

# Save on Residence Hall Damage

- **NO hanging anything on sprinkler heads or pipes.** This damages heads and can cause floods. Students damaging sprinkler heads will be financially responsible for all associated damage, both university property and student property.
- **NO “over-the-door” hanging racks.** These brackets damage doors and door frames.
- **NO dart boards.** They are against university policy.
- **NO screws or nails.** They damage all surfaces.
- **NO adhesive or duct tape** on doors, trim, carpeted surfaces, ceilings, floors, or walls. Use only white “*Hold It*” or “*Plasti-Tak*” putty.

“Pictures and bulletin boards may be hung only from the picture rail where present. Scotch tape, staples, adhesive holders, screws, brackets, tacks and nails are not to be used on the painted walls, woodwork, floors, ceilings, or doors. Hooks for picture rails may be purchased in the University Bookstore.”

“Push pins and thumb tacks have been approved on vinyl wall coverings in student rooms only. Nails are not to be used any place, at any time.”
