Directions to Vanderbilt from Huntsville
(Exit names may not be exact)

You will be driving towards Nashville on I-65.

Pass the Old Hickory Boulevard Exit. You are now inside of Metropolitan Nashville, Davidson County.

Pass the Harding Place exit and move to the right lane.

Pass the Armory Drive exit, and be sure that you are in the next-to-the rightmost lane.

Take the I-440 West Exit towards Memphis. You will now be driving around the south side of Nashville. (Note that you can also get to Vanderbilt from I-40 close to downtown, but I-440 has less traffic)

Take the Hillsboro Pike/21st Avenue exit (exit-only lane on the right – stay in the rightmost lane)

You are now south of downtown and Vanderbilt, and are heading towards the north.

Drive through the shopping area named Hillsboro Village and stay in the left lane. At the Teacher’s Credit Union (Multistory building on the left), take a left onto Blakemore/Wedgewood and then an IMMEDIATE diagonal right through the Vanderbilt columns and drive north on 22nd avenue.
Park in the Second Parking garage on the right – the main hospital East Garage

Walk west, up the hill to the cul-de-sac at the entrance to the Medical Center North

Turn right just after the round wing. You will pass between the round wing and a quaint two-story dorm (McTyere)

The Physics Building of the Stevenson Center complex is the 8-story 1960's boxy brick and concrete building just past the Round Wing. Stop at the bend in the sidewalk just past the Round Wing, get out, walk North to the entrance to the Physics Building.

Go into the building, find the elevator, and press 8. (You will in fact be entering on the 3rd floor..). I am in Room 6809 (6=Physics, 5=Chemistry; 8= eighth floor; 07=room).

If you get lost, I am at (615) 343-4124.
