Home Cleaners Audit

List the cleaners you use to clean your home to the best of your memory:

Gather all your cleaning supplies in to one location (I suggest a large table)

Quick sort: divide them into two groups (this should be based on first glance):
  • Cleaners that you know you are getting rid of
  • Cleaners you think meet your criteria for “green”

Check the labels of your “keep” pile and re-sort based on your findings

What will you use for each of these?

All purpose cleaner
Abrasive scrubber
Window and mirror cleaner
Dish detergent
Laundry detergent
Disinfectant
Room spray
Hand soap
Wood Cleaner
