MCAT High-Yield Concepts: Biochemistry

Gearing up for the MCAT?

This spring, Tutoring Services is offering two small, weekly review groups for MCAT High-Yield Concepts: Biochemistry, our new MCAT support pilot program.

MCAT HYC will bring together students interested in reviewing high-yield biochemistry concepts in a collaborative group setting as they prepare for the MCAT. Each group will be facilitated by a senior biochemistry Tutoring Services tutor. As students work together to answer questions and clarify concepts, their tutor is on hand to help troubleshoot.

Join an MCAT HYC Group!

Mondays from 4-5p  
Facilitated by Colin Slaymaker

Wednesdays from 6-7p  
Facilitated by Allie Yan

To find out more and to register for a group, visit us at vanderbilt.edu/tutoring/MCAT.php.

Participants will be assigned to groups on a first-come basis. Each pilot group can accommodate 10 students. Group meetings begin March 9 and run for 8 weeks.

MCAT HYC: Biochemistry has no affiliation with commercial, for-profit test prep companies and is not designed to guide students through MCAT-specific test-taking strategies.
