struggle, as well as its moral and psychological implications. [3] (INT)

HIST 2725. Race, Power, and Modernity. [Formerly HIST 272C] Historical approaches to race as a modern system of power and difference. The United States experience in comparative and transnational perspective. Race as an historical and socially-constructed ideological system. Race intersecting with nationality, region, class and gender. Race in the making of space, citizenship, and economic institutions. [3] (US)

HIST 2730. American Masculinities. [Formerly HIST 272D] Changing definitions of manhood and masculinity from the colonial period to the post-9/11 era. The rise of democratic politics, industrialization, slavery and emancipation, feminist politics, and the growth of the global power of the United States. [3] (US)

HIST 2735. Debating America in the World, 1890-2010. [Formerly HIST 272E] Debates about the U.S. role in shaping the twentieth century. War; colonialism and anti-colonialism; immigration; participation in international institutions. [3] (US)

HIST 2800. Modern Medicine. [Formerly HIST 280] Scientific, social, and cultural factors influencing the rise of modern medicine. Europe and the U.S., 1750 to the present. [3] (P)

HIST 2810. Women, Health, and Sexuality. [Formerly HIST 281] Women as patients and healers in the U.S. from 1750 to the present. Topics include women’s diseases and treatments; medical constructions of gender, sexuality; childbirth, birth control; abortion; midwives, nurses, and doctors. [3] (US)

HIST 2835. Sexuality and Gender in the Western Tradition to 1700. [Formerly HIST 183] Politics, war, and masculinity; Christianity and sexuality; changing ideas about gender roles and sexual practices. [3] (P)

HIST 2840. Sexuality and Gender in the Western Tradition since 1700. [Formerly HIST 184] Modern masculinity, femininity, and gender roles; origins of identity politics and changing sexual norms; contemporary feminist issues. [3] (P)

HIST 2855. Women and Gender in the U.S. to 1865. [Formerly HIST 185] Social and cultural history of gender, race, and sexuality as represented in literary, legal and artistic texts. Exploration of Native American conquest, captivity narratives, abolitionism and sentimental fiction, nationalism and gender ideas. [3] (US)

HIST 2860. Women and Gender in the U.S. since 1865. [Formerly HIST 186] Social and cultural history of the intertwined ideas and practices of gender, race, and sexuality. Exploration of experiences, representations, and activism in feminist and gay rights movements, interracial unions, marriage and the family, black women’s activism, suffrage, and sexual revolutions. [3] (US)

HIST 3000W. The History Workshop. [Formerly HIST 200W] Introduction to the "historian's craft." Reconstructing the past using primary documents such as diaries, letters, memoirs, and declassified government
papers. Methods of historical research and reasoning through individual projects. Offered on a graded basis only. [3] (SBS)

HIST 3010. Pornography and Prostitution in History. [Formerly HIST 187] Commercialization of the sex trade, Renaissance to the present. Political scandal, capitalism, and globalization; effects of technological change, from the printing press to the Internet. Readings from anthropology, psychology, and feminist theory. [3] (P)

HIST 3040. Health and the African American Experience. [Formerly HIST 284B] Disparities in the health care of African Americans, the training of black professionals, and the role of black medical institutions. The intersection between black civic involvement and health care delivery; the disproportionate impact of disease and epidemics within the African American population. [3] (US)

HIST 3070W. Science, Technology, and Modernity. [Formerly HIST 285W] Social, cultural, intellectual, and artistic responses to the challenges posed by modern science and technology from the mid-nineteenth to the mid-twentieth centuries. Offered on a graded basis only. [3] (P)

HIST 3090. Tokyo: History and Image. [Formerly HIST 286C] Tokyo and its representation in various media from the mid-nineteenth century to the present and imaginations of the future. The city’s physical development and image in photographs, films, novels, essays, and other textual and visual materials produced within Japan and beyond. [3] (INT)

HIST 3100. Pirates of the Caribbean. [Formerly HIST 286D] Imperial competition for control of the Caribbean and state-sponsored piracy. The economic and political consequences of piracy in the Caribbean. The life of pirates aboard ship and in port. [3] (INT)

HIST 3150. Cities of Europe and the Middle East. [Formerly HIST 287C] Cities of “East” and “West” in the modern period; distinguishing characteristics and shared patterns of urban modernity across different geographies. Conceptions of the European, Middle Eastern, and Islamic metropolises. [3] (INT)

HIST 3210. Muslims, Christians, and Jews in Medieval Spain. [Formerly HIST 288C] Coexistence and conflict from 711 to 1492. The blend of cultures, languages, religions, and societies under both Christian and Islamic rule. Offered on a graded basis only. No credit for students who have earned credit for JS 1111 section 1. [3] (INT)

HIST 3220W. Images of India. [Formerly HIST 288D] Images in and of South Asia as studied through maps, religious imagery, print culture, cinema, and architecture. The politics of visual stereotypes of India. The visual history of Orientalism, modernity, gender, and religion in South Asia. [3] (INT)

HIST 3230. The Art of Empire. [Formerly HIST 288E] Visual media in the establishment of modern empires, with emphasis on Western Europe. Image-making and power; art in cultural exchange and the definition of race, ethnicity, and gender. [3] (HCA)

HIST 3270. Religion and the Occult in Early Modern Europe. [Formerly HIST 289D] Popular and learned ideas about religion and the supernatural within the context of the religious reforms of the sixteenth century. Alchemical and astrological practices to ghosts, werewolves, fairies, and other supernatural beings. The witch craze phenomenon of 1560-1650. Offered on a graded basis only. No credit for students who earned credit for 295 section 1 in fall 2011. [3] (HCA)

HIST 3275. Religion and Popular Culture in Nineteenth-Century Europe. [Formerly HIST 289E] Popular religious beliefs and practices in their social, cultural, political, and gender contexts. Concentration on Britain, France, and Germany. Offered on a graded basis only. [3] (SBS)

HIST 3746W. Workshop in English and History. [Formerly HIST 291] (Also listed as English 3746) Team-taught by a historian and an interdisciplinary scholar. Explores intersection of disciplines through close examination of texts in historical context. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Preference to students majoring in the English-History program. [3] (No AXLE credit)

HIST 3850. Independent Study. [Formerly HIST 296] A program of reading in one field of history to be selected in consultation with an adviser. Normally limited to qualified majors in history. Approval of faculty adviser and director of undergraduate studies required. May be repeated for credit
once if there is no duplication in topic and not twice from the same instructor, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits for all semesters of HIST 3850] (No AXLE credit)

**HIST 3880. Internship Training.** [Formerly HIST 293A] Under faculty supervision, students from any discipline can gain experience in a broad range of public and private agencies, institutions, and programs. In some cases, such as historical societies or museums, history is a central part of the organization’s missions; in other cases, the student will play a role in managing the institution’s records or writing its history. Two options are available. (1) full-time: 12-15 hours total, including 6-9 hours in 3880, 3 hours in 3881, and 3 hours in 3882. (2) Part-time: 6-9 hours total, including 3-6 hours in 3880 and 3 hours in either 3881 or 3882. To be accepted for either option, students must have a 2.90 grade point average and 6 hours of prior work in history; they must submit a specific plan for the internship to the director of undergraduate studies. After completing the internship, all students must write a thorough report. Must be taken Pass/Fail and concurrently with 3881 and/or 3882. These hours may not be included in the minimum hours required for the history major. Corequisite: 3881 and/or 3882. [3-9] (No AXLE credit)

**HIST 3882. Internship Readings.** [Formerly HIST 293C] Under faculty supervision, students from any discipline can gain experience in a broad range of public and private agencies, institutions, and programs. In some cases, such as historical societies or museums, history is a central part of the organization’s missions; in other cases, the student will play a role in managing the institution’s records or writing its history. Two options are available. (1) full-time: 12-15 hours total, including 6-9 hours in 3880, 3 hours in 3881, and 3 hours in 3882. (2) Part-time: 6-9 hours total, including 3-6 hours in 3880 and 3 hours in either 3881 or 3882. To be accepted for either option, students must have a 2.90 grade point average and 6 hours of prior work in history; they must submit a specific plan for the internship to the director of undergraduate studies. After completing the internship, all students must write a thorough report. Readings and a substantial interpretive essay on topics related to the internship training, under the supervision of a member of the Vanderbilt Department of History. Corequisite: 3880. [3] (No AXLE credit)

**HIST 3883. Internship Research.** [Formerly HIST 293B] Under faculty supervision, students from any discipline can gain experience in a broad range of public and private agencies, institutions, and programs. In some cases, such as historical societies or museums, history is a central part of the organization’s missions; in other cases, the student will play a role in managing the institution’s records or writing its history. Two options are available. (1) full-time: 12-15 hours total, including 6-9 hours in 3880, 3 hours in 3881, and 3 hours in 3882. (2) Part-time: 6-9 hours total, including 3-6 hours in 3880 and 3 hours in either 3881 or 3882. To be accepted for either option, students must have a 2.90 grade point average and 6 hours of prior work in history; they must submit a specific plan for the internship to the director of undergraduate studies. After completing the internship, all students must write a thorough report. Students will write a substantial research paper under the supervision of a member of the Vanderbilt Department of History. Corequisite: 3880. [3] (No AXLE credit)

**HIST 3890. Selected Topics in History.** [Formerly HIST 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3; maximum of 6 credits total for all semesters of HIST 4960] (No AXLE credit)

**HIST 4980. Senior Honors Research Seminar.** [Formerly HIST 298A] Presentation and discussion of drafts and chapters of honors theses in progress. Offered on a graded basis only. Open only to senior departmental honors students. [3] (No AXLE credit)

**HIST 4981. Senior Honors Research Seminar.** [Formerly HIST 298B] Continuation of 4980. Offered on a graded basis only. Open only to seniors in the departmental honors program. Prerequisite: 4980. Corequisite: 4999. [3] (No AXLE credit)

**HIST 4999. Senior Honors Thesis.** [Formerly HIST 299] Writing an honors thesis under the supervision of a thesis adviser and the Director of Honors. Open only to seniors in the departmental honors program. Offered on a graded basis only. Prerequisite: 4980. Corequisite 4981. [3] (No AXLE credit)

### History of Art

**HART 1001. Commons Seminar.** [Formerly HART 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

**HART 1100. History of Western Art: Ancient to Medieval.** [Formerly HART 110] Visual and material culture of Europe and the Ancient Near East from the Paleolithic through the late Medieval period. Egypt, Greece, and Rome; early Christianity and Islam. Form, content, and meaning of works of art and architecture in their cultural context. [3] (HCA)

**HART 1105. History of Western Art: Renaissance to Modern.** [Formerly HART 111] Major artistic movements from the Renaissance to the Modern era and the developments in painting, sculpture, and architecture. Works of specific artists and cultural factors that affect the visual arts from production to reception. [3] (HCA)

**HART 1111. First-Year Writing Seminar.** [Formerly HART 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

**HART 1120. History of Western Architecture.** [Formerly HART 112] Architecture in Europe, Western Asia, and North America from the early first millennium BCE to the present. Form and function; historical, social, and spatial contexts; architects and patrons. No credit for students who have earned credit for 112a. [3] (HCA)

**HART 1121. History of Western Architecture I.** [Formerly HART 112A] From prehistoric Europe and Western Asia to Renaissance Italy and the Ottoman Golden Age. Form and function; historical, social, spatial contexts; architects and patrons. No credit for students who have earned credit for 1120. [3] (HCA)

**HART 1205. Arts of South and Southeast Asia.** [Formerly HART 125] Second millennium BCE to present. Formation of political and social identities as reflected in artistic productions. Development of artistic traditions in response to cultural exchange and political dynamics. [3] (INT)

**HART 1210W. Art and Ritual in Asia.** From prehistory to the present. Social and religious functions of the arts of China, India, Japan, Korea, and Himalayas. Select examples explored in museum visits, lectures, discussions, and varied writing projects. [3] (INT)

**HART 1220. History of Asian Architecture.** [Formerly HART 122] Cultural traditions of Asia from the first millennium BCE to the nineteenth century through the study of architecture. Cities, temples, and domestic
structures of China, Japan, Korea, South Asia (India and Pakistan), and Southeast Asia. [3] (INT)

HART 1285W. Introduction to Medieval Art. From the third to fifteenth century; Late Antique period to Late Gothic period. Architecture, sculpture, painting, and the minor arts of Western Europe in historical context, including Byzantine and Islamic art. No credit for students who have earned credit for 2270 or 2285. [3] (INT)

HART 1300. Monuments and Masterpieces. [Formerly HART 130] The social and cultural history of the world in fourteen great works, including the Athenian Parthenon, the Pantheon in Rome, the Konjikido in Japan, Michelangelo’s Sistine Chapel, and the U.S. Capitol. Sculpture, painting, architecture, and the decorative arts. [3] (INT)

HART 1330W. Heaven on Earth: Sacred Sites in World History. From prehistory to the 19th century. Great works of world religious architecture in their social and cultural context. Monuments, temples, tombs, shrines, and other sacred sites. Cross-cultural and trans-historical comparative perspective. How formal attributes of space and architecture shape religious experience and meaning. [3] (SBS)

HART 1400. U.S. Icons and Monuments. [Formerly HART 140] From 1776 to present. How and why images of people, historical events, and symbols are revered. Implications for national identity, historical memory, consumerism, and political ideologies. The U.S. Capitol, Statue of Liberty, Mount Rushmore, Marilyn Monroe, and Michael Jordan. No credit for students who have earned credit for 1111 section 13. [3] (US)

HART 1500W. Impressionism. Painting style developed by Monet, Renoir, Pissarro, Cassatt, Morisot, and others, with emphasis on changing atmospheric effects. Work of the French Impressionists from formal, social, political, and intellectual perspectives. Impact of French Impressionism across Europe and North America. [3] (HCA)

HART 1750W. African American Arts. Blackness and black culture as subject and context for African American visual arts from the 20th and 21st centuries. Emphasis on arts derived from African American cultural perspectives. No credit for students who have earned credit for 2750. [3] (P)

HART 2110. Arts of China. [Formerly HART 252] Artistic production from the Neolithic period through the Qing dynasty in relation to religious and cultural contexts. [3] (HCA)

HART 2130. Arts of Japan. [Formerly HART 253] Artistic production from the Neolithic through Meiji periods in relation to religious and cultural contexts. [3] (HCA)

HART 2150. East Asian Architecture and Gardens. [Formerly HART 251] East Asian religious, vernacular, and garden architecture from the second century CE to the present. Influence of Buddhism on East Asian architecture, fengshui, and site selection, garden as religious landscape, Asia in modern architecture. [3] (HCA)

HART 2170. Religion and politics in South and Southeast Asian Art. [Formerly HART 246] Use of Buddhist, Hindu, and Jain images as political communication in South and Southeast Asia from the time of Buddha (480-400 BC) to the present. The original patronage of temples and religious icons, and their reappraisal in ancient and modern times. [3] (INT)

HART 2180. Islamic Art and Architecture. [Formerly HART 244] Visual and building traditions from the seventh through twentieth centuries. Cultural, sacred, political, and historical forces shaping art from Islamic Spain and Turkey to Iran and India. Dome of the Rock, the Alhambra, the Suleymaniye mosque, Persian illustrated manuscripts, and the Taj Mahal. [3] (INT)

HART 2210. Art and Architecture of Ancient Egypt. [Formerly HART 268] Art, architecture, and culture of Egypt from the fourth millennium through the Old, Middle, and New Kingdoms. Sculpture, wall painting, architecture, and material culture. Serves as repeat credit for students who have completed CLAS 217. [3] (HCA)

HART 2220. Greek Art and Architecture. [Formerly HART 255] The Bronze Age, including the Minoans and Mycaneans, through the Hellenistic period. The social and cultural contexts of material and visual culture. Vase-painting, sculpture, architecture, and more utilitarian artifacts. No credit for students who have earned credit for 2222, 257, 258, or CLAS 2200 or 2210. [3] (HCA)

HART 2285. Medieval Art. [Formerly HART 211] The development of architecture, sculpture, painting, and the minor arts in Europe from the eleventh through the fifteenth centuries. [3] (HCA)

HART 2288. Art of the Book. Material and visual composition of medieval manuscripts; working with medieval and contemporary artists’ books in Vanderbilt’s Special Collections. Audience, changing popularity of texts and illustrations, and concerns of patrons and artists. Exemplary works include the “Book of Kells,” "Luttrell Psalter,” and “Tres Riches Heures.” Offered on a graded basis only. [3] (HCA)

HART 2290. Gothic Paris. From the twelfth to the fifteenth century. Architecture, sculpture, painting, and the luxury arts. No credit for students who have earned credit for 2285. [3] (INT)

HART 2310. Italian Art to 1500. [Formerly HART 218] Early development of art and architecture primarily in central Italy from the late thirteenth through the fifteenth centuries. The works of Giotto, Duccio, Donatello, Masaccio, and Botticelli. The age of the Medici in Florence. No credit for students who have earned credit for 3320 or 3320W. [3] (HCA)

HART 2325W. Great Masters of the Italian Renaissance. From the late Gothic to the High Renaissance. Landmarks in painting, sculpture, and architecture in central Italy. Trecento Sienese masters; Giotto, Donatello, Botticelli, and Leonardo in Florence; and Michelangelo and Raffaello in Rome. Tempera and fresco technique; civic, ecclesiastic, and domestic buildings; and stylistic progression. No credit for students who have earned credit for 2310. [3] (INT)

HART 2330. Italian Renaissance Art after 1500. [Formerly HART 219] High Renaissance and Mannerist art in sixteenth-century Italy, considering Florentine masters such as Leonardo, Michelangelo, and Pontormo, the
Roman school of Raphael, and the Venetians from Giorgione and Titian to Tintoretto. [3] (HCA)

HART 2360. Northern Renaissance Art. [Formerly HART 212] Painting, sculpture, and graphic arts in the Low Countries, France, and Germany from the end of the fourteenth century through the Reformation. Historical, social, religious, and stylistic factors. No credit for students who have earned credit for 2362 or 3366. [3] (HCA)

HART 2362. Fifteenth-Century Northern European Art. [Formerly HART 214] Painting, sculpture, prints, and court art in the Low Countries, France, and Germany. Historical, social, economic, religious, and technical analysis. Jan van Eyck, Rogier van der Weyden, and Hieronymus Bosch. No credit for students who have earned credit for 2360. [3] (HCA)

HART 2750. African American Art. [Formerly HART 239] Colonial Era to the present. Artwork and artists in their political, cultural, social, historical, and aesthetic contexts. Relationship between race and representation. [3] (P)

HART 2780. History of Western Urbanism. [Formerly HART 270] Urban form and planning from antiquity to the present. The integration of architecture and landscape. Diachronic surveys. Case studies, including Nashville. [3] (P)

HART 3140. Healing and Art in East Asia. Influence of early healing practices on the development of the arts of East Asia. Magical healing texts, talismans, and tattoos; diagramming the body and the landscape; and the art of the Buddha of Medicine. Gardens and growing transformative herbs. Tea as medicine and art. No credit for students who have earned credit for HONS 1820W-28. [3] (HCA)

HART 3164W. Art of Buddhist Relic and Reliquary. [Formerly HART 245W] From second century BCE to present. Relic veneration and construction of reliquaries from a visual perspective. Beautification, ritualization, use and abuse, and bodily issues spanning India, China, Korea, Japan, and Southeast Asia. [3] (INT)

HART 3224. Greek Sculpture. [Formerly HART 264] Style, materials, and techniques ca. 900-31 B.C. Sculptors’ craft and their reasons for the
creation of both free-standing and architectural sculpture. Serves as repeat credit for students who have completed CLAS 216. [3] (HCA)

HART 3226. Greek Vases and Society. [Formerly HART 265] Ancient Greek vases as social documents. Interdisciplinary approaches, including historiographic, stylistic, semiotic, contextual, and scientific. Production, trade, and the functions of vases in funerary and ritual contexts, particularly the symposium. The development of black- and red-figure vase painting and iconography. [3] (HCA)

HART 3228W. Gender and Sexuality in Greek Art. [Formerly HART 262W] Iconography of vase-painting and sculpture, from the Archaic through the Hellenistic periods. Visual constructions of bodies, poses, gestures, and dress, reflecting cultural attitudes towards courtship, marriage, rape, prostitution, and homosexuality. Emphasis on methodological approaches and comparisons with modern societies. Offered on a graded basis only. [3] (HCA)

HART 3252. Cities of the Roman East. [Formerly HART 266] Provincial centers, sanctuaries, and monuments from Greece to Arabia. Major centers and case studies of public and private commissions. Architectural reflections of Romanization and resistance; local and imperial patronage; patrimony and memory; borderland architecture. [3] (HCA)

HART 3272. Portraits in Late Antiquity. [Formerly HART 206] Social, political, and religious functions of portraits from the first century through the sixth century CE. Issues of representation, including the construction of identity, social status, mediation of presence through image, and what constitutes a likeness. Portraits as memorials, as objects of veneration, and idealized models. Influences on later portraiture. [3] (HCA)

HART 3274. Art and Empire from Constantine to Justinian. [Formerly HART 208] An interdisciplinary study of Roman social, political, religious, and art historical developments in the fourth through sixth centuries CE. [3] (HCA)

HART 3320. Early Renaissance Florence. [Formerly HART 217] Painting and sculpture in fifteenth-century Florence. Ghiberti, Donatello, Masaccio, Fra Angelico, and Botticelli. Stylistic progression; iconographic interpretation and meaning; the role of patronage and audience; and original physical and cultural context. The Italian Renaissance workshop. No credit for students who have earned credit for 3210. Repeat credit for students who have earned credit for 3320W. [3] (HCA)

HART 3320W. Early Renaissance Florence. [Formerly HART 217W] Painting and sculpture in fifteenth-century Florence. Ghiberti, Donatello, Masaccio, Fra Angelico, and Botticelli. Stylistic progression; iconographic interpretation and meaning; the role of patronage and audience; and original physical and cultural context. The Italian Renaissance workshop. Offered on a graded basis only. No credit for students who have earned credit for 3210. Repeat credit for students who have completed 3320. [3] (HCA)

HART 3334W. Michelangelo's Life and Works. [Formerly HART 220W] Sculpture, painting, architecture, and graphic works. Poetry and letters. Cultural, historical, religious, and political climate of his day, influence upon artists. Critical reception. Repeat credit for students who have completed 3334. [3] (HCA)

HART 3605W. French Art in the Age of Louis XV: From Rococo to Neoclassicism. Court art and visual culture 1715 to 1775. Aesthetic development in painting, sculpture, interior design, and architecture. Watteau, Boucher, Fragonard, Falconet, Boffrand. Chinoiserie and exoticisms, porcelain industry at Sévres, and domestication of royal spaces at Versailles. Women patrons such as Mme de Pompadour and Mme du Barry. Offered on a graded basis only. [3] (HCA)

HART 3725W. The Skyscraper: Modern Urban Icon. Development of the architectural type from the late 19th to the mid-20th century, seen from stylistic, technological, urban, artistic, and economic perspectives. [3] (HCA)

HART 3735. History of Photography. [Formerly HART 233] Uses and meanings of photography from its invention (c. 1839) to the present. Ways of thinking about the medium and its status as a separate discipline in relation to the history of art. [3] (HCA)

HART 3740. History of Sound Art. [Formerly HART 243] From twentieth century to present. Use of sound as artistic medium. Experimental practices; the relationship of art and technology; sound art’s position between music, performance and installation art. Cage, Cardif, Paik, Rosenfeld, and Trimpin. [3] (HCA)

HART 3840. Directed Study. [Formerly HART 290] Registration only with agreement of instructor involved and with written approval of the director of undergraduate studies. May be repeated for a total of 6 credits, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of HART 3840] (No AXLE credit)

HART 3850. Independent Research. [Formerly HART 289] Supervised work in extension of regular offerings in the curriculum. Registration only with agreement of instructor involved and with written approval of the director of undergraduate studies. May be repeated for a total of 6 credits, but students may earn only up to 3 credits per semester of enrollment. [1-3] (No AXLE credit)

HART 3880. Internship Training. [Formerly HART 293B] Students gain experience in a broad range of arts-related programs, at public or private institutions, including museums, and/or federal agencies. Students may take 1-3 hours in 3883, which includes background research, done concurrently with a one-semester internship program (3880), leading to submission of a research paper at the end of that semester. A 3.0 grade
point average, approval of a specific plan by the department, and at least 6 hours of prior work in History of Art is required. Offered only on a pass/fail basis only and must be taken concurrently with 3883. Will not count as part of the minimum hours for the History of Art major or minor. Corequisite: 3883. [Variable credit: 1-9] (No AXLE credit).

HART 3883. Internship Research. [Formerly HART 293A] Students gain experience in a broad range of arts-related programs, at public or private institutions, including museums, and/or federal agencies. Students may take 1-3 hours in 3883, which includes background research, done concurrently with a one-semester internship program (3880), leading to submission of a research paper at the end of that semester. A 3.0 grade point average, approval of a specific plan by the department, and at least 6 hours of prior work in History of Art is required. Readings and critiques as well as 3880, 3881, and 3882. Prerequisite: 3883. [Maximum of 3 credits total for all semesters of HART 3883] (No AXLE credit).

HART 3890. Selected Topics. [Formerly HART 288] May be repeated for credit twice if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3; maximum of 9 credits total for all semesters of HART 3890] (No AXLE credit)

HART 4960. Advanced Seminar. [Formerly HART 295] An undergraduate seminar involving advanced In-depth reading, research, and writing in a particular area of art history. Limited to juniors and seniors with preference to majors. May be repeated for credit once if there is no duplication in topic and not twice from the same instructor. Students may enroll in more than one section of this course each semester. Offered on a graded basis only. [3; maximum of 6 credits total for all semesters of 295; maximum of 9 credits for HART Honors candidates] (HCA)

HART 4998. Honors Research. [Formerly HART 298] Research to be done in consultation with a member of the faculty in history of art. Open only to those beginning honors work in history of art. May be repeated for a total of 6 credits. [1-6; maximum of 6 credits total for all semesters of HART 4998] (No AXLE credit)

HART 4999. Honors Thesis. [Formerly HART 299] Open only to seniors in the departmental honors program. Students completing this course with distinction, including a thesis and final examination, will earn honors in history of art. Prerequisite: 4998. May be repeated for a total of 6 credits. [1-6; maximum of 6 credits total for all semesters of HART 4999] (No AXLE credit)

Honors

HONS 1810W. College Honors Seminar in the Humanities and Creative Arts. [Formerly HONS 181] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (HCA)

HONS 1820W. College Perspectives Honors Seminar. [Formerly HONS 182] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (P)

HONS 1830W. College Honors Seminar in Behavioral and Social Sciences. [Formerly HONS 183] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (SBS)

HONS 1840W. College Honors Seminar in History and Culture of the United States. [Formerly HONS 184] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (US)

HONS 1850W. College Honors Seminar in Mathematics and Natural Science. [Formerly HONS 185] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (MNS)

HONS 1860W. College Honors Seminar in International Cultures. [ Formerly HONS 186] Offered on a graded basis only. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [3] (INT)

Humans

HUM 1610. Selected Topics. [Formerly HUM 161] Topics Vary. May be repeated more than once if there is no duplication of topic. [3] (No AXLE credit)

Interdisciplinary Studies

INDS 3831. Global Citizenship and Service. [Formerly INDS 270A] This course is offered by the Vanderbilt Initiative for Scholarship and Engagement (VISAGE). Graduate students may take this course for graduate credit. A service-learning course introducing students to themes and interpretations of global citizenship. Intended to be followed by 3832. [3] (INT)

INDS 3832. Global Community Service. [Formerly INDS 270B] This course is offered by the Vanderbilt Initiative for Scholarship and Engagement (VISAGE). Graduate students may take this course for graduate credit. Students will design and conduct research projects in collaboration with faculty mentors. Prerequisite: 3831. [1-3] (No AXLE credit)

INDS 3833. Seminar in Global Citizenship and Service. [Formerly INDS 270C] This course is offered by the Vanderbilt Initiative for Scholarship and Engagement (VISAGE). Graduate students may take this course for graduate credit. Project- and research-based seminar drawing on student experiences and learning in 3831 and 3832. Prerequisite: 3832. [3] (INT)

INDS 3880. Interdisciplinary Internship. [Formerly INDS 280A, 280B, 280C] Internship credit for work approved by the designated Associate Dean of Arts and Science. A written scholarly project must be produced in the internship. Must be taken P/F. Repeatable twice for a maximum of 3 credit hours in 3880 (and 3884) combined. [1] (No AXLE credit)

INDS 3884. Interdisciplinary Internship. [Formerly INDS 280D] Internship credit for summer work approved by the designated Associate Dean of Arts and Science. A written scholarly project must be produced in the internship. Course must be taken P/F. May be repeated for credit; maximum of 3 credit hours in 3881, 3882, 3883, and 3884 combined. [1] (No AXLE credit)

Italian

ITA 1001. Commons Seminar. [Formerly ITA 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

ITA 1101. Elementary Italian. [Formerly ITA 101A] Introduction to reading, writing, and speaking through an exploration of Italian culture. For students who have studied little or no Italian. No credit for students who have earned credit for a more advanced Italian language course. [3] (No AXLE credit)

ITA 1102. Elementary Italian. [Formerly ITA 101B] Study of the language through an exploration of Italian culture. No credit for students who have earned credit for a more advanced Italian language course. Prerequisite: 1101. [3] (INT)

ITA 1103. Intensive Elementary Italian. [Formerly ITA 102] One-semester intensive course for students who have some knowledge of Italian or another romance language. No credit for students who have earned credit for 1101, 1102, or a more advanced Italian language course. [3] (INT)

ITA 1111. First-Year Writing Seminar. [Formerly ITA 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)
ITA 2203. Italian Journeys. [Formerly ITA 200] Life and art in the diverse regions of Italy through an integrated four-skills approach of reading, writing, listening and speaking. No credit for students who have earned credit for a more advanced Italian language course. Prerequisite: 1102 or 1103. [3] (INT)

ITA 2501W. Grammar and Composition. [Formerly ITA 210W] Syntax, idiomatic expressions, and current usage. No credit for students who have earned credit for a more advanced Italian language course. Prerequisite: 2203. [3] (INT)

ITA 3000. Introduction to Italian Literature. [Formerly ITA 220] Critical reading of major works of Italian literature from the beginning to the present. Prerequisite: 2501W. [3] (HCA)

ITA 3041. Italian Civilization. [Formerly ITA 230] The politics, intellectual, social, artistic, and economic history of Italy from 1300 to the present, with emphasis on major political and philosophical authors. Taught in English. [3] (INT)

JS 2320. Freud and Jewish Identity. [Formerly JS 244] Analysis of rhetoric and themes in selected writings of Sigmund Freud and his times, development of assimilation and of anti-Semitic repudiation. [3] (SBS)

JS 2340. Jewish Philosophy after Auschwitz. [Formerly JS 249] Critical responses to social and political institutions and the corresponding modes of thought that made Auschwitz possible and continue to sustain the barbarism that many leading philosophers have identified at the heart of culture. [3] (INT)

JS 2420W. American Jewish Songwriters. [Formerly JS 139W] From the late 19th Century to the present. Vaudeville, Tin Pan Alley, the development of the stage musical, and the Brill Building. Folk, rock, pop, and country. Contributions of Jewish songwriters to American music. [3] (US)

JS 2500. Modern Israel. [Formerly JS 125] Internal dynamics, debates, and conflicts within Israeli society. Political, social, and cultural transformations from the 1980s to the present. [3] (INT)

JS 2560. Social Movements in Modern Jewish Life. [Formerly JS 252] How social movements shape contemporary American Jewish culture and politics. Explores movements internal to Judaism and those bringing religion into the public sphere. [3] (SBS)

JS 2600. Islam and the Jews. [Formerly JS 120] Muslim-Jewish relations from the beginning of Islam to the present. Mohammed and the Jews, Jewish roles in Islamic cultures, status of Muslims in contemporary Israel, recent Jewish exodus from Muslim lands. [3] (INT)

JS 2640. Jews and Greeks. [Formerly JS 230] From the seventh century BCE to ca. 1500 CE. Sites of interaction, languages, cultural ties, religious tensions, political conflicts, and competing philosophies. Works by Elephantine, Alexander the Great, the Maccabees, the Septuagint, Aристеas, Josephus, Philo, the rabbis, the New Testament, Ezekiel the Tragedian, Byzantium. Serves as repeat credit for students who completed 257 section 1 in fall 2010. [3] (INT)

JS 3210. Reading Across Boundaries: Jewish and Non-Jewish Texts. [Formerly JS 234] Jewish and non-Jewish literary and historical texts studied in parallel so as to discover the differences between them. The course will consider texts from the ancient world to the early modern period and ask what constitutes Jewish writing and how it has been defined through time and geography. All readings will be in English. [3] (INT)

JS 3830. Contemporary Jewish Issues. [Formerly JS 280] Projects will vary according to the instructor. Service to community will be integral part of course. [3] (No AXLE credit)

JS 3840. Directed Readings. [Formerly JS 289] Advanced readings and research on a selected topic done under the supervision of a faculty mentor. [3] (No AXLE credit)

JS 3850. Independent Study. [Formerly JS 289] A research project carried out under the supervision of a faculty mentor. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of JS 3850] (No AXLE credit)

JS 3880. Internship Training. [Formerly JS 288A] Under faculty supervision, students gain experience in any of a variety of settings, such as community, municipal, or government agencies. A thorough report and research paper are required. Must be taken on a Pass/Fail basis only and must be taken concurrently with 3883. Corequisite: 3883. [Variable credit: 1-3] (No AXLE credit)

JS 3883. Internship Research. [Formerly JS 288B] Under faculty supervision, students gain experience in any of a variety of settings, such as community, municipal, or government agencies. A thorough report and research paper are required. Students will write a research paper drawing on their experiences in 3880. Corequisite: 3880. [3] (No AXLE credit)

JS 3890. Special Topics. [Formerly JS 284] Topics as announced. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

JS 3892. Topics in Ancient and Medieval Jewish History. [Formerly JS 257] From antiquity to 1492. Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

JS 3894. Topics in Modern Jewish History. [Formerly JS 258] From 1492 to the present. Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

JS 4301. Jewish Language and Paleography. [Formerly JS 238] Advanced study in a language of the Jewish people with a particular focus on the linguistic and paleographic features that define its cultural context. Each section focuses on one of the following languages: Aramaic, Ladino, Judeo-Arabic, Rabbinic Hebrew, or Yiddish. May be repeated for credit up to two times when the language studied differs. Consent of instructor required. [3] (INT)

JS 4960. Senior Seminar. [Formerly JS 296] Advanced reading and research in a particular area of Jewish studies. [3] (No AXLE credit)

JS 4970. Senior Project in Jewish Studies. [Formerly JS 290] Readings and independent research. Prerequisite: senior standing. [3] (No AXLE credit)
LAT 3040. The Roman Historians. [Formerly LAT 215] Selections from Sallust, Livy, and Tacitus, with attention to their objectives and methods; analysis of Roman historiography and its relation to Greek and early Christian historiography. Prerequisite: 2202. [3] (HCA)

LAT 3050. Suetonius. [Formerly LAT 217] Selections from the works of one of Rome’s most important biographers, read in the context of the Latin biographical tradition as well as the political and social background. Prerequisite: 2202. [3] (HCA)

LAT 3060. Tacitus. [Formerly LAT 216] Selections from the works of one of Rome’s most important historians, read in the context of historiographical tradition and political and social background. Prerequisite: 2202. [3] (HCA)

LAT 3100. Roman Comedy. [Formerly LAT 212] Reading of selected comedies of Plautus and Terence: study of the form of Roman comedy and its relation to the Greek New Comedy. Prerequisite: 2202. [3] (HCA)

LAT 3110. Catullus. [Formerly LAT 201] Reading and interpretation of Catullus’ poems; aesthetic, political, and rhetorical contexts; fundamentals of Latin meter. Prerequisite: 2202. [3] (HCA)

LAT 3120. Lucretius: De Rerum Natura. [Formerly LAT 268] Lucretius’ poem studied both in the tradition of Epicurean philosophy and as a landmark in the development of the Latin didactic epic; background material in the fragments of Epicurus and some treatment of the Epicurean movement in Italy and especially in Rome. Prerequisite: 2202. [3] (HCA)

LAT 3140. The Lyric Poetry of Horace. [Formerly LAT 203] Reading and interpretation of Horace’s Epodes and Odes; relation to the Greco-Roman lyric tradition and to Augustan politics. Prerequisite: 2202. [3] (HCA)

LAT 3150. Latin Elegy. [Formerly LAT 204] Authors who created a new type of love poetry during the rule of emperor Augustus: Tibullus, Propertius, Ovid, and Sulpicia. Construction and contestation of gender roles; political contexts; development of the elegiac couplet; modern responses. Prerequisite: 2202. [3] (HCA)

LAT 3160. Ovid. [Formerly LAT 202] Reading and interpretation of selections from the Metamorphoses or other works of Ovid. Prerequisite: 2202. [3] (HCA)

LAT 3170. Roman Satire. [Formerly LAT 264] The satires of Horace and Juvenal; the origins of Roman satire; history and conventions of the genre; background reading in other Roman satirists. Prerequisite: 2202. [3] (HCA)

LAT 3180. Neronian Writers. [Formerly LAT 267] Selections from authors in the literary renaissance during the reign of the artistic Emperor Nero, including Seneca, Lucan, Persius, and Petronius. Stylistic innovations, literary merits, and cultural contexts. Prerequisite: 2202. [3] (HCA)

LAT 3850. Independent Study. [Formerly LAT 289] Designed for majors wanting to familiarize themselves with works or authors not covered in the regular curriculum. Prerequisite: 6 hours above 2202. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of LAT 3850] (No AXLE credit)

LAT 3890. Special Topics in Latin Literature. [Formerly LAT 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (HCA)
Latin American Studies

LAS 1001. Commons Seminar. [Formerly LAS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

LAS 1111. First-Year Writing Seminar. [Formerly LAS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

LAS 2101. Introduction to Latin America. [Formerly LAS 210] A multidisciplinary survey of Latin America from pre-Columbian times to the present emphasizing culture, economic and political patterns, social issues, literature, and the arts in a historical perspective. [3] (INT)

LAS 2102. Introduction to Brazil. [Formerly LAS 202] A multidisciplinary survey of Brazil from pre-Columbian times to the present, emphasizing culture, economic and political patterns, social issues, literature, and the arts in historical perspective. [3] (INT)

LAS 3851. Independent Study. [Formerly LAS 299A] A program of independent readings or research to be selected in consultation with the center’s undergraduate advisor. Open only to juniors and seniors. May be repeated for a total of 12 credits in 3851 and 3852 combined over a four semester period, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 12 credits total for four semesters of LAS 3851 and 3852] (No AXLE credit)

LAS 3852. Independent Study. [Formerly LAS 298B] A program of independent readings or research to be selected in consultation with the center’s undergraduate advisor. Open only to juniors and seniors. May be repeated for a total of 12 credits in 3851 and 3852 combined over a four semester period, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 12 credits total for four semesters of LAS 3851 and 3852] (No AXLE credit)

LAS 3880. Internship Training. [Formerly LAS 280B] Under faculty supervision, students gain experience working in a variety of settings, such as civic, corporate, cultural, government, health, media, political, research, and social welfare organizations in the United States and Latin America. Background reading and research will be completed in Latin American Studies 3881 concurrently with the completion of internship training, Latin American Studies 3880. A minimum of 3 hours of 3881 must be completed, independent of hours taken in 3880. Students may earn up to 6 hours of 3881 credit. A research paper and report must be submitted at the end of the semester during which the internship training is completed. A 2.90 grade point average, 6 hours of prior work in Latin American Studies, and prior approval of the director of undergraduate studies of the student’s plans are required. Corequisite: 3880. [3-6] (No AXLE credit)

LAS 3891. Special Topics in Latin American Studies. [Formerly LAS 294A] Selected special topics suitable for interdisciplinary examination from the perspective of the social sciences and humanities. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

LAS 4901. Research Seminar. [Formerly LAS 290] Selected topics for the interdisciplinary study of Latin America. [3] (No AXLE credit)

Latino and Latina Studies

LATS 3850. Independent Study. 1-3 credits per semester; maximum of 12 credits total for four semesters of LATS 3850. [1-3] (No AXLE credit)

Managerial Studies

MGRL 1001. Commons Seminar. [Formerly MGRL 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

MGRL 2300. Entrepreneurship: The Business Planning Process. [Formerly MGRL 196] Functional areas within companies, business plans at various stages of company development, and critique of business plans for investment suitability. Prerequisites: both 1100 and either FNEC 1600 or FNEC 1605, or BUS 2100. [3] (SBS)

MGRL 3105. Negotiation. [Formerly MGRL 185] Contemporary challenges in leading change in organizations and building effective management teams. The context and dynamics of negotiation; components, structure, and management of negotiations; and varying requirements across the spectrum of negotiation types. [3] (SBS)

MGRL 3110. Business Management. Seminar. Analysis of cases representing strategic decisions in operations, resource management, competitive balance, and product and service offerings. Prerequisite: 1100 (or BUS 2700), and FNEC 1600 or 1605. [3] (SBS)

MGRL 3200. Advanced Marketing. [Formerly MGRL 191] Case study of processes, techniques, and theories of marketing, including branding, advertising, interactive media, sales promotion, and marketing research.
Offered on a graded basis only. Prerequisite: MGRL 1200 or BUS 2600. [3] (SBS)

MGRL 3209. Creative Advertising. [Formerly MGRL 192] Examination and practical application of the creative process in advertising. Creation of marketing campaigns, including the integration of various media. Prerequisite: 1200 or BUS 2600. [3] (SBS)

MGRL 3300. Entrepreneurial Challenge. [Formerly MGRL 195] Simulation of the entrepreneurial experience from idea generation to funding. Development of a complete business plan, including financial projections, and competition for funding from investors. Offered on a graded basis only. Prerequisite: 1100 or BUS 2100. [3] (SBS)

MGRL 3841. Directed Study. [Formerly MGRL 290] Directed readings and related field research toward a scholarly project conceived and executed under the supervision of a faculty member. Limited to juniors and seniors. [3] (No AXLE credit)

MGRL 3851. Independent Study in Managerial Studies. [Formerly MGRL 245] A program of independent reading in consultation with an adviser. Written permission of an instructor and the program director required. [Variable credit: 1-3; may not be repeated] (No AXLE credit)

MGRL 3891. Selected Topics in Managerial Studies. [Formerly MGRL 235] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

Mathematics

MATH 1001. Commons Seminar. [Formerly MATH 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

MATH 1005. Pre-calculus Mathematics. [Formerly MATH 133] Inequalities, functions and graphs, trigonometric identities, theory of equations. Designed for students who plan to take either 1200-1201 or 1300-1301 but need a stronger background in algebra and trigonometry. [3] (No AXLE credit)

MATH 1010. Probability and Statistical Inference. [Formerly MATH 127A] For students not planning to major in science, engineering, or mathematics. Discrete and continuous probability models (exponential, binomial, Poisson, normal). Law of large numbers; conditional probability and Bayes theorem; counting techniques and combinatorics. Descriptive statistics: measures of central tendency and dispersion, histograms. [3] (No AXLE credit)

MATH 1011. Probability and Statistical Inference. [Formerly MATH 127B] For students not planning to major in science, engineering, or mathematics. Linear regression, correlation, hypothesis testing. Confidence intervals, sampling distributions, statistical inference. Prerequisite: 1010. [3] (MNS)

MATH 1100. Survey of Calculus. [Formerly MATH 140] A basic course in the rudiments of analytic geometry and differential and integral calculus with emphasis on applications. Designed for students who do not plan further study in calculus. Students who have earned credit for 1200 or 1300 will earn only one credit for this course. Students who have earned credit for 1201 will earn only three credits for this course. [4] (MNS)

MATH 1111. First-Year Writing Seminar. [Formerly MATH 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

MATH 1200. Single-Variable Calculus I. [Formerly MATH 150A] Review of algebra and trigonometry. Exponential functions; inverse functions and logarithms. Limits; differentiation of algebraic and transcendental functions; rules of differentiation; related rates. Three hours of lecture and one hour of recitation per week. No credit for students who have earned credit for 1100. Students who have earned credit for 1300 will earn only one credit for this course. [3] (MNS)

MATH 1201. Single-Variable Calculus II. [Formerly MATH 150B] Maximum and minimum values; curve sketching. Antiderivatives; the Fundamental Theorem of Calculus; areas and volumes; techniques of integration. Three hours of lecture and one hour of recitation per week. Students who have earned credit for 1100 or 1301 will earn only two credits for this course. Students who have earned credit for 1300 will earn only one credit for this course. Prerequisite: 1200. [3] (MNS)

MATH 1300. Accelerated Single-Variable Calculus I. [Formerly MATH 155A] Functions, limits, differentiation of algebraic functions, integration, applications including extrema problems, areas, volumes, centroids, and work. Students who have earned credit for 1100 will earn only one credit for this course. Students who have earned credit for 1300 will earn only two credits for this course. [4] (MNS)

MATH 1301. Accelerated Single-Variable Calculus II. [Formerly MATH 155B] Differentiation and integration of transcendental functions, applications, methods of integration, coordinate geometry, polar coordinates, infinite series. Students who have earned credit for 1201 will earn only three credits for this course. Students who have earned credit for 2200 will earn only one credit for this course. Prerequisite: 1300 or 1201. [4] (MNS)

MATH 2200. Single-Variable Calculus III. [Formerly MATH 170] Analytic geometry, parametric equations, polar coordinates, infinite series, Taylor series. Repeat credit for students who completed 170b prior to fall 2008. No credit for students who have earned credit for 1301. Prerequisite: 1201. [3] (MNS)

MATH 2300. Multivariable Calculus. [Formerly MATH 175] Vectors, curves, and surfaces in space. Functions of several variables, partial derivatives, multiple integrals. Vector integral calculus, including line and surface integrals. Repeat credit for students who completed 170b prior to fall 2008. No credit for students who have earned credit for 2501. Students who have earned credit for 2500 will earn only one credit for this course. Prerequisite: 1301 or 2200. [3] (MNS)

MATH 2410. Methods of Linear Algebra. [Formerly MATH 194] Vectors and matrix operations. Linear transformations and fundamental properties of finite dimensional vector spaces. Solutions of systems of linear equations. Eigenvalues and eigenvectors. No credit for students who have earned credit for 2400, 2501, or 2600. Students who have earned credit for 2500 will earn only two credits for this course. Prerequisite or corequisite: 2300. [3] (MNS)

MATH 2420. Methods of Ordinary Differential Equations. [Formerly MATH 198] Linear first-order differential equations, applications, higher order linear differential equations, complementary and particular solutions, applications, Laplace transform methods, series solutions, numerical techniques. No credit for students who have earned credit for 2400 or 2610. Prerequisite: 2300 or 2501. [3] (MNS)
MATH 2500. Multivariable Calculus and Linear Algebra. [Formerly MATH 205A] Vector algebra and geometry; linear transformations and matrix algebra. Real and complex vector spaces, systems of linear equations, inner product spaces. Functions of several variables and vector-valued functions: limits, continuity, the derivative. Extremum and nonlinear problems, manifolds. Multiple integrals, line and surface integrals, differential forms, integration on manifolds, theorems of Green, Gauss, and Stokes. Eigenvectors and eigenvalues. Emphasis on rigorous proofs. No credit for students who have earned credit for 2501, 2300, 2410, or 2600. Open only to first-year students with a test score of 5 on the Calculus-BC Advanced Placement examination. [4] (MNS)

MATH 2501. Multivariable Calculus and Linear Algebra. [Formerly NATH 205B] Continuation of 2500. Vector algebra and geometry; linear transformations and matrix algebra. Real and complex vector spaces, systems of linear equations, inner product spaces. Functions of several variables and vector-valued functions: limits, continuity, the derivative. Extremum and nonlinear problems, manifolds. Multiple integrals, line and surface integrals, differential forms, integration on manifolds, theorems of Green, Gauss, and Stokes. Eigenvectors and eigenvalues. Emphasis on rigorous proofs. No credit for students who have earned credit for 2501, 2300, 2410, or 2600. Prerequisite: 2500 and first-year standing. [4] (MNS)

MATH 2600. Linear Algebra. [Formerly MATH 204] Algebra of matrices, real and complex vector spaces, linear transformations, and systems of linear equations. Eigenvalues, eigenvectors, inner product spaces, and orthonormal bases. Designed primarily for mathematics majors. No credit for students who have earned credit for 2410 or 2501. Students who have earned credit for 2500 will earn only two credits for this course. Prerequisite or corequisite: 2300. [3] (MNS)

MATH 2610. Ordinary Differential Equations. [Formerly MATH 208] First- and second-order differential equations, applications. Matrix methods for linear systems; stability theory of autonomous systems; existence and uniqueness theory. Intended for mathematics and advanced science majors. No credit for students who have earned credit for 2400 or 2420. Prerequisite: concurrent enrollment in 2501 or prior credit for either 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 2820. Introduction to Probability and Mathematical Statistics. [Formerly MATH 218] Discrete and continuous probability models, mathematical expectation, and joint densities. Laws of large numbers, point estimation, and confidence intervals. Hypothesis testing and applications. Students taking 2820 are encouraged to take 2820L concurrently. No credit for students who have earned credit for 2810. Prerequisite: 2300 or 2501. [3] (MNS)

MATH 2820L. Statistics Laboratory. [Formerly MATH 218L] Applications of the theory developed in 2820. Emphasis on data analysis and interpretation. Topics include the one- and two-sample problems, paired data, correlation and regression, chi-square, and model building. Prerequisite or corequisite: 2810 or 2820. [1] (No AXLE credit)

MATH 3000. History of Mathematics. [Formerly MATH 252] Major developments in mathematics from ancient times to the early twentieth century. Emphasis both on the historical perspective and the mathematics; assignments include many exercises and theorems. Highly recommended for teacher candidates. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3010. Intensive Problem Solving and Exposition. [Formerly MATH 200] Intended to develop widely-applicable mathematical skills. Basic principles such as induction, the pigeonhole principle, symmetry, parity, and generating functions. Prerequisite: 2300 or 2500. [3] (MNS)

MATH 3100. Introduction to Analysis. [Formerly MATH 260] Properties of real numbers, compactness and completeness. Limits, sequences and series, uniform convergence, and power series. Basic properties of functions on the real line, and the elementary theory of differentiation and integration. Emphasis on methods of proof used in advanced mathematics courses. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3110. Complex Variables. [Formerly MATH 261] Complex numbers, analytic and elementary functions, transformations of regions. Complex integrals, Cauchy’s integral theorem and formula, Taylor and Laurent series. The calculus of residues with applications, conformal mappings. Prerequisite: 2300 or 2501. [3] (MNS)

MATH 3120. Introduction to Partial Differential Equations. [Formerly MATH 234] Initial- and boundary-value problems for partial differential equations using separation of variables in conjunction with Fourier series and integrals. Explicit solutions of problems involving the heat equation, the wave equation, and Laplace’s equation. Prerequisite: Either 2410, 2600, or 2501 and either 2400, 2420, or 2610. [3] (MNS)

MATH 3130. Fourier Analysis. [Formerly MATH 263] Fourier series topics including convolution, Poisson kernels, Dirichlet kernels, and pointwise and mean-square convergence. Integral transforms including one-dimensional and multidimensional Fourier integrals, Fourier inversion formula and Plancherel theorem, Poisson summation formula, Radon transform, and X-ray transform. Fourier analysis on Abelian groups including finite Fourier analysis and fast Fourier transform. Applications to signal processing, Shannon sampling theory, and/or compressed sensing. Repeat credit for students who completed 267 section 1 in spring 2011 or spring 2013. Prerequisite: Either 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3165. Advanced Calculus. [Formerly MATH 259] Advanced treatment of multivariable calculus. Differentiation of functions of several variables, including inverse and implicit function theorems. Vector differential calculus. Integration of functions of several variables. Vector integral calculus, including Stokes’ theorem. No credit for students who have earned credit for 3600. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3210. Transformation Geometry. [Formerly MATH 240] Transformations of the plane, groups of transformations, reflections, glide reflections, classification of the isometries of the plane, frieze groups, analysis of frieze patterns, wallpaper groups, and analysis of wall paper patterns. Especially recommended for prospective teachers of mathematics. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 3220. Introduction to Differential Geometry. Smooth maps, tangent space, and surfaces and hypersurfaces in n-dimensional Euclidean space. Inverse and Implicit Function theorems. Sard’s theorem. Transversality. Degree of a map; intersection theory modulo 2. Orientability and oriented intersection number. No credit for students who have earned credit for 4220. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3300. Abstract Algebra. [Formerly MATH 223] Fundamental properties of integers and polynomials. Elementary properties of groups,
rings, integral domains, fields, and lattices. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 3310. Introduction to Mathematical Logic. [Formerly MATH 250] Development of the first order predicate calculus and fundamental metamathematical notions. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 3320. Error-Correcting Codes and Cryptography. [Formerly MATH 253] Applications of algebra to reliability and secrecy of information transmission. Error-correcting codes, including linear, Hamming, and cyclic codes, and possibly BCH or Reed-Solomon codes. Cryptography, including symmetric-key, DES and RSA encryption. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 3620. Introduction to Numerical Mathematics. [Formerly MATH 226] Numerical solution of linear and nonlinear equations, interpolation and polynomial approximation, non-numerical differentiation and integration. Least-squares curve fitting and approximation theory, numerical solution of differential equations, errors and floating point arithmetic. Application of the theory to problems in science, engineering, and economics. Student use of the computer is emphasized. Familiarity with computer programming is expected. Prerequisite: Either 2410, 2600, or 2501, and either 2400, 2420, or 2610. [3] (MNS)

MATH 3630. Mathematical Modeling in Biology and Medicine. [Formerly MATH 262] Basic mathematical modeling tools, such as interpolation, least-squares regression, difference equations, and ordinary and partial differential equations. Statistical analysis of data, support vector machines, and computer simulation. Familiarity with computer programming is expected. Prerequisite: Either 2410, 2600, or 2501, and either 2400, 2420, or 2610. [3] (MNS)

MATH 3640. Probability. [Formerly MATH 247] Combinatorics, probability models (binomial, Poisson, normal, gamma, etc.) Stochastic independence, generating functions, limit theorems and types of convergence, bivariate distributions, transformations of variables. Markov processes, applications. Except for students with extremely strong backgrounds, 2820 should be taken prior to 3640. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 3641. Mathematical Statistics. [Formerly MATH 248] Distribution theory, order statistics, theory of point estimation and hypothesis testing, normal univariate inference, Bayesian methods, sequential procedures, regression, nonparametric methods. Students interested in applications may take 2820L. Prerequisite: 3640. [3] (MNS)

MATH 3650. Introduction to Actuarial Mathematics. [Formerly MATH 246A] Applications of calculus and probability to actuarial science. The foundations of financial mathematics, including the theory of interest. Prerequisite: 2300 or 2501. Prerequisite or corequisite: 2810, 2820, or 3640. [3] (MNS)

MATH 3700. Discrete Mathematics. [Formerly MATH 215] Elementary combinatorics including permutations and combinations, the principle of inclusion and exclusion, and recurrence relations. Graph theory including Eulerian and Hamiltonian graphs, trees, planarity, coloring, connectivity, network flows, some algorithms and their complexity. Selected topics from computer science and operations research. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 3859. Independent Study. [Formerly MATH 298] Reading and independent study in mathematics under the supervision of an adviser. Designed primarily for honors candidates, but open to others with approval by department chair. [Variable credit: 1-3 each semester, not to exceed 6 without departmental permission] [No AXLE credit]

MATH 3890. Selected Topics for Undergraduates. [Formerly MATH 267] Topics vary. May be repeated for a total of 12 credits in 3890 and 3895 combined if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [1-3; maximum of 12 credits total for all semesters of MATH 3890 and 3895 combined] [No AXLE credit]

MATH 4110. Partial Differential Equations. [Formerly MATH 294] Classification of equations: equations of elliptic, parabolic, and hyperbolic type. Separation of variables, orthonormal series, solutions of homogeneous and nonhomogeneous boundary value problems in one-, two-, and three-dimensional space. Possible additional topics include subharmonic functions and the Perron existence theorem for the Laplace equation of Sturm-Liouville theory. Prerequisite: Either 2410, 2600, or 2501, and either 2400, 2420, or 2610. [3] (MNS)

MATH 4220. Differentiable Manifolds. [Formerly MATH 243] Manifolds in n-dimensional Euclidean space, smooth maps; inverse and implicit function theorems. Regular value theorem, immersions and submersions, Sard’s theorem, and transversality. Degree of a map; winding numbers and the Fundamental Theorem of Algebra; intersection theory modulo 2. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 4300. Modern Algebra. [Formerly MATH 283A] Group theory through Sylow theorems and fundamental theorem of finitely generated abelian groups. Prerequisite: 3500. [3] (MNS)

MATH 4301. Modern Algebra. [Formerly MATH 283B] Introductory theory of commutative rings and fields, and additional topics such as Galois theory, modules over a principal ideal domain and finite dimensional algebras. Prerequisite: 4300. [3] (MNS)

MATH 4310. Set Theory. [Formerly MATH 285] The basic operations on sets. Cardinal and ordinal numbers. The axiom of choice. Zorn’s lemma, and the well-ordering principle. Introduction to the topology of metric spaces, including the concepts of continuity, compactness, connectivity, completeness, and separability. Product spaces. Applications to Euclidean spaces. Strongly recommended for beginning graduate students and for undergraduates who plan to do graduate work in mathematics. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 4600. Numerical Analysis. [Formerly MATH 286] Finite difference and variational methods for elliptic boundary value problems, finite difference methods for parabolic and hyperbolic partial differential equations,
and the matrix eigenvalue problem. Student use of the computer is emphasized. Prerequisite: 3620. [3] (MNS)

MATH 4610. Methods of Mathematical Physics. [Formerly MATH 292] Linear operators on vector spaces, matrix theory, and Hilbert spaces. Functions of a complex variable and calculus of residues. Ordinary and partial differential equations of mathematical physics, boundary value problems, special functions. Prerequisite: Either 2410, 2600, or 2501, and either 2400, 2420, or 2610. [3] (MNS)

MATH 4620. Linear Optimization. [Formerly MATH 288] An introduction to linear programming and its applications. Formulation of linear programs. The simplex method, duality, complementary slackness, dual simplex method and sensitivity analysis. The ellipsoid method. Interior point methods. Possible additional topics include the primal-dual algorithm, cutting planes, or branch-and-bound. Applications to networks, management, engineering, and physical sciences. Prerequisite: either 2410, 2600, or 2501, and either CS 1101 or 1103. [3] (MNS)

MATH 4630. Nonlinear Optimization. [Formerly MATH 287] Mathematical modeling of optimization problems. Theory of unconstrained and constrained optimization, including convexity and the Karush-Kuhn-Tucker conditions. Derivative- and non-derivative-based methods. Familiarity with computer programming is expected. Prerequisite: 2501 or both 2300 and either 2410 or 2600. [3] (MNS)

MATH 4650. Financial Stochastic Processes. [Formerly MATH 249A] The theory of stochastic processes and applications to financial economics. Brownian motion; martingales; Itô’s Lemma; stochastic integration. Monte Carlo simulations with variance reduction techniques. Applications include discrete-time option pricing and delta hedging. Prerequisite: 3650 and either 2810, 2820, or 3640. [3] (MNS)

MATH 4700. Combinatorics. [Formerly MATH 274] Elements of enumerative analysis including permutations, combinations, generating functions, recurrence relations, the principle of inclusion and exclusion, and Polya’s theorem. Some special topics will be treated as class interest and background indicate (e.g., Galois fields, theory of codes, and block designs). Students unfamiliar with permutations, combinations, and basic counting techniques should take 3700 prior to 4700. Prerequisite: 2410, 2600, or 2501. [3] (MNS)

MATH 4999. Senior Thesis. [Formerly MATH 269] A written presentation of research results, original for the student but not usually original in the larger sense. The regulations governing the writing of a masters of arts thesis in mathematics will apply to the writing of the senior thesis. [3] (No AXLE credit)

Medicine, Health, and Society

MHS 1001. Commons Seminar. [Formerly MHS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

MHS 1111. First-Year Writing Seminar. [Formerly MHS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

MHS 1930. Social Dimensions of Health and Illness. [Formerly MHS 201] Multidisciplinary introduction to health conditions from perspectives of anthropology, economics, history, political science and policy studies, philosophy, religious studies, and sociology. Guest lectures by representatives of various disciplines. [3] (P)

MHS 1950. Theories of the Body. Interdisciplinary study of the human body through critical theory, history, philosophy, art, and popular culture. How cultural understandings of bodies reflect broader social, political, scientific, and legal regimes. No credit for students who have earned credit for 290-02 in fall 2013. [3] (HCA)

MHS 2150. Medical Humanities. [Formerly MHS 248] Conceptual and creative analysis of philosophy, literature, art, and music to identify and account for human nature in the medical context. Ethical, practical, and social management of medical technology. Theories of art, music, and literature to understand human creativity and self-explanation in the face of illness and difference. Serves as repeat credit for students who completed 295 section 2 in either spring 2010 or spring 2009. [3] (HCA)

MHS 2240. Bionic Bodies, Disability Cultures. [Formerly MHS 242] Historical and cultural evolution of prosthetics, artificial limbs, and other assistive technologies. Shifts in social views resulting from war, economics, and art and design. [3] (HCA)

MHS 2250. War and the Body. [Formerly MHS 212] Impact of war on the human body. Anthropology of the body and theories of bodily experience. Production, representation, and experience of war and of military and medical technologies on a bodily level. Acceptable and unacceptable types of harm. No credit for students who earned credit for 290 section 2 in fall 2012. [3] (P)

MHS 2320. Medicine, Law, and Society. [Formerly MHS 244] Survey of issues in medicine and law, including the physician-patient relationship.
medical malpractice, organ donation, healthcare financing, and the limits and powers of the government to protect the public’s health. Serves as repeat credit for students who completed 290 section 3 in fall 2010, 290 section 2 in spring 2010, or 290 section 2 in spring 2009. [3] (SBS)

MHS 2330. Men’s Health Research & Policy. [Formerly MHS 234] Concepts and theories of men’s health. Global and domestic issues. Effect of men’s social and economic advantages on health outcomes. Strategies to improve men’s health; relationships between cultural values and health policy; and cultural explanations that shape men’s health campaigns. No credit for students who earned credit for 290 section 14 in spring 2013. [3] (SBS)

MHS 2350. Italian Representations of Wellness and Illness. From 1300 to the present. Depictions of health and sickness in Italian literature, art, and film. Historical, cultural, and social dimensions of health in Italy and changes in the societal approach to health. Italian society’s views on health, wellness, and the stigmatization of physical and mental illness. [3] (INT)

MHS 2410. HIV/AIDS in the Global Community. [Formerly MHS 236] Medical, social, political, economic, and public policy dimensions of HIV/AIDS. Prevention and treatment strategies, social stigma, and discrimination. Repeat credit for students who completed 290 section 2 in fall 2009 and for students who completed 290 section 5 in fall 2008. [3] (P)

MHS 2420. Economic Demography and Global Health. [Formerly MHS 206] Economic consequences of demographic change in developing and developed countries. Links between socioeconomic status and health; relationship between health and economic growth; determinants of fertility, mortality, and migration. [3] (SBS)

MHS 2430. Social Capital and Health. [Formerly MHS 240] Theoretical approaches to social capital and their applications to the social production of disease and illness. Theoretical background of social capital; the conceptualization and measurement of social capital; and the multiple roles of social capital as a social antecedent of health. Serves as repeat credit for students who completed 290 section 5 in spring 2010 and section 1 in spring 2011. [3] (SBS)

MHS 2510. Caring for Vulnerable Populations. [Formerly MHS 237] Humanitarian aid and the risks and responsibilities in providing for vulnerable populations. Differences between acute and chronic crises. Geopolitical, cultural, clinical, and practical factors. Serves as repeat credit for students who completed 290 section 3 in spring 2010 and for students who completed 290 section 4 in either spring 2009 or spring 2008. [3] (No AXLE credit)

MHS 2610. Global Health Crises. Development of global health priorities, responses to emerging crises, and unintended consequences of global health interventions. No credit for students who have earned credit for 3890-01 offered fall 2015 or 3890-02 offered spring 2016. [3] (INT)

MHS 2920. Medicine on Trial. Medicine as an object of dispute and a source of evidence in courts of law. Key cases and issues in Western law. Medicine adjudicated in religious, military, tribal, national, and international courts. No credit for students who have earned credit for 290-01 offered fall 2014. [3] (SBS)

MHS 2940. Race, Citizenship, and Health. Social and historical impacts of immigration, settlement, nation formation, labor exploitation, imperialism, and globalization on populations categorized as victims, vectors of disease, or sanitary citizens. Health as a key site in which the meaning of race and citizenship are developed and navigated. No credit for students who have earned credit for 3000 offered fall 2016 or spring 2017. [3] (P)

MHS 2950. Healing Animals. Animals as subjects of medical research and as patients in veterinary medicine. Health of animals as friends, food, entertainment, and vectors of disease. Celebration and concealment of the centrality of animals in modern medicine through legal, economic, social, and emotional techniques. No credit for students who earned credit for 290-03 offered spring 2015. [3] (P)

MHS 3000. Undergraduate Seminar. [Formerly MHS 296] Advanced reading, research, and writing. Topics vary. Limited to juniors and seniors with preference to majors in Medicine, Health, and Society. May be repeated for credit once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Offered on a graded basis only. [3; maximum of 6 credits total for all semesters of MHS 3000] (No AXLE credit)

MHS 3010. Global Health Principles and Practice. Introduction to major global health principles and practices in the developing and developed world. Perspectives of public health practitioners and critical thinking about global health challenges and solutions. [3] (P)

MHS 3030. Community Health Research. [Formerly MHS 235] Conceptual and methodological challenges. Focus on descriptive studies and intervention research to address health disparities in chronic diseases and psychiatric disorders. [3] (SBS)

MHS 3050W. Medicine and Literature. [Formerly MHS 205W] Narrative analysis, and other humanistic, interpretative practices of relevance to medicine and health. [3] (HCA)

MHS 3110. Global Health and Social Justice. [Formerly MHS 204] Global health institutions, policies, and practices. Issues of social justice. Anthropological, sociological, and scientific studies that address the social, moral, political and economic factors influencing the definition of and response to global health problems. No credit for students who earned credit for 290 section 4 in fall 2012. [3] (P)

MHS 3150. Death and Dying in America. [Formerly MHS 225] Interdisciplinary introduction to thanatology; changes in medicine and attitudes towards dying as they reshape the American way of death in a multicultural landscape. [3] (P)

MHS 3212. Health, Development, and Culture in Guatemala. [Formerly MHS 218B] Social and political dimensions of health and development in Guatemala through fieldwork and service learning in rural Maya communities in Quetzaltenango and Sololá. Prerequisite: 3210. [1-3] (No AXLE credit)

MHS 3220. Healthcare Organizations. [Formerly MHS 222] Key healthcare organizations in the context of policies governing the U.S. healthcare system. How organizations and policies shape the meaning of health and the dynamics of medical encounters. No credit for students who have earned credit for 295 in spring 2012. [3] (SBS)
interpreative paper under the supervision of a Vanderbilt faculty member.

MHS 3310. Health Care in France and the U.S. [Formerly MHS 256] Comparison of contemporary health care systems and the evolution of medicine and health policies in France and the United States. Includes travel to France to visit health care delivery centers and meet with health professionals. Knowledge of French is not required. No credit for students who have earned credit for 295 section 02 in spring 2013. [3] (SBS)

MHS 3350. Medicine, Religion, and Spirituality. [Formerly MHS 246] How individuals, families, and communities deal with such life events as birth, serious illness and injury, disability, war, and death through the combined belief in medicine and religion. Sources include fiction, poetry, drama, film, and texts. Research seminar. Serves as repeat credit for students who completed 295 section 2 in either fall 2009 or fall 2008. [3] (No AXLE credit)

MHS 3450. Mental Illness Narratives. Mental illness experiences through memoir, film, and spoken word. No credit for students who have earned credit for 3890-01 offered spring 2017 or 3890-02 offered fall 2016. [3] (P)

MHS 3830. Service Learning. [Formerly MHS 294A] Under faculty supervision, students will design a program of community service associated with a set of learning objectives. The service component (3830) should benefit both the recipient and the provider of the service, offering the latter opportunities for self-reflection, self-discovery, and the development of values, skills, and knowledge. A central objective must be firsthand experience of a central issue or issues studied in sociology, psychology, political science, economics, or another academic discipline. The MHS program will work to find placements for interested students. The other component, 3831, will consist of an independent study in the relevant discipline and must be closely linked to the issues addressed in 3830. For example, a student may provide services to the elderly in nursing homes and use 3831 to study how state and federal policies affect the delivery of health care and other services to nursing home populations. To be accepted, students must have a 2.90 overall grade point average and 6 hours of prior work in approved MHS courses. They must submit a specific plan for the service-learning experience to the MHS program director. Must be taken Pass/Fail and concurrently with 3831. These hours shall not be included in the minimum hours required for the MHS major or minor. After completing the experience, all students must write a thorough report. Corequisite: 3831. [1-3] (No AXLE credit)

MHS 3831. Service Learning Research and Readings. [Formerly MHS 294B] Under faculty supervision, students will design a program of community service associated with a set of learning objectives. The service component (3830) should benefit both the recipient and the provider of the service, offering the latter opportunities for self-reflection, self-discovery, and the development of values, skills, and knowledge. A central objective must be firsthand experience of a central issue or issues studied in sociology, psychology, political science, economics, or another academic discipline. The MHS program will work to find placements for interested students. The other component – 3831 – will consist of an independent study in the relevant discipline and must be closely linked to the issue(s) addressed in 3830. For example, a student may provide services to the elderly in nursing homes and use 3831 to study how state and federal policies affect the delivery of health care and other services to nursing home populations. To be accepted, students must have a 2.90 overall grade point average and 6 hours of prior work in approved MHS courses. They must submit a specific plan for the service-learning experience to the MHS program director. Students will write a substantial research or interpretative paper under the supervision of a Vanderbilt faculty member on a topic related to their service learning experience. Corequisite: 3830. [1-3] (No AXLE credit)

MHS 3850. Independent Study. [Formerly MHS 296] A program of reading and/or research in one area of MHS studies to be selected in consultation with an adviser. Normally limited to qualified MHS minors or majors. Approval of faculty adviser and MHS program director required for enrollment. May be repeated for credit once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. (However, students in the MHS honors program may count a total of 12 hours in MHS 3850, including the 6 hours in the senior year devoted to preparation of the honors thesis. The same instructor will ordinarily supervise work on the honors thesis in both fall and spring semesters; a student may work with a thesis adviser who has previously supervised an independent study with that student.) [1-3; maximum of 6 credits for all semesters of MHS 3850; maximum of 12 credits for students in the MHS honors program] (No AXLE credit)

MHS 3880. Internship Training. [Formerly MHS 293A] Under faculty supervision, students from any discipline can gain experience in a broad range of public and private agencies, institutions, and programs devoted to health care, public health, health-related policy and research. Two options are available. (1) Full-time: 12-15 hours total, including 6-9 hours in 3880, and 6 hours in 3881. (2) Part-time: 2-9 hours total, including 1-6 hours in 3880 and 1-3 hours in 3881. To be accepted for either option, students must have a 2.90 grade point average and 6 hours of prior work in approved MHS courses; they must submit a specific plan for the internship to the MHS program director. After completing the internship, all students must write a thorough report. Note: All work for an internship must be completed during a single semester or summer. Must be taken Pass/Fail and concurrently with 3881. These hours shall not be included in the minimum hours required for the MHS major or minor. [Variable credit: 1-9] (No AXLE credit)

MHS 3881. Internship Readings and Research. [Formerly MHS 293B] Under faculty supervision, students from any discipline can gain experience in a broad range of public and private agencies, institutions, and programs devoted to health care, public health, health-related policy and research. Two options are available. (1) Full-time: 12-15 hours total, including 6-9 hours in 3880, and 6 hours in 3881. (2) Part-time: 2-9 hours total, including 1-6 hours in 3880 and 1-3 hours in 3881. To be accepted for either option, students must have a 2.90 grade point average and 6 hours of prior work in approved MHS courses; they must submit a specific plan for the internship to the MHS program director. After completing the internship, all students must write a thorough report. Note: All work for an internship must be completed during a single semester or summer. Students will write a substantial research or interpretative paper under the supervision of a regular Vanderbilt faculty member. Corequisite: 3881. [Variable credit: 1-6] (No AXLE credit)

MHS 3890. Special Topics. [Formerly MHS 290] May be repeated for credit twice if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [1-3; maximum of 9 credits total for all semesters of MHS 3890] (No AXLE credit)

MHS 4010. Psychiatry, Culture, and Globalization. [Formerly MHS 252] Cross-cultural analysis of mental illness; the emergence of cultural psychiatry; and the globalization of biopsychiatry and neuroscience. No credit for students who earned credit for 295 section 2 in fall 2012. [3] (P)

MHS 4998. Honors Research. [Formerly MHS 297] Offered on a graded basis only. Limited to seniors admitted to the departmental honors program. [3] (No AXLE credit)

MHS 4999. Honors Thesis. [Formerly MHS 298] Offered on a graded basis only. Limited to seniors admitted to the departmental honors program. [3] (No AXLE credit)
Military Science

MS 1510. American Military History: Principles of War. [Formerly MS 151] Offered on a pass/fail basis only. [3]

Naval Science

NS 1100. Introduction to Naval Science (Navy and Marine option). [Formerly NS 100] No Credit Toward Current Degree. [3]

NS 2410. Organization and Management (Navy & Marine option). [Formerly NS 241] [3]

NS 2420. Leadership and Ethics (Navy & Marine option). [Formerly NS 242] No Credit Toward Current Degree. [3]

Neuroscience

NSC 1001. Commons Seminar. [Formerly NSC 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

NSC 2060. Elective (Cellular and Molecular). [Formerly 71AT] This course has no Vanderbilt equivalent. Credit is eligible to count toward the Cellular and Molecular elective.

NSC 2065. Elective (Systems and Integrative). [Formerly 72AT] This course has no Vanderbilt equivalent. Credit is eligible to count toward the Systems and Integrative elective.

NSC 2201. Neuroscience. [Formerly NSC 201] Physiology of nerve cells, sensory and motor systems, sleep, speech, and sexual behavior. Clinical topics include the chemical basis of psychosis, diseases of the brain, and repair mechanisms after brain injury. [3] (MNS)

NSC 3235. Biological Basis of Mental Disorders. [Formerly NSC 235] Cellular and molecular neuropathology of cortical dysfunction resulting from affective disorders, drug addiction, neurodegenerative disease, and stroke. Prerequisite: 2201. [3] (MNS)

NSC 3240. Neurobiology of Addiction. Neural basis of the regulation and dysregulation of reward processing. Pathophysiology of addiction. No credit for students who have earned credit for 3891 section 01 offered spring 2016. Prerequisite 2201. [3] (MNS)

NSC 3270. Computational Neuroscience. [Formerly NSC 270] Theoretical, mathematical, and simulation models of neurons, neural networks, or brain systems. Computational approaches to analyzing and understanding data such as neurophysiological, electrophysiological, or brain imaging. Demonstrations simulating neural models. Prerequisite: 2201, either CS 1101 or 1103, and either MATH 1200 or 1300. [3] (MNS)

NSC 3851. Independent Reading in Neuroscience. [Formerly NSC 291] Reading and discussion of research papers on a selected topic under direction of a faculty sponsor. Consent of both faculty sponsor and the director of honors and independent study is required. May be repeated for credit once if there is no duplication in topic, but students may earn only up to 1 credit per semester of enrollment. [1] maximum of 2 credits for all semesters of NSC 3851. (No AXLE credit)

NSC 3860. Introduction to Neuroscience Research. [Formerly NSC 190] Research and reading in the laboratory of a member of the Neuroscience Program. Consent of the Director of Honors and Independent Research is required. Serves as repeat credit for students who have completed 290. [1] (No AXLE credit)

NSC 3861. Undergraduate Research. [Formerly NSC 292A] Original student research on a defined problem in neuroscience under the direction of a faculty sponsor. Consent of both the faculty sponsor and the director of honors and independent studies is required. Prerequisite: 3860 or both 2201 and sophomore standing. [2] (No AXLE credit)

NSC 3862. Undergraduate Research. [Formerly NSC 292B] Continuation of 3861. Original student research on a defined problem in neuroscience under the direction of a faculty sponsor. Consent of both the faculty sponsor and the director of honors and independent studies is required. Prerequisite: 3861. [2] (No AXLE credit)

NSC 3863. Advanced Research in Neuroscience. [Formerly NSC 293A] Original student research on a defined problem in neuroscience under the direction of a faculty sponsor with some independence in the design and execution of the project. Consent of both the faculty sponsor and the director of honors and independent studies is required. May be taken for credit more than once, but students may earn only up to 3 credits per semester. Prerequisite 3863. [3] (No AXLE credit)

NSC 3864. Advanced Research in Neuroscience. [Formerly NSC 293B] Continuation of a research project on a defined problem in neuroscience under the direction of a faculty sponsor with some independence in the design and execution of the project. Consent of both the faculty sponsor and the director of honors and independent studies is required. May be taken for credit more than once, but students may earn only up to 3 credits per semester. Prerequisite 3863. [3] (No AXLE credit)

NSC 3871. Evaluation of Clinical Neuroscience Practice I. First of a two-semester immersion experience. Shadow a doctor, prepare a systematic review or meta-analysis on an observed procedure or intervention. Prerequisite: junior or senior class standing, major in Neuroscience, and approval of instructor. [2] (No AXLE credit)

NSC 3872. Evaluation of Clinical Neuroscience Practice II. Second of a two-semester immersion experience. Empirical evaluation of clinical neuroscience medical practice. Prepare a systematic review or meta-analysis on an observed procedure or intervention. Prerequisite: junior or senior class standing, major in Neuroscience, 3871, and approval of instructor. [2] (No AXLE credit)

NSC 3871. Special Topics in Cellular and Molecular Neuroscience. [Formerly NSC 255] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 2201. [3] (MNS)

NSC 3892. Special Topics in Systems and Integrative Neuroscience. [Formerly NSC 287] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 2201. [3] (MNS)

NSC 4969. Senior Seminar in Neuroscience. [Formerly NSC 299] Seminar with advanced reading, discussion, and writing on a specific topic in neuroscience. Limited to seniors. [3] (No AXLE Credit)
Philosophy

PHIL 1001. Commons Seminar. [Formerly PHIL 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PHIL 1002. Introduction to Philosophy. [Formerly PHIL 100] An introduction to the basic problems of philosophy based upon readings in the works of selected leading philosophers. Repeat credit for students who have completed 1002W. [3] (HCA)

PHIL 1002W. Introduction to Philosophy. [Formerly PHIL 100W] An introduction to the basic problems of philosophy based upon readings in the works of selected leading philosophers. Repeat credit for students who have completed 1002. [3] (HCA)

PHIL 1003. General Logic. [Formerly PHIL 102] A study of the uses of language, definition, informal fallacies, the theory of the syllogism, the basic distinctions of modern symbolic logic and selected issues in inducive logic and scientific method. Emphasis is placed on the ambiguities and pitfalls of ordinary usage and on techniques for translating ordinary arguments into formal logic. [3] (MNS)

PHIL 1004. Introduction to Asian Philosophy. [Formerly PHIL 103] Philosophical thought of Asian origin, especially India and China, from ancient times to the present, theoretical and practical concerns. Repeat credit for students who have completed 1004W. [3] (INT)

PHIL 1004W. Introduction to Asian Philosophy. [Formerly PHIL 103W] Philosophical thought of Asian origin, especially India and China, from ancient times to the present, theoretical and practical concerns. Repeat credit for students who have completed 1004. [3] (INT)

PHIL 1008. Introduction to Medical Ethics. [Formerly PHIL 108] Moral issues in the practice of medicine, biomedical research, policies and regulations related to health care. Repeat credit for students who have completed 1008W. [3] (P)

PHIL 1008W. Introduction to Medical Ethics. [Formerly PHIL 108W] Moral issues in the practice of medicine, biomedical research, policies and regulations related to health care. Repeat credit for students who have completed 1008. [3] (P)

PHIL 1100. Introduction to Business Ethics. [Formerly PHIL 110] Ethical issues arising from business and professional practice. Topics will include: corporate social responsibility, employee rights, technology and privacy in the workplace, corporate governance, and globalization. [3] (P)

PHIL 1101. First-Year Writing Seminar. [Formerly PHIL 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentation, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1101 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

PHIL 1200. The Meaning of Life. [Formerly PHIL 120] Accounts of life's meaning. The relations between ways of living, happiness, and the fact of death. The individual's role in giving meaning to life. Readings from Mill, Tolstoy, Kierkegaard, and several contemporary thinkers. Repeat credit for students who have completed 1200W. [3] (HCA)

PHIL 1200W. The Meaning of Life. [Formerly PHIL 120W] Accounts of life's meaning. The relations between ways of living, happiness, and the fact of death. The individual's role in giving meaning to life. Readings from Mill, Tolstoy, Kierkegaard, and several contemporary thinkers. Repeat credit for students who have completed 1200. [3] (HCA)

PHIL 2001. Hellenistic and Late Ancient Philosophy. [Formerly PHIL 218] Philosophical ideas of Stoics, Cynics, Epicureans, skeptics, Peripatetics, Neoplatonists, and early monotheist thinkers such as Philo, Origen, and Philostratus. [3] (HCA)

PHIL 2002. Medieval Philosophy. [Formerly PHIL 211] Comparative study of key figures in Islamic, Jewish, and Christian philosophy as they struggle with the philosophy of logic, metaphysics, language, culture, politics, ethics, and nature. [3] (INT)

PHIL 2110. Contemporary Philosophy. [Formerly PHIL 213] An examination of selected problems treated in recent philosophical literature such as meaning, perception, knowledge, truth, and freedom. Readings from the Anglo American analytical and the phenomenological traditions. [3] (HCA)

PHIL 2660. Philosophy of Music. [Formerly PHIL 249] Music and meaning, language, emotion, expression, interpretation, performance, the body, and politics. No musical background is required. [3] (HCA)

PHIL 3003. Formal Logic and Its Applications. [Formerly PHIL 202] A self-contained course designed to convey an understanding of the concepts of modern formal logic, to develop convenient techniques of formal reasoning, and to make some applications of them in one or more of the following: psychology, linguistics, structuralist studies, information and computer sciences, and the foundations of mathematics. Philosophy 1003 is not required. [3] (MNS)

PHIL 3005. Jewish Philosophy. [Formerly PHIL 261] Introduction to Jewish philosophy and the philosophical achievement of such major figures as Philo, Saadia, Maimonides, Levinas, and selected contemporary thinkers. [3] (HCA)

PHIL 3006. Islamic Philosophy. [Formerly PHIL 262] Introduction to the major figures of Islamic philosophy including Kindi, Razi, Farabi, Avicenna, and Ibn Khaldun. [3] (INT)

PHIL 3007. French Feminism. [Formerly PHIL 263] Introduction to the tradition of French feminist philosophy, including relevant works by Beauvoir, Cixous, Irigaray, Kristeva, LeDoeuff, Kolman, and others. [3] (No AXLE credit)

PHIL 3008. American Philosophy. [Formerly PHIL 222] A study of the works of selected American philosophers from the colonial period to the present. [3] (US)

PHIL 3009. Existential Philosophy. [Formerly PHIL 224] A study of two or three existential philosophers and selected problems that arise in relation to their thought. [3] (HCA)

PHIL 3010. Phenomenology. [Formerly PHIL 226] Selected readings from such thinkers as Husserl, Sartre, and Merleau-Ponty on the structures...
of experience, the sources and limits of knowledge, mind, and body, interpersonal relations, and the meaning of freedom. [3] (HCA)

PHIL 3011. Critical Theory. [Formerly PHIL 232] The Frankfurt School; mass culture, ideology, and modernism in the arts; the disenchantment of reason; alienation and fascism; the prospects for experience and political critique. Readings include Adorno, Horkheimer, Marcuse, Benjamin, and Habermas. [3] (HCA)

PHIL 3012W. Writing as Political Resistance. [Formerly PHIL 233W] Writings from the political margins from authors under house arrest, in exile, or in prison. Expressions of active resistance to oppressive, and occasionally violent, political institutions. [3] (P)

PHIL 3103. Immanuel Kant. [Formerly PHIL 220] Kant’s revolutionary critique of the foundations of human knowledge, moral obligation, and religious faith, with readings from his three Critiques and lesser works. [3] (HCA)

PHIL 3601. Metaphysics. [Formerly PHIL 217] Selected problems in metaphysics such as ultimate explanation, meaning of existence, time and eternity, freedom and determinism, and science and religion. [3] (HCA)

PHIL 3602. Philosophy of History. [Formerly PHIL 231] Focus on alternative conceptions of time and history in Aristotle, Augustine, Kant, Hegel, Heidegger, and Benjamin. [3] (HCA)

PHIL 3606. Moral Problems. [Formerly PHIL 239] A discussion of specific moral problems such as the justification of abortion and euthanasia. Moral theories such as utilitarianism will be discussed, but the emphasis will be on their relevance to the solution of moral problems. Repeat credit for students who have completed 3606W. Prerequisite: 1005. [3] (P)

PHIL 3606W. Moral Problems. [Formerly PHIL 239W] A discussion of specific moral problems such as the justification of abortion and euthanasia. Moral theories such as utilitarianism will be discussed, but the emphasis will be on their relevance to the solution of moral problems. Repeat credit for students who have completed 3606. Prerequisite: 1005. [3] (P)

PHIL 3608. Ethics and Medicine. [Formerly PHIL 270] Selected ethical issues raised by clinical practice, medical theories, and biomedical research and technology. No credit for students who have completed 1111, section 3. Prerequisite: 1005, 1008, or 1008W. [3] (P)

PHIL 3610. Ethics and Law. [Formerly PHIL 272] Moral problems in the practice of law including conflicts of interest, confidentiality, limits of advocacy, and the obligations of lawyers to clients, courts, and the public. Repeat credit for students who have completed 3610W. Prerequisite: 1005. [3] (SBS)

PHIL 3610W. Ethics and Law. [Formerly PHIL 272W] Moral problems in the practice of law including conflicts of interest, confidentiality, limits of advocacy, and the obligations of lawyers to clients, courts, and the public. Repeat credit for students who have completed 3610. Prerequisite: 1005. [3] (SBS)

PHIL 3611. Environmental Philosophy. [Formerly PHIL 273] Environmental ethics (animal rights, respect for nature, the land ethic), science and the natural world, the aesthetics of nature, global justice, and sustainability. [3] (P)

PHIL 3612. Ethics and Animals. [Formerly PHIL 274] Ethical issues raised by human interactions with animals, including laboratory experiments, factory farming, hunting, zoos, and pet ownership. Challenges to ethical theory provoked by extending rights to animals. [3] (HCA)

PHIL 3615. Philosophy of Film. [Formerly PHIL 243] Challenges posed by film forms to traditional aesthetics and the novel philosophical approaches created to deal with them. Topics include the nature of the film, image, film and experiential time, cinematic genres, the problem of mass art, and feminist critiques of spectatorship. Weekly screenings. [3] (HCA)

PHIL 3616. Philosophy and the Natural Sciences. [Formerly PHIL 244] Philosophical issues in the methodology, conceptual structure, patterns of explanation, historical development, and cultural impact of the natural sciences. Metaphysical and ethical implications. [3] (P)

PHIL 3617. Philosophy of Language. [Formerly PHIL 246] Philosophical problems in the methodology of linguistics, relations between thought and language, theories of meaning and symbolism, the nature of metaphor, the philosophical implications of theories of language acquisition. [3] (SBS)

PHIL 3618. Philosophy and Literature. [Formerly PHIL 248] Philosophical topics in novels or poetry. Examples include: meaning of life, linguistic meaning, good and evil, aesthetic value, and human freedom. Repeat credit for students who have completed 3618W. [3] (HCA)

PHIL 3618W. Philosophy and Literature. [Formerly PHIL 248W] Philosophical topics in novels or poetry. Examples include: meaning of life, linguistic meaning, good and evil, aesthetic value, and human freedom. Repeat credit for students who have completed 3618. [3] (HCA)

PHIL 3621. Early Modern Political Philosophy. [Formerly PHIL 257] A study of competing accounts of the best form of political association, which differ from Locke, through the works of Machiavelli, Hobbes, Spinoza, and Rousseau. [3] (INT)

PHIL 3622. Contemporary Political Philosophy. [Formerly PHIL 258] A focused and extended examination of selected topics in contemporary political theory, such as justice, liberty, rights, tolerance, and autonomy. Content varies depending on instructor. [3] (P)

PHIL 3623. Modern Philosophies of Law. [Formerly PHIL 254] Contemporary theories of legal validity, legal liability (criminal and civil), and contractual obligation with special attention to the controversy between legal positivism and “natural law” theories and the assessment of contemporary economic analyses of legal rights. [3] (SBS)

PHIL 3630. Philosophy of Mind. [Formerly PHIL 256] Selected problems in the philosophy of mind. Relation between mind and body, the nature of consciousness, the problem of other minds, the status of self-knowledge,
and the possibility of machine and other intelligence. Connections with empirical investigations in related cognitive disciplines. [3] (SBS)

PHIL 3657. Humanity, Evolution, and God. [Formerly PHIL 245] The impact of the idea of evolution on our conception of personhood. Theistic and non-theistic approaches to philosophical anthropology, ethics and society, the theory of knowledge, the mind-body problem, and relations with the environment and other species. [3] (F)

PHIL 3661. Topics in Aesthetics. [Formerly PHIL 251] Philosophy of art and aesthetic theory. [3] (HCA)

PHIL 3851. Independent Readings. [Formerly PHIL 289A] Designed for majors not in the departmental honors program. Consists of a project to be carried out under the supervision of a member of the department. All projects must be approved by the department. May be repeated for a total of 12 credits in 3851 and 3852 combined over a four semester period if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [1-6; maximum of 12 credits total for four semesters of PHIL 3851 and 3852] (No AXLE credit)

PHIL 3852. Independent Readings. [Formerly PHIL 289B] Designed for majors not in the departmental honors program. Consists of a project to be carried out under the supervision of a member of the department. All projects must be approved by the department. May be repeated for a total of 12 credits in 3851 and 3852 combined over a four semester period if there is no duplication in topic, but students may earn only up to 6 credits per semester of enrollment. [1-6; maximum of 12 credits total for four semesters of PHIL 3851 and 3852] (No AXLE credit)

PHIL 3891. Selected Topics. [Formerly PHIL 294A] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

PHIL 3892. Selected Topics. [Formerly PHIL 294B] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit) (No AXLE credit)

PHIL 4999. Honors Independent Study. [Formerly PHIL 295] Designed for students in the Honors Program in philosophy. Consists of guided reading, periodic reports, and work on honors thesis. May be repeated for credit once, but students may earn only up to 6 credits per semester of enrollment. [3-6; maximum of 12 credits total for all semesters of PHIL 4999] (No AXLE credit)

Physics

PHYS 1001. Commons Seminar. [Formerly PHYS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PHYS 1010. Introductory Physics. [Formerly PHYS 110] Normally accompanied by 1010L. Motion, forces, conservation laws, light, heat, and electricity. Quantum theory, the atomic nucleus, elementary particles, and properties of materials. Special relativity, Big Bang, and cosmology. Primarily intended for those who do not expect to major in science. No credit for students who have earned credit for 1050. [3] (MNS)

PHYS 1010L. Introductory Physics Laboratory. [Formerly PHYS 111] Laboratory to accompany 1010. Corequisite: 1010. One three-hour laboratory per week. Satisfies the AXLE lab course requirement when completed with 1010. [1] (No AXLE credit)

PHYS 1111. First-Year Writing Seminar. [Formerly PHYS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

PHYS 1501. Introductory Physics for the Life Sciences I. [Formerly PHYS 113A] Normally accompanied by 1501L. Calculus-based introduc-
PHYS 2210. Classical and Modern Optics. [Formerly PHYS 221] Geometrical optics, including reflection, refraction, ray tracing, aberrations, and interference. Physical optics, including wave theory, absorption, dispersion, diffraction, and polarization. Properties of light from lasers and synchrotron sources. Photodetectors and optical technology. Prerequisite: either 1502 or 1602 or 1902; and either MATH 1201 or 1301. [3] (MNS)

PHYS 2255L. Laboratory Skills for Physicists II. Fundamental laboratory skills and techniques. Experimental design, instrumentation, data handling and analysis, documentation, presentation of results. Prerequisites: 1502, 1602, 1912, or 2053; and 1912L or one of 1501L or 1601L and one of 1502L or 1602L. Corequisite: 2255 or 3651. [1] (No AXLE credit)

PHYS 2290. Electricity, Magnetism, and Electrodynamics I. [Formerly PHYS 229A] Electrostatic fields and potentials. Gauss’s law. Electrical properties of insulators, semiconductors, and metals. The Lorentz force. Magnetic fields and forces. Electromagnetic induction. Maxwell’s equations, and electromagnetic waves. Prerequisite: 2255 or 3651; and either MATH 2400, 2420, or 2610. [3] (MNS)

PHYS 2660. Experimental Nanoscale Fabrication and Characterization. [Formerly PHYS 266] Laboratory course introduction to nanofabrication and characterization. Independent and original research in nanotechnology and nanoscience. Nanomaterials, nanoelectronics, and photonics. Prerequisite: One of 2255 or 3651, and one of 2260 or 2260W; or one of 1501, 1601, 1901, or 2051, and one of CHEM 1602L or MSE 1500. [3] (MNS)

PHYS 2953L. Advanced Physics Laboratory: Introduction to Experimental Research. Fundamental physics experiments and measurements. Statistical analysis of measured data. One laboratory per week. Prerequisite: 2255L, and either 2255 or 3651; or 1902 and either 2255 or 3651; or either 2250W or 2260W. [1] (No AXLE credit)

PHYS 3122. Physics of Living Systems. Physical principles applied to biological phenomena. Development of physical models of biological systems on scales ranging from molecules to organisms. Biological applications of mechanics, thermodynamics, and dynamical systems. Prerequisite: 1502, 1602, 1902, or 2053; and MATH 2400, 2420, or 2610. [3] (MNS)

PHYS 3600. Seminar in Presenting Physics Research. [Formerly PHYS 250] Introduction, instruction, and practice in skills for presenting scientific research results. May be repeated for credit once, but students may earn only 1 credit per semester of enrollment and may count only 1 credit toward the major or minor in Physics. Prerequisite: major or minor in Physics; and 2255 or 3651. [1] (No AXLE credit)

PHYS 3645. Radiation Detectors and Measurement. [Formerly PHYS 285] Basic physics principles and applications of radiation detecting instruments, with laboratory exercises. Techniques and instrumentation for nuclear radiation detection and measurements as they relate to health physics (radiation safety) and nuclear physics. Prerequisite: 2255 or 3125. [4] (MNS)

PHYS 3651. Quantum Mechanics I. [Formerly PHYS 251A] Wave-particle duality, indeterminacy, superposition, the Schrödinger equation, angular momentum, the hydrogen atom, and spin and indistinguishability. Prerequisite: 2255; and Mathematical/Math: MATH 2400; or one of (MATH 2410, 2600, 2501) and one of (MATH 2420, 2610). [3] (MNS)

PHYS 3652. Quantum Mechanics II. [Formerly PHYS 251B] Time-independent and time-dependent perturbation theory, matrix theory, scattering, applications to atomic physics, condensed matter physics, and astrophysics. Prerequisite: 2290 and 3651. [3] (MNS)

PHYS 3660. Introduction to Particle Physics. [Formerly PHYS 255] Weak, strong, and electromagnetic forces as evidenced by the interactions of elementary particles. Classification of particles and experimental techniques. Corequisite: 2255 or 3651. [3] (MNS)

PHYS 3820. Methods in Physics Laboratory Teaching. Developing and running physics labs and classroom lecture demonstrations. Understanding safety protocols. Enrollment open only to students who are Secondary Education, Elementary Education, or Education Studies majors, are also either Physics majors or minors, and who have completed any 12 credit hours in satisfaction of requirements for major or minor in Physics. [3] (MNS)

PHYS 3850. Undergraduate Research. Research and scholarly investigation or directed readings in physics under close supervision of sponsoring faculty member. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for credit, for a total of no more than 10 total credit hours and for no more than 5 credit hours per semester. [1-5] (No AXLE credit)

PHYS 3851. Undergraduate Immersion Research. Research and scholarly investigation or directed readings in physics under close supervision of sponsoring faculty member, including end-of-semester oral presentation or written report. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for credit, for a total of no more than 10 total credit hours and for no more than 5 credit hours per semester. [1-5] (No AXLE credit)

PHYS 3890. Selected Topics. [Formerly PHYS 240] Prerequisite or corequisite: either 2250 or 2250W and either 2260 or 2260W. [1-3] (No AXLE credit)

PHYS 4005. Mathematical Methods for Physicists. Linear spaces and operators; matrix algebra; differential equations; Green’s function; and complex analysis. Variational calculus; perturbation methods; group theory. Prerequisite: 2275, 2290; and one of MATH 2400, 2420, or 2610. [3] (MNS)
PHYS 4998. Honors Research and Senior Thesis. [Formerly PHYS 296] Independent experimental or theoretical investigations of basic problems in physics under faculty supervision, culminating in a written thesis submitted and an oral defense presented to a departmental faculty examination committee. Required for departmental honors in Physics. Enrollment by arrangement with sponsoring faculty member and approval of director of undergraduate studies. May be repeated for a total of 10 credits, but students may earn only up to 6 credits per semester of enrollment. Prerequisite: major in Physics, junior or senior standing. [1-6] (No AXLE credit)

Political Science

PSCI 1001. Commons Seminar. [Formerly PSCI 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PSCI 1101. Introduction to Comparative Politics. [Formerly PSCI 101] Democracy, communism, and authoritarian rule in developed and developing countries; political institutions and public policy in diverse national settings; principles of comparative analysis. [3] (SBS)

PSCI 1102. Introduction to International Politics. [Formerly PSCI 102] Significant patterns and trends in twentieth and twenty-first-century world politics: modes of conducting relations among nations, instruments for promoting national and supranational interests, and controls over international disputes. Emphasis upon episodes throwing light on the causes of war and the conditions of peace. [3] (SBS)

PSCI 1111. First-Year Writing Seminar. [Formerly PSCI 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 115F course per semester of enrollment. [3: maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

PSCI 2203. History of Modern Political Philosophy. [Formerly PSCI 203] Intensive analysis of the principal political philosophers in the modern tradition. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 2207. Liberalism and Its Critics. [Formerly PSCI 207] The liberal tradition in political theory and its major challengers. Critical debates surrounding the relationship between individuals and political community, rights, freedom and equality. Repeat credit for students who have completed 2207W. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 2207W. Liberalism and Its Critics. [Formerly PSCI 207W] The liberal tradition in political theory and its major challengers. Critical debates surrounding the relationship between individuals and political community, rights, freedom and equality. Repeat credit for students who have completed 2207. Prerequisite or corequisite: 1100, 1101 1102, 1103, or 1150. [3] (HCA)

PSCI 2208. Law, Politics, and Justice. [Formerly PSCI 208] Contemporaneous and classical theories of law and society: rights theories, gender and the law; law and transitions to democracy; law between nations. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 2209. Issues in Political Theory. [Formerly PSCI 209] Topics vary from semester to semester. May be repeated once if there is no overlap with previous offerings. Prerequisite: 2202, 2203, or 2205. [3] (No AXLE credit)

PSCI 2210. West European Politics. [Formerly PSCI 210] Analysis of political development, social forces, institutions, and public policy in Great Britain, France, Germany, Italy, and Sweden. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 2213. Democratization and Political Development. [Formerly PSCI 213] Comparative study of political development, with a focus on institutions. The effect of political choices about voting systems, executive and legislative powers, cabinet formation, and other institutions on political competition, parties and government stability. Cases from established democracies and countries undergoing democratization. No credit for students who have taken 8317. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2215. Change in Developing Countries. [Formerly PSCI 215] Comparative study of political and economic change in developing countries. Political implications of ethnicity, economic dependency, and environmental degradation. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2216. The Chinese Political System. [Formerly PSCI 216] Governmental institutions and political processes in the People’s Republic of China with emphasis upon the interaction of traditional and revolutionary elements. Some attention to Taiwan since 1950 and to the overseas Chinese as parts of the Chinese political universe. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)

PSCI 2219. Politics of Mexico. [Formerly PSCI 219] A survey of contemporary Mexican politics from a comparative perspective. Interaction of economic, social, and political forces that led to the demise of one of the world’s most durable one-party political regimes and the prolonged transition to democracy. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2220. Crisis Diplomacy. [Formerly PSCI 220] Foreign policy decision making and strategy. Emphasis on differences between crises that lead to war and those that do not. Foreign relations of Britain, France, Germany, Russia, and Japan. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2221. Causes of War. [Formerly PSCI 221] Scientific study of the onset of expansion and consequences of war: conditions of peace, emphasizing alliances, arms races, and crisis escalation. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2222. American Foreign Policy. [Formerly PSCI 222] Critical analysis of major international and domestic factors shaping U.S. foreign relations as reflected in selected twentieth- and twenty-first-century experiences. No credit for students who have taken 1111, Section 1. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2223. European Political Economy and Economic Institutions. [Formerly PSCI 223] Policy-making processes of key economic institutions that influence the global political economy, International and financial regulatory reforms, World Trade Organization negotiations and current European economic issues. No credit for students who earned credit for PSCI 285 section 1 in summer 2011. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)
PSCI 2225. International Political Economy. [Formerly PSCI 225] Survey of major issues involving the interaction of political and economic forces at the global level. Particular attention to theories of interdependence and imperialism, the position of developing countries in the international system, multinational corporations, and the economic origins of war. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2226. International Law and Organization. [Formerly PSCI 226] The role of international law and international organizations in the contemporary global political system. Focus on the evolution and impact of international law, the United Nations, the International Monetary Fund (IMF), and selected regional organizations. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2230. Middle East Politics. [Formerly PSCI 230] Cross-national analysis of political institutions, political economies, and processes of change in the Middle East. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2236. The Politics of Global Inequality. [Formerly PSCI 236] Causes of international inequality in the distribution of wealth. The emergence of rich and poor nations, and rich and poor people. Factors related to economic development, and their impact on income distribution. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2237. African Politics. [Formerly PSCI 237] Pre-colonial to the present. State-building, socioeconomic development, public service provision, and foreign interventions. Conflict including: separatism, insurgency, slavery, genocide, and gender-based violence. Rise of democracy including party systems, voting behavior, electoral competition, fraud. Identity politics of ethnicity, gender, class, and clash of Western and local norms. Offered on a graded basis only. Repeat credit for 284-01 taken in Spring 2014. Prerequisite or corequisite: 1100 [100], 1101 [101], 1102 [102], 1103 [103], or 1150 [150]. [3] (SBS)

PSCI 2240. Political Parties. [Formerly PSCI 240] Theories of party formation, organization, and behavior. Historical development of party systems. Criteria for the comparative evaluation of party systems. Parties as instruments of citizen control. Implications for electoral outcomes, coalition formation, legislative decision making, and public policy. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2243. Political Campaigns and the Electoral Process. [Formerly PSCI 243] Theories of representation and democratic accountability; electoral strategies and tactics, including political polling and analysis. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2245. The American Presidency. [Formerly PSCI 245] Constitutional, historical, and political aspects. Attention to electing and nominating president, presidential leadership and personality, governing, and relations with Congress and the public. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (US)

PSCI 2251. The Politics of U.S. and Global Immigration. [Formerly PSCI 251] Political, philosophical, and moral issues. Serves as repeat credit for students who completed 283 section 1 in spring 2009. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)

PSCI 2253. Public Administration. What administrative agencies do and why. Effective management in the public sector, including public budgeting, implementation, personnel management, and communication with the public and the press. No credit for students who have earned credit for 3893-03 offered spring 2017, 3893-01 offered fall 2015, or 283-04 offered spring 2015. [3] (SBS)

PSCI 2255. Public Policy Problems. [Formerly PSCI 255] Specific problems of public policies and their relations to political and institutional structures. Particular policy problems vary from semester to semester. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 2259. Political Strategy and Game Theory. [Formerly PSCI 259] Campaigns and elections, legislative politics, political bargaining, and political organization. Applications of decision and game theory. Models of complete and perfect information, and games of incomplete information. No credit for students who have earned credit for 359. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2262. The Judicial Process. [Formerly PSCI 262] Functioning of the judiciary in the American political process; operation and powers of the courts; non-legal aspects of the judicial process; political role and effects of judicial decisions. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2263. Religion and Politics. [Formerly PSCI 263] Religion in democratic societies. Abortion, gay marriage, faith-based initiatives, and the Pledge of Allegiance. Historical works and contemporary contributions to debates. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HC)

PSCI 2266. Constitutional Law: Civil Liberties and Rights. [Formerly PSCI 266] Supreme Court’s interpretation of the Bill of Rights and the Fourteenth Amendment. Case method. No credit for students who have earned credit for 261b prior to fall 2009. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (US)

PSCI 2267. Voting and Political Representation in America. [Formerly PSCI 267] The history of voting rights and the efficacy of representation in the American political system. Political participation, voting rights, felony disenfranchisement, redistricting, and alternative electoral systems. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 2270. Conducting Political Research. [Formerly PSCI 270] Research sources, designs, and methods used by political scientists. Locating and accessing data, the logic of causal inferences, and basic data presentation and analysis. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (US)

PSCI 2274. Nature of War. [Formerly PSCI 274] Warfare from ancient to contemporary times. Western and non-Western perspectives. Views from political science, philosophy, history, and official U.S. military doctrine. Interplay among international politics, military strategy, technology, and psychology. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3211. The European Union. [Formerly PSCI 211] Political and economic integration. Origins, institutions, decision processes, policies, achievements, and prospects of the European integration movement. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)

PSCI 3217. Latin American Politics. [Formerly PSCI 217] Cross-national analysis of political institutions, cultures, and processes of change in Latin America. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)
PSCI 3228. International Politics of Latin America. [Formerly PSCI 228] Examination of Latin America’s role in the international and inter-American system. Special attention to the international response to revolutionary change in the area, and to the region’s major actors and their changing relationship with the United States, with other major powers, and with other actors such as multinational corporations and international financial institutions. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)

PSCI 3229. Strategy and International Politics. [Formerly PSCI 229] Strategic behavior and strategic choices arising from interactive decision-making within the context of international politics. General principles of strategy, in-class experiments and game playing. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3235. Political Islam. [Formerly PSCI 235] Rise of political Islam. Origins, goals, and practices of specific Islamic groups throughout the Middle East. Global and local causes of Islamic political mobilization, and the American response to that mobilization. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (INT)

PSCI 3244. The Legislative Process. [Formerly PSCI 244] Legislative organization and processes in the U.S. Congress. Attention to parties, elections, institutional structure, interest groups, and other branches of government as they relate to the legislative process. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3247. American Political Culture. [Formerly PSCI 247] Content, historical development, and political consequences of the American public’s deeply rooted values concerning how the political system ought to work and the ends it ought to serve. Attention to regional variation. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (US)

PSCI 3250. Group Conflict and Cooperation in U.S. Politics. [Formerly PSCI 250] Psychological and institutional sources of division and unity in American politics. Identity formation and change, explicit and implicit racial attitudes, and political tolerance. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3252. Business and Public Policy. [Formerly PSCI 252] Relationships among business, public policy, and political strategy in the United States and other political systems. Lobbying and legislative politics, antitrust and regulation, intellectual property, international trade, and ethics and corporate social responsibility. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3253. Ethics and Public Policy. [Formerly PSCI 253] Political and moral values in assessing policy-making, public policies and processes, and policy impacts. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 3254. Political Psychology. [Formerly PSCI 254] Interface between politics and the psychological processes of individuals and groups. Cognition, emotion, identity and intergroup relations, leadership, and extremism. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3258. Democratic Theory and Practice. [Formerly PSCI 258] Theories of democratic institutions, practices, and values in historical and contemporary political thought. Impact of popular participation on issues of justice, equality, individual freedom, and political power. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (HCA)

PSCI 3260. Introduction to American Law. [Formerly PSCI 260] Law as a component of public policy and the political system; the elements and rationale of private law. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3271. Feminist Theory and Research. [Formerly PSCI 271] Introduction to feminist works in the social sciences. Development of feminist analysis. Important issues, feminist theories, and approaches to social criticism. Methodological challenges to feminist research. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (P)

PSCI 3275. National Security. [Formerly PSCI 275] How states ensure their national security. Origins of the security dilemma; the use of power, deterrence, coercion, engagement, and interstate cooperation in settling disputes. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 3841. Directed Study. [Formerly PSCI 291A] Participation in research projects under the direction of a faculty supervisor. Consent of both the faculty supervisor and the director of undergraduate studies is required. Open only to junior and senior majors. May be repeated for a total of 6 credits in 290a, 290b, 3841, 3842, 3851, and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [1-3] (No AXLE credit)

PSCI 3842. Directed Study. [Formerly PSCI 291B] Participation in research projects under the direction of a faculty supervisor. Consent of both the faculty supervisor and the director of undergraduate studies is required. Open only to junior and senior majors. May be repeated for a total of 6 credits in 290a, 290b, 3841, 3842, 3851, and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [1-3]: maximum of 6 credits total for all semesters of PSCI 290a, 290b, 3841, 3842, 3851, and 3852) (No AXLE credit)

