

SkyVU Change Agent Flight Plan

Webinar: Change Agent Communication Feedback
Date: December 7, 10a.m.
Guest Speakers: Kara Sundar and Vice Chancellor Eric Kopstain

WEBINAR SUMMARY

- Kara Sundar expressed **appreciation for all of the great feedback and questions** we have received.
 - You have been heard and **we will be responding to all of your questions** as we have the answers.
 - We **appreciate your patience and understanding** as we continue to learn more about exact functionality within the Oracle Cloud.
- Project updates from Vice Chancellor Eric Kopstain:
 - After careful consideration, the SkyVU Steering Committee has agreed on a **January 1, 2018 go-live date** for the project.
 - This schedule positions our project launch at a time to best serve the Vanderbilt community. We now have more time for testing the system and finding potential bugs, as well as more opportunities for communication and training for our community members.
 - By going live in January, SkyVU can launch with several modules originally included in the second phase of the project plan, increasing functionality for our faculty and staff.
 - This date also better aligns our payroll and tax processes, which follow the calendar year.
 - The SkyVU project team will continue to march forward at the same steady pace to ensure we can implement all aspects of the project successfully with even more opportunities to train our community.

ACTION ITEMS

- If you have not picked up your **Change Agent Resource Guide Binder**, please do so in the Loews Office Tower in Suite 1010. The best time to do so is Monday – Friday from 8:00a.m. – 4:30p.m.
- Remove the old SkyVU posters and **replace with the new posters**. New posters can be picked up from either:
