

Child's Name: _____

Date: _____

Now that the team has begun implementation of the Support Plan, answer the following questions prior to your "follow-up" team meeting to determine the team's follow through with the plan, successes with preventing or changing the problem behavior, and possible amendments needed to the Support Plan.

What positive changes have you observed/experienced?

What steps have you followed on the plan for:

Preventing the problem behavior?

Teaching the new replacement skills?

Responding in a new way to the problem behavior?

Responding in a way to reinforce the appropriate skills?

Do you still think that your hypothesis about the purpose of the behavior was accurate?

If not, what do you think is the real purpose of the behavior and why?

Which strategies/steps to the plan should be amended or refined?

Should any strategies/steps to the plan be omitted or changed completely?