PSCI 3851. Independent Research. [Formerly PSCI 289A] Development of a research project by the individual student under direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. Normally open only to majors in political science. May be repeated for a total of 6 credits in 290a, 290b, 3841, 3842, 3851, and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [1-3]: maximum of 6 credits total for all semesters of PSCI 290a, 290b, 3841, 3842, 3851, and 3852) (No AXLE credit)

PSCI 3852. Independent Research. [Formerly PSCI 289B] Development of a research project by the individual student under direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. Normally open only to majors in political science. May be repeated for a total of 6 credits in 290a, 290b, 3841, 3842, 3851, and 3852 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [1-3]: maximum of 6 credits total for all semesters of PSCI 290a, 290b, 3841, 3842, 3851, and 3852) (No AXLE credit)

PSCI 3860. Internship Training. [Formerly PSCI 280A] Under faculty supervision, students from any discipline gain experience with local, state, national, and international government offices or other politically related
organizations. A thorough report and research paper are submitted at the end of the semester. Completion of 6 hours of political science, normally a 2.90 grade point average, and prior department approval of the student’s plan are required. May be taken on a Pass/Fail basis only and must be taken concurrently with 3882 and/or 3883. These hours may not be included in the minimum hours required in the political science major. Corequisite: 3892 and/or 3893. [1-9] (No AXLE credit)

PSCI 3882. Internship Readings. [Formerly PSCI 280C] Under faculty supervision, students from any discipline gain experience with local, state, national, and international government offices or other politically related organizations. A thorough report and research paper are submitted at the end of the semester. Completion of 6 hours of political science, normally a 2.90 grade point average, and prior department approval of the student’s plan are required. Corequisite: 3890. [Variable credit: 1-3] (No AXLE credit)

PSCI 3883. Internship Research. [Formerly PSCI 280B] Under faculty supervision, students from any discipline gain experience with local, state, national, and international government offices or other politically related organizations. A thorough report and research paper are submitted at the end of the semester. Completion of 6 hours of political science, normally a 2.90 grade point average, and prior department approval of the student’s plan are required. Corequisite: 3890. [Variable credit: 1-3] (No AXLE credit)

PSCI 3891. Topics in Contemporary Politics. [Formerly PSCI 281] Political, governmental, and policy issues. May be repeated for credit when topics vary. No more than three hours may be counted toward the major. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [1-3] (No AXLE credit)

PSCI 3893. Selected Topics in American Government. [Formerly PSCI 283] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 3894. Selected Topics in Comparative Politics. [Formerly PSCI 284] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 3895. Selected Topics in International Politics. [Formerly PSCI 285] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 3896. Selected Topics in Political Theory. [Formerly PSCI 286] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 3897. Selected Topics. [Formerly PSCI 287] Topics of special interest. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. No more than a total of 6 credits may be earned for 3897 and 3898 combined. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 4238. Comparative Political Parties. [Formerly PSCI 238] Political parties and their role in the democratic process of modern liberal western democracies, focusing on party systems and party organizations. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (SBS)

PSCI 4257. The Politics of Capitalism. [Formerly PSCI 257] Commerce and capitalism in social and political life from the eighteenth century to the present. Questions of justice and equality, freedom, and democratic politics. Serves as repeat credit for students who completed 207 in fall 2009. Prerequisite or corequisite: 1100, 1101 1102, 1103, or 1150. [3] (HCA)

PSCI 4277. Future of Warfare. [Formerly PSCI 277] Political, societal, and technological factors that could affect the future conduct of warfare. Insurgency and counterinsurgency. Military operations other than war. Prerequisite or corequisite: 1100, 1101 1102, 1103, or 1150. [3] (SBS)

PSCI 4998. Senior Honors Research. [Formerly PSCI 299A] Open only to seniors in the departmental honors program. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

PSCI 4999. Senior Honors Research. [Formerly PSCI 299B] Open only to seniors in the departmental honors program. Prerequisite or corequisite: 1100, 1101, 1102, 1103, or 1150. [3] (No AXLE credit)

Portuguese

PORT 1001. Commons Seminar. [Formerly PORT 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PORT 1103. Intensive Elementary Portuguese. [Formerly PORT 102] Accelerated introduction to reading, writing, speaking, and listening. Emphasis on practical usage. Intended for students with prior or current study of another Romance language. No credit for students who have earned credit for 1101, 1102, or a higher level Portuguese language course. [3] (INT)

PORT 1111. First-Year Writing Seminar. [Formerly PORT 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] [AXLE credit category varies by section]

PORT 2203. Intermediate Portuguese. [Formerly PORT 200] Review of Portuguese grammar with emphasis on conversation, composition, and reading of modern Portuguese literary texts. No credit for students who have earned credit for a higher level Portuguese language course. Prerequisite: 1103. [3] (INT)

PORT 2900. Brazilian Civilization through English Language Material. [Formerly PORT 291] The cultural heritage of Brazil from its earliest days to the present. National identity, race relations, and Brazil’s emergence as a major force in the Americas and beyond. Taught in English. No credit for graduate students in Spanish and Portuguese. No credit for students who have earned credit for 1111 section 1. [3] (P)

PORT 3301. Portuguese Composition and Conversation. [Formerly PORT 201] Expository writing and development of speaking skills. Emphasis on pronunciation, vocabulary, and grammar. No credit for students who have earned credit 202. Prerequisite: 2203. [3] (INT)

PORT 3302. Brazilian Pop Culture. [Formerly PORT 203] Development of written and oral communication skills through the study of Brazilian popular culture. Movies, music, television, and magazines. Prerequisite: 2203. [3] (INT)

PORT 3303. Introduction to Luso-Brazilian Literature. [Formerly PORT 205] Critical readings and methods of literary analysis. Masterpieces from Portugal and Brazil from all genres in several periods. Conversation and writing. Prerequisite: 3301 or 3302. [3] (HCA)

PORT 3850. Independent Study. [Formerly PORT 289] A reading course, the content of which varies according to the needs of the individual student. Primarily designed to cover pertinent material not otherwise available to the student in the regular courses of the curriculum. [Variable credit: 1-3 hours, not to exceed 12 over a four-semester period] (No AXLE credit)

PORT 3891. Special Topics in Portuguese and Brazilian Literature or Civilization in English Translation. [Formerly PORT 295] Does not count toward a major or minor in Portuguese. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

PORT 3892. Special Topics in Portuguese Language, Literature, or Civilization. [Formerly PORT 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3303. [3] (No AXLE credit)
PORT 4350. Brazilian Culture through Native Material. [Formerly PORT 225] Differences between spoken and written Portuguese in Brazil. Modern culture, including popular music, film, politics, family life, and sports. Prerequisite: 3301 or 3302. [3] (P)

PORT 4420. Brazilian Literature through the Nineteenth Century. [Formerly PORT 232] Main literary trends, principal writers and works of Brazilian literature, from colonial beginnings through the nineteenth century. Study of the works of Gregório de Matos, Gonçalves Dias, Alencar, Machado de Assis, and Euclides da Cunha. Prerequisite: 3303. [3] (HCA)

PORT 4425. Modern Brazilian Literature. [Formerly PORT 233] Brazilian literature from the Semana de Arte Moderna to the present. Modernist and neo-Modernist movements. Prerequisite: 3303. [3] (HCA)

Psychology

PSY 1001. Commons Seminar. [Formerly PSY 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PSY 1111. First-Year Writing Seminar. [Formerly PSY 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

PSY 1200. General Psychology. [Formerly PSY 101] A survey of modern scientific psychology. Topics include development, perception, motivation, learning, thinking, remembering, emotion, intelligence, special aptitudes, and personality development. General applications to human behavior. The student must either analyze published research or be a subject in current research. No credit for students who have earned credit for 1111 sections 1, 2, or 3. [3] (SBS)

PSY 2100. Quantitative Methods. [Formerly PSY 209] Principles and methods for the statistical analysis of experiments, with emphasis on applications in psychology. Descriptive and inferential statistics. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3100. Abnormal Psychology. [Formerly PSY 215] Mental and emotional disorders. Definitions of adequate human functioning processes that disrupt functioning. Methods of evaluation and treatment. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3110. Social Psychology. [Formerly PSY 231] The influence of social conditions upon behavior in interpersonal and group relations. Perception, judgment, learning, and attitudes. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3120. Cognitive Psychology. [Formerly PSY 225] Attention, pattern recognition, knowledge representation, language, reasoning, and human intelligence. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3600. Personology. [Formerly PSY 211] Major theories of personality development, methods of assessment, and results of research, with an emphasis on normal behavior. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3605. Industrial and Organizational Psychology. [Formerly PSY 239] Scientific theories in cognitive, social, and personality psychology to improve work motivation and performance. Job analysis and assessment methods. Leadership, teamwork, and cross-cultural issues. Prerequisite: 1111 section 1, 2, or 3, or 1200; or a major in Cognitive Studies, Child Development, or Child Studies. [3] (SBS)

PSY 3610. Introduction to Clinical Psychology. [Formerly PSY 244] Historical foundations, professional ethics, principles of clinical assessment and therapy, and areas of specialization such as health psychology. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3615. Emotion. [Formerly PSY 245] Definitions and functions of emotion. Emotion and health, emotion and psychopathology, individual differences, and emotional development. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3625. Depression. [Formerly PSY 247] Psychological and biological perspectives on unipolar and bipolar affective disorders. Assessment and classification, epidemiology, genetics, family environment, and treatments. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3630. Drugs and Behavior. [Formerly PSY 261] Drug effects on neural circuits, human physiology, individual psychology, and society. No credit for students who have earned credit for NSC 3260. Prerequisite: 1200 or NSC 2201. [3] (SBS)

PSY 3635. Health Psychology. [Formerly PSY 268] Neurophysiological, endocrine, and immune systems. Factors underlying health habits and lifestyles. Methods to enhance health behaviors and prevent illness. Stress management. Reciprocal interactions among behavior, thoughts, and physiology with resulting effects on physical and psychological health and illness. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3640. Positive Psychology. [Formerly PSY 270] Optimal functioning in human psychology. Interdisciplinary approaches to well being, character strengths and virtues, positive emotions, and clinical implications. No credit for students who have earned credit for PSY 1111 section 13. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3700. Movement. [Formerly PSY 216] Psychological, computational, and neural perspectives on the activities of looking, reaching, grasping, speaking, smiling or frowning, walking and running. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3715. Animal Behavior and Evolutionary Psychology. [Formerly PSY 258] Comparative and phylogenetic approach to the study of behavior, with special emphasis on sensory processes, instinctive behavior, the genetics of behavior, and ethology. Prerequisite: 1111 section 1, 2, or 3, or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3750. Perception. [Formerly PSY 214] Current theory and research in sensation and perception, including an analysis of philosophical and biological issues. Biological organisms’ acquisition, processing, and use of information about objects and events in the environment. Vision, audition, taste, smell, and touch. Prerequisite: NSC 2201 and either PSY 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3755. Behavioral Decision-making. [Formerly PSY 226] Affective, cognitive, and motivational processes involved in human judgment and decision-making. Accurate and inaccurate judgments. Optimal and sub-optimal decisions. Offered on a graded basis only. Prerequisite: 1111
section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3760. Mind and Brain. [Formerly PSY 232] Concepts of cognitive neuroscience. Relationship between the brain and perception, cognition, attention, memory, language, thought, emotion, social judgments, and consciousness. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3765. Social Cognition and Neuroscience. [Formerly PSY 238] Neural underpinnings of social perceptions, evaluations, and decisions. Face perception, attraction and reward processing, social co-operation and competition, decision-making, and moral judgments. Offered on a graded basis only. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3780. The Visual System. [Formerly PSY 236] Interdisciplinary approach to the ways that humans see and interpret their visual environment. Structure of the eye and brain, including optics. Physiology of individual cells and groups of cells. Machine vision and models of visual function, visual attention, and mechanisms of complex visual perception. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (MNS)

PSY 3785. Brain Damage and Cognition. [Formerly PSY 277] Effects of neurological impairment from stroke, injury, or disease on perception, speech, memory, judgment, and behavior. Relationship between brain systems and cognitive systems. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (SBS)

PSY 3840. Directed Study. [Formerly PSY 290] Participation in ongoing research projects under direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. Open only to juniors and seniors. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [1-3] (No AXLE credit)

PSY 3850. Independent Study. [Formerly PSY 293] Development of a project by the individual student under direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. Open only to juniors and seniors. May be repeated for credit more than once if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [1-3] (No AXLE credit)

PSY 3890. Special Topics in Perception. [Formerly PSY 280] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3750. [3] (No AXLE credit)

PSY 3891. Special Topics in Cognitive Psychology. [Formerly PSY 282] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3120. [3] (No AXLE credit)

PSY 3892. Special Topics in Neuroscience. [Formerly PSY 285] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: NSC 2201. [3] (No AXLE credit)

PSY 3893. Special Topics in Clinical Psychology. [Formerly PSY 288] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3100. [3] (No AXLE credit)

PSY 3894. Special Topics in Social Psychology. [Formerly PSY 289] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. Prerequisite: 3110. [3] (No AXLE credit)

PSY 3980. Honors Seminar. [Formerly PSY 295A] Individual readings, reports, and seminar discussions of the basic areas of psychology. Selection of topics will provide some freedom to pursue individual interests. Open only to departmental honors candidates. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (No AXLE credit)

PSY 3981. Honors Seminar. [Formerly PSY 295B] Individual readings, reports, and seminar discussions of the basic areas of psychology. Selection of topics will provide some freedom to pursue individual interests. Open only to departmental honors candidates. Prerequisite: 1111 section 1, 2, or 3 or 1200; or a major in Child Development, Child Studies, or Cognitive Studies. [3] (No AXLE credit)

PSY 4988. Honors Thesis. [Formerly PSY 296A] Participation with a staff member in work leading toward the senior thesis. This work may consist of readings and reports or active participation in research and will culminate in an independent research report. Open only to departmental honors candidates. Prerequisite: 3980 or 3981. [3] (No AXLE credit)

PSY 4999. Honors Thesis. [Formerly PSY 296B] Participation with a staff member in work leading toward the senior thesis. This work may consist of readings and reports or active participation in research and will culminate in an independent research report. Open only to departmental honors candidates. Prerequisite: 3980 or 3981. [3] (No AXLE credit)

PPS 1001. Commons Seminar. [Formerly PPS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

PPS 3890. Special Topics. [Formerly PPS 294] Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

PPS 4960. Senior Seminar on Research in Public Policy. [Formerly PPS 295] Supervised research project in policy area incorporating methodologies and analytical insights from more than one discipline. Offered on a graded basis only. [3] (SBS)

PPS 4990. Senior Seminar on Research in Public Policy. [Formerly PPS 296] Supervised research project in policy area incorporating methodologies and analytical insights from more than one discipline. Offered on a graded basis only. [3] (SBS)

Religious Studies

RLST 1001. Commons Seminar. [Formerly RLST 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

RLST 1010. Encountering Religious Diversity. [Formerly RLST 101] Essential beliefs and practices of the world’s major religious traditions. Hinduism, Buddhism, Judaism, Christianity, and Islam. Contemporary scholarship and perspectives on religious encounters from each of these traditions. [3] (HCA)

RLST 1100. Introduction to African American Religious Traditions. [Formerly RLST 107] Historical survey of the leadership, dynamics, and cultural milieu of African American religious traditions. Institutional expressions and theologies from the colonial period to the present. [3] (US)

RLST 1111. First-Year Writing Seminar. [Formerly RLST 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)
problems. Examination of family and social ethical issues found in Talmud and other Jewish classical texts. Basic religious views of modern Jewish thinkers and their relation to contemporary Jewish life. Offered alternately with 1200. [3] (HCA)

RLST 2250W. History of the Bible. Jewish and Christian Bibles from the formation of earliest bibles to the present. Major forms of the Bible, major interpretive approaches, and impact on politics and culture. [3] (HCA)

RLST 2310. Interpreting the Gospels. [Formerly RLST 210] The Synoptic Gospels through history and culture. Focus on either Matthew, Mark, or Luke; a survey of the interpretations of the Gospel from its original historical context, through the history of the church, and more recently in Catholic and Protestant churches after the Holocaust, in African American churches, and in feminist circles. [3] (HCA)

RLST 2461. Islam in Africa. [Formerly RLST 261] Social and cultural development of Islam across Africa from the eighth century to the present, as illuminated by historical, ethnographic, and literary sources. Interplay between Muslims and outside religious groups, jihads in pre-colonial Africa, and Islam during European colonization. Attention to Sub-Saharan Africa. [3] (INT)

RLST 2471. Religion in Africa. [Formerly RLST 171] Indigenous religious forms from pre-colonial Africa to the present. Creation myths, notions about gods and spirits, ritual, magic, witchcraft, art, shamanism, and ancestry. Interplay of indigenous religions with Islam and Christianity. No credit for students who earned credit for 294 section 2 in fall 2013. [3] (INT)

RLST 2472. Religion, Ecology, and Power in Africa. [Formerly RLST 272] The interrelationship between religion and ecology in Africa; the ways power relations in pre-colonial Africa through the present have determined human-Earth relations. Divine origin and development of the Earth and its peoples; influence on African social structure, ethnically-based occupations, and stewardship over the environment. [3] (INT)

RLST 2811. Natural Science and the Religious Life. How scientific discoveries and religious teachings are related. Descriptions of the physical universe from Aristotle through Albert Einstein are compared to contemporaneous definitions of the moral life by religious thinkers such as Thomas Aquinas, Martin Luther, Immanuel Kant, and Martin Buber. [3] (P)

RLST 3119. Martin Luther King, Jr., and the Social Roles of Religion. [Formerly RLST 219] King as religious leader and agent of social change. His views of the social roles of religion seen against the background of late nineteenth-century dissenting traditions and the early twentieth-century social gospel movement in America. Critical evaluations in terms of classical Christian views (e.g., Aquinas, Luther, Calvin, Wesley). [3] (US)

RLST 3142. Slave Thought and Culture in the American South. [Formerly RLST 242] The religious thought of African American slaves as expressed through folklore, literature, and art. Creative ideas about the cosmos, the supernatural, transcendent spiritual reality, natural social reality, and the human condition. Offered on a graded basis only. [3] (US)

RLST 3229. The Holocaust: Its Meanings and Implications. [Formerly RLST 229] Interdisciplinary study of the systematic destruction of European Jewish communities during WWII. Historical, social, political, cultural developments that led to it. Psychological and sociological dimensions of its aftermath. Philosophical and theological problems it raises for both Jews and Christians. No credit for students who earned credit for JS 156 in fall 2013. [3] (P)

RLST 3270. Jewish Theories of Religion. [Formerly RLST 203] Critical analysis and discussion of modern Jewish constructions of religion: politically, symbolically, ethically, normatively, and aesthetically-mystically. Selected readings from Cohen, Buber, Roszenzweig, Kaplan, and social philosophers such as Simmel and Habermas on the function, nature, and meaning of religion in secular culture. [3] (P)

RLST 3304W. Evangelical Protestantism and the Culture Wars. [Formerly RLST 204W] Evangelical traditions from the reformation to their present manifestations in twentieth-century America. Debates concerning the authority of the scripture, the person of Jesus Christ, evangelism, and soul-winning mission, revivalism and social reform, church-state relations, the relationship between science and religion, Biblical vs. “New” morality, and other areas of cultural cleavage. [3] (US)

RLST 3306. Global Interpretations of Christian Scriptures. [Formerly RLST 206] Comparative interpretations of Biblical texts by Christians in Africa, Asia, Latin America, and Oceania - with those by Orthodox Christians in Eastern Europe and the Middle East, and by Catholics and Protestants in Western Europe and North America. The role of culture in each type of biblical interpretation. [3] (INT)

RLST 3312. The Pauline Interpretation of Christianity. [Formerly RLST 212] An introduction to Pauline Christianity and its place in the early church, using the letters of Paul, the deutero-Pauline letters, and the portrait of Paul in Acts. [3] (HCA)

RLST 3316. Christianity in the Reformation Era. [Formerly RLST 216] The setting of the Reformation (c. 1500-1648) and its developments together with consideration of some of the significant ecclesiastical, theological, and historical issues of the period. Attention to backgrounds and causes and examination of major individuals and ecclesiastical patterns. The aim of the course is to help students understand and interpret the events, become familiar with some of the major theological documents, and reflect upon questions of continuing historical interest that have come out of the Reformation. [3] (HCA)

RLST 3380. History Christian Tradition. [Formerly RLST 180] Christian traditions from the origins to the present. Such themes as Christology, church and state, and the social and cultural contents of changing Christian beliefs, and views of the Church. [3] (HCA)

RLST 3650. Classical Philosophies of India. [Formerly RLST 250] Hindu and Buddhist traditions. The six “mainstream” schools (darsana) of Hindu thought and their interaction with Buddhist philosophy in ancient India. [3] (INT)

RLST 3669. Sacred Space in the Tibetan World. [Formerly RLST 269] Creation, meditation, and reproduction of sacred space from artifacts to built structures to geographies. Narrative, ritual, and cosmological aspects of Tibetan Buddhist, Bön, and local religious traditions. Cases include pre-modern to modern periods, and local to global contexts. [3] (INT)

RLST 3670W. Buddhism and the State. [Formerly RLST 270W] Models relating Buddhism and the state in ancient and modern Asia. Kingship and spiritual leadership; sacred territory and national identity; legitimation theory and its alternatives; and religious responses to the modern state. Case studies from India, Nepal, Thailand, Burma, Tibet, Mongolia, China, and Japan. [3] (INT)

RLST 3749. Zen Buddhism. [Formerly RLST 249] A study of the development of Zen Buddhism in China and Japan with special attention to its basic philosophy, its position within Mahayana Buddhism, its meditational techniques, and its contemporary significance. [3] (INT)

RLST 3775. Chinese Religions through Stories. [Formerly RLST 275] Analysis of narratives from various religious traditions and genres within early and medieval China. The role of narrative in Chinese religious, cultural, and political life. Primary texts in English translation. Offered on a graded basis only. [3] (INT)

RLST 3850. Independent Study. [Formerly RLST 289A] May be repeated for a total of 6 credits in 3850 and 3851 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of RLST 3850 and 3851] (No AXLE credit)

RLST 3851. Independent Study. [Formerly RLST 289B] May be repeated for a total of 6 credits in 3850 and 3851 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of RLST 3850 and 3851] (No AXLE credit)

RLST 3890. Special Topics in Religious Studies. [Formerly RLST 294] May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

RLST 3900. Mysticism and Spirituality, Comparative Study. [Formerly RLST 200] Philosophical, historical, and textual perspectives. Key mystical traditions, philosophies, texts, and figures from Hindu, Buddhist,
and Christian traditions. The popular emergence of spirituality as a contemporary mode of religiosity in advanced capitalist societies. [3] (P)

RLST 3926. Ancient Goddesses. [Formerly RLST 226] Ancient concepts of the feminine divine in literature and iconographic evidence. Specific goddesses, their spheres of influence, and their place in the various pantheons. Cultic practices and religious syncretism across cultures, including Mesopotamia, Egypt, and Ancient Israel. Offered on a graded basis only. [3] (INT)

RLST 3930. Women and Religion. [Formerly RLST 230] Themes and issues in the traditions and texts of selected Western religions from a feminist perspective. Biblical and theological images of women, sources of religious authority, psychological and ethical implications of feminist approaches to religion. [3] (P)

RLST 3940. The Nature of Evil. [Formerly RLST 240] Human evil as expressed in the Shoah, religious fundamentalism, and ethnic cleansing. Theological, philosophical, biological, and literary texts. Evil transformed by scientific inquiry since 1600. [3] (HCA)

RLST 4551. Islamic Mysticism. [Formerly RLST 251] Origins and development of mystical traditions in Islam; rise of asceticism; early Sufis; development and systematization of Sufi orders and teachings; evolution of theosophical dimensions of mysticism; present day Sufism and its spread in North America; comparison of Islamic mysticism with other forms of mysticism. [3] (HCA)

RLST 4552. Islam in the Modern World. [Formerly RLST 252] Impact of colonialism on Muslim societies and everyday life in the cities of the Middle East. Analysis through literary, religious, political, and ethnographic texts. Relationship of Sharia to the modern state; impact of modernity on the understanding and practice of religion. [3] (INT)

RLST 4554. The Qur'an and Its Interpreters. [Formerly RLST 254] The Qur'an and the Islamic tradition of interpretation. The treatment of Biblical prophets, Jesus and Satan. Interpretations will be drawn from all time periods including rationalist, dogmatic, Shi'i and mystical schools of interpretation. [3] (INT)

RLST 4592. Advanced Seminar in Arabic. [Formerly RLST 292] Analysis of style and forms. Poetry, novels, popular literature, and historical chronicles. Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

RLST 4593. Advanced Seminar in Islamic Tradition. [Formerly RLST 293] Analysis of original Arabic texts, manuscript reading, and research methods. Topics vary. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

RLST 4834. Post-Freudian Theories and Religion. [Formerly RLST 234] An examination of contemporary European and American schools of psychoanalysis. Focus on both the clinical and explanatory theories as they relate to the examination of religious experience. Recommended: 1820 or 121. [3] (SBS)

RLST 4835. Freudian Theories and Religion. [Formerly RLST 235] A critical assessment of psychoanalytic theories as an explanation of religious behavior. Study of the basic structure of these theories followed by a systematic critique of texts by Sigmund Freud and Erik Erikson. Examination of religious narrative forms. [3] (SBS)

RLST 4960W. Approaches to the Academic Study of Religion. [Formerly RLST 280W] Theories and methods for the academic study of religious traditions. Open only to junior and senior majors and minors. [3] (HCA)

RLST 4970. Majors Colloquium. [Formerly RLST 298] Regular presentations and critical readings of student projects and professional writings. May be repeated for credit twice for a total of 3 credit hours. Open only to majors. [1] (No AXLE credit)

RLST 4998. Senior Honors Thesis. [Formerly RLST 299A] Reading of primary research sources and writing an honors thesis under the supervision of the thesis adviser. Open only to senior departmental honors students. [3] (No AXLE credit)

RLST 4999. Senior Honors Thesis. [Formerly RLST 299B] Reading of primary research sources and writing an honors thesis under the supervision of the thesis adviser. Open only to senior departmental honors students. [3] (No AXLE credit)
Russian

RUSS 1001. Commons Seminar. [Formerly RUSS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

RUSS 1101. First-Year Russian. [Formerly RUSS 101] Elementary conversation and reading with an emphasis on everyday situations. An introduction to Russian culture and life through contemporary Russian materials. Five hours of class work. No credit for students who have earned credit for a more advanced Russian language course. [5] (No AXLE credit)

RUSS 1102. First-Year Russian. [Formerly RUSS 102] Continuation of 1101 with emphasis on reading and talking about texts. No credit for students who have earned credit for a more advanced Russian language course. Prerequisite: 1101. [5] (INT)

RUSS 1111. First-Year Writing Seminar. [Formerly RUSS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

RUSS 1910W. 19th Century Russian Literature. Literature as a battleground for the conflict between traditional values and new, rationalistic values introduced by industrialization and modernization. Gender relations, role of religion, social status of art, and rise of radical political movements. Texts by Tolstoy, Dostoevsky, and Chekhov. Knowledge of Russian is not required. No credit for students who earned credit for 2310. [3] (HCA)

RUSS 1911W. 20th Century Russian Literature. Masterpieces of literature as reflections of and reactions to massive social and political changes. Utopian and dystopian writing; literature as investigative reporting; and sincerity vs. postmodern irony. Return to nationalism in Putin’s Russia. Including writings by Nabokov and six Nobel laureates: Bunin, Pasternak, Sholokhov, Solzhenitsyn, Brodsky, and Alexievich. Soviet and contemporary genre fiction. Knowledge of Russian is not required. [3] (HCA)

RUSS 2201. Second-Year Russian I. [Formerly RUSS 203] Reading, speaking, listening, and writing. Grammar review and reading of contemporary Russian texts. No credit for students who have earned credit for 2211 [205] or 2212 [206]. Prerequisite: 1102. [4] (INT)

RUSS 2202. Second-Year Russian II. [Formerly RUSS 204] Reading, speaking, listening, and writing. Grammar review and reading of contemporary Russian texts. No credit for students who have earned credit for 2211 [205] or 2212 [206]. Prerequisite: 2201. [4] (INT)

RUSS 2210. Russia Today: Politics, Economics, and Culture. [Formerly RUSS 251] Four-week immersion in the history and culture of Russia. Travel to and interaction with residents in Vladimir, Moscow, St. Petersburg, and rural areas. Excursions to UNESCO World Heritage sites and volunteering at community organizations. Pre-departure readings and an examination must be completed. Knowledge of Russian is not required. [3] (INT)

RUSS 2230. Russia at War. [Formerly RUSS 230] Russia’s wars as seen through depictions in literature, film, music, and video games. Works by Tolstoy, Eisenstein, Bulgakov, Babel, Borodin, and others. Knowledge of Russian not required. [3] (INT)

RUSS 2273. Russian Science Fiction. [Formerly RUSS 173] Masterpieces of the genre including Tarkovsky’s Solaris and Stalker, the novels of the Strugatsky Brothers, and Protazanov’s Aelita. Various media ranging from literature and film to video games. Knowledge of Russian not required. [3] (INT)

RUSS 2436. Tolstoy’s War and Peace. Tolstoy’s famous novel in cultural, historical, political, and religious context. Selected early and late pieces by Tolstoy; critical commentaries on his place in Russian culture; and film and operatic adaptations of War and Peace. Tolstoy as artistic innovator, political anarchist, and significant moral voice for the 19th century. No credit for students who have earned credit for 2435 offered spring 2016. Knowledge of Russian is not required. [3] (INT)

RUSS 2438. Dostoevsky’s The Brothers Karamazov. [Formerly RUSS 238] Historical, social, political, philosophical, and religious contexts of one of the great epics of Western and Russian literature. Influence on 20th and 21st century literature and culture. Knowledge of Russian is not required. [3] (INT)

RUSS 2645. Modernity and its Discontents: Russian and Brazilian Literature and Film. From the 1850s to the present. Rise of modernity in St. Petersburg and Rio de Janeiro (Dostoevsky, Machado de Assis). Modern civilization and violence through war and the prison camp experience. Cinema and political utopia; and contemporary cinema. Knowledge of Russian is not required. [3] (INT)

RUSS 3303. Advanced Grammar and Reading. Advanced grammar and reading skills. May be repeated once for credit. Prerequisite: 2202. [4] (INT)

RUSS 3305. Advanced Conversation and Composition. [Formerly RUSS 257] Advanced conversation and composition skills. May be repeated once for credit. Prerequisite: 2202. [4] (INT)

RUSS 3850. Independent Readings. [Formerly RUSS 289A] Designed for majors and qualified undergraduates. Projects are carried out under the supervision of a member of the department. All projects must be approved by the department. May be repeated for a total of 6 credits over a four-semester period in 3850 and 3851 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for four semesters of RUSS 3850 and 3851] (No AXLE credit)
RUSS 3851. Independent Readings. [Formerly RUSS 289B] Designed for majors and qualified undergraduates. Projects are carried out under the supervision of a member of the department. All projects must be approved by the department. May be repeated for a total of 6 credits over a four-semester period in 3850 and 3851 combined if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for four semesters of RUSS 3850 and 3851] (No AXLE credit)

RUSS 3880. Internship Training. [Formerly RUSS 280A] Under faculty supervision, students gain experience working in a variety of settings, such as civic, corporate, cultural, government, health, media, political, research, and social welfare organizations in the United States and Russia. Background reading and research must be completed in Russian 3881 concurrently with 3880. A minimum of 3 hours of 3881 must be completed, independent of hours taken in 3880. Students may earn up to 6 hours of 3881 credit. A research paper and report must be submitted at the end of the semester during which the internship training is completed. A 2.90 grade point average and prior approval of the director of undergraduate studies of the student’s plans are required. Offered on a Pass/Fail basis only and must be taken concurrently with 3881. Hours of 3880 cannot be included in the minimum hours counted toward the Russian majors or minors. Corequisite: 3881. [Variable credit: 1-9] (No AXLE credit)

RUSS 3881. Internship Readings and Research. [Formerly RUSS 280B] Under faculty supervision, students gain experience working in a variety of settings, such as civic, corporate, cultural, government, health, media, political, research, and social welfare organizations in the United States and Russia. Background reading and research in Russian 3881 must be completed concurrently with 3880. A minimum of 3 hours of 3881 must be completed, independent of hours taken in 3880. Students may earn up to 6 hours of 3881 credit. A research paper and report must be submitted at the end of the semester during which the internship training is completed. A 2.90 grade point average and prior approval of the director of undergraduate studies of the student’s plans are required. Corequisite: 3880. [Variable credit: 3-6] (No AXLE credit)

RUSS 3890. Selected Topics. [Formerly RUSS 294A] May be repeated for a total of 12 credit hours in 3890 and 3891 combined if there is no duplication in topic. Students may enroll in one semester of this course each semester. [1-3; maximum of 12 credit hours total for all semesters of RUSS 3890 and 3891] (No AXLE credit)

RUSS 3891. Selected Topics. [Formerly RUSS 294B] May be repeated for a total of 12 credit hours in 3890 and 3891 combined if there is no duplication in topic. Students may enroll in one semester of this course each semester. [1-3; maximum of 12 credit hours total for all semesters of RUSS 3890 and 3891] (No AXLE credit)

Sociology

SOC 1001. Commons Seminar. [Formerly SOC 99] Topics vary. General Elective credit only. [1] (No AXLE Credit)

SOC 1010. Introduction to Sociology. [Formerly SOC 101] The study of human society; the nature of culture and its organization. Processes of communication, socialization, mobility, population growth. Repeat credit for students who have completed 1010W. No credit for students who have earned credit for 103. [3] (SBS)

SOC 1010W. Introduction to Sociology. [Formerly SOC 101W] The study of human society; the nature of culture and its organization. Processes of communication, socialization, mobility, population growth. Repeat credit for students who have completed 1010. No credit for students who have earned credit for 103. [3] (SBS)

SOC 1020. Contemporary Social Issues. [Formerly SOC 102] Social change, conflict, and inequality in modern societies. Basic sociological concepts and methods as they apply to social issues and policy. Focus varies by section. Repeat credit for students who have completed 1020W. [3] (SBS)

SOC 1020W. Contemporary Social Issues. [Formerly SOC 102W] Social change, conflict, and inequality in modern societies. Basic sociological concepts and methods as they apply to social issues and policy. Focus varies by section. Repeat credit for students who have completed 1020W. [3] (SBS)

SOC 1041. Men and Women in American Society. [Formerly SOC 104] This course focuses on ideas about masculinity and femininity and how these ideas carry with them inequalities in the distribution of power and resources available to men and women. We examine how gender permeates seemingly neutral aspects of everyday life - how we date, sexuality, family life, work relationships, political life, media images. Repeat credit for students who have completed 1041W. [3] (P)

SOC 1041W. Men and Women in American Society. [Formerly SOC 104W] This course focuses on ideas about masculinity and femininity and how these ideas carry with them inequalities in the distribution of power and resources available to men and women. We examine how gender permeates seemingly neutral aspects of everyday life—how we date, sexuality, family life, work relationships, political life, media images. Repeat credit for students who have completed 1041. [3] (P)

SOC 1111. First-Year Writing Seminar. [Formerly SOC 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

SOC 2100. Statistics for Social Scientists. [Formerly SOC 127] Descriptive and inferential statistics with social science research applications. Sampling issues; describing data with measures of central tendencies and dispersion; hypothesis testing using categorical and continuous indicators; multivariate techniques for continuous, categorical, and time dependent data. Limited to majors and minors in Sociology, Public Policy Studies, and Communication of Science and Technology, with preference given to Sociology majors and minors. [3] (No AXLE credit)

SOC 3001. Sociological Perspectives. [Formerly SOC 201] Major classical and contemporary sociological perspectives such as symbolic interactionism, functionalism, and conflict sociology. Attention to the orientation and style of outstanding representatives of each perspective. Analysis in terms of basic concepts, central questions, substantive themes, methodology, and bearing on contemporary social issues. [3] (P)

SOC 3002. Introduction to Social Research. [Formerly SOC 211] Overview and evaluation of research strategies. Interpretation of qualitative and quantitative data. Research methods and design. Evaluate research ethics, research hypotheses, and literature reviews. Prerequisite: 1010, 1010W, 1020, or 1020W. Open only to majors. [3] (SBS)

SOC 3003. Research Practicum. [Formerly SOC 212] Application of research skills acquired in 3002. A research report, including statement of hypothesis, discussion of data and methods, and interpretation of results, is required. Prerequisite: 3002 and either 2100, MATH 1011 or 2820, or ECON 1500 or 1510. Open also to students who have earned credit for PSY 2100 or PSY-PC 1400 and are majors in Child Development, Child Studies, Cognitive Studies, Human and Organizational Development, or A&S Psychology. [3] (No AXLE credit)

SOC 3201. Cultural Consumption and Audiences. [Formerly SOC 228] How audiences and consumers engage with art and culture—from popular music to film, classical art, fashion, and food. [3] (SBS)

SOC 3202. Cultural Production and Institutions. [Formerly SOC 229] The production of culture. The role of artists, firms, and markets in creating cultural objects, ideas, and practices, including: novels, television and news, science, music, visual arts, and food. Prerequisite: 3201. [3] (SBS)

SOC 3204. Tourism, Culture, and Place. [Formerly SOC 218] The nature of tourist encounters. Marketing and displaying culture to tourists. Implications for urban economies and landscapes, and for tourists and...
local. Biweekly field trips in Nashville. Open only to Sociology majors and minors. [3] (SBS)

SOC 3206. Creativity and Innovation in Society. [Formerly SOC 227] The social context for innovation and creativity. Interdisciplinary approaches to the creative process, invention, and entrepreneurship. Social networks and networks surrounding creative work; gatekeeping; the diffusion of innovation; changing institutions; and economic forces. [3] (SBS)

SOC 3207. Popular Culture Dynamics. [Formerly SOC 248] Examination of theories and research that link culture and society. Consideration of the mass media arts with particular emphasis on popular music. Focus on creators, industry, and audiences. [3] (SBS)

SOC 3222. Sociology of Religion. [Formerly SOC 246] Theories of the nature, function, and structure of religion. Religion in America, including fundamentalism, the Black Church, and cults. How religion changes and is changed by secular society. [3] (SBS)

SOC 3223. Schools and Society: The Sociology of Education. [Formerly SOC 254] How schools affect individuals and relate to institutions: the government, the economy, social classes, and families. How social attributes, including race and class, affect academic achievement. Controversies such as desegregation and intelligence testing. [3] (SBS)

SOC 3224W. Sociology through Baseball. [Formerly SOC 265W] Baseball as a social institution. Group dynamics, baseball as work and business. Free agency and law, race and ethnic relations, and globalization. [3] (SBS)

SOC 3232. Contemporary Mexican Society. [Formerly SOC 279] Sociological understanding of contemporary Mexican society. Historical roots of the modern Mexican state. Economic, political, and social institutions operating in Mexico, formal and informal structures, and their consequences. [3] (INT)

SOC 3304. Race, Gender, and Health. [Formerly SOC 268] Effect of racial and ethnic background, gender, socioeconomic status, sexual identity, and age on generation on the experiences of health, illness, medical institutions, and work in the health professions. [3] (SBS)

SOC 3311. Climate Change and Society. [Formerly SOC 207] The sociology of climate change, including efforts to reduce greenhouse gases and problems caused by climate change. Comparative analysis of how governments and businesses develop strategies to adapt to climate change. [3] (SBS)

SOC 3312. Environment and Development. [Formerly SOC 208] Relationships between economic development and the natural environment. Implications of development on our contemporary ways of life and the environmental conditions of our planet. Different models of development for both Western industrial and developing societies, from early imperialism to contemporary globalization. Current global environmental crises, problems of environmental inequality and injustice, and social movements for alternative development initiatives. [3] (SBS)

SOC 3314. Environmental Inequality and Justice. [Formerly SOC 221] Relationships between social inequalities and environmental degradation, both in the U.S. and internationally. Distribution of environmental hazards across race and class, natural resource rights and management, urban health and sustainability, climate injustices, and environmental justice movements. No credit for students who have earned credit for WGS 1111 section 4. [3] (SBS)

SOC 3317. Energy Transitions and Society. Comparisons of contemporary societies’ transition to low-carbon energy systems. Emphasis on renewable energy and energy efficiency. Perspectives include both wealthy and poor countries. [3] (INT)

SOC 3601. Self, Society, and Social Change. [Formerly SOC 204] Problems and prospects for individual participation in social change; volunteerism, community service, and philanthropy; role of individuals and voluntary associations in social change. [3] (SBS)
SOC 3602. Change and Social Movements in the Sixties. [Formerly SOC 216] Mid-1950s to mid-1970s. The rise and influence of social movements in the 1960s, including civil rights, student, anti-Vietnam War, feminist, and counter-cultural. [3] (SBS)

SOC 3603. Women and Social Activism. [Formerly SOC 225] History of women’s participation in social movements. Women’s citizenship, environmentalism, second- and third-wave feminism, hate movements, and global feminist activism. Theories of mobilization, collective identity, strategy, and movement outcomes. No credit for students who earned credit for 1111 section 17. [3] (SBS)

SOC 3604. American Social Movements. [Formerly SOC 249] The effect of key social movements on American society. Comparison of the organization and success of movements such as the American Revolution, Southern Secession, Populism, Woman’s Suffrage, and Civil Rights. [3] (US)

SOC 3612. Class, Status, and Power. [Formerly SOC 236] Analysis of the competition for jobs, advancement, and income. The influence of social background, education, politics, race, sex, changes in national economy, and other factors will be considered. Theoretical and empirical analysis focusing on the United States. [3] (SBS)

SOC 3613. Law and Society. [Formerly SOC 240] Law, inequality, and racial, ethnic, gender, and economic groups in society. Operation of the legal system, including lawyers, courts, and police. Advantages and disadvantages in law. Law’s role in social change. [3] (SBS)

SOC 3614. Politics, State, and Society. [Formerly SOC 244] The relationship between state and society; the nature and distribution of power in democratic society; the social conditions necessary for democracy; social movements and protest in political change; and the politics of public policy making. Attention to political actions, definitions of citizenship, and political ideology. [3] (SBS)

SOC 3615. Human Behavior in Organizations. [Formerly SOC 247] Organizations are treated as resources in the production and distribution of goods and services. Case analyses from the economy are reviewed to diagnose “organizational pathologies” and to understand reciprocal impacts among organizational structures, leaders, and citizens. [3] (SBS)

SOC 3616. Women and Public Policy in America. [Formerly SOC 251] A study of public policies as they affect women in contemporary American society. Issues considered include participation of women in the labor force; effects of employment patterns on the family; birth control, abortion, and health care policies; child care; participation of women in political processes; divorce, child support, and custody; affirmative action policies; present governmental remedies and proposed alternatives. [3] (SBS)

SOC 3621. Criminology. [Formerly SOC 231] The nature, distribution, causes, and control of crime with emphasis on contemporary American society and a broad range of types of crime. [3] (SBS)

SOC 3623. Deviant Behavior and Social Control. [Formerly SOC 233] The social causes of, and societal reactions to, several types of deviant behavior (e.g., juvenile delinquency, crime, sex deviance, mental illness). Examines the probable consequences of suggested solutions to reduce different types of deviant behavior. [3] (SBS)

SOC 3711. Women, Gender, and Globalization. [Formerly SOC 239] Globalization and its impact on women and gender relations. Multinational corporations, economic development, and inequality; new forms of work; human rights; feminist movements for change. [3] (INT)

SOC 3722. Gender in Society. [Formerly SOC 250] Theoretical approaches to gender relations with a focus on the contemporary U.S. Evolution of gender stereotypes, gender socialization over the life course, gender in social interactions, institutional sources of gender inequality, and intersections of gender with race, social class, and sexual identity. Topics include work, school, families, health, and intimate relationships. [3] (SBS)

SOC 3723. Gender, Sexuality, and the Body. [Formerly SOC 257] The body is a physical marker of gender and sexuality. Biological reproduction is saturated with social meanings—shaping ideas about masculinity, femininity, the gender division of labor, and heterosexuality. In this course, we will look at the body as reflexive project and as the site of historical and ideological significance. We address race, ethnicity, physical abilities, and class in explaining variations in cultural ideals. [3] (SBS)

SOC 3724. Gender Identities, Interactions, and Relationships. [Formerly SOC 272] Gender identities form and influence interactions in friendships, intimate relations, families, education, and other institutions. Changes and continuities in gender roles within the United States and in which race, class, and sexual orientation intersect processes of gender relations. [3] (SBS)

SOC 3851. Independent Research and Writing. [Formerly SOC 299] May be repeated for a total of 6 credits. Students may enroll in more than one section of this course each semester. [1-6; maximum of 6 credits total for all semesters of 3851] (No AXLE credit)

SOC 3880. Internship Training. [Formerly SOC 280B] Under faculty supervision, students gain experience in any of a variety of settings, such as civic, corporate, cultural, government, health, media, political, research, and social welfare organizations. Background reading and research will be completed in Sociology 3881 concurrently with the completion of internship training, Sociology 3880. A minimum of 3 hours of 3881 must be completed with hours taken in 3880. A research paper and report must be submitted at the end of the semester during which the internship training is completed. A 2.90 grade point average, completion of 6 hours of prior work in sociology, and prior departmental approval of the student’s plans are required. Offered on a pass/fail basis only and must be taken concurrent with 3881. Hours of 3880 may not be included in the minimum hours counted toward the sociology major. Corequisite: 3881. [1-3] (No AXLE Credit)

SOC 3881. Internship Readings and Research. [Formerly SOC 280A] Under faculty supervision, students gain experience in any of a variety of settings, such as civic, corporate, cultural, government, health, media, political, research, and social welfare organizations. Background reading and research will be completed in Sociology 3881 concurrently with the completion of internship training, Sociology 3880. A minimum of 3 hours
Spanish

SPAN 1001. Commons Seminar. [Formerly SPAN 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

SPAN 1100. Elementary Spanish I for True Beginners. [Formerly SPAN 100] Designed exclusively for students with no previous exposure to Spanish. Development of basic listening, speaking, reading, and writing skills with Spanish-speaking culture through a communicative approach. Conducted primarily in Spanish. Open only to students who have completed 1100 or have earned credit for a more advanced Spanish language course. Prerequisite: Corequisite: 3880. [3-6; maximum of 6 credits total for all semesters of 3881] (No AXLE credit)

SPAN 1101. Elementary Spanish I. [Formerly SPAN 101] Basic listening, speaking, reading, and writing skills. Communicative approach and exposure to aspects of Spanish-speaking cultures. Conducted entirely in Spanish. Four hours of classroom instruction plus one hour of independent research activities. Students continuing in Spanish take 1102. No credit for students who have already completed 1100 or have earned credit for a more advanced Spanish language course. Students wishing to repeat this course must take 1101 for repeat credit. [5] (No AXLE credit)

SPAN 1102. Elementary Spanish II. [Formerly SPAN 102] Further development of listening, speaking, reading, and writing skills using a communicative approach. Exposure to aspects of Spanish-speaking culture. Conducted entirely in Spanish. Four hours of classroom instruction plus one hour of independent research activities. Intended for students with prior study of the language and a departmental placement score under 275. Serves as repeat credit for students who have completed 1100. No credit for students who have earned credit for a more advanced Spanish language course. Prerequisite: 1101 or 1102. [5] (INT)

SPAN 1103. Intensive Elementary Spanish. [Formerly SPAN 103] A communicative approach to reading, writing, listening, and speaking for students who have studied one to three years of Spanish. Rigorous review of elementary Spanish through four hours of class instruction and one hour of independent research activities. Departmental Spanish placement exam score of 275-364. Students continuing in Spanish take 2203. No credit for students who have earned credit for 1100, 1101, or 1102. No credit for students who have earned credit for a more advanced Spanish language course. Prerequisite: 1100 or 1101. [5] (INT)

SPAN 1111. First-Year Writing Seminar. [Formerly SPAN 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

SPAN 2203. Intermediate Spanish. [Formerly SPAN 104] Development of intermediate linguistic competence in Spanish (listening, speaking, reading, and writing) using a communicative approach. Study of cultures of Spanish-speaking countries by incorporating authentic materials. Four hours of classroom instruction plus one hour of independent research activities. Intended for students who have earned credit for 1102 or 1103 and have a departmental placement score of 385-440. No credit for students who have earned credit for a more advanced Spanish language course. [5] (INT)

SPAN 2995. Contemporary Latin American Prose Fiction in English Translation. [Formerly SPAN 293] Themes and techniques of the contemporary novel, novella, and short story written by both men and women in Spanish America and Brazil. No credit for graduate students in Spanish or Portuguese. [3] (HCA)

SPAN 3301W. Intermediate Spanish Writing. [Formerly SPAN 201W] Development of abilities in composition tasks related to expository writing. Focus on rhetorical techniques for organizing information, vocabulary abilities, and emphasis on collaborative work. Students write several short papers and a final long paper. Intended for students who have earned credit for 2203 or have a departmental Spanish placement exam score of 441 or higher. [3] (INT)

SPAN 3302. Spanish for Oral Communication through Cultural Topics. [Formerly SPAN 202] Development of speaking skills through the study of Spanish and Hispanic culture, and Spanish and Spanish-American current affairs. Texts drawn from contemporary articles, short stories, TV news, documentaries, and Web materials. Different registers of spoken Spanish. The development of effective strategies for oral communication. Offered on a graded basis only. Prerequisite: 3301W. Students with advanced oral skills will be placed in a higher level course. [3] (INT)

SPAN 3303. Introduction to Spanish and Spanish American Literature. [Formerly SPAN 203] Critical reading and methods of literary analysis. Selections cover all genres in several periods. Prerequisite: 3301W and 3302. [3] (HCA)

SPAN 3320. Introduction to Hispanic Cultural Studies. [Formerly SPAN 204] An examination of contemporary Hispanic culture through a variety of media (newspapers, magazines, comics, Web sites), arts, and entertainment. Prerequisite: 3301W and 3302. Not open to students who have studied abroad. [3] (INT)

SPAN 3325. The Way of Saint James. [Formerly SPAN 205] Origins and development of the Way of Saint James, or Camino de Santiago, through an examination of literature, art, history, and cultural and religious issues. Contributions from the cult of Saint James and the Way to Spanish national identity. Repeat credit for students who completed 296 section 1 in summer 2012 and summer 2013. Prerequisite: 3301W and 3302. [3] (HCA)

SPAN 3340. Advanced Conversation. [Formerly SPAN 207] An intercultural approach contrasting Hispanic and American perspectives. Discussions and oral presentations on contemporary issues. For students with a high level of oral proficiency, especially those returning from a semester abroad. Offered on a graded basis only. Prerequisite: 3302. [3] (INT)
SPAN 3345. Spanish for Business and Economics. [Formerly SPAN 206] Linguistic skills and cultural information for conducting business in the Spanish-speaking world. Basic syntactic and phonological structures within the context of business. Activities to develop written, oral, and aural skills in several areas, including finance, management, marketing, and tourism. Offered on a graded basis only. Prerequisite: 3301W and 3302. [3] (INT)

SPAN 3355. Advanced Conversation through Cultural Issues in Film. [Formerly SPAN 208] Spanish and Latin American films as the basis for discussion and analysis of linguistic, historic, cultural, and social issues. Students are expected to have completed at least one Spanish language course beyond 3303. Prerequisite: 3301W, 3302, and 3303. [3] (INT)

SPAN 3360. Spanish Civilization. [Formerly SPAN 221] The development of Spanish culture from the Middle Ages to the present in the context of Western civilization. Discussion of historical background, literary and artistic trends, and political and socioeconomic patterns. Not open to students who have attended Vanderbilt in Spain. Prerequisite: 3301W and 3302. [3] (INT)

SPAN 3365. Film and Recent Cultural Trends in Spain. [Formerly SPAN 226] The cinema and Spanish cultural evolution during and after the Franco dictatorship. Prerequisite: 3303. [3] (INT)

SPAN 3370. Spanish American Civilization. [Formerly SPAN 223] The development of Spanish American culture from colonial times to the present; discussion of basic institutions, political and socioeconomic patterns, education, the arts, and folklore. Prerequisite: 3301W and 3302. [3] (INT)

SPAN 3375. Film and Culture in Latin America. [Formerly SPAN 227] Latin American cinema in historical perspective. Screenings, critical readings, and supplementary texts. Prerequisite: 3303. [3] (P)

SPAN 3380. The Spanish Language. [Formerly SPAN 209] An advanced grammar course with emphasis on problem constructions, stylicitics, and composition. Offered only in the Vanderbilt in Spain program. [3] (INT)

SPAN 3385. Creative Writing and Advanced Grammar. Development of writing skills through advanced grammatical concepts, vocabulary, and writing techniques and the production of short stories, essays, poems, and other forms of textual discourse. Prerequisite: 3303. [3] (INT)

SPAN 3380. Spanish for the Medical Profession. [Formerly SPAN 211] Advanced conversation course incorporating linguistic skills and cultural information relevant to medical issues in the Hispanic world. Service learning with the Latino and Latina community as an important component. Prerequisite: 3301W and 3302. [3] (INT)

SPAN 3385. Latino Immigration Experience. [Formerly SPAN 243] Literature and film that depict the immigration and assimilation experiences of the main Latino groups. Service to the Latino community integral part of course work. Prerequisite: 3303. [3] (P)

SPAN 3850. Independent Study. [Formerly SPAN 289] Designed primarily for majors. Projects are arranged with individual professors and must be approved by the director of undergraduate studies before the close of registration in the semester of the project. May be repeated for a total of 12 credits over a four semester period, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 12 credits total for four semesters of SPAN 3850] (No AXLE credit)

SPAN 3880. Internship Training in Spain. [Formerly SPAN 287B] Under faculty supervision, students gain experience in public or private organizations and complete research and readings. Offered on a pass/fail basis only and must be taken concurrently with 3881. Corequisite: 3881. [1] (No AXLE credit)

SPAN 3881. Internship Readings and Research in Spain. [Formerly SPAN 287A] Under faculty supervision, students gain experience in public or private organizations, and complete research and readings. Must be taken concurrently with 3880. Corequisite: 3880. [3] (No AXLE credit)

SPAN 3891. Special Topics in Hispanic Culture. [Formerly SPAN 296] Prerequisite: 3303. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

SPAN 3892. Special Topics in Spanish Language and Linguistics. [Formerly SPAN 295] Prerequisite: 3303. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

SPAN 3893. Special Topics in Hispanic Literature. [Formerly SPAN 294] Prerequisite: 3303. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

SPAN 4310. Translation and Interpretation. [Formerly SPAN 213] Theory and practice of translation and interpretation, both from English to Spanish and Spanish to English. Practical knowledge of the basic modes of translation (direct and oblique) and interpretation (sight, consecutive, and simultaneous). Emphasis on the fundamentals of translation in legal, medical, literary, business, commercial, media, sports, and other fields. Prerequisite: 3303. [3] (SBS)

SPAN 4315. Contrastive Analysis of Spanish and English. [Formerly SPAN 217] A comparison of the phonological, morphological, and syntactical structures of Spanish and English to demonstrate the similarities and differences between the linguistic systems of these two languages. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4320. Phonology. [Formerly SPAN 216] Analysis of the production, nature, and systemic function of the sounds of the Spanish language, as well as of problems frequently experienced by non-native speakers. Both standard and dialect features of Spanish are examined. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4325. Dialectology. [Formerly SPAN 214] Formation, general characteristics, distinctive features, and geographical extension of the principal dialectal regions of Spain and Spanish America. Both historical and modern dialects are considered. Emphasis on non-standard dialectal varieties of Spanish. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4330. Words and Stems. [Formerly SPAN 215] A morphological presentation of the structural principles governing the creation of noun, verb, adjective, and adverb along with an overview of the formation of the underlying stems. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4335. Morphology and Syntax. [Formerly SPAN 218] An introduction to the principles of modern Spanish morphology (word formation) and syntax (phrase structure and usage) through an analysis of the native speaker’s organization of reality and use of language to reflect and to express that organization. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4345. The Languages of Spain. [Formerly SPAN 220] Origins, development, and the contemporary sociolinguistic situation of the principal languages and dialects of Spain, including Castilian, Catalan, Galician, and Basque. Prerequisite: 3301W and 3302. [3] (SBS)

SPAN 4355. Spanish in Society. [Formerly SPAN 283] Language variation and linguistic change. Regional, socioeconomic, gendered, and ethnic differences in spoken Spanish. Language as it shapes the identities of speakers. Language use in social contexts with comparisons to English. Prerequisite: 3303. [3] (SBS)

SPAN 4400. The Origins of Spanish Literature. [Formerly SPAN 231] From its beginnings to the Renaissance; the creation of a social order and a cultural tradition. Close study of three literary landmarks – Poema del Cid, Libro de Buen Amor, La Celestina – and other prose and poetry selections. Prerequisite: 3303. [3] (HCA)

SPAN 4405. Literature of the Spanish Golden Age. [Formerly SPAN 232] Representative works from early modern Spain, including poetry, prose, and drama of the Renaissance and Baroque periods. Prerequisite: 3303. [3] (HCA)

SPAN 4410. Spanish Literature from the Enlightenment to 1900. [Formerly SPAN 233] Essays and Neoclassic literature. Romanticism, Realism, and Naturalism. Representative works and authors from all genres. Prerequisite: 3303. [3] (HCA)

SPAN 4415. Spanish Literature from 1900 to the Present. [Formerly SPAN 234] Representative authors and works. Prerequisite: 3303. [3] (HCA)

SPAN 4425. Spanish American Literature from 1900 to the Present. [Formerly SPAN 236] The works of Neruda, Borges, Paz, García Márquez and others. Prerequisite: 3303. [3] (HCA)

SPAN 4440. Development of the Short Story. [Formerly SPAN 260] From early manifestations in Spain through its current forms in Spain and Spanish America. Prerequisite: 3303. [3] (HCA)

SPAN 4445. Development of the Novel. [Formerly SPAN 239] From the seventeenth century through Realism and Naturalism in Spain and Spanish America. Prerequisite: 3303. [3] (HCA)

SPAN 4455. Development of Drama. [Formerly SPAN 251] Spanish theatrical works from 1600 to 1900, including the Golden age comedy, neoclassicism, romanticism, and early realism in drama. Prerequisite: 3303. [3] (HCA)

SPAN 4465. The Theory and Practice of Drama. [Formerly SPAN 281] Critical works and plays from different periods. Introduction to the principles of dramaturgy. Prerequisite: 3303. [3] (HCA)

SPAN 4470. Development of Lyric Poetry. [Formerly SPAN 230] Popular and traditional forms; the sonnet and other Renaissance and Baroque classical forms. Romanticism. Prerequisite: 3303. [3] (HCA)

SPAN 4550. The Theory and Practice of Literary Translation. [Formerly SPAN 271] Theoretical approaches and their consequences for the interpretation of translated texts. Practical application of these principles in the translation of both Spanish and Portuguese texts into English. Taught in Spanish. Written work in Spanish or Portuguese. Serves as repeat credit for students who completed 294 section 3 in fall 2013 or spring 2013, or 294 section 1 in spring 2012. Prerequisite: 3303. [3] (HCA)

SPAN 4620. Love and Honor in Medieval and Golden Age Literature. [Formerly SPAN 256] The evolution of the key themes of love and honor in works from various genres of medieval and Golden Age Spanish literature with special attention to sociohistorical context. Prerequisite: 3303. [3] (HCA)

SPAN 4690. Alterity and Migration in Spain. [Formerly SPAN 264] Historical and literary texts about nationalism and cultural difference. Representations of contact with Africa, the Americas, and Asia; regional identities; immigration; gender and racial issues. Repeat credit for students who completed 294 section 2 in fall 2010 or section 1 in spring 2014. Prerequisite: 3303. [3] (P)

SPAN 4720. Literary Genres and National Identities in Latin America. [Formerly SPAN 277] A comparative approach to the rise of the national literary traditions from independence to the latter half of the twentieth century. Indigenous novels, abolitionist narratives, and gaucho poetry by colonial figures, including African slaves, indigenous peoples, and Argentine Gaucho. Serves as repeat credit for students who completed 294 section 1 in spring 2013. Prerequisite: 3303. [3] (P)

SPAN 4725. Jungle Narratives in Latin America. From the colonial period to the present. Evolution of the representation of the jungle. Serves as repeat credit for students who completed 3893 section 1 in fall 2016. Prerequisite: 3303. [3] (HCA)

SPAN 4730. Modern Latin American Poetry. [Formerly SPAN 273] Development of poetry in Spanish America and Brazil during the twentieth century. Major poets and movements, including both Spanish American Modernismo and Brazilian Modernismo. Poetry as a genre; introduction and discussion of students’ poetry. Taught in Spanish. Serves as repeat credit for students who completed 294 section 2 in fall 2013 or 294 section 1 in fall 2012. Prerequisite: 3303. [3] (HCA)

SPAN 4740. Spanish-American Literature of the Boom Era. [Formerly SPAN 247] The boom novel of the 1960s: Carlos Fuentes’ La muerte de Artemio Cruz, Julio Cortázar’s Rayuela, Mario Vargas Llosa’s La ciudad y los perros, Guillermo Cabrera Infante’s Tre s tres históricos, and Gabriel García Márquez’s Cien años de soledad. Prerequisite: 3303. [3] (HCA)

SPAN 4750. Afro-Hispanic Literature. [Formerly SPAN 244] From nineteenth-century slave narrative to modern writers such as Miguel Barret, Alejo Carpentier, and Quince Duncan. Prerequisite: 3303. [3] (P)

SPAN 4760. Literature and Medicine. [Formerly SPAN 274] Modern intersections of literature and medicine in Latin America. From the social hygiene literature of the nineteenth century to the autobiographical disease narrative of the late twentieth century. Prerequisite: 3303. [3] (P)

SPAN 4810. Images of the City. [Formerly SPAN 263] Literary representations of cityscapes in Spain and Latin America. Repeat credit for students who completed 294 section 2 in fall 2011. Prerequisite: 3303. [3] (HCA)

SPAN 4980. Undergraduate Seminar. [Formerly SPAN 280] Close contextual readings of major Hispanic literary texts through selected critical approaches. Open to junior and senior majors in Spanish; required of candidates for honors. Prerequisite: 3303. [3] (HCA)
Theatre

THTR 1001. Commons Seminar. [Formerly THTR 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

THTR 1010. Fundamentals of Theatre. [Formerly THTR 100] An introduction to the various elements that combine to form a theatrical experience; the development of critical standards to judge these elements in performance. No credit for students who have earned credit for 1111. Repeat credit for students who have completed 1010W. [3] (HCA)

THTR 1010W. Fundamentals of Theatre. [Formerly THTR 100W] An introduction to the various elements that combine to form a theatrical experience; the development of critical standards to judge these elements in performance. No credit for students who have earned credit for 1111. Repeat credit for students who have completed 1010. [3] (HCA)

THTR 1111. First-Year Writing Seminar. [Formerly THTR 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [Maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

THTR 1611. Acting I. [Formerly THTR 219] The role of the actor in the theatre with emphasis on artistic self-expression through improvisation and development of performance skills. Available on a graded basis only. [3] (HCA)

THTR 1711. Introduction to Theatrical Production. [Formerly THTR 110] Contemporary concepts, methods, and practices employed in the planning and implementation of stage scenery and lighting. Communication, creative problem solving, and organizational management through research, lecture, and class discussion. [4] (HCA)

THTR 2202W. Histories of Theatre and Drama II: The European Stage. [Formerly THTR 202W] Including the Italian Renaissance, French neoclassicism, English Restoration, German and French romanticism, and the modernist movements of realism, symbolism, Dada and futurism, expressionism, epic theatre, and absurdism. [3] (INT)

THTR 2204. Histories of Theatre and Drama III: The U.S. Stage. [Formerly THTR 204] Including British colonial and revolutionary drama; frontier theatre; melodrama; minstrelsy, vaudeville, burlesque, and the musical stage; pageantry and community theatre; postwar realism; African-American, Chicana/o, feminist, and Asian-American theatre movements. [3] (US)

THTR 2311W. Writing for the Stage and Screen. Techniques for writing plays and screenplays with critical attention to dramatic themes and characterization. [3] (HCA)

THTR 2781. The History of Fashion: Sex and Propaganda. [Formerly THTR 216] Men’s and women’s fashion from ancient times to the present. Women’s roles in society as reflected in their clothing. [3] (P)

THTR 3201W. Contemporary Drama and Performance Criticism. [Formerly THTR 206W] Dramatic literature and performance theory. Advanced techniques in writing performance criticism. No credit for students who have earned credit for 203. Prerequisite: at least sophomore standing and 1010, 1010W, or 1111. [3] (P)

THTR 3281. Theatre in London. [Formerly THTR 280] Intensive overseas summer study program in contemporary British theatre. Ten productions in London covering a broad spectrum of theatrical offerings. Weekly seminars with artists and administrators from the British professional stage. [3] (P)

THTR 3311. Playwriting. [Formerly THTR 225] Instruction in writing plays with critical attention to dramatic themes and characterization. Prerequisite: 1010, 1010W, or 1111 and consent of the instructor. [3] (HCA)

THTR 3600. Rehearsal-Acting. [Formerly THTR 221] Students performing major roles in university theatre productions may receive 1 credit hour per role at the discretion of the director. Full character analysis and periodic reports of rehearsal progress are required. Prerequisite: 3611. May be repeated for a total of 3 credits, but students may earn only up to 2 credits per semester of enrollment. [1-2; maximum of 3 credits total for all semesters of THTR 3600] (No AXLE credit)

THTR 3611. Acting II. [Formerly THTR 220] The actor’s role in the theatre with emphasis on acting as character interpretation and ensemble performance through analysis and scene study. Offered on a graded basis only. Prerequisite: 1611. [3] (HCA)

THTR 3700. Rehearsal-Production. [Formerly THTR 211] Students performing major technical assignments in university theatre productions may receive 1 credit hour per assignment at the discretion of the technical director. Detailed plans of expected work and full reports on all crew sessions are to be submitted. May be repeated for a total of 3 credits, but students may earn only up to 2 credits per semester of enrollment. Prerequisite: consent of instructor. [1-2; maximum of 3 credits total for all semesters of THTR 3700] (No AXLE credit)

THTR 3741. Elements of Basic Design: Costuming and Makeup. [Formerly THTR 214] Aesthetics and processes. Development and communication of design ideas through the drawing and rendering of the costumed figure. Prerequisite: 1711 or 2781. [4] (HCA)

THTR 3851. Independent Study. [Formerly THTR 289] A research project in selected aspects of theatre and drama to be arranged with the instructor. [Variable credit: 1-3] (No AXLE credit)
THTR 3891. Selected Topics in Theatre. [Formerly THTR 294] Intensive study of a particular area of theatre. Emphasis on personal investigation and written reports. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

THTR 4611. Problems of Acting Style. [Formerly THTR 223] Advanced scene study, investigating methods used today to perform drama of past eras which used non-realistic styles. Offered on a graded basis only. Prerequisite: 3611. [3] (HCA)

THTR 4961. Senior Seminar: Performance Ensemble. [Formerly THTR 261] Advanced development of artistic, communicative, and organizational skills required to create theatre. Culminates in a public performance. Open to senior majors only. Prerequisite: 1010, 1010W, or 1111; 1711; 1751; 1611; and 2651. [3] (HCA)

THTR 4998. Senior Honors Thesis. [Formerly THTR 299A] Independent research and completion of an honors thesis, done in consultation with a member of the faculty in Theatre. Open only to those who qualify to begin departmental honors work in Theatre. [3] (No AXLE credit)

THTR 4999. Senior Honors Thesis. [Formerly THTR 299B] Independent research and completion of an honors thesis, done in consultation with a member of the faculty in Theatre. Open only to those who qualify to begin departmental honors work in Theatre. [3] (No AXLE credit)

Tibetan

TBTN 1101. Elementary Tibetan I (UVA). Grammar and syntax of spoken and written Tibetan. Listening, speaking, reading, and writing from Tibetan short stories, proverbs, and other sources. Tibetan culture. Offered on a graded basis only. [4] (No AXLE credit)

TBTN 1102. Elementary Tibetan II (UVA). Grammar and syntax of spoken and written Tibetan; listening, speaking, reading and writing. Examples from Tibetan short stories and proverbs, among other sources. Exposure to Tibetan culture to improve communication skills, using a dynamic, interactive format. Offered on a graded basis only. Prerequisite: 1101. [4] (INT)

TBTN 2201. Intermediate Tibetan I (UVA). Grammar and syntax of spoken and written Tibetan. Listening, speaking, reading, and writing through the integrated use of spoken and literary forms. Enhanced knowledge of Tibetan culture. Offered on a graded basis only. [4] (INT)

TBTN 2202. Intermediate Tibetan II (UVA). Grammar and syntax of spoken and written Tibetan; listening, speaking, reading and writing through spoken and literary forms. Further study of Tibetan culture to improve communication skills. Offered on a graded basis only. Prerequisite: 2201. [4] (INT)

Women's and Gender Studies

WGS 1001. Commons Seminar. [Formerly WGS 99] Topics vary. General Elective credit only. [1] (No AXLE credit)

WGS 1111. First-Year Writing Seminar. [Formerly WGS 115F] Independent learning and inquiry in an environment in which students can express knowledge and defend opinions through intensive class discussion, oral presentations, and written expression. May be repeated for credit once if there is no duplication of topic, but students may earn only up to 3 credits in any 1111 course per semester of enrollment. [3]; maximum of 6 credits total for all semesters of 1111] (AXLE credit category varies by section)

WGS 1150. Sex and Gender in Everyday Life. [Formerly WGS 150] Sex and gender roles in culture and society. Gender, race, and class. Women and men in literature, art, culture, politics, institutions. Repeat credit for students who have completed 1150W. [3] (P)

WGS 1150W. Sex and Gender in Everyday Life. [Formerly WGS 150W] Sex and gender roles in culture and society. Gender, race, and class. Women and men in literature, art, culture, politics, institutions. Repeat credit for students who have completed 1150.[3] (P)

WGS 1160. Sex and Society. [Formerly WGS 160] Historical, cultural, and social contexts of sexual diversity, discrimination, and sexual violence. Understanding the centrality of sexuality in identity; challenging harmful modes of sexual expression; developing critical awareness of sex and sexuality. [3] (P)

WGS 1272. Feminism and Film. [Formerly WGS 272] Images of gender and race; techniques, sound, lighting, cinematography in relation in gender. Prerequisite: 1150 or 1150W or 1160. [3] (US)

WGS 2225. Women in Popular Culture. [Formerly WGS 200] Gender differentiation in popular culture and mass-market products. Portrayal of women in movies, print, music, and the Internet. The sources and effects of these portrayals. Women as both consumers and the consumed. Prerequisite: 1150 or 1150W or 1160. [3] (HCA)

WGS 2240. Introduction to Women's Health. [Formerly WGS 240] How culture influences women's health, body image, self esteem. Issues include fertility control and child bearing, medical innovations to detect disease, alternative therapies, psychological well-being, sexuality, physical and sexual abuse. Impact of politics on health options for women. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 2242. Women Who Kill. [Formerly WGS 242] Examination of classical and contemporary representations of women who kill. [3] (P)

WGS 2243. Sociologies of Men and Masculinity. [Formerly WGS 243] Traditional and emerging perspectives on masculinity and male gender-roles. Emphasis on relationship between social forces and males' everyday experiences across the life-span. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 2244. The Body, Culture, and Feminism. The body as a cultural, social, and historical construction. Western culture and narratives of “normalcy” and their impact on identity and representation. Body image and eating disorders. Cultural politics of size, weight, and shape. Disability, cosmetic surgery. Prerequisite: 1150, 1150W, or 1160. [3] (P)

WGS 2248. Humor and Cultural Critique in Fannie Flagg's Novels. [Formerly WGS 248] Humor used to address cultural issues in Southern small-town America from 1920-1970. Gender, race, community, and feminism in Fannie Flagg's novels. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 2249. Women and Humor in the Age of Television. [Formerly WGS 249] The period 1950 to present. Television variety shows, sitcoms, and stand-up comedy as media for promoting women's humor and feminism. Comedy as a means of dealing with difficult personal and social issues. Prerequisite: 1150 or 1150W or 1160. [3] (HCA)

WGS 2252. Sex and Scandals in Literature. [Formerly WGS 252] From the eighteenth century to the present. Women's and men's disorderly conduct as represented in literary texts. Charlotte Rowson, Kate Chopin, Edith Wharton, Henry James, and Toni Morrison. [3] (HCA)

WGS 2254. Feminist Fictions. [Formerly WGS 254] From the nineteenth century to the present. Feminist ideas and ideals as represented in literary texts. Kate Chopin, Edith Wharton, Virginia Woolf, Alice Walker, and Margaret Atwood. [3] (HCA)

WGS 2259. Reading and Writing Lives. [Formerly WGS 259] Interdisciplinary exploration of life-stories as narratives. Strategies of self-representation and interpretation, with particular attention to women. Includes fiction, biography, autobiography, history, ethnography, and the writing of life-story narratives. Repeat credit for students who have completed 2259W. Prerequisite: 1150 or 1150W or 1160. [3] (HCA)

WGS 2259W. Reading and Writing Lives. [Formerly WGS 259W] Interdisciplinary exploration of life-stories as narratives. Strategies of self-representation and interpretation, with particular attention to women. Includes fiction, biography, autobiography, history, ethnography, and the writing of life-story narratives. Repeat credit for students who have completed 2259. Prerequisite: 1150 or 1150W or 1160. [3] (HCA)

WGS 2262. Gender and Ethics. [Formerly WGS 262] Religious worldviews connected to moral traditions. Epistemological and ethical systems
and their relationship to gender and patriarchy, Social construction of gender; violence against women; feminism; and difference. No credit for students who earned credit for RLST 223 before fall 2014. [3] (P)

WGS 2267. Seminar on Gender and Violence. [Formerly WGS 267] In-depth study of violence against women, with a service-learning component in a community setting. Topics include domestic abuse, rape, sexual harassment, pornography, and global violence. Focus on problems and potential solutions, examining violence on a societal, institutional, and individual level, interrogating the “personal as political,” and exposing power structures that shape our communities. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 2268. Gender, Race, Justice, and the Environment. [Formerly WGS 268] Gender and racial aspects of environmental degradation. Risk, activism, health and illness, policy and politics. Prerequisite: 1150 or 1150W or 1160. [3] (SBS)

WGS 2270. Ecofeminism: Theory, Politics, and Action. [Formerly WGS 270] Interconnections among the exploitation of nature, the oppression of women, and the abuse of resources that have led to the current global ecological crisis. [3] (SBS)

WGS 2612. Lesbian, Gay, Bisexual, and Transgender Studies. [Formerly WGS 212] Introductory study of sexual identity, queer theory, relationships, politics. Prerequisite: 1150 or 1150W or 1160. [3] (HCA)

WGS 3201. Women and Gender in Transnational Context. [Formerly WGS 201] Gender as a social construction. Feminist critiques of knowledge, family and work, sexuality, health and medicine, and the women’s movement. The future of feminism in global context. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 3246W. Women’s Rights, Women’s Wrongs. [Formerly WGS 246W] Intellectual and theoretical foundations for contemporary feminist theory and politics in the United States, based upon works by nineteenth- and twentieth-century authors. Prerequisite: 1150 or 1150W or 1160. [3] (US)

WGS 3250. Contemporary Women’s Movements. [Formerly WGS 250] Recent feminist history. The origins and parameters of women’s movements from the 1960’s to the present. Repeat credit for students who have completed 3250W. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 3250W. Contemporary Women’s Movements. [Formerly WGS 250W] Recent feminist history. The origins and parameters of women’s movements from the 1960’s to the present. Repeat credit for students who have completed 250. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 3271. Feminist Legal Theory. [Formerly WGS 271] Theoretical issues about the interaction between law and gender. Application of feminist analysis and perspective to law relating to family, work, criminal law, reproductive freedom, pornography, and sexual harassment. Prerequisite: 11150 or 1150W or 1160. [3] (P)

WGS 3273. Seminar on Psychoanalysis and Feminism. [Formerly WGS 273] Historical and contemporary perspectives on the long and ambivalent relationship between psychoanalysis and feminism. Trauma, hysteria, narcissism, gender, and the family. Prerequisite: 1150 or 1150W or 1160. [3] (P)

WGS 3850. Independent Study. [Formerly WGS 289] A program of reading and research for advanced students in an area of women’s and gender studies arranged in consultation with an adviser. Prerequisite: 1150 or 1150W. May be repeated for a total of 6 credits if there is no duplication in topic, but students may earn only up to 3 credits per semester of enrollment. [1-3; maximum of 6 credits total for all semesters of WGS 3850] (No AXLE credit)

WGS 3880. Internship Training. [Formerly WGS 288A] Under faculty supervision, students gain experience combining theoretical and practical work in a project related to social change and focused on women, feminism, or gender. Legislative, community, educational, or non-profit settings. Internship plan developed between student and faculty sponsor, with approval of Women’s and Gender Studies program director. A thorough report and research paper are submitted at the end of the semester. Must be taken on a Pass/Fail basis only and must be taken concurrently with 3882 and/or 3883. These hours may not be included in the minimum hours required for the women’s and gender studies major. Prerequisite: 3201 and one other 2000-level (or higher) Women’s and Gender Studies course, and a 2.90 grade point average. Corequisite: 3882 and/or 3883. [1-9] (No AXLE credit)

WGS 3882. Internship Readings. [Formerly WGS 288C] Under faculty supervision, students gain experience combining theoretical and practical work in a project related to social change and focused on women, feminism, or gender. Legislative, community, educational, or non-profit settings. Internship plan developed between student and faculty sponsor, with approval of Women’s and Gender Studies program director. A thorough report and research paper are submitted at the end of the semester. Prerequisite: 3201 and one other 3000-level Women’s and Gender Studies course, and a 2.90 grade point average. Corequisite: 3880. [Variable credit: 1-3] (No AXLE credit)

WGS 3883. Internship Research. [Formerly WGS 288B] Under faculty supervision, students gain experience combining theoretical and practical work in a project related to social change and focused on women, feminism, or gender. Legislative, community, educational, or non-profit settings. Internship plan developed between student and faculty sponsor, with approval of Women’s and Gender Studies program director. A thorough report and research paper are submitted at the end of the semester. Prerequisite: 3201 and one other 2000-level (or higher) Women’s and Gender Studies course, and a 2.90 grade point average. Corequisite: 3880. [Variable credit: 1-3] (No AXLE credit)

WGS 3891. Special Topics: Topics in Gender, Culture, and Representation. [Formerly WGS 294A] Topics vary. Prerequisite: 1150 or 1150W or 1160. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

WGS 3892. Special Topics: Topics in Gender, Society, and Political Economy. [Formerly WGS 294B] Topics vary. Prerequisite: 1150 or 1150W or 1160. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

WGS 3893. Selected Topics. [Formerly WGS 295] Topics vary. Prerequisite: 1150 or 1150W or 1160. May be repeated for credit more than once if there is no duplication in topic. Students may enroll in more than one section of this course each semester. [3] (No AXLE credit)

WGS 4960. Senior Seminar. [Formerly WGS 291] Advanced reading and research. Prerequisite: 1150 or 1150W or 1160. [3] (No AXLE credit)

WGS 4998. Honors Research. [Formerly WGS 298] Reading and research under the guidance of a faculty supervisor. Consent of both the faculty supervisor and the director of Women’s and Gender Studies program required. Open only to seniors in the Women's and Gender Studies program. May be repeated for a total of 6 credits if there is no duplication in topic. [3-6; maximum of 6 credits total for all semesters of WGS 4998] (No AXLE credit)

WGS 4999. Honors Thesis. [Formerly WGS 299] Open only to seniors in the Women’s and Gender Studies Honors Program. May be repeated for a total of 6 credits if there is no duplication in topic. [3-6; maximum of 6 credits total for all semesters of WGS 4999] (No AXLE credit)
College of Arts and Science Administration and Faculty

LAUREN BENTON, Ph.D., Dean
BONNIE J. DOW, Ph.D., Dean of Humanities
KAMAL SAGGI, Ph.D., Dean of Social Sciences
DAVID W. WRIGHT, Ph.D., Dean of Sciences
ANDRE CHRISTIE-MIZELL, Ph.D., Senior Associate Dean
KEIVAN G. STASSUN, Ph.D., Senior Associate Dean
YOLLETTE T. JONES, Ph.D., Associate Dean
ROGER E. MOORE, Ph.D., Associate Dean
DANIEL MORGAN, Ph.D., Associate Dean
JONATHAN PETTY, B.A., Associate Dean for Arts and Science

Development
ALAN ITKIN, Ph.D., Assistant Dean
PATRICK J. RETTON II, B.S., Chief Business Officer
MELISSA WOCHER, B.A., Administrative Director

Named and Distinguished Chairs

CELIA STEWART APPLEGATE, William R. Kenan, Jr., Chair in History
HOUSTON A. BAKER, JR., University Distinguished Professor of English
LARRY M. BARTELS, May Werthan Shayne Chair in Public Policy and Social Science
LAUREN A. BENTON, Nelson O. Tyrone, Jr., Chair in History
MICHAEL D. BESS, Chancellor’s Chair in History
DAVID BLACKBOURN, Cornelius Vanderbilt Distinguished Chair in History
RICHARD BLACKETT, Andrew Jackson Chair in American History
RANDOLPH BLAKE, Centennial Professor of Psychology
ERIC W. BOND, Joe L. Roby Chair in Economics
KENDAL SCOT BROADIE, Stevenson Chair in Neurobiology
WILLIAM CAFERRO, Gertrude Conaway Vanderbilt Chair in History
MARIA CAMPOS-PONS, Cornellus Vanderbilt Chair in Art
KENNETH C. CATANA, Stevenson Chair in Biological Sciences
JAY CLAYTON, William R. Kenan, Jr., Chair in English
JOSHUA D. CLINTON, Abby and Jon Winkelried Chair in Political Science
WILLIAM COLLINS, Terence E. Adderley, Jr., Chair in Economics
JEFFERSON R. COWIE, James G. Stahlman Chair in American History
KATHERINE CRAWFORD, Cornellus Vanderbilt Chair in Women’s and Gender Studies and History
ANDREW DAUGHEY, Gertrude Conaway Vanderbilt Chair in Economics
COLIN DAYAN, Robert Penn Warren Chair in the Humanities
ARTHUR A. DEMAREST, Ingram Chair in Anthropology
EMMANUELE DI BENEDETTO, Centennial Professor of Mathematics
DENNIS C. DICKERSON, Reverend James M. Lawson, Jr., Chair in History

TOM DILLEHAY, Rebecca Webb Wilson University Distinguished Chair in Anthropology and Religion and Culture

TONY LEE EARLEY, Samuel Milton Fleming Chair in English
LYNN E. ENTERLINE, Nancy Perot Mulford Chair in English
JAMES A. EPSTEIN, Distinguished Professor of History
EDWARD FISCHER, Cornelius Vanderbilt Distinguished Chair in Anthropology
LEONARD FOLGARAIT, Distinguished Professor of Art
EDWARD H. FRIEDMAN, Gertrude Conaway Vanderbilt Chair in Spanish
ISABEL GAUTHIER, David K. Wilson Chair in Psychology
JOHN G. GEER, Gertrude Conaway Vanderbilt Chair in Political Science
LENN E. GOODMAN, Andrew W. Mellon Chair in the Humanities
JOHN G. HAMILTON, Landon C. Garland Distinguished Chair in Physics
JOEL HARRINGTON, Centennial Professor of History
DAVID J. HESS, James Thornton Fant Chair in Sustainability Studies
RUTH HILL, Andrew W. Mellon Chair in the Humanities
STEVEN D. HOLLON, Gertrude Conaway Vanderbilt Chair in Psychology

GEORGE M. HORNBERGER, University Distinguished Professor of Civil and Environmental Engineering and Earth and Environmental Sciences
ATSUSHI INOUE, Cornelius Vanderbilt Chair in Economics
LARRY W. ISAAC, Gertrude Conaway Vanderbilt Chair in Sociology
MARK JARMAN, Centennial Professor of English
CHRISTOPHER M. S. JOHNS, Norman L. and Roselea J. Goldberg Chair in Art History
CARL H. JOHNSON, Stevenson Chair in Biological Sciences
JEFFREY N. JOHNSTON, Stevenson Chair in Chemistry
VAUGHAN JONES, Stevenson Distinguished Chair in Mathematics
JON H. KAAS, Gertrude Conaway Vanderbilt Distinguished Chair in Psychology
CINDY D. KAM, William R. Kenan, Jr., Chair in Political Science
GENNADI KASPAROV, Stevenson Chair in Mathematics
LUKTZ KOEPNICK, Gertrude Conaway Vanderbilt Chair in German
VERA M. KUTZINSKI, Martha Rivers Ingram Chair in English
JOHN LACHS, Centennial Professor in Philosophy
PETER LAKE, Martha Rivers Ingram University Distinguished Chair in History

JONATHAN LAMB, Andrew W. Mellon Chair in the Humanities
JANE G. LANDERS, Gertrude Conaway Vanderbilt Chair in History
DAVID E. LEWIS, William R. Kenan, Jr., Chair in Political Science
TONG LI, Gertrude Conaway Vanderbilt Chair in Economics
GORDON D. LOGAN, Centennial Professor of Psychology
WILLIAM LUIS, Gertrude Conaway Vanderbilt Chair in Spanish
LEAH S. MARCUS, Edwin Mims Chair in English
LAWRENCE J. MARNETT, University Professor of Biochemistry, Chemistry, and Pharmacology
MADY GEDDES STAHLMAN Chair

HOLLY MCCAMMON, Cornelius Vanderbilt Chair in Sociology
RALPH MCKENZIE, Distinguished Professor of Mathematics
JOHN MCLEAN, Stevenson Chair in Chemistry
DOUGLAS G. MCMAHON, Stevenson Chair in Biological Sciences
JONATHAN METZL, Frederick B. Rentschler II Chair in Sociology and Medicine, Health, and Society
CALVIN F. MILLER, William R. Kenan, Jr., Chair in Earth and Environmental Sciences

LORRIE MOORE, Gertrude Conaway Vanderbilt Chair in English
KEVIN D. MURPHY, Andrew W. Mellon Chair in the Humanities
DANA NELSON, Gertrude Conaway Vanderbilt Chair in English
MOSES OCHONJI, Cornellus Vanderbilt Chair in History
KELLY OLIVER, W. Atton Jones Chair in Philosophy
ALEXANDER O’SHANSKY, Centennial Professor of Mathematics
SOKRATES T. PANTELIDES, University Distinguished Professor of Physics and Engineering

LARRY L. SCHUMAKER, Stevenson Chair in Mathematics

GEORGE M. HORNBERGER, University Distinguished Professor of Civil and Environmental Engineering and Earth and Environmental Sciences
ATSUSHI INOUE, Cornelius Vanderbilt Chair in Economics
LARRY W. ISAAC, Gertrude Conaway Vanderbilt Chair in Sociology

Faculty

DOUGLAS KILPATRICK ABBOT, Associate Professor of Biological Sciences; Vice Chair of Biological Sciences
B.S. (Georgia 1989); M.S. (Simon Fraser [Canada] 1994); Ph.D. (Arizona 2001) [2004]
BROOKE A. ACKERLY, Professor of Political Science; Associate Professor of Law
B.A. (Williams 1988); Ph.D. (Stanford 1997) [2001]
PHILLIP I. ACKERMAN-LIEBERMAN, Associate Professor of Jewish Studies; Associate Professor of Law; Associate Professor of History
JOHN F. AHNER, Professor of Mathematics
B.A., Ph.D. (Delaware 1967, 1972) [1974]

VALERIANO AIELLO, Assistant Professor of Mathematics

SCOTT F. AIKIN, Assistant Professor of Philosophy

LEONARD P. ALBERSTADT, Professor of Geology, Emeritus
B.S., M.S. (Tulane 1959, 1962); Ph.D. (Oklahoma 1967) [1967]

ROYAL G. ALBRIDGE, JR., Professor of Physics, Emeritus
B.S. (Ohio State 1955); Ph.D. (California, Berkeley 1960) [1961]

AKRAM ALDROUBI, Professor of Mathematics
M.S. (Swiss Federal Institute of Technology 1982); Ph.D. (Carnegie Mellon 1987) [1997]

FRANCES ALPREN, Senior Lecturer in Spanish

CANDICE AMICH, Assistant Professor of English
M.A., Ph.D. (Rutgers 2008, 2012) [2014]

CLIFFORD ANDERSON, Associate University Librarian for Research and Learning; Professor of Religious Studies

KATHRYN H. ANDERSON, Professor of Economics; Director, Graduate Program in Development Economics

ALLISON P. ANOLL, Assistant Professor of Political Science
B.A. (William and Mary 2009); Ph.D. (Stanford 2016) [2016]

CELIA APPLEGATE, William R. Kenan, Jr., Chair in History; Professor of History; Vice Chair of History
B.A. (Bryn Mawr 1981); Ph.D. (Stanford 1987) [2012]

DAVID MICHAEL APONOFF, Addison B. Scoville, Jr., Chair in Medicine; Professor of Medicine; Professor of Pathology, Microbiology and Immunology; Associate Professor of Medicine, Health, and Society; Director, Division of Infectious Diseases
B.S. (Indiana, Fort Wayne 1991); M.D. (Tufts 2013) [2015]

LINDA G. ASHFORD, Assistant Professor of Pediatrics; Assistant Professor of Psychology

JEREMY ATACK, Professor of Economics, Emeritus; Research Professor of Economics

SCOTT A. ATKINSON, Assistant Professor of Mathematics
B.A. (Vanderbilt 2010); Ph.D. (Virginia 2016) [2016]

JAMES E. AUER, Senior Lecturer in Asian Studies, Emeritus

PAVNEET S. AULAKH, Lecturer in English

MICHAEL L. AUBACH, Professor of Art, Emeritus

JOHN C. AYRES, Professor of Earth and Environmental Sciences; Professor of Civil and Environmental Engineering
B.S. (SUNY, Fredonia 1992); M.S. (Southern Methodist 1994); Ph.D. (Drexel) [1998]

JOSE AZNAR, Senior Lecturer in Spanish

ANNALISA AZZONI, Senior Lecturer in Hebrew Bible; Senior Lecturer in Religious Studies
Laurea (Rome [Italy] 1989); Ph.D. (Johns Hopkins 2001) [2003]

BETH BARNYOCK BACHMANN, Writer in Residence in English

BRIAN O. BACHMANN, Professor of Chemistry; Professor of Biochemistry
B.S. (Virginia Polytechnic Institute 1992); M.S. (Southern Methodist 1994); M.A., Ph.D. (Johns Hopkins 1997, 2000) [2003]

JO-ANNE BACHOROWSKI, Associate Professor of Psychology
A.B. (Holy Cross College 1983); M.S., Ph.D. (Wisconsin 1986, 1991) [1995]
TIMOTHY J. COOPER, Assistant Professor of Pediatrics; Assistant Professor of Psychology; Assistant Professor of Psychiatry and Behavioral Sciences
B.A. (Christian Brothers 1986); M.A. (Middle Tennessee State 1992); Psy.D. (Spalding 1999) [2006]

AMY B. COOTER, Senior Lecturer in Sociology
B.A. (Vanderbilt 2005); Ph.D. (Michigan 2013) [2013]

BLYTHE ANNE CORBETT, Associate Professor of Psychiatry and Behavioral Sciences; Associate Professor of Psychology
M.A., Ph.D. (California School of Professional Psychology 1996, 1999) [2010]

DANIEL B. CORNFIELD, Professor of Sociology; Professor of American Studies

ELIZABETH R. COVINGTON, Senior Lecturer in English
B.A. (Iowa 1998); M.A.R. (Yale 2002); M.A., Ph.D. (Vanderbilt 2007, 2011) [2011]

PAUL J. HATTOX COVINGTON, Latin American and Iberian Bibliographer; Senior Lecturer in Latin American Studies
B.A. (Syracuse 1969); M.L.S. (Peabody 1971); M.A. (Vanderbilt 1994) [1983]

RONALD L. COWAN, Professor of Psychiatry and Behavioral Sciences; Professor of Psychology; Professor of Radiology and Radiological Sciences
B.S. (Christian Brothers 1984); Ph.D. (UT Health Science Center [Tennessee] 1990); M.D. (Cornell 1994) [2002]

JEFFERSON R. COWIE, James G. Stahlman Chair in American History; Professor of History
B.A. (California, Berkeley 1987); Ph.D. (North Carolina 1997) [2015]

KATHERINE B. CRAWFORD, Cornelius Vanderbilt Chair; Professor of History; Director of Women’s and Gender Studies
B.A. (Columbia College 1988); M.S., Ph.D. (Chicago 1991, 1997) [1999]

NICOLE CREANZA, Assistant Professor of Biological Sciences
A.B. (Harvard 2004); Ph.D. (Rockefeller 2011) [2016]

PHILIP S. CROOKE III, Professor of Mathematics, Emeritus; Research Professor of Mathematics
B.S. (Stevens Institute of Technology 1966); Ph.D. (Cornell 1970) [1970]

YIFAT CROUVI, Lecturer in Hebrew
B.Ed. (Tel Aviv [Israel] 1993); M.Ed. (2002) [2016]

MARIO J. CRUCINI, Professor of Economics

STEVEN E. CSONRA, Associate Professor of Physics

WILLIAM W. DAMON, Professor of Economics, Emeritus
B.S. (Purdue 1965); M.B.A., Ph.D. (Cornell 1967, 1970) [1976]

KATE DANIELS, Professor of History; Director of Creative Writing

SIMON DARROCH, Assistant Professor of Earth and Environmental Sciences

ANDREW F. DAUGHTY, Gertrude Conaway Vanderbilt Professor of Administration and Faculty
B.S. (Michigan State 1973); Ph.D. (Vanderbilt 2013) [2013]

DENISE DIANE DAVIS, Associate Professor of the Practice of Psychology
B.S. (Florida State 1977); Ph.D. (South Carolina, Aiken 1982) [1992]

JOAN COLIN DAYAN, Robert Penn Warren Professor of the Humanities; Professor of Law; Professor of American Studies
B.A. (Smith 1974); Ph.D. (City University of New York 1980) [2004]

ANA VIDES DE ANDRADE, Senior Lecturer in Economics; Associate Director of the Graduate Program in Economic Development

NATHALIE A. DEBRAUWERE-MILLER, Associate Professor of French; Associate Professor of Jewish Studies

PATRICK DEGUIRA, Lecturer in Art
B.F.A. (Memphis College of Art 1994); M.F.A. (Vermont College 2016) [2016]

SARAH DELASSUS, Senior Lecturer in Spanish
B.A. (Albert 1997); M.A. (Virginia 1999) [2001]

ARTHUR A. DEMAREST, Ingram Professor of Anthropology

SUSAN ANN DEMAY, Principal Senior Lecturer in Art
B.A. (Eckerd 1977); M.S. (Peabody 1979); M.A. (Tennessee Technological 1989) [1980]

LARISA GRAWE DESANTIS, Assistant Professor of Earth and Environmental Sciences; Assistant Professor of Biological Sciences
B.S. (California, Berkeley 2000); M.E.M. (Yale 2003); Ph.D. (Florida 2009) [2009]

DANIELA D’EUGENIA, Senior Lecturer in Italian
B.A. (Chieti [Italy] 2007); M.A. (Padua [Italy] 2008); M. Phil. (City University of New York 2015) Ph.D. (City University of New York 2017) [2017]

EMMANUELLE DIBENEDETTO, Centennial Professor of Mathematics; Professor of Molecular Physiology and Biophysics
B.A. (Florence [Italy] 1975); Ph.D. (Texas 1979) [2000]

ROY COOKE DICKER, Senior Lecturer in Women’s and Gender Studies; Director of Margaret Cuninggim Women’s Center

DENNIS C. DICKERSON, Reverend James M. Lawson Chair in History; Professor of Divinity School

MARGARET AVERY DICKINS DE GIRON, Senior Lecturer in Latin American Studies; Executive Director of the Center for Latin American Studies

NATHALIE DEJULIUS-PORTER, Principal Senior Lecturer in French; Director of the Center for Second Language Studies

TOM D. DILLEHAY Rebecca Webb Wilson University Distinguished Professor of Anthropology; Professor of Religion and Culture
B.A. (North Texas 1970); Ph.D. (Texas 1976) [2004]

ROBERT V. DILTS, Professor of Chemistry, Emeritus
B.A. (Wesleyan 1951); M.A., Ph.D. (Princeton 1953, 1954) [1960]

MARCELO DISCONZI, Assistant Professor of Mathematics

ANITA DISNEY, Assistant Professor of Psychology

IDIT DOBBS-WEINSTEIN, Associate Professor of Philosophy; Associate Professor of Jewish Studies

KENT DOLEZAL, Senior Lecturer in Economics
B.S. (Montana State, Havre 1995); M.P.A. (Minnesota 2009); Ph.D. (Southern Illinois 2016) [2016]

LISA DORDAL, Lecturer in English

BONNIE J. DOW, Professor of Communication Studies; Dean of Humanities, College of Arts and Science
B.A. (Baylor 1985); M.A. (Kansas 1987); Ph.D. (Minnesota 1990) [2006]

SPENCER DOWDALL, Assistant Professor of Mathematics

ROBERT DREW, Professor of Classics, Emeritus
B.A. (Northwestern College 1956); M.A. (Missouri 1957); Ph.D. (Johns Hopkins 1963) [1961]

ROBERT A. DRISKILL, Professor of Economics
B.S. (Michigan State 1973); Ph.D. (Johns Hopkins 1978) [1992]
ALEX DUBILET, Senior Lecturer in English; Senior Lecturer in Political Science
B.A. (Pennsylvania 2006); M.Phil. (Cambridge [U.K.] 2007); Ph.D. (California, Berkeley 2014) [2015]

AVA DENISE DUE-GOODWIN, Principal Senior Lecturer in Biological Sciences
B.S. (Middle Tennessee State 1983); M.S., Ph.D. (Vanderbilt 1984, 1992) [2000]

ANDREW DUSTAN, Assistant Professor of Economics
B.A. (Oklahoma 2007); M.A. (Miami [Ohio] 2008); Ph.D. (California, Berkeley 2014) [2014]

SOURISH DUTTA, Senior Lecturer in Physics
B.S. (Calcutta [India] 1996); M.B.A., Ph.D. (Case Western Reserve 2002, 2007) [2007]

MARSHALL C. EAKIN, Professor of History; Professor of American Studies

TONY LEE EARLEY, Samuel Milton Fleming Professor of English

MARKUS EBERL, Associate Professor of Anthropology
M.A. (Bonn [Germany] 1999); Ph.D. (Tulane 2007) [2009]

JON S. EBERT, Associate Professor of Clinical Psychiatry and Behavioral Sciences
Associate Clinical Professor of Psychology

FORD F. EBNER, Professor of Psychology
D.V.M. (Washington State 1958); Ph.D. (Maryland 1965) [1991]

PAUL H. EDELMAN, Professor of Mathematics and Law; Professor of Law
B.A. (Swarthmore 1976); Ph.D. (Massachusetts Institute of Technology 1980) [2000]

BENJAMIN EDEN, Professor of Economics
Ph.D. (Chicago 1975) [2002]

DOUGLAS D. EDWARDS, Lecturer in Managerial Studies
Certificate (Belmont); B.A. (Iowa 1996); M.B.A. (Vanderbilt 2010) [2015]

ROBERT R. EHMAN, Professor of Philosophy
B.A. (Pomona 1957); M.A., Ph.D. (Yale 1959, 1961) [1967]

BRANDT F. EICHMAN, Professor of Biological Sciences; Professor of Biochemistry
B.S. (Mississippi 1993); Ph.D. (Oregon State 2000) [2004]

M ISSAM EIDO, Senior Lecturer in Religious Studies

W. PAUL ELLEDGE, Professor of English, Emeritus
B.A. (Missouri 1960); M.A., Ph.D. (Tulane 1962, 1965) [1964]

MARK N. ELLINGHAM, Professor of Mathematics

LYNN E. ENTERLINE, Nancy Perot Chair in English

JAMES A. EPSTEIN, Distinguished Professor of History

MIRIAM MARTIN ERICKSON, Lecturer in History; Pre-major Academic Advisor
B.A. (Lipscomb 2002); M.A. (Saint John’s [Maryland] 2007); Ph.D. (Vanderbilt 2015) [2015]

VIVECA ERLANDSSON, Assistant Professor of Mathematics
B.S., M.A. (San Francisco State 2005, 2006); Ph.D. (City University of New York 2013) [2017]

DAVID J. ERNST, Professor of Physics
S.B., Ph.D. (Massachusetts Institute of Technology 1965, 1970) [1992]

CHRISTY L. EVING, Assistant Professor of Sociology
B.A. (Rice 2007); M.A., Ph.D. (Indiana 2009, 2014) [2017]

ELIZABETH CHRISTIN ESSIN, Associate Professor of Theatre
B.A. (Wake Forest 1993); M.A. (Northwestern 1998); Ph.D. (Texas 2006) [2011]

JOSEPH H. ESTES, Lecturer in Managerial Studies
B.S. (Vanderbilt 1981); M.B.A. (Pennsylvania 1985) [2017]

HERALDO FALCONI, Senior Lecturer in Spanish
B.A. (George Mason 1997); M.A. (Virginia 1999) [2001]

JENNIFER FAY, Associate Professor of Cinema and Media Arts; Director of Cinema and Media Arts

LEONARD C. FELDMAN, Stevenson Professor of Physics; Emeritus; Adjunct Professor of Materials Science and Engineering

STEPHEN W. FESIK, Onni H. Ingram II Chair in Cancer Research; Professor of Biochemistry; Professor of Chemistry; Professor of Pharmacology
B.A. (College of the Holy Cross 1975); Ph.D. (Connecticut 1981) [2009]

JULIA ANN FESMIRE, Principal Senior Lecturer in English and Women’s and Gender Studies

GERALD FIAL, Professor of History; Professor of Asian Studies; Director of Asian Studies
B.A. (California, Santa Barbara 1985); M.A., Ph.D. (Chicago 1988, 1992) [2003]

ELSIA FILOSA, Assistant Professor of Italian
Ph.D. (North Carolina 2005) [2007]

T. ALDRICH FINEGAN, Professor of Economics, Emeritus
B.A. (Claremont McKenna College 1951); M.A., Ph.D. (Chicago 1953, 1969) [1964]

EDWARD F. FISCHER, Cornelius Vanderbilt Chair; Professor of Anthropology; Professor of American Studies; Director of the Center for Latin American Studies

EARL E. FITZ, Professor of Portuguese, Spanish and Comparative Literature
B.A., M.A. (Iowa 1968, 1970); M.A. (City University of New York, Queens College 1973); Ph.D. (CUNY 1977) [1998]

LEONARD FOLGARAIT, Distinguished Professor of History of Art; Professor of English

WILLIAM R. FOWLER, JR., Associate Professor of Anthropology

ROBERT FOX, JR., Professor of Psychology, Emeritus
B.A., Ph.D. (Cincinnati 1965, 1969) [1993]

PHILLIP FRANCK, Associate Professor of Theatre

WILLIAM FRANKE, Professor of Comparative Literature and Italian

JIMMIE L. FRANKLIN, Professor of History, Emeritus
B.A. (Jackson State 1961); M.A., Ph.D. (Oklahoma 1964, 1968) [1986]

JEFFERY J. FRANKS, Professor of Psychology, Emeritus
B.S. (Michigan State 1966); Ph.D. (Minnesota 1970) [1970]

EDWARD H. FRIEDMAN, Gertrude Conaway Vanderbilt Professor of Spanish; Director of the Robert Penn Warren Center for the Humanities
B.A. (Virginia 1973); M.A., Ph.D. (Johns Hopkins 1971, 1974) [2000]

KATHERINE L. FRIEDMAN, Associate Professor of Biological Sciences
B.A. (Carleton College 1990); Ph.D. (University of Washington 1996) [2001]

MARILYN FRIEDMAN, W. Alton Jones Chair in Philosophy, Emerita
A.B. (Washington University 1967); Ph.D. (Western Ontario [Canada] 1974) [2009]

MARCO G. FROMENT-MEURICE, Professor of French, Emeritus

VIVIEN GREEN FRYD, Professor of History of Art; Professor of American Studies

DANIEL J. FUNK, Associate Professor of Biological Sciences
B.S. (Notre Dame 1989); Ph.D. (Stony Brook 1996) [2000]

DAVID JON FURBISH, Professor of Earth and Environmental Sciences; Professor of Civil and Environmental Engineering
B.S. (North Carolina 1978); M.S. (California State 1981); Ph.D. (Colorado 1987) [1988]

LAURIE FURGDON, Adjunct Assistant Professor of Materials Science and Engineering
B.A. (Vanderbilt 1989); M.S., Ph.D. (Cornell 1994, 1995) [1995]
DAVID H. FURSE, Adjunct Professor of Managerial Studies
A.B. (Georgia 1965); M.S. (Illinois, Champaign 1967); Ph.D. (Georgia State 1974) [2002]

KATHY L. GACA, Associate Professor of Classical and Mediterranean Studies

GEORGE EDWARD GAFFNEY, Senior Lecturer in Classical and Mediterranean Studies, Retired

MEGAN E. GALLAGHER, Associate Professor of Political Science

STUART GAMER, Adjunct Professor of Managerial Studies
B.S. (Trevalla Nazareno 1968); M.B.A. (Vanderbilt 1994) [2010]

VICTORIA C. GARDNER, Senior Lecturer in Spanish
B.A. (Delta State 1989); M.A. (Hawaii, Honolulu 1999); Ph.D. (Boston College 2009) [2006]

ISABEL GAUTHIER, David K. Wilson Chair in Psychology; Professor of Radiological Sciences
B.A. (Quebec [Canada] 1993); M.S., Ph.D. (Yale 1995, 1998) [1999]

VOLNEY P. GAY, Professor of Religious Studies; Professor of Psychiatry

JOHN P. GIBBS, Centennial Professor of Sociology, Emeritus

JAY GELLER, Associate Professor of Modern Jewish Culture; Associate Professor of Jewish Studies

DANIEL J. GEROVIA, Professor of Law; Professor of French; Director, Vanderbilt Intellectual Property Program; Co-Director, LL.M. Program

MALCOLM GETZ, Associate Professor of Economics
B.A. (Williams 1967); Ph.D. (Yale 1973) [1973]

HOJJATALLAH GHANDI, Senior Lecturer in Economics

LENN E. GOODMAN, Andrew W. Mellon Professor of the Humanities; Professor of Philosophy; Professor of Jewish Studies

ANDREW GOODMAN-BACON, Assistant Professor of Economics
B.A. (Macalester 2005); Ph.D. (Michigan 2014) [2016]

ALICE GOODYEAR, Associate Professor of the Practice of Managerial Studies, Retired
B.A. (Skidmore 1973); M.B.A. (Denver 1976) [2008]

REYNA L. GORDON, Assistant Professor of Otolaryngology; Assistant Professor of Psychology
B.M. (Southern California 2001); M.S. (Université de Provence [France] 2004); Ph.D. (Florida Atlantic 2010) [2015]

JONH C. GORE, University Professor of Radiology and Radiological Sciences; Hertha Ramsey Cress Chair in Medicine; Professor of Physics and Astronomy; Professor of Biomedical Engineering; Professor of Molecular Physiology and Biophysics; Director, Institute of Imaging Science

ROY K. GOTTFRIED, Professor of English

MATTHEW I. GOULD, Professor of Mathematics, Emeritus

WALTER R. GOVE, Professor of Sociology, Emeritus
B.S. (SUNY, Syracuse 1960); M.A., Ph.D. (University of Washington 1967, 1968) [1968]

TODD R. GRAHAM, Professor of Biological Sciences; Professor of Cell and Developmental Biology
B.S. (Maryville 1984); Ph.D. (Saint Louis 1988) [1992]

EMILY GREBLE, Associate Professor Germanic and Slavic Languages; Associate Professor of History; Associate Professor of European Studies
B.A. (William and Mary 1999); M.A., Ph.D. (Stanford 2004, 2007) [2017]

SENATA VICTORIA GREENE, Stevenson Chair in Physics

THOMAS A. GREGOR, Professor of Anthropology, Emeritus
B.A. (Chicago 1962); Ph.D. (Columbia 1969) [1975]

DEREK MACGREGOR GRIFFITH, Associate Professor of Medicine, Health, and Society; Associate Professor of Medicine; Associate Professor of Health Policy
B.A. (Maryland 1993); M.A., Ph.D. (DePaul 1998, 2002) [2012]

DIANA GRISANTI, Writer-in-Residence in Theatre
B.A. (Iowa 2001); M.F.A. (Texas 2007) [2007]

MICHELLE S. GRUNDY, Assistant Professor of Medical Education and Administration (VU); Director of Health Professions Advice
B.S. (Vanderbilt 1993, 2000) [2002]

