*Give card "A" to the respondent*

Now we will use a card. This card has a 7 point scale; each point indicates a score that goes from 1, meaning NOT AT ALL, to 7, meaning A LOT. For example, if I asked you to what extent you like watching television, if you don't like watching it at all, you would choose a score of 1, and if, in the contrary, you like watching television a lot, you would indicate the number 7 to me. If your opinion is between not at all and a lot, choose an intermediate score. So, to what extent do you like watching television? Read me the number. *[Make sure that the respondent understands correctly]*
