

UNDP Supports Dissemination of AmericasBarometer Uruguayan Country Report

10.26.2010

As a part of its compromise to strengthen democracy in the country, the United Nations Development Programme (UNDP) office in Uruguay supports the dissemination of the AmericasBarometer Uruguayan Country Report.

The UNDP Office in Uruguay sponsors the main dissemination event, which will take place on November 10th 2010 at UPAEP (Unión Postal de las Américas, España y Portugal), Cebollatí 1470 (Montevideo, Uruguay) from 9am to 13pm.

It also sponsors, in association with the Universidad de Montevideo and the American Embassy, an innovative form of dissemination to be launched in Uruguay for the first time: a Small Grants Program for Junior Scholars. The UNDP endorses two small grants that will allow Uruguayan junior scholars to use the AmericasBarometer data to work on a to-be-published working paper while providing a stipend to do it.
