Venezuela	2006/7	Yes	--	
	2008	Yes	Yes	Yes
	2010	No	--	Yes

*LAPOP has a special arrangement to publish Colombia reports annually.

LAPOP began publishing **Insights Reports in the fall of 2008. *Insights* reports are available through the Publications tab above. *Insights* reports featuring the 2010 data have not all been published, so reports on specific countries may yet be added. Also, some regional *Insights* reports that include a specific number of countries are also available but not noted above.

LAPOP survey data can be queried using the free, no registration system for online data analysis (SODA) available by clicking under the Survey Data tab above. Or, datasets can be accessed by purchasing them either as a repository or through a subscription – see the Survey Data tab above to access any of these options. Nationals can request their own country’s data for free. Some countries have “backfile” data sets available for years prior to the AmericasBarometer reports, and these are not included in the above summary table. Please see the complete list of data sets available for the full listing including backfiles available via the Survey Data tab above.

Full-length book studies are available for free download on their respective country pages and through the Publications tab above. Comparative regional reports are available for 2004, 2006 and 2010.
