

5/4/09 Statement
Mavis N Schorn
Vice-Chair, Faculty Senate

The Vice Chair position of Faculty Senate is of interest for two primary reasons. First is that I would seek to represent the faculty's interest and perspective with integrity and diligence. The role of interacting with administration as a representative of the faculty at large, not just the nursing school, is not taken lightly. The second reason is that it would be an incredible learning experience. I am interested in how the university functions; this includes exposure to how issues are addressed and problems identified and resolved. Participation in this role would be a learning experience and facilitate my growth as a citizen of the university community.
