Nashville, TN 37232-2175

Dear Dr. Lee:

Re: Grant #RSG-05-126-01-DDC

The American Cancer Society is pleased to announce the award of a Research Scholar Grant to the Vanderbilt University Medical Center to support your research project: "Biochemical Reconstitution of Wnt Signaling." The conditions and terms of the award are as follows:

Principal Investigator:	Ethan Lee, M.D., Ph.D.
Grant Number:	RSG-05-126-01-DDC
Award Period:	July 1, 2005 through June 30, 2009
Approved Budget:	\$720,000 including indirect costs
Payment Schedule:	Monthly

Questions and correspondence concerning the awarding and management of the grant should be directed to the National Program Director listed below. Always reference the complete grant number in any communication.

Carolyn J. Bruzdinski, Ph.D.
Extramural Grants Department
American Cancer Society
1599 Clifton Road, NE
Atlanta, GA 30329-4251
404-327-6528
carolyn.bruzdinski@cancer.org

Acceptance of this American Cancer Society grant confirms that the grant will be administered according to the Society's "Policies on Research Scholar Grants" (enclosed). The following conditions also apply to the grant:

- Funds to conduct this research are not being provided by any other source.
- Participation by you and appropriate representatives of the institution at an award presentation arranged by your American Cancer Society Mid-South Division.
