

Costa Rica 1987: Elite

Technical Information

<i>Country</i>	<i>Year</i>	<i>Size of Sample</i>	<i>Weighted/Unweighted</i>
Costa Rica	1987	219	Unweighted

This is a small elite sample conducted in Costa Rica in 1987. The respondents, chosen purposively, are composed by persons who at the time held a high post in public office or who had done so in the past. The positions held by the interviewees ranged from Presidents to Ministers, Deputies and Provincial leaders. The sample compliments a mass sample also carried out in 1987.

The study was supervised by Miguel Gómez B., Professor of Statistics at the University of Costa Rica and was designed in collaboration with Professor Mitchell A. Seligson.