GUİLHERME GUALDA, Associate Professor of Earth and Environmental Sciences

ANNA GUENGERTH, Senior Lecturer in Anthropology

YINGHUI GUO, Lecturer in Asian Studies

ALFREDO GURRÖA, Assistant Professor of Physics

FEDERICO H. GUTIERREZ, Assistant Professor of Economics

TROY A. HACKETT, Professor of Hearing and Speech Sciences; Associate Professor of Biology
RICHARD F. HAGLUND, JR., Stevenson Professor of Physics
B.A. (Wesleyan 1967); M.A. (Stony Brook 1968); Ph.D. (North Carolina 1975) [1984]

BARBARA HAHN, Max Kade Foundation Chair in German Studies; Professor of German

WILLIAM BEARDALL HALE, Lecturer in Sociology
B.S. (Florida State 2005); M.A., Ph.D. (Vanderbilt 2009, 2013) [2017]

LEON HALEVY, Associate Professor of History; Associate Professor of Law

DENNIS G. HALL, Professor of Physics, Emeritus
B.S. (Illinois, Champaign 1970); M.S. (Southern Illinois 1972); Ph.D. (Tennessee 1976) [2000]

LARRY C. HALL, Professor of Chemistry, Emeritus
B.A. (Bowling Green State 1952); Ph.D. (Illinois, Champaign 1956) [1956]

JON W. HALQUIST, Associate Professor of Theatre
B.S. (Nebraska Wesleyan 1977); A.M., Ph.D. (Michigan 1979, 1985) [1985]

TERRY W. HALQUIST, Associate Professor of Theatre
B.S. (Nebraska Wesleyan 1977); A.M., Ph.D. (Michigan 1979, 1985) [1985]

JOHN W. HALPERIN, Centennial Professor of English, Emeritus

BUSHRA J. HAMAD, Senior Lecturer in Religious Studies

KIRSTEN L. HAMAN, Assistant Professor of Clinical Psychiatry and Behavioral Sciences; Assistant Clinical Professor of Psychology
B.S. (Florida 1988); M.A., Ph.D. (Vanderbilt 1993, 2000) [2001]

CHARLES H. HAMBRICK, Professor of Religious Studies, Emeritus
B.A. (Vanderbilt 1952); B.D. (Drew 1959); M.A., Ph.D. (Chicago 1967, 1971) [1968]

JOSEPH H. HAMILTON, Landon C. Garland Distinguished Professor of Physics
B.S. (Mississippi 1954); M.S., Ph.D. (Indiana, Bloomington 1956, 1958); D.Sc. (Mississippi 1982); Doctorate (Johann Wolfgang Goethe [Germany] 1992); D.Phil. (hon., Bucharest [Romania] 1999); D.Phil. (hon., St. Petersburg State [Russia] 2001); D.Phil. (hon., Joint Institute for Nuclear Research [Russia] 2004); D.Phil. (hon., Shukla [India] 2006); D.Sc. (hon., Barea 2007) [1968]

KEATON P. HAMM, Assistant Professor of Mathematics

KAREN HAMMER, Senior Lecturer in Women’s and Gender Studies
B.F.A. (Tufts 1998); M.A. (City University of New York 2017) [2017]

MOZHDEH AMELIA HAMRAEI, Assistant Professor of Medicine, Health, and Society; Assistant Professor of American Studies
B.A., Ph.D. (Emory 2007, 2013) [2013]

M. DONALD HANCOCK, Professor of Political Science, Emeritus
B.A. (Texas 1961); M.A., Ph.D. (Columbia 1962, 1966) [1970]

TIMOTHY P. HANUSA, Professor of Chemistry
A.B. (Cornell 1978); Ph.D. (Indiana, Bloomington 1983) [1985]

DOUGLAS P. HARDBIN, Professor Mathematics; Professor of Biomedical Informatics
B.E.E. (Georgia Institute of Technology 1980); M.E.E. (Stanford 1982); Ph.D. (Georgia Institute of Technology 1985) [1986]

ALISSA A. HARE, Senior Lecturer in Chemistry
B.S. (Calvin 2006); M.S.; Ph.D. (Yale 2009, 2012) [2015]

ERWIN C. HARGROVE, JR., Professor of Political Science, Emeritus

JANA HARPER, Associate Professor of the Practice of Art
M.F.A. (Arizona State 2001) [2013]

JOEL FRANCIS HARRINGTON, Centennial Chair in History; Chair of the Department of History

THOMAS M. HARRIS, Centennial Professor of Chemistry, Emeritus; Research Professor of Chemistry
B.S. (Rochester 1953); Ph.D. (Duke 1965) [1964]

T. S. HARVEY, Associate Professor of Anthropology
B.A. (Christopher Newport 1996); M.A. (Old Dominion 1997); Ph.D. (Virginia 2003) [2017]

FREDERICK R. HASELTON, Professor of Biomedical Engineering; Professor of Chemistry; Professor of Ophthalmology and Visual Sciences
B.A. (Haverford 1968); Ph.D. (Pennsylvania 1981) [1989]

R. CHRIS HASSEL, JR., Professor of English, Emeritus
B.A. (Richmond 1961); M.A. (North Carolina 1962); Ph.D. (Emory 1968) [1968]

F. HAMILTON HAZLEHURST, Professor of Fine Arts, Emeritus

ANDREA LEIGH HEARN, Senior Lecturer in English; Director of CASPAR
B.A., M.A., Ph.D. (Tulsa 1997, 1999); Ph.D. (Vanderbilt 2005) [2005]

STEPHAN HECCKERS, William P. and Henry B. Test Chair in Schizophrenia Research; Professor of Psychiatry and Behavioral Sciences; Professor of Psychology; Professor of Radiology and Radiological Sciences; Chair of the Department of Psychiatry and Behavioral Sciences

CAROLYN J. HEINRICH, Patricia and Rodes Hart Chair; Professor of Public Policy and Education; Professor of Economics

ARNOLD M. HEISER, Professor of Physics and Astronomy, Emeritus

CHALENE HELMUTH, Senior Lecturer in Spanish
B.A. (Asbury 1986); M.A., Ph.D. (Kentucky, Lexington 1988, 1991) [2003]

ROBERT LOUIS HEMMINGER, Professor of Mathematics, Emeritus
B.S. (Greenville 1957); M.S. (California State, San Diego 1959); Ph.D. (Michigan State 1963) [1963]

CLINT HENDRIX, Senior Lecturer in Spanish
B.A. (Transylvania 1998); M.A. (Miami [Ohio] 2001); Ph.D. (Kansas 2006) [2006]

EUN JEONG HEO, Assistant Professor of Economics

SUZANA HERCULANO, Associate Professor of Psychology; Associate Professor of Biological Sciences

DAVID M. HERCULES, Centennial Professor of Chemistry, Emeritus; Research Professor of Chemistry
B.S. (Juniata 1954); Ph.D. (Massachusetts Institute of Technology 1957) [1994]

B. ANDES HESS, JR., Professor of Chemistry
B.A. (Williams 1962); M.S., Ph.D. (Yale 1963, 1966) [1968]

DAVID J. HESS, James Thornton Fant Chair in Sustainability Studies; Professor of Sociology
M.A. (Cornell );B.A. (Harvard ); Ph.D. (Cornell 1987) [2011]

MARCO J. HETHERINGTON, Professor of Political Science
B.A. (Pittsburgh 1990); Ph.D. (Texas 1997) [2004]

STEPHANIE HIGGS, Lecturer in English
B.A. (Washington University 2006); M.A., Ph.D. (Vanderbilt 2010, 2016) [2017]

RUTH HILL, Andrew W. Mellon Chair in the Humanities; Professor of Spanish

RICK HILLER, Associate Professor of English
B.A. (Kent State 1991); M.F.A. (Columbia 1995) [2005]

JULIAN F. HILLYER, Associate Professor of Biological Sciences; Director of the Program in Career Development
B.A. (Chicago 1996); M.S., Ph.D. (Wisconsin 1999, 2004) [2007]

ELTON HINSHAW, Professor of Economics, Emeritus
B.B.A. (Baylor 1958); Ph.D. (Vanderbilt 1967) [1968]

JONATHAN T. HISKEY, Associate Professor of Political Science; Vice Chair of Political Science
JESSIE HOCK, Assistant Professor of English
B.A. (Barnard 2005); Ph.D. (California, Berkeley 2015) [2015]

MICHAEL P. HODGES, Professor of Philosophy
B.A. (William and Mary 1963); M.A., Ph.D. (Virginia 1966, 1967) [1970]

KARI L. HOFFMAN, Associate Professor of Psychology
B.A. (Rice 1997); Ph.D. (Arizona 2003) [2017]

J. KELLY HOLLEY-BOEKELMANN, Associate Professor of Physics and Astronomy; Director of the Fisk-Vanderbilt Masters-to-PhD Bridge Program
B.S. (Montana State 1993); M.S., Ph.D. (Michigan 1995, 1999) [2007]

STEVEN D. HOLLON, Gertrude Conaway Vanderbilt Professor of Psychology; Professor of Psychiatry and Behavioral Sciences
B.A. (George Washington 1971); M.S., Ph.D. (Florida State 1974, 1977) [1985]

WILLIAM R. HOLMES, Assistant Professor of Physics
B.S. (Tennessee 2005); M.A., Ph.D. (Indiana, Bloomington 2007, 2010) [2015]

FARRAR HOOD CUSOMATO, Senior Lecturer in Art
B.A. (University of the South 1998); M.S., M.F.A. (Pratt Institute 2006, 2006) [2011]

GEORGE M. HORNBERGER, University Distinguished Professor of Civil and Environmental Engineering and Earth and Environmental Science; Craig E. Philip Chair in Engineering; Professor of Earth and Environmental Sciences; Director of VIEE
B.S.; M.S.E. (Drexel 1965, 1967); Ph.D. (Stanford 1970) [2008]

MARK HOSFORD, Associate Professor of Art; Interim Chair of the Department of Art

VALERIE HOTCHKISS, University Librarian; Professor of English

CLIFF J. HUANG, Professor of Economics, Emeritus
B.A. (Tunghai [Taiwan] 1961); M.A. (National Taiwan 1964); Ph.D. (North Carolina 1968) [1969]

XIAODONG KEVIN HUANG, Professor of Economics
Ph.D. (Minnesota 1998) [2006]

JAMES HUDNUT-BEIMLER, Anne Potter Wilson Distinguished Professor of American Religious History; Professor of History

GREGORY W. HUFFMAN, Professor of Economics
B.A. (Saskatchewan [Canada] 1979); Ph.D. (Minnesota 1983) [2001]

C. BRUCE HUGHES, Professor of Mathematics
A.B. (Guilford 1976); M.A., Ph.D. (Kentucky, Lexington 1979, 1981) [1985]

RACHEL JANE HUNDLEY, Assistant Professor of Pediatrics; Assistant Professor of Psychiatry and Behavioral Sciences; Research Assistant Professor of Psychology
B.A. (Huntington 1996); M.S., Ph.D. (Memphis 1997, 1999) [2002]

LINGA BUFOR HUTCHISON, Senior Lecturer in Mathematics
B.A. (Lipscomb 1969); M.S. (Middle Tennessee State 1972) [1981]

M. SHANE HUTSON, Professor of Physics; Professor of Biological Sciences; Director of the Fisk-Vanderbilt Masters-to-PhD Bridge Program
B.S. (Tennessee 2005); M.A., Ph.D. (Indiana, Bloomington 2007, 2010) [2015]

ATSUHI INOUE, Cornelius Vanderbilt Chair; Professor of Economics

LARRY W. ISAAC, Gertrude Conaway Vanderbilt Professor of Sociology; Professor of American Studies; Chair of the Department of Sociology
B.S., M.A. (Akron 1971, 1974); Ph.D. (Indiana, Bloomington 1979) [2004]

ALAN JITHIN, Senior Lecturer in German; Assistant Dean, College of Arts and Science
B.A. (California, Berkeley 2000); M.A. (New York 2004); Ph.D. (Michigan 2011) [2016]

BORISLAV LUBOMIROV IVANOV, Lecturer in Chemistry
B.S., Ph.D. (Institute of Chemical Technology [Czech Republic] 1986, 1991) [2000]

LAUREN PARKER JACKSON, Assistant Professor of Biological Sciences; Assistant Professor of Biochemistry

ALEXANDER I. JACOBS, Lecturer in History
B.A. (Alaska, Anchorage 2005); M.A. (North Carolina 2008); Ph.D. (Vanderbilt 2016) [2016]

GARY A. JAEGGER, Principal Senior Lecturer in Philosophy; Director of the Writing Studio; Research Assistant Professor of Philosophy
B.A. (Johns Hopkins 1999); Ph.D. (Wisconsin, Milwaukee 2006) [2007]

JOHN WAYNE JANUSEK, Associate Professor of Anthropology

MARK F. JARMA, Centennial Professor of English
B.A. (California, Santa Cruz 1974); M.F.A. (Iowa 1976) [1983]

ANGELA L. JEFFERSON, Professor of Neurology; Professor of Medicine; Associate Professor of Psychology
B.A. (Lynchburg 1997); M.A. (Loyola College [Maryland] 2000); Ph.D. (Drexel 2003) [2012]

GARY F. JENSEN, Professor of Sociology, Emeritus
B.S. (Portland State 1966); M.A., Ph.D. (University of Washington 1968, 1972) [1989]

MELVIN D. JOESTEN, Professor Chemistry, Emeritus
B.S. (Northern Illinois 1954); M.S., Ph.D. (Illinois, Champaign 1959, 1962) [1966]

CHRISTOPHER M. S. JOHNS, Norman L. and Roselea J. Goldberg Chair of Art History
B.A. (Florida State 1977); M.A., Ph.D. (Delaware 1980, 1985) [2003]

WILL E. JOHNS, Professor of Physics
B.S. (Illinois, Champaign 1987); Ph.D. (Colorado 1997) [1999]

ARTHUR JOHNSEN, Associate Professor of the Practice of Managerial Studies, Retired
B.A. (Gettysburg 1965); M.B.A. (Virginia 1972) [2006]

CARL H. JOHNSON, Stevenson Chair in Biological Sciences; Professor of Molecular Physiology and Biophysics
B.A. (Texas 1976); Ph.D. (Stanford 1982) [1987]

DAVID MATTHEW JOHNSTON, Lecturer in Russian

STACEY MARGARITA JOHNSTON, Senior Lecturer in Spanish; Assistant Director of Center for Teaching; Adjunct Assistant Professor

JEFFREY N. JOHNSTON, Stevenson Professor of Chemistry
B.S. (Xavier [Ohio] 1992); Ph.D. (Ohio State 1997) [2006]

CECIL D. JONES, JR., Professor of Theatre, Emeritus
B.A. (Vanderbilt 1951); M.A. (Northwestern 1952); Ph.D. (Illinois 1959 [1965]

MARTHA WEARE JONES, Associate Professor of Medicine, Health, and Society

OWEN D. JONES, New York Alumni Chancellor's Chair in Law; Professor of Law; Professor of Biological Sciences
B.A. (Amherst 1989); J.D. (Yale 1991) [2004]

VAUGHAN JONES, Stevenson Distinguished Professor of Mathematics
AMY-JILL LEVINE, University Professor of New Testament and Jewish Studies; Mary Jane Werthan Professor of Jewish Studies; Professor of Jewish Studies

DAVID E. LEWIS, William R. Kenan, Jr., Professor of Political Science; Professor of Law; Chair of the Department of Political Science

TONG LI, Gertrude Conaway Vanderbilt Professor of Economics
B.S. (University of Science and Technology of China, Hefei 1988); Ph.D. (California, San Diego 1993); Ph.D. (Southern California 1997) [2005]

TERRY P. LEBRAND, Professor of Chemistry; Professor of Pharmacology
B.S. (South Carolina 1983); Ph.D. (California, San Francisco 1984) [2000]

JING LIU, Senior Lecturer in Chinese

JANET E. MACDONALD, Assistant Professor of Chemistry

ADAM Z. MALKE, Assistant Professor of Mathematics

LEAH S. MARCUS, Edwin Mims Professor of English
B.A. (Carleton College 1967); M.A., Ph.D. (Columbia 1968, 1971) [1997]

BRYAN LOWE, Assistant Professor of Religious Studies

MAY LEAH LOWE, Associate Professor of Theatre; Associate Professor of American Studies; Chair of the Department of Theatre
A.B. (Oberlin 1985); M.F.A. (Minnesota 1988); Ph.D. (Florida State 2000) [2011]

MICHIRU ICHIHARA LOWE, Senior Lecturer in Japanese
B.A. (Naranz [Japan] 2002); M.A. (Columbia 2010) [2012]

HEATHER LUEA, Senior Lecturer in Economics
B.A. (Fort Hays State 1998); M.B.A. (Wichita State 2000); Ph.D. (Kansas State 2005) [2009]

WILLIAM LUIS, Gertrude Conaway Vanderbilt Professor of Spanish; Director of the Latino and Latina Studies Program

CHARLES M. LUKERNART, Professor of Chemistry, Emeritus; Research Professor of Chemistry
B.S. (Pennsylvania State 1968); Ph.D. (Massachusetts Institute of Technology 1972) [1973]

CHEN-YUN LUO, Associate Professor of Mathematics
B.A. (Rochester 2011); M.A., Ph.D. (Johns Hopkins 2012, 2017) [2017]

NOAM LUPU, Associate Professor of Mathematics
B.A. (Columbia 2002); M.A. (Chicago 2005); Ph.D. (Princeton 2008, 2011) [2016]

TERRI L. LUTJEN, Visiting Associate Professor of European Studies and Political Science

CHENyu LIU, Assistant Professor of Mathematics
B.S. (Henan [China] 1981); M.A. (Shanxi Teachers [China] 1984) [2007]

AMANDA GRISCOM LITTLE, Writer in Residence in English

MARY LEAH LOWE, Associate Professor of Theatre; Associate Professor of History

LAURENCE LARTER, Associate Professor of Chemistry
B.S. (Indiana, Bloomington 1986, 1990) [1993]

B.S. (University of Science and Technology of China, Hefei 1988); Ph.D. (California, San Diego 1993); Ph.D. (Southern California 1997) [2005]

PAUL LIM, Associate Professor of History of Christianity; Associate Professor of History

ODIE A. LINDSEY, Associate Professor of Chemistry
B.S. (Valparaiso 1986); Ph.D. (Chicago 1991) [1999]

ANDREW J. LINK, Associate Professor of Pathology, Microbiology and Immunology; Associate Professor of Chemistry; Assistant Professor of Biochemistry

RICHARD DOUGLAS LLOYD, Assistant Professor of Sociology

GORDON D. LOGAN, Centennial Professor of Psychology

TIMOTHY F. LOGAN, Adjunct Associate Professor of Managerial Studies

WILLIAM LUIS, Gertrude Conaway Vanderbilt Professor of Spanish; Director of the Latino and Latina Studies Program

CHARLES M. LUKERNART, Professor of Chemistry, Emeritus; Research Professor of Chemistry
B.S. (Pennsylvania State 1968); Ph.D. (Massachusetts Institute of Technology 1972) [1973]
TERRY L. PAGE, Professor of Biological Sciences, Emeritus; Research Professor of Biological Sciences

CAROLINA PALACIOS, Senior Lecturer in Spanish
B.A. (Las Americas [Mexico] 1998); Ph.D. (Tennessee 2006) [2006]

THOMAS J. PALMIERI, Professor of Psychology

SOKRATES T. PANTELIDES, University Distinguished Professor of Physics and Engineering; William A. and Nancy F. McNinn Professor of Physics; Professor of Electrical Engineering

SOHEE PARK, Gertrude Conaway Vanderbilt Chair in Psychology; Professor of Biological Sciences; Assistant Professor of Cell and Developmental Biology
B.A. (Grinnell 2001); Ph.D. (Stanford 2009) [2015]

DANIEL M. PATTE, Professor of Religious Studies, Emeritus; Professor of New Testament and Early Christianity, Emeritus

EVELYN PATTERSON, Associate Professor of Sociology

TITANY RUBY PATTERSON, Associate Professor of African American and Diaspora Studies; Associate Professor of History
B.A. (Indiana, Bloomington 1970); M.A. (Southern Illinois 1974); Ph.D. (Minnesota 1995) [2007]

JAMES A. PATTON, Professor of Physics; Professor of Radiology and Radiological Sciences
B.S. (Western Kentucky 1966); Ph.D. (Vanderbilt 1972) [1973]

JAMES G. PATTON, Stevenson Professor of Biological Sciences; Professor of Cell and Developmental Biology; Professor of Ophthalmology and Visual Sciences
B.S. (University of St. Thomas [Minnesota] 1980); Ph.D. (Mayo Medical School) 1988) [1993]

VESNA PAVLOVIĆ, Associate Professor of Art

ELEPHREZ PEREZ, Associate Professor of Political Science
B.A. (San Diego 1999); M.A., Ph.D. (Duke 2006, 2008) [2008]

JESSE PETERSON, Associate Professor of Mathematics
B.S. (Westmont 2001); Ph.D. (California, Los Angeles 2006) [2008]

REBECCA A. PETERSON, Lecturer in Education; Lecturer in French
B.A. (Taylor 1996); M.Ed. (Vanderbilt 2002) [2002]

TODD E. PETERSON, Associate Professor of Radiology and Radiological Sciences; Associate Professor of Physics; Faculty Director of the Office of Honor Scholarships

ELYSE PETIT, Senior Lecturer in French
M.A. (Louisiana 2010); M.A., Ph.D. (Arizona 2013, 2017) [2017]

JULIEK PETTY, Senior Lecturer in Medicine, Health, and Society; Assistant Director of Medicine, Health, and Society
B.A. (Vanderbilt 1995); Ph.D. (Northwestern 2008) [2008]

HELMI F. PFANNER, Professor of German, Emeritus
M.A., Ph.D. (Stanford 1961, 1965) [1990]

F. CARTER PHILLIPS, Professor of Classics, Emeritus

SHAWN T. PHILLIPS, Principal Senior Lecturer in Chemistry

CHARLOTTE PIERCE-BAKER, Professor of Women’s and Gender Studies and English, Emerita
B.A. (Howard 1965); M.A. (Ohio State 1968); Ph.D. (Temple 1985) [2006]

PAMELA K. PIGG, Senior Lecturer in Mathematics
B.S. (Belmont 1974); M.S. (Middle Tennessee State 1995) [1996]

MARIA PAZ PINTANE, Senior Lecturer in Spanish
Licenciado (Santiago de Compostela [Spain] 1993); M.A. (Rhode Island 1998); Ph.D. (Vanderbilt 2004) [2010]

RICHARD N. PITT, JR., Associate Professor of Sociology; Associate Professor of Ethics and Society; Associate Professor of American Studies

LARS PLATE, Assistant Professor of Chemistry and Biological Sciences
B.S. (Massachusetts Institute of Technology 2007); Ph.D. (California, Berkeley 2013) [2017]

JOHN F. PLUMMER III, Professor of English, Emeritus
B.A. (Northern Illinois 1966); M.A. (Indiana, Bloomington 1968); Ph.D. (Washington University 1971) [1971]

MICHAEL D. PLUMMER, Professor of Mathematics, Emeritus
B.A. (Wabash 1959); M.S., Ph.D. (Michigan 1961, 1966) [1976]

PRASAD LEELA POLAVARAPU, Professor of Chemistry
B.S. (Andhra [India] 1970); M.S. (Birla Institute of Technology and Science [India] 1972); Ph.D. (Indian Institute of Technology, Madras 1977) [1980]

MATTIAS POLBORN, Professor of Economics; Professor of Political Science

SEAN M. POLYN, Associate Professor of Psychology; Assistant Professor of Psychiatry and Behavioral Sciences

LIJUBICA D. POPOVIĆ, Professor of Art History, Emerita
Diploma (Belgrade [Serbia] 1965); Ph.D. (Bryn Mawr 1963) [1966]

MELISSA R. PORTER, Assistant Professor of Clinical Psychiatry and Behavioral Sciences; Assistant Clinical Professor of Psychology

NED A. PORTER, Centennial Professor of Chemistry, Emeritus
B.S.Ch.E. (Princeton 1965); Ph.D. (Harvard 1970) [1998]

RICHARD N. PORTER, Professor of Slavic Languages and Literatures, Emeritus

JOHN FREDERIC POST, Professor of Philosophy, Emeritus
A.B. (Harvard 1958); M.A. (Wisconsin 1959); Ph.D. (California, Berkeley 1968) [1969]

ALEXANDER M. POWELL, Associate Professor of Mathematics
B.S. (Rutgers, Camden 1997); M.A., Ph.D. (Maryland 1999, 2003) [2005]

DAVID H. PRICE, Professor of Religious Studies
B.A., M.A. (Cincinnati 1979, 1981); Ph.D. (Yale 1985) [2016]

RICHARD A. PRIDE, Professor of Political Science, Emeritus
B.A. (Stanford 1964); M.A. (California, Santa Barbara 1965); Ph.D. (Minnesota 1970) [1968]

C. ENRIQUE PUÇO-WALKER, Centennial Professor of Spanish, Emeritus

NA QIN, Lecturer in Chemistry
B.A., B.S. (Dalian University of Technology [China] 2007, 2007); M.S., Ph.D. (Miami [Ohio] 2010); M.S., Ph.D. (Indiana, Bloomington 2013) [2017]

JUSTIN QUARRY, Senior Lecturer in English
B.A. (Vanderbilt 2003); M.F.A. (Virginia 2006) [2010]

JOHN A. RAFTER, JR., Senior Lecturer in Mathematics
B.S. (Georgia Institute of Technology 1989); M.S., Ph.D. (Vanderbilt 1991, 1994) [1995]

LORI HENSLEE RAFTER, Senior Lecturer in Mathematics
B.S. (Tennessee 1983); M.S. (Middle Tennessee State 1990); M.S., Ph.D. (Vanderbilt 1993, 1996) [2001]

RAMNARAYAN RAMACHANDRAN, Assistant Professor of Hearing and Speech Sciences; Assistant Professor of Psychology
M.Sc. (Birla Institute of Technology and Science [India] 1991); M.S. (Virginia Commonwealth 1993); Ph.D. (Johns Hopkins 2000) [2012]

AKUNURI V. RAMAYYA, Professor of Physics
B.S., M.S. (Andhra [India] 1957, 1958); Ph.D. (Indiana, Bloomington 1964); D.Sc. (hon., Eastern Kentucky 2003); D.Sc. (hon., Guru Ghasidas Central University 2010) [1964]
HOR_TEN_SE SPILLERS, Gertrude Conaway Vanderbilt Professor of English
B.A., M.A. (Memphis 1964, 1966); Ph.D. (Brandeis 1974) [2006]
ALISTAIR SPONSEL, Assistant Professor of History
RONDAL SPORES, Professor of Anthropology, Emeritus
B.S. (Oregon 1963); M.A. (University of the Americas 1960); M.A., Ph.D. (Harvard 1963, 1964) [1965]
MICHAEL G. STABIN, Associate Professor of Radiology and Radiological Sciences; Associate Professor of Physics; Associate Professor of Civil and Environmental Engineering
DAVID HUGH STACEY III, Adjunct Professor of Managerial Studies
B.S. (Tennessee 1990); M.B.A. (Middle Tennessee State 1994) [2010]
JO ANN W. STAPLES, Senior Lecturer in Mathematics, Emerita
 College of Arts and Science / Administration and Faculty
ALISTAIR SPONSEL, Assistant Professor of History
RONDAL SPORES, Professor of Anthropology, Emeritus
B.S. (Oregon 1963); M.A. (University of the Americas 1960); M.A., Ph.D. (Harvard 1963, 1964) [1965]
MICHAEL G. STABIN, Associate Professor of Radiology and Radiological Sciences; Associate Professor of Physics; Associate Professor of Civil and Environmental Engineering
DAVID HUGH STACEY III, Adjunct Professor of Managerial Studies
B.S. (Tennessee 1990); M.B.A. (Middle Tennessee State 1994) [2010]
JO ANN W. STAPLES, Senior Lecturer in Mathematics, Emerita
A.B. (Western Kentucky 1969); M.S., Ph.D. (Vanderbilt 1973, 1975) [1976]
LAURA STARK, Associate Professor of Medicine, Health, and Society; Associate Professor of History; Associate Professor of Anthropology
B.S. (Cornell 1998); Ph.D. (Princeton 2006) [2012]
KEVAN G. STASSIJN, Senior Associate Dean for Graduate Education and Research; Stevenson Chair in Physics; Professor of Astronomy
A.B. (California, Berkeley 1994); Ph.D. (Wisconsin 2000) [2003]
RICHARD G. STEARNS, Professor of Geology, Emeritus
B.A., M.S. (Vanderbilt 1948, 1949); Ph.D. (Northwestern 1953) [1961]
RONNIE J. STEINBERG, Professor of Sociology, Emerita
TONY K. STEWART, Gertrude Conaway Vanderbilt Chair in Humanities; Mellon Assistant Professor of Russian
AMY GANT TAN, Research Assistant Professor of History
ANAND VIVEK TANEJA, Assistant Professor of Religious Studies
B.A. (Delhi [India] 2001); M.A. (Jamia Millia [India] 2004); Ph.D. (Columbia 2013) [2013]
ANTHONY M. TANG, Professor of Economics, Emeritus
B.B.A. (Loyola, New Orleans 1949); Ph.D. (Unformed Services 1995) [1955]
LYDIA TANG, Assistant Professor of German
M.A. (Georg-August-Universität Göttingen [Germany] 2006); Ph.D. (New York 2013) [2016]
ANN THOMAS TATE, Assistant Professor of Biological Sciences
B.S. (Rice 2009); Ph.D. (Princeton 2014) [2017]
GARRETT W. TATE, Senior Lecturer in Earth and Environmental Sciences
JOEL TELLINGHUISEN, Professor of Chemistry, Emeritus
A.B. (Cornell 1965); Ph.D. (California, Berkeley 1969) [1975]
HENRY A. TELOH, Professor of Philosophy, Emeritus
B.A. (Illinois, Champaign 1967); M.A., Ph.D. (Wisconsin 1971, 1972) [1972]
RACHEL TEOULKOSKY, Associate Professor of English
B.A. (Harvard 1996); Ph.D. (California, Berkeley 2004) [2008]
TARIQ THACHIL, Associate Professor of Political Science
B.A. (Stanford 2003); M.A., Ph.D. (Cornell 2007, 2009) [2016]
SHARECE D. THROWER, Assistant Professor of Political Science
B.A. (Ohio State 2008); M.A., Ph.D. (Princeton 2011, 2013) [2016]
CECELIA TICHI, Gertrude Conaway Vanderbilt Chair in English; Professor of American Studies
B.A. (Pennsylvania State 1964); M.A. (Johns Hopkins 1965); Ph.D. (California, Davis 1968) [1987]
JEFFREY S. TLOUKIS, Associate Professor of Philosophy
B.A. (CUNY, Brooklyn College 1969); M.A., Ph.D. (Massachusetts 1972, 1975) [1973]
TARA DECUIR TODD, Senior Lecturer in Chemistry
B.S., Ph.D. (Texas A&M 1992, 1997) [2004]
NORMAN H. TOLK, Professor of Physics; Professor of Radiology and Radiological Sciences
A.B. (Harvard 1960); Ph.D. (Columbia 1966) [1984]
ANDREW J. TOMARKEN, Associate Professor of Psychology; Associate Professor of Biostatistics
FRANK TONG, Professor of Psychology; Professor of Ophthalmology and Visual Sciences
GABRIEL ALEJANDRO TORRES COLON, Senior Lecturer in American Studies; Assistant Director of American Studies
B.A. (Maryland 2003); M.A., Ph.D. (New Mexico 2008, 2008) [2016]
STEVEN D. TOWNSEND, Assistant Professor of Chemistry
B.S. (Oakland 2005); Ph.D. (Vanderbilt 2013) [2014]
BEN TRAN, Assistant Professor of Asian Studies
B.S. (Northwestern 2009); M.A., Ph.D. (Northwestern 2012, 2016) [2016]
CRAIG J. TINTER, Senior Lecturer in Chemistry
B.S. (Wisconsin, La Crosse 2007); Ph.D. (Wisconsin 2012) [2016]
FRED M. WESTFIELD, Professor of Economics, Emeritus
B.A. (Vanderbilt 1950); Ph.D. (Massachusetts Institute of Technology 1957) [1965]

DIANA N. WEYMARK, Assistant Professor of Economics

JOHN A. WEYMARK, Gertrude Conaway Vanderbilt Professor of Economics

GEORGIA WHITE, Lecturer in Classical and Mediterranean Studies

GILMAN W. WHITING, Associate Professor of African American and Diaspora Studies
B.A. (Rhode Island 1985); M.A. (Rhode Island College 1994); Ph.D. (Purdue 2004) [2004]

DEAN P. WHITTIER, Professor of Biological Sciences, Emeritus
B.S. (Massachusetts 1957); A.M., Ph.D. (Harvard 1959, 1961) [1965]

HERBERT WIESMEYER, Associate Professor of Molecular Biology, Emeritus
B.S. (Illinois 1954); Ph.D. (Washington University 1959) [1962]

JOHN P. WIKSWO, JR., Gordon A. Cain University Professor; A.B. (Cornell 1962); Ph.D. (Rockefeller 1967) [1976]

GEOFFREY WOODMAN, Associate Professor of Psychology
B.A. (Virginia 1970); M.S., Ph.D. (Stanford 1973, 1975) [1977]

HORACE E. WILLIAMS, Professor of Mathematics, Emeritus
B.A., M.A. (Vanderbilt 1953, 1957); M.S. (Peabody 1957); Ph.D. (Vanderbilt 1962) [1958]

RHONDA Y. WILLIAMS, John L. Seigenthaler, Jr., Chair in American History
B.S. (Maryland 1989); Ph.D. (Pennsylvania 1995) [2017]

ROBLEY C. WILLIAMS, JR., Professor of Biological Sciences, Emeritus
A.B. (Cornell 1962); Ph.D. (Rockefeller 1967) [1976]

SUSAN FORD WILSHIRE, Professor of Classics, Emeritus
B.A. (Texas 1963); M.A., Ph.D. (Columbia 1964, 1967) [1971]

DONALD L. WINTERS, Professor of History, Emeritus

ALAN E. WISEMAN, Cornelius Vanderbilt Chair; Professor of Political Science; Associate Professor of Law

MARK ALLEN WOELFLE, Senior Lecturer in Biological Sciences
B.S. (Texas A&M 1983); Ph.D. (Vanderbilt 1993) [1993]

MARK A. WOLLEAGER, Professor of English
A.B. (Stanford 1979); Ph.D. (Yale 1986) [1994]

THILO WOMEELSDF, Associate Professor of Psychology
MSc. (Rhr [Germany] 2001); Ph.D. (Georg-August [Germany] 2004) [2017]

DAVID C. WOOD, W. Alton Jones Professor of Philosophy

DUSTIN A. WOOD, Senior Lecturer in Communication Studies
B.A. (Western Kentucky 2007); M.A. (Cincinnati 2009); Ph.D. (Texas A&M 2013) [2014]

MYRNA HOLTZ WOODERS, Professor of Economics

GEOFFREY F. WOODMAN, Associate Professor of Psychology
B.A., Ph.D. (Iowa 1997, 2002) [2006]

LAURIE ELIZABETH WOODS, Lecturer in Sociology

NEIL DAVID WOODWARD, Bixler-Johnson-Mayes Chair; Associate Professor of Psychiatry and Behavioral Sciences; Associate Professor of Psychology

GRACE WORK, Assistant Professor of Mathematics
B.S. (Wheaton 2007); M.S. (City College of New York 2009); Ph.D. (Illinois, Champaign 2016) [2016]

DAVID W. WRIGHT, Dean of Sciences; Stevenson Chair in Chemistry
B.A., B.S. (Tulane 1988, 1988); Ph.D. (Massachusetts Institute of Technology 1993) [2001]

EDWARD WRIGHT-RIOS, Professor of History
B.S. (Illinois, Champaign 1987); M.A. (Vanderbilt 1998); Ph.D. (California, San Diego 2004) [2004]

YIXIANG WU, Assistant Professor of Mathematics
B.S. (Central South University of Technology [China] 2010); Ph.D. (Louisiana, Lafayette 2015) [2016]

JULIAN WUERTHER, Associate Professor of Philosophy
B.A. (Chicago 1993); Ph.D. (Pennsylvania 2000) [2009]

YAOQING XU, Associate Professor of Electrical Engineering; Associate Professor of Physics
B.S. (Wuhan [China] 1997); Ph.D. (Chinese Academy of Sciences, Beijing 2002); Ph.D. (Rice 2006) [2009]

ANNA CATESBY YANT, Senior Lecturer in Anthropology; Assistant Director of the Center for Pre-major Academic Advising and Support

MARK ZABORSKIS, Senior Lecturer in Women’s and Gender Studies
B.A. (Bryn Mawr 2013); M.A., Ph.D. (Pennsylvania 2013, 2017) [2017]

DAVID HAROLD ZALD, Cornelius Vanderbilt Chair; Professor of Psychology; Professor of Psychiatry and Behavioral Sciences; Director of Neuroscience
B.A. (Michigan 1989); Ph.D. (Minnesota 1997) [2000]

ANDRES ZAMORA, Professor of Spanish; Vice Chair of the Department of Spanish and Portuguese
B.A. (Universidad Complutense de Madrid [Spain] 1984); M.A. (Auburn, Montgomery 1986); Ph.D. (Southern California 1994) [1998]

MATTHEW ZARAGOZA-WATKINS, Assistant Professor of Economics
B.S. (Cornell 2008); M.S., Ph.D. (California, Berkeley 2011, 2014) [2017]

ELIZABETH ZECHMEISTER, Cornelius Vanderbilt Chair; Professor of Political Science; Director of the Latin American Public Opinion Project (LAPOP)
B.A. (Loyola 1994); M.A. (Chicago 1996); Ph.D. (Duke 2003) [2008]

CHRISTOPH MIRKO ZELLER, Associate Professor of German; Associate Professor of European Studies

DECHAO ZHENG, Professor of Mathematics
B.S. (Chongqing [China] 1982); M.S. (Sichuan University [China] 1985); Ph.D. (Michigan State 1998) [1996]

DENIS A. ZHERNOKLEYEV, Lecturer in Russian
B.A. (Fresno Pacific 2006); M.Div. (Yale 2010); Ph.D. (Princeton 2016) [2016]

RUTH GRACE ZIBART, Professor of French, Emerita
B.S. (Tennessee Technological 1941); M.A. (Vanderbilt 1942); Ph.D. (Michigan 1964) [1964]

MELVIN ZIEGLER, Paul E. Shub Chair in Fine Arts; Professor of Art
B.F.A. (Kansas City Art Institute 1978); M.F.A. (California Institute of the Arts 1982) [2007]

GRETCHEN SUSAN SELCKE ZIMMERMAN, Senior Lecturer in Latino and Latina Studies; Assistant Director of Latino and Latina Studies
B.A. (Bowdoin 2000); M.A., Ph.D. (Vanderbilt 2010, 2015) [2015]

ARELL ZIMRAN, Assistant Professor of Economics
B.S.F.S. (Georgetown 2010); M.A., Ph.D. (Northwestern 2011, 2016) [2016]

LAURENCE J. ZWIEBEL, Cornelius Vanderbilt Chair in Biological Sciences; Professor of Pharmacology
B.S. (Stony Brook 1980); M.S. (Michigan 1982); Ph.D. (Brandeis 1992) [1998]

Music at Vanderbilt

BY AIR School of Music serves as the focal point at Vanderbilt for the study of music as a human endeavor and as a performing art. The school contributes to the quality of life at the university through concerts, lectures, and recitals by faculty, students, and visiting artists, scholars, composers, and composers, and through course offerings in performance, music literature/history, composition, and theory. In an age of increasing technology and social complexity, music offers to persons of all ages a vital medium for the expression of the human spirit.

The Blair School has been an integral part of Nashville's musical environment since its founding in 1964 by the Justin and Valere Potter Foundation through a bequest of Valere Blair Potter. In 1981 the school was merged with Vanderbilt following the university's decision to develop an excellent program in music. Studies leading to the professional Bachelor of Music degree in performance were initiated in 1986.

The degree program also includes majors in composition and musical arts. The major in composition emphasizes analytical skills as well as the development of students' creativity. The major in musical arts lays a solid foundation in the art of music, with equal preparation in the three basic disciplines of performance, theory, and music literature/history. The musical arts major also forms the basis for a five-year program in teacher education offered cooperatively with Peabody College. Students in this curriculum can earn the B.Mus. degree in four years and the M.Ed. and teacher licensure for instrumental/general or vocal/general music in the fifth year (June–May). All Blair degree programs are accredited by the National Association of Schools of Music (NASM).

A non-professional 31-hour liberal arts music major makes it possible for students outside the Blair School to choose music as a second major. Students in other schools and colleges of the university also may pursue a minor in music, music composition, music history, or music performance. And Blair offers a remarkable variety of electives for students who wish to enrich their studies with credit in music courses, ensembles, or performance instruction, or to select music as an extracurricular activity.

Blair School of Music is home to internationally known faculty soloists and ensembles, and Blair’s performers, composers, and musicologists are among the most respected in their fields. Members of the faculty ensembles (Blair String Quartet, Blair Woodwind Quintet, Blair Brass Quintet, and Blakemore Trio) provide private instruction and coach chamber music ensembles and performance classes. The faculty’s dedication to teaching and a low student/faculty ratio provide students the personal attention that fosters maximum musical growth and understanding. The school is committed to its goal of developing students who are among the most articulate, culturally aware, and artistically sensitive of any graduates in the country.

Facilities

The Blair building incorporates innovative developments in acoustical design and engineering. It contains teaching studios and faculty offices, classrooms, rehearsal halls, practice rooms, library, administrative offices, MIDI piano labs with individual computer workstations, and concert venues. The 272-seat Steve and Judy Turner Recital Hall is the locus for student recitals and concerts and master classes by faculty members and visiting artists held on a regular basis. It also houses the Dobson Organ Opus 92 (2014), designed in the tradition of eighteenth-century eastern German organs not unlike those Bach knew, with additions and accommodations for twenty-first-century use. Opened in spring 2002, the 609-seat Ingram Hall garnered immediate acclaim for its superb acoustics, its visual beauty, and its enhancement of the school’s ability to host and produce orchestra, opera, and other major concert events.

The Anne Potter Wilson Music Library is a division of the Jean and Alexander Heard Library system. The collection, begun in 1947, was moved from Peabody College to its new and permanent home at Blair in the summer of 1985. Named to honor Anne Potter Wilson by the Vanderbilt Board of Trust in 1987, the 8,000-square-foot library holds more than 95,000 books, scores, sound and video recordings, and subscriptions to journals and online music databases. It is equipped with a seminar room, listening and viewing stations, computer workstations, and study facilities. Music librarians and staff are available to answer reference inquiries and to assist users with locating resources for performance, study, or instruction.

Accreditation

All programs leading to the B.Mus. degree are accredited by the National Association of Schools of Music, 11250 Roger Bacon Drive, Suite 21, Reston, VA 20190-5248; telephone: (703) 437-0700.

Classes for the General Student

The Blair School of Music welcomes the general student into its classes and studios. A large number of courses are designed specifically for non-majors. Many classes are held in Sarratt Cinema, Alumni Hall, and other central campus locations. Non-majors may also participate in any and all music major courses for which they are qualified.

A wide variety of music courses fulfill liberal arts core requirements for undergraduates in the College of Arts and Science, the School of Engineering, and Peabody College. These are listed by course numbers in each school’s/college’s section of this catalog, where requirements outlining Arts and Science AXLE, Engineering liberal arts core, or Peabody liberal education core requirements are given. Requirements and the courses which fulfill them differ for each Vanderbilt school.

Courses of particular interest to the general student are:

First-Year Writing Seminars*
Music and Global Health MUSL 1111 [W, INT]
Music and Modernism MUSL 1111 [W, HCA]
Shakespeare and Music MUSL 1111 [W, HCA]

Music Composition and Theory
Music Theory (Survey of) MUTH 1200-1210
Nashville Number System, The Songwriting and Elements of Music Theory MUTH 1130

Courses of particular interest to the general student are:

First-Year Writing Seminars*
Music and Global Health MUSL 1111 [W, INT]
Music and Modernism MUSL 1111 [W, HCA]
Shakespeare and Music MUSL 1111 [W, HCA]

Music Composition and Theory
Music Theory (Survey of) MUTH 1200-1210
Nashville Number System, The Songwriting and Elements of Music Theory MUTH 1130
Songwriting II          MUTH 1125
Advanced Lyric Writing for Songwriters  MUSO 1230

Music Literature and History*
African Music          MUSL 1105 [INT]
American Music         MUSL 2600 [US]
American Popular Music MUSL 1600 [US]
Blues, The             MUSL 1630 [US]

Other Courses
Building Communities Through Music and the Arts MENT 1130
Arts Administration    MENT 1135
Creating Mission-Driven Arts and Social Programming MENT 1140
Business of Music, The  MENT 1120
Music Internships      MENT 3880, 3881, 3882

*The bracketed letters indicate categories of the Arts and Science AXLE curriculum, which may also be verified in the Arts and Science section of the catalog. These designations are as follows: Humanities and the Creative Arts [HCA]; International Cultures [INT]; History and Culture of the United States [US]; Social and Behavioral Sciences [SBS]; and Perspectives [P].

Composition/Theory, Musicianship, and Keyboard Harmony
Courses designed for the general university student (MUTH 1120, 1125, 1130, 1200, 1210) focus on the recognition of stylistic and structural patterns. This skill enhances the non-technical listener’s awareness—both analytical and affective—of creative expression in music.

The music theory and musicianship sequence (MUTH 2100-2400; MUSC 2100-2400) introduces serious students of music, whether majors or not, to the principles of harmony, voice-leading, counterpoint, structure, and analytical/compositional techniques in a variety of historical styles; further, it fosters the all-important skills of hearing tonal relationships with facility and of communicating orally the structures and materials of music.

Ensembles
The Blair School of Music sponsors several major performing ensembles, including the Vanderbilt Symphonic Choir, Vanderbilt Chorale, Orchestra, Wind Ensemble, Opera Theatre, and Jazz Band. Other non-western and vernacular ensembles, such as the African Performing Ensemble and the Steel Drum/Pan Ensemble, are also available for credit. A large number of smaller ensembles and chamber music groups also exist, offering students a wide variety of experiences.

Auditions. Auditions for the major performing ensembles are held at the beginning of each semester. Audition information can be found on the Blair School of Music website. Students must audition every semester unless excused. Assignment is at the discretion of the director. Openings at mid-year are not guaranteed. Students need the approval of the appropriate faculty member before enrolling in chamber music; if participation has not been discussed with the coach, students may register tentatively for the “to be assigned” section of chamber music. Openings are not guaranteed.

Credit. Students may register for course credit. Audit status or registration for zero hours may be possible with permission of the director.

Music Literature and History
Courses in the literature and history of music are designed to develop students’ understanding of music within the prevailing social and cultural contexts; to establish a framework for critical evaluation of music and musical practices; to achieve a working familiarity with recognized, or at least representative, masterworks of musical literature; to develop students’ ability to speak articulately about the styles and substance of music; and to equip students with analytic and literary skills and with a working knowledge of the bibliography of music.

Performance
Performance instruction in individual or group settings is available for university credit for an additional fee. Private instruction is offered in all orchestral instruments and in piano, organ, guitar, dulcimer, mandolin, saxophone, euphonium, fiddle, banjo, steel drum/pan, and voice. Credit is flexible, but beginning students may register for only 1 credit hour. Students contract with the private instructor regarding lesson length and practice hours and can earn either 1 or 2 credit hours each semester. Students in the School of Engineering can count 3 hours of performance instruction (or ensembles) towards liberal arts core requirements. For others, performance is elective credit. Group instruction is offered in piano, guitar, steel pan/drum, and percussion; groups have maximum of six students and earn 1 credit hour.

Group Performance Instruction: Non-Major
Group instruction is designed for beginning students with emphasis on basic technique, rhythm, tone, and musical interpretation. Groups are limited to six students.

Registration. New students must interview with the appropriate faculty member before finalizing registration. Instructions are given in the online registration system.
Fees. Music fees are in addition to tuition charges and are not refundable after the change period. The cost for group instruction is $810.00 per semester for one 50-minute lesson weekly. (Fees, set annually by the Board of Trust, are subject to review and change without further notice.)

Individual Performance Instruction
Individual instruction is focused on the art and practice of an instrument or voice, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Blair offers collegiate-level performance instruction for non-majors at the 1100 level. 2100-, 2200-, 4100- and 4200-level courses are open only to B.Mus. students.

Registration. New students must interview with the appropriate faculty member before finalizing registration. Information available in YES. Enrollments are limited.

Credit. University students enrolled in individual instruction may earn 1 or 2 credit hours depending on lesson length and practice commitment.

- 30-minute or 45-minute lessons with 5 hours minimum weekly practice earn 1 credit hour.
- 60-minute lessons with 10 hours minimum weekly practice earn 2 credit hours.
- Beginners may not register for more than 1 hour of credit.

Fees. Music fees are charged in addition to regular tuition, and are not refundable after the change period. Students receiving need-based financial aid may request that music fees be considered in their financial aid package. Students with a declared second major or minor in music will be charged approximately one-half the music performance instruction fee.

For instrument courses numbered 1100, fees per semester are as follows:

<table>
<thead>
<tr>
<th>Lesson Length</th>
<th>Elective Credit / Non-Blair Students</th>
<th>2nd majors and minors receive 50% discount</th>
</tr>
</thead>
<tbody>
<tr>
<td>One 30-minute lesson weekly</td>
<td>$1,045</td>
<td></td>
</tr>
<tr>
<td>One 45-minute lesson weekly</td>
<td>$1,470</td>
<td></td>
</tr>
<tr>
<td>One 60-minute lesson weekly</td>
<td>$1,840</td>
<td></td>
</tr>
</tbody>
</table>

Fees, set annually by the Board of Trust, are subject to review and change without further notice.

Music Minors
Students may elect one of four minors: music, music composition, music history, or music performance. Formal admission to the general minor, the performance minor, or the second major is contingent upon a performance audition that meets departmental standards for the intermediate or advanced level of study. Following interviews with the appropriate department, students plan their studies with Blair advisers. Contact information and declaration paperwork are available online: blair.vanderbilt.edu. Students must meet minimum standards and obtain the approval of the appropriate department chair (brass/percussion, guitar/harp, keyboard, strings, voice, woodwinds, jazz). Declaration forms are available in the Blair office and online at blair.vanderbilt.edu/academics.

Music History Minor. 18 or 19 hours.
Music Theory. 6 or 7 hours.
MUTH 1200-1210; or MUTH 2100-MUSC 2100 and MUTH 2200-MUSC 2200
Music Literature/History. 12 hours.
MUSL 2100, MUSL 2200W, one course from 3220-3240, and 3100.

*Students who have completed MUSL 1200 must substitute another course for MUSL 2200W, selected from MUSL 1610, 1210, 1220, 1230, 3155, 3150, 3220-3240, 2110, 2150, 2610, and 3890.

Music Composition Minor. 26 hours.
Music Theory. 13 hours.
MUTH 2100, 2200, 2300, 2400; MUSC 2100, 2200
Music Literature/History. 6 hours.
MUSL 1200 or 2200W, 3100
Composition. 7 hours.
COMP 1100; COMP 2100 (4 semesters)

Formal admission into the music composition minor requires departmental approval. Applicants should submit a composition portfolio consisting of three completed works, with scores and recordings (MIDI is acceptable) to the Composition and Theory Department Chair.

Music Performance Minor. 25 or 26 hours.
Music Theory. 6 or 7 hours.
MUTH 1200-1210; or MUTH 2100-MUSC 2100 and MUTH 2200-MUSC 2200
Music Literature/History. 6 hours.
MUSL 2200W or 1200
One course chosen from MUSL 3220-3240
Performances. 11 hours.
Individual instruction in a single instrument for at least 6 semesters (any orchestral instrument, piano, organ, guitar, saxophone, euphonium, or voice.)
Students must meet minimum performance standards for admission to the program, earning a total of 11 hours. Repertoire information and declaration forms are available in the Blair office and online at blair.vanderbilt.edu/academics.

Ensemble. 2 hours (two different semesters).
Participation for two semesters in an appropriate performing ensemble, as assigned following audition. String, woodwind, brass, percussion, and harp students must audition for MUSE 1010, Instrumental Ensemble. Guitar and voice students must audition for MUSE 1020, Symphonic Choir. Keyboard students must participate as a pianist for one semester in MUSE 2300, 2310, 2320, 2330, 2210, or 2272; or in 1010, 1020, 1030, 2120, or 1140, contingent upon permission of the ensemble instructor and the piano instructor.

Music as a Second Major
Blair offers a non-professional liberal arts major in music that requires a minimum of 31 hours. Designed jointly by Blair and the College of Arts and Science, it is also available to Peabody and Engineering students as a second major. Following interviews with the appropriate performance department, students plan their studies with Blair adviser Professor Carl Smith, coordinator of the program. Contact information and declaration paperwork are available online: blair.vanderbilt.edu. Students must complete all requirements for the music as a second major with standard grading basis (that is, not Pass/Fail).

Music Major (Second Major). 31 hours.

Music Theory. 12 hours.
MUTH 2100-MUSC 2100, MUTH 2200-MUSC 2200, MUTH 2300-MUSC 2300, and MUSC 2400.

Music Literature/History. 9 hours.
MUSL 2100, 2200W*, 3100.
*Students who have completed MUSL 1200 must take an additional course instead of MUSL 2200W, selected from MUSL 3220-3240.

Individual Performance Instruction. 6 hours.
Six semesters of study in any orchestral instrument, piano, organ, guitar, saxophone, euphonium, or voice.
Students must meet minimum performance standards for admission to the program, with the required 6 hours at a level beyond that minimum. Representative repertoire lists reflecting minimum performance standards and required declaration forms are available online at blair.vanderbilt.edu/academics or from either the Blair office or Professor Carl Smith, coordinator of the program.

Ensemble. 2 hours (two different semesters).
Participation for two semesters in an appropriate performing ensemble, as assigned following audition. String, woodwind, brass, percussion, and harp students must audition for MUSE 1010, Instrumental Ensemble. Guitar and voice students must audition for MUSE 1020, Symphonic Choir. Keyboard students must participate as a pianist for one semester in MUSE 2300, 2310, 2320, 2330, 2210, 2230, or 2272; or in 1010, 1020, 1030, 2120, or 1140, contingent upon permission of the ensemble instructor and the piano instructor.

Elective. 2-3 hours.
One course in music theory, literature/history, or conducting, chosen from MUTH 2400, 3130, 3110, 3210, 3200, 3120, 3140, 3160, 3890; any MUSL; MCON 3000.
The Degree Program

The bachelor of music degree program includes four different majors: performance, composition, musical arts, and the musical arts/teacher education track. The performance major is available in any orchestral instrument, piano, organ, classical guitar, saxophone, euphonium, and voice. The composition major emphasizes both the creation and analysis of music. The musical arts major provides a solid foundation in the art of music and includes equal preparation in the three basic disciplines—theory, literature/history, and performance. Students, excepting musical arts/teacher education majors, may complete an optional concentration in collaborative arts, composition, jazz, literature/history, pedagogy, or theory. The musical arts/teacher education program, a five-year curriculum jointly developed with Peabody College, is for students interested in earning the master of education degree and teacher licensure in addition to the bachelor of music degree. Through a dual B.Mus./MBA program, interested students in the musical arts major have an opportunity to compress both the bachelor of music at the Blair School of Music and the master of business administration at the Owen Graduate School of Management into ten semesters in residence. Application for this program is made early in the fall semester of the junior year.

Bachelor of Music Degree Requirements

All bachelor of music degree candidates complete a program designed to ensure an intense, yet broadly-based, understanding of the discipline of music, focused on the skills and knowledge students will need to succeed as informed musicians of the twenty-first century. Each student must complete 126 credit hours, including 80 hours in music. The music core (42 credit hours minimum) includes music theory, musicianship, keyboard harmony, music literature, conducting, technology for musicians, and ensemble. Each major has additional specific requirements, including performance instruction and other music courses (to fulfill 80 hours). Liberal arts core requirements (minimum of 30 hours) include English, the humanities, courses chosen from history or social science, mathematics or natural science, and academic electives. Students may take free electives to total 126 hours. Sample curriculum plans are in the Blair Student Handbook at blair.vanderbilt.edu/academics.

Requirements by Major Area

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

BRASS PERFORMANCE
MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours
MUTH 2100, 2200, 2300, 2400
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

MUSIC LITERATURE/HISTORY. 12 hours
MUSL 2100, 2200W, one course chosen from 3220-3240, 3100

CONDUCTING. 2 hours
MCON 3000

TECHNOLOGY. 1 hour
MUSO 1340

ENSEMBLE. 10 hours minimum
MUSE 1010 (every semester in residence); MUSE 1150, 2210, 2250 or 2260 (four semesters, 1/2 credit minimum each semester, taken both semesters of freshman year, with two additional courses taken during career). Assignment to ensembles is at the discretion of the directors. During study abroad, students may waive participation in an ensemble of choice.

INDIVIDUAL PERFORMANCE INSTRUCTION. 32 hours, 8 semesters
TRPT, HORN, TROM, EUPH, or TUBA 2200; 4200

RECITAL ATTENDANCE. No credit
MUSO 1000 (every semester in residence except penultimate or final semester)

PERFORMANCE. TRPT, HORN, TROM, or TUBA 1000 (every semester in residence); MUSO 3970, 4970

OTHER MUSIC. MUSO 1120, MREP 2110

LIBERAL ARTS. 30 hours (see full requirements below)

FREE ELECTIVES. To complete 126 hours

COMPOSITION
MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours
MUTH 2100, 2200, 2300, 2400
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

MUSIC LITERATURE/HISTORY. 12 hours
MUSL 2100, 2200W, one course chosen from 3220-3240, 3100

CONDUCTING. 2 hours
MCON 3000

TECHNOLOGY. 1 hour
MUSO 1340

ENSEMBLE. 8 hours minimum (every semester in residence)
Eight semesters selected with the adviser’s approval. Assignment to ensembles is at the discretion of the directors. During study abroad, students may waive participation in an ensemble of choice.

INDIVIDUAL PERFORMANCE INSTRUCTION. 6 hours, 6 semesters
3 semesters in any orchestral instrument, piano, organ, harpsichord, guitar, saxophone, euphonium, or voice (1100 level); 2 semesters chosen from any orchestral instrument, piano, organ, harpsichord, guitar, saxophone, euphonium, or voice or MUED 1010-1040; 1 semester chosen from any orchestral instrument, piano, organ, harpsichord, guitar, saxophone, euphonium, voice (1100 level), or JAZZ 1100.

RECITAL ATTENDANCE. No credit
MUSO 1000 (every semester in residence except penultimate or final semester)

COMPOSITION. COMP 2301-2304, 4301-4304
Students rotate instructors as assigned for COMP 2301-2304 to gain experience with 4 different members of the department. COMP 1100 may be substituted for Section 01 [Kurek] of COMP 2301 or Section 01 [Kurek] of COMP 2303. Students may select one or more instructors of choice for COMP 4301-4304.

OTHER MUSIC. COMP 1000 (every semester in residence); MUTH 3110, MUTH 3210 or 3220, COMP 3978, 4970

MUSIC ELECTIVES. To complete minimum of 80 hours in music
LIBERAL ARTS. Must include one year of a foreign language, normally French, German, or Italian. Another language appropriate to the student’s musical pursuits may be chosen with approval of composition/theory department. Two (2) courses chosen from: 2000-level or higher art history, 2000-level or higher English, 2000-level or higher philosophy; a total of 33 hours, rather than 30, in liberal arts (see full requirements below).

FREE ELECTIVES. To complete 126 hours.

GUITAR PERFORMANCE
MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours
MUTH 2100, 2200, 2300, 2400
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

MUSIC LITERATURE/HISTORY. 12 hours
MUSL 2100, 2200, 2300, 3200
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

CONDUCTING. 2 hours
MCON 3000

TECHNOLOGY. 1 hour
MUSO 1340

ENSEMBLE. 8 hours minimum (every semester in residence)
MUSE 1020 or 2120 (two semesters), 1120 (two semesters), and 2330, 1120, or 2210 (four semesters). Students must audition for symphonic choir each semester until requirements are fulfilled. Assignment to ensembles is at the discretion of the directors. During study abroad, students may waive participation in an ensemble of choice.

INDIVIDUAL PERFORMANCE INSTRUCTION. 32 hours, 8 semesters (every semester in residence)
GTR 2200; 4200

RECITAL ATTENDANCE. No credit
MUSO 1000 (every semester in residence except penultimate or final semester)

PERFORMANCE. GTR 1000 (every semester in residence), MUSO 3970, 4970

OTHER MUSIC. MREP 3300, MPED 3100

MUSIC ELECTIVES. To complete minimum of 80 hours in music

LIBERAL ARTS. 30 hours (see full requirements below)

FREE ELECTIVES. To complete 126 hours

HARP PERFORMANCE
MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours
MUTH 2100, 2200, 2300, 2400
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

MUSIC LITERATURE/HISTORY. 12 hours
MUSL 2100, 2200, 2300, 3200
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

CONDUCTING. 2 hours
MCON 3000

TECHNOLOGY. 1 hour
MUSO 1340

ENSEMBLE. 8-10 hours (every semester in residence)
Auditions for major ensembles are required each semester until requirements are fulfilled. Assignment to ensembles is at the discretion of the directors. During study abroad, students may waive participation in an ensemble of choice.

Strings, woodwinds, brass, harp, percussion—(10 hours minimum) Five semesters MUSE 1010 (including four semesters of MUSE 1150, 1160, 1130, 1140, 2220, 2210, 2230, 2240, 2250, or 2260, ½ credit minimum each semester, taken both semesters of freshman year, with two additional courses taken during career); and three semesters ensemble of choice.

Guitar—(8 hours) Two semesters MUSE 1020 or 2120, two semesters 1120, one semester 1020, 2120, 2330, 1120, or 2210, and three semesters ensemble of choice.

Organ—(8 hours) Three semesters of conducted choral ensemble, one semester of MUSE 2300, one semester of 2320, one semester of 2310, and two semesters ensemble of choice.

Piano—(8 hours) One semester chosen from MUSE 1020, 2120, 1010, 1030, or other approved conducted choir; one semester of 2300; three semesters of 2320, 2330, 2210, 2310, or 2230; three semesters ensemble of choice with adviser’s approval.

Voice—(8 hours) Eight semesters MUSE 1020 or 2120 as assigned (or 2330 if demonstrated schedule conflict exists); juniors or seniors cast in principal roles in MUSE 1030 (as defined by the voice faculty) may substitute MUSE 1030 for one semester only of MUSE 1020 or 2120.

Composition—(8 hours) Eight semesters, selected with adviser’s approval

FREE ELECTIVES. To complete 126 hours

MUSICAL ARTS
MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours

Strings, woodwinds, brass, harp, percussion—(10 hours minimum) Five semesters MUSE 1010 (including four semesters of MUSE 1150, 1160, 1130, 1140, 2220, 2210, 2230, 2240, 2250, or 2260, ½ credit minimum each semester, taken both semesters of freshman year, with two additional courses taken during career); and three semesters ensemble of choice.

Guitar—(8 hours) Two semesters MUSE 1020 or 2120, two semesters 1120, one semester 1020, 2120, 2330, 1120, or 2210, and three semesters ensemble of choice.

Organ—(8 hours) Three semesters of conducted choral ensemble, one semester of MUSE 2300, one semester of 2320, one semester of 2310, and two semesters ensemble of choice.

Piano—(8 hours) One semester chosen from MUSE 1020, 2120, 1010, 1030, or other approved conducted choir; one semester of 2300; three semesters of 2320, 2330, 2210, 2310, or 2230; three semesters ensemble of choice with adviser’s approval.

Voice—(8 hours) Eight semesters MUSE 1020 or 2120 as assigned (or 2330 if demonstrated schedule conflict exists); juniors or seniors cast in principal roles in MUSE 1030 (as defined by the voice faculty) may substitute MUSE 1030 for one semester only of MUSE 1020 or 2120.

Composition—(8 hours) Eight semesters, selected with adviser’s approval

FREE ELECTIVES. To complete 126 hours

INDIVIDUAL PERFORMANCE or COMPOSITION (for composition students) INSTRUCTION. 16 hours, 8 semesters (every semester in residence)
TECHNOLOGY. 1 hour

COMPOSITION/THEORY, LITERATURE/HISTORY. 9-12 hours. Four courses selected from MUSL and MUTH 3000-4000 level courses in addition to the MUSL and MUTH core courses, including at least 3 hours MUSL, 2-3 hours MUTH, and 4-6 hours MUSL or MUTH

PERFORMANCE. Performance class (or composition studio class for composers) every semester in residence if offered (BASS 1000, BSSN 1000, CLAR 1000, CLLO 1000, COMP 1000, FLUT 1000, GTR 1000, HARP 1000, HORN 1000, OBONE 1000, PERC 1000, PIAN 1000, SAX 1000, TRAX 1000, TRPT 1000, TUBA 1000, VLA 1000, VLN 1000, VOIC 1000)

OTHER MUSIC. 3 hours. MUSO 1400, 1410, 1420 (required for voice only); 4 hours of 1100-level performance instruction or MUED 1010-1040 and 3 hours MUTH 3110 (required for composition only); MUSO 1130 (required for percussion only)

MUSIC ELECTIVES. To complete a minimum of 80 hours in music

LIBERAL ARTS. 30 hours (see full requirements below)

FREE ELECTIVES. To complete 126 hours

MUSICAL ARTS/TEACHER EDUCATION, INSTRUMENTAL/GENERAL

MUSIC THEORY, MUSICIANSHIP, AND KEYBOARD HARMONY. 19 hours
MUTH 2100, 2200, 2300, 2400
MUSC 2100, 2200, 2300, 2400
MUKH 1131, 1132, 1133, and 1134

MUSIC LITERATURE/HISTORY. 12 hours
MUSL 2100, 2200W, one course chosen from 3220-3240, 3100

CONDUCTING. 2 hours
MCON 3000

TECHNOLOGY. 1 hour
MUSO 1340

ENSEMBLE. 9 hours minimum (every semester in residence) Instrumental ensemble and co-requisite chamber music are required both semesters of freshman year, and a total of six semesters of conducted ensemble (chosen from MUSE 1000, 1010, 1020, or 2120) and 2 semesters of small ensemble is required. Instrumentalists must have experience in orchestra, wind ensemble, jazz ensemble (as appropriate), and chamber music, with ensemble enrollment required every semester and every module in residence. Pianists must be accepted in MUSE 1010, 1020, or 2120 by the beginning of the second semester. During study abroad, a student could choose to waive an ensemble of choice. Auditions for major ensembles are required each semester until requirements are fulfilled. Assignment to ensembles is at the discretion of the directors.

INDIVIDUAL PERFORMANCE INSTRUCTION. 16 hours, 8 semesters (every semester in residence)

RECITAL ATTENDANCE. No credit
MUSO 1000 (every semester in residence except penultimate or final semester)

COMPOSITION/THEORY. MUTH 3110, COMP 1100

LITERATURE/HISTORY. MUSL 2600; choice of MUSL 1110, 3155, 3150, 2110, or 2150; choice of MUSL 1610, 1300, or 3220-3240.

PERFORMANCE. Performance class on primary instrument every semester. Secondary instrument(s) three semesters (may include Introduction to Guitar GTR 1010 or Classroom Instruments MUED 1050, but no more than 1 semester in the area of the major instrument; may include voice). Secondary Instrument Lab MUED 1070 one semester. Child and Adolescent Voices MUSO 1060. Senior Recital MUSO 4970.

OTHER MUSIC. Instrumental Conducting MCON 3010.
Note: Conducting study must include two different professors.

TEACHING. Class Instruments MUED 1010, 1020, 1030, 1040. Practica in Music Teaching MUED 3870, 3871, 3872. Two seminars chosen from MUED 2110-2170.

LIBERAL ARTS. 30 hours (and 9 hours listed above in Literature/History).

English/Writing: 6 hours, including MUSL 2200W and choice of AP/IB English credit, any ENGL, or any writing course (any W in the English language, any 1111, or ENGL 1100; must be from outside of music).

Humanities: 6 hours, including MUSL 2100 and 3 hours in art history, humanities, language, philosophy, or religious studies. (6 additional hours of humanities credit are counted above in Literature/History.)

History and Social Science: 6 hours, including 3 hours American History and 3 hours in a social science discipline other than history chosen from Anthropology, Economics, Political Science or Sociology. (3 additional hours of history and social science credit are counted above in Literature/History.)

Mathematics and Natural Science: 6 or 7 hours, including 3 hours math, chosen from statistics (ECON 1500, MATH 1010 or 1011, PSY-PC 2110) or calculus (MATH 1100, 1200, 1201, 1300, 1301, 2200, 2300, 2500, 2501); and 3 or 4 hours any science course with a lab.

Academic Electives: 6 hours, specifically EDUC 1220 and SPED 1210. (See full requirements below)

or MREP 2141 (saxophone); MPED 3140 (section appropriate for major instrument)

LIBERAL ARTS CORE. 30 hours (see full requirements below)

FREE ELECTIVES. To complete 126 hours

Liberal Arts Core
The liberal arts core affords music students the opportunity to develop a broad-based understanding of intellectual endeavors and methods in a variety of disciplines, to explore the interconnectedness of music, arts, and other humanistic pursuits, and to articulate their thinking in clear and effective language. The curriculum, which provides maximum flexibility for each student, requires a minimum of 30 hours (33 hours for composition majors), satisfied through required categories as noted below. Students electing a second major outside of music complete only the Blair liberal arts core; they are not expected to fulfill the core requirements (such as AXLE) of another Vanderbilt school or college. Hours earned toward the Blair liberal arts core may also be counted toward a second major or minor, if appropriate. Students admitted with a deficiency relative to high school credits must plan their liberal arts work to overcome the deficiency. 1001 courses do not count for liberal arts core credit.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

English/writing (6 hours)
Students must complete writing course MUSL 2200W during the first year. A second English/writing course* of at least three credit hours, chosen from:
- Advanced Placement or International Baccalaureate credits in English/Writing (consult the chapter on Admission for current policy)
- First year writing seminars (1111) in any discipline
- Writing courses in the English language in any discipline, designated by W in the course number.
- English: all courses
- Communication Studies: 1500, 1850
- MUSL 2330

For musical arts/teacher education majors, an English/writing course outside of music is required.

*Students with a score of 770 on the Evidence-Based Reading and Writing portions of the SAT with a minimum score of 39 in the Writing and Language portion, or with a score of 35 on the Reading and Writing portions of the ACT, may exempt the second English/writing course, substituting 3 hours of any academic elective. Students who do not present a score of 660 on the Evidence-Based Reading and Writing section of the SAT test (with a score of 27 in Reading and 28 in Writing and Language), or a score of 30 on the English portion of the ACT test, must enroll in English 1100 in the first semester.

Humanities (9 hours)
HUMANITIES REQUIREMENTS
MUSL 2100. Students should complete this required course during the first year.
Six additional hours of humanities electives (listed below)
For composition majors, 15 hours minimum, including MUSL 2100; one year of French, German, or Italian; and 6 hours chosen from 2000-level or higher art history, 2000-level or higher English, and 2000-level or higher philosophy.
For musical arts/teacher education majors, 6 hours are required, including MUSL 2100 and 3 hours in art history, humanities, language, philosophy, or religious studies. (6 additional hours of humanities credit are counted in the Music Literature/History category of the major area requirements, above.)
For vocal performance majors, 9-13 hours: MUSL 2100 and 6-10 hours (two semesters) chosen from French, German, and Italian.

HUMANITIES ELECTIVES
- African American and Diaspora Studies: 1506 and all HCA-designated courses
- Anthropology: All HCA-designated courses
- Arabic: All courses
- Asian Studies: 2100W, 2511, 2512, 2601, 2602, 2611, 3606
- Catalan: All courses
- Chinese: All courses
- Cinema and Media Arts: All courses except W courses
- Classics: All, except SBS-designated courses
- Comparative Literature: All courses
- English: All courses
- European Studies: All HCA-designated courses
- French: All courses
- German: All courses
- Greek: All courses
- Hebrew: All courses
- History of Art: All courses (art studio courses excluded)
- Humanities: All courses
- Italian: All courses
- Japanese: All courses
- Jewish Studies: All HCA- and US-designated courses
- Latin: All courses
- Medicine, Health, and Society: All HCA-designated courses
- Music Literature/History: 1610, 1111-02, 1111-03, (Music and Modernism, Shakespeare and Music), 1300, 3155
- Philosophy: All courses except 3003 and 1003
- Portugese: All courses
- Religious Studies or Divinity School: All courses
- Russian: All courses
- Spanish: All courses
- Theatre: All courses offered for AXLE credit
- Women’s and Gender Studies: All HCA- and US-designated courses, 2239, 2248

History, Social Science (3 hours)
For musical arts/teacher education majors, 6 hours History and Social Science are required: 3 hours American History chosen from HIST 1390, 1400, 1410, 1420, 1440, 1660, 1690, 1730, 1740, 2580, 2590, 2610, 2620, 2630, 2640, 2660, 2690, 2700, 2710 and AP credit in American History; and 3 hours in a social science discipline other than history chosen from Anthropology, Economics, Political Science or Sociology. (3 additional hours of history and social science credit are counted in the Music Literature/History category of the major area requirements, above.)

HISTORY
- Classics: only SBS-designated courses
- History: All courses
- Music Literature/History: 1111-01 (Music and Global Health), 2600, 1110, 2110, 2150
SOCIAL SCIENCE
African American and Diaspora Studies: All courses except 1506 and
HCA-designated
Anthropology: All courses except HCA-designated
Asian Studies: 2630, 1680, 2560
Communication Studies: All AXLE courses except 1500 and 1850
Economics: All courses offered for AXLE credit
European Studies: All courses except HCA-designated
Human and Organizational Development (Peabody): All 3-hour courses
except 1115 and practica
Interdisciplinary Studies: 3001
Jewish Studies: All SBS-, INT-, and P-designated courses
Latin American Studies: All AXLE courses
Medical, Health, and Society: All P-designed courses and 2510, 3120,
3350,
Political Science: All courses
Psychology (A&S): All courses except MNS-designated
Psychology and Human Development (Peabody): All 3-hour courses
from 1205-3200 inclusive
Sociology: All courses
Women’s and Gender Studies: All courses except HCA- and
US-designated and 2239, 2248

Mathematics, Natural Science (3 hours)
Students who score below 550 on the SAT Math Section or below 22 on
ACT Math should take MATH 1010 or 1005. For musical arts/teacher
education majors, 6 or 7 hours, including statistics (MATH 1010 or
1011, or PSY-PC 2110 [Peabody]) or calculus (MATH 1100, 1200,
1201, 1300, 1301, 2200, 2300, 2500, 2501); and a science course
with a lab.

MATHEMATICS
Mathematics: All courses
Philosophy: 1003 and 3003
Psychology (Peabody): PSY-PC 2110

NATURAL SCIENCE
Astronomy: All MNS-designated courses, including accompanying labs
Chemistry: All AXLE courses, with corequisite labs
Earth and Environmental Sciences (Geology): All MNS-designated courses
Physics: All MNS-designated courses, including accompanying labs
Psychology: All MNS-designated courses

Academic Electives (9 hours)
For composition majors, 2–6 hours, to complete 33 hours in liberal arts.
For musical arts/teacher education majors, 6 hours, specifically Educa-
tion 1220 and Special Education 1210.
For vocal performance majors, 5-9 hours to total 30 hours in liberal arts.
Academic electives, drawn from courses earning 3 or more credits, may
include:
• Any course listed in the Liberal Arts Core
• Non-music courses in American studies, computer science, engi-
neering science, financial economics, managerial studies, human and
organizational development
• Any course in the Divinity School
Practicums and internships may not count as academic electives.

Free electives (sufficient to complete 126 hours)
Any course in any Vanderbilt school.

Minor Area and Concentration Requirements
Concentrations and the minor in a second instrument are open to bachelor of music degree students. Honors in Music
History and Literature is open to all undergraduates. Deadline to declare a concentration or minor is the fifth day of the first
semester of the senior year.

CONCENTRATION IN COLLABORATIVE ARTS. 15–21 hours
Literature/History: MUSL 3220 or 3221
Performance: HRPS 1100 (1 hour), MUSO 4970 (1 hour), PIAN 1000
every semester
Other Music: MUSO 1400, 1410, 1420, MREP 3310 or 3311, 3330,
MUSO 3850 (2 hours in vocal coaching or chamber music literature)
Ensemble: One semester chosen from MUSE 1020, 2120, 1010, 1030,
or other approved conducted choir; one semester of 2300; one
semester of 1030 (as apprentice pianist); six semesters of 2320,
2330, 2210, 2310, or 2230; and three semesters ensemble of choice
with adviser’s approval.
Liberal Arts: Must include 3-5 hours each in two different languages
chosen from Italian, German, or French. Students with previous study
in one of these must study the other two.
Recommended: MUTH 3110 and MUSL 2330

CONCENTRATION IN COMPOSITION. 18 hours minimum
Department approval required for admission to this concentration.
Composition: COMP 1100; choice of two from MUTH 3130, 3110, 3210,
3200, 3120, 3140, 3160, 3170, 3220, or 3890
Composition (elective): 11 hours over a minimum of 4 semesters in
COMP 2100

CONCENTRATION IN JAZZ. 18 hours minimum
Department approval required for admission into the concentration.
Bachelor of Music students are eligible to audition for a faculty com-
mittee no earlier than the end of their first year.
Literature/History: MUSL 1620
Composition/Theory: MUTH 3120; JAZZ 1150
Other Course Work: MUSO 1220; MUED 2140
Performance: JAZZ 1100 (minimum of 4 semesters/4 credit hours);
MUSO 4970 (in addition to recital required for major)
Ensemble: MUSE 1310, 1320, or 1330 (minimum of 2 semesters/
2 credit hours)

CONCENTRATION IN MUSIC LITERATURE/HISTORY. 21–25 hours
Literature/history: 9 elective hours (in addition to 9 hours required for the
musical arts major)
Liberal Arts: History 1350, 1360, 6-10 hours (two semesters) of foreign
language approved by the department; a total of 34 hours, rather
than 30, in liberal arts

CONCENTRATION IN PEDAGOGY. 15 or 16 hours
Music Cognition coursework: MUED 2160
Instrumental Literature: Choice of MREP 3310, 3311, 3300, 3330, or
MUSO 3850 (in field, 2 hours)
Pedagogy coursework: Choice of MPED 3110, 3100, 3130 or MUSO
3850 (in field, 2 hours), and Pedagogy Practicum MPED 3870 (2 hours)
Pedagogy Internship: MPED 3880 (6 hours)
Senior Recital: MUSO 4970
Liberal Arts: Must include PSY-PC 1250 and 2600 (Peabody courses)

CONCENTRATION IN THEORY. 19 hours
Departmental approval required for admission to this concentration.
Composition/Theory: COMP 1100 and 16 hours in MUTH 3210, 3200,
3100, 3120, 3140, 3150, 3160, 3220, or 3890

HONORS IN MUSIC LITERATURE AND HISTORY. 9 hours
Departmental approval required for admission to this program; see regu-
lations in the Honors section of the catalog.
The thesis: Departmental approval of a formal thesis prospectus, MUSL
4998-4999 (6 hours), and successful completion of an oral defense.
Course work: One course beyond the MUSL core chosen from MUSL
3150, 3220-3240, 3160, 2610, or 3890 (3 hours)
The MUSL credit hours of this program may double-count in the concen-
tration in music literature/history.
MINOR INSTRUMENT. 10 hours
Ensemble: Participation on minor instrument (including voice) in two separate ensembles in addition to major instrument requirement, as assigned (2 hours)
Performance: Minimum of four semesters (8 hours) in a second performance area (any orchestral instrument, piano, organ, harpsichord, guitar, saxophone, euphonium, voice, or baroque violin or viola) at a level of proficiency required by the department. Consent of instructor and department required. NOTE: Composition majors may satisfy the primary major ensemble and performance instruction requirements with courses also used to fulfill the minor instrument requirements.

Teacher Education
The Blair School and Peabody College offer a program for students interested in teacher licensure. Students completing this program earn the bachelor of music (B.Mus.) degree, majoring in the musical arts/teacher education track for four years, and the master of education (M.Ed.) degree in the fifth year to complete professional education requirements. During the junior year, application is made to Peabody College. The M.Ed. work requires one calendar year, June–May. Students may elect to work toward licensure in either instrumental/general or vocal/general music, based on their interest and ability to perform at a level sufficient for placement in the appropriate performing ensemble. The curriculum includes a strong music performance emphasis; a solid foundation in music literature, theory, and the liberal arts; undergraduate and graduate courses in psychology and education; and practica (practical experience) four of the five years of study, with two student teaching opportunities in the spring semester of the master’s degree work. The curriculum includes a strong music performance emphasis; a solid foundation in music literature, theory, and the liberal arts; undergraduate and graduate courses in psychology and education; and practica (practical experience) four of the five years of study, with two student teaching opportunities in the spring semester of the master’s degree work. Practica constitute a wide variety of grade K-12 experiences, including public school, private school, and Blair’s precollege programs such as Suzuki strings, Blair Children’s Chorus program, and the Nashville Youth Orchestra program. Students complete the same music core requirements as any other B.Mus. candidate. The liberal arts core is adapted to fulfill state licensure requirements. The music electives ordinarily associated with the musical arts curriculum are, for students in the five-year program, devoted to prerequisites for the M.Ed. degree and for the teaching license; thus, there are very few free elective hours in this curriculum.

Junior Mid-Program Review [Screening I]
All students admitted to this program at matriculation must be formally continued through a process called Junior Mid-Program Review. Criteria for this review are listed below. Students not approved can complete the general musical arts degree.

Faculty evaluation of a student’s qualifications for continuation in a teacher education program includes academic, performance, and disposition factors such as the following:
1. Dependability (as evidenced by good attendance and academic performance in classes and practica)
2. Professional and ethical behavior (honesty, acceptance of responsibility, emotional maturity, etc.)
3. Attitude and interpersonal skills (including the ability to work with children and with peers)
4. Academic competence

Specific Criteria
1. A minimum cumulative grade point average of 2.500.
2. Successful completion (C- or better) of EDUC 1220 and SPED 1210
3. Successful completion (C- or better) of MUTH 2200, MUSC 2200, MUSL 2200W and MUED 3870.
4. Successful completion (C- or better) of two additional Vanderbilt courses which count towards the Liberal Arts Core.
5. Departmental interview

General Criteria
These criteria rest on the professional judgment of appropriate faculty members, who are polled following the student’s application for Junior Mid-Program Review.
1. Endorsement by the appropriate faculty that the applicant has demonstrated the academic and musical qualifications expected of Vanderbilt teacher education candidates.
2. Endorsement by the appropriate faculty that the applicant has demonstrated the personal and character traits expected of Vanderbilt teacher education candidates.

Procedure for Junior Mid-Program Review [Screening I]
Students apply for continuation in the teacher education program [Screening I] through the Blair program director. Applications must be submitted in the fall semester of the junior year. Deadline for submitting applications for Junior Mid-Program Review [Screening I] is 1 October. A departmental interview is then held with each candidate to review the student’s academic progress and disposition criteria of dependability, professional and ethical behavior, attitude, and interpersonal skills.
Admission to Student Teaching [Screening II]

Prospective student teachers must apply for admission to student teaching during the fall semester of the fifth year. Application materials are available online at peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php. Deadline for submitting applications is 1 October. Student teaching requires at least two placements at two different age levels in a fifteen-week semester.

General Criteria for Admission to Student Teaching

1. Completion of the B.Mus. degree.
2. Admission to the Master of Education program.
3. Successful completion of all courses prerequisite to student teaching.
4. A minimum grade point average of 3.00.
5. Satisfactory performance in course work in areas in which teacher licensure is sought.
6. Submission of a résumé and a letter to parents introducing yourself and outlining your goals for the students you teach.
7. Endorsement by the appropriate faculty regarding academic, musical, and personal readiness to teach, including dependability, professional and ethical behavior, attitude, and interpersonal skills.

Application for Teacher Licensure and University Recommendation for Licensure

All students completing the teacher education program at Vanderbilt are strongly advised to apply for a license in Tennessee whether or not they plan to teach in this state. Normally a Tennessee license is accepted in all other states and foreign countries in which Vanderbilt students apply to teach. The student is responsible for applying for licensure through the Office of Teacher Licensure located in 210 Peabody Administration Building. Each state has its own set of application forms and procedures for licensure; information is available in the Office of Teacher Licensure.

To be licensed through Vanderbilt’s teacher education program, a graduate must earn a positive licensure recommendation from the university. The university’s decision to recommend a candidate is based upon the following:

1. Maintaining a 3.0 grade point average in the fifth year.
2. Achieving the state minimum score on all required parts of the PRAXIS Examinations. A copy of the scores must be sent to the Vanderbilt Office of Teacher Licensure (code R 1871).
4. Receiving a positive recommendation from the student’s department as a result of the student teaching experience (Pass in student teaching does not guarantee a favorable recommendation).

All Vanderbilt teacher education programs are approved by the National Council for Accreditation of Teacher Education (NCATE). The program for licensure to teach instrumental/general or vocal/general music is approved by the National Association of Schools of Music (NASM).

3+2 B.Mus./MBA Blair-to-Owen Program

The five-year joint program between the Blair School of Music and the Owen Graduate School of Management allows a small cohort of particularly motivated students to overlap their undergraduate coursework with work toward the MBA, facilitating the earning of both the undergraduate and graduate degrees in five years (ten semesters). By combining three and one-half years in Vanderbilt’s Blair School of Music with
one and one-half years of study in the Owen School, students may obtain both the bachelor of music and the master of business administration in five years. The baccalaureate from the Blair School is awarded at the end of the fourth year, and the MBA from the Owen School after the fifth year. Students interested in pursuing this program must be enrolled in the musical arts major.

This program follows the model adopted by the College of Arts and Science and the School of Engineering, in which a student spends his or her undergraduate time to “pursue intellectual curiosity and develop analytic and communication skills—without regard to subject matter,” completing all of the requirements of an established undergraduate major. Thus, students in this Blair-to-Owen program will continue to fulfill all of the B.Mus. degree requirements in musical arts, but choose course offerings (particularly in their academic electives) that will facilitate a rapid completion of the MBA requirements.

Required course work includes the normal Blair course work for the musical arts major, plus Business of Music (MENT 1120) and a graded internship (MENT 3880 or 3881), for a minimum of 80 credit hours in music. The liberal arts core will also follow the requirements for the major, but must include the following specific requirements:

- Calculus (1 semester)
- Statistics, e.g., ECON 1500: Economic Statistics
- ECON 1010: Principles of Macroeconomics
- ECON 1020: Principles of Microeconomics
- ECON 3010: Intermediate Microeconomic Theory

A curriculum plan, including recommended electives, is provided in the Blair Student Handbook.

Students must apply to the Owen School for admission to the five-year program during their junior year. Applications are due no later than October 1 of the junior year, and early application and GMAT are recommended. Acceptance into the five-year program is extremely competitive and requires advanced standing earned in undergraduate courses. Being deficient in full-time work experience, the 3+2 student must enhance his or her portfolio with outstanding academic performance and show a strong commitment to a rigorous business education. The Summer Business Institute (Accelerator) is strongly recommended for 3+2 applicants prior to matriculating at Owen. The successful applicant will bring an accomplished academic record (normally a GPA of 3.3 or better), satisfactory internship or work experience, an ability to articulate his or her own preparedness for the work environment, and a strong endorsement from Vanderbilt faculty.

Students who are accepted to the 3+2 program will remain registered as B.Mus. students through spring of junior year and fall of senior year, and will register as Owen students in spring of senior year. Academically, students will take a full load of business courses both in fall and spring of senior year while completing the final B.Mus. degree requirements (normally, lessons and ensembles) in the musical arts major. The completion of the B.Mus. degree requirements prior to fall of the student’s fifth year is required for continuation in the MBA program.

Tuition and Financial Aid

The scholarship or other financial aid commitment of the Blair School will not be continued automatically beyond the seventh semester for students enrolled in the joint program. Eighth-month financial aid is the student’s responsibility. Students should notify the Owen School with their application if they are interested in being a candidate for an Owen scholarship during their MBA studies. Early application is recommended. Need-based aid will still apply.

Students pay tuition to the undergraduate school for the fall semester of their fourth year, after which all tuition is paid to Owen (and reflects graduate school tuition rates). The Blair School of Music will waive fees for the required performance instruction during spring of the fourth year to facilitate completion of the B.Mus. requirements.
Special Programs

BLAIR School of Music offers individual, group, class, and ensemble instruction to precollege and adult students (defined as students above high school age not receiving university credit). A catalog describing these programs is available at blair.vanderbilt.edu.

The Adult Program
Blair offers to adults individual instruction in orchestral instruments, piano, organ, guitar, harp, saxophone, euphonium, fiddle, banjo, mandolin, dulcimer, steel drum/pan, voice, and composition. Jazz voice, guitar, drumset, saxophone, and piano are also available. Group instruction is available in guitar, percussion, and steel drum.

Classes are offered in music theory, music literature and history, music business, songwriting, and Alexander Technique. Ensembles open to adults include the Vanderbilt Community Chorus, steel drum ensemble, African Performing Ensemble (Sankofa), fiddle ensemble, and the collegiate chamber music offerings.

The Precollege Program
Blair offers individual instruction in orchestral instruments and in piano, organ, guitar, harp, saxophone, euphonium, fiddle, banjo, mandolin, dulcimer, steel drum/pan, and voice. Jazz voice, guitar, drumset, saxophone, and piano are also available. Group instruction is available in piano, fiddle, and (for young children) Kindermusik for ages birth to five years. Instruction using the Suzuki method is offered in violin and cello.

Class instruction includes music theory, music literature/history, musicianship, and Alexander Technique.

Ensemble training is offered through the Nashville Youth Orchestra program, the Blair Children’s Chorus program, Violin Performing Ensemble, Cello Choir, and chamber music.

The Blair School Certificate Program provides a curriculum integrating advanced levels of performance study with training in music theory and history, chamber music (Certificate of Distinction), performance classes, and recitals. Students who successfully complete the requirements for this program present a solo recital during their high school senior year and receive either the Certificate of Distinction or the Certificate of Merit upon graduation. Honors may be earned with additional study in music theory and history. A variety of merit and need-based scholarships, for which students may audition, are awarded each year to outstanding precollege students by the school and by several donors. Students in area high schools may earn out-of-school credit towards high school graduation for individual study of music at Blair or through participation in the Nashville Youth Orchestra program or Blair Children’s Chorus program.

The Blair Concert Series
The Blair Concert Series offers solo, chamber, and orchestral music performances to the university community and the region through the faculty Signature Series, the BMI Composer-in-Residence Series, and the Music on Film Series. National and international artists and ensembles, the Blair faculty, including resident ensembles and soloists, and student ensembles and performers are all featured. Weekly student recitals are open to the public, as are all other student recitals. More than 300 concerts are presented at the school each year, and most are free of charge, as a gift to the community.

“The Blair Commissions: Music for the 21st Century,” a project funded by the James Stephen Turner Family Charitable Foundation, presented three major world premieres by some of the world’s most celebrated composers in the 2009–12 concert seasons. The first premiere, A Year in the Catskills by Peter Schickele, was performed in Ingram Hall on March 16, 2009, by the Blair Woodwind Quintet. In spring 2010, the Blakemore Trio premiered a work by composer/soprano Susan Botti in Nashville and at Merkin Hall in New York City. Images from a Closed Ward, composed by Michael Hersch for the Blair String Quartet, was premiered in Nashville and New York City in spring 2012. The project serves two intertwined missions: to promote the composition of outstanding works by the world’s leading composers and to invite attention to the excellent ensembles and faculty performers of Vanderbilt University.

The BMI Composer-in-Residence program, sponsored by Broadcast Music Inc., brings visiting composers to campus every year. The three-day residency includes lectures, performances of the composer’s works, and opportunities for interaction with students. Composers-in-residence have included Robert Beaser, George Crumb, Michael Daugherty, Lukas Foss, John Harbison, Karel Husa, Steven Mackey, Donald Martino, Cindy McTee, Kevin Puts, Christopher Rouse, Adam Schoenberg, Joseph Schwantner, Frank Ticheli, Michael Torke, and Joan Tower.
Academic Regulations

Honor System
All academic work at Vanderbilt is done under the Honor System (see the chapter on Life at Vanderbilt.)

Faculty Advisers
All entering students are assigned academic advisers who assist in the planning of programs and course schedules. Students are required to meet with their advisers prior to registration for each semester.

Class Attendance
Students are expected to attend all sessions of each class in which they are enrolled. Attendance is usually a factor in determining the final grade in a course. A student who fails to abide by the attendance policy set by the course instructor is subject to removal from the course.

The last day before and the first day after official holidays are considered to be the same as any other day on which classes are scheduled. Assignments are made for classes scheduled on these days, and tests may be given in them. Students should take this fact into account in making travel plans.

Classroom Recording Policy
The use of technologies for audio and video recording of lectures and other classroom activities is allowed only with the express permission of the instructor. In cases where recordings are allowed, such content is restricted to personal use only, unless permission is expressly granted in writing by the instructor and by other classroom participants, including other students. Personal use is defined as use by an individual student for the purpose of studying or completing course assignments. When students have permission for personal use of recordings, they must still obtain written permission from the instructor to share recordings with others.

For students registered with EAD and who have been approved for audio and/or video recording of lectures and other classroom activities as a reasonable accommodation, applicable federal law requires instructors to permit those recordings. Such recordings are also limited to personal use, except with permission of the instructor and other students in the class.

Credit Hour Definition
Credit hours are semester hours; e.g., a three-hour course carries credit of three semester hours. One semester credit hour represents at least three hours of academic work per week, on average, for one semester. Academic work includes, but is not necessarily limited to, lectures, laboratory work, homework, research, class readings, independent study, internships, practica, studio work, recitals, practicing, rehearsing, and recitations. Some Vanderbilt courses may have requirements which exceed this definition. Certain courses (e.g., dissertation research, ensemble, performance instruction, and independent study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credits allowable per semester will be included in the course description.

Course Load
Tuition is charged on the basis of a normal course load of 12 to 18 semester hours. Course loads outside the norm, which must be recommended by the student’s adviser and approved by the associate dean, are charged at an hourly tuition rate. Students permitted to take fewer than 12 hours are placed on probation, unless their light load is necessary because of outside employment or illness. The maximum course load for the summer session is 12 hours (6 hours for a summer half-session). A student must be enrolled in a minimum of 12 hours to be classified as a full-time student.

Residence Requirement
A minimum of four semesters and at least 63 credit hours, as well as the last two semesters and the last 30 credit hours, must be spent in residence in the Blair School. Students transferring from other schools of the university must spend the last two semesters and at least the last 30 credit hours in residence in the Blair School. Students who wish to study abroad or study away in their penultimate semester may petition the Blair Curriculum Committee for a waiver of the residence requirement.

Advanced Placement

Advanced Placement with Credit. Advanced placement with credit is granted in a number of areas (see the chapter on Admission).

Advanced Placement without Credit. Students may be admitted to advanced music courses on the basis of placement tests at Blair, but no credit is awarded for music courses exempted.

Transfer Credit

Transfer courses are often taken as free electives, but they may also earn liberal arts core credit. They may not fulfill the music core requirements, count as part of the last 30 hours of residence, serve as repeat credit, or be taken on a Pass/Fail basis. Work transferred from another institution will not carry with it a grade point average. No course in which a grade below C- was received will be credited toward the B.Mus. degree.

Pre-freshman work. Credit for pre-freshman college work may be given, subject to evaluation by the Office of Academic Services and approval of the associate dean. Credit for courses taken at another institution during the summer preceding a student’s initial enrollment at Vanderbilt will be granted only if approval is obtained in advance from the associate dean. The course work must be comparable to courses offered at Vanderbilt. Credit will be awarded only if the course is regularly offered by an accredited two-year or four-year college or university, if the teacher was a regular faculty member of that institution, and if a majority of the students in the course were candidates for a degree at that institution.

Summer studies. Students enrolled at Blair may receive transfer credit for summer courses taken at another four-year, fully accredited institution. This may include work at festivals or camps, if offered through an accredited institution. To qualify for summer credit, a student must be in good standing, consult the Office of Academic Services, provide course descriptions, and obtain authorization in advance. Deadline for pre-approval is April 1.
**Semester work at another institution.** Students wanting to receive transfer credit for a semester of work at another institution must receive approval in advance from the associate dean. To qualify for such credit, the student must be in good standing and must present a plan that makes clear the educational rationale for such work, the ways in which it supplements the Vanderbilt curriculum, and the equivalence of standards to those at Vanderbilt. Approval of the overall plan must be followed by approval of specific courses by the associate dean, the appropriate academic department, and the registrar’s office. Students enrolled full time (i.e., carrying at least 12 credit hours) during a regular (fall or spring) semester are assumed to be engaged in full-time study at Vanderbilt. Such students are not permitted to take additional course work elsewhere, for transfer credit, during the semester. This includes online courses as well as courses offered by nearby institutions.

**Transfer Students**

Transfer applicants must comply with university standards (see the chapter on Admissions). The required audition is of major importance in the evaluation of any application. Composition applicants must submit a composition portfolio and interview with a member of the composition faculty.

Transfer students must submit catalog copy and, in most cases, course syllabi from the previous institution(s). A level of performance study is assigned based on the entrance audition. Credit for courses is subject to evaluation. Music courses may require an examination to verify placement and/or credit at Vanderbilt, and credit for non-music courses must be approved by the appropriate Vanderbilt department. Transfer students must complete at least half the credit required for the degree, or 63 hours, at the Blair School. See also, **Transfer courses**.

**Intra-university transfer.** Students intending to transfer within the university should meet with the head of academic advising and file appropriate paperwork. For students transferring out of the B.Mus. program, music fees are covered through the end of the final term as a B.Mus. student. All students are expected to maintain a minimum of 3 credit hours within their home school until transfer is approved. First semester freshmen are ineligible for transfer status. Students who transferred to Vanderbilt University from another institution are eligible for intra-university transfer after having completed one semester in residence and having achieved sophomore standing. See also, the chapter on Admissions.

**Study Abroad**

Five Vanderbilt study abroad programs are coordinated with the degree programs in music: the IES programs in Vienna, Austria, and in Amsterdam, The Netherlands, the Milhaud Conservatory through Vanderbilt in France, the DIS program at the Royal Danish Academy of Music in Copenhagen, Denmark, and the IFSA/Butler program at the University of Sydney and Sydney Conservatorium of Music in Sydney, Australia. These programs include provisions for lesson and ensemble credits, contingent upon audit and admission to the program. These will count towards the Blair music core and are covered at least in part by regular tuition and fees, although students are responsible for any instrument rental fees they accrue. All programs also allow for a range of liberal arts and elective credits. Students enrolled in IES Vienna will be required to enroll in German; there is, however, no language prerequisite for admission to the program. Further information can be obtained from the Vanderbilt Global Education Office and from Blair’s associate dean.

Blair students may also elect any of the Vanderbilt-approved study abroad programs; see descriptions under “Study Abroad” in the front chapters of the catalog. Blair students in these programs have typically enrolled in music electives, courses in the liberal arts core, and course work toward minors and second majors. Students in these programs typically arrange alternative private lesson study, and those fees are usually not covered by tuition. It is also possible to pursue study abroad through transfer credit; the associate dean’s office has more details. It should be noted, however, that if a program has been approved for direct credit by Vanderbilt, it must be taken as the approved direct-credit program by matriculated Vanderbilt students. In no case, after matriculating at Vanderbilt, may a student apply to participate in an approved direct-credit program for transfer credit through a different university, or through an external agency, and then seek to transfer that credit into Vanderbilt. Any student studying abroad must register for International SOS.

**Registration**

Registration is available to entering first-year students in June. Continuing students register on dates specified each semester in the University Calendar and as assigned in “YES” (Your Enrollment Services, yes.vanderbilt.edu). Conferences with faculty advisers are required before students may register. Detailed information on registration is available on the University Registrar website, registrar.vanderbilt.edu/registration/registration-information/.

Prior to registration, students should refer to the sample curriculum plans in the Blair Student Handbook. Records and the degree audit should be checked regarding progress toward completing the following:

1. Music core
2. Liberal arts core
3. Additional major area requirements

A student whose registration choices are denied or altered (full or cancelled class, lack of prerequisite courses, etc.) may select alternate courses during the Open Enrollment registration period.

**Change of Course**

Course changes may be made during the Open Enrollment period or the official Change Period (Drop/Add) as listed in the University Calendar. All changes need the adviser’s approval. A course dropped during the Change Period does not show on a transcript. A course may be dropped or changed from P/F to graded status prior to the deadline for withdrawal published in the University Calendar. The approval of the adviser and associate dean is required (see Grading System regarding withdrawal grades). Regularly enrolled students must maintain a minimum course load of 12 hours.

**Grading System**

A: excellent  
B: good  
C: satisfactory  
D: minimum pass work  
F: failure

Under certain circumstances the following grades may be awarded (see explanations below):

Pass: D– or above  
W: withdrawal
Academic Services can assist with P/F registration. A student’s grade point average is obtained by dividing the total grade points earned by the number of hours for which the student registered, excluding courses audited or taken for no credit, those from which the student has withdrawn or for which an incomplete grade (I, M, or MI) has been authorized, and those with the grade Pass.

**Defined Grades with Corresponding Grade Points**

**Temporary Grades**

Temporary grades are placeholders that are assigned under defined circumstances with a specified deadline by which they will be replaced with a permanent grade. A student who receives a temporary grade is ineligible for the Dean’s List. Students cannot graduate with any temporary grades.

**I: Incomplete**

An Incomplete is given only under extenuating circumstances and only when a significant body of satisfactory work has been completed in a course. The I is not intended as a replacement for a failing grade, nor should it be given to a student who misses the final examination. The M grade is used for the latter purpose. The request for an Incomplete is generally initiated by the student and must be approved by the instructor. The instructor may initiate the assignment of an Incomplete if warranted by the circumstances and conditions referenced above. In either case, in assigning the grade of I, the instructor specifies (a) a default grade that counts the missing work as zero and (b) a deadline by which the missing work must be submitted. That deadline must be no later than the last class day of the next regular semester in residence. The Incomplete can be extended beyond the next semester only if the student’s associate dean determines that an extension is warranted. If the required work is submitted by the deadline for removing the Incomplete, the I will be replaced by the grade earned. If the work is not completed by the deadline, the default grade will become the permanent grade for the course.

The Incomplete is not calculated in the GPA, but a student who receives an Incomplete is ineligible for the Dean’s List.

**W: Withdrawal**

A student may withdraw from a course after the official Change Period and prior to the deadline for withdrawal published in the University Calendar, generally Friday of the week after mid-semester. A course enrollment form must be signed by the instructor, adviser, and associate dean and filed with the registrar. (Students from other schools of the university must file with their home school.) Withdrawals after the published deadline result in an F. The grade W may be assigned by the associate dean to a student who seeks to withdraw from a course or from school after the deadline for reasons such as extended illness or unusual personal or family problems. No W grades are calculated in a student’s grade point average.

**Deficiency Notices**

During the week after mid-semester, the University Registrar posts deficiency notices for students whose mid-semester grade in any course is a C– or below or whose work is incomplete (I). (Deficiency notices are found in the Access to Academic Information application in YES at yes.vanderbilt.edu.) Deficiencies are issued as a matter of information and warning. Deficiencies do not show on transcripts, but information is sent to the faculty advisers and may be sent to parents of those students who are dependents of their parents or who have authorized such reports.

A student who receives a deficiency notice is required to meet with the faculty adviser before the deadline for withdrawal at the end of the week. A student with deficiencies in two or more courses or any senior who receives a deficiency notice is also required to meet with the associate dean before the deadline for withdrawal (usually Friday of the week after mid-semester).
M: Missing a Final Examination

The grade $M$ is given to a student who misses the final examination and is not known to have defaulted, provided the student could have passed the course had the final examination been successfully completed. The grade of $F$ is given if the student could not pass the course even with the final examination.

It is the student’s responsibility to contact the Dean’s Office before the first class day of the next regular semester, regardless of whether the student will be in residence that semester, to request permission to take a makeup examination. The makeup examination must be taken on or before the tenth class day of the next regular semester. If the request has not been submitted by the proper time, or if the student fails to take the makeup examination within the prescribed time, the $M$ grade will be replaced by a default grade submitted by the instructor when the $M$ is assigned.

MI: Missing a Final Examination and Other Work

The grade $MI$ is assigned to a student who misses the final examination and whose work is incomplete in other respects. The $MI$ may not be turned in without prior authorization by the associate dean. It is the student’s responsibility to contact the Dean’s Office to request permission to take a makeup examination and to arrange for submission of the missing work.

No-Credit Courses (NC)

Students who wish to take courses on a no-credit basis must file with the Blair Office of Academic Services before the end of the Change Period. Students must attend class and complete all course work. A grade is recorded on the transcript with the notation NC, indicating that it does not count toward the degree.

No-credit courses count in the computation of a student’s academic load and tuition, but not in the computation of the grade point average.

Auditing

Regularly enrolled Blair students who want to audit courses in any of the undergraduate schools of the university must obtain the written consent of the instructor to attend the class but do not register for the course for credit. Forms are available from the Blair Office of Academic Services. No permanent record is kept of the audit. Regular students may audit one class each semester.

Repeated Courses

Certain courses, notably performing ensembles and variable credit performance instruction, may be taken more than once for credit. Otherwise, students may repeat any course to replace a grade, with no additional credit hours earned, subject to the following conditions:

- Courses taken at Vanderbilt may not be repeated elsewhere.
- A grade may not be replaced by a grade of “Pass.”
- A grade of $W$ or $I$ cannot replace a letter grade.
- Only the most recent grade is calculated in the grade point average, but all grades show on the transcript.

Dead Week

The last week of classes, i.e., the last seven calendar days before the final examination period each semester, is designated as dead week. No examinations of any type, including quizzes, portions of final examinations, recitals, or ensemble performances, may be given during this time without the express written permission of the dean and notification of students at least two weeks before dead week. Violations should be reported to the dean.

Examinations

All examinations are conducted under the honor system. Primary and alternate exam schedules, which allow two hours for a final exam in each course, are listed on the University Registrar’s website. The instructor may use the alternate schedule in addition to, but not instead of, the primary schedule.

Alternatives to standard in-class final examinations, such as term papers or take-home, self-scheduled, or oral examinations may be given at the instructor’s discretion. A take-home exam is distributed at the last regular class meeting and must be completed by the latest time scheduled for the final examination.

Performance examinations are scheduled by department chairs. Students giving full recitals during the semester may be exempted from performance examinations at the discretion of the instructor. If performance examinations are scheduled on a reading day (the day after classes end, when no course examinations are scheduled), students are also given the choice of a different day for their performance examinations.

A student who misses a final examination may be eligible to receive the grade $M$ (see Temporary Grades).

Writing Portfolio

Students in their senior year are required to submit a writing portfolio drawn from academic course work from one or more classes to be evaluated by a faculty committee. Emphasis should be placed on demonstrating an ability to write clearly and effectively and on the student’s ability to form connections across two or more disciplines. Students are required to prepare a one-paragraph narrative explaining how the submitted work demonstrates the required competencies.

Grade Reports

Grade reports and faculty critiques of performance examinations will be provided to students as soon as possible at the end of each semester. Grades are available online in the Academic Record, which is housed within YES (Your Enrollment Services) at yes.vanderbilt.edu. Occasionally, student academic information may be shared with appropriate faculty committees for purposes of promotion and tenure review.

A grade reported and recorded in the Office of the University Registrar may be changed only upon written request of the instructor, on certification that the original report was in error, with approval of the associate dean.

Academic Standards

For the purposes of class standing, a regular semester is defined as any fall or spring term in which a student is registered for at least 12 hours.

Class Standing

To qualify for sophomore standing, a student must complete a minimum of 24 hours with a grade point average of 1.8 and have completed two regular semesters.
To qualify for junior standing, a student must complete a minimum of 54 hours with a grade point average of 1.9, must complete MUTH 2200 and MUSC 2200, and must have completed four regular semesters.

To qualify for senior standing, a student must complete a minimum of 86 hours with a grade point average of 2.0 and have completed six regular semesters.

**Academic Probation**

Students are placed on probation if they fail to meet class standing benchmarks, as noted above. Students on probation must qualify for class standing in one additional semester or risk being dropped from the university.

Students are placed on academic probation: if they fail to meet class standing benchmarks; if they complete fewer than 12 hours in a fall or spring semester except in cases involving documented mitigating circumstances (illness, injury, or family emergency); or if their semester grade point averages fall below 1.8 overall or 2.0 in music. In addition, freshmen are placed on academic probation if they do not complete one writing course. Incomplete grades may adversely affect class standing or grade point averages.

Students on academic probation may not transfer summer study credit, elect to take courses on a Pass/Fail basis, earn credit by departmental examination, or participate in any extracurricular performance activity. They are required to participate in a special academic advising program. Students will be placed on probation no more than twice. Students who are candidates for probation a third time will be dropped from the university.

**Sudden Academic Insufficiency**

Any student who fails by a wide margin to reach prescribed levels of academic achievement, either at the end of a semester or at mid-semester, is reviewed by the associate dean’s office in conjunction with the academic and studio adviser(s). If the student is not making satisfactory progress towards the degree, the student may be placed on probation or may be advised or required to take a leave of absence or advised to withdraw from the university. Appeals of such findings should be addressed to the Blair Curriculum Committee.

