## Agreements @ SPA

**Generally Vanderbilt University receives Grants, Cooperative Agreements, and Contracts.**

<table>

<td>Agreements to cover services provided by Vanderbilt University (see also Service Agreements )</td>
<td>Yes</td>
<td>Vanderbilt-provided professional services agreements are those for which individual faculty, departments or schools are engaged to provide a professional service to another party. These agreements are often related to providing pre-defined expertise in an area to another party. *If the agreement is for professional services but it is funded either directly or indirectly by the federal, state or local government, the agreement should be reviewed and approved by SPA. *Other types of professional service agreements might be for the providing services such as executive development or teacher training. If these are funded by non-governmental organizations, then the usual path for these agreements is review by the academic unit providing the service and signature by the appropriate Vice Provost.</td>

</table>
| Collaborative Research Agreement/ Collaboration Agreement (see also Teaming Agreement) | Yes                                 | An agreement covering an unfunded collaboration where both VU and the other party are contributing to the performance of a research scope of work. This can be with a for-profit, non-profit or academic entity.  
- Often in anticipation of receiving a funded award.  
  
  **For example:** VU submits application to NSF, concurrently a Chinese partner submits an application to their version of NSF; this in preparation for funding; the Collaboration Agreement between VU & Chinese Partner for proposed work in future... | No       | Yes     | Initiate a Contract Request when there is no G log or UNIV#.                                                                       |
| Confidentiality Agreement (CDA)/ Non-Disclosure Agreement (NDA)/ Proprietary Information Agreement (PIA)/ Proprietary Information Exchange Agreement | Yes                                 | An agreement that allows Vanderbilt University faculty and staff to exchange confidential information with outside third parties under obligations to protect and preserve the confidentiality of the information. Generally, CDA are entered into for the purpose of exploring a potential research collaboration or license agreement.  
  
  - For a License Agreement, contact: Center for Technology Transfer & Commercialization (CTTC). | No       | Yes     | Initiate a Contract Request when there is no G log or UNIV#.                                                                       |
| Consortium Agreement - subset of Sponsored Research Agreement (SRA) | Yes                                 | A Consortium Agreement is a contract that enables multiple sponsors to participate together in supporting research and equally sharing in the outcomes of the research. However, having more than one sponsor involved in a research project does not automatically convert the program into a consortium.  
  
  Consortium Agreements are similar to Sponsored Research Agreements (SRAs) involving a single sponsor, except that Consortium Agreements provide for the sharing of obligations, rights, and benefits among all consortium members.  
  
  - Multiple sponsors → single entity (VU) | Yes       | Yes     | 1) Log a Grant Application, Subaward or Contract Proposal & 2) Create a Contract Request in PEER if there is a G log # |
| Consultant Agreement/ Professional Services Agreement (Consultant) | No  
  **Contact:** Procurement | An agreement for the purpose of acquiring the professional services of an individual with knowledge and expertise in a specified field. Consultants are considered independent contractors rather than subcontractors or employees. Consultant agreements are not handled in SPA but are treated as purchased services and coordinated through Procurement.  
  
