

Brazil Course Evaluations

3/25/2008

The following is a list of courses that Vanderbilt students have taken at the University of Sao Paulo over the last few years and of the Vanderbilt course equivalencies as determined by faculty evaluators. While the list offers a fairly reliable guide to what equivalencies students might expect should they take any of the courses listed here, courses regularly undergo reevaluation by Vanderbilt faculty, and as a result the equivalencies catalogued here in no way represent a binding agreement between Vanderbilt and participants in Vanderbilt's study abroad programs. The final determination of course equivalencies in all cases will be made after students notify the Study Abroad Office of their course registration and provide any additional material requested (course descriptions, syllabi, test, and so on.)
