

BANKING

It is a good idea to open a bank account as soon as you can. A bank account is required to conduct most business transactions in the U.S. You will need a checking account to be able to pay bills, rent, deposits for housing etc. Typically, to open a bank account you will need a social security number, but since you will not receive one for at least a month most banks will allow you to use your student ID number. Be sure to give your social security number to the bank as soon as you receive one.

When you go to open a checking account take the following items with you:

- Home address
- Student ID number
- Passport and I-20 or social security number and driver's license