  **For example:**  
  - VU hiring Consultant  
  - Outgoing money | n/a | n/a | n/a |

</thead>
</table>
| Cooperative Research and Development Agreement (CRADA) | Yes | A legal agreement between a federal laboratory and the University to work together on a project. The agreement does not involve transfer of funds from the government. A CRADA allows the Federal Government and the University to optimize their resources, share technical expertise, and share intellectual property emerging from the effort. CRADAs are used by federal laboratories to provide facilities, equipment, personnel, services, or other non-monetary resources in the support of a collaborative research effort. *CRADAs will be accompanied by one or more Joint Work Statements outlining details of the intended collaboration.* | No | Yes | Initiate a Contract Request when there is no G log or UNIV#.
| Data Use Agreement (DUA) | Yes | A Data Use Agreement (DUA) is a specific type of agreement that is required under HIPAA Privacy Laws when there is to be a disclosure of a Limited Data Set (a data set considered “Protected Health Information” under HIPAA that has been stripped of certain direct identifiers) to Vanderbilt University by an outside party for the purpose of research. -All DUA should be INCOMING. -See "Data Transfer Agreement" for additional information. | No | Yes | Initiate a Contract Request when there is no G log or UNIV#.
| Data Transfer Agreement/ Data Sharing Agreement/ Data Transfer and Use Agreement | Yes | Data Transfer Agreement (may also be called Data Transfer and Use Agreement; Data Sharing Agreement, etc.): Transfer of data collected or developed through the course of research that is not considered “Protected Health Information” under HIPAA. Either from Vanderbilt to another party or from another party to Vanderbilt. -No HIPAA protected data is involved. | No | Yes | Initiate a Contract Request when there is no G log or UNIV#.
<p>| Field Experience | No | Field Experience Agreements are agreement between Vanderbilt University and another academic entity or entities, or a clinical provider which are primarily to support individual student or faculty field experiences as part of their academic training. These are generally signed by the Academic Dean of the individual school or college. | n/a | n/a | n/a |
| Intergovernmental Personnel Act Agreement (IPA) | Yes | An agreement that outlines the obligations and responsibilities of the parties when a faculty member is temporarily assigned to a federal agency. <em>Example:</em> <a href="https://www.nsf.gov/careers/rotator/ipa.jsp">https://www.nsf.gov/careers/rotator/ipa.jsp</a> | No | Yes | Initiate a Contract Request when there is no G log or UNIV#. |</p>

| **Sponsored Billing Agreement** | Yes | A Billing Agreement is a mechanism through which VU and VUMC can contract for limited work to be performed.  

**There are a few things to know:**

- Sponsored Billing agreements are only for inter-institutional relationships between VU and VUMC.
- A Sponsored Billing Agreement cannot substitute for a subcontract. If a faculty member is performing substantive scientific work on a project, a sub-award not a Sponsored Billing Agreement is the appropriate mechanism.
- Funding for Sponsored Billing Agreements only comes from a grant or a contract (sponsored awards).
- Sponsored Billing agreements provide for reimbursement of direct costs. They do not have indirect costs.  

**Incoming:** Yes  
**Outgoing:** No  
**IF NO to COEUS:** Initiate a Contract Request when there is no G log or UNIV#.  
**IF YES to COEUS:**  
1) Log a Grant Application, Subaward or Contract Proposal &  
2) Create a Contract Request in PEER if there is a G log # |
| **Subaward or Subcontract: INCOMING** | Yes | Issued under a prime award (grant, contract or cooperative agreement) where a portion of the scope of work is delegated by the prime award recipient to Vanderbilt University.                                                                                                                          | Yes     | Yes     | 1) Log a Grant Application, Subaward or Contract Proposal &

</tbody>
</table>
This log can take one of four distinct forms:
1) Grant Application (or Progress Report),
2) Subaward (incoming dollars with other institution as Sponsor and funding agency as "Prime"),
3) Federal Bid/Contract, or
4) VU billing agreement

Each of these types of proposal logs requires a corresponding Coeus proposal. The Coeus proposal should be completed first, and then the Coeus Proposal Development number can be used in PEER to import the PI, title, etc and reduce the need to duplicate typing.

Types 2 (Subaward), 3 (Federal Bid) and 4 (billing agreement) should be accompanied by a PEER Contract Request. Through the tutorial you will see how to generate and link a contract request to the completed proposal log.

Q: Why does central office require proposal logs?

A: The log serves as a "ticket" for central office to review your Coeus proposal. The log is how OSP knows you have a proposal in Coeus ready for us to review, and permits us to track the progress of the review and to correspond with you via comments about the proposal. The log also sets up and tracks the electronic COIs and PI Assurance for the proposal.

Q: Why is a log needed for a subcontract, doesn't that go through the VUMC Office of Contract Management (OCM)?

A: Yes, contracts will review, draft and negotiate the subcontract. However, for contracts that contain grant funds, a Subaward (incoming funds) log is completed to ensure that the Office of Sponsored Programs has reviewed the sub-award for compliance with the prime award, sponsor-related regulatory requirements, etc.