**Scholarship Student Requirements**

Students receiving honor scholarships through Blair School of Music must be enrolled full time, taking all assigned music courses, must qualify for class standing, and must maintain each semester minimum grade point averages of 2.0 overall and 2.7 in music. Students receiving the Cornelius Vanderbilt Honor Scholarship must maintain a minimum 3.0 grade point average overall and 3.0 in music each year. Additional requirements may be stipulated in scholarship award letters.

Honor scholarship awards are considered for renewal annually. Student work will be reviewed at the end of spring semester for possible renewal for the following academic year. Incomplete grades may adversely affect renewal. A student who falls short of the requirements will normally have the scholarship for one semester of grace, after which, if requirements are still not met, the scholarship will be lost.

Students receiving scholarships or grants as part of their financial aid packages (not honor scholarships) must qualify for class standing in order to be considered for renewal each year. Students receiving federal aid are expected to make satisfactory academic progress as outlined in the chapter on Financial Information.

**Graduation Requirements**

Candidates for degrees must have completed 126 hours and all curriculum requirements, have passed all prescribed examinations, and be free of indebtedness to the university.

Exceptions to stated degree requirements and procedures must be approved by the Curriculum Committee as the representative body of the faculty in matters pertaining to the curriculum.

The minimum grade point averages required for graduation are 2.0 overall and 2.0 in music. A student taking a second major must earn a 2.0 in that major in order for it to be certified on the transcript.

If requirements for graduation change, students may elect to be bound by requirements published in the Undergraduate Catalog in either their entering or their graduating year.

**Degree Audit Reports**

An online degree audit is available on YES to all Blair students, showing total hours earned, degree requirements completed, and those still to be met. Students should examine the audit carefully with their faculty advisers. Problems or suspected errors should be discussed immediately with the Blair Office of Academic Services.

**Credit by Departmental Examination**

In certain circumstances, students may be awarded course credit (a maximum of 8 hours) by departmental examination. This procedure is distinct from the awarding of credit through the College Board Advanced Placement Tests or the International Baccalaureate. Students apply for credit by examination through the Blair Office of Academic Services.

To earn credit by departmental examination, students must be enrolled for at least 12 hours, be in good standing, be recommended by their advisers, and have the approval of the appropriate department. In addition, students must seek prior approval of their study plan through the associate dean’s office. Students may attempt to earn credit by examination in no more than two courses in one semester, only once in any course in one semester, and no more than twice in the same course.

Credit hours and grade are awarded on the basis of the grade earned on the examination, subject to the policy of the department awarding credit. Students have the option of refusing to accept the credit hours and grade after learning the results of the examination.

Students enrolled for at least 12 hours are not charged extra tuition for hours earned through credit by examination, so long as the amount of credit falls within the allowable limits of an 18-hour tuition load, including no-credit courses and courses dropped after the change period. Students in this category must pay a $50 fee for the cost of constructing, administering, and grading the examination. Since this cost has already been incurred, students who refuse the credit hours and grade are charged the $50 fee nevertheless. Full-time students with a tuition load exceeding 18 hours and students taking fewer than 12 hours pay tuition at the regular rate, per credit hour, with no additional fee.
Senior Re-examination
A candidate for graduation who fails not more than one course in the final semester may be allowed one re-examination, provided the course failed would prevent the student’s graduation, and provided the student could pass the course by passing a re-examination. Certain courses may be excluded from re-examination. The re-examination must be requested through the student’s associate dean’s office, and, if approved, it is given immediately after the close of the last semester of the student’s senior year. A student who passes the re-examination will receive a D- in the course. The terms and administration of senior re-examination are the responsibility of the school that offers the course. Note: For engineering students taking engineering courses, the senior re-examination policy applies if a student fails not more than one course in the senior year.

Independent Study
Students must obtain permission to enroll in Independent Study from the instructor of their choice prior to registration. Independent Study authorization forms are available at blair.vanderbilt.edu/academics. The instructor’s signature on the authorization form indicates a willingness to supervise the Independent Study project. A contract or study plan, approved by the instructor in consultation with the appropriate department chair and the associate dean, must be submitted to the Blair Office of Academic Services by the tenth calendar day after classes begin. If no plan is submitted, the student will be dropped from Independent Study. An Independent Study project should result in a substantial written report, paper, or lecture/recital. The report, recording, or some physical manifestation of the project should be retained by the instructor. Independent Study projects proposed by students for cross-school registration must be approved through the mechanisms of both schools. Consult associate deans from both schools for guidance.

A student may register for a maximum of 3 hours in Independent Study in a semester. A student may count a total of 6 hours in Independent Study toward the degree. A faculty member may supervise no more than four students per semester in Independent Study projects. Independent Study cannot substitute for courses which are part of the curriculum.

Internships
The Career Center assists students interested in internship opportunities in the music industry and elsewhere; there are opportunities in many states of the U.S. and also abroad, both during the academic year and in the summer. A student serving as an intern may register for MENT 3880, 3881, or 3882 as a corollary if credit is desired. Students with summer internships that require an academic component must register for credit. (http://vanderbilt.edu/career/students/internships.php#academicCredit) A maximum of 6 hours of internship credit may be counted toward the degree. Students are responsible for finding a faculty sponsor; a written study plan must be approved by the faculty sponsor and the Blair associate dean no later than the tenth day of classes. Internship paperwork is available on the Blair School website at blair.vanderbilt.edu/academics.

Performance Instruction: B.Mus. Degree
Fees. Performance instruction fees are waived for B.Mus. students. A one-time music technology fee is charged to each first-year student.
Recital and Recital Committee

For recitals given for credit, the recital committee is the same as the hearing committee whenever possible. The final grade is a composite of those of at least two committee members, including the studio instructor, with the studio instructor’s grade valued at two thirds of the total. Copies of committee member’s grades are kept by the instructor. Recitals not given for credit are not graded; they involve a hearing committee but not a recital committee.

Extracurricular Performance

Students must be in good standing and have the consent of their private instructors in order to participate in any extracurricular performance activities, including in-school collaboration, that are not required by a student’s degree program or honor scholarship.

Recital Attendance

Each semester in residence, students (except graduating seniors in their penultimate or final semester) are required to register for and attend weekly student recitals/convocations on Fridays at 12:10 p.m. and a minimum of six Blair faculty or professional concerts or their community equivalents as described in the syllabus. Students must fulfill both aspects of the requirement to pass each semester. The course receives zero credit hours but is graded on a Pass/Fail basis and listed on students’ transcripts. Incompletes will not be granted except in the case of documented medical emergency.

Students must register their attendance at each recital. Two absences from Friday afternoon recitals are permitted each semester. Under extraordinary circumstances, make-up assignments can be obtained from the recital attendance coordinator with the permission of the associate dean. Students must plan and keep up with their concert attendance. Except for weekly student recitals, performances in which students are participants do not fulfill the attendance requirement for the performer. Deadline for completion of all work is listed on the course syllabus for MUSO 1000. The first failure would result in the loss of the senior penultimate or final semester exemption. Additional failure(s) would require students to enroll for additional semester(s) until the seven required semesters are passed.

Change of Address

Any change of address should be reported to the Blair Office of Academic Services and also be submitted to the University Registrar at yes.vanderbilt.edu. The university will consider notices or other information delivered if mailed to the address currently on file.

Leave of Absence

A student in good standing may, with the approval of the associate dean, take leave of absence for one or two semesters. Application forms, available from the Blair Office of Academic Services, must be submitted by 1 December for spring semester leave or by 1 May for fall semester.

Students planning to study elsewhere while on leave (elective courses) must have prior approval if credits are to be transferable. Upon the student’s return, a performance examination during the first two weeks of the semester may be needed to determine the student’s standing in the major performance area.

Registration notifications are emailed to students on leave. A student failing to register at the conclusion of the stated leave will be withdrawn from the university and must apply for readmission.

Students who have been on leave of absence and not enrolled for three or more semesters or who leave the university while on academic probation must re-audition and achieve the approval of the associate dean prior to readmission.

Withdrawal from the University

Students proposing to withdraw from the university during any semester must report to the Blair associate dean to initiate proper clearance procedures. Students are graded on the same basis as if withdrawing from a course. Students who withdraw before the end of the eighth week of classes receive a partial refund of tuition (see the chapter on Financial Information). Students intending to withdraw from the university for the following semester should notify the Blair Office of Academic Services by 1 December for spring semester or by 1 May for the fall semester.

Students who have withdrawn from the university without filing a Leave of Absence form must apply for readmission if they wish to return.
Honors

Founder's Medal
The Founder’s Medal, signifying first honors, was endowed by Commodore Cornelius Vanderbilt as one of his gifts to the university. The recipient is named by the Dean after consideration of faculty recommendations as well as grade point averages of the year’s highest ranking graduates.

Academic Honors Designation
Honors, which are noted on diplomas and published in the Commencement Program, are earned as follows:

Summa Cum Laude. Students whose grade point average equals or exceeds that of the top 5 percent of the previous year’s Vanderbilt graduating seniors.

Magna Cum Laude. Students whose grade point average equals or exceeds that of the next 8 percent of the previous year’s Vanderbilt graduating seniors.

Cum Laude. Students whose grade point average equals or exceeds that of the next 12 percent of the previous year’s Vanderbilt graduating seniors.

Honors Program in Music Literature and History
The honors program in music literature and history is designed to afford superior students the opportunity to pursue more intensive work within the field of musicology or ethnomusicology, culminating in the preparation of a senior honors thesis. The course of study includes seminar work as well as independent study and writing under the supervision of a thesis adviser. Students who want to do honors work should contact the chair of the musicology department in the fall of their junior year. Departmental approval of a formal honors thesis prospectus must take place prior to registration for MUSL 4998 in spring of the junior year or fall of the senior year. Minimum requirements are a 3.0 GPA overall and 3.3 in music literature and history courses.

Students accepted into the program must take a total of 9 credit hours: MUSL 4998–4999, Senior Honors Thesis (6 hours), and one course (beyond the MUSL core) chosen from MUSL 3150, 3220–3240, 3160, 2610, or 3890 (3 hours). In addition, successful completion of the honors program requires an oral defense of the honors thesis before a faculty committee. This defense will occur at the end of the second semester of thesis enrollment. Those enrolled in the program who successfully complete its requirements with distinction may graduate with Honors or Highest Honors in music literature and history.

Dean's List
The Dean’s List recognizes outstanding academic performance in a semester. Students are named to the Dean’s List when they earn a grade point average of at least 3.500 while carrying 12 or more graded hours, with no temporary or missing grades in any course (credit or non-credit), and no grade of F.

Pi Kappa Lambda
Election to Pi Kappa Lambda National Music Honor Society signifies superior accomplishment in the field of music. Students elected to membership must be outstanding musically and scholastically and ranked in the highest 20 percent of the senior class or the highest 10 percent of the junior class. The Eta Iota chapter was installed at Vanderbilt on April 8, 1992. Professor Karen Ann Krieger serves as its president.

Awards and Prizes
Several awards are presented to students at the Blair School of Music. Announcement is made at the final student recital/convocation of the spring semester. Each carries a monetary stipend. Awards, which are published in the Commencement Program, are as follows:

THE MARGARET BRANSCOMB PRIZE is given annually to a Blair freshman judged by the faculty to have the musical and personal qualities that best exemplify the spirit and standards of the school. The prize was established by family and friends in memory of Margaret Branscomb, wife of the late Vanderbilt Chancellor Emeritus Harvie Branscomb.

THE SUE BREWER AWARD was established by the Songwriters Guild Foundation in memory of Sue Brewer, who befriended many of Nashville’s struggling songwriters in the late 1960s and 1970s. It is awarded for excellence to a student pursuing a degree in guitar or composition.

THE RICHARD C. COOPER AWARD was established in 2002 by the Pi Delta Chapter of Phi Mu Alpha Sinfonia, to remember the outstanding contributions made by Chris Cooper to the student experience of music at Vanderbilt. Nominations are made by student organizations, recognizing campus-wide leadership in music.

THE ROBIN DICKERSON AWARD was established in 1995 in honor of soprano Robin Nell Dickerson, B.Mus. ’94, by Blair faculty and students. It is awarded by the voice faculty to an outstanding voice major for excellence in performance and scholarship.

THE ANDREW SANG HAN MEMORIAL AWARD was established in memory of Sang Han, a clarinet performance major at Blair from 2012 to 2015. Sang’s dedication to excellence in all areas of performance, from small chamber ensembles to wind symphony and orchestra, as well as the care and consideration he showed his peers, served as an example to his friends and colleagues at the Blair School. This award is presented through collaboration between the ensemble directors and woodwind/brass faculty to a woodwind or brass student who demonstrates remarkable musicianship and leadership in all areas of ensemble playing.

THE JEAN AND ALEXANDER HEARD AWARD. Awarded to outstanding students studying at summer music festivals.

THE JEAN KELLER HEARD PRIZE is designed for a string student seeking the Bachelor of Music degree. The scholarship fund was established by the Vanderbilt Women’s Club to honor violinist Jean Keller Heard, wife of Vanderbilt’s fifth Chancellor, Alexander Heard.
THE MAGDA LACHS AWARD was established in 2008 by Brenda Higgins, her family, and others to commemorate the 100th birthday of Magda Lachs, who was a passionate opera enthusiast and the mother of Vanderbilt philosophy professor John Lachs. After her death in June of 2011, several others made generous gifts in her memory. The award is given to an outstanding voice or orchestra student who participated in the current year’s Vanderbilt Opera Theatre production.

THE S. S. AND I. M. F. MARSDEN AWARD IN MUSICAL SCHOLARSHIP is awarded annually to a Blair student for excellence in scholarship, e.g., a major written paper, on a topic that lies outside the normal core of scholarship. Honors projects, independent study projects, and substantial class papers are eligible for consideration for the award. Only papers of extraordinary scope, additional outside recognition, or unusual range beyond the normal core of scholarship are eligible for the Marsden Award.

THE DELENE LAUBENHEIM MCCLURE MEMORIAL PRIZE is given to a voice major who exhibits excellence in opera performance. This prize was established by alumni and faculty of the Blair School of Music and other friends of Delene Laubenheim McClure, B.Mus. ’91, whose untimely death foreshortened a promising career in music. Through her participation in Blair’s first opera productions, Dede helped set a standard for excellence in performance.

THE MICHELSON COLLABORATIVE ARTS AWARD is presented to a singer, pianist, or voice/piano duo for exceptional performance in vocal collaborative arts.

THE ACHIEVEMENT IN TEACHING RECOGNITION AWARD is presented by the piano faculty to a senior pianist who has demonstrated superior abilities in both private and group teaching. The recipient must intend to teach music professionally in an independent studio, in a classroom, or at the collegiate level. The prize includes a one-year membership to the Tennessee and Nashville Area Music Teachers Association or the equivalent.

THE ELLIOT AND AILSA NEWMAN PRIZE is presented annually to a promising clarinetist or woodwind student for excellence in performance. The prize was endowed by Ailsa Mackay Newman in memory of her husband, Vanderbilt’s Werthan Professor of Experimental Medicine, 1952–1973, and an avid amateur clarinetist.

THE L. HOWARD “ZEKE” NICAR AWARD is presented annually to the most outstanding woodwind or brass student. The award was established by family, faculty, and friends to honor the memory of the Blair School’s first Assistant Dean for Admissions.

THE EXCELLENCE IN PERCUSSION PERFORMANCE AWARD was established in memory of James Harrison Griggs, an outstanding percussion major, B.Mus. ’94. This award is given to a percussion major for excellence in performance.

THE PRESSER AWARD is presented to a junior for musical and academic excellence and is the most prestigious honor available to a junior at Blair. At least one third of the student’s credits must be outside the field of music. The recipient must have a cumulative grade point average of 3.25 and have been named to the most recent Dean’s List. The award honors the memory of Theodore Presser, American publisher and musical philanthropist.

THE DAVID RABIN PRIZE was established by family and friends in memory of Dr. David Rabin, professor of medicine and of obstetrics and gynecology at Vanderbilt University Medical School, 1975 to 1984. The prize is awarded annually, based on excellence in musical performance, to a student enrolled at Blair. The fund continues to grow as contributions in honor of Dr. Rabin are given to the school.

THE SIGMA ALPHA IOTA COLLEGE HONOR AWARD is given annually to the most outstanding member of the chapter based on scholarship, musicianship, participation in school activities, and contribution to the fraternity chapter. The award was established in 2000.

THE SIGMA ALPHA IOTA SCHOLARSHIP AWARD is given to the graduating senior who has attained the highest scholastic average during her college years. The award was established in 2000.

THE CHRISTIAN TEAL AWARD recognizes a current string student who embodies the collaborative spirit of Professor Christian Teal, who retired as Joseph Joachim Professor of Violin after forty-two years at the Blair School.

THE BLAIR VOLUNTEER SERVICE THROUGH MUSIC AWARD was newly instituted in 2009 by an anonymous donor and recognizes an outstanding student who has used music in service to others, particularly at W. O. Smith Community Music School.

THE MARTIN WILLIAMS AWARD was established in memory of Martin Williams, former director of the Smithsonian Institution’s Jazz Program and Adjunct Professor of Jazz History at Blair. It is presented to the student writing the most outstanding class paper during the academic year. The fund continues to grow as gifts honoring Mr. Williams are given to the school.
**Blair School of Music Courses**

Courses are listed in alphabetical order by prefix:

- **COMP:** Composition
- **MCON:** Conducting
- **MENT:** Arts Advocacy, Career Development, and Entrepreneurship
- **MPED:** Pedagogy
- **MREP:** Orchestral Repertoire and Instrument Literature
- **MUED:** Teacher Education
- **MUKH:** Keyboard Harmony
- **MUSC:** Musicanship
- **MUSE:** Ensembles
- **MUSL:** Music Literature and History
- **MUSO:** Other Music Courses
- **MUTH:** Music Theory
- **MWEL:** Musicians' Wellness

Performance Instruction: Group and Individual (by instrument)

**COMP:** Composition

**COMP 1000. Composition Studio Class.** [Formerly Mus O 111C] Weekly observation and participation. r required of all composition majors, including musical arts. Offered on a pass/fail basis. [0] slayton, l ink, Kurek, Michael r ose.

**COMP 1100. Composition Workshop.** [Formerly Mus C 230] Collaborative workshop open to composition majors and non-majors. Includes introduction to compositional techniques, study of composers and their works, principles of scoring, and the study of notation, including experimental types. Prerequisite: Mut H 1210, Mut H 2200, or equivalent skills. Fall . [3] Kurek.

**COMP 2100. Composition (Elective).** [Formerly Mus C 230e] Individual instruction and seminars. A variety of media, styles, and forms. Electronic and experimental techniques. Prerequisite: COMP 1100 and consent of instructor. [variable credit: 1-3 each semester] Kurek, l ink, Michael r ose, slayton.

**COMP 2301. Intermediate Composition I.** [Formerly Mus C 141; COMP 1150] Individual instruction and seminar. A variety of media, styles, and forms. Electronic and experimental techniques. Open only to composition majors; instructor as assigned. [2] Kurek, l ink, Michael r ose, slayton.

**COMP 2302. Intermediate Composition II.** [Formerly Mus C 142; COMP 2200] Individual instruction and seminar. A variety of media, styles, and forms. Electronic and experimental techniques. Open only to composition majors; instructor as assigned. Prerequisite: COMP 2301. [2] Kurek, l ink, Michael r ose, slayton.

**COMP 2303. Intermediate Composition III.** [Formerly Mus C 143; COMP 2300] Individual instruction and seminar. A variety of media, styles, and forms. Electronic and experimental techniques. Open only to composition majors; instructor as assigned. Prerequisite: COMP 2302. [3] Kurek, l ink, Michael r ose, slayton.

**COMP 2304. Intermediate Composition IV.** [Formerly Mus C 144; COMP 2400] Individual instruction and seminar. A variety of media, styles, and forms. Electronic and experimental techniques. Open only to composition majors; instructor as assigned. Prerequisite: COMP 2303. [3] Kurek, l ink, Michael r ose, slayton.

**COMP 4301. Advanced Composition I.** [Formerly Mus C 241a; COMP 4300] Continuation of 2301-2304. Open only to composition majors. a 4th credit may be elected with instructor approval for focused opportunities such as analysis, repertoire study, etc. Prerequisite: COMP 2304. [3-4 each semester] Kurek, l ink, Michael r ose, slayton.

**COMP 4302. Advanced Composition II.** [Formerly Mus C 241b; COMP 4301] Continuation of 2301-2304. Open only to composition/theory majors. a 4th credit may be elected with instructor approval for focused opportunities such as analysis, repertoire study, etc. Prerequisite: COMP 4301. [3-4 each semester] Kurek, l ink, Michael r ose, slayton.

**COMP 4303. Advanced Composition III.** [Formerly Mus C 241c; COMP 4303] Continuation of 2301-2304. Open only to composition majors. a 4th credit may be elected with instructor approval for focused opportunities such as analysis, repertoire study, etc. Prerequisite: COMP 4302. COMP 3978. [3-4 each semester] Kurek, l ink, Michael r ose, slayton.

**COMP 4304. Advanced Composition IV.** [Formerly Mus C 241d; COMP 4304] Continuation of 2301-2304. Open only to composition majors. a 4th credit may be elected with instructor approval for focused opportunities such as analysis, repertoire study, etc. Prerequisite: COMP 4303. [3-4 each semester] Kurek, l ink, Michael r ose, slayton.

**COMP 4970. Senior Composition Recital.** [Formerly Mus C 299] Planning, rehearsing, and performing in a concert devoted solely to a student’s own work. Open only to composition majors. Corequisite: COMP 4303. [1] Kurek, l ink, Michael r ose, slayton.

**MCON:** Conducting

**MCON 3000. Conducting.** [Formerly Mus O 261] An introductory course of study stressing the fundamentals of movement and gesture as they relate to style, articulation, phrasing, tempo, cueing, etc. Score reading at the piano. Prerequisite: Mus C 2200, MuKH 1134 or 2134, and Mut H 2400. Fall . [Prin G. [2] Fountain, P, schneller, verrier.

**MCON 3010. Instrumental Conducting.** [Formerly Mus O 262] Expansion of basic skills to include longer and more complex musical structures; expanded ability in analysis, memorization, and interpretation; significant independent preparation. Prerequisite: MCON 3000 and consent of instructor. [2] Prin G. Fountain.

**MCON 3020. Choral Conducting.** [Formerly Mus O 263] Choral conducting and rehearsal techniques, score reading and analysis, methods, and materials of choral music. Prerequisite: MCON 3000 and consent of instructor. [Prin G. [2] biddlecombe. (Offered alternate years)

**MENT:** arts advocacy, Career development, and entrepreneurship

**MENT 1112. The Business of Music II.** An in-depth study of the rapidly changing entertainment industry and the effects of the digital revolution on the current and historical business models. topics include the record company, music publishing and songwriting, artist management, touring, and concert promotion. Music professionals as guest lecturers. Prerequisite: Ment 1120. [3] Dubois.

**MENT 1130. Building Communities through Music and the Arts.** [Formerly Mus O 106] The philosophical and strategic background for and practical skills in audience-focused and audience-engaged arts
programming. Techniques to make music both accessible and relevant to learners; development of interactive programs and curriculum-directed programs; form, structure, and pacing of programs, including repertoire selection and duration, presentation of music, and participatory experiences. Fall. [1] Korn.

MENT 1135. Arts Administration: Best Practices and Careers in the Arts Organization Marketplace. A study of best practices and development of marketable skills in arts administration. Investigation of arts administration employment opportunities, roles and responsibilities in executive leadership, finances, fundraising, artistic leadership, education, organizational development, and marketing and media. Leading arts institutions are studied as models for arts administration careers and professional advancement. Guest artist administrators will further class discussion and real world application. [1] Korn.

MENT 3880. Music Internship (1 credit). [Formerly Mus O 280a] Academic and research writing related to a corequisite internship experience under the direction of a faculty sponsor. Prerequisite: 2.9 GPA, sophomore standing, and approval of project prospectus by faculty sponsor and by associate dean. May be repeated for credit, up to 1 credit per semester of enrollment. Fall. Special G. [1] Korn.

MENT 3881. Music Internship (3 credit hours). [Formerly Mus O 280b] An extensive academic program of study related to a corequisite internship experience under the direction of a faculty sponsor. Prerequisite: 2.9 GPA, sophomore standing, and approval of project prospectus by faculty sponsor and by associate dean. May be repeated for credit, up to 3 credit hours per semester of enrollment. Fall, s.Prin. G, su MMem. [3]

MENT 3882. Summer Music Internship. [Formerly Mus O 280c] Academic research and writing related to a corequisite internship experience under the direction of a faculty sponsor. Prerequisite: 2.9 GPA, sophomore standing, and approval of project prospectus by faculty sponsor and by associate dean. Offered on a pass/fail basis only. May be repeated for credit, up to 1 credit per semester of enrollment. su MMem. [1] Korn.

MPed: Pedagogy

MPED 3100. Guitar Pedagogy. [Formerly Mus O 268] Principles and procedures of teaching classical guitar. Instructional methods and their applications with different age levels. Attention given to individual and group instruction. Special G. [2] Odd. (Offered alternate years)

MPED 3110. Piano Pedagogy. [Formerly Mus O 266] Principles and procedures of teaching piano. Individual and group instruction techniques observed and discussed. Practicum with private students designed for piano majors; others admitted with consent of instructor. Fall. [2] Krieg. (Offered alternate years)

MPED 3120. Suzuki Violin Pedagogy. [Formerly Mus O 265a] Principles and procedures of teaching violin using the Suzuki violin school, books 1–4. Individual and group instruction techniques observed and discussed. Designed for junior or senior violin/viola students. Violin for class use required. Open by consent of instructor. Fall. [3] (Offered alternate years)

MPED 3140. Woodwind Pedagogy. Principles and procedures of teaching woodwind instruments. Emphasis on pedagogical literature and specific teaching techniques. Prerequisite: b.Mus. students with completion of four semesters of 2100 or 2200 in major instrument, or permission of instructor. [2]

MPED 3870. Pedagogy Practicum. [Formerly Mus O 271] Principles and procedures of private teaching. Reading and research under the direction of a faculty sponsor, consistent with requirements for independent study. Practicum with private students. Consent of the faculty sponsor is required. [r] Repeatable for credit, variable 1-2 hours each semester. Staff.

MPED 3880. Pedagogy Internship. [Formerly Mus O 281] Focused experience in the teaching of performance under the direction of a faculty sponsor in that performance area (consent required). Involves a specific program of regular consultation between student and supervising teacher. Open only to students seeking concentration in pedagogy. Prerequisite: MRE P 3310 or 3311, 3300, 3330, or Mus O 3850 (in field) and MPed 3110, 3100, or 3130 or Mus O 3850 (in field). [r] Repeatable for credit, variable 1-3 hours each semester. Staff.

Mre P: Orchestral repertory and instrument literature

MREP 2130. String and Harp Orchestral Repertoire. [Formerly Mus O 254a] Analysis and coaching of the standard orchestral repertoire, including opera and ballet, with emphasis on style and technical problems. Selected excerpts in like instrument groups (violin, viola, cello, bass, harp). May be repeated for credit. [1] Copely, Iwasaki, Mansell, Einker, Eist, Wanner.

MREP 2141. Saxophone Orchestral and Wind Band Repertoire. exploration of the standard orchestral and wind band repertoire with emphasis on performance practice. Performance of selected excerpts, coached and conducted. not recommended for freshmen. Prerequisite: b.Mus. students or permission of instructor. [1] u.tley.

MREP 3300. Guitar Literature. [Formerly Mus O 258] survey of literature for the classical guitar from the sixteenth century to the twentieth century. Various systems of notation including lute and vihuela are explored. Fall . [2] 1 o.d. (Offered alternate years)

MREP 3310. Piano Literature I. [Formerly Mus O 256a] a survey of works for piano from the seventeenth through the nineteenth centuries, within the context of historical perspective, stylistic awareness, and pianism. designed primarily for piano majors. s Prin G. [2] nies, Wait. (Offered alternate years)

MREP 3311. Piano Literature II. [Formerly Mus O 256b] a survey of works for piano from the nineteenth through the twenty-first centuries, within the context of historical perspective, stylistic awareness, and pianism. designed primarily for piano majors. Fall . [2] nies, Wait. (Offered alternate years)

MREP 3330. Vocal Literature. [Formerly Mus O 259] survey of literature for solo voice from the seventeenth century to the present, with focus on traditional art songs of the great masters of the genre. Prerequisite: Mut H 2300, Musl 2200W. Corequisite: vOIC 4100 or vOIC 4200. Fall . [2] Jarman. (Offered alternate years)

Mue d: t eacher education

MUED 1010. Woodwind Methods. [Formerly Mus 101] development of performance skills and teaching methods for flute, clarinet, oboe, bassoon, and saxophone. includes teaching techniques and problems relative to woodwind instruments, care and minor repairs, and instructional materials. Open only to b.Mus. students; or permission of instructor. Fall . [1] u.tley.

MUED 1020. Brass Methods. [Formerly Mus 102] development of performance skills and teaching methods for trumpet, French horn, trombone, euphonium, and tuba. includes teaching techniques and problems relative to brass instruments, care and minor repairs, and instructional materials. Open only to b.Mus. students; or permission of instructor. s Prin G. [1] beckman.

MUED 1030. Strings Methods. [Formerly Mus 103] development of performance skills and teaching methods for violin, viola, cello, and double bass. includes teaching techniques and problems relative to string instruments, care and minor repairs, and instructional materials. Open only to b.Mus. students; or permission of instructor. Fall . [1] bingham.

MUED 1040. Percussion Methods. [Formerly Mus 104] development of performance skills and teaching methods for snare drum, timpani, mallet instruments, and other percussion instruments. includes teaching techniques and problems relative to all percussion instruments, care and minor repairs, and instructional materials. Open only to b.Mus. students; or permission of instructor. Fall . [1] Wiggins.

MUED 1050. Classroom Instruments Methods. [Formerly Mus 105] development of performance skills and teaching methods for instruments such as recorder, Orff, classroom percussion, and others. includes methods and materials for elementary general music, emphasizing development of children’s ability to sing and play classroom instruments. Open only to b.Mus. students; or permission of instructor. s Prin G. [1] alley.

MUED 1060. Child and Adolescent Voices. [Formerly Mus 106] a study of the vocal development and maturity of children from pre-K through high school with an emphasis on healthy production, pitch-matching skills, learning styles, warm-up exercises, the changing voice in boys and girls, and examples of appropriate literature. Open only to b.Mus. students; or permission of instructor. s Prin G. [1] P. schneller.

MUED 1070. Secondary Instrument Lab. [Formerly Mus 107] development of performance skills and teaching methods on a secondary instrument while in an ensemble setting. includes methodologies prescribed for teaching secondary band and orchestra. Open only to b.Mus. students; or permission of instructor. Prerequisite: Mued 1010 or 1020 and Mued 1030. s Prin G. [1] Perez.

MUED 2110. Seminar in Teaching Choral Literature. [Formerly Mus 211] t eaching techniques and knowledge of choral repertoire as applicable to K12 choral programs. t onal, harmonic, and melodic analysis, score marking and preparation, and classroom concerns. reertoire drawn from the national American Choral directors’ association reading lists, all-tate honor choir lists, and other applicable sources to encompass a broad range of genres, styles, levels of difficulty, ethnicities, and musical periods. Prerequisite: Mut H 2200 and approval of instructor. s Prin G. [2] M. biddlecombe. (Offered alternate years)

MUED 2120. Seminar in Teaching Orchestra. [Formerly Mus 212] instructional strategies for string and full orchestras from the middle school through high school and youth orchestra levels. Topics include rehearsal techniques, repertoire, materials, secondary string class instruction, and performance practices. Prerequisite: Mued 1030 and MCOe 3000, or permission of instructor. s Prin G. [2] Madole. (Offered alternate years)

MUED 2130. Seminar in Orff/Kodaly Methods. [Formerly Mus 213] t eaching general music with emphasis on Orff and Kodaly principles and practices. Planning, instruction, and evaluation using techniques and materials from a variety of sources. Fall . [2] r amsey. (Offered alternate years)

MUED 2140. Seminar in Teaching Jazz Styles. [Formerly Mus 214] Principles and practices for teaching instrumental jazz styles. Rehearsal techniques (including observation), repertoire, jazz education philosophies, and stylistic elements for soloists, combos, and large ensembles. Prerequisite: Mus O 1220 or permission of instructor. s Prin G. [2] Middagh.

MUED 2160. Seminar in Teaching Musicianship. [Formerly Mus 216] Principles and procedures involved in teaching aural musicianship to K12 students, in both private and classroom environments. tecture, discussion and interactive activities that explore musical perception and cognition. Prerequisite: Mus C 2400, Fall . [2] Froger. (Offered alternate years)

MUED 2170. Seminar in Teaching Band. [Formerly Mus 217] Knowledge of repertoire and teaching techniques as applicable to grades 4-12 band programs. r epertoire to be drawn from several states’ standardized lists that employ comprehensive musicianship in teaching and meeting national standards. s Prin G. [2] beckman.

MUED 3870. Practicum in Music Teaching. [Formerly Mus 250a] Observation, participation, and supervised music teaching in a variety of school, grade level, and instructional music settings, designed to integrate and apply musical knowledge and teaching skills developed in the degree program. Weekly seminar included. includes s Mart music studio technology and GarageBand technology. s Prin G. [1] d. Cassel.

MUED 3871. Practicum in Music Teaching II. [Formerly Mus 250b] Observation, participation, and supervised music teaching in a variety of school, grade level, and instructional music settings, designed to
integrate and apply musical knowledge and teaching skills developed within the degree program. Weekly seminar included. Prerequisite: Mued 3870. sPrin G. [1] Perez.

MUED 3872. Practicum in Music Teaching III. [Formerly Must 250C] Observation, participation, and supervised music teaching in a variety of school, grade level, and instructional music settings, designed to integrate and apply musical knowledge and teaching skills developed within the degree program. Weekly seminar included. Prerequisite: Mued 3871 and any two from Mued 2110-2170. sPrin G. [1] t. biddlecombe, Perez.

MUED 3880. Experiential Instruction in Music I. Field-based experience with a precollege ensemble or university band organization. Experience will include classroom preparation, leading sectional or portions of rehearsals, and/or other appropriate activities as assigned by the lead teacher. attendance at culminating performance is required. .5 t. biddlecombe.

MuKH: Keyboard Harmony

MUKH 1131. Keyboard Harmony I. [Formerly Mus C 131a] development of basic technique, reading proficiency, elementary transposition, diatonic harmony at the keyboard. Prerequisite: Placement test. not open to students who have completed MuKH 2133 or 2134. [1] Middleton, Williams.

MUKH 1132. Keyboard Harmony II. [Formerly Mus C 131b] development of basic technique, reading proficiency, elementary transposition, diatonic harmony at the keyboard. Prerequisite: Placement test or MuKH 1131. not open to students who have completed MuKH 2133 or 2134. [1] Koutsoukos.

MUKH 1133. Keyboard Harmony III. [Formerly Mus C 132a] Harmonization of melodies, improvisation of small musical forms, transposition in all keys with cadences and modulations, four-part score reading. Prerequisite: Mu KH 1132. strongly recommended: C- or above in 1132. not open to students who have completed MuKH 2133 or 2134. [1] Koutsoukos.

MUKH 1134. Keyboard Harmony IV. [Formerly Mus C 132b] Harmonization of melodies, improvisation of small musical forms, transposition in all keys with cadences and modulations, four-part score reading. Prerequisite: Mu KH 1133. strongly recommended: C- or above in 1133. not open to students who have completed MuKH 2133 or 2134. [1] Koutsoukos.

MUKH 2133. Accelerated Keyboard Harmony I. [Formerly Mus C 133a] Functional skills are reinforced with pedagogy, music theory, harmony, and ear training. Topics include improvisation, musical styles, and computer Midi technology. For keyboard majors or by consent of instructor. Prerequisite: Placement test. not open to students who have completed MuKH 1131-1132 or 1133-1134. Fall . [2] Krieger.

MUKH 2134. Accelerated Keyboard Harmony II. [Formerly Mus C 133b] intensive study of materials presented in MuKH 2133. Prerequisite: MuKH 2133. strongly recommended: C- or above in 2133. not open to students who have completed 1133, 1134. sPrin G. [2] Krieger.

MUSC: Musicianship

MUSC 2100. Musicianship Level I. [Formerly Mus C 170e] examination of the sound properties of pitches, intervals and rhythms and their notation in real time. Focus is on diatonic scales and modes. I ects, discussion, real-time listening experiences, dictation, sight-singing, score reading, and improvisation are integrated throughout the course. Corequisite: Mut H 2100. Fall . [1] McGuire, Williams.

MUSC 2200. Musicianship Level II. [Formerly Mus C 171e] Continuation of Musicianship I level I. Focus on the employment of pitches, intervals and rhythms in functional tonal contexts. I ects, discussion, real-time listening experiences, dictation, sight-singing, score reading, and improvisation are integrated throughout the course. Prerequisite: MUSC 2100; corequisite: Mut H 2200. sPrin G. [1] McGuire, Williams.

MUSC 2300. Musicianship Level III. [Formerly Mus C 172e] Continuation of Musicianship II. Focus on tonal modulation and chromaticism. I ects, discussion, real-time listening experiences, dictation, sight-singing, score reading, and improvisation are integrated throughout the course. Prerequisite: MUSC 2200; corequisite: Mut H 2300. Fall . [1] McGuire.

MUSC 2400. Musicianship Level IV. [Formerly Mus C 173e] Continuation of Musicianship III. Focus on the employment of pitches, intervals and rhythms in non-tonal contexts. I ects, discussion, real-time listening experiences, dictation, sight-singing, score reading, and improvisation are integrated throughout the course. Prerequisite: MUSC 2300; corequisite: Mut H 2400. sPrin G. [1] McGuire.

MUSC 3107. Advanced Musicianship VII. [Formerly Mus C 273e] a continuation of techniques studied in MUSC 3106. Hearing in tonal and atonal music, including extended harmonic and melodic structures, complex rhythmic elements, and score reading. discussion of pedagogical approaches to teaching aural studies. Prerequisite: MUSC 3106. Fall . [1] Ploger.

MUSC 3108. Advanced Musicianship VIII. [Formerly Mus C 274e] a continuation of techniques studied in MUSC 3107. Hearing in tonal and atonal music, including extended harmonic and melodic structures, complex rhythmic elements, and score reading. discussion of pedagogical approaches to teaching aural studies. Prerequisite: MUSC 3107. sPrin G. [1] Ploger.

MUSC 3109. Musicianship: Brahms and Romanticism; Solo and Small Chamber Works. [Formerly Mus C 276e] a study of skills needed to perform, aurally comprehend and mentally analyze the solo vocal and instrumental plus small chamber works for strings, winds and keyboard of brahms, with comparative studies of works of schumann and Chopin. I ects, discussion, guided listening exercises, class performance participation and score reading. Prerequisite: MUSC C 2400. [1] Ploger. (not currently offered)

Muse: ensembles

All MUSE courses are repeatable. Students may accrue up to 6 credit hours per semester of enrollment.

MUSE 1010. Instrumental Ensembles. [Formerly Muse 101] Open by audition to all vanderbilt students. Musicians participate in orchestra, wind ensembles, and/or a variety of smaller ensembles on a rotational basis through the course of the semester. Performances include symphonic repertoire from the Classical and r omantic periods as well as standard and new repertoire from baroque to Contemporary, at least three formal concerts are presented each semester. [1] Fountain, verrier.

MUSL 3213. Artist, Community, and Democracy. Communities of diverse artists, minority viewpoints, and cultural pluralism in a democra- tic society. Contemporary united states with cross-cultural and his- torical comparisons. [3]

MUSL 3220. Opera in the 17th and 18th Centuries. [Formerly Musl 221a] in-depth study of five or six representative works. s core and libretto analysis, reception history, cult of the performer, role of the contemporary producer-director. b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. n ot open to students who completed Musl 221 prior to fall 2011. Fall . [3] Calico.

MUSL 3221. Opera in the 19th Century. [Formerly Musl 221b] in-depth study of five or six representative works. s core and libretto analysis, reception history, cult of the performer, role of the contemporary producer- director. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. s erves as repeat credit for Musl 221. Fall . [3] Calico.

MUSL 3222. Mahler Symphonies: Songs of I rony. [Formerly MUSL 222] an exploration of large orchestral works of Gustav Mahler emphasizing their demonstration of the synthesis of sympathy and song and their reflection of nineteenth-century German philosophies of irony. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. Fall . [3] Cyrus, l ove, s hadle. (Offered alternate years)

MUSL 3224. Haydn and Mozart. [Formerly MUSL 224] an in-depth look at the music of Haydn and Mozart in cultural and social contexts. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. Fall . [3] Cyrus.

MUSL 3225. Brahms and the Anxiety of Influence. [Formerly MUSL 225] a study of brahms’ large-scale orchestral works and other selected literature from the perspective of ‘influence.’ Musical relationships to Couperin, J. s. bach and sons, beethoven, Wagner, schoenberg and others. t opics include brahms’ self-image; brahms as conductor, performer and editor; stylistic fingerprints; popular and folk elements; brahms and later composers; his relationship to Clara; the Wagner- brahms debate. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 2100; or permission of instructor. Fall . [3] Cyrus. (Offered alternate years)

MUSL 3226. The String Quartet. [Formerly MUSL 226] an intensive exploration of the string quartet. t opics for discussion include origins and history of the genre, rhetoric, audience, reception, interpretation, and performance practice. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. Fall . [3] Cyrus.

MUSL 3227. Music in the Age of Beethoven and Schubert. [Formerly MUSL 227] a study of分数 composers; his relationship to Clara; the Wagner- brahms debate. Prerequisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. Fall . [3] Cyrus.

MUSL 3228. J.S. Bach: I earned Musician & virtual t raveller. [Formerly MUSL 228] explores the life and works of high baroque composer J.s. bach, who developed a highly cosmopolitan, erudite musical style. Course will include structural and stylistic analysis and also will address biography, cultural context, and performance practice. Prereq-uisite: b.Mus. students and second majors, Musl 2200W, 2100, and 3100; music minors, Musl 2200W or 1200; or permission of instructor. s Prin G. [3] l ove.

MUSL 3229. Robert Schumann and the Romantic Sensibility. [For- merly MUSL 229] an exploration of the o berti schumann’s music and criti- cism within the context of German r omanticism. b.Mus. students and
second majors, Mus 2200W, 2100, and 3100; music minors, Mus 2200W or 1200; or permission of instructor. Fall. [3] I. Oyewoshiber.

MUS 3230. Music and the Construction of National Identity. [Formerly Mus 230] Music and the Construction of national identity. [Formerly Mus 230] an in-depth exploration of the tools used to construct national musical identities during the long nineteenth century (ca. 1789-1914), including compositional style, performance techniques, and music criticism. addresses topics from Western Europe, Eastern Europe, and America. Prerequisite: b.Mus. students and second majors: Mus 2200W, 2100, and 3100; music minors: Mus 1200 or 2200W; or permission of instructor. s Prin G. [3] III. Sadle.

MUS 3231. The Art of Program Music: Tone Painting and Symphonic Poetry. An in-depth exploration of the style, philosophical basis, and possible meanings of program music, broadly defined. Examples will be taken from the sixteenth century to the present with a focus on the long eighteenth century (1789-1914). Prerequisite: b.Mus. students and second majors: Mus 2200W, 2100, and 3100; music minors: Mus 2200W or 1200; or permission of instructor. [3] I. Sadle.

MUS 3232. God, Sex, and Politics in Early Music. An exploration of the intersecting topics of religious practice, love and sexuality, and power structures in early music. Students will gain familiarity with many of the major currents, cultures, composers, and contexts of Western European music from ca. 1100-1650. In addition to the primary themes of the course, we will entertain such other musically relevant topics as mathematics, early music theory, mysticism, the role of women in early music, the development of notation, and questions of performance and interpretation. Prerequisite: b.Mus. students and second majors, Mus 2200W, 2100, and 3100; music minors, Mus 2200W or 1200; or permission of instructor. [3] I. I. Sadle.

MUS 3810. Academic Research and Writing in Music. [Formerly Mus 288] Intensive development of a musicology research project already in progress (such as a term paper, grant proposal, etc.). Focus on research methods in musicology and effective academic writing. Instruction centers on peer review and editing, guided research, and analysis of research, writing, and editing processes. Students will also develop an academic curriculum vita. Projects must be approved by the instructor before students register. Prerequisite: Mus 2200W or permission of the instructor. May be repeated once for credit. [3] (Not currently offered)

MUS 3850. Independent Study. [Formerly Mus 289] Development and execution of a program of study in musicology or ethnomusicology under the direction of a member of the department. (See academic regulations section.) [Repeatable credit, variable up to 3 hours per semester] Musicology faculty.

MUS 3890. Selected Topics in Music History. [Formerly Mus 294] Selected methodological approaches focused on a particular topic. Offerings have included “Music and the American Presidency,” “schoenberg and the Word,” “Mingus, Monk, and Miles: Jazz biography and Jazz Composition,” “s tophen Ondine and the American Musical,” and “Mozart Piano Concertos.” Prerequisite: varies by topic. May be repeated for credit when topics vary. [3] Musicology faculty.

MUS 4978. Senior Thesis. [Formerly Mus 298] Completion of an extended paper based in musicological or ethnomusicological research under the supervision of a faculty sponsor. Progress monitored via tutorials. Open only to seniors. Prerequisite: Mus 3100. [Variable credit, 1-3 hours each semester; may be repeated once] Musicology faculty.

MUS 4998. Senior Honors Thesis. [Formerly Mus 299a] Independent research on a musicological or ethnomusicological topic, culminating in a written thesis submitted to the faculty. Progress monitored via tutorials. Students completing this course with distinction, including a thesis and an oral defense, will earn honors or highest honors in music literature and history. Open only to students in the department honors program. Prerequisite: departmental approval of formal prospectus. [3] Musicology faculty.

MUS 4999. Senior Honors Thesis. [Formerly Mus 299b] Independent research on a musicological or ethnomusicological topic, culminating in a written thesis submitted to the faculty. Progress monitored via tutorials. Students completing this course with distinction, including a thesis and an oral defense, will earn honors or highest honors in music literature and history. Open only to students in the department honors program. Prerequisite: departmental approval of formal prospectus. [3] Musicology faculty.

Music: Other Music Courses

MUSO 1000. Recital Attendance. [Formerly Mus O 108] Weekly recitals in solo and chamber music settings, presented by students enrolled for performance instruction, and six additional faculty/student recitals and concerts. rquired of all music degree (b.Mus.) students. (See academic regulations section of catalog.) Offered on a pass/fail basis. [0] Melissa Ouse.

MUSO 1001. Commons Seminar. [Formerly Mus O 099] Open to first-year students of all four undergraduate schools. Topics approved by blair faculty. Students may propose topics through the associate dean. No credit toward a major or minor in music. General elective credit only. Fall. [1] S. Taff.

MUSO 1130. Percussion Seminar. [Formerly Mus O 153] Overview of percussion in Western and non-Western cultures from pre-history to present. emphasis on European/american orchestral practices. r presentative works for study chosen from symphony, opera, oratorio, and other orchestral/choral sources. Fall. [1] Jung.

[Formerly Mus O 117] Aspects of period instrument performance adaptable to modern instruments and modern bows. articulation, ornamentation, the rule of the down-bow, the influence of dance, and other technical and stylistic issues. Baroque bow provided. Culminates in a lecture-performance. May be repeated for credit. [1] (Not currently offered)

MUSO 1221. Jazz improvisation II: The Great American Songbook. Intermediate study techniques for jazz improvisation. In-depth study of rhythm changes, the Great American Songbook, and jazz standards. Introduction to re-harmonization techniques. Prerequisite: Mus O 1220. [1]

MUSO 1222. Jazz Improvisation III: Post-bop and Beyond. Advanced study in techniques for jazz improvisation. In-depth study of contemporary jazz compositions, structured- and free-forms, and original student compositions. Prerequisite: Mus O 1220 and Mus O 1221. [1]
MUSO 1230. Advanced Lyric Writing for Songwriters. Designed to help students find their unique voice as lyricists through lecture, reading, exercises, discussion, and lyric analysis. Designed for songwriters with experience in song form, rhyme and rhyme scheme, and lyrical rhythm. Does not count toward a major or minor in music. Prerequisite: Mut H 1125, or permission of instructor. [1] blackmon.

MUSO 1300. Music and the Fall of Segregation. [Formerly Mus O 154] A study of how music, specifically swing and jazz from the 1930s and '40s, rock & roll and rhythm & blues in the 1950s, and soul music in the 1960s, impacted segregation and the Civil rights Movement. Case studies and personal reflections from the perspective of a studio musician, record producer, and record company executive. Films, recordings, and oral histories of artists and producers. Fall , s Prin G. [3] (not currently offered)

MUSO 1340. Technology for Musicians. An introduction to music-related computer technology essential to the contemporary musician, including computer music notation and the basic principles of MIDI/audio recording in a digital audio workstation. Prerequisite: B.Mus. students and declared music minors/second majors, or permission of instructor; corequisite for B.Mus. students: Mut H 2100. [1] alazar.

MUSO 1342. Fundamentals of Digital Audio. An introduction to the fundamental concepts of using a digital audio Workstation, including sequencing MIDI, recording and editing audio, and mixing full songs. Prerequisite: Mus O 1340 or permission of instructor. [1] alazar.

MUSO 1350. Computer Recording Technology Seminar. [Formerly Mus O 102] The digital recording revolution. r. recording, editing, and mixing music, using both audio and MIDI sequencing data inside the computer. r emixing techniques with universal plug-in software. sampling, synthesis, and dissection of studio projects. Fall , s Prin G. [2] Wilder. (not currently offered)

MUSO 1410. Diction for Singers: German. [Formerly Mus O 159C] High German diction, using the international Phonetic alphabet. Prerequisite: Mus O 1400 or permission of the instructor. s Prin G. [1] Montgomery.

MUSO 2100. Music Criticism and Writing. [Formerly Mus O 200] A practical guide to writing professional music criticism. r eddings include selected writings of the great critics, literary authors, program annotators and bloggers. Assignments involve writing exercises, written reviews and program notes. Difference in style among classical, jazz and rock critics will be considered. Prerequisite: Musl 2200W and Musl 2100, or permission of instructor. Fall . [2] Pitcher.

MUSO 2200. The Movement of Line. By examining in detail interrelated examples from calligraphy, drawing, verse, and music, this course seeks to discover common elements of concept and construction in diverse forms of linear movement. s phomere standing and an ability to read a single line of music required. [3] Carl s mith.

MUSO 3000. Collaborative Composition in London. [Formerly Mus O 230] Exchange program with the Royal Academy of Music, London. Collaborative workshop between student composers and performers at both schools, with faculty mentorship. I ravel to London over spring break (vouchers available), hosting of r M students at blair the following week. enrollment by audition. s Prin G. [1] Michael r orse and Peter sheppard s kaerded (ra M). (Offered alternate years)

MUSO 3010. Performance in Practice, IES Vienna. [Formerly Mus O 231] Open by audition to students in the IES Vienna program. t he workshop is designed to offer vocalists and instrumentalists the opportunity to expand repertoire and enhance performance skills. r ehearsal and discussion of aspects of selected works in relation to the challenge of performance. May be repeated once for credit. [2] staff.

MUSO 3100. Music and Cognition. Theories and research about the cognition of music, appreciation, and performance. Selected musical topics include timbre, consonance, dissonance, tuning, melody, rhythm, scales, modes, chords, and composition. Concepts and research from the psychological sciences emphasize sensory mechanisms, perceptual discriminations, pattern recognition, categorization, transfer of learning, and motor coordination. Prerequisite: One course in music or psychology. [3] bingham.

MUSO 3850. Independent Study. [Formerly Mus O 289] Development of a project or a program of reading under the direction of a faculty sponsor. Consent of the faculty sponsor is required. s see academic r egulations section.) [r epeatable for credit, variable up to 3 hours per semester] s taff.

MUSO 3970. Junior Recital. [Formerly Musr 295] Students are encouraged to prepare a joint recital, shared with another degree candidate. s ee blair academic r egulations section of the undergraduate Catalog for detailed requirements. Open by permission of instructor. [1]

MUSO 4970. Senior Recital. [Formerly Musr 299] s ee blair academic r egulations section of the undergraduate Catalog for detailed requirements. Open by permission of instructor. [1]

MUSO 4972. Jazz Concentration Recital. s ee blair academic regulations section of the undergraduate Catalog for detailed requirements. Open by permission of instructor. [1]

MUT H: Music theory

MUTH 1120. Songwriting and Elements of Music Theory. [Formerly Mus C 100] Introduction to fundamental elements of music as they apply to popular songwriting techniques. Selected readings on the technical and aesthetic facets of songwriting. I listening analysis and discussion of songs in a variety of current styles, selected aural skills as they relate to the songwriter's craft. Class visits by successful songwriters. Designed for students with little or no technical training in music. Does not count toward a major or minor in music. May be repeated once for credit. Prerequisite: Mut H 1120. Fall , s Prin G. [3] Walker.

MUTH 1125. Songwriting II. [Formerly Mus C 102] Project-based class designed to refine and advance skills developed in Mut H 1120. Focuses on effective musical and lyrical thematic treatment. Extensive study of rewriting techniques; frequent performances of student compositions. Selected readings on the technical and aesthetic facets of songwriting. I listening, analysis, and discussion of songs in a variety of current styles. Occasional Monday night sessions with guest songwriters and experts in the field. Does not count toward a major or minor in music. May be repeated once for credit. Prerequisite: Mut H 1120. Fall , s Prin G. [3] Walker.

MUTH 1130. Nashville Number System for Songwriters/Performers. [Formerly Mus C 104] Designed for songwriters and practitioners who may not read traditional music, introduction to intervals, major and minor scales, chords and chord extensions, inversions, time signatures, note values, the Nashville number system, song forms, charting original songs and classic hits. Includes observation and discussion of studio work. Does not count toward a major or minor in music. Fall . [1] blackmon.

MUTH 1135. Mozart. [Formerly Mus C 118] T he music of Wolfgang amadeus Mozart. T echniques for listening to different genres of classical music, emphasis on style and structure, music theory and history, and Mozart's life and character. n o musical background assumed. Does not count toward major or minor in music. s Prin G. [3] bingham. (not currently offered)

[Formerly Mus C 120a] Presents 18th- to 20th-century harmonic practice, designed to develop music theory skills through written exercises of figured and unfigured basses; harmonization of melodies; and study of ear training, using sight-singing exercises and melodic and harmonic dictation. Not open to students who have completed Mut H 2100 or 2200. Does not count toward a major in music. [3] bingham.

MUTH 1210. Survey of Music Theory. [Formerly Mus C 120b] Presents 18th- to 20th-century harmonic practice, designed to develop music theory skills through written exercises of figured and unfigured basses; harmonization of melodies; and study of ear training, using sight-singing exercises and melodic and harmonic dictation. Prerequisite: Mut H 1200. Not open to students who have completed Mut H 2100 or 2200. Does not count toward a major in music. [3] bingham.

MUTH 2100. The Syntax of Music. [Formerly Mus C 170] Basic elements of music and notation (including computer notation), introduced through a wide variety of styles. Includes non-tonal and non-Western repertoire. r enforcement of the elements of Mus C 2100/Musicianship I level throughout. b.Mus. students enrolled in Mut H 2100 should also be enrolled in Mus O 1340. Corequisite: Mus C 2100. Fall . [2] deakin, s. layton, Carl s mith.

MUTH 2300. Repertoire Analysis. [Formerly Mus C 172] A study of diverse and interrelated harmonic, melodic, rhythmic, and structural aspects of the musical repertoire from the common practice era. Approaches to understanding various historical styles through composition and through analysis and interpretation of representative works from each era. Includes study of invention and fugue. Prerequisite: C- or above in Mut H 2200; corequisite: Mus C 2300. Fall . [2] Michael r ose, Kurek, I ink, s. layton.

MUTH 2400. Musical Expansion: the Twentieth Century to the Present. [Formerly Mus C 173] A study of r oman tic, modernist, and postmodern compositional practices, including freely chromatic and non-functional harmony, ordered and unordered sets, post-tonal formal design, contemporary rhythmic devices, indeterminacy, and quotation. Prerequisite: C- or above in Mut H 2300; corequisite: Mus C 2400. s Prin G. [3] I ink, Kurek, Michael r ose, s. layton.

MUTH 3100. Individual Theory Instruction (Elective). [Formerly Mus C 227] Individual instruction and seminars. Core analysis and study-style composition. Prerequisite: Mut H 2400 and consent of instructor. May be repeated for credit. [variable credit: 1-3 each semester] Music theory faculty.

MUTH 3130. Techniques of Choral Composition. [Formerly Mus C 223] Technical and aesthetic considerations involved in arranging and composing for combinations of voices, from two-part to larger choral ensembles, accompanied and unaccompanied. Core analysis and composition projects. Prerequisite: Mut H 2200 or consent of instructor. s Prin G. [3] Carl s mith. (Offered alternate years)

MUTH 3150. Early Keyboard Literature. [Formerly Mus C 255] Keyboard music from the late fifteenth to the early eighteenth century. Compositional techniques and performance practices; study of period instruments; literature for clavichord, harpsichord, organ, and fortepiano. Fall . [2] Carl s mith. (Offered alternate years)

MUTH 3160. Counterpoint: 16th Century Principles. [Formerly Mus C 261] Techniques for handling independent musical lines according to sixteenth-century principles. Species counterpoint in two voices, composition in three and four voices, and in non-modal and freely tonal styles, but not high baroque style. Prerequisite: Mut H 2200. s Prin G. [3] Carl s mith. (Offered alternate years)

MUTH 3170. Techniques of Composing for Media. Techniques for effective composing for media such as film, television, games, and internet, including composing with virtual instruments, digital audio mixing and synchronizing to video. Creation of a 5-7 minute original sound track or film composing demo reel. Prerequisite: COMP 1100 or Mut H 2400 or permission of instructor. Fall . [2] Kurek.

MUTH 3200. Chromatic Harmony in the Romantic Era. [Formerly Mus C 226] Intensive analysis of challenging standard repertoire by three generations of r oman tic composers, whose ingenious extensions of Classic period strategies of tonal organization require interpretive tools beyond the scope of the core theory curriculum. Investigation of both large and small forms. Focus on relationships between harmonic and structural symmetries. Prerequisite: Mut H 2400. [3] Michael r ose. (Offered alternate years)

MUTH 3210. Post-tonal Analysis. [Formerly Mus C 225] Exploration of the post-tonal analytical techniques through intensive study of selected works of composers from the early 20th century to the present, including Debussy, Scriabin, Schoenberg, Berg, Webern, Stravinsky, Copland, Dallapiccola, Boulez, Cage, Berio, Feldman, I achenmann. Prerequisite: Mut H 2400 or permission of instructor. s Prin G. [2] s. layton. (Offered alternate years)

MUTH 3220. Musical Explorations: Bartók. [Formerly Mus C 280] Indepth study of the life and music of Béla Bartók; includes detailed investigation of salient theoretical concepts, formal structures, and the composer’s integration of various regional folk musics into his own works. Prerequisite: Mut H 2400 or permission of instructor. s Prin G. [2] s. layton.

MUTH 3890. Special Topics in Music Theory. [Formerly Mus C 294] Advanced study in theory, focused on various topics from year to year, including such areas as advanced counterpoint, analysis of a specific composer, schenkerian analysis, etc. Prerequisite: varies by topic. [2 or 3, as listed] Kurek, I ink, Michael r ose, s. layton, Carl s mith.

MWel: Musicians’ Wellness

MWEL 1121. The Alexander Technique II. [Formerly Mus O 162b] Further exploration of the principles of the technique applied to daily activities and developmental movement. Emphasis on individual experiences within the context of the class. Offered on a pass/fail basis only. Prerequisite: MWel 1120. Fall , s Prin G. [1] ahner.

MWEL 1130. Meditation for Musicians. [Formerly Mus O 164] A practice-centered approach helps students develop a regular meditation routine. Each weekly session involves meditation, in-class reading, listening, and performance. Prerequisite: Open to music majors and minors. Offered on a pass/fail basis. Fall , s Prin G. [1] joshua mcguire.

MWEL 2120. The Performer and the Body. [Formerly Mus O 163] application of the alexander technique in a small group setting with attention to individuals and their particular performance modes, i.e., public speaking, singing, dancing, acting, playing an instrument. Offered on a pass/fail basis. May be repeated once for credit. Prerequisite: MWel 1120. Fall, sPrin G. [1] Ahner.

Group Performance instruction

FDLL 1010. Introduction to Fiddle I. [Formerly Mus P 107a] designed for those with no experience in fiddle playing. t technical, stylistic, and historical elements involved in fiddling, as well as basic notation and idiomatic techniques. Fees apply to non-b.Mus. students. [1] Combs, Plohman.

GTR 1010. Introduction to Guitar I. [Formerly Mus P 104a] a foundation in basic guitar technique that will prepare students for future studies in classical, jazz, or popular styles of guitar. emphasis on chordal accompaniment, development of reading skills, improvisational techniques with melodies and chords. One 50-minute group lesson weekly. Fees apply to non-b.Mus. students. [1] Phillips.

GTR 1020. Introduction to Guitar II. [Formerly Mus P 104b] a foundation in basic guitar technique that will prepare students for future studies in classical, jazz, or popular styles of guitar. emphasis on chordal accompaniment, development of reading skills, improvisational techniques with melodies and chords. One 50-minute group lesson weekly. Prerequisite: Gtr 1010 or permission of instructor. Fees apply to non-b.Mus. students. [1] Phillips.

PERC 1010. Introduction to Percussion. [Formerly Mus P 105a] basic percussion techniques with emphasis on rolls, embellishments, sticking combinations, and their applications for concert and popular musical styles. Prerequisite: Previous musical experience and an understanding of notation. One 50-minute group lesson weekly. Fees apply to non-b.Mus. students. [1] Wiggins.

PIAN 1010. Introduction to Piano I. [Formerly Mus P 102a] a total-musicianship approach to the piano. et repertoire, technique, and sight reading are studied. also includes the study of transposition, harmonization, and improvisation. One 50-minute group lesson weekly. Fees apply. n ot open to b.Mus. students. Fall , sPrin G. [1] Wade.

PIAN 1020. Introduction to Piano II. [Formerly Mus P 102b] a total-musicianship approach to the piano. et repertoire, technique, and sight reading are studied. also includes the study of transposition, harmonization, and improvisation. One 50-minute group lesson weekly. Prerequisite: Plan 1010 or permission of instructor. Fees apply. n ot open to b.Mus. students. Fall , sPrin G. [1] Wade.

STPN 1010. Introduction to Steel Pan/Drum. [Formerly Mus P 109a] designed for those with no experience in playing steel pan/drum. a foundation of basic techniques, Caribbean song styles (Calypso, soca, r eggae), history and development of the steel band art form, and cultural awareness. One 60-minute group lesson weekly. Fees apply to non-b.Mus. students. Fall , sPrin G. [1] Britain.

VLA 1010. Viola for Violinists. [Formerly Mus O 116] t technical principles, practices, and strategies for violinists learning viola. investigation of solo and chamber music repertoire; historical evolution of the viola. viola provided. Prerequisite: approval of violin instructor and course instructor. Fall , sPrin G. [1] Plummer.

individual Performance instruction

Courses are repeatable. Students may accrue up to 4 credit hours per semester of enrollment.

BASS 1100. Double Bass (elective/ minors/ second majors). [Formerly Mus P 185] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] r eist, Wanner.

BRQ 1100. Baroque Strings. individual instruction focused on the art and practice of baroque violin, viola, cello, or bass, with emphasis on tone quality, technique, rhythm, interpretation, and literature. [1-2]

BSSN 1100. Bassoon (elective/minor/second major). [Formerly Mus P 175] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. n ew students by interview only. Fees apply to non-b. Mus. students [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] brown.

CLLO 1100. Cello (elective credit and General Music Minors). [Formerly Mus P 184] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Cassel, Mansell, Wang.

DLCM 1100. Dulcimer. [Formerly Mus P 194] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] d. Phillips.

DRUM 1100. Drumset (elective credit). [Formerly Mus P 180a] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] d. Phillips.

FFDL 1100. Fiddle. [Formerly Mus P 192] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Combs, Plohuman.

FLUT 1100. Flute (elective/music minors/2nd majors). [Formerly Mus P 171] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Wang, dunnivant.

GTR 1030. Fingerboard Harmony. [Formerly Mus D 114] individual instruction in advanced guitar skills: modal positions, modal patterns, score reading, arpeggios, transposition, and chord progressions. Fees apply to non-b.Mus. students. Prerequisite: GTR 1020 or permission of instructor. F all , s Prin G. [1-2 variable hours, based on lesson length as agreed on with instructor] Phillips.

GTR 1100. Guitar (elective/minor/second major). [Formerly Mus P 188] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] t odd, Phillips.

GTR 2100. Guitar (Musical Arts Freshmen/Sophomores). [Formerly Mus P 188] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to b.Mus. musical arts majors. [2] t odd.

GTR 2200. Guitar (Performance Majors Freshmen/Sophomores). [Formerly Mus P 188] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique,
rhythm, interpretation, and literature. Open only to freshman and sophomore performance majors. [4] t.odd.

GTR 4100. Guitar (Musical Arts Juniors/Seniors). [Formerly Mus P 288] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to musical arts juniors and seniors. [2] t.odd.

GTR 4200. Guitar (Performance Majors Juniors/Seniors). [Formerly Mus 288] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to junior and senior performance majors. Prerequisite: successful completion of upper divisional hearing. [4] t.odd.

HARP 1100. Harp (elective/minor/second major). [Formerly Mus P 181] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Copely.

HARP 2100. Harp (Musical Arts Freshmen/Sophomores). [Formerly Mus P 281] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to B.Mus. musical arts majors. [2] Copely.

HORN 1100. Horn (elective/minor/second major). [Formerly Mus P 176] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] norton.

HRPS 1100. Harpsichord. [Formerly Mus P 193] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] brecht, s.mith.

JAZZ 1100. Jazz Private Instruction. [Formerly Mus O 133] Private instruction on standard jazz instruments and voice. r epertory and techniques chosen to meet individual needs. Open by audition. Pr i vate lesson fees apply to non-b.Mus. students. May be repeated for credit. Fail , s Prin G. [variable credit: 1-2 each semester. Multiple section enrollment possible. s tudents may accrue up to 6 credit hours per semester of enrollment.] dudley, watson, kimbrough, d. phillips, s.pencer.

JAZZ 1150. Jazz and Commercial Arranging. individual instruction in jazz and commercial arranging, content ranging from lead sheet writing to studio orchestra. r epertory and techniques chosen to meet indi vidual needs. [1-2] middagh.

MDNL 1100. Mandolin. [Formerly Mus P 195] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Pearcy.

OBOE 1100. Oboe (elective/minor/second major). [Formerly Mus P 172] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Hauser, Wiesmeyer.

ORGN 1100. Organ (elective/minor/second major). [Formerly Mus P 187] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. n ew students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] brecht, s.mith.

ORGN 4100. Organ (Musical Arts Juniors/Seniors). [Formerly Mus P 287] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to musical arts juniors and seniors. [2] s.mith.

of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to junior and senior performance majors. Prerequisite: successful completion of upper divisional hearing. [4] s.mth.

PERC 1100. Percussion (elective/minor/second major). [Formerly Mus P 180] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Jung, Wiggins.

PERC 4100. Percussion (Musical Arts Juniors/Seniors). [Formerly Mus P 280] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Specialized study in drumset, jazz vibraphone or contemporary marimba is available. Open only to musical arts juniors and seniors; and for elective credit to percussion performance juniors and seniors. [2] Jung.

PIAN 1100. Piano (elective/minor/second major). [Formerly Mus P 186] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Conner, Coplan, dorfman, Hwang, Krieger, Middleton, nies, r eagan, Walker, Williams.

RCRD 1100. Recorder (elective credit). [Formerly Mus P 196] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] (not currently offered)

SAX 1100. Saxophone (elective/minor/second major). [Formerly Mus P 174] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] utley.

STPN 1100. Steel Drum. [Formerly Mus P 198] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open for elective credit. Fees apply to non-b.Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] britain.

TRPT 1100. Trumpet (elective/minor/second major). [Formerly Mus P 177] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply

TRPT 2200. Trumpet (Performance Majors Freshmen/Sophomores). [Formerly Mus P 177] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to freshman and sophomore performance majors. [4] i baj.

TRPT 4100. Trumpet (Musical Arts Juniors/Seniors). [Formerly Mus P 277] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to musical arts juniors and seniors. [2] i baj.

TRPT 4200. Trumpet (Performance Majors Juniors/Seniors). [Formerly Mus P 277] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to junior and senior performance majors. Prerequisite: successful completion of upper divisional hearing. [4] i baj.

TUBA 1100. Tuba (elective/minor/second major). [Formerly Mus P 179] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] I ong.

TUBA 2100. Tuba (Musical Arts Freshmen/Sophomores). [Formerly Mus P 179] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to b.Mus musical arts majors. [2] I ong.

TUBA 2200. Tuba (Performance Majors Freshmen/Sophomores). [Formerly Mus P 179] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to senior performance majors. Prerequisite: successful completion of upper divisional hearing. [4] I ong.

TUBA 4100. Tuba (Musical Arts Juniors/Seniors). [Formerly Mus P 279] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to musical arts juniors and seniors. [2] I ong.

TUBA 4200. Tuba (Performance Majors Juniors/Seniors). [Formerly Mus P 279] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. Open only to junior and senior performance majors. Prerequisite: successful completion of upper divisional hearing. [4] I ong.

VOIC 1100. Voice (elective/minor/second major). [Formerly Mus P 182] individual instruction focused on the art and practice of the instrument, with emphasis on tone quality, technique, rhythm, interpretation, and literature. New students by interview only. Fees apply to non-b. Mus. students. [1-2 variable credit hours, based on lesson length and repertoire as agreed on with instructor] Huebl, Miahky, McGann.

Performance Classes
All courses are repeatable.

PERC 1000. Percussion Performance Class. [Formerly Mus O 110g] Weekly observation and participation. Required of all percussion majors, performance and musical arts. Offered on a pass/fail basis. [0] Jung.

TRPT 1000. Trumpet Performance Class. [Formerly Mus O 110a] Weekly observation and participation. Required of all trumpet and horn majors, performance and musical arts. Offered on a pass/fail basis. [0] Sibaja.

TUBA 1000. Low Brass Performance Class. [Formerly Mus O 110b] Weekly observation and participation. Required of all euphonium and tuba majors, performance and musical arts. Offered on a pass/fail basis. [0] Long.

Blair School of Music

MARK WAIT, D.M.A., Dean
MELISSA K. ROSE, D.M.A., Associate Dean, Collegiate Program
PAMELA SCHNELLER, M.C.M., Associate Dean, Precollege and Adult Program
THOMAS R. CRESPO, M.M., Director, Admissions
MOLLY JEWELL, B.M., Assistant Director, Admissions
ROBERT HALLIBURTON, B.S., C.P.A., Business Officer
JOSEPH DEBUSK, Director of Technical Operations
THOMAS LANGMESSER, B.A., Academic Services Assistant
VIRGINIA PAYNE, B.A., Associate Dean for Blair Development and Alumni Relations
KRISTIN WHITTLESEY, B.A., Director of External Relations

Music Library Staff

HOLLING SMITH-BORNE, M.L.S., Director
SARA J. MANUS, M.L.S., Music Librarian for Public Services
JACOB SCHAUB, M.M., M.L.S., Music Librarian/Cataloging

Department Chairs

JEREMY WILSON, Brass and Percussion
CONNIE HEARD, Strings, Guitar, and Harp
PETER KOLKAY, Woodwinds
GREGORY MELCHOR-BARZ, Music Literature/History
AMY K. JARMAN and GAYLE SHAY, Voice Co-Chairs
MARIANNE PLOGER, Musicianship
MICHAEL SLAYTON, Composition/Theory
KAREN ANN KRIEGER and HEATHER CONNER, Keyboard Co-Chairs

Faculty Coordinators

TUCKER BIDDLECOMBE, Teacher Education Program
ROBIN FOUNTAIN, Ensembles
MICHAEL HIME and JAMA REAGAN, Music Minors
CHI-HEE HWANG, Precollege Group Piano
BRIAN UTLEY, Chamber Music
RYAN MIDDAGH, Jazz Studies
CRYSTAL PLOHMAN, Folk Instruments
PAMELA SCHNELLER, Precollege Scholarships
CARL F. SMITH, JR., Music as a Second Major
ZACHARY EBIN, Suzuki Program

Committees of the School

ADMINISTRATIVE COUNCIL. Mark Wait, Chair. Thomas Crespo, Heidi Basgall Favorite, Robert Halliburton, Melissa Rose, Pamela Schneller, Kristin Whittlesey.

BMI COMPOSER-IN-RESIDENCE. Michael Kurek, Chair. Bill Jackson, Stan Link, Tom Verrier, Robin Fountain.

CALENDAR. Pamela Schneller, Chair. Mary Biddlecombe, Christine Claffey, Joe DeBusk, Robin Fountain, Heidi Basgall Favorite, Kristin Whittlesey.

COLLEGIATE ENSEMBLE DIRECTORS. Robin Fountain, Chair. Kwame Ahima, Tucker Biddlecombe, Mat Britain, Ryan Middagh, Gayle Shay, Tom Verrier, David B. Williams.

DEPARTMENT CHAIRS. Mark Wait, Chair. Jeremy Wilson, Brass and Percussion; Peter Kolkay, Woodwinds; Cornelia Heard, Strings, Guitar, and Harp; Heather Conner and Karen Ann Krieger, Co-Chairs, Keyboard; Gregory Melchor-Barz, Music Literature/History; Marianne Ploger, Musicianship; Amy Jarman and Gayle Shay, Co-Chairs, Voice; Pamela Schneller, Precollege and Adult Program; Michael Slayton, Composition/Theory; Robin Fountain, Ensembles; Ryan Middagh, Jazz Studies; Ex Officio: Melissa Rose, Associate Dean.

FACULTY ADVISORY COUNCIL. Mary Biddlecombe, Heather Conner, Erin Perez, Josh McGuire.

INTERNATIONAL STUDIES. Joy Calico, Melissa Rose.

PRECOLLEGE AND ADULT PROGRAM. Pamela Schneller, Chair. Mary Biddlecombe, Kirsten Cassel Greer, Heather Conner, Paul Deakin, Chi-Hee Hwang, Carol Nies, Zachary Ebin, Crystal Plohman.

PRECOLLEGE CERTIFICATE PROGRAM COUNCIL. Paul Deakin, Chair. Heather Conner, Carolyn Huebl, Jama Reagan, Pamela Schneller, Roland Schneller, Brian Utley.

PRECOlleGE ENSEMBLE DIRECTORS. Pamela Schneller, Chair. Mary Biddlecombe, Kirsten Cassel Greer, Carol Nies, Crystal Plohman, Zachary Ebin.

STUDENT SHOWCASE. Ryan Middagh, Chair. Amy Dorfman, Jared Hauser, Stephen Miahky, Gayle Shay, Jose Silba.

WRITING PORTFOLIO ASSESSMENT. Melanie Lowe, Chair. Michael Rose, Douglas Shadle.
Faculty

OKYEREMA G. AHIMA, Adjunct Instructor in Music
[2005]
SALLY R. AHNER, Lecturer in Music
B.A. (Salem College 1975); M.A. (Eastman 1974) [2005]
AMY A. ALLEY, Adjunct Artist Teacher of Kindermusik; Adjunct Lecturer in Teacher Education
B.M. (Tennessee 1977); M.M. (Peabody 1978) [2001]
ROLAND BARBER, Adjunct Associate Professor of Trombone and Jazz Studies
B.Mus., Artist’s Diploma (Indiana, Bloomington 2001, 2003); M.M. (Manhattan School of Music 2005) [2017]
MARTHA BARTLES, Adjunct Senior Artist Teacher of Piano
B.M. (Mississippi 1933); M.F.A. (Ohio 1954) [1997]
JOE JEFFERY BECKMAN, Senior Lecturer in Music
B.S. (Tennessee Technological 1983); M.A. (Cumberland 1997) [2015]
MARY BIDDLECOMBE, Adjunct Artist Teacher of Chorus
B.M.Ed. (SUNY, Potsdam 1999); M.M. (Florida State 2005) [2012]
TUCKER BIDDLECOMBE, Associate Professor of Choral Activities and Choral Director
B.M. (SUNY, Potsdam 1998); M.M., Ph.D. (Florida State 2003, 2012) [2012]
EMELINE Y. BINGHAM, Senior Lecturer in the Teaching of Music
B.S. (Tennessee Technological 1983); M.M. (Indiana, Bloomington 1986) [1986]
CHARLES (CIDE) BLACKMON, Lecturer in Music
B.A. (Middle Tennessee State 1996) [2010]
JESSICA BLACKWELL, Adjunct Artist Teacher of Violin
B.M. (Bix 2006); M.M. (Johns Hopkins, Peabody Institute 2006) [2009]
POLLY P. BRECHT, Adjunct Artist Teacher of Accompanying
PAULA BRESSMAN, Adjunct Artist Teacher of Harp
B.M. (Vanderbilt 2007); M.M. (Cincinnati 2010) [2016]
MAT BRITAIN, Adjunct Music Educator in Music
B.Ed. (Wichita State 1985) [2004]
MAEVE BROPHY, Adjunct Artist Teacher of Accompanying
M.M. (Texas Christian 2008) [2012]
ALISON BROWN, Adjunct Artist Teacher of Banjo
A.B. (Harvard 1984); M.B.A. (California, Los Angeles 1986) [2010]
JOY H. CALICO, Cornellius Vanderbilt Chair; Professor of Musicology
B.M. (Baylor 1988); M.M. (Illinois, Champaign 1992); Ph.D. (Duke 1999) [2003]
DAVID C. CASSIDY, Adjunct Associate Professor of Music
BRITTANY E. CHASE, Adjunct Assistant Professor of Music
A.B. (Middle Tennessee State 2011); M.M. (Florida State 2013) [2016]
DALE COOKRELL, Professor of Musicology, Emeritus
JEFF COFFIN, Adjunct Instructor in Jazz Saxophone
B.A. (North Texas 1990) [2015]
MATT COMBS, Adjunct Instructor in Fiddling and Violin; Director of the Fiddling Program
B.M. (Michigan 1997) [2004]
HEATHER CONNER, Senior Artist Teacher of Piano
B.Mus. (Curtis Institute of Music 1997); M.M. (Yale 1999); D.M.A. (Manhattan School of Music 2006) [2015]
PETER COOPER, Senior Lecturer In Music History and Literature
B.A. (Wolford 1993) [2008]
KIRSTEN AGRESTA COPELY, Adjunct Associate Professor of Harp
LAUREN JACKSON COPLAN, Adjunct Artist Teacher of Piano
B.M. (Boston University 1991) [2011]
ELIZABETH F. CORRIGAN, Senior Artist Teacher of Piano, Emerita
A.B. (Smith 1947); B.M. (New England Conservatory 1950); M.A. (Columbia 1955) [1967]
ALLAN E. COX, Professor of Trumpet, Emeritus
B.M.Ed. (Nebraska 1968); M.M. (Wichita State 1970) [1998]
GAYLE SHAY, Associate Professor of Voice; Director of Vanderbilt Opera Theatre
B.A. (Luther 1986); M.M. (Maryland 1990); D.M.A. (Colorado 1998) [1998]

JOSE SIBAJA, Associate Professor of Trumpet
B.M. (Lipscomb 1990); M.M. (Colorado 1996); D.M.A. (Colorado 1998) [1998]

CHRISTINA SIMPSON, Adjunct Senior Artist Teacher of Suzuki Violin
B.M. (Cincinnati 1982) [2015]

MICHAEL K. SLAYTON, Associate Professor of Composition and Theory

CARL F. SMITH, Jr., Senior Lecturer in Music Composition and Theory
B.M. (Baldwin-Wallace 1971); M.M. (Washington University 1975) [1998]

MATTHEW SMYTH, Adjunct Artist Teacher of Chorus, Assistant Director
B.M. (Moravian 2005); M.M. (Oklahoma 2009) [2017]

RICHARD TODD, Adjunct Associate Professor of Guitar
B.M. (Cincinnati 1990); M.M. (Southern Methodist 1993); D.Mus.A. (North Texas 2007) [2016]

ERIC TSATSU, Adjunct Artist Teacher of Music
B.M. (Colorado 1995); M.Ed. (Indiana State 1974) [2002]

CELESTE H. TUTEN, Senior Artist Teacher of Suzuki Violin
B.M. (Peabody 1974); M.Ed. (Memphis State 1976) [1990]

THOMAS E. VERRIER, Associate Professor of Wind Studies; Senior Band Conductor and Director of Wind Ensembles

PATSY WADE, Adjunct Artist Teacher of Piano

ALISON WARFORD, Adjunct Artist Teacher of Chorus
B.A. (Oklahoma Baptist 1985); M.Div. (Southern Baptist Theological Seminary 1988); M.A. (Vanderbilt 2002) [2008]

ALISON WOODWARD, Adjunct Artist Teacher of Chorus
B.A. (Centre 1995); M.A. (Tennessee 1998); Performance Diploma (Berklee 2001) [2016]

ROGER WIESMEYER, Adjunct Associate Professor of Oboe
B.M. (Curtis Institute of Music 1987) [2002]

WILLIAM W. WILLIAMS, Associate Professor of Percussion
B.S. (Peabody 1968); M.M. (Northwestern 1969) [1973]

ANNE H. WILLIAMS, Adjunct Senior Artist Teacher of Suzuki Cello

DAVID BINNS WILLIAMS, Senior Lecturer in Musicianship and Choral Studies

SARAH WILLIAMS, Adjunct Artist Teacher of Music
B.M. (Vanderbilt 2006) [2017]

Engineering Education in a University Setting

VANDERBILT University School of Engineering is the largest and oldest private engineering school in the South. Classes offering engineering instruction began in 1879, and seven years later Engineering was made a separate department with its own dean. The school’s program emphasizes the relationship of the engineering profession to society and prepares engineers to be socially aware as well as technically competent.

The mission of the School of Engineering is threefold: to prepare undergraduate and graduate students for roles that contribute to society; to conduct research to advance the state of knowledge and technology and to disseminate these advances through archival publications, conference publications, and technology transfer; and to provide professional services to the community.

The school strives to meet the undergraduate education portion of its mission by offering degree programs in fields of engineering relevant to the needs of society. An objective of these programs is to provide a technical education integrated with strong humanities, fine arts, and social sciences subject matter to provide the requisite foundation for life-long learning. The availability of second majors and minors in subject areas in other schools and colleges of the university increases opportunities for engineering students to enhance their education by pursuing studies in the non-technical disciplines. Engineering students take close to 50 percent of their courses outside of the School of Engineering and associate daily with peers from other schools and colleges within the university.

Another objective is to accommodate students who will continue their studies at the graduate level in engineering or in other professional fields, as well as those who intend to enter engineering practice upon graduation. To this end, our programs emphasize mathematics and engineering sciences, yet provide significant exposure to engineering design and hands-on laboratory experiences.

A large fraction of the student body is destined for management positions early in their working careers. To meet these students’ needs, the Engineering Management program offers a well-integrated curriculum, including a minor.

The bachelor of engineering serves those programs in engineering where professional registration through state boards is desirable or necessary. Typically, about 90 percent of the students are enrolled in programs that are accredited by the Engineering Accreditation Commission or the Computing Accreditation Commission of ABET (abet.org).

The bachelor of science addresses the needs of those students seeking specialized programs not served by conventional engineering degree programs. The degree provides students with a general scientific and engineering background while allowing individual curricular desires to be addressed. For example, students who want to use a degree from the School of Engineering to enter the primary or secondary education fields may include the necessary courses in education from Peabody College in their engineering degree program.

Students at all levels have the opportunity to work with faculty in the generation of new knowledge. Those planning for graduate studies and research may participate in individual topics and research courses to fulfill that desire. Engineering students also participate in the university’s Summer Research Program for Undergraduates.

Facilities

The School of Engineering is housed in 5 main buildings with several satellite facilities. William W. Featheringill Hall which houses a three-story atrium designed for student interaction and social events, more than fifty teaching and research laboratories with the latest equipment and computer resources, and project rooms. The new Engineering and Science building is an eight-story state of the art building that houses the Wond’ry at the Innovation Pavilion, numerous research labs, interactive class rooms, clean rooms and space for students to work, study and socialize. School administrative offices and several classrooms are located on the ground floor of the Science and Engineering building in Stevenson Center, which also houses the Biomedical Engineering Department on the 8th and 9th floors. Jacobs Hall, which flanks Featheringill Hall, contains laboratories, office and classrooms serving both the Civil and Environmental Engineering Department and the Electrical Engineering and Computer Science Department. The Olin Hall of Engineering houses Chemical and Biomolecular Engineering, Mechanical Engineering and Materials Science. Several other satellite facilities that are part of the Engineering School include: the W. M. Keck Free Electron Laser Center building, housing the labs and offices of the Biomedical Photonics Center; the LASIR (laboratory for systems integrity and reliability), a hangar-style facility located off-campus dedicated to scaling up experiments to realistic and full size, including a wind tunnel and military aircraft; the MuMS facility (multiscale modeling and simulation); the Vanderbilt Institute of Software Integrated Systems; and the Institute for Space and Defense Electronics, providing office space, dry laboratories and conference space.

In all its engineering programs, Vanderbilt recognizes the valid place of experimental and research laboratories in the learning experience. Laboratories are planned to provide the strongest personal contact between students and faculty members consistent with enrollment.

Well-equipped undergraduate laboratories are maintained by the Departments of Chemistry and Physics in the College of Arts and Science, which offers mathematics and basic science courses required of all engineering students. Graduate and undergraduate divisions of these departments maintain teaching and research facilities in the Stevenson Center for the Natural Sciences, as does the Department of Earth and Environmental Sciences. Another supporting department, Biological Sciences, is housed in Medical Research Building III. Most classes in humanities and the social sciences are conducted in Buttrick, Calhoun, Furman, Garland, and Wilson halls.

Accreditation

All programs leading to the B.E. degree are accredited by the Engineering Accreditation Commission of ABET (abet.org). The bachelor of science program in computer science is accredited by the Computing Accreditation Commission of ABET (abet.org).
Employment of Graduates

Of the recent Vanderbilt graduates with baccalaureate degrees in engineering, about 70 percent entered directly into professional practice. Thirty percent continued with graduate or professional education. Others pursued diverse careers or other interests. Additional information regarding the employment of engineering graduates is available in the Career Center.

Supporting Organizations

Vanderbilt Engineering Council

The Engineering Council is a student organization whose main goal is facilitating communication between administration, faculty, and students in the School of Engineering. Officers of the Engineering Council are elected by the engineering student body, and representatives from the professional societies complete the organization’s membership. While the council has no administrative power, it provides students with a voice in the decision-making process in the School of Engineering.

Professional Societies

The leading national engineering societies have chartered branches or student sections at Vanderbilt. These organizations are run locally by students with the help of a faculty adviser. Meetings are devoted to matters of a technical nature, including films, outside speakers, plant trips, and other subjects of interest to the membership.

Student speakers from the Vanderbilt groups compete annually with speakers from other groups in their region in technical paper competitions.

Freshmen and sophomores are cordially invited to attend meetings—and juniors and seniors are urged to join—as they will find the work of the professional societies beneficial in orienting them in their careers.

The student professional societies are:

- American Institute of Aeronautics and Astronautics (A.I.A.A.)
- American Institute of Chemical Engineers (A.I.Ch.E)
- American Society of Civil Engineers (A.S.C.E.)
- American Society of Mechanical Engineers (A.S.M.E.)
- American Society for Metals (A.S.M.)
- Association for Computing Machinery (A.C.M.)
- Institute of Electrical and Electronics Engineers (I.E.E.E.)
- International Society for Hybrid Microelectronics (I.S.H.M.)
- International Society for Optics and Photonics (SPIE)
- National Society of Black Engineers (N.S.B.E.)
- Society of Automotive Engineers (S.A.E.)
- Society of Hispanic Professional Engineers (S.H.P.E.)
- Society of Engineering Science (S.E.S.)
- Society of Women Engineers (S.W.E.)
- Vanderbilt Biomedical Engineering Society

Graduating seniors may join the Order of the Engineer, a society that recognizes the commitment of its members to the profession of engineering.
Degree Programs in Engineering

Bachelor of engineering degree programs are offered in the areas of biomedical, chemical, civil, computer, electrical, and mechanical engineering. Many of these programs allow considerable flexibility—but students are required to include in their courses of study those bodies of knowledge fundamental to each discipline.

Bachelor of science degree programs offered in the inter-disciplinary engineering disciplines often allow strong concentration in other areas of engineering or in the College of Arts and Science. The B.S. is awarded in the areas of computer science and engineering science. The school offers the master of engineering (M.Eng.), with emphasis on engineering design and practice, in most areas of study. The Graduate School, through departments of the School of Engineering, offers the research-oriented Ph.D. and M.S. degrees in eight major fields. Degree programs offered by the School of Engineering are shown below.

Undergraduate Degrees

Bachelor of Engineering
The bachelor of engineering is offered in biomedical, chemical, civil, computer, electrical, and mechanical engineering. The B.E. degree requirements vary from 125 to 128 semester hours. Students seeking double majors will require somewhat more credit hours.

Bachelor of Science
The bachelor of science is offered in computer science and engineering science, requiring 120 and 121 semester hours, respectively. These programs have more flexibility in elective choice than the B.E. degree programs.

The First Year
Many courses normally scheduled for the freshman year are common to both the B.E. and B.S. degree programs. While the curriculum for the freshman year is generally the same for all students, there are important variations. For example, some major programs require a full year of introductory chemistry; others do not. Students should become familiar with requirements of those programs in which they have an interest and confer with their adviser at the time of enrollment and throughout the freshman year to work out a program of study that will keep options open as long as possible.

Specimen curricula for the engineering programs are given in the Courses of Study chapter. Requirements for the B.E. and B.S. degrees for the various programs vary in the minimum amount of work and specific course requirements in the basic sciences and in specific subject requirements in mathematics.

Included in the freshman year is the course Engineering Science 1401–1403 (Introduction to Engineering), which introduces the student to design tools used in all areas of engineering.

Some students may qualify for advanced placement or advanced credit in mathematics, science, the humanities and social sciences, or computer science. If advanced credit is awarded, it will not affect the student’s Vanderbilt grade point average.
**Mathematics and Physics**

Entering engineering students will be placed in the appropriate level mathematics course. Students offering one full year or more of high school credit in analytic geometry and calculus may qualify for advanced placement in a regular sequence by scoring well on the Advanced Placement Examination.

Students with high mathematical ability and achievement may apply for enrollment in the Math 2500-2501 sequence as a substitute for Math 2300. For more information, see the course descriptions under Mathematics in the Arts and Science section of this catalog. For majors requiring Math 2420 (Methods of Ordinary Differential Equations), students may select Math 2400 (Differential Equations with Linear Algebra) as a substitute.

Students with inadequate backgrounds in mathematics may be required to take Math 1005 (Pre-calculus Mathematics). Taking this course constitutes an additional requirement for graduation.

Math 1010-1011 (Probability and Statistical Inference) and Math 1100 (Survey of Calculus) cannot be credited toward a degree in the School of Engineering.

Students with greater interest in physics may enroll in Phys 1911, 1912, 1912L, and 2255L. (Principles of Physics I and II and labs) as substitutes for Phys 1601, 1602, 1601L, and 1602L (General Physics I and II and labs), respectively.

Pre-calculus courses Phys 1010 and 1010L cannot be credited toward a degree in the School of Engineering.

**Liberal Arts Core**

In order to provide the elements of a general education considered necessary for responsible practice as an educated engineer, the School of Engineering requires each student to complete at least 18 hours in the Liberal Arts Core comprising:

1. At least 3 hours selected from courses classified in the AXLE Curriculum Course Distribution of the College of Arts and Science as Humanities and Creative Arts (HCA), with the exception of CMST 1500, 2100, 2110, and 2120, and
2. At least 3 hours selected from courses classified in the AXLE Curriculum Course Distribution of the College of Arts and Science as Social and Behavioral Sciences (SBS).

The remaining hours are to be selected from:

1. Courses classified in the AXLE Curriculum Course Distribution of the College of Arts and Science as Humanities and Creative Arts (HCA), International Cultures (INT), History and Culture of the United States (US), Social and Behavioral Sciences (SBS), and Perspectives (P)
2. CS 1151 and ENGM 2440
3. Arabic 1101, Chinese 1011, 1012, 1101, English 1100, French 1101, German 1101, Greek 1101, Hebrew 1101, Italian 1101, Japanese 1101, 1012, 1101, Latin 1101, Portuguese 1101, Russian 1101, and Spanish 1100, 1101
4. Peabody College courses in Psychology and Human Development numbered 1205, 1207, 1250, 2200, 2250, 2300, 2400, 2500, 2550, 2600, and 3150, and in Human and Organizational Development numbered 1250, 1300, 2100, 2260, 2400, 2500, 2700, and 3232
5. All MUSC, MUSE, MUSO, COMP, MREP, MUTH, and performance courses in the Blair School of Music, except MUSO 1001

**Open Electives**

Courses excluded from the listings in the Liberal Arts Core may be taken as open electives.

**Officer Education**

Course offerings in military science and naval science are described in the chapter on Special Programs for Undergraduates near the front of the catalog. All officer education courses designated as eligible for credit may be taken as open electives. In addition, officer education courses in history and political science carry AXLE designations and may be taken as part of the Liberal Arts Core. AFROTC students may count 6 hours of the military courses as open electives.

**Master of Engineering**

The master of engineering (M.Eng.) is an advanced professional degree awarded by the School of Engineering and especially designed for engineering practitioners who may prefer to work while doing professional study. It is also suitable for individuals who apply directly from undergraduate school—but the thrust of the program is toward professional practice in engineering rather than research or teaching. The degree is currently offered in biomedical engineering, chemical engineering, civil engineering, cyber-physical systems, electrical engineering, environmental engineering, and mechanical engineering.

Students must complete 30 hours of approved course work. For information on the Accelerated Graduate Program in Engineering degrees, see the chapter on Special Programs. A maximum of 6 hours of graduate-level course work may be transferred from another institution. Residency requirements are flexible, and a maximum period of seven years is allowed to complete the degree. An extensive, written design report shall be submitted on a project approved by the student’s project adviser.

Admission to the Master of Engineering program normally requires graduation from an approved undergraduate program in engineering or a related scientific discipline, attainment of a B average in undergraduate courses applicable to the student’s career goals, and recommendations containing favorable appraisals of professional promise and attitude. A period of successful work experience prior to application to the program will also be given consideration. Application for admission should be sent to the associate dean of the School of Engineering. Further information about the program may be obtained by writing to the same office.

For international students who did not graduate from an institution in a country where English is the official language, proficiency in English must be shown by a minimum score of 89 on the TOEFL or 7 on the IELTS test.

For information on integrated bachelor and master of engineering degrees, see the chapter on Special Programs.
Special Programs

Honors Programs
Honors programs allow selected undergraduate students to develop individually through independent study and research. Individual honors programs are described in the Courses of Study chapter.

Requirements vary somewhat but, in general, to qualify for consideration a student should have (a) completed the technical course requirements of the first two years, (b) attained a minimum grade average of 3.5 in all work taken for credit, and (c) shown evidence indicating a capacity for independent study and/or research. Formal admission is by election of the department concerned. Once admitted, candidates remain in the program only if they maintain a 3.5 or higher grade average.

Accepted candidates normally begin honors study in the junior year, but exceptions may be made for outstanding seniors.

Successful candidates are awarded Honors in their area of interest. This designation appears on their diplomas.

Study Abroad
Vanderbilt’s Global Education Office offers approximately thirty programs that allow students to take engineering or computer science courses in English abroad, in locations ranging from Dublin to Sydney, Cape Town to Hong Kong. There are no language prerequisites for these programs. These programs also allow students to take a range of liberal arts core and elective courses abroad. A student may not apply to participate in a Vanderbilt approved direct-credit program for transfer credit through a different university or through an external agency and then seek to transfer that credit into Vanderbilt. Financial aid can be used for study abroad during the academic year, and scholarships are available to support summer study abroad. Students are encouraged to discuss with their academic advisers how best to incorporate study abroad into their four-year plans of study. All students intending to receive credit from studying abroad must register their travels in advance with International SOS. Further information can be obtained from the Vanderbilt Global Education Office.

Teacher Education
Students who are interested in preparing for licensure as secondary school teachers should plan their programs in consultation with the associate dean in the School of Engineering. The School of Engineering and Peabody College offer a teacher education program leading to secondary school licensure in physics (grades 9 through 12) and computer technology. Students major in engineering science in the School of Engineering and complete a second major in education at Peabody College.

More specific information on professional education course requirements can be found under the Licensure for Teaching chapter in the Peabody College section of this catalog. Inquiries can also be made to the Office of Teacher Licensure at Peabody.

Double Major
It is possible for a student to combine an engineering field with a second area outside the School of Engineering. The student must obtain prior approval of each department and satisfy the requirements of each major, including the requirement regarding minimum grade point average.

Certain double majors involving two programs within the School of Engineering have been approved by the faculty. The approved double majors are biomedical engineering/electrical engineering, and biomedical engineering/chemical engineering.

The double major is indicated on the student’s transcript. Only one degree is awarded, from the school in which the student is enrolled.

Minors
A minor consists of at least five courses of at least 3 credit hours each within a recognized area of knowledge. A minor offers students more than a casual introduction to an area, but less than a major. A minor is not a degree requirement, but students may elect to complete one or more. Courses may not be taken on a Pass/Fail basis. A minor for which all designated courses are completed with a grade point average of at least 2.0 will be entered on the transcript at the time of graduation.

When a minor is offered in a discipline that offers a major, only those courses that count toward the major may be counted toward the minor. Students should refer to the appropriate sections of this catalog for specific requirements. Currently, minors are offered in engineering management, materials science and engineering, computer science, environmental engineering, energy and environmental systems, nanoscience and nanotechnology, scientific computing, and most disciplines of the College of Arts and Science, Blair School of Music, and Peabody College.

Students should declare their intention to pursue minors by completing forms available in the Student Services Office of the School of Engineering. Departments and programs assign advisers to students who declare minors in their areas. Students are responsible for knowing and satisfying all requirements for the minors they intend to complete.

Three-Two Program
The School of Engineering recognizes a Three-Two program with certain liberal arts colleges. This plan allows students to attend a liberal arts college for three years of undergraduate study, usually majoring in mathematics or science, where they meet the residence requirements for a degree from that institution. They then transfer to the Vanderbilt University School of Engineering for two years of technical work in an engineering curriculum. Upon completion of the five years, students receive two bachelor’s degrees, one from the liberal arts college and one from the School of Engineering. Students who lack the preparation to begin the junior curriculum in their major will need three years at Vanderbilt to complete the bachelor of engineering.

To complete all required technical courses at Vanderbilt in two years, students enrolled in the Three-Two program should complete, before coming to Vanderbilt, as many as possible of the mathematics and science courses listed in the specimen curriculum—in general, mathematics through differential equations, a year of physics, a year of another laboratory science (usually chemistry), and a semester of computer
programming. Students should plan their three years of liberal arts study so as to satisfy as nearly as possible the freshman and sophomore requirements of the particular engineering curriculum in which they will major at Vanderbilt.

Admission to the Three-Two program must be certified by the liberal arts college and is recognized by Vanderbilt University School of Engineering through special agreement between Vanderbilt and each of the liberal arts colleges participating in the Three-Two program.

**Dual Degree Program with Fisk University**

A coordinated dual degree program between the Vanderbilt University School of Engineering and Fisk University is especially designed to permit students to obtain an A.B. degree in biology, chemistry, computer science, physics, or mathematics from Fisk and a B.E. or B.S. degree in engineering from Vanderbilt, generally within five years.

For the first three years, the student is enrolled at Fisk in a science curriculum and, by cross-registration in the second and third years, takes introductory engineering courses at Vanderbilt. During the fourth and fifth years, the student is enrolled at Vanderbilt, following principally an engineering curriculum at Vanderbilt and completing science courses at Fisk. At the end of five years, the student should be able to satisfy the requirements for both bachelor's degrees.

Financial aid is available for qualified, deserving students. Additional information is available from the director of transfer admissions in the Office of Undergraduate Admissions.

**Bachelor of Science in Computer Science/Master of Science in Finance**

A program of study is available in which students can obtain a B.S. in computer science from the School of Engineering in four years and be well prepared for admission to the Master of Science in Finance program in the Owen Graduate School of Management. Students spend their fifth year of study at the Owen School. Admission to the Master of Science in Finance program is contingent upon performance. Students receive a strong background in computer programming and economics; minors in engineering management and mathematics are facilitated, providing further depth in preparation for the M.S.F. The recommended curriculum is maintained on the computer science portion of the webpages of the Department of Electrical Engineering and Computer Science.

**Integrated Bachelor and Master of Engineering**

On the basis of recommendations containing favorable appraisals of professional promise, undergraduate students in the School of Engineering who have completed at least 75 hours with at least a 3.0 grade point average may be accepted into an integrated Bachelor of Engineering–Master of Engineering program. The last two years of a student’s program is planned as a unit.

With the approval of the student’s adviser, the director of graduate studies in the student’s major department, and the senior associate dean, students apply through the associate dean for graduate studies for admission to this integrated dual degree program. Upon admission to this program, a second “career” will be set up for the student which will allow the student to start taking graduate courses (course numbers > 5000) during the junior and senior years. These courses will be credited toward the master of engineering. Note that no double counting of courses is allowed (i.e., the student must meet the degree requirements for each degree independent of the other degree). The student typically receives the bachelor’s degree at the end of the fourth year and completes the master of engineering during the fifth year. Further information can be obtained from the director of graduate studies of the student’s major department.

**Accelerated Graduate Program in Engineering**

Students who enter Vanderbilt with a significant number of credits (20 to 30 hours), earned either through Advanced Placement tests or in college courses taken during high school, may be eligible for the Accelerated Graduate Program in Engineering. Through this program, a student is able to earn both a bachelor’s degree and a master of science in about the same time required for the bachelor’s degree. To be eligible for the program a student must complete 86 hours (senior standing) by the end of the sophomore year with at least a 3.5 grade point average. With the approval of the student’s adviser, the director of graduate studies in the student’s major department, and the senior associate dean, students apply through the associate dean for graduate studies for admission to this accelerated dual degree program. Upon admission to this program, a second “career” will be set up for the student which will allow the student to start taking graduate courses (course numbers > 5000) during the junior and senior years. These courses will be credited toward the master of science. Note that no double counting of courses is allowed (i.e., the student must meet the degree requirements for each degree independent of the other degree). The student receives the bachelor’s degree at the end of the fourth year and typically spends the summer finishing a master’s thesis to complete the master of science. Further information can be obtained from the director of graduate studies of the student’s major department.
Honors

Founder’s Medal
The Founder’s Medal, signifying first honors, was endowed by Commodore Cornelius Vanderbilt as one of his gifts to the university. The recipient is named by the dean after consideration of faculty recommendations and the grade point averages of the year’s summa cum laude graduates.

Latin Honors Designation
Honors noted on diplomas and published in the Commencement Program are earned as follows:

Summa Cum Laude. Students whose grade point average equals or exceeds that of the top 5 percent of the previous year’s Vanderbilt graduating seniors.

Magna Cum Laude. Students whose grade point average equals or exceeds that of the next 8 percent of the previous year’s Vanderbilt graduating seniors.

Cum Laude. Students whose grade point average equals or exceeds that of the next 12 percent of the previous year’s Vanderbilt graduating seniors.

Dean’s List
The Dean’s List recognizes outstanding academic performance in a semester. Students are named to the Dean’s List when they earn a grade point average of at least 3.500 while carrying 12 or more graded hours, with no temporary or missing grades in any course (credit or non-credit) and no grade of F.

Honor Societies
TAU BETA PI. The Tennessee Beta chapter of the Tau Beta Pi Association was installed at Vanderbilt University 7 December 1946. Members of Tau Beta Pi are selected from undergraduate students in the School of Engineering who have completed at least four semesters of required work, are in the upper eighth of their class scholastically, and have shown marked qualities of character and leadership; seniors in the upper fifth of their class scholastically are also eligible for election.

CHI EPSILON. The Vanderbilt chapter of Chi Epsilon, installed 18 March 1967, is restricted to undergraduate civil engineering students in the top third of their class. Election is based on grade point average, faculty recommendation, and exceptional achievements in extracurricular campus activities.

ETA KAPPA NU. The Epsilon Lambda chapter of the Eta Kappa Nu Association was established 22 April 1966. Undergraduate members are selected from the upper third of the class in electrical engineering. Eta Kappa Nu recognizes leadership and scholastic accomplishment twice annually, selecting members also from the professional body of practicing engineers.

ALPHA SIGMA MU. The Vanderbilt chapter of Alpha Sigma Mu was installed in 1977. Senior materials engineering students in the upper twenty percent of their graduating class are eligible upon recommendation of departmental faculty.

PI TAU SIGMA. The Delta Alpha chapter of Pi Tau Sigma was installed on the Vanderbilt campus 22 April 1971, for the purpose of recognizing scholastic achievement and professional promise in junior and senior mechanical engineering students. Students are elected to membership twice each year on the basis of academic excellence and recommendations from the faculty and chapter members.

SIGMA XI. The Vanderbilt chapter of the Society of Sigma Xi recognizes accomplishment, devotion, and originality in scientific research. Associate members are elected annually from graduate-level students of the university.

HONOR SOCIETIES FOR FRESHMEN. Freshmen who earn a grade point average of 3.5 or better for their first semester are eligible for membership in the Vanderbilt chapter of Phi Eta Sigma and Alpha Lambda Delta.

Other Awards and Prizes
DEAN’S AWARD FOR OUTSTANDING SERVICE. Awarded to the senior candidate in the School of Engineering who has shown remarkable leadership qualities and who has also made the greatest contribution in personal services to the School.

DEAN’S AWARD FOR OUTSTANDING SCHOLARSHIP. Awarded to each member of the senior class who graduates summa cum laude.

PROGRAM AWARDS. The faculty associated with each of the departments of the school annually bestows a certificate and a prize to one member of the graduating class who is judged to have made the greatest progress in professional development during his or her undergraduate career.

AMERICAN INSTITUTE OF CHEMISTS AWARD. Awarded to an outstanding undergraduate student majoring in chemical engineering on the basis of a demonstrated record of leadership, ability, character, scholastic achievement, and potential for advancement of the chemical professions.

GREG A. ANDREWS MEMORIAL AWARD. Endowed in 1969 and awarded to the senior in civil engineering who has been judged by the faculty to have made the greatest progress in professional development and who plans to do graduate work in environmental and water resources engineering.

THOMAS G. ARNOLD PRIZE. Endowed in 1989 and awarded by the biomedical engineering faculty to the senior who presents the best design of a biomedical engineering system or performance of a research project in the application of engineering to a significant problem in biomedical science or clinical medicine.

WALTER CRILEY PAPER AWARD. Endowed in 1978 and awarded in electrical engineering for the best paper on an advanced senior project in electrical engineering.

JAMES SPENSER DAVIS AWARD. Given annually by the student chapter ofEta Kappa Nu in memory of Mr. Davis, this award recognizes excellence in the undergraduate study of electronics.

ARTHUR J. DYER JR. MEMORIAL PRIZE. Endowed in 1938 and awarded in civil engineering to the member of the senior class doing the best work in structural engineering.

WALTER GILL KIRKPATRICK PRIZE IN CIVIL ENGINEERING. Endowed and awarded in the School of Engineering to the most deserving third-year undergraduate student in civil engineering.
WILLIAM A. MA AWARD. Awarded to an outstanding senior majoring in chemical engineering on the basis of a demonstrated record of leadership and scholastic achievement.

WILSON L. AND NELLIE PYLE MIZER AWARD. Awarded to the senior engineering student who has been judged by the faculty of mathematics to have excelled in all aspects of mathematics during his or her undergraduate career.

STEIN STONE MEMORIAL AWARD. Endowed in 1948 and awarded in the School of Engineering to the member of the graduating senior class who has earned a letter in sports, preferably in football, and who is adjudged to have made the most satisfactory scholastic and extramural progress as an undergraduate.

ROBERT D. TANNER UNDERGRADUATE RESEARCH AWARD. Awarded to a senior who, in the judgment of the chemical engineering faculty, has conducted at Vanderbilt University the best undergraduate research project.

W. DENNIS THREADGILL AWARD. Awarded to a graduating chemical engineering senior for outstanding achievement in the undergraduate program in honor of a former faculty member and department chair.
Academic Regulations

Honors System
All academic work at Vanderbilt is done under the honor system (see Life at Vanderbilt chapter).

Responsibility to Be Informed
It is the responsibility of the student to keep informed of course requirements and scheduling. Failure to do so may jeopardize graduation.

