Art Adventures Enrichment Program

Students ... will think wonder, explore, and discover.

will learn about the possibilities of materials and tools.

are encouraged to collaborate and use creativity and critical thinking skills.

will gain confidence to express their own ideas.

will embrace mistakes as part of the learning process.

VCFC Art Adventures Staff:
On Site Admin
Elaine Gallagher (she/her/hers)
Kathleen Seabolt (she/her/hers)
Linda Wilson (she/her/hers)

Teaching Team
Carson Kreidler (they/their/their)
Heather Rich (she/her/hers)

Substitute Teacher
John Lancaster (he/him/his)

Art processes are an effective way for students to explore and communicate their big ideas by representing these thoughts in unique and varied ways.

Children may take the time they need to engage with synchronous online academic learning assigned by their primary school on a device they bring from home.
Art Adventures celebrated Dot Day by making watercolor dots to attach to the birthday tree, the kids put down their name and birthday so we know when to celebrate throughout the year. We made collages using recycled books and scrap paper. The children continued to make doodle books and About Me books as well as origami fortune tellers.

We made Oobleck, a non-Newtonian fluid that changes between being a liquid and a solid depending on the pressure and force applied to the substance.
Hello, my name is Heather. I am thrilled to be part of the Art Adventures program this year because I love art and creating! I have been working with students for over ten years in various settings, including substitute teaching, tutoring, counseling, and as an Au Pair. My educational achievements include a Bachelor’s degree in Psychology and a Master’s degree in Education with a focus on Learning, Culture, and Society. Some of my favorite hobbies include traveling, gardening, and collecting upcycling supplies. I have also most recently learned how to make handmade soap.

Meet the Teachers!

Hi! My name is Carson Kreidler, I’m a graduate of Kent State University with an undergraduate degree in special education. I am so excited to be helping your children learn, grow, and use art to help express themselves this school year!

Safety and Health:
Thank you for partnering with VCFC to create a safe and healthy environment for your child. A reminder that masks should fit properly over nose to chin and be laundered each night after a day of wearing. Please thoroughly review the Art Adventures Family Handbook.

To address COVID-19, the respiratory illness caused by a novel coronavirus, VCFC has developed, in consultation with VUPS and others, a prevention and containment strategy specific to children’s services. If you are experiencing symptoms or have exposure concerns, the Vanderbilt University COVID-19 website has clear guidelines on when to self-isolate and how to report: vu.edu/coronavirus.

VCFC is grateful for parents managing their children’s wellness by making decisions out of an abundance of caution with consideration for the impact to our learning community. To provide more support with this decision-making, VCFC seeks to highlight the following resources:

Metro Public Health Department COVID-19 telephone hotline with nurses and other public health professionals available to answer questions, provide the latest information about COVID-19, and assist Davidson County residents with the assessment process - 615-862-7777

VUMC COVID-19 hotline at (888) 312-0847 for assessment

The flyer at this link may help individuals to understand terms: https://www.vumc.org/health-policy/sites/default/files/public_files/Social_Quarantine_Iso_KSL.pdf

*If you or your child are experiencing symptoms or have exposure concerns, do not enter the Art Adventures facility.*
FAQ for Families Enrolled in VCFC Programs
Maintaining the health and safety of our community is critical.

1. What if VCFC has a confirmed case of COVID-19?
   ❖ If a staff, child or parent/guardian is confirmed to have COVID-19, the facility will close immediately for deep cleaning and sanitization (approximately three days.)
   ❖ VCFC will report this immediately to VUPS, POM, and DHS, and others as necessary.
   ❖ Staff in close contact with the individual will be required to self-isolate for 10 days.
   ❖ Children in close contact with the individual will not be re-admitted to the program for 10 days and parents are asked to monitor the child for COVID symptoms.
   ❖ The individual who has the confirmed case will not be re-admitted to the program until after self-isolating for the required period per CDC guidelines. The individual additionally must be cleared by a healthcare professional.
   ❖ Families that fail to comply with reporting procedures will be disenrolled from the Art Adventures program.

2. How Should a Parent/Guardian Respond if Their Child is Exposed to COVID-19?
   ❖ If a child is exposed to COVID-19 the following steps must be taken on their behalf by the parent or legal guardian. Exposure is defined as “close contact” the child having been within six feet of a person with a confirmed case of COVID for 15 minutes or more during the period when the infected individual was contagious. Final determination that your child is a close contact should be confirmed by trained contact tracing.
   ❖ The parent/guardian will contact Occupational Health at 615-936-0955 for assessment and directions on next steps.
     • The parent/guardian should explicitly state that the child attends group care in an early childhood program.
     • The parent/guardian should include members of the household and their ages in their report, specifically seeking guidance for siblings in the home.
   ❖ The parent will immediately inform VCFC via email at cfcadmin@vanderbilt.edu that they or their child has been confirmed as a close contact exposure.
   ❖ The individual who has the confirmed case will not be re-admitted to the program until after self-isolating for the required period per CDC guidelines. The individual must also be cleared by a healthcare professional. Current guidelines for self-isolation are:
     o If the individual has symptoms, isolation must be for 10 days from the onset of symptoms; in addition, the individual cannot be re-admitted until symptoms have improved and the individual has been fever-free for 24 hours without the use of fever-reducing medication.
     o If the individual does not have symptoms, isolation must be for 10 days from the positive test date.
   ❖ The parent/guardian should consult with their child’s pediatrician.
   ❖ Families that fail to comply with reporting procedures will be disenrolled from the Art Adventures program.
For Medical professionals: If contact occurs while wearing recommended personal protective equipment or PPE (e.g., gowns, gloves, NIOSH-certified disposable N95 respirator, eye protection), that contact will NOT be considered close contact for purposes of this policy. Parents are expected to change their clothes and shoes and thoroughly wash their hands, arms, face and neck after their work shift and prior to entering the program.

3. What strategies will VCFC have in place to prevent the spread of COVID-19?
   ❖ Parents will monitor children for COVID symptoms (new uncontrolled cough that causes difficulty breathing, temperature of 100 degrees or higher, sore throat, diarrhea, vomiting, or abdominal pain, new onset of severe headache especially with fever) and not bring them to program if these symptoms have been present within the past 24 hours.
   ❖ All persons use hand sanitizer before entering the building or touching keypads.
   ❖ All persons practice social distancing, such as when a line forms inside the lobby.
   ❖ All persons will wear a mask or facial covering over nose and mouth on VU property.
   ❖ Parent and children’s temperatures will be taken by a staff member before parent sign in and entering the classroom. Parents with a temperature registering 100 degrees or higher may not proceed beyond the temperature taking station; a staff member will take their child into the classroom.
   ❖ Staff and children will wash hands for 20 seconds with soap and water at sign-in, before and after eating and after toileting.
   ❖ Families/staff will promptly report illness or COVID exposure to the program.
   ❖ VCFC will work with families whose exposure or symptom status changes during the day when their child is in care. It is important to remember, parents experiencing symptoms or with exposure concerns should call ahead of pick up to work with our staff on a plan that includes avoiding entering the facility.
   ❖ Families that fail to comply with these strategies will be disenrolled from the Art Adventures program.

4. Will I be reimbursed if Art Adventures is closed for COVID-related response?
   ❖ No. *There is no tuition proration for dates of closure or child absences.*
   ❖ VCFC will only close Art Adventures out of an abundance of caution to take the time necessary to implement established protocols, including cleaning and sanitizing the program’s classrooms. We regret any inconvenience to working families.

    VCFC *reserves the right to revise this information at any time to ensure compliance with DHS, TN Department of Health, and Vanderbilt policies and practices.*