Let's get started....
The Home Dashboard

From the dashboard, click on the "Grants, Proposals & Awards" tile. This will take you to the Grants Dashboard page.

The grants dashboard page serves two purposes: 1) A full create menu on the left allows for generating new logs, requests, etc, and 2) the Active Items list shows PEER items that are being worked by OSP or are...
otherwise not yet "completed". Note the grey navigation bar where you can quickly go to the full list of items (including completed), or view COIs and PI assurances for your faculty.

To create the proposal log, click on "Log a Coeus Proposal" on the left.

The entry Form

**Home > Log a Coeus Proposal for a Grant Application (or Progress Report), Subaward, VU Billing Agreement or Federal Contract**

The most important fields to begin your log are the Proposal Development Number and Work Type.

If you followed central office policy, you should have already created a Coeus Proposal and recorded the Proposal Development Number. Placing the number in this field and clicking the Import button will pull in the PI, Project Title, Work Type, KSPs and for Grant Apps only the subrecipient performance sites. The Proposal Number is a required field and you will not be able to proceed without it, so it is important to create your Coeus entry before coming to PEER.

Work Type should be imported from Coeus, but in the even it is not, you will need to understand what the two types of proposal logs are and when each is used. Your choices are Grant App, Subaward, Federal Bid or Billing Agreement. If you are submitting a progress report, use Grant App as the Work Type. If you get confused as to what type of item you should submit, click on the "Work Type Help" button, which will provide an overview of each type in a pop-up window.

Type in your Proposal Development number now and click Import. You should see the form populate with data from Coeus.
The import from Coeus will automatically identify the Work Type for you, and the form will be adjusted accordingly. There are a couple of additional fields you will have to complete manually before you can proceed. (1) Do you want any originals returned to you, and (2) optionally upload any attachments. You can also add attachments after the form is submitted.

Things to note:
(3) KSPs are imported from Coeus. These KSPs are used to set up PI Assurances and the COIs. All KSPs listed will get a COI. PEER should be able to read from Coeus if any of the KSPs is a Co-PI and flag them accordingly (thereby setting up a PI Assurance), but double check them and if you do have a Co-PI be sure the box is checked appropriately. Also note (4) that outgoing sub organizations listed in Coeus are imported over as subs in your PEER log. These can be used later after the grant is awarded to trigger new subcontract requests to the contracts office.

You're ready to click Submit.
Finishing up...

Add a Grant Application (or Progress Report) or Subaward Log

Submission Successful

Thank you for your submission. You chose not to receive email confirmation. The below serves as your on-screen confirmation.

Project Title: Mechanisms of Gastric Mucous Cell Metaplasia
Project:
Principal Investigator: James Goldenring
Unit: Surgical Research 104708
Proposal Due Date to Sponsor: 21-Apr-09
Funding Opportunity or Grant Number: FA-07-070

Due to OSP: This proposal is due to central office 8 working days prior to the date entered above (the actual agency/sponsor due date). Please submit proposal should be submitted 3 days prior to the date entered above (the actual agency/sponsor due date).

Proceed to View this Item's Details
Submit another proposal or subaward
View/Edit your submitted proposals

After submitting your form, you will receive a confirmation page.

For next steps, please see the Part 2 of this tutorial for the Work Type you have submitted. (e.g. Part 2 - Grant Application work type or Part 2 - Subaward work type)
Screen Shots of How to
Create a Contract Request in PEER
### Grants Items

| Item ID | Cores Prop Dev # | Entry Date    | PI              | Unit                              | Project Title                     | Sponsor                       | Dept Owner | Work Type | Status          | Due Date | SPA Specialist | Contract Request | Search |
|---------|------------------|---------------|-----------------|--------------------|-----------------------------------|---------------------------------|-----------------------------|------------|-----------|----------------|----------|----------------|------------------|--------|

To add a new contract request, go to the "Q" number in PEER.
Click the “View/Create Contract Request” button.
I am ready to submit information to SPA and:

- I have not started a Contract Request based on this PEER Log and want to do so now. [Create new Contract Request]

There are no Contract Requests created from or linked to this grant log.
This will create a new draft contract request which you will need to complete and submit to the Contracts Office. THIS IS NOT FOR SUBCONTRACTS. FOR OUTGOING SUBS, FIRST ADD EACH UNDER "LIST SUBRECIPIENTS", THEN USE THE "SUBMIT SUBCONTRACTS" BUTTON.