Academic Advising
A faculty adviser is appointed for each student. This adviser is chosen from the faculty in the student’s major, when the major is known. For students who have not chosen a major upon entry, an adviser is selected from faculty in any department. If a student later chooses a different department for his or her major, a corresponding change of adviser is made. Engineering students are required to see their advisers at registration and any other time changes must be made in their programs of study. Any student who has academic difficulty is expected to see his or her faculty adviser for counsel. Faculty advisers can also provide useful career guidance.

Professional Registration and Accreditation
Legislation exists in the various states requiring registration of all engineers who contract with the public to perform professional work. Although many engineering positions do not require professional certification, Vanderbilt supports registration and encourages its graduates to take the Fundamentals of Engineering examination as soon as they become eligible. Bachelor of engineering degrees in biomedical engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET (abet.org). Students in these programs may take the Fundamentals of Engineering examination as seniors. In addition, proven professional experience is a requirement for registration. Other state boards may have different rules.

Graduate Record Examination
Most graduate schools, including Vanderbilt's, require or strongly encourage submission of Graduate Record Examination scores as a condition for admission. Further information can be obtained by writing the Educational Testing Service, Box 6000, Princeton, New Jersey 08540.

Credit Hour Definition
Credit hours are semester hours; e.g., a three-hour course carries credit of three semester hours. One semester credit hour represents at least three hours of academic work per week, on average, for one semester. Academic work includes, but is not necessarily limited to, lectures, laboratory work, homework, research, class readings, independent study, internships, practice, studio work, recitals, practicing, rehearsing, and recitations. Some Vanderbilt courses may have requirements which exceed this definition. Certain courses (e.g., dissertation research, ensemble, performance instruction, and independent study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credits allowable per semester will be included in the course description.

Normal Course Load
Each semester, regular tuition is charged on the basis of a normal course load of 12 to 18 semester hours. No more than 18 or fewer than 12 hours may be taken in any one semester without authorization from the dean. There is an extra charge for more than 18 hours at the current hourly rate. Students permitted to take fewer than 12 hours are placed on probation, unless their light load is necessary because of illness or outside employment. A student must be enrolled in a minimum of 12 hours to be classified as a full-time student.

Grading System
Work is graded by letter. A, B, C, and D are considered passing grades. The grade F signifies failure. A student who withdraws from a course before the date given in the Academic Calendar is given the grade W. A student may not withdraw from a course after that date.

Grade Point Average
A student’s grade point average is obtained by dividing the total grade points earned by the number of hours for which the student registered, excluding courses taken for no credit, those from which the student has withdrawn, those with the temporary grade Pass, and any other time changes must be made in their programs of study. Any student who has academic difficulty is expected to see his or her faculty adviser for counsel. Faculty advisers can also provide useful career guidance.

Pass/Fail Course Provision
Students may elect to take a limited number of courses on a Pass/Fail basis. To enroll for a course on a Pass/Fail basis, students must have completed at least two semesters at Vanderbilt, must have achieved at least sophomore standing, and must not be on academic probation. In addition, the following regulations apply to students enrolled in the School of Engineering:

1. No more than 9 hours graded Pass will be accepted toward the B.S. or B.E. degree, as designated by each program’s curriculum.
Temporary Grades

Temporary grades are placeholders that are assigned under defined circumstances with a specified deadline by which they will be replaced with a permanent grade. A student who receives a temporary grade is ineligible for the Dean’s List.

I: Incomplete

The Incomplete (I) is a temporary placeholder for a grade that will be submitted at a later date. The grade of I is given only under extenuating circumstances and only when a significant body of satisfactory work has been completed in a course. The I is not intended as a replacement for a failing grade, nor should it be assigned if a student simply misses the final examination. The grade of M is used for the latter purpose. The request for an I is generally initiated by the student but must be approved and assigned by the instructor. When assigning an Incomplete, the instructor specifies (a) a deadline by which the I must be resolved and replaced by a permanent grade and (b) a default course grade that counts the missing work as zero. The deadline may be no later than the end of the next regular semester. Extension beyond that time must be approved by the associate dean. If the work is not completed by the deadline the default grade will become the permanent grade for the course. The Incomplete is not calculated in the GPA, but a student who receives an Incomplete is ineligible for the Dean’s List.

2. No more than two courses may be taken on a Pass/Fail basis in any one semester.
3. A minimum of 12 hours must be taken on a graded basis in any semester that a Pass/Fail course is taken. A graduating senior who needs fewer than 12 hours to graduate may take courses on a Pass/Fail basis as long as he or she takes the number of hours needed to graduate on a graded basis.
4. Students may register for grading on a Pass/Fail basis until the close of the Change Period at the end of the second week of classes. Students may change from Pass/Fail to graded status until the deadline date for dropping a course that is published in the Academic Calendar.

Those electing the Pass/Fail option must meet all course requirements (e.g., reports, papers, examinations, attendance, etc.) and are graded in the normal way. Instructors are not informed of the names of students enrolled on a Pass/Fail basis. At the end of the semester, a regular grade is submitted for the student enrolled under the P/F option. Any grade of D- or above is converted in the Student Records System to a P, while an F will be recorded if a student enrolled under this option fails the course. The P grade is not counted in the grade point average or used in the determination of honors. The grade of F earned under the Pass/Fail option is included in the calculation of the grade point average.

M: Missed Final Examination

The grade of M is given to a student who misses the final examination and is not known to have defaulted, provided the student could have passed the course had the final examination been successfully completed. The grade of F is given if the student could not pass the course even with the final examination. It is the student’s responsibility to contact the Office of the Dean before the first class day of the next regular semester to request permission to take a makeup examination. The makeup examination must be taken on or before the tenth class day of the next regular semester. If the request has not been submitted by the proper time, or if the student fails to take the makeup examination within the prescribed time, the M grade will be replaced by a default grade submitted by the instructor when the M is assigned.

F: Failure

A subject in which the grade F is received must be taken again in class before credit is given. A student who deserts a course without following the correct procedure for dropping it will receive an F in the course.

Senior Re-examination. A candidate for graduation who fails not more than one course in the final semester may be allowed one re-examination, provided the course failed prevents the student’s graduation, and provided the student could pass the course by passing a re-examination. Certain courses may be excluded from re-examination. The re-examination must be requested through the student’s Dean’s Office, and, if approved, it is given immediately after the close of the last semester of the student’s senior year. A student who passes the re-examination will receive a D- in the course. The terms and administration of senior re-examination are the responsibility of the school that offers the course. For engineering students taking engineering courses, the senior re-examination policy applies if a student fails not more than one course in the senior year.

RC: The Repeated Course Designator

Courses in which a student has earned a grade lower than B– may be repeated under certain conditions. A course in which the student earned a grade between D– and C+, inclusive, may be repeated only once. The repeat must be accomplished within one year of the first attempt for courses offered every year, or, for courses not offered within a year, the first time the course is offered. Failed courses may be repeated at any time. A course may be repeated only on a graded basis, even if the course was originally taken Pass/Fail. Courses taken Pass/Fail in which the student earned a Pass may not be repeated. When registering for a course previously completed, the student must indicate that the course is being repeated. A course cannot be repeated through credit by examination.

Students should note that repeating a course may improve the grade point average, but it may also lead to problems in meeting minimum hour requirements for class standing and progress toward a degree. Repeating a course does not increase the number of hours used in calculation of the grade point average. All grades earned will be shown on the transcript, but only the latest grade will be used for computation of grade point averages.
W: Withdrawal

A student may withdraw from a course at any time prior to the deadline for withdrawal published in the Academic Calendar. The deadline is usually the Friday following the date for reporting mid-semester deficiencies. The W is recorded for any course from which a student withdraws. A course in which a W is recorded is not used in figuring grade point averages.

Requirements for the Degree

Candidates for a degree must have completed satisfactorily all curriculum requirements, have passed all prescribed examinations, and be free of indebtedness to the university.

Grade Average Requirements

To be eligible for graduation, a student must have passed all required courses, including the technical electives, and shall have earned a minimum average grade of C in (a) all courses taken, (b) courses taken within the School of Engineering, and (c) department courses of each major.

Any student who has been on probation for failure to meet the semester grade point average requirements in two successive semesters may be dropped for failure to meet the requirement in a third successive semester.

Hours Required for Graduation

The specific course requirements and total hours required for the bachelor’s degree vary with the student’s major program. Detailed requirements for each program are shown in the specimen curricula in the Courses of Study section. If graduation requirements change during the time students are in school, they may elect to be bound by the requirements published in the catalog in either their entering or their graduating year.

Transfer Credit

It is the student’s responsibility to provide all information needed for an assessment of the program for which transfer of credit is requested. Work transferred to Vanderbilt from another institution will not carry with it a grade point average. No course in which a grade below C− was received will be credited toward a degree offered by the School of Engineering.

Transfer students must complete at least 60 hours of work at Vanderbilt. Two of the semesters must be the senior year.

Summer Work at Another Institution

Work that a student contemplates taking at a summer school other than Vanderbilt is treated as transfer work and must be approved in advance in writing by the student’s adviser and the associate dean in the School of Engineering, at which time a course description must be submitted. A course a student has taken at Vanderbilt may not be repeated in another institution to obtain a higher grade.

Credit by Examination

In certain circumstances students may be awarded course credit by departmental examination. (This procedure is distinct from the award of credit through the College Board Advanced Placement Examinations, taken prior to a student’s first enrollment at Vanderbilt or another college.)

Students who want to earn credit by departmental examination should consult the associate dean concerning procedures. To be eligible, students must be in good standing.

Students must obtain the approval of the chair of the department that is to give the examination and of the instructor designated by the chair. Students may earn up to 8 hours of credit by examination in any one department, although this limitation might be raised on petition to the Administrative Committee. Students may attempt to obtain credit by examination no more than twice in one semester, no more than once in one course in one semester, and no more than twice in one course.

Credit hours and grade are awarded on the basis of the grade earned on the examination, subject to the policy of the department awarding credit. Students have the option of refusing to accept the credit hours and grade after learning the results of the examination.

Students enrolled for at least 12 hours are not charged tuition for hours for which credit by examination is awarded, so long as the amount of credit falls within the allowable limits of an 18-hour tuition load, including no-credit courses dropped after the change period of registration. Students in this category must pay a fee of $50 for the cost of administering the examination. Full-time students with a tuition load exceeding 18 hours and students taking fewer than 12 hours pay tuition at the regular rate with no additional fee.

Registration

A period is designated in each semester during which continuing students, after consultation with their advisers, register for work to be taken during the next term. Students can access both their registration appointment times and the registration system via YES (Your Enrollment Services) at yes.vanderbilt.edu.

Auditing

Regularly enrolled students in the School of Engineering who want to audit courses in any of the undergraduate schools of the university must get the written consent of the instructor to attend the class but do not register for the course for credit. Forms are available from the School of Engineering Office of Academic Services. No permanent record is kept of the audit. Regular students may audit one class each semester.

Change of Course

During the change period of registration as defined in the Academic Calendar, students may add or drop courses without academic penalty after securing approval from their adviser. After the change period, new courses may not be added, except under very unusual circumstances and with the approval of the adviser, the course instructor, and the associate dean.

A student may drop a course without entry on the final record, provided the course is dropped during the change period of registration. After the first week of classes and extending to the end of the eighth week, a course may be dropped with approval of the student’s adviser; a W (withdrawal) will be recorded.

To drop a course or change sections after the change period ends, the student must procure a Change of Course form from the Office of Academic Services. The student then obtains the signature of his or her adviser and of all instructors involved in the proposed change and returns the form to the Office of Academic Services.
Examinations
Examinations are usually given at the end of each semester in all undergraduate courses except for certain laboratory courses or seminars. Exams will be no longer than three hours in length and are given according to the schedule published in the Schedule of Courses (the School of Engineering does not offer an alternate examination schedule). All examinations are conducted under the honor system.

Residence Requirements
A minimum of four semesters including the last two semesters shall be spent in residence in the School of Engineering. During these four or more semesters, the student must have completed at least 60 semester hours of an approved curriculum in one of the degree programs. In unusual cases, an exception to this requirement may be made by the Administrative Committee upon the recommendation of the department concerned.

Class Standing
To qualify for sophomore standing, a student must earn a minimum of 24 hours and maintain a grade point average of at least 1.8 and have completed two regular semesters. For the purposes of class standing, a regular semester is defined as any fall or spring term in which a student is registered for at least 12 hours. Freshmen who fail to qualify for sophomore standing after two semesters are placed on probation. Freshmen who fail to qualify for sophomore standing in three semesters may be dropped.

To qualify for junior standing, a student must earn a minimum of 54 hours and maintain a grade point average of at least 1.9 and have completed four regular semesters. Sophomores who fail to qualify for junior standing at the end of two semesters after qualifying for sophomore standing are placed on probation. A student who has been on probation for failure to qualify for junior standing and who does not qualify for junior standing in one extra semester may be dropped.

A student who has qualified for junior standing has two semesters to qualify for senior standing. Senior standing requires the completion of 86 hours and a minimum grade point average of 2.0 and the completion of six regular semesters. Juniors who do not qualify for senior standing at the end of the second semester after qualifying for junior standing will be placed on probation. A student who has been on probation for failure to qualify for senior standing and who does not qualify for senior standing in one extra semester may be dropped.

Seniors who do not qualify for graduation at the end of the second semester after being promoted to the senior class will be placed on probation and given one more semester to complete the graduation requirements. A senior who has been on probation for failing to complete the graduation requirements and who fails to complete the requirements in one additional semester may be dropped.

Probation
A freshman who fails to complete 9 hours and earn a 1.7 grade point average during any semester is placed on probation. A sophomore, junior, or senior who fails to complete 12 hours and earn a 2.0 grade point average during any semester is placed on probation. The student is removed from probation after completing 12 hours and earning a 2.0 grade point average during any semester provided that sufficient credit hours are obtained for promotion to the next class.

Full-time sophomores are removed from probation after earning 12 hours and a 2.0 grade point average in a given semester, except that those who have not qualified for junior standing after two semesters as a sophomore must in the next semester fulfill the requirement for junior standing. Failure to do so will cause the student to be dropped.

A student who fails all courses in any semester will be dropped.

To remain in good standing, a student must pursue a program leading toward a degree in the School of Engineering. A student who is deemed by the Administrative Committee not to be making satisfactory progress toward a degree in engineering will be dropped.

A student authorized by the Administrative Committee to carry fewer than 12 hours because of illness or outside employment, or for some other valid reason, may be placed on probation if the student’s work is deemed unsatisfactory by the Administrative Committee and will be removed from probation when the committee deems the work satisfactory.

Class Attendance
Students are expected to attend all scheduled meetings of each class in which they are enrolled. At the beginning of each semester, instructors will explain the policy regarding absences in each of their classes. Students having excessive absences will be reported to the Office of the Dean. If class attendance does not improve thereafter, the student may be dropped from the class with the grade W, if passing at the time, or the grade F, if failing at the time. Class attendance may be a factor in determining the final grade in a course.

Scholarship Requirements
Those students having honor scholarships are expected to maintain a 3.0 grade point average while taking a minimum of 12 hours. Failure to maintain a 3.0 grade point average each year will result in the cancellation of the scholarship.

Grade Reports
A grade report will be available to the student on Academic Record in YES as soon as possible after the conclusion of each semester. This report will give the total hours and grade points earned during the semester, as well as the cumulative hours and grade points earned through that semester. Students should examine these reports carefully and discuss them with their faculty advisers. Any errors should be reported immediately to the Office of Academic Services of the School of Engineering.

A grade reported and recorded in the Office of the University Registrar may be changed only upon written request of the instructor and with approval of the Administrative Committee. The committee will approve such a change only on certification that the original report was in error.

Undergraduate Enrollment in Graduate Courses
A qualified Vanderbilt junior or senior may enroll in courses approved for graduate credit by the graduate faculty. Credit from such courses may be applied to undergraduate degree requirements or, upon the student’s admission to the Vanderbilt University Graduate School, toward a graduate degree. Vanderbilt cannot guarantee that another graduate school will grant credit for such courses. The principles governing this option are as follows:
1. Work taken under this option is limited to courses numbered 5000 and above and listed in the catalog of the Graduate School, excluding thesis and dissertation research courses and similar individual research and reading courses.

2. The student must, at the time of registration, have a 3.5 grade point average in the preceding two semesters.

3. The total course load, graduate and undergraduate courses, must not exceed 18 hours in that semester.

4. The student must obtain the written approval of their academic adviser and the instructor of the course on a form available in the Office of Academic Services.

5. Permission for Vanderbilt undergraduates to enroll in graduate courses does not constitute a commitment on the part of any program to accept the student as a graduate student in the future.

6. An undergraduate student exercising this option will be treated as a graduate student with regard to class requirements and grading standards.

Reserving Credit for Graduate School

1. Undergraduate students who want to count credit earned in a course numbered 5000 and higher for graduate credit must at the time of registration declare their intention on a form available in the Office of Academic Services.

2. The work must be in excess of that required for the bachelor’s degree.

3. All of the criteria detailed above regarding the enrollment by undergraduates in graduate courses apply under this option.

Leave of Absence

A student at Vanderbilt or one who has been admitted to Vanderbilt may, with the approval of his or her academic dean, take an official leave of absence for as much as two semesters and a summer session. Leave of absence forms are available in the Office of Academic Services. A student who fails to register in the university at the end of the leave will be withdrawn from the university.

Change of Address

Any change of address should be reported to the School of Engineering Office of Academic Services or the Office of the University Registrar. The university will consider notices or other information delivered if mailed to the address on file in YES.

Normal Program of Study

The normal program of study is 12 to 18 hours per semester. Students must be authorized by the Administrative Committee to register for fewer than 12 hours.

Withdrawal from the University

A student proposing to withdraw from the university must notify the Office of Academic Services of the School of Engineering so that proper clearance may be accomplished and that incomplete work is not charged as a failure against the student’s record.
Courses of Study

Hours are semester hours. The bracketed \([3]\) indicates 3 semester hours of credit for one semester, and \([3–3]\) for a two-semester course.

2000–2999: Intermediate undergraduate courses. May have prerequisite courses.
3000–4999: Upper-level undergraduate course. Usually have prerequisite courses.
5000+: Courses for graduate credit.

W symbols used in course numbers designate courses that meet departmental writing requirements.

The Freshman Year

The freshman year curriculum for all of the engineering disciplines is:

THE foundations of biomedical engineering are the same as those in other engineering disciplines: mathematics, physics, chemistry and engineering principles. Biomedical engineering builds on these foundations to solve problems in biology and medicine over the widest range of scales—from the nanoscale and molecular levels to the whole body. Biomedical engineering provides a robust platform for employment in the medical device and instrumentation industries as well as careers in companies that specialize in the development and application of biologics, biomaterials, implants and processes. Our graduates gain entry into nationally recognized graduate schools for continuing studies in biomedical engineering. Biomedical engineering is also a rigorous path for students willing and able to excel in mathematics, physics, chemistry, biology, physiology, and engineering.

The Department of Biomedical Engineering at Vanderbilt is unique among biomedical engineering programs in its immediate proximity to the world class Vanderbilt Medical Center, located on our compact campus. Our School of Medicine is among the top ten in funding from the National Institutes of Health and includes a National Cancer Institute-recognized Comprehensive Cancer Center, a major children’s hospital and a Level I trauma center. This proximity and the strong relationships among faculty across multiple schools stimulate high impact research and provide unique educational and research opportunities for students.

Degree Programs. The Department of Biomedical Engineering offers courses of study leading to the B.E., M.S., M.Eng., and Ph.D. Vanderbilt biomedical engineering is a well established program with undergraduate degrees granted continuously since 1965. Our undergraduate curriculum undergoes regular review and revision to ensure relevancy and to maintain full ABET accreditation. Students have complete flexibility in the selection of biomedical engineering, technical, and open electives. This allows focus and depth in areas such as biomaterials and tissue engineering, biomedical imaging, biophotonics, bionanotechnology, modeling, therapy guidance systems, and biomedical instrumentation. Double majors with electrical engineering and with chemical engineering are available.

Facilities. The Department of Biomedical Engineering is located in Stevenson Center. Undergraduate instructional laboratories are equipped for study of biomedical processes, measurement methods and instrumentation. These facilities are equipped with embedded systems for instrumentation, design, and testing that mirror professional practice. Specialized facilities for biomedical imaging, biophotonics, surgery and engineering, regenerative medicine, nanobiotechnology, and nanomedicine are used both for faculty-led research and instructional purposes.

Undergraduate Honors Program. With approval of the Honors Program director, junior and senior students in biomedical engineering who have achieved a minimum grade point average of 3.5 may be accepted into the undergraduate Honors Program. Students in the program take at least 6 credit hours of 5000-level or above (graduate) biomedical engineering courses, which can be counted toward the 127-hour undergraduate degree requirements as biomedical engineering electives or which can be taken for graduate school credit. Students in the Honors Program must also complete a two-semester-long research project and present a research report; this is generally accomplished through the BME 3860 and 3861 Undergraduate Research elective courses. Honors students must make a grade point average of 3.0 in these classes and maintain an overall 3.5 GPA to be designated as an honors graduate. The diploma designation is Honors in Biomedical Engineering.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in biomedical engineering requires a minimum of 127 hours, distributed as follows:

1. Mathematics (15 hours): MATH 1300, 1301, 2300, 2400.
2. Basic Science (20 hours): CHEM 1601/1601L, 1602/1602L; PHYS 1601/1601L, 1602/1602L; BSCI 1510/1510L.
3. Introductory engineering and computing (6 hours): ES 1401, 1402, and 1403, and either CS 1103 (preferred) or CS 1101.
4. Electrical engineering (7 hours): EECE 2112, 2213, 2213L.
5. Biomedical engineering (31 hours): BME 2100, 2200, 3000, 3100, 3101, 3200, 3300, 4900W, 4950, 4951, 4959.
6. Biomedical engineering electives (12 hours) comprising:
   i) BME elective courses numbered 2210 and higher.
   ii) Up to 3 hours total of BME 3860, 3861. An additional 3 hours of BME 3860-3861 may be used as technical electives.
iii) Any one of the following: CHBE 4500, 4810, 4870; EECE 3214, 4353, 4354; ENVE 4610; ME 2220. This option does not apply to BME/EE double majors.

iv) BME graduate courses, with the exception of BME 8991–8994, provided the student has a 3.5 GPA and appropriate permissions.

7. Technical electives (12 hours) comprising:
   i) BME electives taken above the 12 credit hour minimum. Up to 3 hours of BME 3860–3861 or other independent study courses in the School of Engineering may be taken as technical electives.
   ii) Courses in the School of Engineering except CHBE 3300, CE 2200, CS 1151, ENGM 2440, ME 2171, and listings in Engineering Science.
   iii) Courses numbered 2000 or higher in the College of Arts and Science listed in the mathematics and natural sciences (MNS) AXLE distribution category except MATH 2610, 2810, 2820, 3000, and PHYS 2805 (if credit is given for BME 4400).
   iv) BSCI 1511, 1511L.
   v) NURS 1500, 1601–1602, 5105.

8. Liberal Arts Core (18 hours) to be selected to fulfill the Liberal Arts Core requirements listed under Degree Programs in Engineering.

9. Open electives (6 hours).

Undergraduates in biomedical engineering may apply the pass/fail option only to courses taken as liberal arts core or open electives, subject to school requirements for pass/fail.

**Double Majors**

I. The double major in biomedical and electrical engineering requires a minimum of 129 semester hours. The requirements include those numbered 1, 2, 3, 5, and 8 for the B.E. in biomedical engineering and the following:

a. Biomedical engineering electives (3 hours): BME elective courses numbered 2210 and higher.

b. Electrical engineering (21 hours): EECE 2112, 2116, 2116L, 2213, 2213L, 3214, 3233, 3235, 3235L.

c. Electrical engineering electives (15 hours) selected as described by item 6 of the Curriculum Requirements in the electrical engineering section of the catalog, but totaling at least 15 hours. Students must complete at least two courses in each of the two areas of concentration listed under electrical engineering in the Undergraduate Catalog. At least one course must be a domain expertise course as designated in the catalog. BME 3300 may be included toward satisfying the area of concentration requirement but cannot be counted as an electrical engineering elective.

A specimen curriculum for the double major with electrical engineering can be found on the biomedical engineering department’s website.

II. The double major in biomedical and chemical engineering requires a minimum of 131 hours and is described in the chemical engineering section of the catalog under its curriculum requirements.

ADJUNCT INSTRUCTOR Bryan R. Beyer

CHEMICAL engineers play key roles in the development and production of commodity chemicals, pharmaceuticals, and bioengineered materials, high strength composites and specialty polymers, semiconductors and microelectronic devices, and a wide range of ultrapure fine chemicals. Indeed, chemical engineering is essential for the operation of contemporary society. The solutions to many of the problems that we face today—e.g., energy, the environment, development of high-performance materials—will involve chemical engineers.

The undergraduate program in chemical engineering prepares students to contribute to the solution of these and similar problems. Graduates find meaningful careers in industry, in government laboratories, and as private consultants. Some continue their education through graduate studies in chemical engineering, business, law, or medicine.

Mission. The mission of the Department of Chemical and Biomolecular Engineering is to educate those who will advance the knowledge base in chemical engineering, become practicing chemical engineers, and be leaders in the chemical and process industries, academia, and government; to conduct both basic and applied research in chemical engineering and related interdisciplinary areas; and to provide service to the chemical engineering profession, the School of Engineering, Vanderbilt University, the country, and the world.

Degree Programs. The Department of Chemical and Biomolecular Engineering offers the bachelor of engineering in chemical engineering and graduate study leading to the M.Eng., M.S., and Ph.D.

Undergraduate chemical engineering students acquire a solid background in mathematics, chemistry, biology, and physics. The chemical and biomolecular engineering program has as its basis courses in transport phenomena, thermodynamics, separations, and kinetics. Other courses deal with the principles and techniques of chemical engineering analysis and design, along with economic analysis, process control, chemical process safety, and engineering ethics. Laboratory courses offer the student an opportunity to make fundamental measurements of momentum, heat, and mass transport and to gain hands-on experience with bench scale and small scale pilot-plant apparatus, which can be computer controlled. Report writing is a principal focus in the laboratory courses. Many students have the opportunity to carry out individual research projects.

A specimen curriculum for a chemical engineering major follows. This standard program includes a number of elective courses. Students, in consultation with their faculty advisers, may choose elective courses that maintain program breadth or may pursue a minor or focus area with their chemical engineering major. Specimen curricula with emphases in specific areas are available on the department website. Double majors may be arranged in consultation with a faculty adviser.

The chemical and biomolecular engineering department recommends that students consider taking the Fundamentals of Engineering Examination (FE) in their senior year. This is the first step in obtaining a license as a professional engineer. The following courses are recommended for preparation for the FE: EECE 2112, CE 2280, and ME 2190.

Undergraduate Honors Program. The Honors Program in chemical engineering provides an opportunity for selected students to develop individually through independent study and research. General requirements are described in the Special Programs chapter. The chemical and biomolecular engineering department requires a minimum overall GPA of 3.5. Acceptance to the program is made by petition to the faculty during the junior year. Transfer students may be considered for admission after completing one semester at Vanderbilt. Candidates for honors choose their technical courses with the consent of a faculty honors adviser. Requirements include at least 6 hours of CHBE courses numbered 3000 or above, plus 6 hours of CHBE 3860 and 3861 taken in the junior and/or senior year under the direction of a faculty honors adviser. A formal written research report is submitted each semester. CHBE 3860 or 3861 is taken with a final report and presentation given in the spring semester of the senior year to the CHBE faculty and students. The diploma designation is Honors in Chemical Engineering.

Facilities. The chemical and biomolecular engineering department is located in Olin Hall of Engineering. Departmental laboratories are equipped for study of transport phenomena, unit operations, kinetics, and process control. Current research...
areas for which facilities are available include molecular modeling; adsorption and surface chemistry; biochemical engineering and biotechnology; materials; energy and the environment.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in chemical engineering requires a minimum of 126 hours, distributed as follows:

1. Mathematics (14 hours): MATH 1300, 1301, 2300, 2420.
4. Liberal Arts Core (18 hours). To be selected to fulfill the Liberal Arts Core requirements listed in the Degree Programs in Engineering.
5. Chemical and Biomolecular Engineering (39 hours): CHBE 2100, 2200, 2250, 3200, 3250, 3300, 3350, 3600, 3900W , 4900W , 4950W , 4951W , 4959.
6. Science electives (6 hours): BSCI 1510 or CHBE 2150; CHEM 3300 (preferred) or BSCI 2201 or BSCI 2520.
7. Chemical and Biomolecular Engineering electives: 6 hours selected from CHBE courses numbered 4000 and above.
8. Technical electives (6 hours). To be selected from: a) courses in BME, CHBE, CE, CS, EECE, ENVE, ME, MSE, NANO, and SC, except BME 2201 and CS 1151; b) courses numbered 1500 or above in the College of Arts and Science listed in the mathematics and natural sciences (MNS) AXLE distribution category; and c) ENGM 2160, 3000, 3010, 3100, 3300, 3650, 3700, 4500.
9. Open electives (7 hours).

Undergraduates in chemical engineering, including double majors with chemical engineering, may apply the pass/fail option only to courses taken as open electives, subject to the school requirements for pass/fail. No more than 6 total hours of CHBE 3860 and 3861 may be applied toward degree requirements.

Double Majors

I. The double major in chemical engineering and biomedical engineering requires a minimum of 131 semester hours. The requirements include those numbered 2, 3, and 4 for the B.E. in chemical engineering and the following:
   a) Mathematics (15 hours): MATH 1300, 1301, 2300, 2400.
   b) Biology (4 hours): BSCI 1510, 1510L.
   c) Chemical and Biomolecular Engineering (26 hours): CHBE 2100, 2200, 3200, 3250, 3300, 3350, 3900W , 4950W .
   d) Biomedical Engineering (25 hours): BME 2100, 2200, 3100, 3101, 3300, 4900W , 4950, 4951, 4959.
   e) Electrical Engineering (7 hours): EECE 2112, 2213, 2213L.
   f) CHBE elective: 3 hours selected from CHBE 4500, 4810, 4820.
   g) BME elective: 3 hours selected from BME courses numbered above 2000 except BME 2201, 3000, 3200, 6110, 8991–8994.

II. The double major in chemical engineering and chemistry requires a minimum of 130 semester hours. The requirements include those numbered 1, 2, 3, 4, and 7 for the B.E. in chemical engineering and the following:
   a) Chemical and Biomolecular Engineering (36 hours): CHBE 2100, 2200, 2250, 3200, 3250, 3300, 3350, 3900W , 4950W , 4951W , 4959; CHBE 3600 or 4830.
   b) Chemistry (23 hours): CHEM 2100, 2100L, 3000, 3300, 3315, 4965, 4966; BSCI 1510 or CHBE 2150; BSCI 2520.
   c) Engineering Elective: 3 hours selected from courses numbered 2000–3800 or 3890 and above in BME, CHBE, CE, EECE, ENVE, and ME, except BME 2201 and 3830.

VANDERBILT'S Department of Civil and Environmental Engineering offers a broad-based education in civil and environmental engineering fundamentals, coupled with development of leadership, management, and communications skills to establish a foundation for lifelong learning and flexible career development. This goal requires going beyond technical competence in a balanced education to develop future leaders in the fields of consulting, industry, business, law, government, and research. Civil engineers must be able to face complex problems of modern society involving the development of physical facilities that serve the public while protecting the environment and preserving social values. Challenges facing civil and environmental engineers concern housing, urban transportation, pollution control, water resources development, industrial development, maintaining and advancing our nation's aging infrastructure, and exploring space. Addressing these challenges with today's limited resources requires innovative and original ideas from highly-skilled engineers.

Undergraduates majoring in civil engineering receive a strong background in mathematics, science, engineering science, and engineering design. The program also includes courses in economics, humanities, social sciences, resources management, and public policy. Students participate in design teams and laboratory studies as well as classroom activities. Use of various computer-based methods is integral to problem solving and design.

Degree Programs. At the undergraduate level, the Department of Civil and Environmental Engineering offers the B.E. in civil engineering. The curriculum includes upper-level analysis and design courses in structural, geotechnical, environmental, water resources, and transportation engineering. In addition, a major in chemical engineering with a minor in environmental engineering is available.

Vanderbilt’s B.E. in civil engineering prepares students for entry-level positions in many specialty areas of civil engineering, as well as many other types of careers, such as business, construction, and law. Today, however, and even more so in
the future, professional practice at a high level will require an advanced degree. We recommend that students seriously consider pursuing the M.S. or M. Eng. soon after obtaining the B.E.

At the graduate level, the department educates leaders in infrastructure and environmental engineering research and practice, with emphasis on the use of reliability and risk management. Reliability and risk management includes engineering design, uncertainty analysis, construction and repair, life-cycle and cost-benefit analysis, information management, and fundamental phenomena intrinsic to the understanding of advanced infrastructure and environmental systems. Example applications include performance, reliability and safety of structures, restoration of contaminated sites, transportation control systems, management of environmental resources, and enhancement of the eco-compatibility of industry. Development and application of advanced information systems as applied to civil and environmental engineering needs is an important part of the program.

The graduate program in civil engineering offers the M.S. and Ph.D., with emphasis in the areas of structural engineering and mechanics and transportation engineering.

The graduate program in environmental engineering offers the M.S. and Ph.D. in the areas of environmental engineering and environmental science, with emphasis in water resources, quality, and treatment; resilience and sustainability; nuclear environmental engineering; and environmental materials and materials durability. Both thesis and non-thesis options are available at the M.S. level.

The graduate programs in both civil engineering and environmental engineering also offer the master of engineering (M.Eng.), an advanced professional degree especially designed for practicing engineers wanting to pursue post-baccalaureate study on a part-time basis, and for engineers seeking greater emphasis on engineering design as part of graduate education.

B.E./M.Eng. Five Year Program. Students seeking advanced study in civil and environmental engineering may be interested in the combined B.E./M.Eng., enabling students to complete the B.E. in civil engineering and M.Eng. in civil engineering or environmental engineering in five years.

Construction Management Five Year Program. Students seeking advanced study in construction management may be particularly interested in the combined B.E./M.Eng., enabling students to complete the B.E. in civil engineering and M.Eng. in civil engineering (construction management emphasis) in five years.

Undergraduate Honors Program. Recognized with the diploma designation Honors in Civil Engineering, exceptional students may be invited in their junior year to participate in the civil engineering Honors Program. Designed as a unique individualized educational experience, participants work closely with departmental faculty members to tailor a selection of courses that actively immerses them in a selected field of study. Experiences include enrollment in a 3 semester hour independent study course and participation in a summer research internship. Honors Program participants are especially well-prepared to enter graduate study, and they may count the independent study course towards their civil engineering technical electives.

Facilities. The civil engineering laboratory provides for static and dynamic testing of materials and structural components and assemblies. Testing facilities include capabilities of testing composites, metals, and concrete under static loads, fatigue, base acceleration (to simulate seismic events) and intermediate to high speed impacts (to simulate responses to blast events). Full soils testing facilities are available. Hydraulics facilities include several model flow systems to illustrate principles of fluid mechanics and hydrology. The transportation laboratory is computer-based, with emphasis on transportation systems and design, intelligent transportation systems, and geographic information systems.

The environmental laboratories are fully supplied with modern instrumentation for chemical, physical, biological, and radiological analysis of soils, sediments, water, wastewater, air, and solid waste. They include equipment for the study of biological waste treatment, physical-chemical waste treatment, contaminant mass transfer, and state-of-the-art instrumentation for gas and liquid chromatography, mass spectroscopy, atomic absorption spectroscopy, gamma spectroscopy, inductively coupled plasma mass spectroscopy, gas adsorption (for pore structure determination), thermal mechanical analysis, modulated scanning differential calorimetry, and simultaneous thermal gravimetric analysis differential scanning calorimetry/mass spectroscopy. All are available for student use in courses, demonstrations, and research.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in civil engineering requires a minimum of 125 hours, distributed as follows:

1. Mathematics (14 hours). Required courses: MATH 1300, 1301, 2300, 2420.
2. Basic science (12 hours). Required courses: CHEM 1601/1601L, PHYS 1601/1601L, 1602/1602L.
3. Basic science elective (4 hours). To be selected from: (a) Biological Sciences courses numbered 1510 and above; (b) Earth and Environmental Sciences 1030, 1030L, 1510, 1510L, 3250, 3260, 3330, 3340; and (c) Materials Science and Engineering courses except MSE 3850, 3851, 3889, 3890.
4. Computing (3 hours). Required course: CS 1101 or CS 1103.
5. Engineering Fundamentals (26 hours). Required courses: ES 1401, 1402, 1403; CE 2101, 2200, 2205, 3700, 3700L; ENGM 2160; ME 2190; MSE 2205; ME 2220 or CHBE 2200 (students with interests in Environmental and Infrastructure Sustainability Engineering are encouraged to enroll in CHBE 2200).
6. Liberal Arts Core (18 hours). To be selected to fulfill the Liberal Arts Core requirements listed under Degree Programs in Engineering.
7. Open electives (6 hours).
8. Technical electives (3 hours). To be selected from: (a) all courses in BME, CHBE, CE, ENVE, EECE, ME, and ENGM 3000, 3010, 3200, 3650; (b) all courses acceptable as science electives as indicated above; (c) CHEM 1602 and above; and (d) PHYS courses above 2000 (astronomy not accepted); and (e) MATH 2410 or MATH 2600, and courses 2811 and above (except 3000). Students with an interest in Structural Engineering are encouraged to take MATH 2410 or MATH 2600 as their technical elective.
10. Civil Engineering Program Electives (6 hours). To be selected from: CE 3250, CE 3600, CE 4250, or ENVE 4615.
11. Civil Engineering Design Electives (6 hours). To be selected from: CE 4150, 4200, 4210, 4240, 4250, 4425, 4300, 4505, 4510; ENVE 4305, 4610, 4620, 4700, 4705, 4710, 4715, 4716, 4720, and CHBE 4899. Specific courses selections should be discussed with their academic adviser. Students desiring advanced topic coverage should also consider 5000-level courses, with approval of their adviser.

Undergraduates in civil engineering may apply the pass/fail option only to courses taken toward satisfying the liberal arts core, subject to the school requirements for pass/fail.

*To be selected toward satisfying the following degree requirements: 6 hours of Program Electives, 3 hours of Technical Electives, and 6 hours of Open Electives.
Pre-Architecture Program
Civil engineering students interested in pursuing architecture at the graduate level should include courses that emphasize a broad sense of art and architectural history, including courses in studio art. Before applying to graduate programs, students will need to develop a portfolio of creative work that generally includes drawing, prints, sculpture, photographs, and creative writing. Further information is available from the pre-architecture advisers: Professor Vesna Pavlović, Department of Art, and Professor Kevin Murphy, Department of the History of Art. In addition, the Vanderbilt student club, BLUEprint, seeks to educate and prepare students interested in this field.

Minor in Environmental Engineering
A minor in environmental engineering is available to all non-civil engineering students. It requires a total of 15 hours of environmental engineering courses, comprising 6 hours of required courses and 9 hours of electives, chosen from the following list:

Required Courses (6 hours)
- CE 3705 – Water Resources Engineering
- CE 4100 – Geographic Information Systems
- CHBE 4899 – Atmospheric Pollution
- ENVE 4605 – Environmental Thermodynamics, Kinetics, and Mass Transfer
- ENVE 4610 – Biological Processes in Environmental Systems
- ENVE 4615 – Environmental Assessments
- ENVE 4620 – Environmental Characterization and Analysis
- ENVE 4625 – Environmental Separations Processes
- ENVE 4700 – Energy and Water Resources
- ENVE 4705 – Physical Hydrology
- ENVE 4710 – Hydrology
- ENVE 4715 – Groundwater Hydrology
- ENVE 4720 – Surface Water Quality Modeling
- ENVE 4800 – Introduction to Nuclear Environmental Engineering

Minor in Energy and Environmental Systems
The minor in energy and environmental systems is designed to provide students with a working knowledge of the fundamentals of energy systems and their impact on the environment. The future health and well-being of humanity hinge in large part on smart production and use of energy, water, and related resources, as these are central determinants of climate change, habitable space, and human and ecological health. This program examines the relationships among individual, institutional, and societal choices for energy production and use, and the impacts and benefits of these choices on the environment and health through climate, water quality, and natural resources. It requires a total of 15 semester hours of course work, some of which may be taken as electives associated with the student’s major program. Five courses are required: two core courses and three elective courses distributed among three areas (at least one course from each of two areas): Area I: Energy Systems, Area II: Environmental Engineering, and Area III: Environmental Survey.

Required Courses (6 hours)
- ENVE 4615 – Environmental Assessments
- ENVE 4700 – Energy and Water Resources

Elective Courses (9 hours)

Area I: Energy Systems
- EECE 4267 – Power System Analysis
- ME 3890 – Special Topics: Nuclear Power
- ME 4260 – Energy Conversion I

Area II: Environmental Engineering
- CHBE 4899 – Atmospheric Pollution
- ENVE 4605 – Environmental Thermodynamics, Kinetics, and Mass Transfer
- ENVE 4620 – Environmental Characterization and Analysis
- ENVE 4710 – Hydrology
- ENVE 4800 – Introduction to Nuclear Environmental Engineering
- ME 4262 – Environmental Control

Area III: Environmental Survey
- ANTH 4154 – Energy, Environment, and Culture
- CE 4100 – Geographic Information Systems
- EES 2110 – Global Change and Global Issues
- SOC 3315 – Human Ecology and Society

Civil Engineering
Course descriptions begin on page 330.

Environmental Engineering
Course descriptions begin on page 334.

Computer Engineering
DIRECTOR OF UNDERGRADUATE STUDIES W. Timothy Holman

PROFESSOR OF THE PRACTICE Ralph W. Bruce

ASSISTANT PROFESSORS Abhishek Dubey, Taylor Johnson, Mathilee Kunda, Yevgeniy Vorobeychik, Jules White

ASSISTANT PROFESSORS OF THE PRACTICE Graham S. Hemingway, Amy S. Kauppila

RESEARCH ASSISTANT PROFESSORS Jack H. Noble, Brian D. Sierawski

ADJUNCT ASSISTANT PROFESSOR Andrew Sternberg

THE program in computer engineering deals with the organization, design, and application of digital processing systems as general-purpose computers or as embedded systems, i.e., components of information processing, control, and communication systems. The program provides a strong engineering background centered on digital technology combined with an understanding of the principles and techniques of computer science. Computer engineering is design-oriented. The basic principles of engineering and computer science are applied to the task at hand, which may be the design of a digital processor, processor peripheral, or a complete digital processor-based system. Whatever the undertaking, the comprehensive academic training in this program enables engineers to evaluate
the impact of their decisions, whether working with hardware, software, or the interface between the two.

The computer engineering program combines fundamental core requirements with flexibility to allow students to specialize in a variety of emphasis areas within the program. The curriculum includes requirements in the basic sciences, mathematics, and humanities; a primary core of hardware and software courses; and a set of electives that combine breadth and depth requirements as described below. Students who major in computer engineering who wish to apply for graduate study in electrical engineering or computer science are encouraged strongly to select their elective courses to demonstrate depth in that particular area; the structure of the program enables that option. The course of study leads to a bachelor of engineering.

Undergraduate Honors Program. With faculty approval, junior and senior students may be accepted into the Honors Program. To achieve honors status, the student must:

1. achieve and maintain a minimum GPA of 3.5.
2. complete 3 hours of undergraduate research (EECE 3860, 3861) with final written report.
3. complete 6 hours of EECE program elective credit from the following list:
   a. up to 3 additional hours of undergraduate research (EECE 3860, 3861), or
   b. design domain expertise (DE) courses beyond the one course required by the program, or
   c. 5000-level courses.

The diploma designation is Honors in Computer Engineering.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in computer engineering requires a minimum of 127 hours distributed as follows:

1. Mathematics (18 hours). Required courses: MATH 1300, 1301, 2300, 2400, 2810
3. Engineering Fundamentals (6 hours). Required courses: ES 1401, 1402, 1403, 2100W.
5. Computer Engineering Core (at least 26 hours). Required courses: EECE 2112, 2116/2116L, 2218/2218L and either 2213/2213L or 3214; CS 1101, 2201, 2231, and 3251.
6. Computer Engineering Electives (18 hours). Defined by a structure that includes the three Computer Engineering Areas of Concentration listed below. Students must complete at least two courses in each of two areas of concentration. Embedded Systems (Area 1) must include EECE 4376, Computing Systems and Networks (Area 2) must include CS 3281 and Intelligent Systems and Robotics (Area 3) must include EECE 4257. Students must complete at least one approved design domain expertise (DE) course as designated below. Other electives from any of the Areas of Concentration or approved undergraduate research (CS 3860-3861; EECE 3860-3861) to total 18 hours.

      NANO 3000
      SC 3250, 3260
   b. (0-9 hours). Up to 9 hours may be taken from this list of optional technical electives.
      ENGM 2160, 2210, 3000, 3100, 3300, 3650, 4500
      MSE 1500, 1500L (if CHEM 1602, 1602L is used for basic science requirement)
      Astronomy (except 1010, 1111, 2130)
      Biological Sciences (except 1111)
      Chemistry (except 1010, 1020, 1601, 1602, 1111)
      Earth and Environmental Sciences (except 1080, 1111, 2150)
      Mathematics 2410 and above
      Neuroscience 2201, 3269, 4961
      Physics above 2000
      Psychology 2100, 3780

9. Open Elective (3 hours).
    Undergraduates in computer engineering may apply the pass/fail option only to courses taken as open electives subject to the school requirements for pass/fail.

In addition to the bachelor of science, the master of science and doctor of philosophy are also awarded in computer science. Many students choose to double major in mathematics. Undergraduate Honors Program. The Honors Program provides recognition for select undergraduates who have experienced advanced study in computer science. Students who have an overall GPA of 3.5 or better, a GPA of 3.5 or better in computer science classes, and six hours of any combination of undergraduate research (CS 3860 and 3861) and 6000-level courses will be granted honors in the computer science program. The diploma designation is Honors in Computer Science.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.S. in computer science requires a minimum of 120 hours, distributed as follows:

1. Mathematics (20–22 hours). Required components:
   (a) Calculus/Linear algebra (14–16 hours). A sequence selected from the following:
      i. MATH 1200, 1201, 1301, 2300, and one of 2410 or 2600,
      ii. MATH 1300, 1301, 2300, and one of 2410 or 2600, or
      iii. MATH 1300, 1301, 2500, 2501
   (b) Statistics/Probability (3 hours): MATH 2810, 2820, or 3640.
   (c) Elective course (3 hours).

2. Science (12 hours). To be selected from the following list and include at least one laboratory course: BSCI 1100, 1101L, 1510, 1510L, 1511, 1511L, 2218, 2219; CHEM 1601, 1601L, 1602, 1602L; Earth and Environmental Sciences 1510, 1510L; MSE 1500, 1500L; PHYS 1601, 1601L, 1602, 1602L. Recommended: CHEM 1601, 1601L; PHYS 1601, 1602.

3. Introduction to Engineering (3 hours): ES 1401, 1402, 1403.

4. Liberal Arts Core (18 hours). To be selected to fulfill the Liberal Arts Core requirements listed in the Degree Programs in Engineering.

6. Computer Science Depth (12 hours). To be selected from computer science courses numbered 3000 or higher; EECE 4353, 4354, 4376 and no more than two from MATH 3320, 3620, 4600, 4620. A maximum of 6 hours may come from CS 3860, 3861. At least one course must be selected from CS 3259, 3922, 4269, 4279, 4287.
7. Computer Science Project Seminar (1 hour) CS 4959.
8. Technical Electives (6 hours). To be selected from courses numbered 2000 or higher within the School of Engineering (except ENGM 2440, ENGM 4800, ES 2700, and CS courses numbered below 3000); or courses numbered 2000 or higher in the College of Arts and Science listed in the mathematics and natural science (MNS) AXLE distribution requirements. Students are encouraged to note the two-course sequence EECE 4950-4951.
9. Open Electives (18–20 hours).
10. Computers and Ethics (3 hours) CS 1151. May be used to satisfy three hours from the Liberal Arts Core (#4) or Open Electives (#9).
11. Writing Component. At least one “W”-designated course or 1111 course in the English Language must be included from the Liberal Arts Core (#4) or Open Electives (#9).

Undergraduates in computer science may apply the pass/fail option only to courses taken as open electives, technical electives, or part of the liberal arts core, subject to the school requirements for pass/fail.

Second Major in Computer Science for Non-Engineering Students

The second major in computer science for students enrolled outside the School of Engineering requires 40 hours distributed according to items 5 and 6 of the curriculum requirements listed above.

Courses taken toward the second major may not be taken pass/fail.

Computer Science Minor

The minor in computer science requires 15 hours of computer science courses as follows:

1. Programming: CS 1101 3
2. Discrete Structures: CS 2212 3
4. One of CS 2231, CS 3250, or CS 3251 3
5. One additional CS course numbered 3000 or above 3

Total hours: 15

THE electrical engineer has been primarily responsible for the information technology revolution that society is experiencing. The development of large-scale integrated circuits has led to the development of computers and networks of ever-increasing capabilities. Computers greatly influence the methods used by engineers for designing and problem solving.

The curricula of the electrical engineering and computer engineering majors are multifaceted. They provide a broad foundation in mathematics, physics, and computer science and a traditional background in circuit analysis and electronics. Several exciting areas of concentration are available, including microelectronics, computer systems, robotics and control systems, and signal processing. Double majors may be arranged with some programs, including biomedical engineering and mathematics. Students receive an education that prepares them for diverse careers in industry and government and for postgraduate education.

Undergraduate Honors Program. With faculty approval, junior and senior students may be accepted into the Honors Program. To achieve honors status, the student must:

1. achieve and maintain a minimum GPA of 3.5.
2. complete 3 hours of undergraduate research (EECE 3860, 3861) with final written report.
3. complete 6 hours of EECE program elective credit from the following list:
   a. up to 3 additional hours of undergraduate research (EECE 3860, 3861), or
   b. design domain expertise (DE) courses beyond the one course required by the program, or
   c. 5000-level courses.

The diploma designation is Honors in Electrical Engineering.

Facilities. Electrical and computer engineering supports undergraduate laboratories emphasizing the principal areas of the disciplines: analog and digital electronics, microcomputers, microprocessors, microelectronics, and instrumentation. In addition, several specialized facilities are available for graduate research: the advanced carbon nanotechnology and diamond labs, the Institute for Software Integrated Systems, the Institute for Space and Defense Electronics, the Medical Image Processing Laboratory, the Center for Intelligent Systems and Robotics Laboratories, the Embedded Computer Systems Laboratory, and biomedical, biosensing, and photonics laboratories.

The work in electrical and computer engineering is supported by a variety of computers and networks, including the high-performance computing facilities of the Advanced Computing Center for Research and Education. Vanderbilt is one of the founding partners in the Internet II initiative.
Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in electrical engineering requires a minimum of 128 hours, distributed as follows:

1. Mathematics (18 hours). Required courses: MATH 1300, 1301, 2300, 2400, 2810.
2. Basic Science (16 hours). Required courses: CHEM 1601/1601L; PHYS 1601/1601L, 1602/1602L; MSE 1500/1500L (or CHEM 1602/1602L for some double majors).
3. Engineering Fundamentals (6 hours). Required courses: ES 1401, 1402, 1403, ES 2100W.
5. Electrical Engineering Core (24 hours). Required courses: CS 1101 or 1103; EECE 2112, 2116/2116L, 2213/2213L, 3214, 3233, 3235/3235L.
6. Electrical Engineering Electives (18 hours). Defined by a structure that includes the five Electrical Engineering Areas of Concentration listed below. Students must complete at least two courses in each of two concentration areas. Students must complete at least one approved design domain expertise (DE) course as designated below. Other EECE electives to total 18 hours.

Electrical Engineering Areas of Concentration

      Mathematics 2410 and above  
      Neuroscience 2201, 3269, 4961  
      Physics above 2000  
      Psychology 2100, 3780  
   b. (0–9 hours). Up to 9 hours may be taken from this list of optional technical electives.
      ENGM 2160, 2210, 3000, 3100, 3300, 3650, 4500  
      MSE 1500, 1500L (if CHEM 1602, 1602L is used for basic science requirement)  
      Double majors have special curricula that require more than 128 hours and a different distribution of electives. See the EECS webpage or the EECE double major adviser for these curricula.

A double major in electrical engineering and biomedical engineering is offered as a unitary BME-EE curriculum, which is described in the Biomedical Engineering section of the catalog under its curriculum requirements. It requires a minimum of 129 semester hours.

Undergraduates in electrical engineering, including double majors in electrical engineering, may apply the pass/fail option only to courses taken as open electives subject to the school requirements for pass/fail.

† Electrical engineering majors are encouraged to take EECE 2116 and EECE 2116L in the spring of their freshman year in lieu of CS 1101 or 1103, which may be taken in the sophomore year. CS 1101 is recommended over CS 1103 for electrical engineering majors; those who plan double majors should see their advisers.

‡ As described in Electrical Engineering Degree Requirements subsection 6. At least one design domain expertise (DE) course required prior to EECE 4951.

Course descriptions begin on page 340.
General Engineering

DIRECTOR Christopher J. Rowe
PROFESSORS OF THE PRACTICE David A. Owens, Kenneth R. Pence, Christopher J. Rowe, Julie E. Sharp
ASSOCIATE PROFESSORS OF THE PRACTICE David A. Berezov, Benjamin T. Jordan, Yiorgos Kostoulas
ASSISTANT PROFESSORS OF THE PRACTICE Graham S. Hemingway, Andrew Van Schaack
ADJUNCT INSTRUCTORS Julie S. Birdsong, Courtney L. Johnson

The Division of General Engineering administers the engineering science major, the engineering management minor, and the first-year introduction to engineering course. The division oversees non-traditional engineering study and advises students on course selection to meet specific career goals that traditional engineering majors may not provide.

Engineering Science Major (Bachelor of Science)

The engineering science major is flexible and interdisciplinary—offering students the opportunity to select a program of study to meet special interests or objectives. Many students choose a program of study in engineering management, communication of science and technology, various engineering concentrations, environmental science or materials science; however, students may develop unique plans of study to specialize in areas for which facilities and faculty competence exist but which are not covered within a single existing degree program at Vanderbilt. Engineering science graduates may establish careers in engineering or science, interface with engineers (e.g., in marketing and sales), or use their analytical and problem-solving skills to build future professional careers. Defined areas of concentration exist in engineering management, communication of science and technology, secondary education, and materials science and engineering. Individual programs have been developed for students interested in careers in engineering mathematics, environmental engineering, transportation engineering, teaching, technical communications, and other areas requiring nontraditional combinations of engineering courses. Because of the flexible nature of the engineering science programs of study, accreditation has not been sought for these programs of study, and engineering science majors will not qualify for engineering licensure in most states.

Engineering Management. Engineering management is an interdisciplinary program of study designed to give students the tools to manage technology development and innovation, to enhance manufacturing quality and productivity in a competitive international environment, and to implement these objectives successfully in an organization. Engineering management links engineering, science, and the management disciplines. In addition to the core science and math courses required of all engineering students, topics of study include entrepreneurship, human resources management, finance in technology-based organizations, technology strategy, communications, and operations.

Communication of Science and Technology. Many careers that are attractive to graduates of the engineering science program require the communication of engineering and science to people who are not technically trained. The Communication of Science and Technology interdisciplinary program prepares engineering students for careers in areas such as technical consulting, high-technology marketing and sales, environmental law, and journalism. The program combines traditional engineering and science courses with communications and humanities courses in a flexible curriculum. Engineering science majors may select from a set of program electives identified by the faculty committee of the School of Engineering and the College of Arts and Science that supervises the program.

Minors. Students may also pursue a minor consisting of at least five courses of at least three credit hours within a recognized area of knowledge. Minors are offered in engineering management, materials science and engineering, computer science, scientific computing, environmental engineering, energy and environmental systems, nanoscience and nanotechnology, and most disciplines within the College of Arts and Science. Students must declare their intention to pursue minors by completing forms available in the Office of Academic Services of the School of Engineering.

Curriculum Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Students must complete a minimum of 121 hours. In consultation with the academic adviser, each student must identify a program concentration containing a minimum of 24 hours, not counting certain introductory-level courses, which directly contributes to meeting stated career goals. Program concentrations are approved by the academic adviser and the program director, and become part of the student's degree audit. The preparation provided by this 24-hour package, together with a solid foundation in basic engineering courses, provides the engineering science student with a strong and useful career base.

The B.S. in engineering science requires a minimum of 121 hours distributed as follows:

1. Basic Science (16 hours). CHEM 1601/1601L plus 12 hours from the group BSCI 1510/1510L, 1511/1511L; CHEM 1602/1602L; PHYS 1601/1601L, 1602/1602L; or MSE 1500/1500L with two courses in a single discipline.

2. Mathematics (14 hours). Required courses (11 hours): MATH 1300, 1301, 2300. Electives (3 hours): to be selected from mathematics courses numbered 2400 and above.

3. Engineering (43 hours).
   a) Engineering Fundamentals (12 hours): CS 1101 or 1103; ES 1401, 1402, 1403, 2100W; ENGM 3700.
   b) Engineering Core (12 hours): To be selected from courses in any of the following disciplines: BME, CHBE, CE, CS, EECE, ENVE, MSE, ME, NANO, SC.
   c) Engineering Electives (15 hours): To be selected from any Engineering School courses (including ENGM).
   d) Senior Capstone (4 hours): ES 4951, ES 4959.

4. Liberal Arts Core (18 hours). To be selected to fulfill the Liberal Arts Core requirements listed under Degree Programs in Engineering.

5. Open Electives (6 hours).

6. Program Concentration (24 hours). In consultation with the academic adviser, each student must identify a meaningful sequence of courses, not counting certain introductory-level courses, which directly contributes to meeting stated career goals. Program concentrations are approved by the academic adviser and the program director in advance and become part of the student's degree audit.
No more than 24 credit hours of business-related course work (BUS, ENGM, FNEC, MGRL) may be applied to the ES degree program. Only one business-related minor (BUS, ENGM, FNEC, MGRL, HOD) may count to a student’s academic program.

Undergraduates in engineering science may apply the pass/fail option only to courses taken as liberal arts core or open electives, subject to the school requirements for pass/fail. UNIV courses are eligible for open elective credit only.

Course descriptions begin on page 344.

Engineering Management Minor

Engineering management is an interdisciplinary program of study designed to expose engineering students to the concepts and theories of the management of the engineering function, the critical elements of technology development and innovation, and the implementation of such ideas in manufacturing, engineering, and technology environments. Approximately two-thirds of all engineers spend a substantial portion of their professional careers as managers. In the complex, competitive world of technology-driven industry, skilled engineers who understand the essential principles of management and business have a competitive advantage.

The program in engineering management prepares students to work effectively in developing, implementing, and modifying technologies and systems. The ability to manage and administer large technical engineering and research projects and budgets will continue to challenge engineering management skills. Undergraduates interested in engineering management have two options. They may earn the B.E. in another engineering discipline with a minor in engineering management, or they may earn the B.S. in computer science or engineering science with engineering management as their area of concentration.

The engineering management minor is designed to provide a working knowledge of the fundamentals of management and innovation.

The minor program consists of 15 hours of course work, some of which may be taken as electives associated with the student’s major program. Five courses are required: four core courses and the remaining course chosen from a list of electives.

Program Requirements

The student must take the following four courses:
- ENGM 2210 Technology Strategy
- ENGM 2440 Applied Behavioral Science
- ENGM 3000 Enterprise Systems Design OR ENGM 3010 Systems Engineering
- ENGM 3700 Program and Project Management

The student must select one of the following courses:
- ENGM 2160 Engineering Economy
- ENGM 3100 Accounting and Finance for Engineers
- ENGM 3200 Technology Marketing
- ENGM 3300 Technology Assessment and Forecasting
- ENGM 3350 Organizational Behavior
- ENGM 3600 Technology-Based Entrepreneurship
- ENGM 3650 Operations and Supply Chain Management
- ENGM 4500 Product Development
- ENGM 4951 Engineering Management Capstone Project
- CE 4300 Reliability and Risk Case Studies
- ENVE 4305 Enterprise Risk Management

Course descriptions begin on page 343.

Materials Science and Engineering

DIRECTOR OF UNDERGRADUATE STUDIES Bridget R. Rogers
DIRECTOR OF GRADUATE STUDIES Eva Harth
PROFESSORS EMERITI Jimmy L. Davidson, Leonard C. Feldman, George T. Hahn, Donald L. Kinser, Taylor G. Wang, Robert A. Weller
PROFESSORS Weng Poo Kang, Sandra J. Rosenthal, Sharon M. Weiss
ADJOINT PROFESSOR James Bentley
ADJUNCT PROFESSOR Ashok Choudhury
ASSOCIATE PROFESSOR James E. Wittig
ASSISTANT PROFESSORS Rizia Bardhan, Leon M. Bellan
PROFESSOR OF THE PRACTICE Amrutur V. Anilkumar

MATERIALS are the limiting factor for most technological advances. The impact of materials on history is obvious, since technological progress in a given era is demarcated by the available materials. The Stone Age was followed by the Bronze Age and the Iron Age. The present period could be identified as the Silicon Age, which is only in its first century.

New materials allow for new technology and this is especially the case for the emerging field of nanoscience. As the size scale approaches nanometer dimensions, materials exhibit new and exciting physical properties. High performance metals, ceramics, polymers, semiconductors and composites are in demand throughout the engineering world and nanotechnology is proving to be the answer for many engineering problems. The U.S. National Science Foundation identified nanoscience and nanotechnology as a critical area for our future and created a national initiative to advance the processing and performance of nanomaterials. To accomplish these tasks, there is a need for specialists in materials science and engineering with an interdisciplinary background that combines engineering disciplines with the physical sciences.

The materials science and engineering program is integrated into the extensive ongoing nanotechnology research. The Vanderbilt Institute for Nanoscience and Engineering (VINSE) is at the center of this effort. Research areas include: nanofluidics, synthesis of semiconductor quantum dots, magnetic nanocrystals, nanoscale soft materials, optical properties of nanostructures, carbon nanotubes, nanodiamond devices, biological applications of nanocrystals, and molecular modeling and simulation of these nanoscale structures. This interdisciplinary research involves faculty from all of the engineering disciplines as well as faculty from chemistry, physics, and the medical school.

Two undergraduate options involving materials science and engineering are available. Students may pursue the B.S. in engineering science with materials science and engineering as their area of concentration or they may earn the B.E. in another engineering discipline with a minor in materials science and engineering.

Materials Science and Engineering Concentration

The B.S. in engineering science with a concentration in materials science and engineering requires satisfaction of the curriculum requirements of engineering science. The student must take 27 hours of materials science and engineering program electives that include MSE 1500 and MSE 2500 with the additional materials science related courses selected to provide a meaningful sequence that must be planned in advance and approved by the faculty adviser.
Materials Science and Engineering Minor

The minor in materials science and engineering is designated to provide the student with an understanding of engineering materials. The goal is to complement and add to the student’s major in one of the other engineering disciplines for an interdisciplinary approach to problem solving. The minor program in materials science and engineering requires 16 hours of program courses, of which 7 hours are devoted to MSE 1500/1500L and MSE 2500. No more than 10 hours below the 2500 level may be applied to the minor.

Program Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

MSE 1500, 1500L Materials Science I and Laboratory
MSE 2500 Materials Science II

The remaining 9 hours can be chosen from the following list of courses.

- MSE 3860 Undergraduate Research
- MSE 3889-3890 Special Topics
- BME 2100 Introductory Biomechanics
- BME 2200 Biomedical Materials: Structure, Property, and Applications
- BME 4200 Principles and Applications BioMicroElectroMechanical Systems (BioMEMS)
- BME 4500 Nanobiotechnology
- CHBE 4840 Applications of Nanostructures
- CHBE 4850 Semiconductor Materials Processing
- CHBE 4860 Molecular Aspects of Chemical Engineering
- CHBE 4870 Polymer Science and Engineering
- CHBE 4880 Corrosion Science and Engineering
- CE 2205 Mechanics of Materials
- CE 3205 Structural Design
- CE 4200 Advanced Structural Steel Design
- CE 4210 Advanced Reinforced Concrete Design
- CE 4211 Mechanics of Composite Materials
- EECE 4283 Principles and Models of Semiconductor Devices
- EECE 4284 Integrated Circuit Technology and Fabrication
- ME 3202 Machine Analysis and Design
- ME 4251 Modern Manufacturing Processes
- ME 4275 Introduction to Finite Element Analysis
- CHEM 3010 Inorganic Chemistry
- CHEM 3300 Physical Chemistry: Quantum Mechanics, Spectroscopy, and Kinetics
- CHEM 3630 Macromolecular Chemistry: Polymers, Dendrimers, and Surface Modification
- PHYS 2250W Introduction to Quantum Physics and Applications I
- PHYS 2290 Electricity, Magnetism, and Electrodynamics
- PHYS 3640 Physics of Condensed Matter

RESEARCH ASSISTANT PROFESSORS Shannon L. Foley, Kevin C. Galloway, Jason Mitchell, Scott J. Webster
ADJUNCT ASSISTANT PROFESSOR William A. Emfinger
ADJUNCT ASSISTANT PROFESSORS Isuru S. Godage, Carl A. Hall, Ray A. Lathrop, Tracie J. Prater

THE vitality of our nation depends upon innovation in the design of new machines, devices to satisfy society’s needs, engines to produce power efficiently, equipment to condition the environment of our buildings, and the systems to use and control these engineered products. Mechanical engineers are involved in solving problems by originating design concepts, developing products and processes of manufacture, and designing hardware and the systems needed to satisfy society’s demands. Mechanical engineers work in virtually all industries.

The study of mechanical engineering requires a basic understanding of mathematics, chemistry, physics, and the engineering sciences. Mechanical engineering education emphasizes solid mechanics; dynamics of machines; aerodynamics; propulsion devices; material behavior; power producing and environmental conditioning processes; control of dynamics of machines; energy conversion; and the synthesis, development, evaluation, and optimization of designs of devices and systems.

Degree Programs. The Department of Mechanical Engineering offers the B.E., M.Eng., M.S., and Ph.D. in mechanical engineering.

The curriculum in mechanical engineering leading to a bachelor of engineering provides a broad-based engineering education with opportunities for the student to elect courses in areas of study related to any industry and, with careful planning of the elective courses, to achieve some specialization. The mechanical engineering program prepares an individual to become a practicing engineer who can participate fully in the engineering activities of design, building, operation, production, maintenance, safety, marketing, sales, research, and administration.

Undergraduate Honors Program. See the Special Programs chapter for general requirements of the professional Honors Program in mechanical engineering. Honors candidates choose their technical elective courses with the advice and consent of an honors adviser. Each candidate is expected to
take 3 hours of ME 3860 in a single semester and at least 6 hours of graduate courses numbered 5000 or higher, including one course numbered 8000 or higher. A formal written honors thesis on the candidate's research must be approved by the honors adviser and the department chair. Honors candidates shall meet all Engineering School requirements in the nontechnical areas. The diploma designation is Honors in Mechanical Engineering.

**Facilities.** Undergraduate instructional laboratories are equipped for studies in heat and power, refrigeration and air-conditioning, fluid flow, heat transfer, design, controls, robotics, instrumentation, and biomechanics. Specialized facilities for robotic surgery, rehabilitation robotics, energy storage, medical microfluidics, thermal transport, combustion characterization, and photonics are used for both faculty-led research and instruction. The department also maintains various maker spaces including machine shops and design studios for fabrication of experimental equipment and for instruction.

**Curriculum Requirements**

**NOTE:** New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The B.E. in mechanical engineering requires a minimum of 126 hours, distributed as follows:

1. **Mathematics (17 hours).** Required courses: MATH 1300, 1301, 2300, 2420. Required elective: one from courses numbered 2410 and above, except 3000.
2. **Basic Science (16 hours).** Required courses: CHEM 1601/1601L, MSE 1500/1500L (or CHEM 1602/1602L), PHYS 1601/1601L, 1602/1602L.
3. **Engineering Science (25 hours).** Required courses: ES 1401, 1402, 1403; CE 2200, 2205; CS 1101 or CS 1103; EECE 2112; ME 2190, 2220, 3224; MSE 2205.
4. **Liberal Arts Core (18 hours).** To be selected to fulfill the Liberal Arts Core requirements listed in the Degree Programs in Engineering.
5. **Open electives (6 hours).**
6. **ME core (26 hours).** ME 2160, 2171, 3202, 3204, 3234, 3248, 4213, 4950, 4951, and 4959.
7. **Technical electives (9 hours).** To be selected from the following approved courses. Courses selected from the College of Arts and Science must be designated a Mathematics and Natural Sciences (MNS) course in the AXLE curriculum.
   a) Engineering courses except ENGM 2440, 3350, 4800, ES 2700, 2900, and CS 1151
   b) Mathematics courses numbered 2420 or higher except MATH 3000
   c) Chemistry courses numbered 2000 or higher
   d) Physics courses numbered 2000 or higher
   e) Astronomy courses
   f) Biological Science courses
   g) Earth and Environmental Science courses
   h) Neuroscience courses

At least 3 hours must be numbered 2000 or above.

8. **Professional (ME) depth (a minimum of 9 hours).** Each student must choose at least 9 hours of ME elective courses. No more than 6 hours of 3850 and 3860 combined can be credited toward ME depth electives.

No one-credit-hour ME course except 3841 can be used as a mechanical engineering elective. A maximum of three one-credit-hour ME courses may be used as technical electives. Additional ME one-credit-hour courses can be open electives. At least one “W”-designated course in the English language must be included on a graded basis.

Undergraduates in mechanical engineering may apply the pass/fail option only to non-departmental courses taken as open electives, technical electives, or part of the liberal arts core, subject to the school requirements for pass/fail.

RESEARCH ASSOCIATE PROFESSOR Anthony B. Hmelo (Physics)

RESEARCH ASSOCIATE PROFESSORS Bo Choi (Electrical Engineering), Dmitry Koktysh (Chemistry), James R. McBride (Chemistry)

FACULTY in the School of Engineering and the College of Arts and Science offer an interdisciplinary minor in nanoscience and nanotechnology. The minor is administered by the School of Engineering.

Nanoscience and nanotechnology are based on the ability to synthesize, organize, characterize, and manipulate matter systematically at dimensions of ~1 to 100 nm, creating uniquely functional materials that differ in properties from those prepared by traditional approaches. At these length scales, materials can take on new properties that can be exploited in a wide range of applications such as for solar energy conversion, ultra-sensitive sensing, and new types of vaccines. These activities require the integration of expertise from various areas of science and engineering, often relying on methods of synthesis, fabrication, and characterization that are beyond those encountered in an individual course of study.

Students who minor in nanoscience and nanotechnology learn the principles and methods used in this rapidly growing field. Its core originates in the physical sciences by providing key approaches for describing the behavior of matter on the nanoscale. Synthetic approaches are used to manipulate matter systematically, for creating uniquely functional functional materials that can be inorganic, organic, biological, or a hybrid of these. With a third component of characterization, a process for designing systems to have particular properties as a result of their composition and nanoscale arrangement emerges. Students are introduced to these areas through foundational and elective courses for the minor that are specified below, the latter of which can be selected to fulfill the degree requirements for their major.

The minor in nanoscience and nanotechnology is supported by the Vanderbilt Institute of Nanoscale Science and Engineering (VINSE) that brings together faculty from the College of Arts and Science, the School of Engineering, and the Medical Center. A specialized laboratory facility maintained by VINSE provides students in the minor with capstone experiences that allow them to prepare and characterize a variety of nanostructured systems using in-house state-of-the-art instrumentation. This hands-on laboratory component enhances the attractiveness of students to both employers and graduate schools.

Nanoscience and Nanotechnology Minor

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The minor in nanoscience and nanotechnology requires a total of 15 credit hours, distributed as follows.

1. CHEM 2610 or CHBE 4840. (3 hours)
2. NANO 3000. (3 hours)
3. PHYS 2660. (3 hours)
4. Elective courses. 6 hours selected from the following list of approved subjects.
   - BME 4200 Principles and Applications of BioMicro ElectroMechanical Systems (BioMEMS)
   - BME 4500 Nanobiotechnology
   - CHBE 4830 Molecular Simulation
   - CHBE 4840 Applications of Nanostructures
   - CHBE 4850 Semiconductor Materials Processing
   - CHBE 4860 Molecular Aspects of Chemical Engineering
   - CHBE 4870 Polymer Science and Engineering
   - CHBE 4880 Corrosion Science and Engineering
   - CHEM 2610 Introduction to Nanochemistry
   - CHEM 3300 Physical Chemistry: Quantum Mechanics, Spectroscopy, and Kinetics
   - CHEM 3630 Macromolecular Chemistry: Polymers, Dendrimers, and Surface Modification
   - CHEM 5610 Chemistry of Inorganic Materials
   - ECE 4283 Principles and Models of Semiconductor Devices
   - ECE 4284 Integrated Circuit Technology and Fabrication
   - ECE 4288 Optoelectronics
   - ECE 4385 VLSI Design
   - ECE 6306 Solid-State Effects and Devices
   - IMS 5320 Nanoscale Science and Engineering
   - ME 8320 Statistical Thermodynamics
   - ME 8323 Introduction to Micro/Nanoelectromechanical Systems
   - ME 8365 Micro/Nanoscale Energy Transport
   - MSE 6310 Atomic Arrangements in Solids
   - PHYS 2250 Introduction to Quantum Dynamics and Applications I
   - PHYS 3640 Physics of Condensed Matter

Courses taken to satisfy relevant degree requirements for majors in the College of Arts and Science and the School of Engineering may also be counted toward fulfilling the minor.
Scientific Computing

DIRECTORS Robert E. Bodenheimer, Thomas J. Palmeri, David A. Weintraub

Affiliated Faculty

PROFESSORS Ralf Bennartz (Earth and Environmental Sciences), Gautam Biswas (Electrical Engineering and Computer Science), Mario Crucini (Economics), Peter T. Cummings (Chemical and Biomolecular Engineering), Mark N. Ellingham (Mathematics), David Furbish (Earth and Environmental Sciences), Guilherme Gualda (Earth and Environmental Sciences), Gordon D. Logan (Psychology), Terry P. Lybrand (Chemistry and Pharmacology), Charles F. Maguire (Physics), Clare M. McCabe (Chemical and Biomolecular Engineering), Jens Meiler (Chemistry), Michael I. Miga (Biomedical Engineering), Mark Neamtu (Mathematics), Thomas J. Palmeri (Psychology and Neuroscience), Antonis Rokas (Biological Sciences), Jeffrey D. ASSISTANT PROFESSORS Tony Capra (Biological Sciences and Biomedical Informatics), William Holmes (Physics and Astronomy), Carlos Lopez (Cancer Biology), Sean Polyn (Psychology and Neuroscience), Jennifer Trueblood (Psychology)

ADJUNCT ASSISTANT PROFESSORS William R. French (Chemical and Biomolecular Engineering), Davide Vanzo (Chemistry)

FACULTY in the School of Engineering and the College of Arts and Science offer an interdisciplinary minor in scientific computing to help natural and social scientists and engineers acquire the ever-increasing computational skills that such careers demand. The minor is administered by the School of Engineering. Students who complete this minor will have a toolkit that includes programming skills useful for simulating physical, biological, and social dynamics, as well as an understanding of how to take advantage of modern software tools to extract meaningful information from small and large datasets.

Computation is now an integral part of modern science and engineering. In science, computer simulation allows the study of natural phenomena impossible or intractable through experimental means. In engineering, computer simulation allows the analysis and synthesis of systems too expensive, dangerous, or complex to model and build directly. Astronomers studying the formation of massive black holes, neuroscientists studying neural networks for human memory, mechanical engineers studying the designs of turbines and compressors, and electrical engineers studying the reliability of electronics aboard spacecraft are united both in the computational challenges they face and the tools and techniques they use to solve these challenges.

Students in the program in scientific computing are taught techniques for understanding such complex physical, biological, and also social systems. Students are introduced to computational methods for simulating and analyzing models of complex systems, to scientific visualization and data mining techniques needed to detect structure in massively large multidimensional data sets, to high performance computing techniques for simulating models on computing clusters with hundreds or thousands of parallel, independent processors and for analyzing terabytes or more of data that may be distributed across a massive cloud or grid storage environment.

Scientific computing at Vanderbilt is supported by faculty and includes students from a wide range of scientific and engineering disciplines. While the content domain varies, these disciplines often require similar computational approaches, high-performance computing resources, and skills to simulate interactions, model real-life systems, and test competing hypotheses. Scientific computing embodies the computational tools and techniques for solving many of the grand challenges facing science and engineering today.

The minor in scientific computing prepares students for advanced coursework that combines computational approaches with a substantive area of science or engineering. It prepares students for independent study with a faculty member on a research project. It prepares students for advanced study in graduate school. It provides skills that will be attractive to many employers after graduation.

The minor in scientific computing is distinct from the minor in computer science. Scientific computing uses computation as a tool to solve scientific and engineering problems in research and application. It is more focused on simulation, numerical techniques, high performance computing, and higher-level methods than the minor in computer science, which is focused on the algorithms, systems, and technologies that enable such methods to be developed and employed.

Scientific Computing Minor

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

The minor in scientific computing requires 15 credit hours, distributed as follows:

1. CS 1101 or 1103. (3 hours)
2. CS 2204 (CS 2201 may be substituted for 2204 with the approval of a program director). (3 hours)
3. Scientific Computing 3250. (3 hours)
4. 6 hours of electives. Electives include courses in the Scientific Computing (SC) minor, courses approved for SC credit that are in another subject area, courses that meet the approval of a director of the SC minor, and independent study with a faculty member affiliated with the SC minor.

SC 3260 High Performance Computing
SC 3850 Independent Study
SC 3851 Independent Study
SC 3890 Special Topics

Approved elective courses by subject are listed below. These electives provide a detailed treatment of core scientific computing tools and techniques or combine scientific computing tools and techniques with a substantive area of science or engineering. Electives require a significant amount of course work that involves coding solutions to scientific or engineering problems as opposed to running programs someone else wrote, downloaded, or purchased.

Engineering Courses

Biomedical Engineering

**BME 2100. Introductory Biomechanics.** [Formerly BME 101] Structure and mechanics of the musculoskeletal system and to the properties and strength of biological materials. Application of Newtonian mechanics, statics, and strength of materials to bone, muscle, tendon, other biological material, and medical devices. Credit offered for only one of BME 2100 or CE 2200. Prerequisite: PHYS 1601, MATH 1301, CS 1103. FALL. [3]

**BME 2200. Biomedical Materials: Structure, Property, and Applications.** [Formerly BME 103] Structure-property relationships in both natural and synthetic, hard and soft materials. Bio-inspired materials design, the role of self-assembly in achieving highly ordered structures, material design and properties for emerging biomedical applications, factors influencing biocompatibility, performance of biomaterials in both soft and hard tissues, and biological response to implants. Prerequisite: Chem 1602, BME 2100. SPRING. [3]

**BME 2201. Biomedical Engineering Ethics.** [Formerly BME 201] Ethical principles in the practice of biomedical engineering: responsibility in professional practice, health care, research and mentoring. Development of skills in perceptiveness, discernment, competency and visualization of alternatives through case studies. Prerequisite: Junior standing. FALL. [3] (Only available for open elective credit for biomedical engineering majors.) (Not currently offered)

**BME 3000. Physiological Transport Phenomena.** [Formerly BME 210] An introduction to the mechanics of fluids, heat transfer, and mass transfer in living systems. Basic theories of transport phenomena are presented and applied to mammalian and cellular physiology as well as to the design of medical devices. Prerequisite: BME 2100, 2200 or equivalent, MATH 2400 or 2420. [3]

**BME 3100. Systems Physiology.** [Formerly BME 251] An introduction to quantitative physiology from the engineering point of view. Descriptive physiology of several organ systems (nervous, musculoskeletal, cardiovascular, blood). Mathematical modeling and computer simulation of organ systems and physiologic control mechanisms. Prerequisite: CS 1103. Corequisite: BSCI 1510. FALL. [3]

**BME 3101. Systems Physiology.** [Formerly BME 252] An introduction to quantitative physiology from the engineering point of view. Descriptive physiology of several organ systems (immune, endocrine, respiratory, renal, gastrointestinal, reproductive). Mathematical modeling and computer simulation of organ systems and physiologic control mechanisms. Prerequisite: CS 1103. Corequisite: BSCI 1510. SPRING. [3]

**BME 3200. Analysis of Biomedical Data.** [Formerly BME 260] Application of modern computing methods to the statistical analysis of biomedical data. Sampling, estimation, analysis of variance, and the principles of experimental design and clinical trials are emphasized. Prerequisite: MATH 2300. SPRING. [3]

**BME 3300. Biomedical Instrumentation.** [Formerly BME 271] Methods to determine physiological functions and variables from the point of view of optimization in the time and frequency domain and the relation to physiological variability. Laboratory exercises stress instrumentation usage and data analysis. Three lectures and one laboratory. Prerequisite: EECE 2213 and 2213L. FALL, SPRING. [4]

**BME 3600. Signal Measurement and Analysis.** [Formerly BME 263] Discrete time analysis of signals with deterministic and random properties and the effect of linear systems on these properties. Brief review of relevant topics in probability and statistics and introduction to random processes. Discrete Fourier transforms, harmonic and correlation analysis, and signal modeling. Implementation of these techniques on a computer is required. Corequisite: BME 3200 or MATH 2810. SPRING. [3]

**BME 3830. Biomedical Engineering Service Learning and Leadership.** [Formerly BME 249] Identification of local and global human needs, methods of need quantification, implementation of engineering solutions, sustainability, preparation of grant proposals, leadership principles. Independent service project required. Prerequisite: Junior standing. FALL. [3]

**BME 3860. Undergraduate Research.** [Formerly BME 240A] Independent research, either experimental or theoretical in nature or a combination of both, under the supervision of a biomedical engineering faculty member or another faculty member approved by the course director. Prerequisite: Consent of course director. [1-3 each semester; maximum of 6 hours total for all semesters of BME 3860 and 3861.]

**BME 3861. Undergraduate Research.** [Formerly BME 240B] A continuation of the research in 3860 or research in a different area of biomedical engineering. Prerequisite: Consent of course director. [1-3 each semester; maximum of 6 hours total for all semesters of BME 3860 and 3861.]

**BME 3890. Special Topics.** [Formerly BME 290A] [3]

**BME 3891. Special Topics.** [Formerly BME 290B] [3]

**BME 3892. Special Topics.** [Formerly BME 290C] [3]

**BME 3893. Special Topics.** [Formerly BME 290D] [3]

**BME 4000. Bioelectricity.** [Formerly BME 256] Cellular basis of the electrical activity of nerve and muscle cells; action potential propagation; voltage- and ligand-gated ion channels; space, voltage, and patch clamp; and electrical, optical, and magnetic measurements of bioelectric activity in cells, isolated tissues, intact animals, and humans. Prerequisite: MATH 2400 or 2420, BSCI 1510. FALL. [3]

**BME 4200. Principles and Applications of BioMicro Electro Mechanical Systems (BioMEMS).** [Formerly BME 274] The principles, design, fabrication and application of micro- and nano-devices to instrument and control biological molecules, living cells, and small organisms, with a strong emphasis on development of microfabricated systems and micro- and nano-biosensors. Students will lead discussions from the research literature. Graduate students will prepare a research proposal or fabricate a functioning BioMEMS device. FALL. [3]

BME 4300. Therapeutic Bioengineering. [Formerly BME 275] Explores the engineering aspects of treating disease or disorders. Surgical mechanics, diffusion therapies including chemical and energy diffusion, image-guided therapies, and the role of discovery and design in the development of medical treatments. Prerequisite: EECE 2213, BME 3000. Corequisite: BME 2100, BME 3300. SPRING [3]

BME 4310. Modeling Living Systems for Therapeutic Bioengineering. [Formerly BME 279] Introduction to computer modeling and simulation in therapeutic bioengineering processes. Building computer models and using modern modeling software tools. Introduction to numerical techniques to solve differential equations and origin of mathematical models for biotransport, biomechanics, tumor/virus growth dynamics, and model-based medical imaging techniques. Prerequisite: MATH 2400 or MATH 2420, CS 1103 or equivalent, BME 2100 or equivalent mechanics course. SPRING [3]

BME 4400. Foundations of Medical Imaging. [Formerly BME 258] Physics and engineering of image formation by different modalities used for medical applications. Concepts common to different imaging modalities and limits of physical phenomena. Mathematical concepts of image formation and analysis; techniques for recording images using ionizing radiation (including CT), ultrasound, magnetic resonance, and nuclear (including SPET and PET). Methods of evaluating image quality. Prerequisite: PHYS 1602, 1602L, MATH 2400. Credit offered for only one of BME 4400 and PHYS 2805. SPRING [3]

BME 4410. Biological Basis of Imaging. [Formerly BME 276] Physical and chemical relationships between biological characteristics of tissue and image contrast in major medical imaging modalities. Imaging modalities include x-ray, MRI, PET, and ultrasound. Applications include neurological disorders, neurological function, cardiac function and disease, cancer, and musculoskeletal physiology. Prerequisite: PHYS 1602, MATH 2400. SPRING [3]

BME 4420. Quantitative and Functional Imaging. [Formerly BME 277] Quantitative analysis of non-invasive imaging techniques to assess the structure and function of tissues in the body. Applications of computed tomography, positron emission tomography, ultrasound, and magnetic resonance imaging to tissue characterization. Measurement of lesion volume, cardiac output, organ perfusion, brain function, and receptor density. Prerequisite: CS 1103, PHYS 1602, MATH 2400. FALL [3]

BME 4600. Introduction to Tissue Engineering. [Formerly BME 280] Basic principles, methods, and current topics in tissue engineering. Integration of biology, materials science, and biomechanics in the design and fabrication of engineered tissues. Biomaterials for scaffold, stem cell applications, bioreactor design, and practical methods for testing. Case studies and guest lectures from experts in the field. Prerequisite: BSCI 1510; CHEM 1602 or equivalent. FALL [5]

BME 4900W. Biomedical Engineering Laboratory. [Formerly BME 255W] Laboratory experiments in biomechanics, thermodynamics, biological transport, signal analysis, biological control, and biological imaging. Emphasis is on current methods, instrumentation, and equipment used in biomedical engineering; on oral presentation of results; and on writing comprehensive reports. One lecture and one three-hour laboratory per week. Prerequisite: BME 3100. Corequisite: BME 3000. [3]

BME 4950. Design of Biomedical Engineering Devices and Systems I. [Formerly BME 272] Integration of the engineering and life science backgrounds of senior biomedical engineering students through the presentation of design principles for medical devices and systems. Design principles and case examples for biomedical electronics, mechanical, chemical, and computing systems are presented. A full-semester design project is required. Evaluation is conducted through periodic oral and written presentations, and through a final written and poster report. Corequisite: BME 3300. Prerequisite: BME 3100. [2]

BME 4951. Design of Biomedical Engineering Devices and Systems II. [Formerly BME 273] Integration of the engineering and life science backgrounds of senior biomedical engineering students through the presentation of design principles for medical devices and systems. Design principles and case examples for biomedical electronics, mechanical, chemical, and computing systems are presented. A full-semester design project is required. Evaluation is conducted through periodic oral and written presentations, and through a final written and poster report. Prerequisite: BME 4950. [3]

BME 5100. Lasers in Surgery and Medicine. [Also listed as BME 4100] Fundamentals of lasers, light-tissue interaction, problem-based design of optical instrumentation. Applications in laser surgery, disease detection, and surgical guidance. Includes hands-on experiences. No credit for students who have earned credit for 4100. FALL [3]

BME 5110. Neuromuscular Mechanics and Physiology. [Also listed as BME 3110] Quantitative characterization of the physiological and mechanical properties of the neuromuscular system. Quantitative models of system components. Applications to fatigue, aging and development, injury and repair, and congenital and acquired diseases. No credit for students who have earned credit for 3110. SPRING [3]

BME 5130. Systems Physiology. [Also listed as BME 3100] An introduction to quantitative physiology from the engineering point of view. Descriptive physiology of several organ systems (nervous, musculoskeletal, cardiovascular, gastrointestinal). Mathematical modeling and computer simulation of organ systems and physiologic control mechanisms. No credit for students who have earned credit for 3100. FALL [3]

BME 5131. Systems Physiology. [Also listed as BME 3101] An introduction to quantitative physiology from the engineering point of view. Descriptive physiology of several organ systems (blood, immune, endocrine, respiratory, renal, reproductive). Mathematical modeling and computer simulation of organ systems and physiologic control mechanisms. No credit for students who have earned credit for 3101. SPRING [3]

BME 5200. Principles and Applications of BioMicroElectroMechanical Systems (BioMEMS). [Also listed as BME 4200] The principles, design, fabrication and application of micro- and nano-devices to instrument and control biological molecules, living cells, and small organisms, with a strong emphasis on development of microfabricated systems and micro- and nano-biosensors. Students will lead discussions from the research literature. Graduate students will prepare a research proposal or fabricate a functioning BioMEMS device. No credit for students who have earned credit for 4200. FALL [3]

BME 5210. Biomaterial Manipulation. [Also listed as BME 2210] Design and characterization of biomaterials. Assessment of tissue engineering scaffolds and nanoparticles. Manipulation of cell growth
and expression. Application of mechanics and materials principles to medical and consumer products. Laboratory exercises in tissue culture, microscopy, mechanical testing, biochemical assays, and computer modeling. No credit for students who have earned credit for 3210. Corequisite: BME 2200. SPRING. [3]

BME 5300. Biomedical Instrumentation. (Also listed as BME 3300) Methods to determine physiological functions and variables from the point of view of optimization in the time and frequency domain and the relation to physiological variability. Laboratory exercises stress instrument usage and data analysis. Three lectures and one laboratory. No credit for students who have earned credit for 3300. FALL, SPRING. [4]

BME 5400. Foundations of Medical Imaging. (Also listed as BME 4400) Physics and engineering of image formation by different modalities used for medical applications. Concepts common to different imaging modalities and limits of physical phenomena. Mathematical concepts of image formation and analysis; techniques for recording images using ionizing radiation (including CT), ultrasound, magnetic resonance, and nuclear (including SPECT and PET). Methods of evaluating image quality. No credit for students who have earned credit for 4400. SPRING. [3]

BME 5410. Biological Basis of Imaging. (Also listed as BME 4410) Physical and chemical relationships between biological characteristics of tissue and image contrast in major medical imaging modalities. Imaging modalities include x-ray, MRI, PET, and ultrasound. Applications include neurological disorders, neurological function, cardiac function and disease, cancer, and musculoskeletal physiology. No credit for students who have earned credit for 4410. SPRING. [3]

BME 5500. Nanobiotechnology. (Also listed as BME 4500) Synthesis and characterization of nanostructured materials for use in living systems. Clinical applications of nanoscale biosensors. Methods for single molecule detection in biological specimens. Quantitative structure/function assessment of nanostructures in living systems. No credit for students who have earned credit for 4500. SPRING. [3]

BME 5600. Signal Measurement and Analysis. (Also listed as BME 3600) Discrete time analysis of signals with deterministic and random properties and the effect of linear systems on these properties. Brief review of relevant topics in probability and statistics and introduction to random processes. Discrete Fourier transforms, harmonic and correlation analysis, and signal modeling. Implementation of these techniques on a computer is required. No credit for students who have earned credit for 3600. SPRING. [3]

BME 5950. Design of Biomedical Engineering Devices and Systems I. (Also listed as BME 4950) Integration of the engineering and life science backgrounds of senior biomedical engineering students through the presentation of design principles for medical devices and systems. Design principles and case examples for biomedical electronics, mechanical, chemical, and computing systems are presented. A full-semester design project is required. Evaluation is conducted through periodic oral and written presentations, and through a final written and poster report. Corequisite: BME 5300. No credit for students who have earned credit for 4950. [2]

BME 5951. Design of Biomedical Engineering Devices and Systems II. (Also listed as BME 4951) Integration of the engineering and life science backgrounds of senior biomedical engineering students through the presentation of design principles for medical devices and systems. Design principles and case examples for biomedical electronics, mechanical, chemical, and computing systems are presented. A full-semester design project is required. Evaluation is conducted through periodic oral and written presentations, and through a final written and poster report. No credit for students who have earned credit for 4951. [3]

BME 6110. Research and Professional Development in Biomedical Engineering. [Formerly BME 305] Database search strategies, interpreting engineering and scientific literature, communication skills, engineering design, proposal writing, preparation of engineering publications, technology transfer/intellectual property, engineering laboratory documentation, regulatory oversight, ethics, funding. SPRING. [3]

BME 6301. Engineering in Surgery and Intervention: Provocative Questions. Explores engineering and clinical aspects of treating disease or disorders by clinically-driven provocative questions. Surgical/Interventional mechanics, locoregional therapies such as convection-enhanced delivery, neuromodulation, and ablation. Image-guided therapies, and role of discovery and design in context of treatment. SPRING. [3]

BME 7110. Laser-Tissue Interaction and Therapeutic Use of Lasers. [Formerly BME 320] Optical and thermal aspects and models of the interaction between laser/light and biological tissue as it is used for therapeutic applications in medicine and biology. Issues and objectives in therapeutic and surgical applications of lasers, overview of state-of-the-art topics and current research. FALL. [3]

BME 7120. Optical Diagnosis: Principles and Applications. [Formerly BME 321] Applications of light and tissue optical properties for the diagnosis of tissue pathology. Basic scientific and engineering principles for developing techniques and devices that use light to probe cells and tissues. Recent applications of different optical diagnostic techniques. SPRING. [3]

BME 7310. Advanced Computational Modeling and Analysis in Biomedical Engineering. [Formerly BME 329] Survey of current topics within biomedical modeling: biotransport, biomechanics, tumor and virus growth dynamics, model-based medical imaging techniques, etc. Mathematical development and analysis of biomedical simulations using advanced numerical techniques for the solution of ordinary and partial differential equations. Emphasis will be on graduate research related topics. SPRING. [3]

BME 7410. Quantitative Methods in Biomedical Engineering. [Formerly BME 300] Mathematics, quantitative analysis, and computational methods for biomedical engineering applications. Topics include applied probability and statistics, signal analysis and experiment design, linear systems, Fourier transforms, and numerical modeling and analysis. FALL. [3]

BME 7413. Advanced Biomechanics. [Formerly BME 313] Application of advanced concepts in statics, dynamics, continuum mechanics, and strength of materials to biological systems. Topics include measurement of mechanical properties of biological materials; rheological properties of blood; mechanics of cells, bone, skeletal muscle, and soft tissue; normal and abnormal dynamics of human movement; mechanics of articular joint movement; pulmonary mechanics; cardiac mechanics; arterial mechanics; mechanics of veins and collapsible vessels; and mechanics of flow in the microcirculation. Prerequisite: BME 2100, BME 3000 or equivalent. [3]

BME 7419. Engineering Models of Cellular Phenomena. [Formerly BME 319] Application of engineering methods to model and quantify aspects of cell physiology. Topics include receptor mediated cell processes, cell-cell signaling, cooperative barrier behavior, cell structural components, and cell motility. SPRING. [3] (Offered alternate years)

BME 7425. Physical Measurements on Biological Systems. [Formerly BME 325] A survey of the state-of-the-art in quantitative physical measurement techniques applied to cellular or molecular physiology. Topics include the basis for generation, measurement, and control of the transmembrane potential; electrochemical instrumentation; optical spectroscopy and imaging; x-ray diffraction for determination of macromolecular structure; magnetic resonance spectroscopy and imaging. Prerequisite: PHYS 2250. SPRING. [3]
BME 7430. Cancer Imaging. [Formerly BME 330] Applications of noninvasive, in vivo imaging (i.e., MRI, optical, CT, SPECT, PET, and ultrasound) to cancer biology. Emphasis on assessing the response of tumors to treatment using emerging and quantitative imaging techniques. Prerequisite: BME 4400 or PHYS 2805. SPRING. (Offered alternate years) [3]

BME 7440. Neuroimaging. [Formerly BME 331] Applications of noninvasive imaging techniques including MRI, fMRI, optical, EEG, and PET to the study of neural systems. Emphasis on the human brain, with a focus on current scientific literature. Prerequisite: BME 4400 or PHYS 2805. FALL. (Offered alternate years) [3]

BME 7450. Advanced Quantitative and Functional Imaging. Analysis of non-invasive imaging techniques to assess the structure and function of tissues in the body. Applications of computed tomography, positron emission tomography, ultrasound, and magnetic resonance imaging to tissue characterization, including measurement of tissue volume, microstructure, organ perfusion, blood flow, brain function, and receptor density. Prerequisite: working knowledge of MATLAB. FALL. [3]

BME 7473. Design of Medical Products, Processes, and Services. [Formerly BME 373] Medical design projects involving teams of graduate level engineering and management students. Projects are solicited from industry or universities and are undertaken from the initial phase of a design request to the end product, prototype, plan, or feasibility analysis. Prerequisite: BME 4950 or equivalent. SPRING. [3]

BME 7500. Independent Study in Biomedical Engineering. [Formerly BME 390] Study of advanced biomedical engineering topics not regularly offered in the curriculum. Consent of instructor is required. FALL. SPRING. [3]

BME 7899. Master of Engineering Project. [Formerly BME 389]

BME 7999. Master’s Thesis Research. [Formerly BME 369]

BME 8800. Special Topics. [Formerly BME 395A] [1-3]

BME 8901. Special Topics. [Formerly BME 395B] [1-3]

BME 8902. Special Topics. [Formerly BME 395C] [1-3]

BME 8903. Special Topics. [Formerly BME 395D] [1-3]

BME 8991. Biomedical Research Seminar. [Formerly BME 391] [1]

BME 8992. Biomedical Research Seminar. [Formerly BME 392] [1]

BME 8993. Biomedical Research Seminar. [Formerly BME 393] [1]

BME 8994. Biomedical Research Seminar. [Formerly BME 394] [1]

BME 8999. Non-Candidate Research. [Formerly BME 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit: 0-12]

BME 9999. Ph.D. Dissertation Research. [Formerly BME 399]

Chemical and Biomolecular Engineering

CHBE 2100. Chemical Process Principles. [Formerly CHBE 161] A foundation for advanced work in chemical engineering. Process problems of a chemical and physico-chemical nature are considered. Emphasis is on stoichiometry, material balances, and energy balances required for design computation. FALL. [3]

CHBE 2150. Molecular and Cell Biology for Engineers. [Formerly CHBE 220] Basic molecular and cellular biology principles and concepts. Application of engineering principles to further the understanding of biological systems. Protein structure and function, transcription, translation, post-translational processing, cellular organization, molecular transport and trafficking, and cellular models. Credit given for only one of CHBE 2150 or BSCI 1510. Prerequisite: CHEM 1602. FALL. [3]

CHBE 2200. Chemical Engineering Thermodynamics. [Formerly CHBE 162] Application of the laws of thermodynamics to chemical engineering systems. Entropy balances and analysis of thermodynamic cycles. Methods of estimating thermodynamic properties of pure fluids and mixtures, including equations of state, to provide background for chemical process design and simulation. Prerequisite: MATH 2300. SPRING. [3]

CHBE 3200. Phase Equilibria and Stage-Based Separations. [Formerly CHBE 223] Thermodynamic principles and calculations of mixture phase equilibrium. Development of correlations to design chemical separation processes. Applications to separation processes involving gases, liquids, and solids such as distillation, adsorption, and extraction. Simulation of separation processes. Prerequisite: CHBE 2100, CHBE 2200, and either CHBE 2250 or BME 2100. FALL. [3]

CHBE 3250. Chemical Reaction Engineering. [Formerly CHBE 225] Thermodynamic basis of chemical equilibrium. Analysis of chemical kinetic data and application to the design of chemical reactors. Batch, semibatch, and flow reactors are considered in both steady-state and transient operation. Brief treatments of catalysis and physical and chemical adsorption. Prerequisite: CHEM 2211 or 2221; CHBE 3200. SPRING. [3]

CHBE 3300. Fluid Mechanics and Heat Transfer. [Formerly CHBE 230] Principles of momentum and energy transport and their application to the analysis and design of chemical and biological engineering systems. Prerequisite: MATH 2420. FALL. [3]

CHBE 3350. Mass Transfer and Rate-Based Separations. [Formerly CHBE 231] Principles of mass transfer and their application to the analysis of chemical and biological engineering systems. Design of rate-based separation operations. Prerequisite: CHBE 3300. SPRING. [3]

CHBE 3860. Undergraduate Research. [Formerly CHBE 246] Opportunities for individual students to do research under the guidance of a faculty member. Requires faculty sponsorship of the project. [1-3 each semester]

CHBE 3861. Undergraduate Research. [Formerly CHBE 247] Opportunities for individual students to do research under the guidance of a faculty member. Requires faculty sponsorship of the project. [1-3 each semester]

CHBE 3890. Special Topics. [Formerly CHBE 290] [variable credit: 1-3 each semester]

CHBE 3900W. Chemical Engineering Laboratory I. [Formerly CHBE 228W] Laboratory experiments in momentum, energy and mass transport, focusing on instrumentation and unit operations. Statistical treatment of data, error analysis, written reports, and oral presentations are emphasized. Two lecture hours and one 5-hour laboratory per week. Prerequisite: CHBE 2100, CHBE 2200, CHBE 3300, and either CHBE 2250 or BME 2100. Corequisite: CHBE 3350. SPRING. [4]

CHBE 4500. Bioprocess Engineering. [Formerly CHBE 283] Application of cellular and molecular biology to process engineering to describe the manufacture of products derived from cell cultures. Design and scale-up of bioreactors and separation equipment. Metabolic and protein engineering utilizing genetically engineered organisms. Prerequisite: BSCI 1510 or CHBE 2150; CHBE 3250, CHBE 3300. FALL. [3]

and manipulate key metabolic variables including pathway fluxes, protein/gene expression, enzyme regulation, and intracellular metabolite concentrations. Prerequisite: BSCI 1510 or CHBE 2150; junior standing. SPRING. [3]

CHBE 4820. Immunoengineering. Approaches and technologies for manipulating and studying the immune system. Topics include fundamentals of immunology, immunology tools and methods, vaccines and immunotherapies, drug delivery principles, and materials engineering for immunomodulation. Prerequisite: CHBE 2150 or BSCI 1510. [3]

CHBE 4830. Molecular Simulation. [Formerly CHBE 285] Introduction to the modern tools of statistical mechanics, such as Monte Carlo and molecular dynamics simulation, and variations, understanding the methods, capabilities, and limitations of molecular simulation and applications to simple and complex fluids relevant to the chemical and related processing industries. Prerequisite: CHBE 3200, CHEM 3300. [3]

CHBE 4840. Applications of Nanostructures. An engineering and materials science perspective on the physical and chemical properties of organic and inorganic nanostructures. Applications in nanomedicine for imaging and therapy, and in power systems for solar energy conversion and energy storage. SPRING. [3]

CHBE 4850. Semiconductor Materials Processing. [Formerly CHBE 284] Introduction to the materials processing unit operations of silicon device manufacturing. Basic semiconductor physics and device theory, production of substrates, dopant diffusion, ion implantation, thermal oxidation and deposition processes, plasma deposition processes, photolithography, wet chemical and plasma etching, and analytical techniques. Lectures alternate with one two-hour laboratory on a weekly basis. FALL. [3]

CHBE 4860. Molecular Aspects of Chemical Engineering. [Formerly CHBE 286] Integration of molecular chemistry, property-based thermodynamic descriptions, and a focus on intermolecular energetics for process analysis and product design. Case studies involve molecular, macromolecular, supramolecular, and biomolecular systems. Prerequisite: CHEM 2211 or 2221; CHBE 2200. [3]

CHBE 4870. Polymer Science and Engineering. [Formerly CHBE 287] Macromolecular systems with emphasis on the interrelationship of chemical, physical, and engineering properties. Further relation of these properties to synthesis. Physicochemical and biological applications. Prerequisite: CHBE 2200, a basic understanding of organic and physical chemistry. [3]

CHBE 4899. Atmospheric Pollution. [Formerly CHBE 280] Fundamentals of atmospheric pollution and control. The sources and nature of gaseous and particulate air pollutants, the relation of meteorological conditions to their dispersal, and their effects on health and materials are discussed along with administration, standards, and control of air pollution. Prerequisite: Junior standing. [3]

CHBE 4900W. Chemical Engineering Laboratory II. [Formerly CHBE 229W] Laboratory experiments in unit operations covering reactions and separations. Interpretation of data for equipment and process design. Writing and oral presentations are emphasized. One 5-hour laboratory per week. Prerequisite: CHBE 3200, CHBE 3250, CHBE 3350, CHBE 3900W. FALL. [3]

CHBE 4950W. Chemical Engineering Process and Product Design. [Formerly CHBE 233W] A systematic approach to design and safety practices for chemical process operations. Process and product design, economic evaluation of alternatives, ethics, and a cost and safety analysis of a typical chemical, biological, or petroleum process and products. Steady-state and dynamic process simulations required. Three lecture hours and one two-hour laboratory each week. Prerequisite: CHBE 3200, CHBE 3250, CHBE 3350. FALL. [4]

CHBE 4951W. Chemical Engineering Design Projects. [Formerly CHBE 234W] Team-based, semester-long design project. Evaluation through periodic oral and written presentations, a final written report, and a poster report. Prerequisite: CHBE 4950W. SPRING. [3]

CHBE 4959. Senior Engineering Design Seminar. [Formerly CHBE 297] Elements of professional engineering practice. Professionalism, licensing, ethics and ethical issues, intellectual property, contracts, liability, risk, reliability and safety, interdisciplinary teams and team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors, and industrial design. Prerequisite: Senior standing. FALL. [1]

CHBE 5200. Phase Equilibria and Stage-Based Separations. (Also listed as CHBE 3200) Thermodynamic principles and calculations of mixture phase equilibrium. Development of correlations to design chemical separation processes. Applications to separation processes involving gases, liquids, and solids such as distillation, adsorption, and extraction. Simulation of separation processes. No credit for students who have earned credit for 3200. FALL. [3]

CHBE 5250. Chemical Reaction Engineering. (Also listed as CHBE 3250) Thermodynamic basis of chemical equilibrium. Analysis of chemical kinetic data and application to the design of chemical reactors. Batch, semibatch, and flow reactors are considered in both steady-state and transient operation. Brief treatments of catalysis and physical and chemical adsorption. No credit for students who have earned credit for 3250. SPRING. [3]

CHBE 5300. Fluid Mechanics and Heat Transfer. (Also listed as CHBE 3300) Principles of momentum and energy transport and their application to the analysis and design of chemical and biological engineering systems. No credit for students who have earned credit for 3300. FALL. [3]

CHBE 5350. Mass Transfer and Rate-Based Separations. (Also listed as CHBE 3350) Principles of mass transfer and their application to the analysis of chemical and biological engineering systems. Design of rate-based separation operations. No credit for students who have earned credit for 3350. SPRING. [3]

CHBE 5500. Bioprocess Engineering. (Also listed as CHBE 4500) Application of cellular and molecular biology to process engineering to describe the manufacture of products derived from cell cultures. Design and scale-up of bioreactors and separation equipment. Metabolic and protein engineering utilizing genetically engineered organisms. No credit for students who have earned credit for 4500. FALL. [3]

CHBE 5600. Chemical Process Control. (Also listed as CHBE 3600) Design of control systems for chemical processes. Principles of process dynamics and control of single and multivariable systems. Frequency and stability analyses and their effect on controller design. No credit for students who have earned credit for 5600. SPRING. [3]

CHBE 5810. Metabolic Engineering. (Also listed as CHBE 4810) Analysis and synthesis of metabolic networks using principles of thermodynamics, kinetics, and transport phenomena. Computational approaches for predicting metabolic phenotypes. Experimental techniques to measure and manipulate key metabolic variables including pathway fluxes, protein/gene expression, enzyme regulation, and intracellular metabolite concentrations. No credit for students who have earned credit for 4810. SPRING. [3]

CHBE 5820. Immunoengineering. (Also listed as CHBE 4820) Approaches and technologies for manipulating and studying the immune system. Topics include fundamentals of immunology, immunology tools and methods, vaccines and immunotherapies, drug delivery principles, and materials engineering for immunomodulation. No credit for students who have earned credit for 4820. [3]

CHBE 5830. Molecular Simulation. (Also listed as CHBE 4830) Introduction to the modern tools of statistical mechanics, such as Monte Carlo and molecular dynamics simulation, and variations, understanding the methods, capabilities, and limitations of molecular simulation and applications to simple and complex fluids relevant to the chemical and related processing industries. No credit for students who have earned credit for 4830. [3]
CHBE 5840. Applications of Nanostructures. (Also listed as CHBE 4840) An engineering and materials science perspective on the physical and chemical properties of organic and inorganic nanostructures. Applications in nanomedicine for imaging and therapy, and in power systems for solar energy conversion and energy storage. SPRING. [3]

CHBE 5850. Semiconductor Materials Processing. (Also listed as CHBE 4850) Introduction to the materials processing unit operations of silicon device manufacturing. Basic semiconductor physics and device theory, production of substrates, dopant diffusion, ion implantation, thermal oxidation and deposition processes, plasma deposition processes, photolithography, wet chemical and plasma etching, and analytical techniques. Lectures alternate with one two-hour laboratory on a weekly basis. No credit for students who have earned credit for 4850. FALL. [3]

