Subrecipient Statement of Collaborative Intent (SSCI)

Dear Vanderbilt University Collaborator,

All subrecipients as well as potential subcontractors who anticipate funding under a federal or non-federal “contract” must complete this form when submitting a proposal to Vanderbilt University.

- It provides a checklist of documents and certifications required by prime sponsors and it must be endorsed by the subrecipient’s authorized institutional representative (AOR) prior to proposal submission.

Are you a participating organization of the FDP Expanded Clearinghouse?
[Not sure? For a list of participating institutions: https://fdpclearinghouse.org/organizations]

- If you are, then you only complete page 3 regarding your organization, project-specific information, and Sam.gov individual exclusions.
- If you are not, then please complete both pages 3 and 4, which helps VU assess organizational information regarding monitoring risk. For details, please read here.

Part I (PAGE 3): All Subrecipients complete (FDP and non-FDP Expanded Clearinghouse participants).

Part II (PAGE 4): Subrecipients not participating in the FDP Expanded Clearinghouse complete.

If you have any questions, please contact your Vanderbilt University Department contact with whom you have been working.

Sincerely,

Sponsored Programs Administration
