Teaching the World to sing in Harmony: A web services introduction

Wednesday, July 22nd, 12-1 p.m.
Baker Building, Suite 711

Join Senior VUIT Application Architect Justin Paschal for a discussion about data sharing with web services and best practices for getting started. He will cover the how, when and why’s of web services. This presentation will be “language independent” but examples will be shown in C#, PHP and Javascript.

Please note: This session is for more experienced developers with some background in the subject matter.