CHBE 5860. Molecular Aspects of Chemical Engineering. (Also listed as CHBE 4860) Integration of molecular chemistry, property-based thermodynamic descriptions, and a focus on intermolecular energetics for process analysis and product design. Case studies involve molecular, macromolecular, supramolecular, and biomolecular systems. No credit for students who have earned credit for 4860. [3]

CHBE 5870. Polymer Science and Engineering. (Also listed as CHBE 4870) Macromolecular systems with emphasis on the interrelationship of chemical, physical, and engineering properties. Further relation of these properties to synthesis. Physicochemical and biological applications. No credit for students who have earned credit for 4870. [3]

CHBE 5880. Corrosion Science and Engineering. (Also listed as CHBE 4880) Aqueous-phase metal and alloy corrosion phenomena. Fundamental chemistry and electrochemistry theories, as applied to corroding systems. Specific forms of corrosion including pitting, crevice corrosion, and galvanic corrosion. Methods for corrosion control based on electrochemical fundamentals. No credit for students who have earned credit for 4880. SPRING. [3]

CHBE 5890. Special Topics. (Also listed as CHBE 3890) No credit for students who have earned credit for 3890. [variable credit: 1-3 each semester]

CHBE 5899. Atmospheric Pollution. (Also listed as CHBE 4899) Fundamentals of atmospheric pollution and control. The sources and nature of gaseous and particulate air pollutants, the relation of meteorological conditions to their dispersal, and their effects on health and materials are discussed along with administration, standards, and control of air pollution. No credit for students who have earned credit for CHBE 4899. [3]

CHBE 6110. Advanced Chemical Engineering Thermodynamics. (Formerly CHBE 311) Application of the thermodynamics method to chemical engineering problems. Development of the first, second, and third laws of thermodynamics; estimation and correlation of thermodynamic properties; chemical and phase equilibria; irreversible thermodynamics. FALL. [3]

CHBE 6120. Applied Chemical Kinetics. (Formerly CHBE 313) Experimental methods in kinetics. Kinetics of industrial reactions and reactor design. Absorption and catalytic systems are considered. FALL. [3]

CHBE 6200. Transport Phenomena. (Formerly CHBE 312) The theory of non-equilibrium processes. Development of the analogy between momentum, energy, and mass transport with applications to common engineering problems. SPRING. [3]

CHBE 6215. Systems Analysis for Process Design and Control. (Formerly CHBE 315) The design and control of chemical process plants, including economic optimization under steady state and transient conditions. [3]

CHBE 6220. Surfaces and Adsorption. (Formerly CHBE 320) Surface energy, capillarity, contact angles and wetting, surface films, insoluble monolayers, solid surfaces, membranes, surface area determination, adsorption, adhesion, interface thermodynamics, friction and lubrication, interface in composites, relationships of surface to bulk properties of materials. FALL. [3]

CHBE 6250. Professional Communication Skills for Engineers. (Formerly CHBE 395) Introduction of graduate-level written and oral communication skills for engineers. Skills needed to produce peer-reviewed journal publications, research proposals, and research presentations are covered. [1]

CHBE 7899. Master's Thesis Research. (Formerly CHBE 369) [0-6]

CHBE 8900. Special Topics. (Formerly CHBE 397) [variable credit: 1-3 each semester]

CHBE 8991. Seminar. (Formerly CHBE 398) [0]

CHBE 8999. Non-Candidate Research. (Formerly CHBE 379) Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit: 0-12]

CHBE 9999. Ph.D. Dissertation Research. (Formerly CHBE 399)

Civil Engineering

CE 2101. Civil and Environmental Engineering Information Systems II. (Formerly CE 161) Part II of a two-semester sequence on information technologies used by civil and environmental engineers. Lab and project-oriented course focusing on developing skills in engineering drawings, computer graphics, plans reading, leveling, mapping, and GIS. Integration of CAD and surveying with team-based projects. FALL. [3]

CE 2105. Civil and Environmental Engineering Information Systems III. (Formerly CE 161) Part II of a two-semester sequence on information technologies used by civil and environmental engineers. Project-oriented course focusing on developing skills in leveling, mapping, and GIS. Integration of CAD and surveying in hands-on, team-oriented projects addressing specific civil engineering information systems. Project work will include familiarization with, and use of, department information systems instrumentation. Computer applications. Prerequisite: CE 2100. SPRING. [2]

CE 2200. Statics. (Formerly CE 180) Vector analysis of two- and three-dimensional equilibrium of particles, rigid bodies, trusses, frames, and machines. Introduction to internal forces, shear and moment diagrams, cables, centroids, moments of inertia, and friction. Credit offered for only one of CE 2200 or BME 2100. Corequisite: MATH 1301, PHYS 1601. FALL, SPRING, Su MMER. [3]

CE 2205. Mechanics of Materials. (Formerly CE 182) Stress and strain; tension, compression, and shear; Hooks law, Mohr's circle, combined stresses, strain-energy. Beams, columns, shafts, and continuous beams. Deflections, shear and moment diagrams. Prerequisite: CE 2200. FALL, SPRING, Su MMER. [3]

CE 3100W. Civil and Environmental Engineering Laboratory. (Formerly CE 205W) A team project-oriented course that integrates principles of engineering design, simulation, and experimentation as applied
School of Engineering / Courses

331
to civil engineering. Emphasis on experimental design, data analysis, and technical communication. Prerequisite: CE 2205. SPRING. [2]

CE 3200. Structural Analysis. [Formerly CE 232] Classification; nature of loads and their calculation; analysis of statically determinate and indeterminate beams, trusses, and frames using classical methods (integration, moment area, energy) and matrix methods; basics of non-linear behavior; introduction to structural analysis software. Prerequisite: CE 2205. FALL. [3]

CE 3205. Structural Design. [Formerly CE 235] Loads and their identification; issues of safety and uncertainties; steel and concrete behavior and design of components in compression, tension, bending, shear; application to simple structural systems; use of the AISC Steel Specifications; sustainability issues. Prerequisite: CE 3200. SPRING. [3]

CE 3250. Geotechnical Engineering. [Formerly CE 240] Origin, formation, identification, and engineering properties of soils. Discussion on index properties, soil moisture, soil structure, compressibility, shear strength, stress analysis, Rankine and Coulomb earth pressure theories and bearing capacity. Laboratory experiences. Graduate credit for earth and environmental sciences majors. Prerequisite: CE 2205. FALL. [3]

CE 3501. Transportation Systems Engineering. [Formerly CE 225 and CE 3601] Planning, design, and operations of transportation systems. Particular emphasis on the design process, traffic engineering, urban transportation planning, the analysis of current transportation issues, and the ethics of transportation safety. SPRING. [3]

CE 3600. Environmental Engineering. [Formerly CE 226] Parameters affecting environmental quality, including air and water pollutants; treatment techniques to achieve drinking water quality or permit safe discharge to the environment. Sustainability. Contaminant transport and interactions of contaminants with the environment. Risk assessment and governmental regulations covering air, water, solid and hazardous wastes. Residuals management including hazardous and solid waste. Prerequisite: CHEM 1601, PHYS 1601, MATH 2420. FALL. [3]

CE 3700. Fluid Mechanics. [Formerly CE 203] Physical properties of fluids, fluid statics; integral and differential equations of conservation of mass, energy, and momentum; principles of real fluid flows: boundary layer effects, flow through pipes, flow in open channels, drag forces on bodies. Emphasis on civil and environmental engineering applications. Credit not awarded for both CE 3700 and ME 3224. Prerequisite: ME 2190, MATH 2420. FALL, Su MMER. [3]

CE 3700L. Fluid Mechanics Laboratory. [Formerly CE 204] Team project-oriented course. Practical applications of fluid mechanics principles through laboratory exercises and field trips. Corequisite: CE 3700. FALL. [1]

CE 3705. Water Resources Engineering. [Formerly CE 227] Introduction to engineering of water resources and sewerage systems that control the quantity, quality, timing, and distribution of water to support human habitation and the needs of the environment. Closed conduit flow, open channel flow, surface hydrology, groundwater hydrology, and contaminant transport. Prerequisite: CHEM 1601, PHYS 1601/1602, MATH 2420, CE 3700. SPRING. [3]

CE 3841. Directed Study. [Formerly CE 200A] Directed individual study of a pertinent topic in civil and environmental engineering. May include literature review and analysis, analytical investigations, and/or experimental work. Prerequisite: Junior standing, completion of two CE courses, and one-page proposal approved by supervising faculty member and chair. [1-3 each semester]

CE 3842. Directed Study. [Formerly CE 200B] Continuation of CE 3841 in the same or another area of civil and environmental engineering. Prerequisite: CE 3841 and one-page proposal approved by supervising faculty member and chair. [1-3 each semester]

CE 3843. Directed Study. [Formerly CE 200C] Continuation of CE 3842 in the same or another area of civil and environmental engineering. Prerequisite: CE 3842 and one-page proposal approved by supervising faculty member and chair. [1-3 each semester]

CE 3890. Special Topics. [Formerly CE 299] [3]

CE 4200. Advanced Structural Steel Design. [Formerly CE 293] Advanced topics in column and beam design: elastic and inelastic analysis and design of continuous beams, composite beams, torsion design, behavior and design of bolted and welded connections, structural planning and design of structural systems such as multistory buildings. Prerequisite: CE 3205. FALL. [3]

CE 4300. Reliability and Risk Case Studies. [Formerly CE 290] Review of historical events involving successes and failures in managing system reliability and risk from a wide range of perspectives, including design, production, operations, organizational culture, human factors and exogenous events. Analysis of risk factors leading to event occurrence, as well as event consequences in terms of impacts to public health, safety, security and environmental protection. Evaluation of risk mitigation strategies based on achievable goals, technical and political feasibility, and economic impact. Cases drawn from natural disasters, industrial accidents, and intentional acts. Prerequisite: Junior standing. FALL. [3]

CE 4400. Construction Project Management. [Formerly CE 286] Introduction to the theory and application of the fundamentals of construction project management. The construction process and the roles
of professionals in the process. Broad overview of the construction project from conception through completion. Application of management practices including planning, directing, cost minimizing, resource allocation, and control of all aspects of construction operations and resources. Credit given for only one of ENGM 3700, CE 4400 or EECE 4950. Prerequisite: CE 3205. FALL. [3]

CE 4401. Advanced Construction Project Management. [Formerly CE 289] Current and critical issues in the construction industry, including best practices developed at the Construction Industry Institute (CII). Guest lecturers include representatives of the CII and visiting industry leaders. Prerequisite: CE 4400. FALL. [3]

CE 4410. Construction Planning and Scheduling. [Formerly CE 288] Fundamentals of construction planning and scheduling. Application of management practices including: process planning; directing, costing; resource allocation; and controlling all aspects of construction operations and resources, from pre-construction through operation and maintenance. Use of real-world examples and project scheduling software. Corequisite: CE 4400. SPRING. [3]

CE 4420. Construction Law and Contracts. [Formerly CE 292] Review of case studies involving successes and failures in legal principles and landmark cases relevant to civil engineering and construction. Contracts, torts, agency and professional liability, labor laws, insurance, expert testimony, arbitration, patents and copyrights, sureties, and ethics. Prerequisite: CE 4400. SPRING. [3]

CE 4500. Transportation Systems Design. [Formerly CE 255] Geometric analysis of transportation ways with particular emphasis on horizontal and vertical curve alignment and superelevation. Design of highways, interchanges, intersections, and facilities for pedestrians, and air, rail, and public transportation. Prerequisite: CE 3501 or 3601. SPRING. [3]

CE 4505. Urban Transportation Planning. [Formerly CE 256] Analytical methods and the decision-making process. Transportation studies, travel characteristic analysis, and land-use implications are applied to surface transportation systems. Emphasis is on trip generation, trip distribution, modal split, and traffic assignment. Planning processes in non-urban settings are also presented. Prerequisite: CE 3501 or CE 3601. SPRING. [3]

CE 4510. Traffic Engineering. [Formerly CE 257] Analysis of the characteristics of traffic, including the driver, vehicle, volumes, capacities, congestion, roadway conditions, complete streets and accidents. Traffic regulations, markings, signing, signalization, and safety programs are also discussed. Prerequisite: CE 3501 or CE 3601. SPRING. [3]

CE 4900. Civil and Environmental Engineering Seminar. [Formerly CE 252] A seminar designed to introduce students to current technical and professional issues through literature discussions, seminars by faculty and practicing engineers, and participation in panel discussions. Prerequisite: Senior standing. FALL, SPRING. [1]

CE 4950. Civil Engineering Design I. [Formerly CE 248] A capstone design course for civil engineering students. Includes project conception, design, economic evaluations, safety, reliability, ethics, social and environmental impact, licensure, and government regulations. Projects may be interdisciplinary, competition-oriented, or traditional civil engineering projects. Prerequisite: CE 3100W. FALL. [1]

CE 4951. Civil Engineering Design II. [Formerly CE 249] Continuation of CE 4950. The course involves an oral presentation and the submission of a final design report. Prerequisite: CE 4950. SPRING. [2]

CE 4959. Senior Engineering Design Seminar. Elements of professional engineering practice. Professionalism, licensing, ethics and ethical issues, intellectual property, contracts, liability, risk, reliability and safety, interdisciplinary teams and team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors, and industrial design. Prerequisite: Senior standing. Corequisite: CE 4950. FALL. [1]

CE 5100. Geographic Information Systems (GIS). (Also listed as CE 4100) Principles of computerized geographic information systems (GIS) and analytical use of spatial information. Integration with global positioning systems (GPS) and Internet delivery. Includes GIS software utilization and individual projects. No credit for students who have earned credit for 4100. SPRING. [3]

CE 5200. Advanced Structural Steel Design. (Also listed as CE 4200) Advanced topics in column and beam design including local buckling, composite beams, plate girders, and torsion design. Behavior and design of bolted and welded connections. Structural planning and design of structural systems such as multistory buildings including computer applications. No credit for students who have earned credit for 4200. FALL. [3]

CE 5210. Advanced Reinforced Concrete Design. (Also listed as CE 4210) Design and behavior of two-way slab systems. Yield line theory. Shear and torsion analysis and design. Serviceability requirements and control of deflections of reinforced concrete systems. Introduction to prestressed concrete. No credit for students who have earned credit for 4210. SPRING. [3]

CE 5250. Foundation Analysis and Design. (Also listed as CE 4250) Study of shallow and deep foundation elements and systems for civil engineering structures. Soil exploration and site investigation. No credit for students who have earned credit for 4250. SPRING. [3]

CE 5300. Reliability and Risk Case Stud. (Also listed as CE 4300) Review of historical events involving successes and failures in managing system reliability and risk from a wide range of perspectives, including design, production, operations, organizational culture, human factors and exogenous events. Analysis of risk factors leading to event occurrence, as well as event consequences in terms of impacts to public health, safety, security and environmental protection. Evaluation of risk mitigation strategies based on achievable goals, technical and political feasibility, and economic impact. Cases drawn from natural disasters, industrial accidents, and intentional acts. No credit for students who have earned credit for CE 4300. FALL. [3]

CE 5400. Construction Project Management. (Also listed as CE 4400) Introduction to the theory and application of the fundamentals of construction project management. The construction process and
the roles of professionals in the process. Broad overview of the construction project from conception through completion. Application of management practices including planning, directing, cost minimizing, resource allocation, and control of all aspects of construction operations and resources. No credit for students who have earned credit for 4400. FALL. [3]

**CE 5401. Advanced Construction Project Management.** (Also listed as CE 4401) Current and critical issues in the construction industry, including best practices developed at the Construction Industry Institute (CII). Guest lecturers include representatives of the CII and visiting industry leaders. No credit for students who have earned credit for 4401. FALL. [3]

**CE 5405. Construction Estimating.** (Also listed as CE 4405) Estimation of material, labor, and equipment quantities, including costing and pricing of construction projects. Application of estimating practices using real-world examples and project estimating software. Corequisite: CE 5400. No credit for students who have earned credit for 4405. FALL. [3]

**CE 5410. Construction Planning and Scheduling.** (Also listed as CE 4410) Fundamentals of construction planning and scheduling. Application of management practices including: process planning; directing, costing; resource allocation; and controlling all aspects of construction operations and resources, from pre-construction through operation and maintenance. use of real-world examples and project scheduling software. No credit for students who have earned credit for 4410. SPRING. [3]

**CE 5415. Construction Materials and Methods.** (Also listed as CE 4415) Implications of design realities, material specifications, code limitations, and regulations on the construction process. Natural and man-made materials, construction techniques, and other issues that impact quality, constructability, and life-cycle assessment. No credit for students who have earned credit for 4415. Su MMER. [3]

**CE 5420. Construction Law and Contracts.** (Also listed as CE 4420) Review of case studies involving successes and failures in legal principles and landmark cases relevant to civil engineering and construction. Contracts, torts, agency and professional liability, labor laws, insurance, expert testimony, arbitration, patents and copyrights, sureties, and ethics. No credit for students who have earned credit for 4420. SPRING. [3]

**CE 5425. Building Information Modeling.** (Also listed as CE 4425) Generation and management of building data during its life cycle. Three-dimensional, real-time, dynamic modeling to increase productivity in building design and construction. Considerations of building geometry, spatial relationships, geographic information, and building components. No credit for students who have completed 4425. FALL. [3]

**CE 5430. Building Systems and LEED.** (Also listed as CE 4430) Design and construction of mechanical, electrical, plumbing, and telecommunication systems in buildings. Leadership in Energy and Environmental Design (LEED) green Building Rating System(TM) building approach to sustainability. No credit for students who have earned credit for 4430. SPRING. [3]

**CE 5500. Transportation System Design.** (Also listed as CE 4500) Geometric analysis of transportation ways with particular emphasis on horizontal and vertical curve alignment. Design of highways, interchanges, intersections, and facilities for air, rail, and public transportation. No credit for students who have earned credit for 4500. SPRING. [3]

**CE 5505. Urban Transportation Planning.** (Also listed as CE 4505) Analytical methods and the decision-making process. Transportation studies, travel characteristic analysis, and land-use implications are applied to surface transportation systems. Emphasis is on trip generation, trip distribution, modal split, and traffic assignment. Computerized planning programs are used. No credit for students who have earned credit for 4505. SPRING. [3]

**CE 5510. Traffic Engineering.** (Also listed as CE 4510) Analysis of the characteristics of traffic, including the driver, vehicle, volumes, speeds, capacities, roadway conditions, and accidents. Traffic regulation, control, signing, signalization, and safety programs are also discussed. No credit for students who have earned credit for 4510. FALL. [3]

**CE 5999. Special Topics.** (Also listed as CE 3890) No credit for students who have earned credit for 3890. [3]

**CE 6300. Probabilistic Methods in Engineering Design.** (Formerly CE 310) Applications of probabilistic methods in the analysis and synthesis of engineering systems. Review of basic probability concepts, random variables and distributions, modeling and quantification of uncertainty, testing the validity of assumed models, linear regression and correlation analysis, Monte Carlo simulation, reliability analysis and reliability-based design. Prerequisite: MATH 2410. FALL. [3]

**CE 6305. Engineering Design Optimization.** (Formerly CE 311) Methods for optimal design of engineering systems. Optimization under uncertainty, reliability-based design optimization, robust design, multidisciplinary problems, multi-objective optimization. Discrete and continuous design variables, advanced numerical algorithms, and formulations and strategies for computational efficiency. Practical applications and term projects in the student’s area of interest. Prerequisite: MATH 4630, MATH 4620 or CE 6300. [3]

**CE 6310. Uncertainty Quantification.** (Formerly CE 313) Computational methods for analysis and design of modern engineering systems under uncertainty. Emphasis on epistemic uncertainty due to data and models. Topics include stochastic finite elements; time-dependent reliability; Bayesian methods and networks; surrogate modeling; advanced simulation; global sensitivity analysis; model verification, validation, and calibration; and optimization under uncertainty. Applications to practical engineering systems. Prerequisite: CE 6300. SPRING. [3]

CE 6318. Prestressed Concrete. [Formerly CE 318] Behavior and design of statically determinate prestressed concrete structures under bending moment, shear, torsion, and axial load effects. Design of statically determinate prestressed structures such as continuous beams, frames, slabs and shells. Creep and shrinkage effects and deflections of prestressed concrete structures. Application to the design and construction of bridges and buildings. Prerequisite: CE 3205. [3]

CE 6351. Public Transportation Systems. [Formerly CE 351] Comprehensive study of public transportation, with emphasis on planning, management, and operations; paratransit, ridesharing, and rural public transportation systems. Prerequisite: CE 4505. SPRING. [3]

CE 6353. Airport Planning and Design. [Formerly CE 353] Integration and application of the principles of airport master planning from the beginning stages of site selection through actual design of an airport facility. Specific study topics address demand forecasting, aircraft characteristics, capacity analyses, and geometric design of runways, terminals, and support facilities. Prerequisite: CE 3601. [3]

CE 6355. Advanced Transportation Design. [Formerly CE 355] In-depth view of the transportation design process. Complex transportation design problems and solutions, with the use of computer-based analytical design tools. Comprehensive design projects. Prerequisite: CE 4500. SPRING. [3]

CE 6356. Advanced Transportation Planning. [Formerly CE 356] A continuation of the concepts from CE 4505, with emphasis on analytical techniques used in forecasting travel, use of computer-based models, along with transportation and energy contingency planning methods. Prerequisite: CE 4505. SPRING. [3]

CE 6357. Theory of Traffic Flow. [Formerly CE 357] A study of traffic flow from the perspective of probability as applied to highway, intersection and weaving capacities. Discrete and continuous flow, vehicle distributions, queuing, and simulation. Prerequisite: CE 4500. SPRING. [3]

CE 6359. Emerging Information Systems Applications. [Formerly CE 359] Role of emerging information systems technologies in improving productivity and efficiency and in managing engineering operations. Design of integrated approaches to enhance the speed, accuracy, reliability, and quality of information available for decision support. Emphasis on case studies of innovative applications in transportation and manufacturing, leading to individual and group projects requiring new product development. Prerequisite: Background in transportation or manufacturing operations. FALL. [3]

CE 7899. Master of Engineering Project. [Formerly CE 389]

CE 7999. Master’s Thesis Research. [Formerly CE 369] [0-6]

CE 8000. Individual Study of Civil Engineering Problems. [Formerly CE 325A] Literature review and analysis of special problems under faculty supervision. FALL, SPRING, Su MMER. [1-4 each semester]

CE 8001. Individual Study of Civil Engineering Problems. [Formerly CE 325B] Literature review and analysis of special problems under faculty supervision. FALL, SPRING, Su MMER. [1-4 each semester]

CE 8002. Individual Study of Civil Engineering Problems. [Formerly CE 325C] Literature review and analysis of special problems under faculty supervision. FALL, SPRING, Su MMER. [1-4 each semester]

CE 8300. Reliability and Risk Engineering Seminar. [Formerly CE 371A] Perspectives on reliability and risk assessment and management of multi-disciplinary engineering systems. Topics on infrastructure and environmental systems, mechanical, automotive, and aerospace systems; network systems (power distribution, water and sewage systems, transportation etc.); manufacturing and construction; and electronic and software systems. FALL, SPRING. [1]

CE 8301. Reliability and Risk Engineering Seminar. [Formerly CE 371B] Seminars by expert speakers provide a wide range of perspectives on reliability and risk assessment and management of multidisciplinary engineering systems. Topics on infrastructure and environmental systems; mechanical, automotive, and aerospace systems; network systems (power distribution, water and sewage systems, transportation, etc.); manufacturing and construction; and electronic and software systems. FALL, SPRING. [1]

CE 8999. Non-Candidate Research. [Formerly CE 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit: 0-12]

CE 9999. Ph.D. Dissertation Research. [Formerly CE 399]

Environmental Engineering

ENVE 3610. Sustainable Development. [Formerly ENVE 220A] Quantitative investigation of the role of adequate and renewable resources for continual economic development. Past and present resource challenges, influences of indigenous, national, and international cultures, land use practices, social policy, and economic strategies on infrastructure development. Future challenges posed by climate change, and how market- and government-based policies may be applied in conditions of uncertainty to encourage sustainable development. Intended to be followed by ENVE 3611. SPRING. [3]

ENVE 3611. Sustainable Development Field Experience. [Formerly ENVE 220B] Through lectures, research projects, and service-learning opportunities, students will reflect on themes from ENVE 3610 and apply them to work in the field. Students will design and conduct quantitative-oriented research projects in collaboration with faculty mentors and international partners. Prerequisite: ENVE 3610. Su MMER. [1-3]

ENVE 3612. Sustainable Development Research. [Formerly ENVE 220C] A quantitative, project- and research-based seminar drawing on student experiences and learning in ENVE 3610 and ENVE 3611. Prerequisite: ENVE 3611. FALL. [3]

ENVE 4305. Enterprise Risk Management. [Formerly ENVE 296] Development of an organization-wide risk management program for protecting human health, the environment and business continuity. Focus on defining an all-hazards risk management process and program implementation, performing risk assessments, determining and selecting appropriate risk reduction strategies, and influencing the risk management decisions internally and externally. Applications drawn from natural disasters, man-made accidents and intentional acts. Prerequisite: Senior standing. SPRING. [3]

ENVE 4600. Environmental Chemistry. [Formerly ENVE 271] Theoretical aspects of physical, organic, and inorganic chemistry applied to environmental engineering. Estimation of chemical parameters based on thermodynamic and structural activity relationships, kinetics of chemical reactions, equilibrium processes in the environment, including the carbonate system, metal complexation and precipitation. Prerequisite: CHEM 1602. FALL. [3]

ENVE 4605. Environmental Thermodynamics, Kinetics, and Mass Transfer. [Formerly ENVE 270] Examination of fundamental environmental processes and phenomena. Use of equilibrium phenomena, process rate and mass transport phenomena to solve a broad range of environmental problems. Prerequisite: CHEM 1602, MATH 2420, CE 3600. SPRING. [3]

ENVE 4610. Biological Processes in Environmental Systems. [Formerly ENVE 272] Principles of biology and their application to wastewater treatment processes with emphasis on microbial ecology, bioenergetics, and the role of chemical structure in biodegradability. Utilization of kinetic analysis and design (aerobic and anaerobic) for municipal and industrial wastewaters, using a mass balance approach. SPRING. [3]

ENVE 4615. Environmental Assessments. [Formerly ENVE 264] Design and conduct of environmental assessments to evaluate risks posed by infrastructure systems or environmental contamination. Impact analyses for sources, infrastructure modifications, due diligence
ENVE 4620. Environmental Characterization and Analysis. [Formerly ENVE 273] Acquisition and interpretation of environmental data. Principles of chemical measurement, sample collection and sample program design; laboratory safety and good laboratory practices; analytical instrumentation and methods; quality assurance and quality control; and statistical interpretation of data. Hands-on experience through demonstrations featuring state-of-the-art analytical instrumentation. Prerequisite: CE 3600, ENVE 4600. SPRING. [3]

ENVE 4625. Environmental Separations Processes. [Formerly ENVE 277 and ENVE 4716] Fundamentals and applications of separations processes relevant to water and wastewater treatment and other environmental systems. Topics include coagulation/flocculation, sedimentation, granular filtration; advanced separation processes such as various membrane processes, absorption, ion exchange, thermally driven separations, and electrically driven separations including electrodialysis and capacitive deionization. SPRING. [3]

ENVE 4700. Energy and Water Resources. [Formerly ENVE 254] Scientific, technological, philosophical, and social issues surrounding approaches to carbon-based energy and alternative energy resources, management of carbon through sequestration, supplying and treating water for agriculture, communities, and industry, and changing climate impacts on regional distribution of water resources. SPRING. [3]

ENVE 4705. Physical Hydrology. [Formerly ENVE 252] Development of fundamental bases of hydrological processes. Land-atmosphere processes, surface-water flows, soil moisture dynamics, and groundwater flows. Exposition of physical principles, their embodiment in mathematical models, and their use in interpreting observations in the field and laboratory. Prerequisite: CE 3700 or ME 3224 or CHBE 3300 or EES 4550. FALL. [3]

ENVE 4800. Introduction to Nuclear Environmental Engineering. [Formerly ENVE 285] The nuclear fuel cycle and environmental and societal impacts associated with its traditional implementation. Technical and programmatic challenges associated with fuel production, and waste management including processing, storage, transportation, decontamination, decommissioning, and environmental restoration. Technologies and approaches for reducing impacts of the nuclear fuel cycle. Prerequisite: Senior or graduate standing. SPRING. [3]

ENVE 5305. Enterprise Risk Management. (Also listed as ENVE 4305) Development of an organization-wide risk management program for protecting human health, the environment and business continuity. Focus on defining an all-hazards risk management process and program implementation, performing risk assessments, determining and selecting appropriate risk reduction strategies, and influencing risk management decisions internally and externally. Applications drawn from natural disasters, man-made accidents and intentional acts. No credit for students who have earned credit for ENVE 4305. SPRING. [3]

ENVE 5600. Environmental Chemistry. (Also listed as ENVE 4600) Theoretical aspects of physical, organic, and inorganic chemistry applied to environmental engineering. Estimation of chemical parameters based on thermodynamic and structural activity relationships, kinetics of chemical reactions, equilibrium processes in the environment, including the carbonate system, metal complexation and precipitation. No credit for students who have earned credit for 4600. FALL. [3]

ENVE 5605. Environmental Thermodynamics, Kinetics, and Mass Transfer. (Also listed as ENVE 4605) Examination of fundamental environmental processes and phenomena that provide the analytical tools necessary to solve a broad range of environmental problems. These tools include equilibrium phenomena, process rate and mass transport phenomena. No credit for students who have earned credit for 4605. SPRING. [3]

ENVE 5610. Biological Processes in Environmental Systems. (Also listed as ENVE 4610) Principles of biology and their application to wastewater treatment processes with emphasis on microbial ecology, bioenergetics, and the role of chemical structure in biodegradability. Utilization kinetics of inhibitory and non-inhibitory organic compounds. Biological process analysis and design (aerobic and anaerobic) for municipal and industrial wastewaters, using a mass balance approach. No credit for students who have earned credit for ENVE 4610. SPRING. [3]

ENVE 5615. Environmental Assessments. (Also listed as ENVE 4615) Design and conduct of environmental assessments to evaluate risks posed by infrastructure systems or environmental contamination. Impact analyses for sources, infrastructure modifications, due diligence environmental audits, and contaminated site remedial investigations. No credit for students who have earned credit for 4615. FALL. [3]

ENVE 5620. Environmental Characterization and Analysis. (Also listed as ENVE 4620) Acquisition and interpretation of environmental data. Principles of chemical measurement, sample collection and sample program design; laboratory safety and good laboratory practices; analytical instrumentation and methods; quality assurance and quality control; and statistical interpretation of data. Hands-on experience through demonstrations featuring state-of-the-art analytical instrumentation. No credit for students who have earned credit for 4620. SPRING. [3]

ENVE 5625. Environmental Separations Processes. (Also listed as ENVE 4625) Fundamentals and applications of separations processes relevant to water and wastewater treatment and other environmental systems. Topics include coagulation/flocculation, sedimentation, granular filtration; advanced separation processes such as various membrane processes, absorption, ion exchange, thermally driven separations, and electrically driven separations including electrodialysis and capacitive deionization. No credit for students who have earned credit for 4625. SPRING. [3]

ENVE 5700. Energy and Water Resources. (Also listed as ENVE 4700) Scientific, technological, philosophical, and social issues surrounding approaches to carbon-based energy and alternative energy resources, management of carbon through sequestration, supplying and treating water for agriculture, communities, and industry, and changing climate impacts on regional distribution of water resources. No credit for students who have earned credit for 4700. SPRING. [3]

ENVE 5705. Physical Hydrology. (Also listed as ENVE 4705) Development of fundamental bases of hydrological processes. Landatmosphere processes, surfacewater flows, soil moisture dynamics, and groundwater flows. Exposition of physical principles, their embodiment in mathematical models, and their use in interpreting observations in the field and laboratory. No credit for students who have earned credit for 4705. FALL. [3]

ENVE 5710. Hydrology. (Also listed as ENVE 4710) The hydrologic cycle, study of precipitation, evapotranspiration, hydrometeorology, stream flow, flood flow, flood routing, storm sewer design, detention basin design, and water quality. No credit for students who have earned credit for 4710. FALL. [3]

ENVE 5715. Groundwater Hydrology. (Also listed as ENVE 4715) The occurrence and flow of ground water. Basic concepts of the effects of varying permeability and capillarity on seepage flow. Flow toward wells,
through dikes, and beneath dams. No credit for students who have earned credit for 4715. SPRING. [3]

ENVE 5720. Surface Water Quality Modeling. (Also listed as ENVE 4720) Analysis of physical, chemical, biological, and physiological contaminants in streams, lakes, and estuaries, and surface water/groundwater interfaces. Analytical and numerical modeling techniques. One- and two-dimension computer simulation of surface water quality. No credit for students who have earned credit for 4720. SPRING. [3]

ENVE 5800. Introduction to Nuclear Environmental Engineering. (Also listed as ENVE 4800) The nuclear fuel cycle and environmental and societal impacts associated with its traditional implementation. Technical and programmatic challenges associated with fuel production, and waste management including processing, storage, transportation, decontamination, decommissioning, and environmental restoration. Technologies and approaches for reducing impacts of the nuclear fuel cycle. No credit for students who have earned credit for 4800. SPRING. [3]

ENVE 6800. Nuclear Facilities Life Cycle Engineering. [Formerly ENVE 330] The life cycle (including siting, licensing, construction, operations and decommissioning) of the nuclear facilities that comprise the nuclear fuel cycle—from mining uranium ore through the potential recycling of used nuclear fuel. SPRING. [3]

ENVE 6805. Storage, Treatment and Disposal of Radioactive Waste. [Formerly ENVE 332] Evolution of current domestic and international approaches, including waste forms, classification, storage and disposal locations, and environmental and safety assessments. FALL. [3]

ENVE 7531. Nuclear Chemistry and Processes. [Formerly ENVE 331] Chemistry and chemical processing of the actinides and important fission products and byproducts. Development of nuclear chemical engineering processes for these materials. SPRING. [3]

ENVE 7533. Nuclear Process Safety. [Formerly ENVE 333] Approaches for evaluating the safety of nuclear radiochemical processing systems. Safety analysis practices from the chemical industry, the nuclear power community, and the United States nuclear weapons complex, and other quantitative and qualitative risk assessment methods. FALL. [3]

ENVE 7534. Nuclear Environmental Regulation, Law and Practice. [Formerly ENVE 334] Environmental laws and regulations governing radionuclides and radioactive waste, including those concerning hazardous chemicals and wastes and those impacting commercial nuclear fuel cycle facilities and former nuclear weapons and materials sites. Interplay between regulatory agencies such as the U.S. Nuclear Regulatory Commission, the U.S. Environmental Protection Agency, and the states. Self-regulation of activities by the U.S. Department of Energy. SMMER. [3]

ENVE 7899. Master’s Thesis Research. [Formerly ENVE 389] [variable credit: 1-4 each semester]

ENVE 8000. Individual Study. [Formerly ENVE 325A] Literature review and analysis, or laboratory investigation of special problems under faculty supervision. FALL, SPRING, SMMER. [variable credit: 1-4 each semester]

ENVE 8001. Individual Study. [Formerly ENVE 325B] Literature review and analysis, or laboratory investigation of special problems under faculty supervision. FALL, SPRING, SMMER. [variable credit: 1-4 each semester]

ENVE 8002. Individual Study. [Formerly ENVE 325C] Literature review and analysis, or laboratory investigation of special problems under faculty supervision. FALL, SPRING, SMMER. [variable credit: 1-4 each semester]

ENVE 8300. Research Methods Seminar. Coverage of graduate-level skills required to conduct critical review of a topic and produce research proposals, research presentations, and peer-reviewed journal publications. Includes discussion of responsible conduct in research and ethics. FALL. [0]

ENVE 8999. Non-Candidate Research. [Formerly ENVE 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit: 0-12]

ENVE 9999. Ph.D. Dissertation Research. [Formerly ENVE 399]

Computer Science

CS 1103. Introductory Programming for Engineers and Scientists. [Formerly CS 103] An introduction to problem solving on the computer. Intended for students other than computer science and computer engineering majors. Methods for designing programs to solve engineering and science problems using MATLAB. Generic programming concepts. FALL, SPRING. [3]

CS 1151. Computers and Ethics. [Formerly CS 151] Analysis and discussion of problems created for society by computers, and how these problems pose ethical dilemmas to both computer professionals and computer users. Topics include: computer crime, viruses, software theft, ethical implications of life-critical systems. FALL, SPRING. [3]

CS 2201. Program Design and Data Structures. [Formerly CS 201] Continuation of CS 1101. The study of elementary data structures, their associated algorithms and their application in problems; rigorous development of programming techniques and style; design and implementation of programs with multiple modules, using good data structures and good programming style. Prerequisite: CS 1101. FALL, SPRING. [3]

CS 2204. Program Design and Data Structures for Scientific Computing. [Formerly CS 204] Data Structures and their associated algorithms in application to computational problems in science and engineering. Time and memory complexity; dynamic memory structures; sorting and searching; advanced programming and program-solving strategies; efficient software library use. Prerequisite: CS 1101 or 1103. SPRING. [3]

CS 2212. Discrete Structures. [Formerly CS 212] A broad survey of the mathematical tools necessary for an understanding of computer science. Topics covered include an introduction to sets, relations, functions, basic counting techniques, permutations, combinations, graphs, recurrence relations, simple analysis of algorithms, O-notation, Boolean algebra, propositional calculus, and numeric representation. Prerequisite: A course in computer science or two semesters of calculus. FALL, SPRING. [3]

CS 2231. Computer Organization. [Formerly CS 231] The entire hierarchical structure of computer architecture, beginning at the lowest level with a simple machine model (e.g., a simple von Neumann machine). Processors, process handling, IO handling, and assembler concepts. Graduate credit not given for computer science majors. Prerequisite: CS 2201. Corequisite: EECE 2116, EECE 2116L. FALL, SPRING. [3]

CS 3250. Algorithms. [Formerly CS 250] Advanced data structures, systematic study and analysis of important algorithms for searching; sorting; string processing; mathematical, geometrical, and graph algorithms, classes of P and NP, NP-complete and intractable problems. Prerequisite: CS 2201, CS 2212. FALL, SPRING. [3]

CS 3251. Intermediate Software Design. [Formerly CS 251] High quality development and reuse of architectural patterns, design patterns, and software components. Theoretical and practical aspects of developing, documenting, testing, and applying reusable class libraries and object-oriented frameworks using object-oriented and component-based programming languages and tools. Prerequisite: CS 2201. FALL, SPRING. [3]

CS 3258. Introduction to Computer Graphics. [Formerly CS 258] Featuring 2D rendering and image-based techniques, 2D and 3D transformations, modeling, 3D rendering, graphics pipeline, ray-tracing, and texture-mapping. Prerequisite: one of MATH 2410, 2400, 2501 or 2600; CS 3251. FALL. [3]

CS 3259. Project in Computer Animation Design and Technology. [Formerly CS 259] Introduction to the principles and techniques of computer animation. Students work in small groups on the design, modeling, animation, and rendering of a small computer animation project. Topics include storyboarding, camera control, skeletons, inverse kinematics, splines, keyframing, motion capture, dynamic simulation, particle systems, facial animation, and motion perception. Prerequisite: CS 2201; one of MATH 2410, 2400, 2501 or 2600. FALL. [3]

CS 3265. Introduction to Database Management Systems. [Formerly CS 265] Logical and physical organization of databases. Data models and query languages, with emphasis on the relational model and its semantics. Concepts of data independence, security, integrity, concurrency. Prerequisite: CS 2201. [3]

CS 3270. Programming Languages. [Formerly CS 270] General criteria for design, implementation, and evaluation of programming languages. Historical perspective. Syntactic and semantic specification, compilation, and interpretation processes. Comparative studies of data types and data control, procedures and parameters, sequence control, nesting, scope and storage management, run-time representations. Problem solving using non-standard languages. Prerequisite: CS 2231. FALL, SPRING. [3]

CS 3274. Modeling and Simulation. [Formerly CS 274] General theory of modeling and simulation of a variety of systems: physical processes, computer systems, biological systems, and manufacturing processes. Principles of discrete-event, continuous, and hybrid systems modeling, simulation algorithms for the different modeling paradigms, methodologies for constructing models of a number of realistic systems, and analysis of system behavior. Computational issues in modeling and analysis of systems. Stochastic simulations. Prerequisite: CS 2201. [3]

CS 3276. Compiler Construction. [Formerly CS 276] Review of programming language structures, translation, loading, execution, and storage allocation. Compilation of simple expressions and statements. Organization of a compiler including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation, error diagnostics, object code optimization techniques, and overall design. use of a highlevel language to write a complete compiler. Prerequisite: CS 2231. [3]

CS 3282. Principles of Operating Systems II. [Formerly CS 282] Projects involving modification of a current operating system. Lectures on memory management policies, including virtual memory. Protection and sharing of information, including general models for implementation of various degrees of sharing. Resource allocation in general, including deadlock detection and prevention strategies. Introduction to operating system performance measurement, for both efficiency and logical correctness. Two hours lecture and one hour laboratory. Prerequisite: CS 3281. [3]

CS 3860. Undergraduate Research. [Formerly CS 240A] Open to qualified majors with consent of instructor and adviser. No more than 6 hours may be counted towards the computer science major. Prerequisite: CS 2231. [1-3 each semester]

CS 3861. Undergraduate Research. [Formerly CS 240B] Open to qualified majors with consent of instructor and adviser. No more than 6 hours may be counted towards the computer science major. Prerequisite: CS 2231. [1-3 each semester]

CS 3891. Special Topics. [Formerly CS 291] [variable credit: 1-3 each semester]

CS 3892. Special Topics. [Formerly CS 292] Fulfills project course requirement in CS major. [3]

CS 4266. Topics in Big Data. Principles and practices of big data processing and analytics. Data storage databases and data modeling techniques, data processing and querying, data analytics and applications of machine learning using these systems. Prerequisite: CS 3251. SPRING. [3]

CS 4269. Project in Artificial Intelligence. [Formerly CS 269] Students work in small groups on the specification, design, implementation, and testing of a sizeable AI software project. Projects (e.g., an "intelligent" game player) require that students address a variety of AI subject areas, notably heuristic search, uncertain reasoning, planning, knowledge representation, and learning. Class discussion highlights student progress, elaborates topics under investigation, and identifies other relevant topics (e.g., vision) that the project does not explore in depth. Prerequisite: CS 4260. SPRING. [3]

CS 4279. Software Engineering Project. [Formerly CS 279] Students work in teams to specify, design, implement, document, and test a non-trivial software project. The use of CASE (Computer Assisted Software Engineering) tools is stressed. Prerequisite: CS 4278. SPRING. [3]

CS 4283. Computer Networks. [ Formerly CS 283] Computer communications. Network (Internet) architecture. Algorithms and protocol design at each layer of the network stack. Cross-layer interactions and performance analysis. Network simulation tools. Lab and programming assignments. Credit given for only one of CS 4283 or EECE 4371. Prerequisite: CS 3281 or EECE 4376. [3]

CS 4284. Computer Systems Analysis. [Formerly CS 284] Techniques for evaluating computer system performance with emphasis upon application. Topics include measurement and instrumentation techniques, benchmarking, simulation techniques, elementary queuing models, data analysis, operation analysis, performance criteria, case studies. Project involving a real computer system. Prerequisite: CS 3281. [3]

CS 4288. Web-based System Architecture. Core concepts necessary to architect, build, test, and deploy complex web-based systems; analysis of key domain requirements in security, robustness, performance, and scalability. Prerequisite: CS 3251. FALL. [3]

CS 4959. Computer Science Project Seminar. [Formerly CS 297] Elements of professional engineering practice, professional education and lifelong learning, intellectual property and software patents, open source and crowd source software development, liability, soft risk safety and security, privacy issues, interdisciplinary teams and team
tools, professional organization, careers, entrepreneurship, human computer interaction. Prerequisite: CS 3251. FALL. [1]

CS 5250. Algorithms. (Also listed as CS 3250) Advanced data structures, systematic study and analysis of important algorithms for searching; sorting; string processing; mathematical, geometrical, and graph algorithms, classes of P and NP, NP-complete and intractable problems. No credit for students who have earned credit for 3250. FALL, SPRING. [3]

CS 5251. Intermediate Software Design. (Also listed as CS 3251) High quality development and reuse of architectural patterns, design patterns, and software components. Theoretical and practical aspects of developing, documenting, testing, and applying reusable class libraries and object-oriented frameworks using object-oriented and component-based programming languages and tools. No credit for students who have earned credit for 3251. FALL, SPRING. [3]

CS 5258. Introduction to Computer Graphics. (Also listed as CS 3258) Featuring 2D rendering and image-based techniques, 2D and 3D transformations, modeling, 3D rendering, graphics pipeline, ray tracing, and texture-mapping. No credit for students who have earned credit for 3258. FALL. [3]

CS 5259. Project in Computer Animation Design and Technology. (Also listed as CS 3259) Introduction to the principles and techniques of computer animation. Students work in small groups on the design, modeling, animation, and rendering of a small computer animation project. Topics include storyboarding, camera control, skeletons, inverse kinematics, splines, keyframing, motion capture, dynamic simulation, particle systems, facial animation, and motion perception. No credit for students who have earned credit for 3259. FALL. [3]

CS 5260. Artificial Intelligence. (Also listed as CS 4260) Introduction to the principles and programming techniques of artificial intelligence. Strategies for searching, representation of knowledge and automatic deduction, learning, and adaptive systems. Survey of applications. No credit for students who have earned credit for 4260. FALL. [3]

CS 5265. Introduction to Database Management Systems. (Also listed as CS 3265) Logical and physical organization of databases. Data models and query languages, with emphasis on the relational model and its semantics. Concepts of data independence, security, integrity, concurrency. No credit for students who have earned credit for 3265. [3]

CS 5266. Topics in Big Data. Principles and practices of big data processing and analytics. Data storage databases and data modeling techniques, data processing and querying, data analytics and applications of machine learning using these systems. SPRING. [3]

CS 5269. Project in Artificial Intelligence. (Also listed as CS 4269) Students work in small groups on the specification, design, implementation, and testing of a sizeable AI software project. Projects (e.g., an “intelligent” game player) require that students address a variety of AI subject areas, notably heuristic search, uncertain reasoning, planning, knowledge representation, and learning. Class discussion highlights student progress, elaborates topics under investigation, and identifies other relevant topics (e.g., vision) that the project does not explore in depth. No credit for students who have earned credit for 4269. SPRING. [3]

CS 5270. Programming Languages. (Also listed as CS 3270) General criteria for design, implementation, and evaluation of programming languages. Historical perspective. Syntactic and semantic specification, compilations, and interpretation processes. Comparative studies of data types and data control, procedures and parameters, sequence control, nesting, scope and storage management, run-time representations. Problem solving using non-standard languages. No credit for students who have earned credit for 3270. FALL, SPRING. [3]

CS 5274. Modeling and Simulation. (Also listed as CS 3274) General theory of modeling and simulation of a variety of systems: physical processes, computer systems, biological systems, and manufacturing processes. Principles of discrete-event, continuous, and hybrid system modeling, simulation algorithms for the different modeling paradigms, methodologies for constructing models of a number of realistic systems, and analysis of system behavior. Computational issues in modeling and analysis of systems. Stochastic simulations. No credit for students who have earned credit for 3274. [3]

CS 5276. Compiler Construction. (Also listed as CS 3276) Review of programming language structures, translation, loading, execution, and storage allocation. Compilation of simple expressions and statements. Organization of a compiler including compile-time and run-time symbol tables, lexical scan, syntax scan, object code generation, error diagnostics, object code optimization techniques, and overall design. Use of a high-level language to write a complete compiler. No credit for students who have earned credit for 3276. [3]

CS 5278. Principles of Software Engineering. (Also listed as CS 4278) The nature of software. The object-oriented paradigm. Software life-cycle models. Requirements, specification, design, implementation, documentation, and testing of software. Object-oriented analysis and design. Software maintenance. No credit for students who have earned credit for 4278. FALL. [3]

CS 5279. Software Engineering Project. (Also listed as CS 4279) Students work in teams to specify, design, implement, document, and test a nontrivial software project. The use of CASE (Computer Assisted Software Engineering) tools is stressed. No credit for students who have earned credit for 4279. SPRING. [3]

CS 5282. Principles of Operating Systems II. (Also listed as CS 3282) Projects involving modification of a current operating system. Lectures on memory management policies, including virtual memory. Protection and sharing of information, including general models for implementation of various degrees of sharing. Resource allocation in general, including deadlock detection and prevention strategies. Introduction to operating system performance measurement, for both efficiency and logical correctness. Two hours lecture and one hour laboratory. No credit for students who have earned credit for 3282. [3]

CS 5283. Computer Networks. (Also listed as CS 4283) Computer communications. Network (Internet) architecture. Algorithms and protocol design at each layer of the network stack. Cross-layer interactions and performance analysis. Network simulation tools. Lab and programming assignments. No credit for students who have earned credit for 4283. [3]

CS 5284. Computer Systems Analysis. (Also listed as CS 4284) Techniques for evaluating computer system performance with emphasis upon application. Topics include measurement and instrumentation techniques, benchmarking, simulation techniques, elementary queueing models, data analysis, operation analysis, performance criteria, case studies. Project involving a real computer system. No credit for students who have earned credit for 4284. [3]

CS 5285. Network Security. (Also listed as CS 4285) Principles and practice of network security. Security threats and mechanisms. Cryptography, key management, and message authentication. System security practices and recent research topics. No credit for students who have earned credit for 4285. [3]

CS 5287. Principles of Cloud Computing. (Also listed as CS 4287) Fundamental concepts of cloud computing, different service models, techniques for resource virtualization, programming models, management,
mobile cloud computing, recent advances, and hands-on experimentation. No credit for students who have earned credit for 4287. [3]

CS 5288. Web-based System Architecture. (Also listed as CS 4288) Core concepts necessary to architect, build, test, and deploy complex web-based systems; analysis of key domain requirements in security, robustness, performance, and scalability. No credit for students who have earned credit for 4286. FALL. [3]

CS 5891. Special Topics. (Also listed as CS 3891) [variable credit: 1-3 each semester] No credit for students who have earned credit for 3891.

CS 5892. Special Topics. (Also listed as CS 3892) [variable credit: 1-3 each semester] No credit for students who have earned credit for 3892.

CS 6311. Graph Algorithms. [Formerly CS 311] Algorithms for dealing with special classes of graphs. Particular emphasis is given to subclasses of perfect graphs and graphs that can be stored in a small amount of space. Interval, chordal, permutation, comparability, and circular-arc graphs; graph decomposition. Prerequisite: CS 6310 or MATH 4710. [3]

CS 6315. Automated Verification. [Formerly CS 315] Systems verification and validation, industrial case studies, propositional and predicate logic, syntax and semantics of computational tree and linear time logics, binary decision diagrams, timed automata model and real-time verification, hands on experience with model checking using the SMV, SPIN and uPPAAL tools, and state reduction techniques. [3]

CS 6320. Algorithms for Parallel Computing. [Formerly CS 320] Design and analysis of parallel algorithms for sorting, searching, matrix processing, FFT, optimization, and other problems. Existing and proposed parallel architectures, including SIMD machines, MIMD machines, and VLSI systolic arrays. Prerequisite: CS 6310. [3]

CS 6351. Advanced Animation. [Formerly CS 351] Current research issues and problems in computer animation, with special focus on motion capture, dynamic simulation, and key-framing. Cloth, deformable bodies, natural phenomena, geometric algorithms, procedural techniques, facial animation, hair, autonomous characters, flocking, empirical evaluation, and interfaces for animation. Prerequisite: CS 3259. FALL. [3]

CS 6352. Human-Computer Interaction. [Formerly CS 352] An overview of human computer interaction and problems of current interest. Topics include: Human factors, GOMS, user interface design and evaluation, interaction modalities, distributed cognition, ubiquitous computing. A project involving design and evaluation will be performed. [3]

CS 6358. Computer Vision. [Formerly CS 358] The fundamentals of computer vision and techniques for image understanding and high-level image processing. Includes image segmentation, geometric structures, relational structures, motion, matching, inference, and vision systems. Prerequisite: EECE 6357. SPRING. [3]

CS 6359. Medical Image Registration. [Formerly CS 359] Foundations of medical image registration. Mathematical methods and practical applications. Image-to-image registration, image-to-physical registration, applications to image-guided procedures and the most commonly used imaging modalities with an emphasis on tomographic images. FALL. [3]

CS 6360. Advanced Artificial Intelligence. [Formerly CS 360] Discussion of state-of-the-art and current research issues in heuristic search, knowledge representation, deduction, and reasoning. Related application areas include: planning systems, qualitative reasoning, cognitive models of human memory, user modeling in ICAI, reasoning with uncertainty, knowledge-based system design, and language comprehension. Prerequisite: CS 4260 or equivalent. [3]

CS 6362. Machine Learning. [Formerly CS 362] An introduction to machine learning principles of artificial intelligence, stressing learning’s role in constraining search by augmenting and/or reorganizing memory. Topics include connectionist systems; concept learning from examples; operator, episode, and plan learning; problem-solving architectures that support learning; conceptual clustering; computer models of scientific discovery; explanation-based learning; and analogical reasoning. Psychological as well as computational interests in learning are encouraged. Prerequisite: CS 4260, CS 6360, or equivalent. SPRING. [3]

CS 6364. Intelligent Learning Environments. [Formerly CS 364] Theories and concepts from computer science, artificial intelligence, cognitive science, and education that facilitate designing, building, and evaluating computer-based instructional systems. Development and substantiation of the concept, architecture, and implementation of intelligent learning environments. Multimedia and web-based technology in teaching, learning, collaboration, and assessment. Prerequisite: CS 4260, CS 6360, or equivalent. [3]

CS 6368. Computational Economics. Models and methods in computational economics, such as linear and non-linear optimization, decision theory, game theory, mechanism design, and computational tools. Applications in areas such as auctions, economics of security and privacy, market design, and algorithmic trading. Prereq: CS 4260 or CS 5260. SPRING. [3]

CS 6376. Foundations of Hybrid and Embedded Systems. [Formerly CS 376] Modeling, analysis, and design of hybrid and embedded systems. Heterogeneous modeling and design of embedded systems using formal models of computation, modeling and simulation of hybrid systems, properties of hybrid systems, analysis methods based on abstractions, reachability, and verification of hybrid systems. FALL. [3]

CS 6381. Distributed Systems Principles. [Formerly CS 381] Techniques and mechanisms in distributed system design, such as logical clocks, distributed consensus, distributed mutual exclusion, consistency models, fault tolerance and paradigms of communication. Contemporary distributed system case studies and open challenges. Prerequisite: CS 3281. [3]

CS 6384. Performance Evaluation of Computer Systems. [Formerly CS 384] Techniques for computer systems modeling and analysis. Topics covered include analytical modeling with emphasis on queuing network models, efficient computational algorithms for exact and approximate solutions, parameter estimation and prediction, validation techniques, workload characterization, performance optimization, communication and distributed system modeling. Prerequisite: CS 3281 or CS 6381. SPRING. [3]

CS 6385. Advanced Software Engineering. [Formerly CS 385] An intensive study of selected areas of software engineering. Topics may include CASE tools, formal methods, generative techniques, aspect-oriented programming, metrics, modeling, reusing software architecture, testing, and open-source software. Prerequisite: CS 4278. FALL. [3]
CS 6386. System-Level Fault Diagnosis. [Formerly CS 386] An overview of the basic concepts of the theory of fault diagnosis and problems of current interest. Topics include the classical PMC and BGM models of fault diagnosis, hybrid (permanent and intermittent faults) models, diagnostic measures for one-step, sequential, and inexact diagnosis. Emphasis is on algorithmic techniques for solving the diagnosis and diagnosability problems in various models. Prerequisite: CS 6381. SPRING. [3]

CS 6387. Topics in Software Engineering. [Formerly CS 387] Topics may include empirical software engineering and open-source software engineering. Prerequisite: CS 4278 or consent of instructor. SPRING. [3]

CS 6388. Model-Integrated Computing. [Formerly CS 388] Problems of designing, creating, and evolving information systems by providing rich, domain-specific modeling environments including model analysis and model-based program synthesis tools. Students are required to give a class presentation and prepare a project. FALL. [3]

CS 7999. Master's Thesis Research. [Formerly CS 369] [0-6]

CS 8390. Individual Studies. [Formerly CS 390] [1-3]

CS 8395. Special Topics. [Formerly CS 395] [3]

CS 8396. Special Topics. [Formerly CS 396] [3]

CS 8991. Seminar. [Formerly CS 391] [1-3 each semester]

CS 8992. Seminar. [Formerly CS 392] [1-3 each semester]

CS 8999. Non-Candidate Research. [Formerly CS 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [0-12]

CS 9999. Ph.D. Dissertation Research. [Formerly CS 399]

Electrical Engineering

EECE 2116L. Digital Logic Laboratory. [Formerly EECE 116L] Laboratory for EECE 2116. One three-hour laboratory per week. Corequisite: EECE 2116L. FALL, SPRING. [1]

EECE 2213L. Circuits II Laboratory. [Formerly EECE 213L] Laboratory for EECE 2213. One three-hour laboratory per week. Corequisite: EECE 2213L. FALL, SPRING. [1]

EECE 2218. Microcontrollers. [Formerly EECE 218] Microprocessor and microcontroller architecture with emphasis on control applications, use of assembly language and interfacing with programs written in high-level languages. Interfacing and real-time I/O with 8-bit microprocessors, control algorithms, and networking with microcontrollers. Prerequisite: EECE 2116, CS 1101 or CS 1103. Corequisite: EECE 2218L. FALL, SPRING. [3]

EECE 2218L. Microcontrollers Laboratory. [Formerly EECE 218L] Laboratory for EECE 2218. A small structured project is required. One three-hour laboratory per week. Corequisite: EECE 2218. SPRING. [1]

EECE 3214. Signals and Systems. [Formerly EECE 214] Fundamental signals, systems, and linear algebra concepts necessary for the study of communications and control systems. Includes continuous-time and discrete-time signal and system concepts, Fourier analysis in both continuous and discrete-time, Z-transform, and the FFT. Prerequisite: EECE 2112. FALL, SPRING. [3]

EECE 3233. Electromagnetics. [Formerly EECE 233] Introduction to electromagnetic field theory, Maxwell’s equations are developed from the historical approach. Electromagnetic waves are discussed with regard to various media and boundary conditions. Prerequisite: PHYS 1602. Corequisite: MATH 2400. FALL. [3]

EECE 3235L. Electronics I Laboratory. [Formerly EECE 235L] Laboratory for EECE 3235. One three-hour laboratory per week. Corequisite: EECE 3235. FALL. [1]

EECE 3260. Undergraduate Research. [Formerly EECE 203] Supervised projects in electrical engineering, computer engineering, or related fields. Consent of instructor required. No more than 6 hours of EECE 3860 and 3861 may be applied toward graduation. [1-3 each semester]

EECE 3861. Undergraduate Research. [Formerly EECE 204] Supervised projects in electrical engineering, computer engineering, or related fields. Consent of instructor required. No more than 6 hours of EECE 3860 and 3861 may be applied toward graduation. [1-3 each semester]

EECE 3991. Special Topics. [Formerly EECE 291] [1-3 each semester]

EECE 3992. Special Topics. [Formerly EECE 292] [1-3 each semester]

EECE 4252. Signal Processing and Communications. [Formerly EECE 252] AM and FM modulation. Also, advanced topics in signal processing are treated. Prerequisite: EECE 3214. SPRING. [3]

EECE 4283. Principles and Models of Semiconductor Devices. [Formerly EECE 283] Physical principles of operation of the p-n junction, MOS field-effect transistor, and bipolar transistor. Fundamentals of charge transport, charge storage, and generation-recombination; application to the operation of MOSFET and BJT. Device modeling with emphasis on features and constraints of integrated circuit technologies. Prerequisite: EECE 3235. [3]

EECE 4284. Integrated Circuit Technology and Fabrication. [Formerly EECE 284] Introduction to monolithic integrated circuit technology, understanding of basic semiconductor properties and processes that result in modern integrated circuit. Bipolar and MOSFET processes and structures. Elements of fabrication, design, layout, and applications as regards semiconductor microelectronic technologies. Prerequisite: EECE 3235. SPRING. [3]

EECE 4286. Audio Engineering. [Formerly EECE 286] Engineering aspects of high fidelity sound reproduction, with emphasis on digital audio and loudspeakers. Analog-to-digital and digital-to-analog conversion, data storage, perceptual coding, loudspeaker design. Prerequisite: EECE 2213, EECE 3235. [3]

EECE 4288. Optoelectronics. [Formerly EECE 288] Fundamentals and applications of light generation, propagation, and modulation in passive and active optoelectronic components. Waveguides, lasers, electro-optic modulators, and emerging optoelectronic technology for optical communication, computing, and sensing applications. Prerequisite: EECE 3233 or equivalent. SPRING. [3]

EECE 4353. Image Processing. [Formerly EECE 253] The theory of signals and systems is extended to two dimensions. Coverage includes filtering, 2-D FFTs, edge detection, and image enhancement. Three lectures and one laboratory period. FALL. [4]

EECE 4354. Computer Vision. [Formerly EECE 254] vision is presented as a computational problem. Coverage includes theories of vision, image representation, and solutions to ill-posed problems. Prerequisite: EECE 4353. [3]

EECE 4356. Digital Signal Processing. [Formerly EECE 256] Applications of Digital Signal Processing (DSP) chips to sampling, digital filtering, FFTs, etc. Three lectures and one laboratory period. Prerequisite: EECE 3214. SPRING. [4]

EECE 4371. Mobile and Wireless Networks. [Formerly EECE 261] Design, development, and applications of mobile applications and services. Topics include wireless technologies, smart phone programming, cloud computing services. Credit given for only one of EECE 4371 or CS 4283. Prerequisite: CS 2201 or equivalent programming experience. [3]

EECE 4376L. Embedded Systems Laboratory. [Formerly EECE 276L] Laboratory for EECE 4376. A team-oriented structured project is required. One three-hour laboratory per week. Corequisite: EECE 4376. FALL. [1]

EECE 4377. FPGA Design. [Formerly EECE 277] Design and applications of field-programmable gate arrays, Electronic Design Automation (EDA) tools for design, placement, and routing. Hardware description languages. Implementation of designs on prototype FPGA board. Prerequisite: EECE 2116. [3]

EECE 4385. VLSI Design. [Formerly EECE 285] Integrated circuit and fabrication techniques; CAD tools for design, layout, and verification; parasitic elements and their effects on circuit performance; system-level design experience is gained by completing design and layout phases of a project. Prerequisite: EECE 2116, EECE 3235. FALL. [3]

EECE 4950. Program and Project Management for EECE. [Formerly EECE 295] Methods for planning programs and projects. Organization structures and information management for project teams. Communications between project teams and clients, government agencies, and others. Motivational factors and conflict resolution. Budget/schedule control. Similar to ENGM 3700, but preparatory to the EECE senior design project course, EECE 4951. Credit given for only one of ENGM 3700, CE 4400 or EECE 4950. Prerequisite: Senior standing. Corequisite: EECE 4959. FALL. [3]

EECE 4951. Electrical and Computer Engineering Design. [Formerly EECE 296] Based on product specifications typically supplied by industrial sponsors. Teams of students responsible for the formulation, execution, qualification, and documentation of a culminating engineering design. The application of knowledge acquired from earlier course work, both within and outside the major area, along with realistic technical, managerial, and budgetary constraints using standard systems engineering methodologies and practices. Prerequisite: EECE 4950, at least one DE course, senior standing. SPRING. [3]

EECE 4959. Senior Engineering Design Seminar. [Formerly EECE 297] Elements of professional engineering practice. Professionalism, ethics and values, intellectual property, contracts, liability, risk, reliability and safety, interdisciplinary teams and team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors, and industrial design. Prerequisite: Senior standing. Corequisite: EECE 4950. FALL. [1]

EECE 5218. Microcontrollers. (Also listed as EECE 2218) Microprocessor and microcontroller architecture with emphasis on control applications. Usage of assembly language and interfacing with programs written in high-level languages. Interfacing and realtime I/O with 8-bit microprocessors, control algorithms, and networking with microcontrollers. Graduate credit only for non-majors. No credit for students who have earned credit for 2218. Corequisite: EECE 5218L. SPRING. [3]

EECE 5218L. Microcontrollers Laboratory. (Also listed as EECE 2218L) Laboratory for EECE 5218. A small structured project is required. One three-hour laboratory per week. Graduate credit only for non-majors. No credit for students who have earned credit for 2218L. Corequisite: EECE 5218. SPRING. [1]

EECE 5233. Electromagnetics. (Also listed as EECE 3233) Introduction to electromagnetic field theory. Maxwell’s equations are developed from the historical approach. Electromagnetic waves are discussed with regard to various media and boundary conditions. Graduate credit only for non-majors. No credit for students who have earned credit for 3233. FALL. [3]

EECE 5235. Electronics I. (Also listed as EECE 3235) Introduction to semiconductor devices and electronic circuits. Diodes, BJT and MOS transistors. Device models, modes of operation, biasing. Small-signal models, low-frequency analysis of single- and multi-stage analog amplifiers, simple amplifier design. Large signal models, dc analysis of digital circuits. Graduate credit only for non-majors. Corequisite: EECE 5235L. No credit for students who have earned credit for 3235. FALL. [3]

EECE 5235L. Electronics I Laboratory. (Also listed as EECE 3235L) Laboratory for EECE 3235. One three-hour laboratory per week. Corequisite: EECE 5235. No credit for students who have earned credit for 3235L. FALL. [1]

EECE 5252. Signal Processing and Communications. (Also listed as EECE 4252) AM and FM modulation. Also, advanced topics in signal processing are treated. No credit for students who have earned credit for 4252. SPRING. [3]

EECE 5257. Control Systems I. (Also listed as EECE 4257) Introduction to the theory and design of feedback control systems, steady-state and transient analysis, stability considerations. Model representation. State-variable models. No credit for students who have earned credit for 4257. FALL. [3]

EECE 5267. Power System Analysis. (Also listed as EECE 4267) Analysis of large transmission and distribution networks. Analysis of power lines, load flow, short circuit studies, economic operation, and stability are introduced. No credit for students who have earned credit for 4267. [3]

EECE 5275. Microelectronic Systems. (Also listed as EECE 4275) Active devices in the context of digital systems, with an emphasis on embedded systems integration. Characteristics and utilization of different digital integrated circuit families, common bus structures and protocols and realworld interfaces (comparators, A/D/A conversion). No credit for students who have earned credit for 4275. SPRING. [3]
EECE 5283. Principles and Models of Semiconductor Devices. (Also listed as EECE 4283) Physical principles of operation of the p-n junction, MOS field-effect transistor, and bipolar transistor. Fundamentals of charge transport, charge storage, and generation-recombination; application to the operation of MOSFET and BJT. Device modeling with emphasis on features and constraints of integrated circuit technologies. No credit for students who have earned credit for 4283. [3]

EECE 5284. Integrated Circuit Technology and Fabrication. (Also listed as EECE 4284) Introduction to monolithic integrated circuit technology, understanding of basic semiconductor properties and processes that result in modern integrated circuit. Bipolar and MOSFET processes and structures. Elements of fabrication, design, layout, and applications as regards semiconductor microelectronic technologies. No credit for students who have earned credit for 4284. SPRING. [3]

EECE 5286. Audio Engineering. (Also listed as EECE 4286) Engineering aspects of high fidelity sound reproduction, with emphasis on digital audio and loudspeakers. Analog-to-digital and digital-to-analog conversion, data storage, perceptual coding, loudspeaker design. No credit for students who have earned credit for 4286. [3]

EECE 5287. Engineering Reliability. (Also listed as EECE 4287) Topics in engineering reliability with emphasis on electrical devices and systems. Reliability concepts and models. Risk analysis. Lifetime evaluation, System examples. No credit for students who have earned credit for 4287. [3]

EECE 5288. Optoelectronics. (Also listed as EECE 4288) Fundamentals and applications of light generation, propagation, and modulation in passive and active optoelectronic components. Waveguides, lasers, electro-optic modulators, and emerging optoelectronic technology for optical communication, computing, and sensing applications. No credit for students who have earned credit for 4288. SPRING. [3]

EECE 5353. Image Processing. (Also listed as EECE 4353) The theory of signals and systems is extended to two dimensions. Coverage includes filtering, 2-D FFTs, edge detection, and image enhancement. Three lectures and one laboratory period. No credit for students who have earned credit for 4353. FALL. [4]

EECE 5354. Computer Vision. (Also listed as EECE 4354) Vision is presented as a computational problem. Coverage includes theories of vision, inverse optics, image representation, and solutions to ill-posed problems. No credit for students who have earned credit for 4354. [3]

EECE 5356. Digital Signal Processing. (Also listed as EECE 4356) Applications of Digital Signal Processing (DSP) chips to sampling, digital filtering, FFTs, etc. Three lectures and one laboratory period. No credit for students who have earned credit for 4356. SPRING. [4]

EECE 5358. Control Systems II. (Also listed as EECE 4358) Modern control design. Discrete-time analysis. Analysis and design of digital control systems. Introduction to nonlinear systems and optimum control systems. Fuzzy control systems. Two lectures and one laboratory. No credit for students who have earned credit for 4358. SPRING. [3]

EECE 5371. Mobile and Wireless Networks. (Also listed as EECE 4371) Design, development, and applications of mobile applications and services. Topics include wireless technologies, smart phone programming, cloud computing services. No credit for students who have earned credit for 4271. [3]

EECE 5376. Embedded Systems. (Also listed as EECE 4376) Advanced course on the design and application of embedded microcontroller-based systems. Programming for real-time systems and the Internet of Things. Embedded system modeling, design, analysis, and implementation using real-time and event-driven techniques. A structured project is required. No credit for students who have earned credit for 4376. Corequisite: EECE 5376L. FALL. [3]

EECE 5376L. Embedded Systems Laboratory. (Also listed as EECE 4376L) Laboratory for EECE 5376. A team-oriented structured project is required. One three-hour laboratory per week. Corequisite: EECE 5376. No credit for students who have earned credit for 4376L. FALL. [1]

EECE 5377. FPGA Design. (Also listed as EECE 4377) Design and applications of field-programmable gate arrays, Electronic Design Automation (EDA) tools for design, placement, and routing, Hardware description languages. Implementation of designs on prototype FPGA board. No credit for students who have earned credit for 4377. [3]

EECE 5380. Electronics II. (Also listed as EECE 4380) Integrated circuit analysis and design. High frequency operation of semiconductor devices. Frequency-response and feedback analysis of BJT and MOS analog amplifier circuits, multi-stage frequency-compensated amplifier design. Transient analysis of BJT and MOS digital circuit families. Digital-to-analog and analog-to-digital conversion circuits. No credit for students who have earned credit for 3380. SPRING. [3]

EECE 5385. VLSI Design. (Also listed as EECE 4385) Integrated circuit and fabrication techniques; CAD tools for design, layout, and verification; parasitic elements and their effects on circuit performance; system-level design experience is gained by completing design and layout phases of a project. No credit for students who have earned credit for 4385. FALL. [3]

EECE 5891. Special Topics. (Also listed as EECE 3891) No credit for students who have earned credit for 3891. [1-3 each semester]

EECE 5892. Special Topics. (Also listed as EECE 3892) No credit for students who have earned credit for 3892. [1-3 each semester]

EECE 6301. Introduction to Solid-State Materials. (Formerly EECE 301) The properties of charged particles under the influence of an electric field, quantum mechanics, particle statistics, fundamental particle transport, and band theory of solids will be studied. FALL. [3]

EECE 6304. Radiation Effects and Reliability of Microelectronics. (Formerly EECE 304) The space radiation environment and effects on electronics, including basic mechanisms of radiation effects and testing issues. Total dose, single-event, high-dose-rate, and displacement damage radiation effects. Effects of defects and impurities on MOS long-term reliability. SPRING. [3]

EECE 6305. Topics in Applied Magnetics. (Formerly EECE 305) Selected topics in magnetism, magnetic properties of crystalline and non-crystalline materials; ferrite materials for electronics and microwave applications, resonance phenomena. Prerequisite: EECE 6302. [3]

EECE 6306. Solid-State Effects and Devices I. (Formerly EECE 306) The semiconductor equations are examined and utilized to explain basic principles of operation of various state-of-the-art semiconductor devices including bipolar and MOSFET devices. FALL. [3]

EECE 6321. Cyber-Physical Systems. Modeling, design, and analysis of cyber-physical systems that integrate computation and communication with physical systems. Modeling paradigms and models of computation, design techniques and implementation choices, model-based analysis and verification. Project that covers the modeling, design, and analysis of CPS. [3]

EECE 6341. Advanced Analog Electronics. (Formerly EECE 341) Analysis and design of analog electronics circuits with emphasis on integrated circuits. Topics include operational amplifiers, wideband amplifiers, multipliers, and phase-locked loops. FALL. [3]

EECE 6342. Advanced Digital Electronics. (Formerly EECE 342) Analysis and design of digital electronic circuits with emphasis on integrated circuits. Topics include logic families, semiconductor memories, and the analog-digital interface. [3]

EECE 6354. Advanced Real-Time Systems. [Formerly EECE 354] Fundamental problems in real-time systems, with focus on modeling, analysis, and design. Topics include: scheduling theory and techniques, time synchronization, time- and event-triggered systems, distributed architectures, advanced programming languages for real-time systems. Literature reviews and projects. [3]

EECE 6356. Intelligent Systems and Robotics. [Formerly EECE 356] Concepts of intelligent systems, AI robotics, and machine intelligence, using research books and papers. Emphasis on how AI, brain research, soft computing, and simulations are advancing robotics. Class projects. [3]

EECE 6357. Advanced Image Processing. [Formerly EECE 357] Techniques of image processing. Topics include image formation, digitization, linear shift-invariant processing, feature detection, and motion. Prerequisite: MATH 2300; programming experience. FALL. [3]

EECE 6358. Quantitative Medical Image Analysis. Image processing and statistical methods for quantitative analysis and interpretation of medical imaging data. Neuroimaging approaches related to brain structure, function, and connectivity. Massively univariate analysis (parametric mapping), multiple comparison issues, random fields, independent components, non-parametric approaches, and Monte Carlo methods. Students should have knowledge of undergraduate probability and computer programming. [3]

EECE 7899. Master of Engineering Project. [Formerly EECE 389]

EECE 7999. Master’s Thesis Research. [Formerly EECE 369] [0-6]

EECE 8395. Special Topics. [Formerly EECE 395] Based on research and current developments in electrical engineering of special interest to staff and students. [3]

EECE 8396. Special Topics. [Formerly EECE 396] Based on research and current developments in electrical engineering of special interest to staff and students. [3]

EECE 8850. Independent Study. [Formerly EECE 397] Readings and/or projects on advanced topics in electrical engineering under the supervision of the staff. Consent of instructor required. [Variable credit: 1-3 each semester]

EECE 8991. Seminar. [Formerly EECE 392] [1]

EECE 8992. Advanced Seminar for Ph.D. Candidates. [Formerly EECE 393] [1]

EECE 8999. Non-Candidate Research. [Formerly EECE 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [Variable credit 0-12]

EECE 9999. Ph.D. Dissertation Research. [Formerly EECE 399]

Engineering Management

ENGM 2440. Applied Behavioral Science. [Formerly ENGM 244] Leadership styles, power team building, conflict resolution, management resolution, interviewing techniques. Prerequisite: sophomore standing. FALL, SPRING. Su MMER. [3]

ENGM 3000. Enterprise System Design. [Formerly ENGM 273] Design of complex enterprise systems and processes including enterprise requirements analysis, process-mapping, modeling, performance measurement, benchmarking, solution development, and change management. Prerequisite: ENGM 2210 or Bu S 2700, junior standing. FALL, SPRING. [3]

ENGM 3100. Finance and Accounting for Engineers. [Formerly ENGM 251] Time value of money, capital budgeting and formation, financial accounting and reporting, double entry bookkeeping, taxation, performance ratio measurements, and working capital management. Probabilistic models for expected net present value and rate of return, dividend pricing models for alternative growth scenarios, cost and market based models for average cost of capital, taxation algorithms, and regression analysis for individual firm betas. Prerequisite: Junior standing. FALL, SPRING. Su MMER. [3]

ENGM 3200. Technology Marketing. [Formerly ENGM 242] Strategies for marketing technology-based products and services. Demand analysis, segmentation, distribution, and personal selling. Economic analysis from inception to end use. Prerequisite: ENGM 2210 or Bu S 2600, junior standing. FALL. [3]

ENGM 3300. Technology Assessment and Forecasting. [Formerly ENGM 275] Methods of forecasting technological advancements and assessing their potential intended and unintended consequences. Delphi method, trend exploration, environmental monitoring, and scenario development. Prerequisite: Junior standing. SPRING. [3]

ENGM 3350. Organizational Behavior. [Formerly ENGM 264] Study of the factors that impact how individuals and groups interact and behave within organizations, and how organizations respond to their environment. Motivation theory, communication within organizations, group dynamics, conflict management, decision making, power, strategic planning, organizational culture, and change. Focus on utilizing analytical tools to understand organizations: symbolic, political, human resources, and structural. Prerequisite: ENGM 2440. [3]

ENGM 3600. Technology-Based Entrepreneurship. [Formerly ENGM 253] Identification and evaluation of opportunities: risks faced by entrepreneurs, market assessment, capital requirements, venture capital acquisition, legal structures, tax implications for sharing technology-based businesses. Prerequisite: Junior standing. FALL. [3]

ENGM 3650. Operations and Supply Chain Management. [Formerly ENGM 254] Manufacturing strategy, process analysis, product and process design, total quality management, capacity planning, inventory control, supply chain design, and advanced operations topics. Modeling and analysis using cases and spreadsheets. Prerequisite: MATH 1301 or Bu S 2700, junior standing. FALL. [3]

ENGM 3700. Program and Project Management. [Formerly ENGM 274] Scheduling, cost estimation/predictions, network analysis, optimization, resource/load leveling, risk/mitigation, quality/testing, international projects. Term project required. Provides validated preparation for the Project Management Institute CAPM certification for undergraduates or the PMP for graduate students. Credit given for only one of ENGM 3700, CE 4400, or EECE 4950. Prerequisite: MATH 1301 or Bu S 2700, junior standing. FALL, SPRING. Su MMER. [3]
ENG 3850. Independent Study. [Formerly ENGM 289] Readings or projects on topics in engineering management under the supervision of the ENGM faculty. Consent of instructor required. [1-3 each semester, not to exceed a total of 3]

ENG 3851. Independent Study. [Formerly ENGM 289] Readings or projects on topics in engineering management under the supervision of the ENGM faculty. Consent of instructor required. [1-3 each semester, not to exceed a total of 3]

ENG 3890. Special Topics. [Formerly ENGM 291] [variable credit 1-3 each semester]

ENG 3891. Special Topics. [Formerly ENGM 292] [variable credit: 1-3 each semester]

ENG 4500. Product Development. [Formerly ENGM 276] Project-based course focused on the methods for managing the design, development, and commercialization of new products. Generating product concepts, developing a prototype strategy, modeling financial returns, securing intellectual property, designing retail packaging, and performing market testing to establish an optimal price. Teams include Engineering and MBA students. Prerequisite: ENGM 2210; ENGM 3700 or CE 4400 or EECE 4950; junior standing. SPRING. [4]

ENG 4800. Wealth Management for Engineers. Foundations of financial planning; managing basic assets, credit, and insurance needs; employee incentive plans such as stock options, deferred compensation and severance; managing investments in stocks, bonds, mutual funds, and real estate; retirement and estate planning such as 401k, 403b, IRA, Roth, estate preservation. SPRING. [1]

ENG 4951. Engineering Management Capstone Project. [Formerly ENGM 296] Application of engineering management concepts through team projects sponsored by faculty or seed-stage technology companies. Thinking, analysis, and planning processes needed to commercialize a concept and develop a business plan for presentation to investors. Prerequisite: ENGM 2210; ENGM 3000 or 3010. Corequisite: ENGM 3700. SPRING. [3]

ENG 5000. Enterprise System Design. (Also listed as ENGM 3000) Design of complex enterprise systems and processes including enterprise requirements analysis, process-mapping, modeling, performance measurement, benchmarking, solution development, and change management. No credit for students who have earned credit for 3000. FALL, SPRING. [3]

ENG 5010. Systems Engineering. (Also listed as ENGM 3010) Fundamental considerations associated with the engineering of large-scale systems. Models and methods for systems engineering and problem solving using a systems engineering approach. No credit for students who have earned credit for 3010. FALL, SPRING. [3]

ENG 5100. Finance and Accounting for Engineers. (Also listed as ENGM 3100) Time value of money, capital budgeting and forecasting, financial accounting and reporting, double entry bookkeeping, taxation, performance ratio measurements, and working capital management. Probabilistic models for expected net present value and rate of return, dividend pricing models for alternative growth scenarios, cost and market based models for average cost of capital, taxation algorithms, and regression analysis for individual firm betas. No credit for students who have earned credit for 3100. FALL, SPRING, Su MMER. [3]

ENG 5200. Technology Marketing. (Also listed as ENGM 3200) Strategies for marketing technology-based products and services. Demand analysis, segmentation, distribution, and personal selling. Economic analysis from inception to end use. No credit for students who have earned credit for 3200. FALL. [3]

ENG 5300. Technology Assessment and Forecasting. (Also listed as ENGM 3300) Methods of forecasting technological advancements and assessing their potential intended and unintended consequences. Delphi method, trend exploration, environmental monitoring, and scenario development. No credit for students who have earned credit for 3300. SPRING. [3]

ENG 5600. Technology-Based Entrepreneurship. (Also listed as ENGM 3600) Identification and evaluation of opportunities: risks faced by entrepreneurs, market assessment, capital requirements, venture capital acquisition, legal structures, tax implications for sharing technology-based businesses. No credit for students who have earned credit for 3600. FALL [3]

ENG 5650. Operations and Supply Chain Management. (Also listed as ENGM 3650) Manufacturing strategy, process analysis, product and process design, total quality management, capacity planning, inventory control, supply chain design, and advanced operations topics. Modeling and analysis using cases and spreadsheets. No credit for students who have earned credit for 3650. FALL. [3]

ENG 5700. Program and Project Management. (Also listed as ENGM 3700) Scheduling, cost estimation/predictions, network analysis, optimization, resource/load leveling, risk/mitigation, quality/testing, international projects. Term project required. Provides validated preparation for the Project Management Institute CAPM certification for undergraduates or the PMP for graduate students. Credit given for only one of ENGM 3700 or 5700, CE 4400 or 5400, or EECE 4950. FALL, SPRING, Su MMER. [3]

Engineering Science

ES 0703. Preparatory Academics. [Formerly ES 103] To prepare students to enter an undergraduate engineering or science program. The content will vary from year to year and is usually offered in combination with other academic courses, English as a second language, and various PdV programs. No credit toward a vanderbilt degree. Prerequisite: Consent of instructor. Su MMER. [9]

ES 1001. Engineering Commons Seminar. Topics vary. Open Elective Credit only. [1]

ES 1115. Engineering Freshman Seminar. [Formerly ES 101] [1]

ES 1401. Introduction to Engineering, Module 1. [Formerly ES 140A] First of three required discipline-specific modules for Introduction to Engineering credit providing an introduction to engineering analysis and design. Discipline-specific modules selected based on individual choice. Students choose three different disciplines for the three modules and all three must be completed in one semester for full course credit. Emphasis is on contemporary engineering problem solving in a discipline-specific context. FALL. [1]

ES 1402. Introduction to Engineering, Module 2. [Formerly ES 140B] Continuation of ES 1401. ES 1401-1403 must be completed in one semester for full course credit. FALL. [1]

ES 1403. Introduction to Engineering, Module 3. [Formerly ES 140C] Continuation of ES 1402. ES 1401-1403 must be completed in one semester for full course credit. FALL. [1]

ES 2100W. Technical Communications. [Formerly ES 210W] Instruction and practice in written and oral communication. Emphasis is on organization and presentation of information to a specific audience for a specific purpose. Course includes writing and editing reports of various lengths, preparing and using visual aids, and presenting oral reports. Prerequisite: Sophomore standing. FALL, SPRING. [3]

ES 2700. Engineering Career Development. A practical course designed to help students succeed in the job/internship search and career development. Interviewing, networking, online tools, elevator pitch, career fair strategies, career center resources, company research techniques, resumes, cover letters, negotiating, follow-up messages. FALL. [1]
ES 2900. Engineering and Public Policy. Role of federal policy in supporting and promoting engineering and science for the benefit of the U.S. Ways engineering, science and public policy impact each other. Federal government involvement, policy making, federal budget, role of universities and national labs, national defense, homeland security, biomedical enterprise. SPRING. [3]

ES 3230. Ships Engineering Systems. [Formerly ES 230] Ship characteristics and types, including design and control, propulsion, hydromechanics, stability, compartmentation, and electrical and auxiliary systems. Theory and design of steam, gas turbine, and nuclear propulsion. FALL. [3]

ES 3231. Navigation. [Formerly ES 231] Naval piloting procedures. Charts, visual and electronic aids, and theory and operation of magnetic and gyro compasses; inland and international rules of the nautical road. The celestial coordinate system, including spherical trigonometry and application for navigation at sea. Environmental influences on naval operations. SPRING. [3]

ES 3300. Energy and Sustainability—An Engineering Approach. Uses basic understanding of mechanics, thermodynamics, and electrodynamics to describe primary and secondary energy generation and use. Emphasis on current applications, energy efficiency at both the source and demand sides, and future (near and long-term) energy scenarios. Various economic models are explored. Prerequisite: Junior standing. [3]

ES 3860. Undergraduate Research. [Formerly ES 248] Independent study under the direction of a faculty member with expertise in the area of study. [1-3 each semester, not to exceed a total of 3]

ES 3890. Special Topics. [Formerly ES 290] Technical elective courses of special current interest. No more than six semester hours of these courses may be credited to the student’s record. Prerequisite: consent of instructor. FALL, SPRING. [1-3]

ES 4951. Senior Capstone Experience. Based on project specifications typically supplied by industrial sponsors or part of a student’s immersive experience. Students are responsible for the formulation, execution, qualification, and documentation of a culminating capstone experience. Application of knowledge acquired from earlier course work, both within and outside the engineering core area, along with realistic technical, managerial, and budgetary constraints using standard systems engineering methodologies and practices. Prerequisite: Senior standing. Corequisite: ENGM 3700. SPRING. [3]

ES 4959. Senior Engineering Design Seminar. Elements of professional engineering practice. Professionalism, licensing, ethics and ethical issues, intellectual property, contracts, liability, risk, reliability and safety, interdisciplinary teams and team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors, and industrial design. Prerequisite: Senior standing. FALL. [1]

Materials Science and Engineering

MSE 1500. Materials Science I. [Formerly MSE 150] Concepts of materials science developed from an understanding of the atomic and molecular structure of materials and their relationship to the properties of matter. Mechanical, electrical, physical, chemical, and magnetic properties of metals, ceramics, organics, composites, and semiconductors are covered. Corequisite: MSE 1500L. SPRING. [3]

MSE 1500L. Materials Science Laboratory. [Formerly MSE 150L] Laboratory for MSE 1500. One three-hour laboratory per week. Corequisite: MSE 1500. SPRING. [1]

MSE 2500. Materials Science II. [Formerly MSE 250] A study of engineering materials that includes microstructure and property characterization, materials selection, failure analysis, modern processing methods, and an introduction to nanostructured materials. Case studies and challenge based learning will be used to develop structure-processing concepts for the practice of materials science and engineering. Prerequisite: MSE 1500. FALL. [3]

MSE 3860. Undergraduate Research. [Formerly MSE 209C] Open to select engineering students to do research under the guidance of a faculty member. A formal written report is required. [1-3 each semester]

MSE 3889. Special Topics. [Formerly MSE 210A] Technical elective courses of special current interest. No more than two semesters of this course may be credited to the student’s record. [Variable credit: 1-3 each semester]

MSE 3890. Special Topics. [Formerly MSE 210B] Technical elective courses of special current interest. No more than two semesters of this course may be credited to the student’s record. Prerequisite: consent of instructor. [Variable credit: 1-3 each semester] (Offered on demand)

MSE 6310. Atomic Arrangements in Solids. [Formerly MSE 310] A basic understanding of the atomic arrangements observed in metals, ceramics, semiconductors, glasses, and polymers. Lattice geometry and crystal symmetry are discussed in detail and these concepts are used to describe important crystal structures. Nanocrystalline materials are also covered. An introduction to scattering theory and diffraction phenomena provides insight into the analytical methods used by materials scientists for structural characterization. FALL. [3]

Overseas Study Programs

FNTE 0800. France—GA Tech Lorraine. [Formerly FNTE 250]
FNTE 0801. Germany—Dresden. [Formerly FNTE 252]
FNTE 0802. Mexico—Guadalajara. [Formerly FNTE 254]
FNTE 0803. China—Hong Kong CUHK. [Formerly FNTE 256]
FNTE 0804. Singapore—Natl. U. Singapore. [Formerly FNTE 258]
FNTE 0805. Hungary—Budapest BUTE. [Formerly FNTE 260]
FNTE 2056. Italy—Turin Pol diTorino. [Formerly FNTE 262]
FNTE 2057. China—Hong Kong HKUST. [Formerly FNTE 264]
FNTE 2058. Spain—Madrid Engineering (IES). [Formerly FNTE 266]
FNTE 2059. Israel—Tel Aviv Engineering (BU). [Formerly FNTE 268]
FNTE 2099. Graduate Study. [Formerly FNTE 299] Place marker course for dual degree students.

MSE 6391. Special Topics. [Formerly MSE 391] Based on faculty research projects and highly specialized areas of concentration. FALL, SPRING. [variable credit: 1-3 each semester]

MSE 6392. Special Topics. [Formerly MSE 392] Based on faculty research projects and highly specialized areas of concentration. FALL, SPRING. [variable credit: 1-3 each semester]

MSE 7999. Master’s Thesis Research. [Formerly MSE 369] [0-6]

MSE 8991. Seminar. [Formerly MSE 397] A required noncredit course for all graduate students in the program. Topics of special interest consolidating the teachings of previous courses by considering topics which do not fit simply into a single course category. FALL, SPRING. [0] Staff.

MSE 8992. Seminar. [Formerly MSE 398] A required noncredit course for all graduate students in the program. Topics of special interest consolidating the teachings of previous courses by considering topics which do not fit simply into a single course category. FALL. SPRING. [0] Staff.

MSE 8999. Non-Candidate Research. [Formerly MSE 379] Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit: 0-12]

MSE 9999. Ph.D. Dissertation Research. [Formerly MSE 399]

Mechanical Engineering

ME 1150. Automotive Components Seminar. [Formerly ME 150] General automotive knowledge for engineering and design considerations. Basic component function, terminology and design. Suspension (including suspension kinematics), steering (including steering geometry), driveline, transmission, engine and braking. Discussion and in-class participation. [1]

ME 1151. Laboratory in Machining. [Formerly ME 151] Introduction to machining and fabrication of metals and plastics. Fabrication, design and manufacturability of parts or components. [1]

ME 1152. Laboratory in Welding. [Formerly ME 152] Introduction to the theory of welding processes and welding of metals. Design, fabrication, and manufacturability of parts or components using welding processes. [1]

ME 1153. Computer Aided Design. [Formerly ME 153] Introduction to the use of computers for solid modeling of machine parts and assemblies. [1]

ME 2160. Introduction to Mechanical Engineering Design. [Formerly ME 160] Design fundamentals, computer-aided design, machine fabrication techniques, technical drawing, team-based learning, and a comprehensive design project. Two lectures and one lab. Prerequisite: ES 1401-1403 and Mechanical Engineering major. FALL. [3]

ME 2190. Dynamics. [Formerly ME 190] The principles of dynamics (kinematics and kinetics) of particles and rigid bodies. Mechanical vibrations. Introduction to continuous media. Prerequisite: CE 2200, PHYS 1601. Corequisite: MATH 2300. FALL, SPRING, Su MMER. [3]

ME 2220. Thermodynamics. [Formerly ME 220] Application of the first and second laws to energy transformation processes and properties of technologically important materials. Prerequisite: PHYS 1601, MATH 2300. FALL. SPRING, Su MMER. [3]

ME 3204. Mechatronics. [Formerly ME 204] Design of analog and digital electromechanical sensors and actuators, signal and power electronics, and application of digital microcontrollers to mechatronic systems. Prerequisite: EECE 2112; CS 1101 or 1103. SPRING. [3]

ME 3224. Fluid Mechanics. [Formerly ME 224] Physical properties of fluids, surface tension, viscosity; fluid-statics and dynamics; control volume analysis of mass, momentum, and energy; dimensional analysis, similarity, and modeling; viscous flows in pipes; drag and lift on immersed bodies. Prerequisite: ME 2190, MATH 2420. Credit not awarded for both ME 3224 and CE 3700. FALL. [3]

ME 3224. Systems Dynamics. [Formerly ME 234] Energy-based modeling of dynamic mechanical, electrical, thermal, and fluid systems to formulate linear state equations, including system stability, time domain response, and frequency domain techniques. Three lectures and one three-hour laboratory. Prerequisite: ME 2190, MATH 2420. FALL. [4]

ME 3248. Heat Transfer. [Formerly ME 248] Steady-state and transient heat transfer by conduction, forced and free convection and radiation, including heat transfer by boiling and condensing vapors. Application is made to practical design problems. Prerequisite: ME 2220, ME 3224. SPRING. [3]

ME 3850. Independent Study. Under the direction of a faculty member, students study in a focused area of mechanical engineering culminating in an engineering report of the activities and findings. [1-3]

ME 3860. Undergraduate Research. [Formerly ME 209AB/C] Under the direction of a faculty member, students conduct a research project. A formal, written report is required. [1-3]

ME 3890. Special Topics. [Formerly ME 210] Technical elective courses of special current interest. No more than six semester hours of this course may be credited to the student’s record. FALL, SPRING, Su MMER. [variable credit: 1-3 each semester] (Offered on demand)

ME 4213. Energetics Laboratory. [Formerly ME 213] Experimental methods in heat transfer, fluid mechanics, and thermodynamics as applied to energy conversion systems and their analyses. Prerequisite: Senior standing. FALL. [2]

ME 4221. Intermediate Thermodynamics. [Formerly ME 221] Application of principles of thermodynamics to vapor and gas cycles, mixtures, combustion, and compressible flow. Prerequisite: ME 2220. Corequisite: MATH 2420. [3]

ME 4226. Introduction to Gas Dynamics. [Formerly ME 226] An introduction to the study of compressible flow from subsonic to supersonic flow regimes. Includes shock waves, expansion waves, shock tubes, and supersonic airfoils. Prerequisite: ME 3224. [3]

ME 4236. Linear Control Theory. [Formerly ME 236] Classical and modern approaches to the analysis and design of single-input/single-output (SISO) and multiple-input/multiple-output (MIMO) linear time invariant control systems. Classical (frequency-domain) and modern (state-space) approaches to SISO and MIMO control, including optimal control methods. Credit is given for only one of ME 4236 or ME 5236. Prerequisite: ME 3234. FALL. [3]

ME 4258. Engineering Acoustics. [Formerly ME 258] The wave equation and its solutions; acoustic sources; reflection and transmission of sound; propagation in pipes, cavities, and waveguides; noise standards and effects of noise on people; principles of noise and vibration control; signal processing in acoustics; environmental noise measurement and control; and various contemporary examples. Prerequisite: MATH 2400 or 2420. [3]

ME 4259. Engineering Vibrations. [Formerly ME 259] Theory of vibrational systems and application to problems related to mechanical design. Topics include single degree of freedom systems subject to free, forced, and transient vibrations; systems with several degrees of freedom, methods of vibration suppression and isolation, and critical speed phenomena. Prerequisite: ME 2190, MATH 2420. [3]
ME 4260. Energy Conversion. [Formerly ME 260] Energy resources, use, and conservation are studied. The fundamentals of positive displacement machinery, turbo-machinery, and reactive mixture are introduced and used to examine various forms of power-producing systems. Prerequisite: ME 2220, ME 3224. [3]

ME 4261. Basic Airplane Aerodynamics. [Formerly ME 261] Study of the atmosphere; analysis of incompressible and compressible flows, shock waves, boundary layer and skin friction drag, lift and drag forces over airfoils and wings, and flight performance; aircraft stability and control, wing icing, and parachute-based recovery; history of flight and aerodynamics. Corequisite: ME 3224. [3]

ME 4263. Computational Fluid Dynamics and Multiphysics Modeling. [Formerly ME 263] Computational modeling of viscous fluid flows and thermal-fluid-structure interaction. Computational techniques including finite-difference, finite-volume, and finite-element methods; accuracy, convergence, and stability of numerical methods; turbulence modeling; rotating machinery; multiphase flows; and multiphysics modeling. Prerequisite: ME 3224, SPRING. [3]

ME 4264. Internal Combustion Engines. [Formerly ME 264] A study of the thermodynamics of spark ignition and compression ignition engines; gas turbines and jet propulsion. Prerequisite: ME 2220. [3]

ME 4265. Direct Energy Conversion. [Formerly ME 265] The principles and devices involved in converting other forms of energy to electrical energy. Conversion devices: electro-mechanical, thermoelectric, thermionic, fluid dynamic, and fuel cell. Prerequisite: ME 2220. [3]

ME 4275. Introduction to Finite Element Analysis. [Formerly ME 275] Development and solution of finite element equations for solid mechanics and heat transfer problems. Introduction to commercial finite element and pre- and post-processing software. Two lectures and one three-hour laboratory each week. Prerequisite: CE 2205, MATH 2420. [3]

ME 4280. Advanced Dynamics of Mechanical Systems. [Formerly ME 280] Development of methods for formulating differential equations to model mechanical systems, including formalisms of Newton-Euler, Lagrange, and virtual work methods to two- and three-dimensional systems. Prerequisite: ME 2190, MATH 2420. [3]

ME 4950. Design Synthesis. [Formerly ME 242] Development of the design process: problem definition, design specifications, solution identification, idea synthesis, modeling and simulation, and design completion. Critical elements include problem selection, idea synthesis, and proposal writing. Individual design synthesis study projects required. Prerequisite: ME 3202. FALL. [2]

ME 4951. Engineering Design Projects. [Formerly ME 243] Each student participates in a major group design project. Lectures will cover case studies and topics of current interest in design. Prerequisite: ME 4950. SPRING. [3]

ME 4959. Senior Engineering Design Seminar. [Formerly ME 297] Elements of professional engineering practice. Professionalism, licensing, ethics and ethical issues, intellectual property, contracts, liability, risk, reliability and safety, interdisciplinary teams and team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors, and industrial design. Prerequisite: Senior standing. Corequisite: ME 4950. FALL. [1]

ME 5236. Linear Control Theory. [Formerly ME 336] (Also listed as ME 4236) Classical and modern approaches to the analysis and design of single-input/single-output (SISO) and multiple-input/multiple-output (MIMO) linear time invariant control systems. Classical (frequency-domain) and modern (state-space) approaches to SISO and MIMO control, including optimal control methods. Credit is given for only one of ME 4236 or ME 5236. [3]

ME 5251. Modern Manufacturing Processes. (Also listed as ME 4251) Introduction to manufacturing science and processes. A quantitative approach dealing with metals, ceramics, polymers, composites, and nanofabrication and microfabrication technologies. No credit for students who have earned credit for 4251. [3]

ME 5258. Engineering Acoustics. (Also listed as 4258) The wave equation and its solutions; acoustic sources; reflection and transmission of sound; propagation in pipes, cavities, and waveguides; noise standards and effects of noise on people; principles of noise and vibration control; signal processing in acoustics; environmental noise measurement and control; and various contemporary examples. [3]

ME 5259. Engineering Vibrations. (Also listed as ME 4259) Theory of vibrating systems and application to problems related to mechanical design. Topics include single degree of freedom systems subject to free, forced, and transient vibrations; systems with several degrees of freedom, methods of vibration suppression and isolation, and critical speed phenomena. No credit for students who have earned credit for 4259. [3]

ME 5260. Energy Conversion. (Also listed as ME 4260) Energy resources, use, and conservation are studied. The fundamentals of positive displacement machinery, turbo-machinery, and reactive mixture are introduced and used to examine various forms of power-producing systems. No credit for students who have earned credit for 4260. [3]

ME 5261. Basic Airplane Aerodynamics. (Also listed as ME 4261) Study of the atmosphere; analysis of incompressible and compressible flows, shock waves, boundary layer and skin friction drag, lift and drag forces over airfoils and wings, and flight performance; aircraft stability and control, wing icing, and parachute-based recovery; history of flight and aerodynamics. Corequisite: ME 3224. No credit for students who have earned credit for 4261. [3]

ME 5262. Environmental Control. (Also listed as ME 4262) A study of heating and cooling systems, energy conservation techniques, use of solar energy and heat pumps. No credit for students who have earned credit for 4262. [3]

ME 5263. Computational Fluid Dynamics and Multiphysics Modeling. (Also listed as ME 4263) Computational modeling of viscous fluid flows and thermal-fluid-structure interaction. Computational techniques including finite-difference, finite-volume, and finite-element methods; accuracy, convergence, and stability of numerical methods; turbulence modeling; rotating machinery; multiphase flows; and multiphysics modeling. No credit for students who have earned credit for 4263. SPRING. [3]

ME 5264. Internal Combustion Engines. (Also listed as ME 4264) A study of the thermodynamics of spark ignition and compression ignition engines; gas turbines and jet propulsion. No credit for students who have earned credit for 4264. [3]

ME 5265. Direct Energy Conversion. (Also listed as ME 4265) The principles and devices involved in converting other forms of energy to electrical energy. Conversion devices: electro-mechanical, thermoelectric, thermionic, fluid dynamic, and fuel cell. No credit for students who have earned credit for 4265. [3]
ME 5267. Aerospace Propulsion. (Also listed as ME 4267) Application of classical mechanics and thermodynamics to rocket and aircraft propulsion. Design and performance analysis of air-breathing and chemical rocket engines. Advanced propulsion systems for interplanetary travel. Contemporary issues in aerospace propulsion: space exploration, renewable fuels. No credit for students who have earned credit for 4267. [3]

ME 5271. Introduction to Robotics. (Also listed as ME 4271) History and application of robots. Robot configurations including mobile robots. Spatial descriptions and transformations of objects in three-dimensional space. Forward and inverse manipulator kinematics. Task and trajectory planning, simulation and off-line programming. No credit for students who have earned credit for 4271. [3]

ME 5275. Introduction to Finite Element Analysis. (Also listed as ME 4275) Development and solution of finite element equations for solid mechanics and heat transfer problems. Introduction to commercial finite element and pre- and post-processing software. Two lectures and one three-hour laboratory each week. No credit for students who have earned credit for 4275. [3]

ME 5280. Advanced Dynamics of Mechanical Systems. (Also listed as ME 4280) Development of methods for formulating differential equations to model mechanical systems, including formalisms of Newton-Euler, Lagrange, and virtual work methods to two- and three-dimensional systems. No credit for students who have earned credit for 4280. [3]

ME 5284. Modeling and Simulation of Dynamic Systems. (Also listed as ME 4284) Incorporates bond graph techniques for energybased lumped-parameter systems. Includes modeling of electrical, mechanical, hydraulic, magnetic and thermal energy domains. Emphasis on multi-domain interaction. No credit for students who have earned credit for 4284. [3]

ME 7899. Master's Engineering Project. [Formerly ME 389]

ME 7999. Master's Thesis Research. [Formerly ME 369] [0-6]

ME 8320. Statistical Thermodynamics. (Formerly ME 320) Old and modern quantum theory, including H atom, rigid rotor, and harmonic oscillator. Atomic and molecular structure and spectra. Maxwell-Boltzmann statistical model for ideal, chemically reacting, electron, or photon gas. Introduction to Gibbs method. Prerequisite: ME 2220. [3]

ME 8323. Introduction to Micro/NanoElectroMechanical Systems. (Formerly ME 323) Fabrication techniques and mechanical behavior of modern MEMS/NEMS structures. Application of NEMS/MEMS devices to sensing and actuation. [3]

ME 8326. Gas Dynamics. (Formerly ME 326) Study of compressible fluid flow from subsonic to supersonic regimes in confined regions and past bodies of revolutions. Includes heat transfer, frictional effects, and real gas behavior. Prerequisite: ME 3224. [3]

ME 8327. Energy Conversion Systems. (Formerly ME 327) An advanced study of energy conversion systems that include turbomachinery, positive displacement machinery, solar energy collection and combustion, with consideration for optimizing the systems. [3]

ME 8331. Robot Manipulators. (Formerly ME 331) Dynamics and control of robot manipulators. Includes material on Jacobian matrix relating velocities and static forces, linear and angular acceleration relationships, manipulator dynamics, manipulator mechanism design, linear and nonlinear control, and force control manipulators. Prerequisite: ME 4271. [3]

ME 8333. Topics in Stress Analysis. (Formerly ME 333) An investigation of thermal stress, transient stress, and temperatures in idealized structures; consideration of plasticity at elevated temperatures; and some aspects of vibratory stresses. [3]

ME 8340. Wireless Mechatronics. (Formerly ME 340) Design of mechatronic devices with emphasis on miniaturization and wireless transmission of data. Programming of wireless microcontrollers with data acquisition and transmission from sensors and to actuators. Group design project to simulate, fabricate, and test a miniaturized wireless robot. [3]

ME 8348. Convection Heat Transfer. (Formerly ME 348) A wide range of topics in free and forced convection is discussed. Solutions are carried out using analytical, integral, and numerical methods. Internal and external flows are considered for both laminar and turbulent flow cases. Convection in high speed flow is also studied. Prerequisite: ME 3248. [3]

ME 8352. Non-linear Control Theory. (Formerly ME 352) Introduction to the concepts of nonlinear control theory. Topics include phase plane analysis, nonlinear transformations, Lyapunov stability, and controllability/observability calculations. A multidimensional geometric approach to these problems is emphasized. Prerequisite: MATH 2410. [3]

ME 8353. Design of Electromechanical Systems. (Formerly ME 353) Analog electronic design for purposes of controlling electromechanical systems, including electromechanical sensors and actuators, analog electronic design of filters, state-space and classical controllers, and transistor-based servosystems and high voltage amplifiers. Significant laboratory component with design and fabrication circuits to control electromechanical systems. Implementation of digital controllers. Prerequisite: ME 3234. [3]

ME 8359. Advanced Engineering Vibrations. (Formerly ME 359) The development and application of Lagrange’s equations to the theory of vibrations. Nonlinear systems and variable spring characteristics are analyzed by classical methods and by digital computer techniques. Applications to the design of high speed machines are emphasized. Prerequisite: ME 4259; MATH 3120, MATH 4110. [3]

ME 8363. Conduction and Radiation Heat Transfer. (Formerly ME 363) A comparative study of available methods for solution of single and multidimensional conduction heat transfer problems. Both steady and transient problems are considered. Mathematical and numerical methods are stressed. Radiant exchange between surfaces separated by non-participating media is studied. Numerical methods are developed and discussed for non-isothermal surfaces and combined radiation and conduction problems are solved. Prerequisite: ME 3248. [3]

ME 8364. Nanophotonic Materials. Physics, design, modeling, and applications of nanophotonic materials in modern optical systems. Topics include waveguides and chip-based photonics, photonic crystals, plasmonics, and metamaterials. [3]

ME 8365. Micro/Nano Energy Transport. (Formerly ME 365) Theoretical examination of energy transport by electrons and phonons and modeling of transport phenomena in crystalline solids at reduced length scales. Particle transport models and solution methods for energy carriers in the context of semiconductor electronics, direct energy conversion devices and nanostucture. [3]

ME 8366. Combustion. (Formerly ME 366) Introduction to combustion processes. Topics include combustion thermodynamics, chemical kinetics, premixed flame theory, diffusion flame theory, ignition and detonation. Prerequisite: ME 4221, ME 3224. [3]

ME 8391. Special Topics. (Formerly ME 391) A course based on faculty research projects and highly specialized areas of concentration. [variable credit: 1-3 each semester]

ME 8393. Independent Study. (Formerly ME 393) Readings and/or projects on advanced topics in mechanical engineering under the supervision of the faculty. Consent of instructor required. [variable credit: 1-3 each semester]

ME 8991. Seminar. (Formerly ME 397) [0]

ME 8999. Non-Candidate Research. (Formerly ME 379) Research prior to entry into candidacy (completion of qualifying examination) and for special non-degree students. [variable credit 0-12]

ME 9999. Ph.D. Dissertation Research. (Formerly ME 399)
Nanoscience and Nanotechnology

NANO 3000. Materials Characterization Techniques in Nanoscale Engineering. [Formerly NANO 250] Principles and applications of advanced materials characterization techniques used to characterize specimens and engineered structures at the nano/microscale. Topics include x-ray diffraction analysis, optical microscopy, electron microscopy, surface probe techniques, focused ion-beam instruments, Rutherford backscatter analysis and chemical microanalytical techniques, treated both qualitatively and quantitatively. Lectures alternate with laboratory on a weekly basis. Prerequisite: MATH 1301; CHEM 1602 or MSE 1500. FALL. [3]

Scientific Computing

SC 3250. Scientific Computing Toolbox. [Formerly SC 250] Use of computational tools in multiple science and engineering domains. Simulations of complex physical, biological, social, and engineering systems, optimization and evaluation of simulation models, Monte Carlo methods, scientific visualization, high performance computing, or data mining. Prerequisite: CS 1101 or 1103; MATH 1100 or higher. FALL. [3]

SC 3850. Independent Study. [Formerly SC 295A] Development of a research project by the individual student under the direction of a faculty sponsor. Project must combine scientific computing tools and techniques with a substantive scientific or engineering problem. Consent of both the faculty sponsor and one Director of the SC minor is required. Prerequisite: SC 3250. [1-3]

SC 3851. Independent Study. [Formerly SC 295B] Development of a research project by the individual student under the direction of a faculty sponsor. Project must combine scientific computing tools and techniques with a substantive scientific or engineering problem. Consent of both the faculty sponsor and one Director of the SC minor is required. Prerequisite: SC 3250. [1-3 each semester]

SC 3890. Special Topics. [Formerly SC 290] [1-3]

SC 5250. Scientific Computing Toolbox. (Also listed as SC 3250) Use of computational tools in multiple science and engineering domains. Simulations of complex physical, biological, social, and engineering systems, optimization and evaluation of simulation models, Monte Carlo methods, scientific visualization, high performance computing, or data mining. No credit for students who have earned credit for 3250. FALL. [3]

SC 5890. Special Topics. (Also listed as SC 3890) No credit for students who have earned credit for 3890. [1-3]
School of Engineering

PHILIPPE M. FAUCHET, Ph.D., Dean
K. ARTHUR OVERHOLSER, Ph.D., P.E., Senior Associate Dean
DAVID M. BASS, M.Ed., Associate Dean for Development and Alumni Relations
PETER T. CUMMINGS, Ph.D., Associate Dean for Research
E. DUOJO JANSEN, Ph.D., Associate Dean for Graduate Studies
CYNTHIA B. PASchal, Ph.D., Associate Dean
WILLIAM H. ROBINSON III, Ph.D., Associate Dean
JOHN R. VEILLETTE, Ph.D., Associate Dean for Preparatory Academics
HECTOR SILVA, M.B.A., Chief Business Officer
ROBIN L. CARLSON, Assistant to the Dean
BURGESS MITCHELL, M.Ed., Assistant Dean for Student Services
THOMAS J. WIThROW, Ph.D., Assistant Dean for Design
CHRISTOPHER J. ROWE, Ed.D., Director, Division of General Engineering, Senior Aide to the Dean
ADAM W. MCKEEVER-BURGETT, M.Div., Associate Director of Academic Services

Named and Distinguished Professorships

DOUGLAS E. ADAMS, Distinguished Professor of Civil and Environmental Engineering; Daniel F. Flowers Chair
GAUTAM BISWAS, Cornelius Vanderbilt Chair
JAMES A. CADZOW, Centennial Professor of Electrical Engineering, Emeritus
THOMAS A. CRUSE, H. Fort Flowers Professor of Mechanical Engineering, Emeritus
PETER T. CUMMINGS, John R. Hall Professor of Chemical Engineering
BENOIT M. DAWANT, Cornelius Vanderbilt Chair in Engineering
DANIEL M. FLEETWOOD, Olin H. Landreth Professor of Engineering
KENNETH F. GALLOWAY, Distinguished Professor of Engineering
MICHAEL GOLDFARB, H. Fort Flowers Professor of Mechanical Engineering
JOHN G. GORE, Chancellor’s University Professor of Radiology and Radiological Sciences and Biomedical Engineering
THOMAS R. HARRIS, Orrin Henry Ingram Distinguished Professor of Engineering, Emeritus
GEORGE M. HORNBERGER, Distinguished University Professor; Craig E. Philip Professor of Engineering
ROBERT W. HOUSE, Orrin Henry Ingram Distinguished Professor of Engineering Management, Emeritus
MICHAEL R. KING, J. Lawrence Wilson Professor of Engineering
M. DOUGLAS LEVAN, J. Lawrence Wilson Professor of Engineering, Emeritus
SANKARAN MAHADEVAN, John R. Murray Sr. Chair in Engineering
ANITA MAHADEVAN-JANSEN, Orrin H. Ingram Chair in Biomedical Engineering
CLARE M. MCCABE, Cornelius Vanderbilt Chair
ARTHUR M. MELLOr, Centennial Professor of Mechanical Engineering, Emeritus
SOKRATES T. PANTELIDES, University Distinguished Professor of Physics and Engineering
FRANK L. PARKER, Distinguished Professor of Environmental and Water Resources Engineering, Emeritus
PETER N. PINTAURO, H. Eugene McBrayer Professor of Chemical Engineering
CYNTHIA A. REinhART-KING, Cornelius Vanderbilt Chair
DOUGLAS C. SCHMIDT, Cornelius Vanderbilt Chair
RONALD D. SCHrimPF, Orrin Henry Ingram Professor of Engineering
RICHARD E. SPEECE, Centennial Professor of Civil and Environmental Engineering, Emeritus
JANOS SZTIPANOVITS, E. Bronson Ingram Distinguished Professor of Engineering
TAYLOR G. WANG, Centennial Professor of Materials Science and Engineering, Emeritus; Centennial Professor of Mechanical Engineering, Emeritus
SHARON M. WEISS, Cornelius Vanderbilt Chair
JOHN P. WIKSWO, JR., Gordon A. Cain University Professor; A. B. Learned Professor of Living State Physics

Department Chairs

MICHAEL R. KING, Biomedical Engineering
G. KANE JENNINGS, Chemical and Biomolecular Engineering
DOUGLAS E. ADAMS, Civil and Environmental Engineering
DANIEL M. FLEETWOOD, Electrical Engineering and Computer Science
ROBERT W. Pitz, Mechanical Engineering

Standing Committees and Councils

CAREER COMMITTEE. Cynthia Paschal, Chair. Todd Giorgio, Peter Pintauro, Douglas C. Schmidt, Ralph W. Bruce, Joel Barnett, David A. Berezov, Robert E. Stammer.

CONSULTATIVE COMMITTEE. Deyu Li, Chair. Mark D. Does, Matthew Lang, David S. Kosson, Ronald D. Schrimpf. Ex Officio: Philippe M. Fauchet.

DIRECTORS OF GRADUATE STUDIES/MASTER OF ENGINEERING. E. Ducu Jansen, Chair. Cynthia A. Reinhart-King, DGS in BME; Craig L. Duvall, DGR in BME; Claire M. McCabe, DGS in CHBE; Jamey D. Young, DGR in CHBE; Caglar Oskay, DGS in CE; Hiba Baroud GDR in CE; Florence Sanchez, DGS in ENVE; Shihong Lin, DGR in ENVE; Akos Ledeczi, DGS in CS; Robert A. Reed, DGS in EE; Deyu Li, DGS in ME; Eva M. Herth, DGS in IMS.

FACULTY DEVELOPMENT AND DIVERSITY. Clare McCabe, Chair. W. David Merryman, Mark D. Abkowitz, William Robinson, Robert J. Webster III.

INFORMATION TECHNOLOGY. Peter T. Cummings, Chair. Brett Byram, Ravindra Duddu, Bennett Landman, Akos Ledeczi, Haoxiang Luo, Andy Richter, David R. Linn.

LIBRARY. Clare M. McCabe, Chair. Alan R. Bowers, Craig L. Duvall, William A. Grissom, Jeremy P. Spinrad, Alvin M. Strauss.

RESEARCH COUNCIL. Matthew J. Lang, Chair. Frederick R. Haselton, Michael Goldfarb, David S. Kosson, Lloyd W. Massengill. Ex Officio: Peter T. Cummings.

SHOP COMMITTEE. Matthew Walker III, Matthew J. Lang, Rich Teising, Timothy Holman, Thomas J. Withrow, Robert J. Webster III.

Faculty

MARK D. ABKOWITZ, Professor of Civil and Environmental Engineering; Professor of Engineering Management
B.S., M.S., Ph.D. (Massachusetts Institute of Technology 1974, 1976, 1980) [1987]

DOUGLAS E. ADAMS, Distinguished Professor of Civil and Environmental Engineering; Daniel F. Flowers Chair; Professor of Civil and Environmental Engineering; Professor of Mechanical Engineering; Chair of Civil and Environmental Engineering
B.S. (Cincinnati 1994); M.S. (Massachusetts Institute of Technology 1997); Ph.D. (Cincinnati 2000) [2013]

JULIE ADAMS, Adjoint Professor of Computer Science and Computer Engineering

NICHOLAS M. ADAMS, Research Assistant Professor of Biomedical Engineering
B.S. ( Dixie State 2009); Ph.D. (Vanderbilt 2014) [2014]

MICHAEL L. ALLES, Associate Director of the Institute for Space and Defense Electronics (ISDE); Research Professor of Electrical Engineering

SHILO ANDERS, Research Assistant Professor of Anesthesiology; Research Assistant Professor of Biomedical Informatics; Research Assistant Professor of Computer Science
B.A. (Montana Western 2002); M.A. (Dayton 2004); Ph.D. (Ohio State 2008) [2011]

ADAM W. ANDERSON, Associate Professor of Biomedical Engineering; Associate Professor of Radiology and Radiological Sciences

AMRUTUR V. ANILKUMAR, Professor of the Practice of Mechanical Engineering; Professor of the Practice of Aerospace Engineering

DANIEL ARENA, Senior Lecturer in Computer Science
B.A., M.S. (Rutgers 1986, 1990) [1999]

JOHN C. AYERS, Professor of Earth and Environmental Sciences; Professor of Civil and Environmental Engineering

JUSTIN S. BABA, Adjoint Associate Professor of Biomedical Engineering
B.S. (LaTourette 1994); A.S. (Kigore 1998); Ph.D. (Texas A & M 2003) [2016]

DANIEL ALLEN BALASUBRAMANIAN, Adjunct Assistant Professor of Computer Science; Research Scientist/Engineer of Institute for Software Integrated Systems
B.S. (Tennessee Technological 2004); M.S., Ph.D. (Vanderbilt 2008, 2011) [2011]

THEODORE BAPTY, Research Associate Professor of Electrical Engineering
B.S. (Pennsylvania 1985); M.S., Ph.D. (Vanderbilt 1991, 1995) [1993]

RIZIA BARDHAN, Assistant Professor of Chemical and Biomolecular Engineering

ROBERT JOEL BARNETT, Associate Professor of the Practice of Mechanical Engineering

HIBA BAROUD, Assistant Professor of Civil and Environmental Engineering; Director of Graduate Recruiting for Civil Engineering
Ph.D. (Oklahoma 2013) [2013]

J. ROBIN BARRICK, Adjunct Instructor in Civil and Environmental Engineering
B.E., M.B.A. (Vanderbilt 1974, 1983) [2008]

ERIC J. BARTH, Associate Professor of Mechanical Engineering
B.S. (California, Berkeley 1994); M.S., Ph.D. (Georgia Institute of Technology 1996, 2000) [2000]

PRODYOT K. BASU, Professor of Civil and Environmental Engineering
B.S. (Lucknow [India] 1967); B.S. (Jadavpur [India] 1961); M.S. (Calcutta [India] 1963); D.Sc. (Washington University 1977) [1984]

FRANZ J. BAUDENBACHER, Associate Professor of Biomedical Engineering

LEON M. BELLAN, Assistant Professor of Mechanical Engineering; Assistant Professor of Biomedical Engineering
B.S. (California Institute of Technology 2003); M.S., Ph.D. (Cornell 2007, 2008) [2013]

JAMES BENTLEY, Adjunct Professor of Materials Science and Engineering

DAVID A. BEREZOV, Associate Professor of the Practice of Engineering Management
B.S. (Syracuse 1975); M.B.A. (Vanderbilt 1980) [2000]

JOHN A. BERS, Adjunct Professor of Engineering Management
B.S. (Yale 1968); Ed.D. (Harvard 1975); M.B.A. (Chicago 1984); Ph.D. (Vanderbilt 1998) [1996]

BRYAN R. BEYER, Adjunct Instructor in Chemical and Biomolecular Engineering
B.S. (Mississippi 2016) [2016]

BHARAT L. BHUVA, Professor of Electrical Engineering and Professor of Computer Engineering
B.S. (Maharaja Sayajirao [India] 1982); M.S., Ph.D. (North Carolina State 1984, 1987) [1987]

JULIE S. BIRDSONG, Adjunct Instructor in Engineering Management
B.S. (Middle Tennessee State 1979); M.Ed. (Vanderbilt 1991) [2012]

GAUTAM BISWAS, Cornelius Vanderbilt Chair; Professor of Computer Science; Professor of Computer Engineering; Professor of Engineering Management

ROBERT E. BODENHEIMER, Associate Professor of Computer Science; Associate Professor of Computer Engineering and Electrical Engineering

ALFRED B. BONDS III, Professor of Electrical Engineering, Emeritus and Professor of Computer Engineering, Emeritus; Professor of Biomedical Engineering, Emeritus; Lecturer in Electrical Engineering
A.B. (Cornell 1968); M.S., Ph.D. (Northwestern 1972, 1974) [1980]

ALAN R. BOWERS, Associate Professor of Civil and Environmental Engineering

ARTHUR J. BRODERSEN, Professor of Electrical Engineering, Emeritus; Professor of Computer Engineering, Emeritus

DANIEL B. BROWN, Professor of Radiology and Radiological Sciences; Professor of Biomedical Engineering
B.S. (Dickinson 1980, 1983) [2008]

KEVIN G. BROWN, Research Associate Professor of Civil and Environmental Engineering; Research Scientist/Engineer of Civil and Environmental Engineering

RALPH W. BRUCE, Professor of the Practice of Electrical Engineering
B.S., M.S. (Santa Clara 1971, 1978); Ph.D. (Vanderbilt 1990) [2012]

AMANDA K. BUCK, Instructor in Biomedical Engineering; Instructor in Radiology and Radiological Sciences
B.S. (Mississippi State 1997); Ph.D. (Georgia Institute of Technology 2000) [2012]
SHARON M. WEISS, Cornelius Vanderbilt Chair; Professor of Electrical Engineering; Professor of Materials Science and Engineering

EDWARD BRIAN WELCH, Assistant Professor of Radiology and Radiological Sciences; Assistant Professor of Biomedical Engineering
B.S. (Southern California 1998); Ph.D. (Mayo Medical 2003) [2004]

ROBERT A. WELLER, Professor of Physics, Emeritus; Professor of Electrical Engineering, Emeritus; Professor of Materials Science and Engineering, Emeritus; Research Professor of Electrical Engineering
B.S. (Tennessee 1971); Ph.D. (California Institute of Technology 1978) [1987]

FRANCIS M. WELLS, Professor of Electrical Engineering, Emeritus

JAMES J. WERT, George A. Sloan Professor of Metallurgy, Emeritus; Professor of Mechanical Engineering, Emeritus
B.S., M.S., Ph.D. (Wisconsin 1957, 1958, 1961); P.E. [1961]

JAMES DAVID WEST, Professor of Medicine; Associate Professor of Biomedical Engineering
B.S. (Missouri 1989); Ph.D. (Georgia Institute of Technology 1996) [2007]

CHRISTOPHER JULES WHITE, Assistant Professor of Computer Science; Assistant Professor of Computer Engineering
B.A. (Brown 2001); M.S., Ph.D. (Vanderbilt 2006, 2008) [2011]

EDWARD J. WHITE, Professor of Electrical Engineering, Emeritus

JOHN P. WIKSWO, JR., Gordon A. Cain University Professor; A. B. Learned Professor of Living State Physics; Professor of Biomedical Engineering; Professor of Molecular Physiology and Biophysics
B.A. (Virginia 1970); M.S., Ph.D. (Stanford 1973, 1975) [1977]

D. MITCHELL WILKES, Associate Professor of Electrical Engineering; Associate Professor of Computer Engineering
B.S. (Florida Atlantic 1981); M.S., Ph.D. (Georgia Institute of Technology 1984, 1987) [1987]

JOHN W. WILLIAMSON, Professor of Mechanical Engineering, Emeritus
B.S. (Oklahoma 1955); M.S., Ph.D. (Ohio State 1959, 1965) [1964]

JOHN TANNER WILSON, Assistant Professor of Chemical and Biomolecular Engineering; Assistant Professor of Biomedical Engineering
B.S. (Oregon State 2002); Ph.D. (Georgia Institute of Technology 2009) [2014]

THOMAS J. WITHEROW, Assistant Dean for Design; Associate Professor of the Practice of Mechanical Engineering

JAMEY D. YOUNG, Associate Professor of Chemical and Biomolecular Engineering; Associate Professor of Molecular Physiology and Biophysics; Director of Graduate Recruiting for Chemical and Biomolecular Engineering
B.S. (Kentucky, Lexington 1999); Ph.D. (Purdue 2005) [2008]

MARIJA ZANIC, Assistant Professor of Cell and Developmental Biology; Assistant Professor of Chemical and Biomolecular Engineering
M.S. (Zagreb [Croatia] 1998); Ph.D. (Texas 2007) [2014]

KARL E. ZELIK, Assistant Professor of Mechanical Engineering; Assistant Professor of Physical Medicine and Rehabilitation; Assistant Professor of Biomedical Engineering
B.S., M.S. (Washington University 2006, 2007); Ph.D. (Michigan 2012) [2014]

ENXIA ZHANG, Research Assistant Professor of Electrical Engineering
B.S., M.S. (Nanjing [China] 2000, 2003); Ph.D. (Shanghai Institute of Microsystem and Information Technology, CAS [China] 2006) [2008]

SHUNING ZHANG, Visiting Associate Professor of Electrical Engineering and Computer Science

WUHENG ZUO, Visiting Associate Professor of Electrical Engineering and Computer Science
B.S. (Chang’an University [China] 1996); M.S. (Zhejiang Institute of Technology [China] 2002); Ph.D. (Zhejiang [China] 2013) [2016]

Education and Human Development at Vanderbilt

George Peabody College for Teachers, recognized for more than a century as one of the foremost independent colleges of teacher education, merged with Vanderbilt University in the summer of 1979 to become Vanderbilt University’s Peabody College of education and human development. Since then, Peabody College has retained its heritage while achieving new stature as a place where world-class research is conducted and translated into teaching, practice, policy, and service. Peabody’s mission is characterized by practice-oriented academic programs, a strong service ethic, groundbreaking research, and a pressing concern for addressing social problems in domestic and international contexts.

The college’s faculty and students constitute a vibrant intellectual community answering pressing questions and expanding knowledge about PreK–12 and higher education, including special education; psychology, especially focused on families and children; the development of individuals and organizations; and educational administration, leadership, and policy. Peabody College understands the preparation of researchers, teachers, and leaders as among the most important things it does, and that building and sustaining an engaged academic community of learners is central to achieving its mission.

Peabody faculty and students engage in a broad spectrum of basic and applied research to generate new knowledge and translate that knowledge into practice. Current research findings inform classroom teaching at Peabody in every program. Moreover, Peabody faculty bring an interdisciplinary and entrepreneurial spirit to the research enterprise. Working collaboratively, often through one of the college’s research centers, faculty and students publish and present their findings, apply them in real-world settings, and help to shape public debate about the nature and future of education and human development.

The college is devoted to enhancing opportunity in an increasingly diverse society. More than 1,900 students are enrolled at Peabody, with more than one-third of them in post-baccalaureate graduate or professional degree programs.

All teacher education programs are accredited by the National Council for the Accreditation of Teacher Education (NCATE). Counseling programs are accredited by the Council for the Accreditation of Counseling and Related Education Programs (CACREP).

Centers and Outreach Efforts

Accelerated Academic Achievement (A3) Center

Funded with a grant of $10 million by the National Center for Special Education Research, the A3 Center enables researchers to study instructional programs aimed at students with learning disabilities in grades 3 to 5. Scholars affiliated with the center seek to develop and test strategies to improve reading and math success. The new instructional programs developed at the center will help educators address challenges such as how to assist students in progressing to more complex subject matter and how to transfer learning between different intellectual tasks.

Center for Research on Rural Families and Communities

The Center for Research on Rural Families and Communities serves as a change agent in promoting the well-being of families and youth residing in rural communities. It does so by collaborating with community stakeholders to develop and conduct research benefiting community residents; designing preventive interventions that promote positive development, adjustment, and adaptation; implementing efficacy trials and disseminating effective interventions; conducting studies to advance knowledge about social, economic, and environmental impacts on rural culture and rural health disparities; and informing effective policy interventions.

Classroom Organization and Management Program (COMP)

COMP’s primary goal is to help teachers improve their overall instructional and behavioral management skills through planning, implementing, and maintaining effective classroom practices. The program also seeks to improve student task engagement and reduce inappropriate and disruptive behavior through well-planned academic tasks and activities.

IRIS Center

The IRIS Center for Training Enhancements was designed in response to a request from the U.S. Department of Education’s Office of Special Education Programs. This national effort, serving college faculty working in pre-service preparation programs, aims to ensure that general education teachers, school administrators, school nurses, and school counselors are well prepared to work with students who have disabilities and with their families. IRIS is the nation’s only faculty enhancement center established for this purpose.

National Center for Leadership in Intensive Intervention

The National Center for Leadership in Intensive Intervention prepares special education leaders to provide intensive intervention to students with disabilities who have persistent and severe academic and behavioral difficulties. Funded by the Office of Special Education Programs, the center is composed of a consortium of universities including Vanderbilt, Southern Methodist University, the University of Connecticut, the University of Illinois at Chicago, the University of Minnesota, the University of Texas at Austin, and Virginia Commonwealth University.

National Center on Performance Incentives

The National Center on Performance Incentives (NCPI), a national research and development center, was established in 2006 by a $10 million grant from the U.S. Department of Education Institute of Education Sciences. NCPI conducts randomized field trials and program evaluations to address one of the most contested questions in public education: Do financial incentives for teachers, administrators, and schools affect the quality of teaching and learning?
National Center on Scaling Up Effective Schools
The National Center on Scaling Up Effective Schools is a collaborative program of research universities, education support providers, and two large urban school districts to identify the essential programs, practices, processes, and policies that make some high schools particularly effective with low-income students, minority students, and English language learners. The center works with teachers and school district leaders to share these practices with less-effective schools.

Next Steps at Vanderbilt
Next Steps at Vanderbilt is a two-year, nonresidential certification program for students with intellectual and developmental disabilities, providing individualized programs of study in the areas of education, social skills, and vocational training. Next Steps is a comprehensive transition program designated by the U.S. Department of Education. This status recognizes the program’s merits and allows eligible students to apply for federal financial aid for tuition assistance.

Peabody Journal of Education
The Peabody Journal of Education, an interdisciplinary scholarly publication, fosters the development and dissemination of knowledge related to important questions of education and human development. The journal, in publication since 1923, is published quarterly and distributed across the United States and in twenty-five foreign countries.

Peabody Professional Institutes
Peabody Professional Institutes (PPI) provide short-term, intensive educational experiences for professional educators and administrators from across the nation and around the world. Each institute draws from social science disciplines and professional fields of study to inform the creation of a comprehensive, yet focused, curriculum. Designed with the same expectations for rigor and depth as Peabody College degree programs, PPI rest on the philosophy that good practice is best derived from and informed by a strong theoretical base.

Peabody Research Institute
The Peabody Research Institute (PRI) conducts research aimed at improving the effectiveness of programs for children, youth, and families. This mission encompasses educational programs and other interventions aimed at increasing the well-being of children and their families. Research may address any aspect of relevant practices, programs, or policies—e.g., their effectiveness, implementation, costs, dissemination, or social/political support—but the emphasis is on evaluating their effects on the children and families they serve. To bridge between research and practice, PRI also provides technical assistance and consultation to programs, practitioners, and policy makers aimed at improving services for children and families.

Principals Leadership Academy of Nashville
The Principals Leadership Academy of Nashville is a joint undertaking of Peabody, the Nashville Public Education Foundation, and Metropolitan Nashville Public Schools. The academy develops educational leaders for the Nashville school system who are creative and courageous professionals capable of encouraging the best practices in teaching and learning.

Study of Mathematically Precocious Youth
The Study of Mathematically Precocious Youth (SMPY) is a fifty-year longitudinal study of five cohorts, consisting of more than 5,000 intellectually talented individuals, identified over a twenty-five-year period (1972–1997). The aim of this research is to develop a better understanding of the unique needs of intellectually precocious youth and the determinants of the contrasting developmental trajectories they display over the lifespan.

Susan Gray School for Children
The Susan Gray School for Children is an inclusive early childhood education program serving young children with and without disabilities, on site and in the community. The mission of the Susan Gray School is to provide high-quality services to children, families, and the community; to help train university students who plan to be teachers, health care providers, therapists, and researchers; to facilitate research; and to demonstrate high-quality early childhood education and special education practices.

Vanderbilt Center for Science Outreach
The Vanderbilt Center for Science Outreach (CSO) is dedicated to enhancing literacy in science, technology, engineering, and mathematics (STEM) through the establishment of unique partnerships between university scientists, K–12 educators and students, and the local and global science community. CSO has developed and implemented a number of education programs in partnership with local and national K–12 classrooms, including the School for Science and Math at Vanderbilt. These efforts have reached thousands of children, supported teachers in residence on the Vanderbilt campus, hosted summer professional development courses and workshops for teachers, offered summer programs for students, and placed teachers and students in research laboratories. As a national leader in outreach efforts, the CSO is committed to elevating pre-collegiate STEM expertise and literacy.

Vanderbilt Kennedy Center for Research on Human Development
The Vanderbilt Kennedy Center is one of fourteen national centers for research on intellectual disabilities and developmental disorders. Its primary mission is to better understand human development, to prevent and solve developmental problems, and to enable persons with developmental disabilities to lead fuller lives. The Kennedy Center is a university-wide center with institutional support shared by Peabody College, the School of Medicine, and the College of Arts and Science.

Vanderbilt Programs for Talented Youth
Vanderbilt Programs for Talented Youth seeks to identify and aid academically talented youth from diverse educational, racial, and economic backgrounds by providing academic enrichment and challenge, while fostering balance and healthfulness in their lives. Begun in 2000 as a summer residential academic program, Programs for Talented Youth has expanded its mission and programming to provide engaging and intellectually appropriate educational opportunities to precocious young students, and to offer support for parents and educators year-round.
The Undergraduate Program

Peabody College offers the bachelor of science with majors in early childhood and elementary education, secondary education, special education, cognitive studies, child development, child studies, and human and organizational development. These undergraduate programs are designed to prepare students for professional careers in their chosen fields. Programs for Peabody students include course work in a Liberal Education Core, a professional core, a major area of specialization, and electives. Peabody also provides professional education courses for College of Arts and Science students who want to prepare for teacher licensure.

The bachelor of science is granted on the basis of 120 semester hours of college work with a final grade point average of 2.000, and completion of the Liberal Education Core and the requirements of the major.

Liberal Education Core Program

In pursuit of breadth of knowledge and understanding about the world in which they live, all undergraduates complete the requirements of the Liberal Education Core program. This Liberal Education Core component of all Peabody undergraduate majors is intended to provide students with a solid foundation in the arts and sciences. The core curriculum incorporates the study of human conditions that are universal. The Liberal Education Core involves study in the following areas:

- **Communications.** The study of language in its written and spoken forms.
- **Mathematics.** The study of mathematical concepts and procedures.
- **Social Sciences.** The study of the past—both the heritage of the United States and the more global human story. The study of growth and development of individuals.
- **Humanities.** The study of the universal language of the arts.
- **Natural Sciences.** The study of scientific process and interrelationships among the sciences.

Through the study of these universal subjects, concepts, and modes of thought, students gain a broad foundation transferable to their futures. They will continue to grow within society and the classroom and will look at problems from different perspectives while maintaining curiosity.

Courses identified to fulfill the Liberal Education Core requirement for each undergraduate major are listed in Peabody’s Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Courses used to satisfy these core requirements may also be counted toward the fulfillment of requirements in an academic major. Special topics courses are ordinarily not acceptable for meeting Liberal Education Core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable for meeting Liberal Education Core requirements.

Transfer students may use credits from other colleges to fulfill Peabody’s Liberal Education Core requirements if the credits are equivalent to the courses offered at Vanderbilt. The use of transfer courses to satisfy Liberal Education Core requirements must be approved by the Dean’s Office. For transfer students, credits are evaluated when the student enrolls at Peabody in order to determine which transfer courses will substitute for Peabody’s Liberal Education Core requirements. Requirements still to be fulfilled will be noted at that time.
Licensure for Teaching

PEABODY offers programs leading to teacher licensure in the following areas: early childhood (grades PreK–3), elementary (grades K–5), and secondary education (grades 6–12) with endorsement in English, math, biology, chemistry, physics, earth science, history, and political science. (Added endorsements are available also in economics, psychology, and sociology for those who will have a history endorsement.) An added endorsement program also is available in English as a Second Language (grades PreK–12). All of these programs are offered by the Department of Teaching and Learning.

Special education—interventionist (LD/BD for grades K–8 or 6–12), comprehensive (multiple/severe for grades K–12), or visual impairment (grades PreK–12). All of these programs are offered by the Department of Special Education.

Vanderbilt’s Blair School of Music and Peabody College offer a program for students interested in teacher licensure with endorsement in the following: (1) instrumental/general music (grades K–12), or (2) vocal/general music (grades K–12). Blair students complete the first part of the program as part of the bachelor of music degree and apply during the senior year to continue into the master of education degree for a final year of professional education.

Students seeking licensure may enroll in Peabody College, the College of Arts and Science, or the Blair School of Music. In all cases, most of the liberal arts course work is taken in the College of Arts and Science, and the professional education course work is taken at Peabody College.

All students completing a teacher education program at Vanderbilt are strongly advised to apply for a license in Tennessee whether or not they plan to teach in this state. In addition, all students completing a teacher education program at Vanderbilt must have security clearance. In addition, licensure is available by application in other states. The student is responsible for applying for licensure through the Office of Teacher Licensure located in the Peabody Administration Building. Each state has its own application forms and procedures for licensure; information is available in the Office of Teacher Licensure.

Licensure requirements continue to undergo revision. Students must meet licensure requirements in effect at the time of their program completion, which may be different from requirements in effect at the time they entered the program. Each year, teacher education students should consult the current Vanderbilt Undergraduate Catalog or the Peabody Undergraduate Handbook available in the Office of Academic Services in the Peabody Administration Building. The licensure website (peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php) provides additional information.

Security Clearance Requirement
As of the start of fall semester 2017, all students matriculating into Peabody College must have security clearance. In addition, all students from any Vanderbilt school must have security clearance if they take any Peabody course involving interaction with minors or other vulnerable populations, or if they engage in Peabody research or Peabody programs/related activities that require security clearance. Obtaining this security clearance involves being fingerprinted through an external agency for a criminal background check by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. Students are responsible for paying the fees for this process. Students must complete the fingerprinting that starts the clearance process no later than the end of the first two weeks of the semester in which the fingerprinting becomes required. Detailed instructions for completing the security clearance process can be found on the Peabody Background Clearance Office website: peabody.vanderbilt.edu/admin-offices/bco/index.php. Vanderbilt students may not participate in any Peabody College-related activities involving PreK-12 students or vulnerable adults until their background clearance is finalized at Peabody.

Degree Audits
Electronic degree audits enable students and faculty advisors to track each student’s progress in the degree program at Peabody. The departmental handbooks describe access to and use of online Peabody major degree audits to view program requirements recognized as “met” or “unmet” at any time in the student’s program. The degree audit also denotes permissions for waivers or course substitutions. Degree audits are managed in the Peabody Office of Academic Services.

SCREENING
There are two points in each teacher education program when undergraduates must complete applications for screenings by departmental faculty. Screening requirements continue to undergo revision and are subject to change. Students must meet screening requirements in effect at the time of their application, which may be different from requirements stated below. Screening reviews, described below, are important checkpoints that allow successful students to advance in the program. Attainment of 2.75 (4.0) cumulative grade point average and completion of required courses do not automatically qualify a student for continuation in the program.

Faculty evaluation of a student’s qualifications for continuation in a teacher education program include academic, performance, and disposition factors such as the following:

1. Dependability (as evidenced by good attendance in classes and practica and the completion of required assignments and procedures on time)
2. Professional and ethical behavior (honesty, acceptance of responsibility, emotional maturity, etc.)
3. Attitude and interpersonal skills (including the ability to work with children and with peers)
4. Academic competence (It is possible for a student to meet minimum grade point requirements and pass all courses and still have specific academic weaknesses which might cause denial of screening applications.)

Students seeking teacher licensure must be approved by each department through which licensure is sought. Secondary licensure candidates should contact an adviser or the director of undergraduate studies in the appropriate Arts and Science department(s) to be informed of any specific departmental requirements or standards.

5. Teaching competence (as evidenced by successful completion of practica requirements). It is possible for a student to meet minimum grade point requirements and pass all courses and still have specific performance weaknesses which might cause denial of screening applications.

These criteria rest on the professional judgment of faculty members. Whether a student meets them or not is determined...
Screening II (Admission to Student Teaching)

Admission to Student Teaching is not automatic when prerequisite course work and field experiences have been completed. Special education majors and secondary education majors must submit the online Screening II application in the fall of the senior year. For elementary majors and early childhood majors in the Department of Teaching and Learning, the student must submit the online Screening II application the semester prior to the one during which a student is to student teach. Secondary education majors may student teach in spring semesters only, so they must apply for Screening II in the fall semester of their senior year. Deadlines are October 1 for fall semesters, February 1 for spring semesters. At the time of screening application, the student should be enrolled in any remaining prerequisite courses. No course work may be taken during the semester of student teaching and seminar.

After an initial review in the Office of Teacher Licensure, the Screening II application and other submitted materials will be considered by departmental faculty according to the following criteria for Screening II approval to student teach:

A. Specific Academic Criteria

1. Formal admission to a teacher education program granted (completion of Screening I)
2. Second semester junior standing (for student teaching in the fall of the senior year) or first semester senior standing (for student teaching in the spring of the senior year)
3. Successful completion (C+ or above) of all courses required and prerequisite to student teaching as defined by the program area
4. Minimum cumulative grade point average of 2.75 (4.0 scale)
5. Satisfactory performance (C+ or above) in coursework in areas in which teacher licensure is sought
6. Successful completion of Standard First Aid and CPR training (attach certificate copies to the Screening II application)

B. Specific Faculty Evaluative Criteria

The faculty will consider the disposition criteria of dependability, professional and ethical behavior, attitude and interpersonal skills, and teaching competence as itemized at the beginning of the Screening section.

Each Screening II application requires additional documents, depending on the program. A copy of first aid and CPR verification of training completed within the previous two years must be submitted to the Office of Teacher Licensure by the October 1 or February 1 deadline. In addition, some programs have additional requirements that are prerequisite to Screening II application. Students should consult departmental handbooks. Screening II applicants who are approved to student teach will receive notification of their student teaching placements no later than during the Student Teacher Orientation at the beginning of the student teaching semester.

Students who have passed Screening II are assigned two specific student teaching placements in the Nashville area.
Student Teaching

Vanderbilt students seeking teacher licensure must successfully complete a 15-week semester of full-time student teaching in two different grade levels in Nashville area public schools and must be recommended for licensure by the supervisors of student teaching and departmental faculty. Students seeking early childhood or elementary licensure may apply for fall or spring student teaching. Secondary education and special education student teaching may be done only in the spring semester. Prior to the start of student teaching, all prerequisite courses must have been completed, the cumulative GPA must be at least 2.75, and the appropriate departmental faculties must have voted to approve the candidate for student teaching during the previous semester as part of the Screening II application process. The Tennessee State Department of Education and Metropolitan Nashville Public Schools prohibit student teachers from taking courses during student teaching. See the departmental Undergraduate Handbook for details.

Application for Teacher Licensure and University Recommendation for Licensure

All students completing the teacher education program at Vanderbilt are strongly advised to apply for a license in Tennessee whether or not they plan to teach in this state. In addition, licensure is available in most other states. The student is responsible for applying for licensure through the Office of Teacher Licensure located in the Peabody Administration Building. Each state has its own application forms and procedures for licensure; information is available in the Office of Teacher Licensure.

To be licensed through Vanderbilt’s teacher education program, a graduate must earn a positive licensure recommendation from the University. The University’s decision to recommend a candidate is based upon the following:

1. Maintaining the grade point average required for admission to the teacher education program (2.75 on a 4.0 scale).

2. For Tennessee licensure, achieving the state minimum score on all required parts of the PRAXIS II Series and edTPA (scores must be sent to the Vanderbilt Office of Teacher Licensure—code R 1871, and the Tennessee Department of Education—code R 8190).*

3. Receiving a positive recommendation from the student’s department as a result of the student teaching experience (Pass in student teaching does not guarantee a favorable recommendation).

* Testing requirements are changing almost annually; check instructions in the Office of Teacher Licensure or at peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php before registering to take the exams.

Accreditation

Vanderbilt University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, professional, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call (404) 679-4500, or visit sacscoc.org for questions about the accreditation of Vanderbilt University.

Please contact the commission only in relation to Vanderbilt’s noncompliance with accreditation requirements. Normal inquiries about admission requirements, educational programs, and financial aid should be directed to the university.

Vanderbilt is accredited by the National Council for Accreditation of Teacher Education (NCATE). Its teacher licensure programs also are approved by the Tennessee Department of Education and the following specialty professional associations:

- National Council for Teachers of English (NCTE)
- Council for Exceptional Children (CEC)
- National Association for the Education of Young Children (NAEYC)
- Association for Childhood Education International (ACEI)
- Council for the Accreditation of Counseling and Related Education Programs (CACREP)
- National Association for Schools of Music (NASM)
Academic Regulations

Honor System
All academic work at Vanderbilt is done under the honor system. (See the Honor System section in Life at Vanderbilt.)

Academic Advising
Each Peabody undergraduate is assigned an academic adviser who is familiar with his or her major. This adviser is generally a faculty member in the major department and is knowledgeable about the courses the student will need to complete his or her major. The adviser helps the student determine the courses that are most suitable for the chosen major and serves as a mentor to the student. However, enrollment in appropriate courses to fulfill degree requirements and knowledge of university policies and regulations regarding courses are the responsibility of the individual student.

Class Attendance
Students are expected to attend all scheduled meetings of classes in which they are enrolled; they have an obligation to contribute to the academic performance of all students by full participation in the work of each class. At the beginning of the semester, instructors explain the policy regarding absences in each of their classes, and thereafter they report to the office of the dean of the college the name of any student whose achievement in a course is being adversely affected by excessive absences. In such cases, the dean, in consultation with the instructor, takes appropriate action, which may include dropping the student from the class; students dropped after the deadline for withdrawal receive the grade F. Class attendance may be specified as a factor in determining the final grade in a course, and it cannot fail to influence the grade even when it is not considered explicitly.

Course Load
A student must be enrolled in a minimum of 12 hours to be classified as a full-time student. Students wishing to carry more than 18 hours must obtain the approval of the dean of Peabody Student Affairs Office. All undergraduate students are assumed to be full-time students for the purpose of administering probation and retention policies. A student who for reasons of health, family, or outside employment wishes to enroll in Peabody as a part-time student must obtain permission from the dean of Peabody Student Affairs Office. The academic standing of such students will be considered on an individual basis. Normally, however, a student earning less than 12 hours will either be placed on academic probation or issued an academic warning.

Residence Requirement
Students must complete a minimum of 60 hours in residence at Vanderbilt including the final two semesters.

Credit by Examination
In certain circumstances students may be awarded course credit by departmental examination. (This procedure is distinct from the award of credit through the College Board Advanced Placement Tests taken prior to a student’s first enrollment.) Students wanting to earn credit by departmental examination should consult the Peabody Office of Academic Services concerning procedures. To be eligible, students must be carrying a minimum of 12 hours and be in good standing.

Students must obtain the approval of the chair of the department that is to give the examination and the instructor designated by the chair. Students may earn up to 30 hours of credit by any combination of credit through advanced placement examinations and credit by departmental examination. Students may earn up to 8 hours of credit by examination in any one department. Students may attempt to obtain credit by examination no more than twice in one semester and no more than twice in one course. Students may not repeat a course for grade replacement under the credit by examination procedures.

Credit for a course is awarded on the basis of the grade earned on the examination, subject to the policy of the department awarding credit. Students have the option of refusing to accept the credit hours and grade after learning the results of the examination.

Students enrolled for at least 12 hours are not charged extra tuition for hours earned through credit by examination, so long as the amount of credit falls within the allowable limits of an 18-hour tuition load, including no-credit courses and courses dropped after the change period. Students in this category must pay a $50 fee for the cost of constructing, administering, and grading the examination. Since this cost has already been incurred, students who refuse the credit hours and grade are charged the $50 fee nevertheless.

Full-time students with a tuition load exceeding 18 hours and students taking fewer than 12 hours pay tuition at the hourly tuition rate.

Security Clearance Requirement
See page 374.

Liberal Education Core Guidelines
Applicants to Peabody College will be required to take the SAT I or ACT writing test and the SAT II mathematics test. Human and organizational development majors do not need the SAT II mathematics test. The following application of these scores will be made to the Peabody Liberal Education Core:

Writing Requirement
All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

First-year seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing-intensive courses. Peabody freshmen may register for first-year seminars when open registration begins.
Mathematics:
Students with first majors in early childhood and elementary, secondary, or special education with an SAT II Mathematics test score at or above 620 (Level I) or at or above 570 (Level II) are exempt from three hours of the math component of the Liberal Education Core mathematics category. Students with an exemption must take an additional three credit hours in their Liberal Education Core elective category to have the minimum required sixty-hour core. Students must take a statistics course if required for their major.

Students with first majors in child development, child studies, cognitive studies, or human and organizational development must take six hours as stated in the Liberal Education Core mathematics category.

Undergraduate Enrollment in 5000–8000-level Courses
All students wishing to take 5000–8000-level courses for either undergraduate or graduate credit must obtain the written approval of their academic advisers, the instructor of the course, and the Office of Academic Services. Some courses are designed to enroll both undergraduate and graduate/professional students in the same class section. Such courses will typically have two course numbers, one in the graduate range (5000–8000) and one in the undergraduate range (usually either 3000– or 4000–level). Unless they wish to take the course for post-baccalaureate credit, undergraduates must register for the course using the undergraduate course number and may do so without any special permission. Undergraduates wishing to receive approval for graduate credit in 5000–8000-level courses also see below.

Undergraduate Enrollment for Post-Baccalaureate Credit
A qualified Vanderbilt University senior undergraduate may enroll in courses approved for post-baccalaureate credit and receive credit which, upon the student’s admission into a Peabody College professional program, may be applicable toward the professional degree. The principles governing this option are as follows:

1. Work taken under this option is limited to those 5000–8000-level courses approved for post-baccalaureate credit, excluding thesis and dissertation research courses and similar individual research and readings courses.
2. Such work must be in excess of that required for the bachelor’s degree.
3. At the time of registration, the student must have a B average in all prior work to be counted toward the bachelor’s degree, or a B average in all prior work to be counted toward the undergraduate major, or a B average in the preceding two semesters.
4. Undergraduate students wishing to count for post-baccalaureate credit courses taken under this option must consult the instructor of each course and must, at the time of registration, declare their intention on a form available at the Office of Academic Services.
5. The student’s total course load (graduate plus undergraduate courses) must not exceed 15 hours during any semester in which graduate credit is pursued.
6. Permission for Vanderbilt undergraduates to enroll in post-baccalaureate courses does not constitute a commitment on the part of any department to accept the student in the future. Courses taken under this option are subject to departmental approval before they may be included on post-baccalaureate programs of study.
7. An undergraduate student exercising this option will be treated as a post-baccalaureate student with regard to class requirements and grading standards.

Interested students should consult the Peabody Office of Academic Services to verify their eligibility as defined above before attempting to register for post-baccalaureate course work under this option.

Undergraduate Enrollment for an Independent Study
Independent study courses, ranging from one to three hours of credit, are listed in the Schedule of Courses and are intended for students in their junior and senior years. Students wanting to undertake an independent study must follow these guidelines:

1. Students must be in academic “good standing” (may not be on probation or Leave of Absence).
2. Students must arrange the independent study with a Vanderbilt full time faculty member who has agreed to supervise and grade this experience.
3. Students may enroll for up to 3 hours of independent study in one semester.
4. Students must make a written study plan detailing the nature of the project and the amount of credit. The Individual Learning/Directed Study contract must be approved by the instructor and the department chair (or the chair’s designee) by the last day of the change period.
5. Registration for the course occurs when the completed Individual Learning/Directed Study contract is submitted to the Peabody Office of Academic Services. Registration for an independent study will not be allowed after the change period has ended.

Students may not repeat independent study courses for grade replacement.

Transfer Credit/Summer Courses Off Campus
Students who transfer from another institution must have a final transcript sent directly to the Undergraduate Admissions Office, Vanderbilt University. Upon acceptance, students will be asked to submit course descriptions and syllabi for all proposed transfer credit. The Peabody Office of Academic Services, in consultation with other appropriate academic units, will evaluate the course work to determine which credits will transfer and which requirements (e.g., Liberal Education Core, professional core) are met by the transfer courses. No course for which a student received the grade D+ or lower will transfer. Course work transferred to Vanderbilt from another institution will not carry with it a grade point average.

Transfer students must complete at least 60 hours of work at Vanderbilt. Two of the four semesters in residence must be the last two semesters of the student’s degree program.

Peabody students who wish to take course work during the summer at a four-year, regionally accredited college or university and transfer up to 12 hours to Vanderbilt must be in good standing with at least a C average. Prior approval from the Peabody Office of Academic Services must be granted for all courses to be taken elsewhere. Course work transferred to Vanderbilt from another institution will not carry with it a grade point average.
Students who wish to participate in a non-Vanderbilt overseas program should complete the appropriate transfer of credit forms and apply for a leave of absence for the relevant semester. To qualify for such a leave, a student must be in good standing with at least a 2.700 grade point average as of the date of application. Students must obtain prior approval for the leave of absence and for up to 15 hours of credit to be taken in the other program if the credit is to be transferred to Vanderbilt. Petitions for leaves of this type must be filed at least one month before the close of the preceding semester. Final approval of leaves of absence always rests with the Dean’s Office. All students traveling abroad must register their trips through International SOS. It should be noted, however, that if a program has been approved for direct credit by Vanderbilt, it must be taken as the approved direct-credit program by matriculated Vanderbilt students. In no case, after matriculating at Vanderbilt, may a student apply to participate in an approved direct-credit program for transfer credit through a different university, or through an external agency, and then seek to transfer that credit into Vanderbilt.

Students enrolled full time (i.e., carrying at least 12 credit hours) during a regular (fall or spring) semester are assumed to be engaged in full-time study at Vanderbilt. Such students are not permitted to take additional course work elsewhere, for transfer credit, during the semester. This includes online courses as well as courses offered by nearby institutions.

Declaration of Major and of Second Major
Peabody students declare a major as part of the application process prior to admission. In their first semester, Peabody freshmen are expected to take coursework recommended for the major into which they were admitted. Students wishing to change into a different major within Peabody cannot declare this change until March of their first year, to take effect in fall of their second year. Second majors must be declared no later than the second semester of the sophomore year. Also during the sophomore year, students majoring in secondary education, special education, and human and organizational development will be required to declare their area of specialization or track.

Overlap in Course Work between Multiple Majors and Minors
Students pursuing multiple majors and/or optional minors are limited in the amount of course work that can be shared across their major and minor programs of study. If the major or minor is offered through a school other than Peabody, the amount of course work that can be shared between that major or minor and other majors or minors is determined by that school’s policies. For a major offered through Peabody College, at least 21 credit hours need to be unique to that major. That is, 21 hours within the major cannot be used to count toward any other major or minor. For a minor offered through Peabody College, at least 15 hours need to be unique to that minor.

Senior Re-examination
A candidate for graduation who fails not more than one course in the final semester may be allowed one re-examination, provided the course failed prevents the student’s graduation, and provided the student could pass the course by passing a re-examination. Certain courses may be excluded from reexamination.

The re-examination must be requested through the Office of the Associate Deans, and if approved, it is given immediately after the close of the last semester of the student’s senior year. A student who passes the re-examination will receive a D– in the course. The terms and administration of senior re-examination are the responsibility of the school that offers the course.

Grading System
Peabody College undergraduate students are on a four-point grading system. All work is graded by letters, interpreted as follows:

**A:** excellent
**B:** good
**C:** satisfactory
**D:** minimum pass work
**F:** failure

Under certain circumstances the following grades may be awarded:

*W:* withdrawal
*P:* pass (see Pass/D/Fail course provision)
*M:* missed final examination
*I:* incomplete in some requirement other than final examination
*MI:* missed final examination with additional incomplete requirements

Plus and minus modifiers may be associated with the letters A through D as shown in the table below. Grade point averages are calculated using indicated grade point values.

Grade Point Average
A student’s grade point average is obtained by dividing the grade points earned by the hours for which the student has registered, excluding courses taken for no credit, those from which the student has withdrawn, and those that are completed with the grade P.

Audit
Regularly enrolled Peabody College students who want to audit courses in any of the undergraduate schools of the university must obtain the written consent of the instructor to attend the class but do not register for the course for credit. Forms are available from the Peabody Office of Academic Services, 316 Peabody Administration Building. No permanent record is kept of the audit. Regular students may audit one class each semester free of charge.

Pass/Fail
Students may elect to take some courses in which they can receive the grade P (Pass). This grade is entered for the student enrolled under the P/F option who is awarded a grade of D- or higher. The grade P is neither counted in the grade point average nor used in the determination of honors. A failing grade will appear on the student record as F and will be counted in the student’s grade point average.

To be eligible for the P/F option, the student must have completed two regular semesters at Vanderbilt and must not be on academic probation. No more than one course per semester may be taken on a P/F basis and no more than three
total during the undergraduate career. No more than one course from any Liberal Education Core area (e.g., communications, humanities) may be taken under this option.

The P/F option does not apply to courses in the following categories:

1. Liberal Education Core Courses that have been specifically identified by the student’s primary major as needing to be taken on a graded basis. By program, these courses are:
   - Human and Organizational Development: Courses taken to satisfy the 3-hour Liberal Core Economic requirement (i.e., Econ 1010, 1020, HOD 2260).
   - Child Development, Child Studies, and Cognitive Studies: Courses taken to satisfy the 3-hour Liberal Core Statistics requirement (i.e., Econ 1500, PSY-PC 2110, Psy 2100).
   - Special Education: PSY-PC 1250, PSY-PC 2600, EDUC 1220, SPED 1210, SPED 2120, SPED 2430, SPED 2160, SPED 3348.
   - Early Childhood Education: ENED 2430, EDUC 3750, ENED 2100, MTED 2100, PSY-PC 1250, SSED 2100.
   - Elementary Education: ENED 2430, EDUC 3750, 2200, MTED 2200, SGED 2200, PSY-PC 1250.
   - Secondary Education: PSY-PC 2550.

2. For students with a single or double major, courses in the department(s) of the major(s) or other courses that may be counted for the major(s);

3. For students with an interdisciplinary major, courses listed in the student’s plan of study;

4. For students planning an optional minor, courses in the department of the minor or those counting toward an interdisciplinary minor.

Students taking a course on a P/F basis must be enrolled for at least 12 hours on a regularly graded basis. If a student drops a course and falls below 12 graded hours, the P/F course is converted automatically to a regularly graded basis.

Seniors who meet the above criteria and have permission to take fewer than 12 hours on a graded basis may take one course on a P/F basis in one of their last two semesters (e.g., a semester in which an internship or student teaching is not being taken). If the student does not graduate at the end of the senior year, the grade of P is automatically converted to the grade actually earned.

All P/F students are expected to meet normal course requirements (e.g., reports, papers, examinations, laboratory attendance) and are graded in a normal way. At the end of the semester, students enrolled on a P/F basis are awarded a regular grade. Any grade of D- or better is converted in the Student Records System to a P, while an F grade remains as awarded. If the student does not graduate at the end of the senior year, the grade of P is automatically converted to the grade actually earned.

Credit hours are semester hours; e.g., a three-hour course carries credit of three semester hours. One semester credit hour represents at least three hours of academic work per week, on average, for one semester. Academic work includes, but is not necessarily limited to, lectures, laboratory work, homework, research, class readings, independent study, internships, practice, studio work, recitals, practicing, rehearsing, and recitations. Some Vanderbilt courses may have requirements which exceed this definition. Certain courses (e.g., dissertation research, ensemble, performance instruction, and independent study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credits allowable per semester will be included in the course description.

Temporary Grades

Temporary grades are placeholders that are assigned under defined circumstances with a specified deadline by which they will be replaced with a permanent grade. A student who receives a temporary grade is ineligible for the Dean’s List. Students may not graduate with temporary grades still remaining on their academic records.

I: Incomplete

An Incomplete is given only under extenuating circumstances and only when a significant body of satisfactory work has been completed in a course. The I is not intended as a replacement for a failing grade, nor should it be given to a student who misses the final examination. The M grade is used for the latter purpose. The request for an Incomplete is initiated by the student and must be approved by the instructor. In assigning the grade of I, the instructor specifies (a) a default grade that counts the missing work as zero and (b) a deadline by which the missing work must be submitted. That deadline must be no later than the last class day of the next regular semester in residence. The Incomplete can be extended beyond the next semester only if the student’s associate dean determines that an extension is warranted. If the required work is submitted by the deadline for removing the Incomplete, the I will be replaced by the grade earned. If the work is not completed by the deadline, the default grade will become the permanent grade for the course.

The Incomplete is not calculated in the GPA, but a student who receives an Incomplete is ineligible for the Dean’s List.

M: Missing a Final Examination

The grade M is given to a student who misses a final examination, providing the student could pass the course if the final examination is successfully completed. The grade of F is given if the student could not pass the course even with the final examination.

It is the student’s responsibility to contact the Dean’s Office before the first day of the next semester, regardless of whether the student will be in residence that semester, to request permission to take a makeup examination. If a request has not been submitted by the proper time, or if the student fails to take the makeup examination within the prescribed time, the M grade will be replaced by an F.

MI: Missing a Final Examination and Other Work

The grade MI is assigned to a student who misses the final examination and whose work is incomplete in other respects. The MI may not be turned in without prior authorization by the dean. It is the student’s responsibility to contact the Dean’s Office to request permission to take a makeup examination and to arrange for submission of the missing work.
Withdrawal

The symbol W (withdrawal) is assigned in lieu of a grade when a student formally withdraws from a class before the published mid-semester deadline. After that point, withdrawal will result in an F. A student who withdraws from school for reasons such as illness, unusual personal or family problems, and the like, may petition the Dean’s Office for an authorized administrative withdrawal. If approved, the student will receive the grade W for courses in progress. A student who withdraws from school without an authorized administrative withdrawal receives the grade W or F depending upon the date of withdrawal. The grade W is not included in the calculation of the grade point average.

Dead Week

Because Peabody classes integrate theory and practice, many courses include significant semester-long group and individual projects that culminate in papers, presentations, simulations, or other activities at the end of the semester. Therefore, while instructors are discouraged from scheduling quizzes, tests, or short-term assignments for the last week of the semester, Peabody’s “dead week” policy does not prohibit assignments during the week before finals.

Repeat Courses

If a course is repeated, only the last grade and credit hours earned will be used to calculate the grade point average and be creditable toward graduation. However, the original grade will appear on the transcript. Certain courses (e.g., special topics courses, directed study courses; see duplicate content section, below) may be repeated for credit when there is no duplication of content. Such courses may be repeated to replace a grade only when the content of the original and repeated courses is the same. Courses must be repeated in a graded status. This policy also applies to Advanced Placement credit.

Duplication of Course Content

It is the responsibility of the individual student to avoid duplication in whole or in part of the content of any courses offered toward the degree. Such duplication may result in the withdrawal of credit. This policy also applies to Advanced Placement credit.

Certain courses (e.g., ensemble, performance instruction, special topics, and directed study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credits allowable per semester should not exceed 3 credit hours without permission.

Normal Course Load

Each semester, regular tuition is charged on the basis of a normal course load of 12 to 18 semester hours. No more than 18 or fewer than 12 hours may be taken in any one semester without authorization from the dean of Peabody Student Affairs. There is an extra charge for more than 18 hours at the current hourly rate (contact Student Accounts). Students permitted to take fewer than 12 hours or more than 18 hours are either placed on academic probation or issued an academic warning, unless their light load is necessary because of health, family or outside employment. The one exception to this policy is that seniors who have fewer than 12 hours required for the completion of their degree, beyond the hours associated with the HOD internship or student teaching if they are to be taken in the final semester, can take fewer than 12 hours in one of their last two semesters (e.g., a semester in which an internship or student teaching is not being taken) without penalty or requiring special permission.

Class Standing

To qualify for sophomore standing, a freshman must earn at least 24 hours with a grade point average of at least 1.800 and have completed two regular semesters. A freshman who fails to achieve sophomore standing at the end of two regular semesters is placed on probation and has one additional semester in which to qualify for sophomore standing. This additional semester must be the summer session at Vanderbilt. Normally, students who fail to qualify for sophomore standing in the third semester are dropped from the university.

A student qualifies for junior standing by earning 54 hours with a grade point average of at least 1.900 and having completed four regular semesters. Students who fail to qualify for junior standing at the end of two semesters after qualifying for sophomore standing are placed on probation and must qualify in an additional semester. This third semester must be the summer session at Vanderbilt. Normally, students who do not qualify for junior standing in this additional semester will be dropped from the university.

A student qualifies for senior standing by earning 84 hours with a grade point average of at least 2.000 and having completed six regular semesters. A student who fails to qualify for senior standing within two semesters of qualifying for junior standing will be placed on probation and must qualify in one additional semester. This additional semester must be the summer session at Vanderbilt. Normally, students who do not qualify for senior standing in this additional semester will be dropped from the university.

Alternate Track

Occasionally students find that it will be necessary to reduce their normal load due to medical reasons, varsity athletics, or other circumstances. The result is that they will accomplish the bachelor of science degree in nine or ten semesters instead of eight. In such cases, the student may request Alternate Track status. After discussing this option with their parents and faculty adviser, students petition the dean for permission. This normally takes place during the sophomore year. Additional information is available in the Office of Peabody Student Affairs.

Progress Evaluation

Students enrolled in Peabody College are expected to satisfy most Liberal Education Core requirements during the freshman and sophomore years. Although legitimate circumstances sometimes force the postponement of Liberal Education Core requirements, upper-level students are not expected to have a significant number of Liberal Education Core requirements outstanding. A student who, in the opinion of the faculty adviser, the department chair, or the dean, is not making satisfactory progress toward meeting Liberal Education Core or other degree requirements may be reported to the Undergraduate Administrative Committee and is subject to being placed on academic probation by that committee. Students placed on academic probation for failure to make satisfactory progress toward a degree must remove the deficiency in the manner specified by the Administrative Committee.
Academic Probation and Dismissal

After achieving sophomore standing, the student may not be on academic probation for more than two semesters. A student whose academic record warrants a third semester of probation normally will be dropped from the university. Students will be placed on academic probation, or may receive an academic warning, if any of the following conditions apply:

**Freshmen**

1. The student’s cumulative grade point average falls below 1.800. Probation is removed (assuming there is no other reason for the probation) when the student’s grade point average is raised to 1.800 or above.
2. The student fails to earn at least 12 hours in a regular semester as a freshman. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student fails to achieve sophomore standing in the required two semesters. Probation is removed when the student achieves sophomore standing.
4. Freshmen who pass fewer than two regular courses in their first regular semester or who earn a grade point average lower than 1.000 have so seriously compromised their academic standing that they may be required to take an academic probationary leave of absence during the spring semester.

**Sophomores**

1. The student’s cumulative grade point average falls below 1.800. Probation is removed (assuming there is no other reason for the probation) when the student’s grade point average is raised to 1.800 or above, except that at the end of the second regular semester the student must qualify for junior standing.
2. The student fails to earn at least 12 hours in a regular semester as a sophomore. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student is placed on probation by the Undergraduate Administrative Committee for failure to make satisfactory progress toward the degree. Probation is removed when the specified conditions are met.
4. The student fails to achieve junior standing in the required two semesters after achieving sophomore standing. Probation is removed when junior standing is achieved.

**Juniors**

1. The student’s cumulative grade point average falls below 1.900. Probation is removed (assuming there is no other reason for the probation) when the grade point average is raised to 1.900 or above, except that at the end of the second regular semester the student must qualify for senior standing.
2. The student fails to earn at least 12 hours in a regular semester as a junior. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student is placed on probation by the Undergraduate Administrative Committee for failure to make satisfactory progress toward the degree. Probation is removed when the specified conditions are met.
4. The student fails to achieve senior standing in the required two semesters after achieving junior standing. Probation is removed when senior standing is achieved.

**Seniors**

1. The student’s cumulative grade point average falls below 2.000. Probation is removed when the grade point average is raised to 2.000 or above.
2. The student fails to earn at least 12 hours in a regular semester as a senior, unless the semester is one in which the student needs fewer than 12 hours in order to complete the requirements for graduation (see section on Course Load, above). Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress and/or completes the requirements for graduation.

**Sudden Academic Insufficiency**

Any student who fails by a wide margin to reach prescribed levels of academic achievement, either at the end of a semester or at mid-semester, or who has been placed on probation more than once is reviewed by the Peabody Undergraduate Administrative Committee. The Committee considers each case within the general guidelines for maintenance of satisfactory academic standing and may take any of several actions, among which are the following:

- The student may be placed on probation or be issued an academic warning;
- The student may be advised to take a leave of absence or to withdraw from the university;
- The student may be required to take an academic probationary leave of absence;
- The student may be dismissed from the university.

Under certain circumstances, a student who has been formally dismissed may be readmitted to Peabody. The Peabody Undergraduate Administrative Committee must review and approve any request for readmission.

**Appeal and Petition Process for Undergraduate Academic Matters**

The procedures of the appeal process pertaining to academic matters within Peabody College are listed below. Please see the chapter “Student Accountability” in the Vanderbilt University Student Handbook for a description of the appeal process for non-academic matters.
Petitions for exceptions to academic policies, appeals of academic policy implementations by Peabody Dean’s Office staff, and appeals of academic actions by the Undergraduate Administrative Committee (UAC) Chair (e.g., letters of dismissal) may be directed to the full UAC.

Petitions and appeals should be sent to:
Chair, Peabody Undergraduate Administrative Committee
c/o Peabody Dean’s Office
202 Peabody Administration Building
PMB 0329
230 Appleton Place
Nashville, TN 37203-5721
Fax: (615) 322-8501

A student may ask the UAC to reconsider a decision if the student has new information to offer. The chair of the UAC will decide whether the full UAC will reconsider. Requests for reconsideration of UAC decisions should be sent to the above address.

A final, negative decision of the UAC may be appealed to the dean of Peabody College (at the above address), who may assign an associate dean to handle the matter on the dean’s behalf. The dean or associate dean will consult with the UAC and other relevant faculty or staff as part of the review of the decision.

Further appeals beyond Peabody College should be directed to the Provost’s Office.

Student Leave of Absence
A student desiring a leave of absence should obtain the appropriate forms from the Office of Undergraduate Student Affairs. All students are eligible, provided they have not been dropped by the university and are not dropped at the end of the semester during which application is made.

Leaves are granted for one or two semesters. Applications should be completed before the end of the fall semester for a leave of absence during the spring semester and before 15 August for a leave of absence during the fall semester (or for the academic year). If the leave is approved, the student must keep the Dean’s Office informed of any change of address while on leave.

Should a student seek to transfer to Vanderbilt credit earned elsewhere while on a leave of absence, it is mandatory that permission be obtained in advance from the Dean’s Office. Petitions for leaves of this type must be filed at least one month before the close of the preceding semester.

While the student is on leave, registration information will be emailed to his or her Vanderbilt email address. A student failing to register at the conclusion of the stated leave will be withdrawn from the university and must apply for readmission.

Students who wish to participate in a non-Vanderbilt program in the United States, abroad, or at sea should apply for a leave of absence for the relevant semester. To qualify for such a leave, a student must be in good standing at Vanderbilt with at least a 2,700 grade point average as of the date of application. Students must obtain prior approval for the leave of absence and for the credits to be taken in other programs if the credits are to be transferred to Vanderbilt. Final approval of leaves of absence always rests with the Dean’s Office. See the section on Transfer Credit in this chapter.

Security Clearance Requirement
As of the start of fall semester 2017, all students matriculating into Peabody College must have security clearance. In addition, all students from any Vanderbilt school must have security clearance if they take any Peabody course involving interaction with minors or other vulnerable populations, or if they engage in Peabody research or Peabody programs/related activities that require security clearance. Obtaining this security clearance involves being fingerprinted through an external agency for a criminal background check by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. Students are responsible for paying the fees for this process. Students must complete the fingerprinting that starts the clearance process no later than the end of the first two weeks of the semester in which the fingerprinting becomes required. Detailed instructions for completing the security clearance process can be found on the Peabody Background Clearance Office website: peabody.vanderbilt.edu/admin-offices/bco/index.php. Vanderbilt students may not participate in any Peabody College-related activities involving PreK-12 students or vulnerable adults until their background clearance is finalized at Peabody.

Withdrawal from the University
Students proposing to withdraw from the university during any semester must report to the Peabody Office of Undergraduate Student Affairs to initiate proper clearance procedures. Students are graded on the same basis as if withdrawing from a course. Students who withdraw before the end of the eighth week of classes receive a partial refund of tuition (see the section on Financial Information). Students intending to withdraw from the university for the following semester should notify the Peabody Office of Undergraduate Student Affairs by 1 December for spring semester or by 1 May for the fall semester.

Students who have withdrawn from the university without filing a Leave of Absence form must apply for readmission if they wish to return.

Graduation
Degree candidates must have completed satisfactorily all curriculum requirements, have passed all prescribed examinations, and be free of indebtedness to the university. Graduation requirements vary with the student’s program of study but include a minimum of 120 hours (at least 60 of which must have been earned at Vanderbilt) and a minimum cumulative grade point average of 2.000. A degree candidate must also have a 2.0 cumulative grade point average in his or her major.

Commencement. The university holds its annual Commencement ceremony following the spring semester. A student completing degree requirements will be officially graduated, however, at the close of the semester or summer session in which the degree is earned, with such graduation recorded on the student’s permanent record. Students who graduate at the close of the summer session or the fall semester preceding the spring commencement ceremony are encouraged to join spring graduates in the graduation ceremony in May. Those unable to do so may receive their diplomas by mail.
Special Programs

Peabody Scholars Program
First-year students who achieve academic distinction during their first semester at Vanderbilt are invited to apply to the Peabody Scholars Program. The Peabody Scholars Honors Program was established to offer particularly promising undergraduates at Peabody College opportunities for holistic flourishing through intellectual adventure, community service, and research.

Emphasizing a theme of personal, professional, and civic creativity, the program is designed to foster full blooming of students’ potential by offering breadth through exposing students to a variety of academic and social experiences in different domains and depth by engaging in service-learning and independent research.

To graduate with honors through Peabody Scholars, scholars need to earn 24 points within the program. Scholars earn points from a series of required components as well as optional enrichment programming. All freshman Peabody Scholars participate in a 3-credit-hour seminar on creativity during the spring semester. In the sophomore year, scholars work together on a meaningful immersive service project in the local community. Each Peabody Scholar is offered a summer stipend (between sophomore and junior years) to support engagement in an individual service-learning project (either domestic or abroad). In the junior year, scholars engage in independent research projects with a Peabody professor. Senior scholars participate in monthly scholarly and cultural events and have the opportunity to work on capstone projects related to their fields of study. The Peabody Scholars Program also offers professional development, networking, mentoring, and more. The full list of current programming is available on the program website. In sum, the Peabody Scholars Program offers a rich array of enrichment experiences and opportunities.

Peabody freshmen may apply for the Peabody Scholars Program in the fall of their first semester at Vanderbilt. Selections will be made prior to the beginning of the spring semester. To be accepted into the program, students must have a first-semester GPA of 3.6. To remain in good standing in the program, students must maintain a minimum grade point average of 3.0. Further information on the Peabody Scholars Program may be obtained from Professor Leslie Kirby in the Department of Human and Organizational Development.

Post-Baccalaureate Program with School of Nursing

Students at Peabody College may complete the B.S. degree with a major in human and organizational development or child development and also earn the master of science in nursing (M.S.N.) through a senior-in-absentia program in the School of Nursing. Students must complete the first three years of study as Peabody undergraduate students. During this time students pursue the major and the core courses in the health and human services track. Application for admission to the School of Nursing is completed by November 1 of the student’s junior year. Admitted students begin taking professional nursing courses in the fall of their senior year. Students must have successfully completed a minimum of 91 hours of undergraduate course work and all human and organizational development major and Liberal Education Core requirements before officially being enrolled as students in the School of Nursing. Upon successful completion of a minimum of 31 hours of nursing course work during the senior year, students are awarded the B.S. degree. Students continue full time in the professional program in the School of Nursing for the next summer, fall, spring, and summer sessions to earn the M.S.N. degree. Students who receive the M.S.N. degree are qualified for all professional nursing careers and are eligible to apply to the National Council on Licensure Examination to become Registered Nurses.

A sample curriculum is given below.

*Students apply for admission to the School of Nursing during the fall semester of their junior year.

*Acceptable as undergraduate Human and Organizational Development internship requirement.

B.S. in human and organizational development conferred at the end of the spring semester. Refer to the *School of Nursing Catalog* for requirements for completion of the M.S.N.
Interdisciplinary Majors

Peabody College, in conjunction with the College of Arts and Science, offers four interdisciplinary majors. These majors are to be taken as second majors only and are constructed around academic disciplines particularly appropriate for future teachers (except secondary), but are not limited to students entering teacher education. The interdisciplinary major consists of 36 hours of study and draws upon the academic resources of a number of departments throughout the University. Students follow the Liberal Education Core requirements of their first major.

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Language and Literacy Studies (36 hours)

COMMUNICATIONS.
6 hours from:
CMST 1500, Fundamentals of Public Speaking; CMST 1850 Interpersonal Communications

ENGLISH.
9 hours from:
ENGL1230W, 1270W or 1260W and 1250W and 3210 and above

EDUCATION.
9 hours from:
ENED 2100, 2200 or 4963 (3 hours); ENED 2430, ENED 3310 (3 hours); SPED 2430 or PSY-PC 3150 (3 hours)

ADDITIONAL COURSES
12 hours from two areas:
ANTH 1601, Introduction to Language and Culture; ANTH 2601, Introduction to Linguistics; ANTH 2603 Comparative Writing Systems; CMST 2800, Rhetoric of Civic Life; CMST 3000, Rhetoric of American Experience, 1640-1865; CMST 3001, Rhetoric of American Experience, 1865-1945; CMST 2900, Values of Modern Communication; CMST 3002, Rhetoric of the American Experience 1945-Present; CMST 2950, Rhetoric of Mass Media; PHIL1003, General Logic; PSCI 2242, Political Communication; THTR 1010, Fundamentals of Theatre

Mathematics and Science Studies (35–37 hours)

BIOLOGICAL SCIENCES.
4 hours from:
BSCI 1100 and 1100L, Biology Today; BSCI 1105, Human Biology; BSCI 1510 and 1510L, or BSCI 1511 and 1511L, Introduction to Biological Sciences; BSCI 1103, Green Earth, the Biodiversity and Evolution of Green Plants

CHEMISTRY.
4 hours from:
CHEM1010L and 1010, or CHEM 1020L/1020, Introductory Chemistry; CHEM 1601 and 1601L, or CHEM 1602 and 1602L, General Chemistry

PHYSICS.
4 hours from:
PHYS 1010 and 1010L, Introductory Physics; PHYS 1601 and 1601L or 1602 and 1602L, General Physics

EARTH AND SPACE SCIENCES.
3–4 hours from:
ASTR 1010 and 1010L, Introductory Astronomy; Stars and Galaxies; EES 1510 and 1510L, The Dynamic Earth; EES 1030 and 1030L, Oceanography; EES 1080, Earth and Atmosphere; EES 1140, Ecology, Evolution, and Climate through Time

HISTORY/PHILOSOPHY OF SCIENCE.
3 hours from:
ASTR 2130, Theories of the Universe; HIST 2800, Modern Medicine; PHIL 3613, Philosophy and the Natural Sciences

CALCULUS.
8–9 hours from:
MATH 1200, 1201, and 2200, Single-Variable Calculus I, II, and III; MATH 1300 and 1301, Accelerated Single-Variable Calculus I and II

PROBABILITY AND STATISTICS.
3 hours from:
MATH 2820 Introduction to Probability and Mathematics Statistics; MATH 3700, Discrete Mathematics; PSY-PC 2110 Introduction to Statistical Analysis

GEOMETRY.
3 hours from:
MATH 3200, Introduction to Topology; MATH 3210, Transformation Geometry; MATH 3310, Introduction to Mathematical Logic

ALGEBRA
3 hours from:
MATH 2410, Methods of Linear Algebra; MATH 2600, Linear Algebra; MATH 3300, Abstract Algebra

Natural Science Studies (35–36 hours)

BIOLOGICAL SCIENCES.
8 hours from:
BSCI 1100/1100L, Biology Today; BSCI 1105, Human Biology; BSCI 1510 and 1510L, and/or 1151 and 1151L, Introduction to Biological Sciences; BSCI 1103, Green Earth, the Biodiversity and Evolution of Green Plants

CHEMISTRY.
8 hours from:
CHEM 1010L and 1010 and/or 1020L/1020, Introductory Chemistry; CHEM 1601 and 1601L and/or 1602 and 1602L, General Chemistry

PHYSICS.
4 hours from:
PHYS 1010 and 1010L, Introductory Physics; PHYS 1601/1601L or 1602 and 1602L, General Physics

EARTH AND SPACE SCIENCES.
3–4 hours from:
ASTR 1010/1010L Introductory Astronomy: Stars and Galaxies; EES 1510 and 1510L, The Dynamic Earth; EES 1030 and 1030L, Oceanography; EES 1080, Earth and Atmosphere; EES 1140, Ecology, Evolution, and Climate through Time

HISTORY/PHILOSOPHY OF SCIENCE.
3 hours from:
ASTR 2130, Theories of the Universe; HIST 2800, Modern Medicine; PHIL 3613, Philosophy and the Natural Sciences

ELECTIVES.
9 hours (3 additional courses) in:
Astronomy, Biological Sciences, Chemistry, Earth and Environmental Sciences, Physics, or History and Philosophy
Second Language Studies (36 hours)

EDUCATION.
9 hours from:
EDUC 3730, ELL Educational Foundations; EDUC 3750, Linguistics and Language Acquisition for ELL Teachers; ENGL 1260W, Introduction to Literary and Cultural Analysis

PSYCHOLOGY.
3 hours from:
PSY-PC 1250, Developmental Psychology; PSY-PC 2600, Educational Psychology

LINGUISTICS.
3 hours from:
ANTH 1101, Introduction to Linguistics; ENED 2430, Fostering Language in Diverse Classrooms; SPED 2430, Introduction to Language and Communication

FOREIGN LANGUAGE.
12 hours of language courses from:
Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, Russian, or Spanish

ELECTIVES.
9 hours of elective courses are to be selected to reflect a concentration within a specific foreign language. Students MUST consult with their advisors when selecting elective hours.

For elementary or early childhood majors seeking an added endorsement in ELL, in addition to the above major requirements, the following 9 hours are required: EDUC 3740, ELL Methods and Materials (3 hours); EDUC 3760, Assessment of ELL (3 hours); EDUC 3731, 3742, and 3763, Practicum for ELL (3 hours)

Social Studies (36 hours)

Students selecting an interdisciplinary major in social studies will have seven options available to them. Each option requires 18 hours of study focused on a single social science discipline that is supplemented with 18 hours of course work drawn from studies within other social sciences. The seven options available to students include a focus on any of the following areas of study: Anthropology, Economics, American History, European History, American Politics, World Politics, or Sociology.

Anthropology
9 hours from:
ANTH 1101, Introduction to Anthropology; ANTH 1201 Introduction to Archaeology; ANTH 1301, Introduction to Biological Anthropology

9 hours in specified courses:
A Comparative Anthropology and Anthropological Theory Course (3 hours)
An Archaeology and Physical Anthropology Course (3 hours)
An Ethnography, Ethnohistory, and Linguistics Course (3 hours)
Six courses (18 hours) drawn from at least three areas: Economics, History, Political Science, and Sociology

Economics
9 hours required from:
ECON 1010, Principles of Macroeconomics; ECON 1020, Principles of Microeconomics; ECON1500, Economic Statistics

Additional 9 hours in Economics Courses

Six courses (18 hours) drawn from at least three areas: Anthropology, History, Political Science, and Sociology

United States History
6 hours from:
HIST 1390, America to 1776; HIST 1400, U.S. 1776-1877; HIST 1410, U.S. 1877-1945; HIST 1420, U.S. Post-1945

Additional four courses (12 hours) of United States History courses from:
HIST 1390-1440, 1660, 1690, 1720, 1730, 2580, 2590, 2610-2650, 2690-2722

Six courses (18 hours) drawn at least three areas: Anthropology, Economics, Political Science, and Sociology

European History
6 hours from:
HIST 1350, History of Western Civilization to 1700; HIST 1360, History of Western Civilization since 1700

Additional four courses on European History from:
HIST 1600, 2130 2135, 2220-2410

Six courses (18 hours) drawn from at least three areas: Anthropology, Economics, Political Science, and Sociology

American Politics
3 hours from:
PSCI 1100, Intro. to American Government and Politics

Any five (15 hours) of the following PSCI courses: 2204, 2222, 2240-2246, 2248, 2251, 2255, 2256, 2259, 2262, 3247, 3249, 3250, 3252-3254, 3258, 3260, 4275

Six courses (18 hours) drawn from at least three areas: Anthropology, Economics, History, and Sociology

World Politics
3 hours from:
PSCI 1101, Introduction to Comparative Politics; PSCI 1102, Introduction to International Politics

Any five (15 hours) of the following PSCI courses: 2210, 2212-2216, 2218-2227, 2230-2234, 2236, 3211, 3217, 3228, 3229, 3235

Six courses (18 hours) drawn from at least three areas: Anthropology, Economics, History, Sociology

Sociology
6 hours from:
SOC 1010, Introduction to Sociology, or SOC 1020, Contemporary Social Problems (3 hours); SOC 3001, Sociological Perspectives (3 hours)

4 courses (12 hours) 3 hours each of the following areas:
A sociology course drawn from the core area of Crime, Law, and Deviance
A sociology course drawn from the core area of Organizations, Politics, and Inequality
A sociology course drawn from the core area of Family, Medicine, and Mental Health
A sociology course drawn from the core area of Culture and Social Change

Six courses (18 hours) drawn from at least three areas: Anthropology, Economics, History, and Political Science
Majors in Child Development, Child Studies, and Cognitive Studies

CHAIR, DEPARTMENT OF PSYCHOLOGY AND HUMAN DEVELOPMENT

LECTURERS
Jenni Dunbar, Shane Hutton, Maria Osina

Major in Child Development

THE child development major is designed for students who wish to study children (infancy through adolescence) and the family, cultural, peer, school, and neighborhood contexts in which they live. The major is designed to provide a strong background in the social and behavioral sciences related to child development, a focused understanding of the scientific study of children and the contexts in which they develop, and opportunities for supervised and independent research on aspects of child development in ways that enable students to link theories and prior research to research design and data on children’s development. The major is excellent preparation for graduate study in selected social science and professional fields (e.g., psychology, medicine, nursing, education, public policy) and offers an excellent complementary (or second) major for undergraduate students simultaneously pursuing a major in cognitive studies, elementary education, human and organizational development, or special education.

The child development curriculum is designed to ensure that students develop a background in the liberal arts and sciences; a clear understanding of the theories, major research findings, and research methods central to the field of child development; and an area of focus or expertise in child development. Development of background in the liberal arts and sciences occurs within the context of the Liberal Education Core, composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

Honors Program

The Honors Program in child development offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in child development are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and at least a 3.2 in child development courses.

Students who complete the program successfully and who have a final grade point average of at least 3.2 will receive Honors or Highest Honors in child development. The program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from the director of the Honors Program, the director of undergraduate studies, or the department education coordinator.

Curriculum

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/

Students take a minimum of 120 hours, distributed as follows:

Liberal Education Core Requirements. Minimum 40 hours.

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

Major Requirements. 30 hours.

Students take a minimum of 30 hours in child development. The core consists of seven courses (21 hours) in developmental areas, epochs, and methods, and a minimum of three additional courses (9 hours) in an elective area of specialization.
Major Core. 21 hours.

PSY-PC 1250, Developmental Psychology
PSY-PC 2250, Cognitive Aspects of Human Development
PSY-PC 2400, Social and Personality Development
PSY-PC 2120, Statistical Analysis
One of the following two courses:
   PSY-PC 2500, Infancy
   PSY-PC 2550, Adolescent Development

Two of the following courses:
   PSY-PC 2170, Experimental Methods, or
   Psy 2150, Principles of Experimental Design
   PSY-PC 3722, Psychometric Methods
   PSY-PC 3860, 3980, 3981, 4998, 4999; Psy 3840, 3980, 4998, 4999.
   Directed Research or Honors Research (Only 3 hours of either Directed
   Research or Honors Research can be applied to this requirement.)

Major Elective Area. A minimum of 9 hours.

Any course in the Department of Psychology and Human Development
(Peabody) or the Department of Psychology (A&S) that is not being used to
meet another psychology requirement can be used as an elective (except,
Psy 1200, Psy 2100, PSY-PC 1205/1207, 2110, 3870).

Additionally, the following courses may serve as electives. With the approval
of the advisor, program director, or director of undergraduate studies, other
courses may also be used as part of the child development elective area.

Education 3120, Children in Families and Schools
Education 3140, Learning and Development in Early Childhood Education
English Education 2430, Fostering Language in Classrooms
English Education 2100, Literature and Drama for Young Children
English Education 2200, Exploring Literature for Children
HODC 3232, Ethics for Human Development Professionals
HODC 3342, Introduction to Community Psychology
Neuroscience 2201, Neuroscience
Neuroscience 3269, Developmental Neuroscience
Philosophy 3617, Philosophy of Language
PSY-PC 3850,* Independent Study
PSY-PC 3860,* Directed Research
PSY-PC 3980 or Psychology 3980, 3981, 4998, 4999* Honors Research
SPED 2120, Family Interventions
SPED 2160, Cultural Diversity in American Education
SPEDH 3348, Language and Learning
SPEDS 2430, Introduction to Language and Communication

NOTES: Research/experiential courses marked * above may be repeated freely for
elective credit toward graduation. However, only a total of 6 hours from among
these courses, in any combination, may be used as elective credit within the major.

Second Major or Electives. 50 hours (or less if additional
hours are earned in the Liberal Education Core, Major Core,
or Major Elective Area).

The Five-year Child Development/Nursing Program
The Five-year Child Development/Nursing program combines
the undergraduate major degree in child development with the
requirements of the Master of Science in Nursing program in
the School of Nursing. The prerequisites for admission to the
Five-year Child Development/Nursing program are completed
within the first three years of the undergraduate program;
these include all requirements of the child development major
and all prerequisites for admission to the Master of Science in
Nursing (M.S.N.) program. Application to the M.S.N. program
in the School of Nursing is made by December of the junior year,
and admissions decisions are made during the spring that follows. If admitted to the program, the student
takes all senior year courses in the School of Nursing. The bachelor of science degree in child development is awarded
after the completion of the senior year (and a minimum of 120
credit hours). The student continues in the Nursing program
during the summer immediately following graduation and
continues through the fifth year as a student in the School of
Nursing. The master of science in nursing is awarded upon
completion of all Nursing program requirements, usually at
the end of the fifth year of study.

*Child development major prerequisite and meets Liberal Education Core requirement.

**Meets Five-year Nursing Program requirement and Liberal Education Core requirement.
Required Nursing Courses (31 hours):

(Senior Year taken while enrolled in the School of Nursing—Admission Required)

**FALL**
- **NURS 5101**: Legal and Ethical Accountability in Professional Nursing Practice [2]
- **NURS 5102**: Principles of Client-Centered Care [1]
- **NURS 5105**: Enhancement of Community and Population Health I [2]
- **NURS 5103**: Human Experience of Health and Illness Across the Lifespan I [4]
- **NURS 5115**: Fundamentals of Clinical Practice [5]
- **NURS 5106**: Pharmacology for Nursing Care I [2]

**SPRING**
- **NURS 5201**: Inquiry and Evidence in Professional Nursing Practice [2]
- **NURS 5205**: Enhancement of Community and Population Health II [3]
- **NURS 5203**: Human Experience of Health and Illness Across the Lifespan II [5]
- **NURS 5215**: Integration of Theoretical and Clinical Aspects of Nursing I [3]
- **NURS 5206**: Pharmacology for Nursing Care II [2]

FIFTH YEAR IN PRE-SPECIALTY
Refer to the *School of Nursing Catalog* for requirements for completion of the M.S.N. degree.
Major in Child Studies

PEABODY has long had great strength in the area of child studies. The 36-hour interdisciplinary major in child studies draws on courses from psychology, education, special education, and human and organizational development. The major is excellent pre-professional preparation for students interested in graduate school in psychology or education, in law (e.g., child and family advocacy), or in various health related areas (e.g., medicine, nursing) involving children. It is also appropriate for students who are interested in gaining a broader understanding of children and families in contemporary society. The major areas covered are: developmental psychology; learning; research methods; language and literacy; and families, community, and diversity.

Honors Program

The Honors Program in child studies offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in child studies are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and a 3.2 in child studies courses. Students who complete the program successfully and who have a final grade point average of at least 3.2 will receive Honors or Highest Honors in child studies. The program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from the director of the Honors Program, the director of undergraduate studies, or the department education coordinator.

Curriculum

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Students take a minimum of 120 hours, distributed as follows:

Liberal Education Core Requirements. Minimum 40 hours.

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

Child Studies Major Courses

DEVELOPMENT COURSES. (9 hours)
PSY-PC 1250. Developmental Psychology
PSY-PC 2250. Cognitive Aspects of Human Development
PSY-PC 2400. Social and Personality Development
PSY-PC 2500. Infancy
PSY-PC 2550. Adolescent Development

LEARNING. (3 hours)
Mathematics Education 2100 or 2200
Science Education 2200 or Social Studies Education 2100
PSY-PC 2600. Educational Psychology
SPED 2310. Managing Academic and Social Behavior

RESEARCH METHODS. (3 hours)
PSY-PC 2170. Experimental Methods, or
Psy 2150. Principles of Experimental Design
PSY-PC 3722. Psychometric Methods
PSY-PC 3724. Psychometrics
HOD 2500. Systematic Inquiry

FAMILIES, COMMUNITY, AND DIVERSITY. (6 hours)
EDUC 1220. Society, School, and the Teacher
EDUC/SPED 2160. Cultural Diversity in American Education
EDUC 3120. Children in Families and Schools
EDUC 3620. Social and Philosophical Aspects of Education
HODH 3221. Health Service Delivery to Diverse Populations
HODC 3202. Social Problems I
HODC 3342. Introduction to Community Psychology
SPED 1210. Introduction to Exceptionality
SPED 2120. Family Intervention

LANGUAGE AND LITERACY. (6 hours)
ANTH 2601. Introduction to Linguistics
EDUC 3114. Language and Literacy Learning in Young Children
EDUC 3214. Theory and Method of Reading Instruction in Elementary Schools
ENED 2200. Exploring Literature for Children
PSY-PC 2150. Principles of Experimental Design
PSY-PC 3850.*

Society, School, and the Teacher
SPEDS 2430. Introduction to Language and Communication
SPEDH 3348. Language and Teaching

ELECTIVES IN CHILD STUDIES. (9 hours)
Any course in the Department of Psychology and Human Development (Peabody) or the Department of Psychology (A&S) that is not being used to meet another psychology requirement can be used as an elective (except PSY 1200, Psy 2100, PSY-PC 1205/1207, 2110, and 3870).

Additionally, the following courses may serve as electives. With the approval of the adviser, program director, or director of undergraduate studies, other courses may also be used as part of the child studies elective area.

PSY-PC 3850.* Independent Study
PSY-PC 3860.* Readings and Research for Undergraduates
PSY-PC 3980. 3981, 4998, 4999, or Psy 3980, 3981, 4998, 4999.* Honors Research
HOD 3232. Ethics for Human Development Professionals
HODC 3202. Community Development Theory

NOTE: Research/experiential courses marked * above may be repeated freely for elective credit toward graduation. However, only a total of 6 hours from among these courses, in any combination, may be used as elective credit within the major.
Major in Cognitive Studies

THE cognitive studies major is designed for students who wish to become active inquirers into the processes by which people learn to think, solve problems, and reason. The major encourages the development of flexible reasoning and problem-solving skills that are useful in a wide variety of endeavors. The major is excellent preparation for graduate study in the social and behavioral sciences as well as for areas (such as medicine and law) that place importance on inquiry and clear thinking.

The curriculum is planned to ensure that students receive a strong background in both science and the liberal arts, with an emphasis on problem solving and complex decision making. The courses in the core curriculum focus on various aspects of human cognition, including communication, cognitive development, basic cognitive processes, applications of theories of knowledge, and sociocultural aspects of learning. Students are encouraged to consult their advisers about pursuing a second major or developing an area of concentration that is consistent with their career plans. The major also emphasizes an appreciation of the scientific method and the research process; numerous opportunities exist to pursue independent study in close collaboration with faculty members.

Leadership and success in our society will depend increasingly on one’s ability to process complex information, solve difficult problems using systematic analysis, and facilitate the learning of others. The knowledge and experience gained by students in cognitive studies will allow them to be full participants in the society of learners who represent the future.

Honors Program

The Honors Program in cognitive studies offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in cognitive studies are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and a 3.2 in cognitive studies courses. Students who complete the program successfully and who have a final grade point average of at least 3.2 will receive Honors or Highest Honors in cognitive studies. The program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from the director of the Honors Program, the director of undergraduate studies, or the department education coordinator.

Curriculum

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Students take a minimum of 120 hours, distributed as follows:

Liberal Education Core Requirements. Minimum 40 hours.

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

Note: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

Major Requirements. 33 hours.

Students take a minimum of 33 hours in Cognitive Studies. The core consists of four courses (12 hours), a minimum five additional courses (15 hours) in the elective area, and two courses (6 hours) in the Methods of Inquiry area.

Major Core. 12 hours.

PSY-PC 1205. Minds, Brains, Contexts, and Cultures or 1207.
PSY-PC 2200. Psychology of Thinking or Psy 3120. Cognitive Psychology
PSY-PC 3650. Advanced Topical Seminar
One of the following:
PSY-PC 2170. Experimental Methods or
Psy 2150. Principles of Experimental Design

Major Elective Area. 15 hours

Any course in the Department of Psychology and Human Development (Peabody) or the Department of Psychology (A&S) that is not being used to meet another psychology requirement can be used as an elective (except PSY-PC 1250, 2110, 3870, Psy 1200, Psy 2100).

Additionally, the following courses may serve as electives. With the approval of the adviser, program director, or director of undergraduate studies, other courses may also be used as part of the cognitive studies elective area.

ANTH 1301. Biological Anthropology
ANTH 2601. Introduction to Linguistics
ENED 2430. Fostering Language in Classrooms
NSC 2201. Neuroscience
PHIL 3617. Philosophy of Language
PHIL 3630. Philosophy of Mind
PSY-PC 3850.* Independent Study
PSY-PC 3860, Psy 3840.* Directed Research
PSY-PC 3980, 3981, 4998, 4999, or Psy 3980, 3981, 4998, 4999,* Honors Research
SPEDS 2430. Introduction to Language and Communication

Note: Research/ experiential courses marked * above may be repeated freely for elective credit toward graduation. However, only a total of 6 hours from among these courses, in any combination, may be used as elective credit within the major.

Methods of Inquiry. 6 hours.

May also be used to satisfy Liberal Education Core requirements.

ANTH 1301, 2211
CHEM 2100
CS 1101 or 2212
EES 3250
HOD 2500
HODC 3222
Philosophy 1003, 3003, 3616
The Minor in Cognitive Studies
The minor in cognitive studies consists of 15 hours in the following courses:

- ANT 2601: Introduction to Linguistics
- ENED 2430: Fostering Language in the Classroom
- PSY-PC 1115: First-Year Seminar or PSY-PC 1157
- PSY-PC 2250: Cognitive Aspects of Human Development
- PSY-PC 2300: Social and Emotional Context of Cognition
- PSY-PC 2400: Social and Personality Development
- PSY-PC 3150: Language Development
- PSY-PC 3650: Advanced Topical Seminar (intended for students beyond the first year. May be repeated if no duplication of content.)
- Psy 3775: Human Memory
- Psy 3635: Health Psychology
- PSY-PC 3200: Introduction to Clinical Psychology
- PSY-PC 3860, 3980, 3981, 4998, 4999: Directed Research/Honors Research (may not be repeated for minor credit)
- SPED 2430: Introduction to Language and Communication

The Minor in Child Development
The minor in child development consists of 18 hours in the following courses:

- PSY-PC 1250: Developmental Psychology
- PSY-PC 2110: Introduction to Statistical Analysis (may be taken as part of the Liberal Education Core)
- One of the following:
  - PSY-PC 2250: Cognitive Aspects of Human Development
  - PSY-PC 2400: Social and Personality Development

The Minor in Quantitative Methods
Quantitative skills are highly valued in a variety of fields. Training provided by the quantitative methods minor can provide a competitive edge on the job market or for future graduate study. Many advances in quantitative methods used in the social sciences and education are not covered in standard undergraduate introductory statistics courses. This minor exposes students to more recent developments in quantitative methods with concrete applications to practice. The quantitative methods minor helps students become better consumers and producers of scientific research. Students will have the opportunity to learn from leading experts in the statistical analysis of social science data.

Structure of the Minor
Prerequisite for the minor is completion of the introductory statistics sequence that is already required by the undergraduate psychology majors. This sequence is:

- PSY-PC 2110: Introduction to Statistical Analysis (3 hours)
- or PSY 2100: Quantitative Methods (3 hours)

And
- PSY-PC 2120: Statistical Analysis (3 hours)

The quantitative methods minor is an 18-hour minor. The 18 hours include both PSY-PC 2110 (or PSY 2100) and PSY-PC 2120, and these serve as prerequisite courses for the electives. Following completion of these prerequisite courses (6 hours; required), the minor requires four additional courses (12 hours; electives). Any four courses offered by the Quantitative Methods program are applicable. At most, three hours of directed research/independent study can count toward the minor. Students with interest in directed research/independent study can contact individual quantitative methods faculty directly.

Courses that would satisfy the elective requirements (pick 4):

- PSY-PC 3722: Psychometric Methods
- PSY-PC 3724: Psychometrics
- PSY-PC 3727: Modern Robust Statistical Methods
- PSY-PC 3730: Applied Latent Class and Mixture Modeling
- PSY-PC 3732: Latent Growth Curve Modeling
- PSY-PC 3735: Correlation and Regression
- PSY-PC 3738: Introduction to Item Response Theory
- PSY-PC 3743: Factor Analysis
- PSY-PC 3746: Multivariate Statistics
- PSY-PC 3749: Applied Nonparametric Statistics

Prior to enrolling in a specific course, please contact the instructor regarding prerequisite courses. Undergraduates may request to be enrolled in QM laboratory courses not yet cross-listed as undergraduate courses by using a substitution form, with permission of instructor. We anticipate adding more courses to the list of electives, which will be posted at peabody.vanderbilt.edu/departments/psych/undergraduate_programs/quantitative_methods_minor.php

For inquiries about the quantitative methods minor, email kris.preacher@vanderbilt.edu

Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a "W" after the course number (A&S courses) or end with the digit "7" (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

Professional Education Core. 33 hours.
EDUC 1220, 3114, 3115, 3120, 3140, 3150, 3180, 3212; HMED 2150; MTED 3150; SPED 1210; SPEDH 3770/3777

Field Experiences. 15 hours.
EDUC 3116, 3151, 4951, 4961, MTED 3251

A second major is required.

For students interested in PreK-5 licensure, it may be possible to combine course work from the early childhood major and the elementary major. Interested students should discuss this with Professor Amy Palmeri.

elementary education

THE specialization in elementary education is field-oriented and designed to prepare students to teach children in grades K-5. Beginning in the freshman year, students observe and participate in local schools and experimental classrooms on campus. Most Liberal Education Core courses are taken in the College of Arts and Science.

Students must combine a specialization in elementary education with a second major in the liberal arts, an interdisciplinary major, or another major offered by Peabody College or the College of Arts and Science. Course work beyond the standard 120-hour program may be required for some double majors.

Vanderbilt students seeking teacher licensure must apply through the Office of Teacher Licensure at Vanderbilt and must meet licensure requirements in effect at the time of their graduation, which may be different from licensure requirements in effect at the time they entered Vanderbilt. Licensure requirements are currently undergoing change. Each year, teacher licensure candidates should consult the current Vanderbilt Undergraduate Catalog, the Undergraduate Guide to Teacher Licensure published by the Vanderbilt Office of Undergraduate Student Affairs.

B.S. Degree Requirements

Early Childhood Education (PreK-3 Licensure)

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Students take a minimum of 120 hours, distributed as follows:

Liberal Education Core Requirements. Minimum 60 hours.
The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies,
Teacher Licensure, and the Undergraduate Handbook published by the Office of Undergraduate Academic Affairs.

B.S. Degree Requirements

**Elementary Education (K–5 Licensure)**

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Students take a minimum of 120 hours, distributed as follows:

**Liberal Education Core Requirements. Minimum 60 hours.**

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

**Writing Requirement**

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-year Seminars when open registration begins.

**Professional Education Core. 28 hours.**

EDUC 1220, 3212, 3214, 3215, 3270; MTED 3250; SCED 3240; SSED 3240; HMED 2250; SPED 1210; PSY-PC 2600

**Field Experiences. 15 hours.**

EDUC 3216, 3240, 4952, 4962; MTED 3251

An approved second major is required.

For students interested in PreK-5 licensure, it may be possible to combine course work from the early childhood major and the elementary major. Interested students should discuss this with Professor Amy Palmeri.

Secondary Education

THE major in secondary education is designed to prepare the student to teach one or more subjects at the secondary level (grades 6–12). Students must complete Liberal Education Core requirements, Professional Education requirements, and a primary area of emphasis in at least one endorsement field, which involves 27 to 36 hours of course work in the discipline and results in a major in that area as defined by the College of Arts and Science. Specific requirements for a second area of endorsement may be obtained from the Office of Teacher Licensure in the Peabody Administration Building. Students must take the appropriate methods course for each area of endorsement.

Vanderbilt students seeking teacher licensure must apply through the Peabody Office of Teacher Licensure and must meet licensure requirements in effect at the time of their graduation, which may be different from licensure requirements in effect at the time they entered Vanderbilt. Licensure requirements are currently undergoing change. Each year, teacher licensure candidates should consult the current Vanderbilt Undergraduate Catalog, the Undergraduate Guide to Teacher Licensure published by the Vanderbilt Office of Teacher Licensure, and the Undergraduate Handbook published by the Office of Undergraduate Academic Affairs.

An approved second major is required.
Major in Human and Organizational Development

Graduates of the program assume positions in business, government agencies, social enterprises, and non-profit organizations. In addition, many students enter graduate or professional programs in business, community development, counseling, divinity, education, health promotion, human resource development, law, or medicine.

The core curriculum is designed to help students:

1. Understand the basic principles and typical patterns of human development across the life cycle and use this knowledge to understand their own behavior and the behavior of others;
2. Understand the principles of group dynamics and use this knowledge to provide leadership and facilitate decision making in small group settings;
3. Understand theories of organizations and apply them to the solution of organizational problems;
4. Apply quantitative and qualitative methods of systematic inquiry and analysis;
5. Understand basic economics including monetary and fiscal theory;
6. Understand public policy processes and the factors that influence policy making;
7. Understand the ethical dimensions of personal and organizational decisions and apply this understanding to analyze social issues and make professional and personal decisions;
8. Develop enhanced skills of synthesis including the ability to integrate ideas from various sources, to appreciate diversity, and to design innovative programs.

In addition, the program helps students develop the following skills:

1. Written communication with emphasis on developing a clear, concise, expository style and mastering the practical forms used in professional situations;
2. Oral presentation with emphasis on making informative and persuasive presentations with the effective use of technology and media;
3. Analytic thinking with emphasis on applying analysis, creative thinking, and the skills of systems thinking to the recognition, definition, and solution of personal, professional, organizational, and social problems;
4. Interpersonal communication with emphasis on inquiry, advocacy, and conflict resolution skills;
5. Leadership with emphasis on motivating others, managing talent, and teamwork.

Honors Program

The HOD Honors Program is designed for highly motivated students who are looking for an opportunity to pursue intensive study in personal areas of interest. It offers outstanding undergraduate HOD majors an opportunity to undertake advanced reading and become involved in research teams with professors and graduate students. The program also offers special opportunities for individual supervision that will help students develop writing and presentation skills to compete successfully in the world’s best graduate programs.

The program is open to students who have completed the sophomore year with a 3.6 cumulative (overall) GPA. Students

THE Human and Organizational Development major prepares students to solve human problems in organizations and communities. Doing so requires knowledge of human development, group dynamics, organizational theory and behavior, economics, public policy, statistics, and methods of inquiry. The curriculum is planned to ensure that students obtain a strong foundation in science and liberal arts, with emphasis on developing writing, oral presentation, and analytic skills.

In addition to the core curriculum, students select a concentration or track that provides a focus for their study during the junior and senior years. The track options are Community Leadership and Development, Health and Human Services, International Leadership and Development, Leadership and Organizational Effectiveness, and Education Policy. Many students also add an additional major or minor which is handled through the respective departments of those programs.

The HOD program is guided by an active learning approach to education. Students learn new ideas and concepts through seminars, simulations, case studies, field experiences, and interaction with professionals in the field. In addition, students are required to complete a semester-long capstone internship during which they demonstrate the core competencies of HOD: understanding and solving problems in organizations and communities. Through the course work that accompanies the internship, students integrate and apply concepts from earlier classes to understand organizational performance and complete a project that enhances the effectiveness of the organization. Because the student chooses the internship placement, this experience also provides valuable vocational and career development in the student’s field of interest. Students can apply for internships in Nashville, Chicago, New York, San Francisco, Washington, D.C., and London, England.

CHAIR Paul W. Speer
DIRECTOR OF UNDERGRADUATE STUDIES Leigh Z. Gilchrist
PROFESSORS EMERITI John M. Braxton, Robert L. Crowson, Jr., Joseph J. Cunningham, Paul R. Dockey, Craig Anne Heffinger, Robert B. Innes
PROFESSORS OF THE PRACTICE, EMERITAS Virginia A. Stevens, Janet S. Eyler
PROFESSORS Sandra Barnes, Bradley T. Erford, Ellen Goldring, Carolyn J. Heinrich, Velma McBride Murry, Joseph F. Murphy, Douglas D. Perkins, Marybeth Shinn, Paul W. Speer
RESEARCH PROFESSOR Mark Lipsey
PROFESSOR OF THE PRACTICE Sharon L. Shields
ASSOCIATE PROFESSOR EMERITUS Richard L. Percy

ASSISTANT PROFESSORS Angela Boatman, Christopher H. Candelaria, Ashley Carse, David K. Diehl, Brent J. Evans, Anjali Forber-Pratt, Joanne W. Golann, Yolanda J. McDonald, Jessica M. Perkins, Sara Safranski, Matthew P. Shaw, Adela Soliz
ASSISTANT PROFESSORS OF THE PRACTICE Gina L. Frieden, Leigh Z. Gilchrist, Brian L. Heuser, David Laird, Heather L. Smith, Sarah V. Suter
PRINCIPAL SENIOR LECTURERS Leslie D. Kirby, Andrew J. Van Schasack
SENIOR LECTURERS Nicole A. Cobb, José Cossa, Brenda McKenzie Chavins, Matthew G. Springer
LECTURERS Corbette Doyle, Susan K. Friedman, Heather C. Lefkowitz, Nancy Nolan, Kristen C. Tombkins

admitted to the honors program participate in advanced empirical (quantitative or qualitative) research for two semesters and complete an honors thesis. Although not required, honors projects may be coordinated with HOD internships. Students are also encouraged to attend departmental colloquia and to take at least one graduate course in their area of interest.

Curriculum

Students take a minimum of 120 hours.

Liberal Education Core Requirements. 40 hours.
The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

Writing Requirement
All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-Year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-Year Seminars when open registration begins.

Human and Organizational Development Professional Core. 18–20 hours.
These courses are listed in the Courses of Study section under Human and Organizational Development and will include the following topics:

HOD 1250: Applied Human Development
HOD 1300: Small Group Behavior
HOD 2100: Understanding Organizations
HOD 2400: Talent Management and Organizational Fit
HOD 2500: Systematic Inquiry
HOD 2700: Public Policy

Practicum and Internship. 12–18 hours.
The program includes a full-time internship (12–15 hours) and an optional 3-hour practicum experience.

Track. 15 hours.
A block of courses within the student’s area of concentration: (1) Community Leadership and Development, (2) Health and Human Services, (3) International Leadership and Development, (4) Leadership and Organizational Effectiveness, and (5) Education Policy.

Electives. 30–35 hours.

The Minor in Human and Organizational Development
The minor in human and organizational development consists of 18 hours in the following courses:

REQUIRED COURSE. 3 hours.
HOD 1250: Applied Human Development

CHOOSE TWO ADDITIONAL CORE COURSES. 6 hours.
HOD 1300: Small Group Behavior
HOD 2100: Understanding Organizations (required for Leadership and Organizational Effectiveness track students)
HOD 2500: Systematic Inquiry (prerequisite for HOD 2700, Public Policy)
HOD 2700: Public Policy (Prerequisite, HOD 2500, is required for Education Policy track students)

TRACK LEVEL COURSES: 9 hours.
Students will choose three courses (9 hours) from a single track to complete. The tracks are Community Leadership and Development, Health and Human Services, International Leadership and Development, Leadership and Organizational Effectiveness, and Education Policy.

Community Leadership and Development Track [9 hours]
The 9-hour CLD track core requires three of the following five courses:

HODC 3202: Community Development Theory
HODC 3342: Introduction to Community Psychology
HODC 3352: Philanthropy and Social Problem Solving
HODC 3650: Community Development Seminar (Rotating topics)
HODL 3274: Introduction to Community Development

Health and Human Services Track [9 hours]
The 9-hour HHS track core requires three of the following five courses:

HODH 3201: Introduction to Human Services
HODH 3211: Introduction to Counseling
HODH 3221: Health Service Delivery to Diverse Populations
HODH 3231: Introduction to Health Services
HODH 3241: Introduction to Health Policy

International Leadership and Development Track [9 hours]
The 9-hour ILD track core requires three of the following seven courses:

HODI 3200: Global Dimensions of Community Development
HODI 3210: Leadership and Change in International Organizations
HODI 3220: International Organizations and Economic Development
HODI 3230: Education and Economic Development
HODI 3240: Effectiveness in International For-Profit Organizations
HODI 3250: Building Knowledge Economics in Asia
HODI 3260: Education in the Asia-Pacific Region: Development, Reform, and Innovation

Leadership and Organizational Effectiveness Track [9 hours]
The 9-hour LOE track core includes the following required courses:

HODL 3204: Leadership Theory and Practice (prerequisite HOD 2100)
HODL 3234: Advanced Organizational Theory (prerequisite HOD 2100)

And

One course chosen from the following five options:

HODL 3224: Analyzing Organizational Effectiveness
HODL 3244: Introduction to Human Resource Development
HODL 3254: Human Resource Management
HODL 3264: Evidence-based Practice in Organizations (prerequisite HOD 2100; concurrent enrollment allowed)
HODL 3274: Managing Organizational Change (prerequisite HOD 3204 or HOD 3234)

Education Policy Track [9 hours]
The 9-hour EP track core has the following required courses:

HODE 3205: Education Policy Analysis Methods (prerequisite HOD 2700 or PCSI 1100)
HODE 3215: Education and Public Policy (prerequisite HOD 2700 or PCSI 1100)
HODE 3225: Introduction to Public Finance of Education

Total hours in the minor: 18
The Honors Program in Special Education offers qualified students the opportunity to gain experience in conducting research in collaboration with a faculty mentor. This experience culminates in the writing and presentation of a senior project. Students who major in special education are eligible to apply for the Honors Program in the spring of their sophomore year if they have an overall grade point average of 3.5. Students who are accepted into the Honors Program must successfully complete the program, and maintain the required grade point averages, to graduate with Honors in Special Education. Specific information concerning admission to and the requirements of the Honors Program in Special Education is available from Professor Andrea Capizzi, director of undergraduate studies for the Department of Special Education.

Students should be aware that participation in the Honors Program is quite time-intensive and represents a substantial commitment of effort across at least three semesters. Therefore, potential participants must carefully consider whether they are able to, and want to, devote the required time and energy to this program.

B.S. Degree Requirements

NOTE: New course numbers took effect in fall 2015. Former course numbers are included in course descriptions in this catalog and at this website: registrar.vanderbilt.edu/faculty/course-renumbering/course-lookup/.

Specializations are available in high-incidence disabilities/interventionist (grades K–6/6–12 modified licensure), severe disabilities (grades K–12 comprehensive licensure), and visual disabilities (grades PreK–12 visual impairment licensure). Total hours will vary depending on the area of specialization.

