

Sick?

What services are available at the
Student Health Center?

How can I access the Health Services?

Tips to seeing a Health Care Professional:

1. **Make an appointment by calling 322-2427.** In most cases, students who call early in the day can get a same-day appointment, or at the latest, an appointment for the next day. An appointment means a much shorter wait at the Center and it is also an excellent way to establish a relationship with a health care provider.
2. **If you need to use our work-in/acute care service, keep the following in mind:** Generally fewer students come into the work-in clinic area for services between 8 and 10 am, but after 11 am, on a busy day, it can take up to 2 hours to see a health care provider.
 - The work-in area is intended for acute illnesses and injuries that cannot wait for an appointment. Chronic and routine health issues are best evaluated with a designated appointment slot.
3. For more information Visit the Student Health Center web site at www.vanderbilt.edu/student_health
4. **Stay healthy** and let us know how we can be of service.
