As we head into April and spring continues to unfold, there are lots of fun events planned at Vandy and in Nashville, so be sure to check at least one of them out! Celebrate Earth Day on campus by attending our final Green Bag Lunch of the year featuring an introduction to Northwest Earth Institute Courses, and Shade Grown, an open mic night showcasing performances and works inspired by sustainability and the environment. You may also be interested in checking out Nashville’s 11th annual Earth Day Festival in Centennial Park. If you haven’t already heard, VU is proud to announce that the Central Library’s renovation has received Gold certification from the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) Green Building Rating System! Additional information about the stories and events included in this newsletter are available on the SustainVU website and Facebook page. Have a wonderful April!

**April 18 Green Bag Lunch to introduce community to sustainability discussion group**

The Sustainability and Environmental Management Office (SEMO) and the American Studies Sustainability Project will sponsor the eighth and final installment of the Green Bag Luncheon Series on **Wednesday, April 18 from noon to 1 pm in Sarratt 189**. Join Rebecca Selove (Peabody ’84) and her husband John Patrick, Northwest Earth Institute (NWEI) Ambassadors, for an introduction to NWEI small discussion groups, which explore the meaning of sustainability and the environmental impact of choices and actions during multiple, discussion-based sessions. Selove and Patrick will bring NWEI discussion booklets on several potential course topics and will explain how groups get started and what happens during discussion groups. So bring your lunch and join us to learn about sustainable living course offerings available through NWEI! Individuals who have attended three or more sessions of the year-long Green Bag lunch series will be entered in a drawing to receive one of two larger giveaways! [Read the full announcement for more information.](#)

grown coffee and cake will be provided. For more information about Shade Grown, read the full announcement.

Vanderbilt Central Library earns gold for “green” renovation

Vanderbilt University’s Central Library has been awarded gold certification from the U.S. Green Building Council’s Leadership in Energy and Environmental Design (LEED) Green Building Rating System for its recently completed renovation. The recognition makes Central Library the first Vanderbilt campus renovation to achieve this high honor. Vanderbilt now has a total of 12 LEED-certified buildings.

As part of its LEED Gold certification, the renovation achieved credits for:

–installation of 30 percent more efficient lights
–installation of an Encelium lighting control system
–enhanced use of natural lighting and daylight harvesting
–recycling of 75 to 80 percent of demolition waste
–placement of recycling containers in 25 locations throughout the building
–installation of dual flush/low flow toilets and low flow faucet fixtures
–installation of high efficiency variable flow refrigerant HVAC mechanical system
–recycled content in 10 percent of the new furniture and furnishings

Credits were also given for the Central Library’s “community connectivity” as the building is located within one-half mile of a residential area and 10 basic services. In addition, there are two bus routes within one-quarter mile of the building.

The library’s Green Team is working with its renovation partners.
USGBC Monthly Membership Meeting—April 27

The U.S. Green Building Council of Middle TN will host their monthly membership meeting on Friday, April 27 from 11:30 am to 1 pm at the Adventure Science Center. A buffet style lunch will be served ($20 for members, $30 for non-members). Read more…

Household Hazardous Waste drop-off events this Spring in surrounding counties

Are you a non-Davidson County resident looking to dispose of your household hazardous waste (HHW) safely? The following items may be dropped-off at special county-wide collection events which will be held over the next few months: solvent-based materials (varnish strippers, enamel paints, and driveway sealants); corrosive items (toilet bowl cleaner, oven cleaner, and drain opener); reactive chemicals (ammonia, chlorine based products, and mothballs); and toxic materials (antifreeze, pesticides, and wind shield washer fluid). View the 2012 HHW collection schedule for event times and locations. Davidson County residents may bring HHW to the East Waste and Recycling Facility at any time. Visit Metro’s Household Hazardous and Electronic Waste webpage for more information. To learn more about HHW and some alternatives, check out Metro’s HHW brochure.

For more information on any of these stories, events and more, visit the SustainVU website at www.vanderbilt.edu/sustainvu or contact the Sustainability and Environmental Management Office at sustainvu@vanderbilt.edu or (615) 322-2057.