Students take a minimum of 120 hours, distributed as follows:

**Liberal Education Core Requirements. Minimum 60 hours.**

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science, and Electives. Listings of all courses that may fulfill these areas are located online in the Peabody Undergraduate Handbook (http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

**Writing Requirement**

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

NOTE: First-Year Seminars (courses numbered 1111) offered through the College of Arts and Science and the Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First-Year Seminars when open registration begins.

**Specializations**

The following SPED course is taken as part of the Liberal Education Core, but is also required in each area of specialization.

**SPED 1210. Introduction to Exceptionality**

The following courses are required in each area of specialization.

**SPED 1175. Freshman Seminar**

**SPED 2310. Managing Academic and Social Behavior**

**SPED 4950. Student Teaching Seminar**

**SPED 4954 or 4951. Student Teaching**
Minor in Special Education

The minor in special education provides students with an opportunity to develop familiarity and expertise in working with children who have learning and social behavior problems. The minor requires 17 hours (15 unique to the minor) as detailed below.

Required for all tracks (3 hours)

SPED 1210. Introduction to Exceptionality (3)

Electives (14 hours)

SPED 2310/3871. Managing Academic and Social Behavior (fieldwork) (3/1)
SPEDH 3308. Understanding Students with Severe and Persistent Academic and Behavior Difficulties (3)
SPEDH 3328/3871. Teaching Math to Students with Academic and Behavior Difficulties (fieldwork) (3/1)
SPEDH 3338/3871. Teaching Reading to Students with Academic and Behavior Difficulties (fieldwork) (3/1)
SPEDH 3348. Language and Learning (3)
SPED 2160. Cultural Diversity in American Education (3)
SPEDS 2120. Family Intervention (3)
SPED 2340. Introduction to Language and Communication (3)
SPED 3350. Access to General Education and Teaching Functional Academics (3)
SPEDH 3308. Understanding Students with Severe and Persistent Academic and Behavior Difficulties (3)
SPEDH 3328. Teaching Mathematics to Students with Severe and Persistent Academic and Behavior Difficulties: K-8 (3)
SPEDH 3338. Teaching Reading to Students with Severe and Persistent Academic and Behavior Difficulties: K-8 (3)
SPEDH 3358. Advanced Reading Methods for Students with Severe and Persistent Academic and Behavior Difficulties (3)
SPEDV 3305. Medical and Educational Implications of Visual Impairments (3)
SPEDV 3315. Educational Procedures for Students with Visual Impairments (3)
SPEDV 3335. Braille Reading and Writing (2)
SPEDV 3345. Communication Skills for Students with Visual Impairments (3)
SPEDV 3385. Advanced Procedures for Students with Visual Impairments (3)

Most courses are taught in sequence and have prerequisite courses.
Honors

Founder's Medal
The Founder’s Medal, signifying first honors, was endowed by Commodore Cornelius Vanderbilt as one of his gifts to the university. The recipient is named by the Dean after consideration of faculty recommendation and overall academic achievements, as well as grade point averages of the year’s highest ranking summa cum laude graduates.

Latin Honors Designation
Honors, which are noted on diplomas and published in the Commencement Program, are earned as follows:

Summa Cum Laude. Students whose grade point average equals or exceeds that of the top 5 percent of the previous year’s Vanderbilt graduating seniors.

Magna Cum Laude. Students whose grade point average equals or exceeds that of the next 8 percent of the previous year’s Vanderbilt graduating seniors.

Cum Laude. Students whose grade point average equals or exceeds that of the next 12 percent of the previous year’s Vanderbilt graduating seniors.

Dean’s List
The Dean’s List recognizes outstanding academic performance in a semester. Students are named to the Dean’s List when they earn a grade point average of at least 3.500 while carrying 12 or more graded hours, with no temporary or missing grades in any course (credit or non-credit), and no grade of F.

Kappa Delta Pi
Kappa Delta Pi is an education honor society organized in 1911 at the University of Illinois to foster excellence in scholarship, high personal standards, improvement in teacher preparation, distinction in achievement, and contributions to education. Membership is limited to juniors and seniors with a grade point average of 3.500 or better, and graduate students with a grade point average of 3.750 or better. Candidates for membership must have completed at least 9 hours in education or psychology.

Honor Societies for Freshmen
Freshmen who earn grade point averages of 3.500 or better for their first semester are eligible for membership in the Vanderbilt chapters of Phi Eta Sigma and Alpha Lambda Delta.

Awards
KEVIN LONGINOTTI AWARD. Awarded annually to a graduating senior in the Department of Teaching and Learning who shows exceptional promise as a future teacher at the secondary school level.

DOROTHY J. SKEEL AWARD FOR OUTSTANDING PROFESSIONAL PROMISE (ELEMENTARY/EARLY CHILDHOOD EDUCATION). Presented annually to the graduating senior in the Department of Teaching and Learning who has shown exceptional promise as a future teacher at the elementary school or early childhood level.

SENIOR THESIS AWARD. Awarded to the graduating senior in the Human and Organizational Development Program who has submitted the most outstanding senior thesis. The winner is selected from a group of five finalists who make an oral presentation of their theses to a panel of five professors.

THE DEPARTMENT OF SPECIAL EDUCATION DISTINGUISHED ACADEMIC ACHIEVEMENT AWARD. Awarded annually to the graduating senior in the Department of Special Education who exemplifies the highest level of academic achievement.

THE DISTINGUISHED SERVICE IN SPECIAL EDUCATION AWARD. Presented annually to the graduating senior in the Department of Special Education who exemplifies the highest commitment to professional service in special education.

THE PEABODY ALUMNI AWARD. Awarded to the Peabody Alumni Association to a member of the graduating class who has demonstrated outstanding qualities of scholarship and leadership.

THE WILLIS D. HAWLEY AWARD. Awarded by students of Peabody College to a senior who exemplifies Peabody’s commitment of service to others.

DEAN’S AWARD FOR OUTSTANDING SCHOLARSHIP. Awarded to each summa cum laude graduate.

YOUNG ALUMNI BOARD AWARD. Awarded by Peabody students to a senior who has demonstrated outstanding qualities of scholarship, leadership, and commitment of service to others. The recipient of this award represents the graduating class as a member of the alumni board for a two-year term.

PSYCHOLOGY AND HUMAN DEVELOPMENT UNDERGRADUATE HONORS AWARD. Awarded to the graduating senior who has successfully completed the Undergraduate Honors program in Cognitive Studies, or Child Development, or Child Studies and who has produced the best overall honor project.

EXCELLENCE IN CHILD DEVELOPMENT AWARD. Awarded to the graduating senior majoring in Child Development whose work in the opinion of the faculty of the Department of Psychology and Human Development exemplifies academic excellence.

EXCELLENCE IN COGNITIVE STUDIES AWARD. Presented annually by the Department of Psychology and Human Development to the graduating senior who most clearly exemplifies the goals of the Cognitive Studies Department.

HUMAN AND ORGANIZATIONAL DEVELOPMENT AWARDS. Established in 1999 and presented to the graduating seniors who exemplify the highest levels of scholarship and leadership in the Human and Organizational Development Program. The awards are given in these areas: Community Service, Outstanding Community Development and Social Policy, Outstanding Health and Human Services, and Outstanding Leadership and Organizational Effectiveness.

SPECIAL EDUCATION TEACHER OF EXCELLENCE AWARD. Established in 1999. Awarded annually by the Department of Special Education to the graduating senior who has demonstrated the highest level of excellence in teaching in the area of special education.
Post-Baccalaureate Programs

Peabody offers professional degree programs in the following areas. Details of the post-baccalaureate programs are published in the Peabody College Catalog, available on request from the Office of Admissions and Records at Peabody College.

Five-year Child Studies Program at Peabody

The five-year Child Studies program offered by Peabody College is designed to blend the undergraduate program with the master’s level program. Students who successfully complete this combined program will earn their undergraduate B.S. degrees and also earn their M.Ed. degrees by the end of their fifth year at Peabody.

Under the combined five-year plan, undergraduates take 6 credit hours of professional courses during the senior year as part of the 120 hours required for the B.S. degree. Professional credit hours may not be used to satisfy undergraduate major course requirements. A fifth year (including summer) follows, during which students complete the additional 30 professional hours necessary for the master’s degree. Students in this five-year program may take 6 hours during the senior year. Students who plan to pursue a five-year program are required to abide by the following guidelines; admission is competitive, and meeting minimum requirements does not guarantee admission.

- Students should make application to the program by the middle of the junior year at Vanderbilt.
- Applicants must have earned a minimum 3.00 grade point average.
- Courses may not be transferred from another university as a part of the master’s degree.

Child Studies

The master of education (M.Ed.) in Child Studies is designed to give strong undergraduate students graduate preparation and related supervisory experience pertinent to career development or further graduate/professional study involving children, adolescents, families, schools, and related community services.

This 36-hour master’s program consists of 12-18 credit hours of core curriculum course work and 18-24 credit hours of elective course work that are individually tailored to each student’s personal interests and professional goals. Our program offers traditional classroom preparation alongside hands-on practicum experiences or research mentorships, which are integrated into the program of studies.

All students choose to complete one of two tracks: the Applied Professional Track or the Empirical Research Track. Both program options require that students become skilled in integrating current child development research and theory with effective practice in academic or professional settings. Required courses focus on applied child development, developmental theory, and research methodology. Within each track, there are additional areas of concentration including, but not limited to, pediatric health care, developmental disabilities and early intervention services, early childhood, child advocacy and public policy, youth development, poverty and interventions, and arts and media. This degree culminates in a capstone project exam that reflects the unique set of academic and professional experiences that compose the students’ program of studies.
Human and Organizational development

HOD 1001. Commons Seminar. [Formerly HOD 1690] Commons seminar, a 1-hour small seminar experience open to first-year students. Students and faculty will collaboratively explore a specialized topic in depth in this university-wide seminar sponsored by the Ingram Commons. General elective credit only. [1]

HOD 1115. First-Year Seminar. [Formerly HOD 1150] selected topics for first-year students. [3]

HOD 1250. Applied Human Development. [Formerly HOD 1000] introduction to the processes of human development and how such development can be influenced. Emphasis is placed on social development and implications for solving personal and professional problems. The course focuses on late adolescent and young adult development. [3]

HOD 1300. Small Group Behavior. [Formerly HOD 1100] designed to improve the student’s ability to analyze behavioral patterns in groups such as leadership, conflict, and decision making and group roles. The student is expected to improve his/her abilities by effective participation in the group as well as in written analyses. Problems for analysis are drawn from events in the group and from theoretical readings. [3]

HOD 2100. Understanding Organizations. [Formerly HOD 1200] introduction to theory and research on human behavior in organizations. Aimed at providing a framework for understanding the dynamics of organizations around the basic issues that confront all organizations (e.g., goal setting, work performance, leadership, decision making, and managing change). [3]

HOD 2260. Economics of Human Resources. [Formerly HOD 2260] an introduction to economics, with heavy emphasis on microeconomics of the family, household, consumer, and business firm. Applications to the economics of government, poverty, discrimination, labor markets, the environment, education, and other human resource and human development topics will be included. The class will be primarily lecture format with some small group interactions and discussions. Prerequisite: Statistics course: Psy 2110, Psy 2100, Econ 1500, Math 2810 or Math 2820. [3]

HOD 2400. Talent Management and Organizational Fit. [Formerly HOD 1400] this course examines the theories, concepts, tools, and processes associated with talent management and synergistic organizational fit. Given that organizations recognize that employee talents, skills, and motivations drive organizational performance and success, students will explore the theories, concepts, and processes organizations use to plan, source, attract, select, train, monitor, develop, retain, promote, and move employees through the organization. It provides a deeper understanding of organizational performance and HR /talent, strategy, and core competency alignment issues. Outcomes from this course are applied and built upon in the HOD capstone internship experience. [3]

HOD 2500. Systematic Inquiry. [Formerly HOD 1700] Qualitative and Quantitative research methods with an emphasis on formulating clear and concise questions, evaluating authoritative sources of information, designing and conducting research studies, and reporting results in a professional format. [3]

HOD 2700. Public Policy. [Formerly HOD 1800] an exploration of the foundations of public policy, the policy process, and the factors that influence policy making at the national and state levels, with particular attention to the development of student analytic and writing skills. Prerequisite: HOD 2500. [3]

HOD 3200. Introduction to Data Science. Provides students with both theoretical and practical knowledge of data science, including accessing data, analyzing data, and presenting data analysis. Data access topics include web scraping, using application programming interfaces and database queries. Data analysis topics include linear regression, logistic regression, and basics of unsupervised machine learning. Data analysis will also cover cross validation, data presentation topics include univariate and bivariate graphs, lattice graphing, mapping and interactive graphics. Emphasizes literate programming as basis for access, analysis and presentation. Prerequisite: introductory statistics or permission of instructor. [3]

HOD 3850. Independent Study in Human and Organizational Development. [Formerly HOD 2800] individual programs of reading or the conduct of research studies in human and organizational development. Consent of supervising faculty member required. May be repeated. [1-3]

HOD 3860. Directed Research. [Formerly HOD 2989] Consent of supervising faculty member required. May be repeated. [1-3]

HOD 3864. Research Experience. [Formerly HOD 2950] this course provides undergraduate students in HOD direct experience in conducting research. The course is designed for students interested in going to graduate school as well as students who want to gain experience in generating knowledge in an information economy. The course conducts a review of research methodologies and requires students to critically read and deconstruct published research studies. Data analysis skills are sharpened in the computer lab and put into practice on their own research. Students conduct several independent research projects during the semester. Prerequisite: HOD 2500 and a statistics class. [3]

HOD 3870. Practicum in Human and Organizational Development. [Formerly HOD 2000] an intensive practicum experience. Three contact hours per week required for each credit hour. [1-3]

HOD 3890. Special Topics in Human and Organizational Development. [Formerly HOD 2290] exploration of special issues on topics related to human and organizational development. May be repeated for credit with change of topic. [1-3]

HOD 4950. Human Development Internship. [Formerly HOD 2900] an intensive work experience which involves working four days a week for one semester. The internship includes completion of a specific project for the organization. Corequisite: HOD 4951, 4952, 4953. [3-6]

HOD 4951. Advanced Seminar in Human and Organizational Development. [Formerly HOD 2910] Provides an opportunity to integrate human development theory, knowledge, and skills by applying them to the solution of problems in internship settings. Corequisite: HOD 4950, 4952, 4953. [3]

HOD 4952. Theoretical Applications of Human and Organizational Development. [Formerly HOD 2920] students complete assignments and structured activities that demonstrate their ability to apply theories and skills acquired in the six Human Development Program core courses to understanding situations and solving problems that naturally occur during their internship experience. Must be taken in conjunction with the Human and Organizational Development Program internship. Corequisite: HOD 4950, HOD 4951, HOD 4953. Prerequisite: HOD 1250, 1300, 2100, 2400, 2500, 2700. [3]

HOD 4953. Senior Project. [Formerly HOD 2930] students complete a specific project or assemble a portfolio that demonstrates their professional competence in their area of specialization. The portfolio includes written products and a videotape oral presentation on a topic appropriate to the student’s area of specialization. [3]

HOD 4960. Honors Capstone Internship. [Formerly HOD 2940] students admitted to the Human and Organizational Development Honors Program may complete a capstone internship. [3]

HOD 4978. Senior Thesis. [Formerly HOD 2960] [3]

HOD 4980. Human and Organizational Development Honors Seminar. [Formerly HOD 2990] open to students majoring in human and organizational development who are admitted to the Honors Program. [3]
Community Development and Leadership

HODC 3202. Community Development Theory. [Formerly HOD 2600] This is a core course in the Community Leadership and Development (Cld) track of the HOD undergraduate program. It is designed to provide a general introduction to the field of community development (Cd) by examining appropriate theoretical perspectives. Ecological theory, critical theory, and theories of democracy will be studied for their application to community development issues. The theoretical perspectives examined in the course will also be linked to the diverse fields which inform community development, such as community psychology, sociology, geography, anthropology, education, and planning. Additionally, the course will provide students a more in-depth understanding of particular community development issues by exploring how alternative theoretical perspectives interpret several important community development phenomena. The course will prepare students to understand the theoretical orientations that underlie the dynamics of community development. [3]

HODC 3212. Community Development Organizations and Policies. [Formerly HOD 2610] Introduction to the practice of community development (Cd), including analysis of, and experience with, Cd issues, organizations, and policies. Prepares students to work with public or community agency staff, administrators, planners, policy-makers, or community organizers and leaders, who require analysis and recommendations on particular community issues. Students may also develop experience as part of a research, intervention, or policy development team. The course also focuses on ways ordinary people can become involved in improving their own neighborhoods, communities, and city. [3]

HODC 3222. Action Research and Program Evaluation. [Formerly HOD 2620] This is a specialty core requirement for the Community Leadership and Development (Cld) track in the Human and Organizational Development program. Course teaches policy-relevant field research methods in the context of action science. Students do an actual research project for a client organization and prepare a report with recommendations for policy and action. Students get experience in the conduct of the research as a team of a fictitious consulting organization. [3]

HODC 3232. Ethics for Human Development Professionals. [Formerly HOD 2280] (also listed as HOD 5100 for professional students) Normative evaluation of ethical issues in serving human need. Conflict values within moral dilemmas will be examined from a variety of theoretical perspectives and practical criteria. Case studies of moral issues confronting the individual, the family, service organizations, and the general public will be reviewed. [3]

HODC 3312. Procedures in Transition to Adult Life. [Formerly HOD 2640] (also listed as sPeds 3312) Overview of history, legislation, and practice in the areas of community and employment integration for persons with disabilities. Emphasis on various strategies for promoting a successful transition from school to life. Students are required to develop instructional plans for integration within the community. Students will apply their skills in community or classroom settings. [3]

HODC 3322. Religious and Spiritual Organizations. [Formerly HOD 2650] The class focuses on traditional and less studied religious and spiritual organizations and compares and contrasts their features, goals, structures, leaders, and personnel with secular organizations such as businesses. Information is also provided about how religious and/or spiritual features are being incorporated in a variety of organizational settings. [3]

HODC 3332. High Poverty Youth: Improving Outcomes. [Formerly HOD 2665] (also listed as sPeds 3332) Youth from high-poverty backgrounds may be at risk for outcomes that include academic failure, school dropout, drug abuse, unemployment, or incarceration. Students will be working with schools and community agencies in Nashville to improve outcomes for youth living in high-poverty neighborhoods. There will be class meetings as well as ongoing service-learning field experiences. Fieldwork will include mentoring, tutoring, or providing job readiness training to youth in neighborhood community centers or students’ high schools. [3]

HODC 3342. Introduction to Community Psychology. [Formerly HOD 2670] Theory, research, and action in community psychology. History of mental health care; ecological theories of community, stress, coping, and social support; deviance labeling: community assessment strategies; prevention, empowerment, and community and organizational change programs; societal-level intervention policies. [3]

HODC 3352. Philanthropy and Social Problem Solving. [Formerly HOD 3880] This course provides an opportunity to engage in the practice of philanthropy, while learning about charitable giving/fundraising, social problem-solving, and the non-profit sector. The semester will be divided into four sections: i. Problem identification; ii. Approaches to change; iii. Evaluating organizational effectiveness/impact and fit with theories of change; and iv. Decision making. Prerequisite: Students must have taken courses in group processes (HOD 1300 or equivalent), organizations (HOD 2100 or equivalent), and systematic inquiry/research methods (HOD 2500 or equivalent), so that they are prepared to work in teams and to analyze both social problems and the organizations that aim to deal with them. [3]

HODC 3350. Community Leadership and Development Seminar. [Formerly HOD 2680] Exploration of selected topics related to the community leadership and development track of the Human and Organizational Development program. May be repeated for credit with change of topic. [3]

HODC 3380. Independent Study in Community Leadership and Development. [Formerly HOD 2886] Individual programs of reading or the conduct of research studies in community leadership and development. Consent of supervising faculty member required. May be repeated. [1-3]

HODC 3380. Practicum in Community Leadership and Development. [Formerly HOD 2960] An intensive practicum experience. Three contact hours per week required for each credit hour. [1-3]

HODC 3389. Special Topics in Community Leadership and Development. [Formerly HOD 2690] Exploration of special issues on topics related to community leadership and development. May be repeated for credit with change of topic. [1-3]

Education Policy

HOD 2305. Education Policy Analysis Methods. [Formerly HOD 2800] How should the government choose among options to address the country’s education problems? The main goal of this course is to introduce students to the concepts, methods, and tools useful in performing policy analysis in general, and to give students practice applying the policy analysis methods to real-world educational policy issues including school vouchers, using measures of teacher value-added, financing higher education, and the importance of resources for school and student achievement. Prerequisite: HOD 2700 or Ps Ci 1100. [3]

HOD 2315. Education and Public Policy. [Formerly HOD 2810] This course explores contemporary social, philosophical, and political dimensions of education policy, including issues related to civic engagement, equity and school organization, and the ecology of schooling. Course readings and discussions will involve fundamental questions about the relationship between schools and society: What is the purpose of american public education? How do policy values, including equity and excellence, social justice and accountability, shape education policy? How is education policy related to social and economic outcomes and opportunities? Prerequisite: HOD 2700 or Ps Ci 1100. [3]

HOD 2325. Introduction to Public Finance of Education. [Formerly HOD 2820] In this course, we first provide a foundation of knowledge for the economics of the public sector. In this part of the course, we will discuss the appropriate role of government activity in a market economy as well as other behavioral consequences of government policy from the perspective of the consumers, the policymakers, regulators, and general taxpayers. After establishing a better understanding of the
economics of the public sector, we will examine economic models to explain real world government policymaking with a specific focus on education policy, including the rationale and mechanisms of funding education as well as other important policy issues such as the provision of early childhood education, teacher labor markets, and accountability and school choice programs. [3]

HODE 3315. State and Local Government. [Formerly HOd 2850] examines the operation of state and local governments within the american federal system. students will have met expectations for the course when they are able to express well their understanding of how american state and local governments serve the interests of their resi-dents within a system that is highly charged politically. Prerequisite: Hod 2700 or PsCi 1100. [3]

HODE 3560. Seminars in Education Policy. [Formerly HOd 2880] exploration of special issues related to the education policy track of the Human and Organizational development program. May be repeated for credit with change of topic. [3]

HODE 3850. Independent Study in Education Policy. [Formerly HOd 2988] individual programs of reading or the conduct of research studies in education policy. Consent of supervising faculty member required. May be repeated. [1-3]

HODE 3870. Practicum in Education Policy. [Formerly Hod 2080] an intensive practicum experience. t three contact hours per week required for each credit hour. [1-3]

HODE 3890. Special Topics in Education Policy. [Formerly Hod 2890] exploration of selected topics related to education policy. May be repeated for credit with change of topic. [1-3]

Health and Human Services

HODH 3201. Introduction to Human Services. [Formerly Hod 2500] t his course is a comprehensive and realistic survey of the diverse and dynamic field of human services. students will examine: 1) significant historical developments, 2) populations served, 3) social welfare/pov-erty theories, 4) career opportunities, and 5) controversial and ethical issues. t he course will emphasize special tasks and activities that are performed by the contemporary human service worker. [3]

HODH 3211. Introduction to Counseling. [Formerly Hod 2505] an overview of the counseling profession: theories, techniques, settings, and specialty areas. in addition to lectures and class discussions, the course includes an experiential component designed to increase students’ listening and responding skills. by the end of the course, students will have a clear understanding of what being a counselor entails. [3]

HODH 3221. Health Service Delivery to Diverse Populations. [For-merly Hod 2510] t his course focuses on the study of value systems of diverse groups, as well as variables related to gender, age, lifestyle, reli-gion, social class, race, geography, and developmental state, and how these relate to health status and health service needs. t his course pro-vides students with a basic knowledge and understanding of diversity so that they may be more effective in serving the needs of all people. t ransportation class fee: $50.00 [3]

HODH 3231. Introduction to Health Services. [Formerly Hod 2525] t his course will focus on the evolution of the u.s. health care system, as well as on the evolution of health care systems in diverse environments from around the globe. t he content of the course focuses on the nature and dynamics of the macro health system environments and the design and function of organizational models in those environments. particular attention will be paid to contemporary health service organizational mod-els, such as managed care, integrated delivery systems, and physician-hospital organizations. t opics include education and training of health care professionals, the role of health care providers, public, private, and voluntary agencies, and the interests of major stake holders. [3]

HODH 3241. Health Policy. [Formerly Hod 2535] t his course pres-ents broad perspectives for understanding health policy within histori-cal, political, and economic contexts. t eatures and assignments will primarily focus on health policy in the united states with a particular emphasis on the tennessee state legislature and metropolitan davidson son county. opportunities are available for application to national and international issues. earners will be provided with a foundation from which to base their work, including an overview of the u. s. health care system and public health infrastructure, as well as a framework for con-ducting policy analyses. [3]

HODH 3311. Introduction to Health Promotion. [Formerly Hod 2530] t his course is designed to enhance the student’s understanding of health promotion concepts that relate directly to improved lifestyle behavior change and disease risk reduction. in addition, health promo-tion program development, program management, and program initia-tives in a variety of settings will be addressed. [3]

HODH 3321. Introduction to Sports Medicine. [Formerly Hod 2540] current topics in sports medicine, with an emphasis on prevention, management, and rehabilitation, and administrative aspects of sports medicine. [3] (n ot currently offered)

HODH 3331. Managing Health Care Organizations. [Formerly Hod 2550] t his is an applied course which combines theoretical knowledge with professional learning experiences, such as case studies, guest lectu-res, films, management development exercises, and group projects. t his course provides a conceptual review of basic managerial func-tions such as 1) planning, 2) organizing, 3) controlling, 4) staffing, and 5) influencing. t he course addresses related managerial activities such as communication, decision making, and legal and legislative issues. Prerequisite: HODH 3291 or HODH 3321. [3]

HODH 3560. Health and Human Services Seminar. [Formerly Hod 2580] exploration of special issues related to the health and human services track of the Human and Organizational development Program. May be repeated for credit with change of topic. [3]

HODH 3850. Independent Study in Health and Human Services. [Formerly Hod 2985] individual programs of reading or the conduct of research studies in Health and Human services. Consent of supervising faculty member required. May be repeated. [1-3]

HODH 3870. Practicum in Health and Human Services. [Formerly Hod 2050] an intensive practicum experience. t hree contact hours per week required for each credit hour. [1-3]

HODH 3890. Special Topics in Health and Human Services. [For-merly Hod 2590] exploration of selected topics related to health and human services. May be repeated for credit with change of topic. [1-3]

International Leadership and Policy

HODI 3200. Global Dimensions of Community Development. [For-merly Hod 2400] t he globalization process induces new forms of human organization and transforms existing organizations at the com-munity, national, and international levels. t his course provides an understanding of the nature, functioning, and development of organi-zations affected by globalization in societies different from our own and as they relate to multilateral or global institutions that span different social and cultural settings. t o do this, the course explores organiza-tions from a comparative perspective, using the analytical framework of human ecology, in terms of differential access to economic and other productive assets, education and information, security and the rule of law, social capital and cultural identity. [3]

HODI 3210. Leadership and Change in International Organiza-tions. [Formerly Hod 2410] t his course uses an interdisciplinary case study approach to investigate organizational challenges associated with today’s international environment. students examine the impact of culture, politics, and policy, and other international phenomena such as exchange rates, trade, and capital markets on organizational leadership, structure, and performance. students also explore various dilemmas that confront decision-makers in international organizations as they attempt to reconcile institutional objectives, individual preferences, and varying cultural norms. [3]

HODI 3220. International Organizations and Economic Develop-ment. [Formerly Hod 2420] t he number of international organizations
has proliferated since World War ii, and their functions have diversified. some are altruistic. Others are regulatory. some serve as forums for debate, others as instruments for military action or enforcement of international agreements in such diverse fields as health, labor, agriculture, human rights, environment, culture, and trade. his course addresses how these organizations are financed, how they are governed, and how they create and manage political controversy. it covers their legal mandates and structure, seeks to develop awareness of issues of human capital and the World bank, addresses the controversies and debates over globalization and the role of international organizations in the international regulatory environment, and assesses the future of such organizations in an increasingly interdependent world. [3]

HODI 3230. Education and Economic Development. [Formerly HOD 2430] t his course reviews the history and application of human capital theory. it provides students with examples of applications in economic development policy. it gives students practice in applying common statistical models. it exposes students to current debates in education policy in the World bank and other international organizations which result from those models. [3]

HODI 3240. Effectiveness in International For-Profit Organizations. [Formerly HOD 2470] intercultural understandings and skills are key in today’s job market, due to fast-growing opportunities and challenges in international, multinational and global businesses. in this course students will, through a variety of methodologies, explore the current trends of exploding world trade, emerging nations, competition for talent and resources, and the impact of technology and changing demographics. additionally, students will develop skills and understandings in working with cultures, managing cross-cultural teams, and the ins and outs of working abroad. [3]

HODI 3250. Building Knowledge Economics in Asia. [Formerly HOD 2450] t his course focuses on the challenges and opportunities faced by the asia-Pacific region in making the transition to knowledge-based economies. topics cover global, regional, and country-specific policies and initiatives aimed at building the four pillars of the Knowledge economy (as defined by the World bank): economic incentive and institutional regime, education, innovation, and information and communications technologies. t his course is intended for advanced undergraduate students interested in gaining a deeper understanding of the transformational changes in the vast and diverse region. [3]

HODI 3260. Education in the Asia-Pacific Region: Development, Reform, and Innovation. [Formerly HOD 2445] t his course focuses on an in-depth analysis of current developments in education and schooling in the vast and diverse asia-Pacific region. students will examine perspectives from educational researchers, policy makers and practitioners on the major issues, concerns and prospects regarding educational developments in the region. [3]

HODI 3270. Global Sustainable Development. t his interdisciplinary course will help students to develop a capacity to analyze society-environment relations across spatial scales (from local to the global) using approaches from multiple academic disciplines and professional fields. t he course’s dual focus on analytical approaches and environmental objects (rather than a typical emphasis on problems) underscores the fact that today’s concerned citizens and professionals must be able to analyze complex society-environmental relations from multiple perspectives and at multiple scales. sustainability demands insights and methods from education, the social sciences, business and organizational studies, the natural sciences, and more. [3]

HODI 3650. International Leadership and Development Seminar. [Formerly HOD 2480] exploration of special issues related to the international leadership and development track of the Human and Organizational development program. May be repeated for credit with change of topic. [3]

HODI 3850. Independent Study in International Leadership and Development. [Formerly HOD 2984] individual programs of reading or the conduct of research in international leadership and development. Consent of supervising faculty member required. May be repeated. [1-3]

HODI 3870. Practicum in International Leadership and Development. [Formerly HOD 2040] an intensive practicum experience. t hree contact hours per week required for each credit hour. [1-3]

HODI 3875. Field School in Intercultural Education. [Formerly HOD 2460] t his course takes place in various sites over a 10-week period in the summer session. it provides training in community field research and analysis techniques directed to human, social, and civic development issues. [3]

HODI 3890. Special Topics in International Leadership and Development. [Formerly HOD 2490] exploration of special topics related to international leadership and development. May be repeated for credit with change of topic. [1-3]

Leadership and Organizational Effectiveness

HODL 3204. Leadership Theory and Practice. [Formerly HOD 2700] a systematic study of the formal theories and models of the leadership process and the research supporting and challenging them. students will complete a wide range of leadership self-assessments; design a leadership self-development plan; and participate in individual and group problem solving, decision making, conflict resolution, and performance appraisal simulations and case studies focusing on personal and organizational effectiveness. Prerequisite: HOD 2100. [3]

HODL 3224. Analyzing Organizational Effectiveness. [Formerly HOD 2715] effective leaders are able to analyze internal results and external trends in order to make effective decisions. students will gain first-hand knowledge of the financial and strategic issues critical to effective decision-making through a mix of lectures, case studies and one problem-based learning module. t he primary focus will be on the relevant critical thinking skills such as identifying relevant decision criteria, interpreting trends in the underlying data (both financial and operational), and communicating that analysis to executives in a manner that can be readily digested. [3]

HODL 3234. Advanced Organizational Theory. [Formerly HOD 2720] a comprehensive study of current theories and applied research in organizational effectiveness. emphasis is on the principles and practices of organizational restructuring, organizational development and planned changes, systems and processes, self-managed teams, and total Quality. experiential learning through simulations and field work will reinforce systematic inquiry, strategic planning, and applied organizational assessment skills. Prerequisite: HOD 2100. [3]

HODL 3244. Introduction to Human Resource Development. [Formerly HOD 2730] an introduction to the theory and practice of human resource development (design and implementation of training in corporate or human service organizations). special emphasis on roles played by hr professionals and concepts and skills needed for entry into the profession. [3]

HODL 3254. Human Resource Management. [Formerly HOD 2740] a comprehensive survey of human resource management theory, procedures, and practices, with emphasis on the organizational leader’s role and responsibilities for recruiting and selection, placement and career development, employee relations, labor relations, performance appraisal, compensation and benefits, workplace ethics, equal employment opportunity, safety and health, legislation and workplace regulations, development of personnel policies and practices, and the techniques of strategic human resource planning. [3]

HODL 3264. Evidence-based Practice in Organizations. [Formerly HOD 2745] accessing and using published research in solving organizational and social problems is a cornerstone of movements in management, education, medicine and a range of other fields. using evidence from academic research has even become part of the definition of ethical practice in many of these fields. as a result, identifying and appraising research studies that might be used to solve individual, team and organizational problems has become a critical skill for practitioners. From this research, practitioners must be prepared to create actionable interventions and to persuade others to adopt them. Prerequisite: HOD 2100 (concurrent enrollment allowed). [3]
HODL 3274. Managing Organizational Change. [Formerly HOD 2750]
This course focuses on organizational development philosophy and practices of planned change, and the theory and techniques of organizational consulting. Students will participate in simulations and actual organizational development interventions. Prerequisite: HODL 3204 or HODL 3234. [3]

HODL 3314. Strategic Planning and Project Management. [Formerly HOD 2755] This advanced seminar and workshop-based course focuses on the key organizational processes of strategic planning and project management. Building on prior instruction in leadership and organizational theory and practices, students will complete a critical analysis of strategic leadership theory and models of organizational planning. Activities include evaluation of internal and external factors impacting on planning: participation in strategic planning and project management simulations; evaluation of the performance of selected strategic leaders as planners; and practice with key planning tools and technologies. [3]

HODL 3324. Executive Leadership. [Formerly HOD 2770] This course introduces students to concepts of leadership involved in various social, political, and corporate domains. Course content relies on biographies of renowned leaders to illustrate principles of executive leadership. [3]

HODL 3334. Challenges of Leadership. [Formerly HOD 2710] This course is designed as an extension of the study of leadership theory and practices begun in HODL 3204. Provides opportunities to investigate leadership concepts introduced in HODL 3204 in more depth. Prerequisite: HODL 3204. [3]

HODL 3650. Leadership and Organizational Effectiveness Seminar. [Formerly HOD 2780] Exploration of selected topics related to the leadership and organizational effectiveness track of the Human and Organizational Development program. May be repeated for credit with change of topic. [3]

HODL 3850. Independent Study in Leadership and Organizational Effectiveness. [Formerly HOD 2987] Individual Programs of readings or the conduct of research studies in leadership and organizational effectiveness. Consent of supervising faculty member required. May be repeated. [1-3]

HODL 3870. Practicum in Leadership and Organizational Effectiveness. [Formerly HOD 2070] An intensive practicum experience. Three contact hours per week required for each credit. [1-3]

HODL 3890. Special Topics in Leadership and Organizational Effectiveness. [Formerly HOD 2790] Exploration of selected topics related to the leadership and organizational effectiveness track of the Human and Organizational Development program. May be repeated for credit with change of topic. [3]

Military Science—Peabody

MS-PC 1210. Leadership and Personal Development. [Formerly MS-PC 111]  (Formerly MS 111) Leadership is one of the most compelling topics of our time, and might be one of the most important attributes for effectiveness in all levels of human endeavor. The success of one of the most admired and respected institutions in our country, the military is founded upon the understanding and effective application of leadership, and the development of leaders. This course introduces students to the personal challenges and competencies that are critical to effective leadership. The focus is on developing basic knowledge and comprehension of leadership attributes and core leader competencies in a universal setting and exploring potential applications of these principles and practices at Vanderbilt, in the military and in the corporate world. [1]

MS-PC 1210L. Leadership and Personal Development Lab. [Formerly MS-PC 111A and MS 111A] Leader development is a continuous process of training, assessment and feedback with the goal of instilling and enhancing desirable behavior in individuals and organizations. Within the military science curriculum, this process is called the Leadership Development Program (LDP), modeled after the principles spelled out in Field Manual 22-100, Army Leadership, and standardized both on campus and Leadership Development and Assessment Course (LDAC) environments. The flexible methodology of LDP accommodates personalized, individual development at all levels of proficiency throughout the officer educational experience, from program entry to commissioning. The LDP includes basic leadership training, periodic assessment and counseling at both team and individual levels by experience observers. Trends and deficiencies are identified and addressed with retraining and reassessment in a continuous cycle. Effective leader development is progressive, building on lessons learned and maximizing individual potential. This course introduces students to the leadership development process by providing structured leadership opportunities in a variety of training settings. Student performance in leadership roles is assessed and notable strengths and weaknesses are identified. A plan for improvement is discussed in detail during one-on-one counseling sessions. [1]

MS-PC 1230. Leadership and Personal Development II. [Formerly MS-PC 112] (Formerly MS 113) What motivates others to follow a person is intriguing, inspiring and alluring. Through routine observation, we learn from leaders regardless of the setting (military, business, education, etc.) This course provides an overview of leadership fundamentals such as setting direction, problem-solving, listening, and providing feedback. You will explore dimensions of leadership, values, attributes, skills, and actions in a military context through practical, hands-on, and interactive exercises. [1]

MS-PC 1230L. Leadership and Personal Development II Lab. [Formerly MS-PC 113A] (Formerly MS 113a) Leader development is a continuous process of training, assessment and feedback with the goal of instilling and enhancing desirable behavior in individuals and organizations, this process is called the Leadership Development Program. Effective leader development is progressive, building on lessons learned and maximizing individual potential. This course introduces students to the leadership development process by providing structured leadership opportunities in a variety of training settings. A plan for improvement is discussed in detail during one-on-one counseling sessions. [1]

MS-PC 2150. Foundations of Leadership. [Formerly MS-PC 150] (Formerly MS 151) This course introduces the process of understanding and defining leaders in order to develop leadership skills appropriate for future commissioned Army officers. The class is broken down into five key skill development areas: (1) values and ethics, (2) personal development, (3) officership, (4) leadership and, (5) tactics and techniques. This class emphasizes individual leadership values and characteristics with a focus on leadership theory and interpersonal communications, army values, troop leading procedures, problem solving, and team building in a military environment. [2]

MS-PC 2150L. Foundations of Leadership Lab. [Formerly MS-PC 150A] (Formerly MS 151) This lab builds upon the classroom topics in MS-PC 2150 and introduces the process of understanding and defining leaders in order to develop leadership skills appropriate for the future commissioned officers. The lab is broken down into five key skill development areas: (1) leadership, (2) values and ethics, (3) personal development, (4) professional officership, and (5) various tactics, techniques, and procedures. This class will focus on individual leadership development where the student begins to plan, organize, and lead small teams and groups in situational training exercises. Students begin to apply leadership skills at the smallest unit level. [1]

MS-PC 2160. Foundations of Tactical Leadership. [Formerly MS-PC 152] This course builds upon MS-PC 2150. The course is broken down into five key skill development levels: 1) leadership, 2) values and ethics, 3) personal development, 4) professional officership, and 5) various tactics, techniques, and procedures. This class will focus on individual leadership development where the student begins to plan, organize, and lead small teams and groups in situational training exercises. Students begin to apply leadership skills at the smallest unit level. [1]

MS-PC 2160L. Foundations of Tactical Leadership Lab. [Formerly MS-PC 152A] This course builds upon MS-PC 2150 and 2150L. The lab is broken down into five key skill development levels: 1) leadership, 2) values and ethics, 3) personal development, 4) professional officership, and 5) various tactics, techniques, and procedures. This class will focus on indi-
vidual leadership development where the student begins to plan, organize, and lead small teams and groups in situational training exercises. Students begin to apply leadership skills at the smallest unit level. [1]

**MS-PC 3110. Leadership and Problem Solving.** [Formerly MS 211] This course builds upon your skills developed in MS-PC 2160 (1520), and continues to develop leadership, officership skills, self-awareness, and critical thinking skills through challenging scenarios related to small-unit tactical operations. Cadets receive systematic and specific feedback on their leadership values, attributes, skills, and actions. Prerequisite: MS-PC 1210 (111), 1230 (113), 2150 (150), and 2160 (152) [3]

**MS-PC 3120. Applied Team Leadership.** [Formerly MS-PC 212] (Formerly MS 212) Challenging scenarios related to small-unit tactical operations are used to develop self-awareness and critical thinking skills. Cadets receive systematic and specific feedback on their leadership values, attributes, skills, and actions. Open to ROTC cadets only. Prerequisite: MS-PC 3110. [3]

**MS-PC 4150. Leadership and Ethics.** [Formerly MS-PC 251] (Formerly MS 212) Students develops proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing leadership-performance feedback to subordinates. Students are given situational opportunities to assess risk, make sound ethical decisions, and provide coaching and mentoring to fellow ROTC cadets. Open to ROTC cadets only. [3]

**MS-PC 4160. Leadership in a Complex World.** [Formerly MS-PC 252] (Formerly MS 252) This course explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment. It introduces the concept of culture, its components, how culture influences human behavior, the impact of culturally influenced behavior on military operations, and how to analyze and apply cultural considerations in the planning and execution of military operations. Open to ROTC cadets only. Prerequisite: MS-PC 4150. [3]

Naval Science—Peabody

**NS-PC 2410. Organization and Management.** [Formerly NS 2410] This course presents a comprehensive study of organizational behavior and management with special emphasis on situational leadership in the military and civilian sectors and the development of your skills in organizational thinking and problem solving. You will explore a variety of leadership and management topics, including the classical theories of management, motivation and communication. FALL. [3]

**NS-PC 4242. Leadership and Ethics.** [Formerly NS-PC 2420] An exploration of major Western ethical philosophy in the development and application of leadership to enhance objective, sound and timely decision making in the most challenging of environments. This course follows theoretical examination with case studies and practical application to emphasize the importance of ethical reasoning to leadership, and explores components of character and integrity in decision making. SPRING. [3]

Psychology and Human Development

**PSY-PC 1001. Commons Seminar.** [Formerly PSY-PC 1690] Commons Seminar, a 1-hour seminar experience, open to first-year students. Students and faculty will collaboratively explore a specialized topic in depth in this university-wide seminar sponsored by The Ingram Commons. General elective credit only. [1]

**PSY-PC 1115. First-Year Seminar.** [Formerly PSY-PC 1150] Topics of interest designed for first year students. Does not count in the writing requirement of the Liberal Education Core. [3]

**PSY-PC 1117. First Year Writing Seminar.** [Formerly PSY-PC 1157] Topics of interest for first year students. Courses are writing intensive and may be applied to the Peabody Liberal Education Core writing requirement. Repeatable with change of topic. [3]

**PSY-PC 1205. Minds, Brains, Contexts, and Cultures.** [Formerly PSY-PC 1200] An introduction to the cognitive studies major. Readings, lectures, and discussions are focused on thinking and understanding, especially as related to the brain, immediate context, and culture. These topics are considered from a variety of perspectives, including those taken from philosophy; literature; cognitive, social, and developmental psychology; sociology; psychiatry; and cultural anthropology. [3]

**PSY-PC 1207. Minds, Brains, Contexts, and Cultures.** [Formerly PSY-PC 1207] An introduction to the cognitive studies major. Readings, lectures, and discussions are focused on thinking and understanding, especially as related to the brain, immediate context, and culture. These topics are considered from a variety of perspectives, including those taken from philosophy; literature; cognitive, social, and developmental psychology; sociology; psychiatry; and cultural anthropology. May be applied toward the Peabody Liberal Education Core writing requirement. [3]

**PSY-PC 1250. Developmental Psychology.** [Formerly PSY-PC 1630] An overview of human development emphasizing the period from conception through adolescence. Course content includes research methods as well as in-depth coverage of selected topics in cognitive, social, emotional, and physical development. [3]

**PSY-PC 2110. Introduction to Statistical Analysis.** [Formerly PSY-PC 2101] Introductory course emphasizes selection, application, and interpretation of measures of relative frequency, location, dispersion, and association. Approaches to statistical inferences are emphasized. Prerequisite: proficiency in high school algebra. [3]

**PSY-PC 2120. Statistical Analysis.** [Formerly PSY-PC 2102] Second course in statistics for undergraduates. Multifactor analysis of variance designs (including repeated measures), and goodness of fit and contingency analyses. Prerequisite: PSY-PC 2110 or PSY 2100. [3]

**PSY-PC 2170. Experimental Research Methods in Child Development.** [Formerly PSY-PC 2510] Focuses on how experimental methods are used to understand processes of child development. Through readings, class discussion, writing, and research experiences, the class considers excellent examples of classic and contemporary experimental studies of child development. Prerequisite: PSY-PC 1205/1207 or 1250 or PSY 1200 and PSY 2100 or PSY-PC 2110. [3]

**PSY-PC 2200. Psychology of Thinking.** [Formerly PSY-PC 1600] An in-depth exploration of theories and basic research concerning how young adults (i.e., college students) think, reason, and solve problems. Major topics include memory, categorization, reasoning, decision making, problem solving, and expertise. Prerequisite: PSY-PC 1205/1207, or 2250 or PSY 1200. [3]

**PSY-PC 2230. Introduction to Educational Neuroscience.** Educational neuroscience (ed neuro) is an emerging scientific field that investigates how the brain enables learning. Ed neuro applies the methods of cognitive neuroscience to questions such as what are the brain systems that allow us to read and do math? How do those systems relate to general systems such as attention and memory? This course will provide an introduction to these topics and more, exploring the basics of how the brain is structured, to how we can use neuroimaging methods to understand the brain structures and processes that support learning. At the end of this course you will have a basic understanding of cognitive neuroscience methods and how they relate to educationally relevant cognitive domains. [3]

**PSY-PC 2250. Cognitive Aspects of Human Development.** [Formerly PSY-PC 1560] Introduction to research and theory in cognitive development. Emphasis on infancy and on early and middle childhood. Topics may include development of language, memory, sensation and perception, problem solving, concepts and theories, effects of media, sociocultural support for development, developmental disorders, and logical mathematical reasoning. Prerequisite: PSY-PC 1205/1207 or 1250 or PSY 1200. [3]

**PSY-PC 2300. Social and Emotional Context of Cognition.** [Formerly PSY-PC 1700] An exploration of such social factors as the individual’s values, beliefs, and emotions and their contributions to the basic cogni-
tive processes involved in social perception, complex decision making, and problem solving. Topics include the social construction of perceived reality, attitude formation and change, heuristics and biases in social inference, and the role of emotion in coping and problem solving. [3]

PSY-PC 2400. Social and Personality Development. [Formerly PSY-PC 1750] An overview of basic concepts and current research in social and personality development. Specific topics include research methods, development of self, social cognition, achievement motivation, prosocial behavior, moral development, aggression, gender role development, family and cultural influences. Prerequisite: PSY-PC 1205/1207 or 1250 or PSY 1200. [3]

PSY-PC 2500. Infancy. [Formerly PSY-PC 2250] The behavior and physiological development of infants reflect a complex interaction between evolutionary history and genetics, prenatal environmental influences, and early postnatal experience. An overview of each of these topics is provided through classroom discussions and reading assignments focusing on recent empirical studies and major theoretical issues. Prerequisite: PSY-PC 1250. [3]

PSY-PC 2550. Adolescent Development. [Formerly PSY-PC 2320] Examines theory, research, and other literature pertinent to the development and education of adolescents (ages 12-19). Specific topics include: cognitive and social development; issues in identity, intimacy, autonomy, and sexuality; family-adolescent relationships; peer relations; school achievement and organization; choices and decision making related to work. [3]

PSY-PC 2560. Theories of Developmental Psychology in Practice. We will study the grand theories of Developmental Psychology in-depth to provide a broad conceptual foundation for using Developmental Psychology in applied careers. Students will also gain familiarity with current Developmental Psychology concepts relevant to their intended professional practices. Through disciplined collaborative exchanges, students will learn about research advances and theoretical perspectives that are relevant to their fields, but not well known by practitioners. The term project assignments are designed to provide students the scholarly skills to not only keep up with current research in Developmental Psychology during their careers, but to seek out new domains of typical development research to learn from so that they can be leaders in their fields. For the final paper, students will write an original scholarly article to engage and inform practitioners. This closely supervised paper will provide students with individual practice using portable scholarly strategies to identify key developmental findings and communicate their importance to other practitioners. [3]

PSY-PC 2600. Educational Psychology. [Formerly PSY-PC 2310] Examines the applications of psychological theories and research to teaching and learning settings. Focuses on cognitive development, problem solving and critical thinking, learning theories, motivation, social contexts, individual differences, classroom issues, and evaluation issues. Prerequisite: PSY-PC 1205/1207 or 1250 or PSY 1200. [3]

PSY-PC 3140. Psychology of Language. This course covers the basics of the psychology of language, understanding the cognitive processes that underlie language production, language comprehension, and the use of language in society. Through understanding these processes, students will learn ways in which they can improve their own communication skills. [3]

PSY-PC 3150. Language Development. [Formerly PSY-PC 2000] An overview of language development with an emphasis on relevant research in linguistics, developmental psychology, and comparative psychology. Specific topics covered include research methods, speech perception, conversational competence, word learning, pragmatic development, and syntactic competence. The course is intended for students beyond the first year. [3]

PSY-PC 3200. Introduction to Clinical Psychology. [Formerly PSY-PC 2700] This course provides an overview of the science and practice of clinical psychology, with an emphasis on child and adolescent clinical psychology. Clinical research, psychological assessment, psychotherapy, and related issues will be discussed in class. Students examine the techniques used by clinical psychologists to assess and treat psychopathology, and research investigating the efficacy of these techniques. There is an emphasis on experiential learning in the class. Students will examine the science of clinical psychology by reviewing research from scientific journals on the effects of a specific type of psychotherapy for a specific psychological disorder. Previous courses in abnormal psychology and psychological research methods / statistics are highly recommended. [3]

PSY-PC 3210. Hospitalized Child. This course is designed for individuals who want to know more about the psychosocial needs of children, adolescents and families in health care settings and situations. Some of the specific topics covered in this course include: impact of illness and hospitalization on the family; social and developmental issues and how they interface with health care; normative development within the hospital; psychosocial roles of various health care team members; preparation of patients and families for health care experiences; utilizing play for therapeutic purposes; spirituality and its impact on the child and family’s health care experience; the child who is dying; pediatric palliative and hospice care; an introduction to the field of child life; and an introduction to the field of pediatric/family advanced practice nursing. [3]

PSY-PC 3650. Advanced Topical Seminar. [Formerly PSY-PC 2100] An advanced seminar intended for juniors and seniors in which a particular topic within cognitive studies is considered in depth. Topics vary. May be repeated for credit with change of topic. Prerequisite: PSY 1200 or PSY 1250 or PSY-PC 1205 or PSY-PC 1207 or PSY-PC 1250. This course is intended for students beyond the first year unless otherwise specified in the class schedule note. [3]

PSY-PC 3722. Psychometric Methods. [Formerly PSY-PC 2530] Covers the fundamental concepts of psychological measurement and testing, examines a sample of most important psychometric instruments in current use, provides observation of testing, and considers knowledge essential to making wise use of testing information in research and applied child development settings. Prerequisite: PSY-PC 1250 or 1205/1207 or PSY 1200 and PSY-PC 2110 or PSY 2100. [3]

PSY-PC 3724. Psychometrics. [Formerly PSY-PC 2540] The basic objectives of this course are for students to learn the fundamental concepts, methods, and principles of educational and psychological measurement. Particular attention will be devoted to reliability and validity issues underlying psychometric theory from original sources, and how psychometric theory relates to the assessment of individual differences or human psychological diversity more generally. Students should choose between PSY-PC 3722 and this course inasmuch as credit for both is not allowed. This course is more demanding in that students will be reading original sources; it is especially relevant to students seeking advanced training in the social sciences or research careers. Prerequisite: PSY-PC 2110 or PSY 2100 and PSY-PC 2120. [3]

PSY-PC 3727. Modern Robust Statistical Methods. [Formerly PSY-PC 2550] Covers modern statistical methods designed to handle violations of statistical assumptions that can compromise classic parametric procedures. More specifically, the student will learn about the classic assumptions of independence, normality, and equal variances that underlie many standard procedures, and become familiar with modern methods that perform vastly better than the classic procedures when assumptions are violated, yet offer few performance penalties under many realistic situations where assumptions are violated. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]

PSY-PC 3730. Applied Latent Class and Mixture Modeling. [Formerly PSY-PC 2560] Often social science and educational researchers hypothesize that there are unobserved groups or latent classes of persons who show different behavioral patterns, or different patterns of change over time. This course covers mixture models - a statistical approach for assessing the number and size of classes, as well as class homogeneity or heterogeneity. Longitudinal mixture models are also used to allow classes to transition between states at different rates and/or to have different functional forms of change. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]
PSY-PC 3732. Latent Growth Curve Modeling. [Formerly PSY-PC 2570] The analysis of longitudinal data (repeated measurements on the same people over time) is central for evaluating many theories in social science and educational research. This applied course will focus on one flexible and powerful approach for analyzing within individual change over time, and between individual differences in change: the latent growth curve model. Emphasis will be placed on applications to real data, interpretation of results, and attaining a solid understanding of the statistical model. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120 [3]

PSY-PC 3735. Correlation and Regression. [Formerly PSY-PC 2580] Covers modern correlation and regression techniques, including linear regression, multiple regression, polynomial regression, interaction effects, collinearity, diagnostic analysis, outlier detection, data transformation algorithms, handling of missing data, nonlinear regression, logistic regression, Poisson regression, variable selection procedures, and regression diagnostics and graphics. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]

PSY-PC 3738. Introduction to Item Response Theory. [Formerly PSY-PC 2590] Students are introduced to the basic concepts of educational measurement, classical test theory (CTT), and item response theory (IRT). These concepts will be taught with practice by illustrating the construction of tests. Prerequisite: PSY-PC 2110 or PSY 2100 and PSY-PC 3722. [3]

PSY-PC 3743. Factor Analysis. [Formerly PSY-PC 2600] This course covers primarily Exploratory Factor Analysis (EFA), which is extensively used in psychology, educational research, marketing, and management to investigate the underlying dimensionality of unobserved constructs (e.g., intelligence, psychopathology). The theory behind factor analysis is covered alongside hands-on application to data, exposure to uses of factor analysis in the applied literature, and instruction in popular EFA software. Key topics include model specification, fit and evaluation, rotation methods, questionnaire development, sample size and power issues, and extensions to confirmatory factor models. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]

PSY-PC 3746. Multivariate Statistics. [Formerly PSY-PC 2620] Provides an introduction to matrix algebra and a survey of the class parametric multivariate techniques that are the foundation of much of modern multivariate statistics. Emphasis is on techniques that have wide application in educational and social science research, such as exploratory factor analysis, structural equation modeling, conﬁrmatory factor analysis, discriminant analysis, canonical correlation, and multivariate analysis of variance. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]

PSY-PC 3749. Applied Nonparametric Statistics. [Formerly PSY-PC 2610] This course covers nonparametric statistical methods useful when the assumptions of ordinary parametric statistics are not met, and for developing custom statistical techniques useful when other methods do not exist. Coverage is given to distribution-free procedures, sign tests, contingency tables, median tests, chi-square and other goodness-of-fit tests, rank correlations, randomness tests, ordinal regression, Monte Carlo methods, resampling methods (bootstrap and jackknife), tests of independence, 1-sample, 2-sample, and k-sample methods, permutation tests, function smoothing, and splines. Emphasis is placed on underlying theory, application to data, and software. Prerequisite: PSY-PC 2110 or PSY 2100 (or equivalent), and PSY-PC 2120. [3]

PSY-PC 3850. Independent Study. [Formerly PSY-PC 2970] Development of an independent study project by the individual student under the direction of a faculty sponsor. Intended primarily for juniors and seniors. Consent of both the faculty sponsor and the director of undergraduate studies is required. May be repeated for credit. [1-3]

PSY-PC 3860. Directed Research. [Formerly PSY-PC 2980] Participation in an empirical research project under the direction of a faculty sponsor. Consent of both the faculty sponsor and the director of undergraduate studies is required. May be repeated for credit. [1-3]

PSY-PC 3870. Field Work in Psychology for Undergraduates. [Formerly PSY-PC 2820] Offered to provide field experience appropriate to the student’s interests. Open only to students majoring in child development, child studies, or cognitive studies. May be repeated. Consent of instructor required. [1-3]

PSY-PC 3890. Special Topics in Psychology. [Formerly PSY-PC 2690] Advanced exploration of a psychological orientation to current issues. May be repeated with change of topic. [1-4]

PSY-PC 3980. Honors Seminar. [Formerly PSY-PC 2990] Open only to junior-level students in the Psychology and Human Development Department Honors Program. [1-3]

PSY-PC 3981. Honors Seminar. [Formerly PSY-PC 2990] Open only to junior-level students in the Psychology and Human Development Department Honors Program. [1-3]

PSY-PC 4998. Honors Thesis. [Formerly PSY-PC 2990] Open only to senior-level students in the Psychology and Human Development Department Honors Program. [1-3]

PSY-PC 4999. Honors Thesis. [Formerly PSY-PC 2990] Open only to senior-level students in the Psychology and Human Development Department Honors Program. [1-3]

Special Education

SPED 1001. Commons Seminar. [Formerly SPED 1690] Commons Seminar, a 1-hour small seminar experience, open to first-year students. Students and faculty will collaboratively explore a specialized topic in depth in this university-wide seminar sponsored by The Ingram Commons. General elective credit only. [1]

SPED 1115. Freshman Seminar. [Formerly SPED 1150] Selected Topics for first-year students [3]

SPED 1175. Freshmen Seminar. [Formerly SPED 1000] Provides students with an overview of the undergraduate program in special education. Each year members from the special education and psychology department explore major issues and research projects. Students complete a 15-hour service project with individuals with disabilities in the community. [1]

SPED 1210. Introduction to Exceptionality. [Formerly SPED 1010] Examines issues and trends in special education and oversees the characteristics of persons with disabilities. Covers essential issues and topics relating to special education and the development of exceptional persons with special attention to normal and atypical human development. Multi-cultural, humanistic, and legal issues are addressed. [3]

SPED 2110. Introduction to Teaching Students with Disabilities. [Formerly SPED 2010] This course consists of two major components. The first component focuses on special education law, writing IEPs, developing lesson plans, effective teaching behaviors, progress monitoring, and methods for grouping students. The second component provides an overview of instructional models that have empirical support for their effectiveness in teaching students with disabilities. [3]

SPED 2160. Cultural Diversity in American Education. [Formerly SPED 2060] (Also listed as EDUC 2160) Focuses on cultural diversity and the ways in which it has been defined and treated in the American educational system. An interdisciplinary perspective informs the course, with particular attention to history, sociology, psychology, anthropology, and educational literature. [3]

SPED 2310. Managing Academic and Social Behavior. [Formerly SPED 2110] This course is designed to prepare students to manage classroom behavior using behavioral principles. Definition and measurement of behavior, reinforcement strategies, systematic program development, basic formats for classroom instruction, and techniques for monitoring student progress are presented. Emphasizes procedures for increasing academic and socially appropriate behavior through classroom activities. Students apply their skills in classroom settings. Prerequisite: SPED 1210. Corequisite: 1 hour of SPEDH 3871 or SPEDS 3871. [3]

SPED 3240. Attention Deficit/Hyperactivity Disorder: Educational Implications. [Formerly SPED 2140] This advanced undergraduate/
master’s-level course will first address the issues and controversies surrounding the definition, etiology, and identification of Attention Deficit/Hyperactivity Disorder (AD/HD). Potential relationships or related issues involving other child characteristics or difficulties, including child temperament, depression, bipolar disorder, Tourette’s Syndrome, and oppositional-defiant disorder, will be addressed. A major focus of the course will be working successfully with children with AD/HD in the school and classroom. A collaborative, multimodal model that involved parents, general and special education teachers, school psychologists, and other professionals as appropriate will be emphasized. Integration of multiple forms of intervention will be explored, including affective, behavioral, cognitive, social, and medical approaches; discovering what works for children with AD/HD is an ongoing process that requires experience, persistence, and collaboration. [3]

SPED 3332. High Poverty Youth: Improving Outcomes. [Formerly SPED 2080] (Also listed as HOD 2665) Youth from high poverty backgrounds often are placed at risk for a host of unfavorable outcomes including academic failure, school dropout, drug abuse, unemployment, and incarceration. In this class, we will be working with schools and community agencies in Nashville to improve outcomes for youth living in high-poverty neighborhoods. We will have class meetings weekly as well as ongoing field-based experiences. Field work will include mentoring, tutoring, or providing job readiness training to youth in neighborhood community centers or in students’ high schools. [3]

SPED 3770. Accommodating Academic Diversity in the Classroom. [Formerly SPED 2870] Explores the importance and difficulty of teaching heterogeneously grouped students in mainstream classrooms and offers specific instructional strategies for doing so effectively. Focuses explicitly and exclusively on methods to help classroom teachers instruct and manage the behavior of a broad range of students—students with and without disabilities at multiple points along the achievement continuum. [3]

SPED 3850. Independent Study in Special Education. [Formerly SPED 2960] Semi-independent study of selected topics in special education. May be repeated. Consent of instructor required. [1-3]

SPED 3890. Special Topics in Special Education. [Formerly SPED 2690] Study of selected topics or issues related to special education such as teaching culturally or linguistically diverse learners, accommodating academic diversity in classrooms, or augmentative communication techniques. May be repeated for credit with change in topic. [3]

SPED 3960. Honors Seminar in Special Education. [Formerly SPED 2990] This seminar is completed as part of the Honors Program in Special Education, which is designed to allow students experiences working with a faculty member on research activities. The course is taken during the junior year concurrent with engagement in research with a faculty mentor’s team for at least five hours per week. During weekly meetings, students will be introduced to various research methodologies, read and discuss articles and studies that use a variety of research designs, examine and share their roles on a faculty mentor’s team, and ultimately, complete and share an Honors Project at the end of the spring semester. Acceptance into the Honors Program and permission of the instructor are required. [0-1]

SPED 4950. Student Teaching Seminar. [Formerly SPED 2900] Students complete assignments and structured activities that demonstrate their ability to apply knowledge, skills, and dispositions acquired during the core courses and field-based experiences of the special education major. The weekly seminar discussion focuses on understanding situations and solving problems that naturally occur during the student teaching experience. Must co-register for either SPED 4954 or 4951 [3]

SPED 4951. Student Teaching in Special Education. [Formerly SPED 2911] Observation, participation, and classroom teaching for undergraduate students in any area of exceptionality. Placements are dependent on license areas. Prerequisite: Admission to student teaching. Corequisite: SPED 4950. [9]

SPED 4954. Student Teaching in Special Education and Education. [Formerly SPED 2901] (Also listed as EDUC 4954) Observation, participation, and classroom teaching for undergraduate students in any area of education combined with any area of exceptionality. Placements are dependent on license and endorsement areas. Prerequisites: Admission to student teaching. Corequisite: SPED 4950. [9]

Interventionist/High Incidence/Modified

SPEDH 3308. Understanding Students with Severe and Persistent Academic and Behavior Difficulties. [Formerly SPED 2800] This course has three main components. The first component will focus on the cognitive, perceptual, language, academic, and social/emotional characteristics and needs of students with severe and persistent academic and behavior difficulties. The second component will focus on special education law and developing IEPs. The final component will focus on developing lesson plans and general strategies for teaching students with severe and persistent academic and behavior difficulties. Prerequisite: SPED 1210. [3]

SPEDH 3318. Assessment for Students with Severe and Persistent Academic and Behavior Difficulties. [Formerly SPED 2810] This course focuses on the diagnosis and evaluation of students with severe and persistent academic and behavior difficulties using a variety of developmentally appropriate curriculum-based measurements, criterion-referenced, and norm-referenced tests in the academic and vocational subject areas. Emphasis is on the interpretation of information from assessments into Individualized Education Program annual goals and objectives and instructional programming strategies. Specific considerations are given to the reporting of assessment information to parents, teachers and other support personnel to determine appropriate placement levels within the continuum of services. Prerequisite: SPED 1210. Corequisite: 1 hour of SPED 3871. [3]

SPEDH 3328. Teaching Mathematics to Students with Severe and Persistent Academic and Behavior Difficulties: K-8. [Formerly SPED 2820] This methodological course consists of two components. The first focuses on the possible causes for disabilities in the area of mathematics and assessment of those disabilities. The second emphasizes explicit teaching procedures, direct instruction, and instructional design principles that apply to teaching mathematics in grades K-8. Prerequisite: SPED 1210 and 3308. [3]

SPEDH 3338. Teaching Reading to Students with Severe and Persistent Academic and Behavior Difficulties. [Formerly SPED 2830] Presents empirically validated instructional procedures to address the reading needs of students with severe and persistent academic and behavior difficulties. Integration of explicit teaching procedures, direct instruction, and instructional design principles that apply to a range of academic domains are emphasized. Proficiency in the development of assessment profiles, instructional lessons, monitoring of progress through curriculum-based measures and data-based decision making is required. Candidates apply skills in classroom settings. Prerequisite: SPED 1210 and 3308. Corequisite: 1 hour of SPED 3871. [3]

SPEDH 3348. Language and Learning. [Formerly SPED 2840] This course examines writing and language development, the written and language difficulties encountered by students with high incidence disabilities, assessment and instruction of writing and language difficulties, as well as cultural diversity and writing and language differences. [3]

SPEDH 3358. Advanced Reading Methods for Students with Severe and Persistent Academic and Behavior Difficulties. [Formerly SPED 2850] This course focuses on advanced methods of assessment and instruction methods related to teaching reading. Candidates in this course will gain competency in using formative assessments to identify students with severe and persistent reading difficulties, as well as expertise in and knowledge of teaching approaches and curricula for improving decoding, vocabulary, fluency, and comprehension abilities. Prerequisite: SPED 1210 and 3338. Corequisite: 1 hour of SPED 3871. [3]

SPEDH 3368. Teaching Middle School Students with Severe and Persistent Academic and Behavior Difficulties. This middle school course for teaching students with severe and persistent academic and behavior difficulties has two components. The first focuses on teaching English Language Arts across the curriculum at the middle school, including reading literature and informational text, language development, writing,
speaking, and listening. The second component focuses on skills needed for collaborating with other school personnel and preparing students to transition to high school. [3]

SPEDH 3378. Teaching High School Students with Severe and Persistent Academic and Behavior Difficulties. This is an introductory course in teaching students with severe and persistent academic and behavior problems at the high school setting. The first half of the course covers models of teaching special education at the secondary level, transition-related legislation, post-school outcomes of high school students with disabilities, and dropout prevention within a context of cultural diversity. The second half focuses on empirically-based secondary special education strategies, including academic/study skills and accommodations, social skills, self-determination, ITP development, and career education and employment. [3]

SPEDH 3388. Teaching Mathematics to Students with Severe and Persistent Academic and Behavior Difficulties 6-12. This mathematics methods course for teaching 6-12th grade students with severe and persistent academic and behavior difficulties consist of two major components. The first component focuses on the possible causes of math disabilities and assessment of math disabilities. The second component emphasizes instructional design principles, explicit teaching procedures, interventions, and mathematics pedagogy at the secondary level. [3]

SPEDH 3771. Practicum: Accommodating Academic Diversity in the Classroom. [Formerly SPED 2871] This practicum is designed to allow students to work with both special educators and general educators regarding the needs of students with disabilities. Emphasis is placed on accessing the general education curriculum. Corequisite: SPED 3770 or 3777. [5]

SPEDH 3777. School and Classroom Supports Teaching Students Academic Behavior Difficulties. [Formerly SPED 2877] This course focuses on practices to support teaching and learning of students with severe and persistent academic and behavior disabilities. Core topics include the following: 1) Effective classroom management to enhance appropriate behavior, prevent problem behavior, and support students at-risk for and with behavior difficulties; 2) Research, efficacy and models of co-teaching; 3) Collaboration with colleagues and families; 4) Technology use to support instruction and accessibility; and 5) Ethical professional behavior. [3]

SPEDH 3871. Field Work in Special Education for Mild/Moderate Disabilities. [Formerly SPED 2801] Field-based application of correlated course content to classroom strategies. Planning, implementation, and evaluating instructional procedures for students with mild to moderate disabilities. May be repeated. Prerequisite: SPED 1210 and SPED 2110. Fall semester corequisite: SPED 2310, SPEDH 3338 and 3348. Spring semester corequisite: SPEDH 3318, 3328, and 3368. [3]

Severe/Comprehensive

SPEDS 2120. Family Intervention. [Formerly SPED 2020] An overview of different approaches, current issues, and problems involved in working with and supporting families. Emphasis is placed on how a child with disabilities affects and is affected by parents, siblings, the extended family, and the community. Strategies for effective communication for the purpose of information sharing and collaborative planning with families are provided. [3]

SPEDS 2430. Introduction to Language and Communication. [Formerly SPED 2030] Overview of normal language development, psycholinguistic terminology and research, speech and language disorders and their remediation, and specific intervention procedures for the development of speech and language skills in children and youth. [3]

SPEDS 2450. Augmentative and Alternative Communication. [Formerly SPED 2050] This course is designed to provide an overview of the field of augmentative and alternative communication (AAC) for use with young children and school-age children with severe disabilities. Specifically, the course will provide an overview of the theories that are important to the understanding of appropriate uses of AAC systems, and the course will provide information about the efficacy of these systems with students with severe disabilities. Topics will include guidelines for selecting, implementing, using, and monitoring the use of AAC systems. [3]

SPEDS 3300. Methods of Instruction for Students with Severe and Multiple Disabilities. [Formerly SPED 2300] Provides information on the nature and needs of individuals with severe disabilities and the roles of federal, state, and local agencies in providing services to this population. Emphasis is placed on strategies for the acquisition and generalized use of age-appropriate functional skills in natural community-based settings. Methods for developing and implementing individualized programming across specialized curricular areas such as communicative, cognitive, functional academic, motor, domestic living/self-help, recreation/leisure, vocational and general community living skills. Must co-register for SPEDS 3871. [3]

SPEDS 3312. Procedures in Transition to Adult Life. [Formerly SPED 2340] (Also listed as HODC 3312) Overview of history, legislation, and practice in the areas of community and employment integration for persons with disabilities. Emphasis on various strategies for promoting a successful transition from school to life. Students are required to develop instructional plans for integration within the community. Students will apply their skills in community or classroom settings. Prerequisite: SPED 2310. Corequisite: SPEDS 3871. [3]

SPEDS 3330. Characteristics of Students with Severe and Multiple Disabilities. [Formerly SPED 2330] This course provides information on the history, nature, characteristics, and needs of students with exceptionalities. Neurological impairments resulting in motor dysfunction, sensory impairments, and the combination of these are discussed. Information is provided on the physical, medical, and educational management of students with severe, profound, and multiple disabilities in educational settings. Corequisite: SPEDS 3871. [3]

SPEDS 3350. Access to General Education and Teaching Functional Academics. [Formerly SPED 2350] This course provides in-depth information on teaching students with severe disabilities. Emphasis is on strategies for the acquisition and generalized use of age-appropriate functional skills in natural school and community-based settings. Methods for developing and implementing individualized programming across specialized curricular areas such as communicative, cognitive, functional academic, motor, domestic living/self-help, recreation/leisure, and general community living skills. Current research evidence to support effective practices is stressed. [3]

SPEDS 3661. Fieldwork in Special Education: Severe Disabilities. Students will participate in fieldwork in special education, specifically in classrooms for students with severe exceptionalities and/or autism. Students will complete activities tied to a fieldwork in special education seminar. This course may be repeated. Corequisite: SPEDS 3667. Prerequisite SPED 3871 both fall and spring. [2]

SPEDS 3667. Seminar in Severe Disabilities Fieldwork. Seminar for undergraduate students related to their field-work in local classrooms with severe disabilities and/or autism. Students will complete various assignments and implement them in a classroom setting. This course may be used to satisfy the Peabody College writing requirement. Prerequisite: SPED 1210, 2120, 2450, SPEDS 3300, 3330, 3312, 3350. Corequisite: SPEDS 3661. [3]

Visual Impairment

SPEDV 3305. Medical and Educational Implications of Visual Impairments. [Formerly SPED 2500] Assessment of sensory function, including integration of information from medical rehabilitation vision care specialists, as basis for planning, implementing, and monitoring
intervention/education for learners with visual impairments. Emphasis is on specific visual disorders, functional use of senses, assistive technology for enhancing visual function (i.e., optical and non-optical devices), and family/child characteristics. Linking structure/function of the visual system to most prevalent visual conditions, identifying implications of conditions for development and learning, and identifying appropriate accommodations for optimizing visual function. Roles of teacher of students with visual impairments; medical, educational, and rehabilitation professionals; families; and other team members in optimizing outcomes for students with visual impairments. Content provided through lectures, demonstrations, observations, laboratory dissections, and integrated fieldwork. [3]

SPEDV 3315. Educational Procedures for Students with Visual Impairments. [Formerly SPED 2510] Introduction to the literature, history, principles, programs, practices, and problems in the field of visual impairment/blindness. Role of teacher of students with visual impairments in providing access to the general core curriculum, providing instruction in the expanded core curriculum for students with visual impairments, and introduction to assistive technology. Using assessment and data driven decision making to guide intervention planning, implementation, and progress monitoring. Course content provided through lectures, demonstrations, observations, and integrated fieldwork. [3]

SPEDV 3335. Braille Reading and Writing. [Formerly SPED 2530] Literary braille code and introduction to Nemeth code for mathematics. Braille writing and reading proficiency for future teachers of students with visual impairments. Introduction to strategies for infusing braille into literacy instruction and technology for producing and accessing braille. Students read, write, and proofread braille and observe teachers as they teach braille to students with visual impairments. [2]

SPEDV 3345. Communication and Literacy Skills for Students with Visual Impairments. [Formerly SPED 2540] Promoting/teaching communication and literacy skills, including use of assistive technology for communication and literacy (augmentative communication devices, computer-assisted instruction, keyboarding skills, non-optical devices for enhancing reading and writing, etc.) for students with visual impairments, including those with multiple disabilities. Special emphasis on learning media assessments; assessment of communication and literacy skills for intervention planning, implementation, and program monitoring; accessibility and production of appropriate learning media. Open only to individuals who have completed or are currently enrolled in a braille class. Course content provided through lectures, demonstrations, observations, and integrated fieldwork. Consent of instructor required. [3]

SPEDV 3355. Orientation and Mobility for Teachers of Students with Visual Impairments. [Formerly SPED 2550] Lectures, discussions, and simulated activities in teaching orientation, mobility concepts and skills to students with visual impairments. Impact of visual impairment on motor and cognitive development and strategies for promoting optimal development and learning, sensory use, and independent travel, including assistive technology. Taught by an orientation and mobility specialist. Course content provided through lectures, demonstrations, observations, and integrated fieldwork. [3]

SPEDV 3385. Advanced Procedures for Students with Visual Impairments. [Formerly SPED 2580] Advanced strategies for providing access to the general core curriculum and providing instruction in the expanded core curriculum for students with visual impairments, early intervention and family-centered practices, with particular emphasis on assistive technology and universal design for learning. Course content provided through lectures, demonstrations, observations, and integrated fieldwork. Prerequisite: SPEDV 3315. [3]

Teaching and Learning

Education

EDUC 1001. Commons Seminar. [Formerly EDUC 1690] Commons Seminar, a 1-hour small seminar experience, open to first-year students. Students and faculty will collaboratively explore a specialized topic in depth in this university-wide seminar sponsored by The Ingram Commons. General elective credit only. [1]

EDUC 1220. Society, the School, and the Teacher. [Formerly EDUC 1020] Introduces the relationship between society’s goals and those of the school. Studies the community setting and the school, the social, political, and instructional organization of a school, and the roles and values of a teacher. Field experience. [3]

EDUC 2160. Cultural Diversity in American Education. [Formerly EDUC 2060] (Also listed as SPED 2060) Focuses on cultural diversity and the ways in which it has been defined and treated in the American educational system. An interdisciplinary perspective informs the course, with particular attention to history, sociology, psychology, anthropology, and educational literatures. [3]

EDUC 3114. Language and Literacy Learning in Young Children. [Formerly EDUC 2115] Examines sociocultural and cognitive theories of language learning, theoretical models of the reading and writing processes, and interconnections between reading, writing, speaking, and listening. Emphasizes patterns of reading and writing for children from birth to age 8 and relates these to features of learning environments. Observation and assessment strategies are introduced through an embedded field experience of six hours which requires working with preschool-age child in a school setting. [3]

EDUC 3115. Methods of Language and Literacy Instruction in Early Childhood. [Formerly EDUC 2117] This course introduces methods for structuring classrooms to teach and assess reading, writing, speaking, and listening as part of an integrated language arts program for children from birth through grade 4, with special emphasis on children from birth to age 8. Corequisite: EDUC 3116 [3]

EDUC 3116. Practicum in Teaching Early Childhood Reading and Language Arts. [Formerly EDUC 2116] Field experiences in a variety of early childhood centers or classroom settings designed to provide practical experience and reflection on the teaching of reading and the language arts. Corequisite: EDUC 3115. [1]

EDUC 3120. Children in Families and Schools. [Formerly EDUC 2120] Examines the cultural, social-political, historical, and collaborative influences of families and educational institutions on children’s development and learning. Emphasis on understanding family-school connections and developing partnerships to foster maximum growth of children. [3]

EDUC 3140. Learning and Development in Early Childhood Education. [Formerly EDUC 2140] Applying an understanding of learning and development, students examine a variety of early childhood curriculum models based upon their assumptions about learning and development. Students consider how the role of the classroom teacher and the establishment of classroom norms are shaped by each curricular model. An imbedded 20-hour practicum enables students to see different curricular models and to interact with preschool children. [3]

EDUC 3150. Science and Social Studies Instruction in Early Grades. [Formerly EDUC 2150] This course is designed to prepare prospective early childhood teachers to provide instruction in science, and social studies. The course builds on the core content course in science and social studies in the early childhood program as well as the curriculum courses for ages 0-3 and age 3-kindergarten. Prerequisite: SSED 2100; Corequisite: MTED 3150 and EDUC 3151. [3]

EDUC 3151. Practicum in Mathematics, Science, and Social Studies Instruction in Early Grades. [Formerly EDUC 2151] Field experiences in an early grades classroom are designed to provide practical experience and reflection on the teaching of mathematics, science, and social studies. Corequisite: EDUC 3150 and MTED 3150. [1]
EDUC 3180. Managing Instructional Settings for Young Children. [Formerly EDUC 2180] The purpose of this course is to introduce students to the social and emotional characteristics of young children that affect the ways they function in groups, and to acquaint students with planning and management philosophies and a variety of practices to use in guiding the behaviors of young children, from infancy through age 8. [2]

EDUC 3212. Introduction to Reading Processes and Assessment. [Formerly EDUC 2430/2212] Develops an understanding of reading and of elementary students as readers. Examines theoretical models, approaches, and the development of reading in elementary classrooms. Candidates will investigate how children learn to read, explore assessments that reveal student understanding of reading, and apply this knowledge in scaffolding reading with individual students. Provides informal assessment and teaching experiences within a school setting. [3]

EDUC 3214. Theory and Methods of Reading Instruction in Elementary Schools. [Formerly EDUC 2215] Examines approaches, strategies, and methods for teaching reading in elementary classrooms with attention paid to philosophies and principles of instructional practice designed to individualize instruction and support literacy development. Discusses underlying concepts and theories pertaining to literacy instruction and relates these to classroom practice. Although grounded in the philosophy that reading and writing are not discrete entities, the course focuses on reading. Prerequisite: EDUC 3212; Corequisite: EDUC 3215 and EDUC 3216. [3]

EDUC 3215. Language Arts in Elementary Schools. [Formerly EDUC 2217] Examines the nature of language development in the elementary school years with attention paid to principles and practices for teaching English language arts, particularly related to writing instruction. Consideration of instructional practices designed to individualize instruction and support literacy development will occur. Prerequisite: EDUC 3212; Corequisite: EDUC 3214 and EDUC 3216. [3]

EDUC 3216. Practicum in Teaching Elementary Reading and Language Arts. [Formerly EDUC 2216] Field experiences in a variety of elementary classroom settings designed to provide practical experience and reflection on the teaching of reading and the language arts. Prerequisite: EDUC 3212; Corequisite: EDUC 3214 and EDUC 3215. [1]

EDUC 3240. Practicum in Elementary Science and Social Studies. [Formerly EDUC 2210/2240] Field experiences in a variety of school, grade level, and instructional settings, designed to integrate and apply teaching skills developed in the elementary science and social studies methods courses. Corequisite: SCED 3240 and SSED 3240. [1]

EDUC 3270. Managing Instructional Settings. [Formerly EDUC 2270] Examines several planning and management philosophies and a variety of practices for use with early childhood and/or elementary school students. [2]

EDUC 3310. Classroom Ecology. [Formerly EDUC 2310] This course explores how teachers make design choices for an environment that creates optimal conditions for student learning. Design elements include social and cultural contexts of learning, social/emotional learning, motivations for learning, and appropriate assessments. This is an introductory general methods class. Students will take specific methods classes in their area of teaching. [3]

EDUC 3620. Social and Philosophical Aspects of Education. [Formerly EDUC 2920] Exploration of the interaction between contemporary social problems and various philosophies in relation to educational theory, policy, and practice. [3]

EDUC 3720. Principles for Teaching English Language Learner Students. [Formerly EDUC 2520] This course, specifically designed for non-ELL majors, provides an overview of theoretically and empirically supported practices concerning the education of English language learners (ELLs) in grades PreK-12. Topics include: the role of second language acquisition in academic achievement, instructional strategies for developing English listening, speaking, reading and writing while accessing the core curriculum, appropriate assessment of ELLs in the classroom, the importance of ELLs' home language and culture, and ESL research and history relating to policies and programs affecting ELLs. Consideration of how to attain more equitable outcomes for ELLs through schooling is a major focus of this course. [3]

EDUC 3730. English Language Learner Educational Foundations. [Formerly EDUC 2530] This course focuses on understanding the processes of second language acquisition, learning, development, and individual, cognitive, and social factors that influence second language learning in North America (particularly in the United States). In addition, it examines the theoretical, historical, political, legal, and research bases for the education of students from linguistically and culturally diverse populations. Program models and the theoretical bases for these models are covered in this course. National policies and current issues relevant to the learning of English language learners are emphasized. Corequisite: 1 hour of EDUC 3731 [3]

EDUC 3731. Practicum for Teaching English Language Learners I. [Formerly EDUC 2571] A field-based practicum working with students who are English language learners. Experience will include use of students' native languages and/or ESL instructional components. Corequisite: EDUC 3730. [1]

EDUC 3740. Language Learner Methods and Materials. [Formerly EDUC 2540] This course focuses on bilingual (native language and ESL) curriculum development and instruction for students (preK-12) in a variety of language and program settings. Second-language instructional theory and practice, materials selection and development for LEP children, and bilingual and ESL literacy and content area instruction (mathematics, science, social studies, and English education) are covered. Frameworks for evaluating curriculum materials and their instructional recommendations for ELL students are provided. Corequisite: 1 hour of EDUC 3742. [3]

EDUC 3742. Practicum for Teaching English Language Learners II. [Formerly EDUC 2572] A field-based practicum working with students who are English language learners. Experience will include use of students' native languages and/or ESL instructional components. Corequisite: EDUC 3740. [1]

EDUC 3750. Linguistics and Language Acquisition for English Language Learner Teachers. [Formerly EDUC 2550] This course focuses on the applying of theories of linguistics and second language acquisition to the teaching of English language learners. Topics covered include the structure of the English language, English as a system, language acquisition and development, language variation, and theories of second language acquisition. [3]

EDUC 3760. Assessment of English Language Learners. [Formerly EDUC 2560] This course focuses on the theoretical and practical aspects of language testing for second-language learners. Instruments used by educators to assess the language proficiency and academic achievement of linguistically diverse students are presented and demonstrated. The course examines the purposes and types of language tests in relation to theories of language use and language teaching goals; discusses testing practices and procedures related to language teaching and language research; and includes the planning, writing, and administration of tests, basic descriptive statistics, and test analysis. Rubrics for relating assessment information to instruction and program planning are developed within this course. Corequisite: 1 hour of EDUC 3763 [3]

EDUC 3763. Practicum for Teaching English Language Learners III. [Formerly EDUC 2573] A field-based practicum working with students who are English language learners. Experience will include use of students' native languages and/or ESL instructional components. Corequisite: EDUC 3760. [13]

EDUC 3850. Independent Study in Education. [Formerly EDUC 2960] Semi-independent study on selected topics in education. Consent of instructor required. May be repeated. [1-3]

EDUC 3860. Honors Research in Education. [Formerly EDUC 2980] Individual programs of reading on the conduct of research studies in education. May be repeated. Consent of instructor required. [1-3]

EDUC 3861. Initial Fieldwork in Educational Studies. Field-based application of Education Studies course work, providing students an opportunity to integrate and apply theory and practice to learning in
out-of-school settings. Students are placed in culturally diverse education settings and are given opportunities to engage in practitioner observations, learning design and implementation, and guided reflective practice. [3]

EDUC 3862. Advanced Fieldwork in Educational Studies. A advanced experience for education studies course work, providing students an opportunity to develop independent experience in out-of-school settings and to apply at an advanced level theory and practice to learning in out-of-school settings. Students are placed in culturally diverse education settings and are given opportunities to engage in practitioner observations, learning design and implementation, and guided reflective practice. [3]

EDUC 3871. Practicum in Secondary Education I. (Formerly edu C 2340) Field experience in middle and secondary school settings, designed for secondary education majors in their sophomore year. Corequisite: Psy -PC 2550 [1]

EDUC 3872. Practicum in Secondary Education II. (Formerly edu C 2350) Field experience in middle and secondary school settings, designed for secondary education majors in their junior year. [1]

EDUC 3890. Special Topics in Education. (Formerly edu C 2690) Exploration of special issues on topics related to education. May be repeated for credit with change of topic. [1-3]

EDUC 4950. Capstone Fieldwork in Educational Studies. Capstone experience for education studies course work, providing students an opportunity to develop independent experience in out-of-school settings and to apply at an advanced level theory and practice to learning in out-of-school settings. Students are placed in culturally diverse education settings and are given opportunities to engage in practitioner observations, learning design and implementation, and guided reflective practice. Capstone experiences should include opportunities for students to develop, direct or implement learning opportunities with increasing independence from field partners. [6]

EDUC 4951. Student Teaching in Early Childhood. (Formerly edu C 2702) Observation and teaching experience for students seeking PreK-3 licensure. Undergraduate credit only. Prerequisite: admission to student teaching. [9]

EDUC 4952. Student Teaching in the Elementary School. (Formerly edu C 2701) Observation and teaching experience in elementary schools. Undergraduate credit only. Prerequisite: admission to student teaching. [9]

EDUC 4953. Student Teaching in the Secondary School. (Formerly edu C 2703) Observation and teaching experience in secondary schools. Undergraduate credit only. Prerequisite: admission to student teaching. [9]

EDUC 4954. Student Teaching in Education and Special Education. (Formerly edu C 2704) (also listed as sPed 4954) Observation, participation, and classroom teaching for undergraduate students in any area of education combined with any area of exceptionality. Placements are dependent on license and endorsement areas. Prerequisite: admission to student teaching. [9]

EDUC 4961. Student Teaching Seminar: Early Childhood. (Formerly edu C 2291) Seminar to accompany edu C 4951. A $300.00 per teacher Performance assessment fee is associated with this course. [3]

EDUC 4962. Student Teaching Seminar: Elementary. (Formerly edu C 2290) Seminar to accompany edu C 4962. A $300.00 per teacher Performance assessment fee is associated with this course. [3]

English Education

ENED 2100. Literature and Drama for Young Children. [Formerly ened 2100] Explores characteristics of good literature (with a particular focus on picture books and poetry) for children ages birth to ten, authors and illustrators of the genre, and issues in the area of literature for young children. Also explored is the study of drama as it impacts the development of young children. [3]

ENED 2200. Exploring Literature for Children. [Formerly ened 2200] Explores characteristics of good literature for children ages birth to 12, authors and illustrators of the genre, and issues in the area of children's literature. [3]

ENED 2300. Pedagogy Seminar. This pedagogy seminar accompanies a core course in the College of Arts and Science and examines the process of teaching and learning of that course content. Students enrolled in the core course lecture may elect to participate in this accompanying one credit pedagogy seminar. This optional seminar will be team-taught by the core course instructor and an education faculty member. [1]

ENED 2430. Fostering Language in Diverse Classrooms. (Formerly ened 2030) Overview of language learning, emphasizing ages 3-8 and the role of teachers and parents in fostering growth. Variability associated with culture, income, home language and individual child characteristics is examined from developmental and sociolinguistic perspectives. Students examine language use and teaching as part of an 8 hour practicum in an early childhood classroom. [3]

ENED 3310. Language Study in the Secondary Classroom. (Formerly ened 2280) Investigates various methods of approaching grammar, vocabulary spelling, semantics, and bi-dialectism in the English classroom. For teachers and prospective teachers of middle school and high school English. [3]

ENED 3340. Reading and Learning with Print and New Media. (Formerly ened 2320) Studies print and technology-based approaches to improving reading and content area learning in grades 6-12 with a special emphasis on diverse learners and struggling readers. Drawing on research-based practice, students learn to design, enact, and assess effective reading and literacy instruction. [3]

ENED 3350. Literature, Popular Culture, and New Media. (Formerly ened 2920) Examines a wide range of multigenre, multimodal, and digital texts appropriate for readers of middle school and high school age. Considers the influence of popular culture and digital technologies on young adult literature. Includes materials and texts for readers of various ability levels. [3]

ENED 3357. Literature, Pop Culture, and New Media. Considers the influence of popular culture and digital technologies on young adult literature and the ways in which societal critique, role of the media, and negotiating identity categories play out in those texts. Examines a wide range of multigenre, multimodal, and digital fiction focused on various themes such as real and imagined Worlds: Gaming and technology in texts, vampires, Zombies, Werewolves and Monsters: imagining the Other, and Who am I? Race, Class, Gender, and sexual identity in literature. [3]

ENED 3370. Teaching Literature and New Media in the Secondary School. (Formerly ened 2370) Students study how pedagogy might be developed that connects traditional literature instruction with media popular cultural media. Methods and theories for reading and teaching short stories, poems, and novels are juxtaposed and interwoven with methods and theories for reading and teaching web sites, comics, film, and other media. Prerequisite: edu C 3310 or consent of instructor. Corequisite: ened 3371. [3]

ENED 3380. Teaching Writing in Secondary Schools. (Formerly ened 2380) Designed to encourage student teachers to examine the complexities of teaching writing in middle and high school settings and to develop a theoretically sound methodology that will allow them to design meaningful, engaging, and thoughtful writing instruction. [3]

ENED 3400. Harry Potter and Children's Literature. Students will examine British literature related to J.K. Rowling’s novels. Students will be asked to relate what they learn from other children’s literature to the characters, plot, and themes of the Harry Potter novels as well as the opportunity to perform a variety of critical analyses of a social/cultural phenomena with progressive young adult literature. Additionally, students will explore the film versions of all novels discussed to analyze and critique the adaptations. This is a weekend course that includes
week-long travel to the United Kingdom where students will engage in the stories in an experiential journey of local u.k. sites, studios, and museums. [3]

ENED 3410. Literature of Social Transformation. Historical events, issues, and movements are often explored in literature for children and adolescents. the literature helps make history come alive. the class will focus on stories relating to the civil rights movement that led to social transformation in the united states. in this weekend course, students will explore books written for children/young adults, discuss specific episodes of the Movement where youth had great impact, and visit libraries, museums, and related sites. [3]

ENED 3850. Independent Study in English Education. [formerly ened 2960] semi-independent study on selected topics in English education. Consent of supervising instructor required. May be repeated. [1-3]

ENED 3890. Special Topics in English Education. [formerly ened 2690] exploration of special topics related to English education. May be repeated with change of topic. [3]

ENED 4963. Student Teaching Seminar: Secondary. [formerly ened 2292] seminar to accompany edu c 4953. a $300.00 t eac her performance assessment fee is associated with this course. [3]

Foreign Language Education
FLED 3850. Independent Study in Foreign Language Education. [formerly fled 2960] semi-independent study on selected topics in foreign language education. May be repeated. Consent of instructor required. [1-3]

FLED 3890. Special Topics in Foreign Language Education. [formerly fled 2690] exploration of special issues or topics related to foreign language education. May be repeated for credit with change of topic. [1-3]

Humanities Education
HMED 2150. Arts Education for Young Children. [formerly hmed 2150] this course is designed to acquaint the early childhood teacher with concepts, techniques, and materials for creating opportunities for young children to learn about the visual arts and music. strategies for incorporating art activities into group settings will be explored, as well as accommodating individual differences in young children’s interest in and responsiveness to the arts. [2]

HMED 2250. Introduction to Arts Education. [formerly hmed 2250] acquaints the student with the philosophical and pedagogical base with which to develop competence in teaching the arts. [2]

HMED 3850. Independent Study in Humanities Education. [formerly hmed 2960] semi-independent study on selected topics in humanities education. May be repeated. Consent of faculty supervisor required. [1-3]

HMED 3890. Special Topics in Humanities Education. [formerly hmed 2690] explores special topics related to humanities education. May be repeated with change of topic. [1-3]

Mathematics Education
MTED 2100. Young Children’s Mathematical Thinking and Learning. [formerly mted 2100] the focus of the course is on ways in which young children develop increasingly sophisticated additive structures, including pre-number and early number concepts, place value, strategies for single- and double-digit computation, and measurement. Children’s mathematical thinking and learning as well as ways to support that learning are investigated. the course is prerequisite to or corequisite with edu c 3150. the course is not recommended for freshmen. [3]

MTED 2200. Mathematics for Elementary Teachers. [formerly mted 2200] this course is the first of a sequence designed for those students seeking elementary licensure with an emphasis on grades prek-3. the course deals with issues of both content and pedagogy that are relevant to these grades. the course is prerequisite to mted 3250 and may be taken concurrent with mted 3251. [3]

MTED 2300. Pedagogy Seminar. this pedagogy seminar accompanies a core course in the College of arts and science and examines the process of teaching and learning of that course content. students enrolled in the core course lecture may elect to participate in this accompanying one credit pedagogy seminar. this optional seminar will be team-taught by the core course instructor and an education faculty member. [1]

MTED 3150. Mathematics Instruction in the Early Grades. [formerly mted 2150] this course is designed to prepare prospective early childhood teachers to provide instruction in mathematics. the course builds on the core content course in mathematics in the early childhood program as well as the curriculum courses for ages 0-3 and age 3-kindergarten. Prerequisite: mted 2100; Corequisite: edu c 3150 and edu c 3151. [2]

MTED 3250. Teaching Mathematics in Elementary Schools. [formerly mted 2250] this course is the second in a sequence of courses designed for those students seeking elementary licensure with an emphasis on grades 2-5. the course deals with issues of both content and pedagogy that are relevant to these grades. the course may be taken concurrent with mted 3251. Prerequisite: mted 2200. [2]

MTED 3251. Practicum in Elementary Mathematics. [formerly edu c 2250/mted 2251] field experiences providing students an opportunity to integrate and apply teaching skills developed in the elementary mathematics course. students are placed in a local elementary school classroom and are given opportunities to engage in classroom observations, curriculum planning and implementation, and guided reflective practice. Corequisite: mted 2200 or mted 3250. May be taken only once. [1]

MTED 3320. Introduction to Literacies in Mathematics. [formerly mted 2690] this course is intended for licensure candidates in secondary education for mathematics and for other students who want to explore the concepts and practices of disciplinary literacy that is the links between content and communication. [3]

MTED 3360. Computers, Teaching, and Mathematical Visualization. [formerly mted 2800] examining the 7-14 mathematics curriculum as a body of ideas that students can develop over time and the use of computer environments to support teaching and learning them. [3]

MTED 3850. Independent Study in Mathematics Education. [formerly mted 2960] semi-independent study on selected topics in mathematics education. May be repeated. Consent of supervising instructor. [1-3]

MTED 3890. Special Topics in Mathematics Education. [formerly mted 2690] exploration of special topics related to mathematics education. May be repeated with change of topic. [1-3]

Science Education
SCED 2200. Science for Elementary Teachers. [formerly sced 2200] this course is designed to examine the relationship between science, technology, and society. emphasis will be on relating science concepts to real world applications, to societal influences and the changing nature of science. the role of inquiry in science will be examined and experienced. a knowledge of introductory earth, biological, and physical science is presumed and will be utilized to present a view of science as an integrated discipline. [3]
SCED 2330. Pedagogy Seminar. This pedagogy seminar accompanies a core course in the College of Arts and Science and examines the process of teaching and learning of that course content. Students enrolled in the core course lecture may elect to participate in this accompanying one credit pedagogy seminar. This optional seminar will be team-taught by the core course instructor and an education faculty member. [1]

SCED 3320. Introduction to Literacies in Science. [Formerly SCED 2690] This course is intended for licensure candidates in secondary science education and for other students who want to explore the concepts and practices of disciplinary literacy, that is, the links between content and communication. [3]

SCED 3400. Modeling in the Secondary Science Classroom. This course is intended for licensure candidates in secondary science education and for other students who want to explore modeling in the secondary science classroom. [3]

SCED 3850. Independent Study in Science Education. [Formerly SCED 2960] Semi-independent study on selected topics in science education. May be repeated. Consent of supervising instructor required. [1-3]

SCED 3890. Special Topics in Science Education. [Formerly SCED 2690] Exploration of a special topic related to science education. May be repeated with change of topic. [1-3]

SSED 4963. Student Teaching Seminar: Secondary. [Formerly SCED 2292] Seminar to accompany EDUC 4953. A $300.00 Teacher Performance Assessment fee is associated with this course. [3]

Peabody Honor Scholars

PSCH 1110. Peabody Honors Seminar I. Spring seminar for selected Peabody students. [3]

PSCH 1115. Peabody and Patterson Scholars Seminar. Seminar for First-year Peabody and Patterson Scholars. Topics will vary. [3]

PSCH 2110. Patterson Scholarship Seminar II. Seminar for Patterson Scholars in the second year of study. Topics will vary. [0-1]

PSCH 2115. Peabody Scholars Seminar II. Seminar for Peabody Scholars in the second year of study. Topics vary. [0-3]

PSCH 3110. Patterson Scholars Seminar III. Seminar for Patterson Scholars in the third year of study. Topics vary. [0-1]

PSCH 4965. Peabody Scholars Capstone Seminar I. Capstone seminar for Peabody Scholars to be taken fall semester of the senior year. [0-3]

PSCH 4966. Peabody Scholars Capstone Seminar II. Capstone seminar for Peabody Scholars to be taken spring semester of the senior year. [0-3]

Faculty

KYLE OWEN ALEXANDER, Adjunct Instructor in Education
B.S., M.Ed. (Vanderbilt 1998, 1999) [2015]

KAREN E. BACIGALUPO, Adjunct Assistant Professor of Education
B.A. (Lipscomb 1999); M.A. (Tennessee State 2005); Ph.D. (Lipscomb 2014) [2015]

RYAN BALCH, Adjunct Assistant Professor of Policy and Education; Adjunct Assistant Professor of Psychology
Ph.D. (Vanderbilt 12); B.A. (Duke 2001); M.S.Ed. (Georgia State 2004) [2014]

SANJANA BALLAL-LINK, Adjunct Instructor in Human and Organizational Development
M.Ed. (Vanderbilt 2012) [2016]

ROBERT DALE BALLOU, Associate Professor of Leadership, Policy, and Organizations
B.A. (Stanford 1972); Ph.D. (Yale 1989) [2002]

MARK BANDAS, Associate Provost; Dean of Students; Assistant Professor of the Practice of Education
B.A. (Connecticut College 1975); Ph.D. (Vanderbilt 1985) [1994]

MOLLY A. BARNARD, Adjunct Instructor in Human and Organizational Development
A.M. (Tennessee State 2006) [2017]

SANDRA BARNES, Professor of Sociology of Religion; Professor of Human and Organizational Development
B.A. (Fisk 1986); M.S. (Georgia Institute of Technology 1989); M.S. (Interdenominational Theological Center 1995); Ph.D. (Georgia State 1999) [2008]

ERIN ELIZABETH BARTON, Assistant Professor of Special Education
B.S. (Illinois 1999); M.Ed. (DePaul 2002); Ph.D. (Vanderbilt 2007) [2013]

JEROLD P. BAUCH, Professor of Education, Emeritus

KATHARINE H. BAUM, Adjunct Instructor in Education
B.A. (Vanderbilt 1974); M.A. (Peabody 1975) [2011]

STEVEN R. BAUM, Lecturer in Education
B.A. (Vanderbilt 1973); M.A. (Peabody 1975); Ph.D. (Vanderbilt 1989) [2006]

KAREN BELOTE, Adjunct Instructor in Special Education
B.S. (Tennessee 1977); M.Ed. (Vanderbilt 1993) [2013]

CAMILLA PERRSON BENBOW, Patricia and Rodes Hart Dean of Education and Human Development; Professor of Psychology

ALLISON BENDER, Assistant Professor of the Practice of Psychology and Human Development

KIMBERLY D. BESS, Assistant Professor of Human and Organizational Development
B.A. (California, Berkeley 1984); M.S., Ph.D. (Vanderbilt 1994, 2006) [2008]

LEONARD BICKMAN, Professor of Psychology, Emeritus; Research Professor of Psychology and Human Development
B.S. (City College of New York 1963); M.A. (Columbia 1965); Ph.D. (CUNY 1969) [1981]

KAREN E. BLANKENSHIP, Assistant Professor of the Practice of Special Education
B.S. (Vanderbilt 1976); M.S. (New Orleans 1985); Ph.D. (Vanderbilt 2004) [2008]

ANGELA BOATMAN, Assistant Professor of Public Policy and Higher Education

JESSIKA C. BOLES, Adjunct Assistant Professor of Psychology and Human Development
B.A. (Rhodes College 2007); M.Ed. (Vanderbilt 2009); Ph.D. (Memphis 2016) [2017]

ASHLEY C. BOYD, Adjunct Instructor in Human and Organizational Development
B.A. (Baylor 1999); M.A. (2003); M.Ed. (Vanderbilt 2010) [2016]

COREY E. BRADY, Assistant Professor of Learning Sciences
B.A. (Dartmouth 1990); M.S. (Chicago 1993); M.A. (Virginia 1996); Ph.D. (Dartmouth 2013) [2016]

JOHN M. BRAXTON, Professor of Leadership, Policy, and Organizations
B.A. (Gettysburg 1967); M.A. (Colgate 1968); D.Ed. (Pennsylvania State 1980) [1992]

PENELOPE H. BROOKS, Associate Professor of Psychology
B.A. (Texas 1961); Ph.D. (Minnesota 1964) [1971]

LANA BROWN, Adjunct Instructor in Human and Organizational Development

SARAH BROWN-SCHMIDT, Associate Professor of Psychology and Human Development
B.A. (Reed 1999); M.A., Ph.D. (Rochester 2004, 2005) [2016]
L. K. BROWNING, Adjunct Instructor in Education
B.S. (Middle Tennessee State 2002); M.Ed. (Vanderbilt 2005) [2006]

CHARLES W. CAGLE, Adjunct Instructor in Leadership, Policy, and Organizations
B.S., M.A. (Tennessee Technological 1978, 1980); J.D. (Nashville School of Law 1989) [2004]

CHRISTOPHER A. CANDELARIA, Assistant Professor of Public Policy and Education

MARISA A. CANNATA, Research Assistant Professor of Leadership, Policy, and Organizations
B.A. (Stanford 2000); Ph.D. (Michigan State 2007) [2008]

MARK D. CANNON, Associate Professor of Educational Leadership; Adjunct Professor of Management

ANDREA CAPIZZI, Assistant Professor of the Practice of Special Education; Director, Undergraduate Studies in Special Education

CHRISTOPHER CARPENTER, Professor of Economics; Professor of Law; Professor of Public Policy and Education; Professor of Health Policy
B.A. (Auburn 1997); Ph.D. (California, Berkeley 2002) [2013]

ASHLEY CARSE, Assistant Professor of Human and Organizational Development

GABRIELLE LYNN CHAPMAN, Adjunct Assistant Professor of Human and Organizational Development

VERA A. CHATMAN, Professor of the Practice of Human and Organizational Development, Emerita

THOMAS CHEETHAM, Adjunct Assistant Professor of Psychology and Human Development

BRITTA CHERRY, Adjunct Instructor in Human and Organizational Development

SUN-JOO CHO, Associate Professor of Psychology

DOUGLAS L. CHRISTIANSEN, Vice Provost for University Enrollment Affairs; Dean of Admissions and Financial Aid; Associate Professor of Public Policy and Higher Education

MARC CHUN, Adjunct Assistant Professor of Human and Organizational Development
B.S. (California, Davis 1988); M.A. (Stanford 1989); M.A. (California, Los Angeles 1991); M.A., Ph.D. (Stanford 1999, 1999) [1999]

DOUGLAS CLARK, Professor of Science Education
B.A. (North Carolina 1989); M.A. (Stanford 1991); Ph.D. (California, Berkeley 2000) [2000]

CLARE L. CLARKE, Adjunct Assistant Professor of Teaching and Learning
A.B. (Princeton 2001); Ed.D. (California, Los Angeles 2012) [2017]

R. WILBURN CLOUSE, Professor of Education, Emeritus
B.A. (Lipscomb 1959); M.A. (Middle Tennessee State 1968); Ph.D. (Peabody 1977) [1969]

NICOLE COBB, Adjunct Assistant Professor of Human and Organizational Development

PAUL A. COBB, Professor of Education, Emeritus; Research Professor of Teaching and Learning

DAVID A. COLE, Professor of Psychology and Human Development
B.A. (Saint Olaf 1976); M.A., Ph.D. (Houston 1980, 1983) [2001]

MOLLY FULLER COLLINS, Lecturer in Education
B.S. (Vanderbilt 1992); M.Ed. (Boston University 1994); M.S. (Kansas 2001); Ed.D. (Boston University 2004) [2011]

BRUCE E. COMPAS, Patricia and Rodes Hart Chair; Professor of Psychology and Human Development; Professor of Pediatrics

DAVID S. CORDRAY, Professor Emeritus of Psychology
B.A., M.A. (California State 1972, 1974); Ph.D. (Claremont Graduate 1979) [1989]

ANNE L. CORN, Professor of Special Education, Emerita

JOSE COSSOA, Senior Lecturer in International Education Policy

XIU CHEN CRAVENS, Associate Dean for International Affairs; Associate Professor of the Practice of Educational Policy

ROBERT L. CROWSON, JR., Professor of Leadership, Policy, and Organizations, Emeritus

JOSEPH J. CUNNINGHAM, Professor of Human and Organizational Development, Emeritus; Professor of Special Education, Emeritus
B.S., M.S. (Syracuse 1963, 1965); Ed.D. (Illinois 1975) [1969]

LAURIE E. CUTFING, Patricia and Rodes Hart Chair; Professor of Special Education; Professor of Psychology; Professor of Pediatrics

MARIA ALEXANDRA DA FONTE, Assistant Professor of the Practice of Special Education
M.S., Ph.D. (Purdue 2001, 2008) [2008]

SHANNON MARY DANIEL, Senior Lecturer in Education

ANA CHRISTINA DASILVA IDDINGS, Professor of the Practice of Elective Learning

LYNNETTE DAVIDSON, Adjunct Instructor in Human and Organizational Development
Ed.M. (Vanderbilt 2009) [2017]

GEORGE T. DAVIS, Adjunct Assistant Professor of Human and Organizational Development
B.A. (South Florida 1977); Ph.D. (Biola 1984); J.D. (Nashville School of Law 1999) [2004]

G. NICOLE DAVIS, Research Assistant Professor of Special Education

DAVID K. DICKINSON, Associate Dean for Research and Strategic Planning; Margaret Cowan Chair in Teacher Education; Professor of Education

DAVID K. DIEHL, Assistant Professor of Human and Organizational Development
B.A. (Michigan 1999); Ph.D. (Stanford 2011) [2014]

AVA D. DIVINEY, Adjunct Instructor in Teaching and Learning
M.Ed. (Trevecca Nazarene 1988) [2011]

PAUL R. DOKEC, Professor of Human and Organizational Development, Emeritus; Professor of Psychology, Emeritus; Adjunct Professor of Human and Organizational Development
B.A. (Manhattan 1962); M.A., Ph.D. (Peabody 1965, 1968) [1970]

SUSAN DOUGLAS, Assistant Professor of the Practice of Psychology; Senior Lecturer in Leadership, Policy, and Organizations

CARBETTE S. DOYLE, Lecturer in Organizational Studies
B.A. (SUNY, Oswego 1978); M.B.A. (Vanderbilt 1987) [2008]

WILLIAM R. DOYLE, Associate Professor of Higher Education
B.A. (Villanova 1996); Ph.D. (Stanford 2004) [2004]