Cancel  OK

The answer to this question is "OK" if you are trying to add a Contract Request.
By putting your own name in both of these spots, you can skip requiring Department Chair approval.

C48849 is editable only by you. Expires in 5 minute(s). Release

Complete each field below. Click "Save & Continue" to move to the next step. Use the menu on the left to return to this step later if you need to make changes. All field required unless otherwise indicated.

Do you have a draft contract? (Yes, you will attach the file in step 6. Answer "No" if you expect a contract but have not yet received from other party/sponsor)

Does the proposed project involve any one of the following: 1) Human Embryonic Stem Cells, 2) Human Pluripotent Stem Cells, or 3) Human Fetal Tissue? Select the applicable answer.

Are Human Subjects (including survey, interviews, registries, or tissue samples) to be used at Vanderbilt?

Are Vertebrate Animals to be used at Vanderbilt?

Did the PI or Responsible Person have any role in developing the scope of work/study design/protocol? If yes, please explain.

Please Explain: Fill in yes for this if any question.

Will there be participation/collaboration by any Vanderbilt Medical Center faculty/staff in this project? (Yes, anyone who's paid salary comes from VMC rather than US) If yes, you will answer a couple more questions about the below.

Saying yes is appropriate here since the PI will at minimum approve the Scope of Work.
Will this contract include additional outgoing sub-contracts? Do NOT answer "yes" if this contract is itself a sub-contract (that’s not what we’re asking). Answer "yes" only if this contract will have additional sub-contracts outgoing from it.

Click "Add Sub-contract" to create a new draft contract request linked back to this one. Do this for all known outgoing sub-contracts that will be under this contract (NOT including this contract itself).

There are no Outgoing Sub-contracts linked to this contract request.
C48849: Janos Sallai/Defense Advanced Research Projects Agency

Based on your responses, we expect the following items to be uploaded below:
- Draft Agreement
- Protocol or Scope of Work
- Budget

There may be other documents, the above is not intended to be a complete list.

This is where you upload the Statement of Work, Budget, and any draft agreement if you have any (you may not at this stage). There might be other forms provided to you by the sponsor, this is the correct place to attach them.

Additionally, it would be beneficial and make your negotiation go faster if you would upload an "Instructions" document explaining what is desired from the SPA team in this contracts negotiation. This is not required, but if there are unusual circumstances, please don't hesitate to explain them by typing them in a document, saving it, and uploading here. For instance, if there are forms that need to be completed along with the contract negotiations, please explain in this "Instructions Document".

Submission History

Created By: Abigail Regan
Date Created: 2018-09-09 09:16:03 AM

Submission Status & Approvals:
PI/Responsible Person has approved
Yes [on 2016-09-01 03:05 PM] from PI Assurance on G81177
Departmental Approver has approved
Yes [on 2016-09-01 12:05 AM] Approvals from Asus
Request Status
Draft

The following errors must be corrected before you may submit this contract:

Step 6: Documents being sent via courier: Selection must be made
Step 2: Indirect Rate: value required if there is funding involved
Step 2: Sponsor or Prime is a Federal Agency, you must select Federal Funds = "Yes."
Step 6: Expecting at least one attachment

This page will show you the issues with the submission. You can go back and correct them and then, once all are addressed and the appropriate approvals have been made, then it can be submitted.
Please note, as long as this is in Draft Form, no one in SPA will be notified of its existence. It must be submitted to send SPA a notification.
Step 1: Go to the “CONTRACTS” tab, and click on “View All Requests” option.

Step 2: You’ll see a full list of the Contract Requests that you have open. You will click on the button: +New Request, top right button.

Step 3: A window will open, “CONFIRM CREATION OF DRAFT CONTRACT SUBMISSION”. Click on option: +Create Request.
Step 4: Select “Type of Request” – “New Project (no existing contract #),” then complete the rest of the Contract Request, attaching all available documentation.
