

Healthcare, Inc.

October 16, 2023

I have attached for this week's pre-reading 3 articles that I think you will find of interest. The first Bain Value Based Care explores what value-based care is and how organizations are planning to meet the need for new ways of thinking about healthcare and its financing. The second article is from a New York Times piece on Corporate Giant buying up primary care practices. We will talk about this extensively in class. The third article is a comprehensive discussion of means to improve specialty care by the Harvard Business Review.

As always, these are for you. Either read the summaries, skim, or do a deep dive.

Enjoy!
